William F. Thompson. Mrs. Lillian M. Thompson, Roundup, Mont.
Joseph Wakessewski. Mrs. Leona Breskowitz, 4554 Style Street, Philadelphia, Pa.
Benjamin Wolfson. Mrs. Jennie Wolfson, Woodbine, N. J.

Corrections.

With reference to previous report, name of Pvt. Theofil Knofski should be classified under "Died of accident and other causes," instead of "Died of disease."

Pvt. Joseph Ruffo should be classified under "Killed in action," instead of "Missing in action."

NAVY

The Navy Department reports the following casualties:

Wade Hamilton White, seaman, United States Navy, killed aboard the U. S. S. *Hannibal*, on August 17, by the accidental firing of a machine gun. Father, George T. White, Lake Charles, La.

Alfred John Johnson, electrician, third class, radio, United States Naval Reserve Force, lost overboard from submarine chaser, August 17, 1918. Mother, Mrs. Delia Johnson, 1026 Second Avenue, New York, N. Y.

MARINE CORPS

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	5
Died of wounds received in action	1
Wounded in action (severely)	3
Wounded in action (degree undetermined)	6
Total	15

Killed in Action.

Sergt. John H. Cobeldick. Frank Cobeldick, Forgan, Okla.
Corpl. Earl P. Casner. Adolphus Casner, 314 Oak Street, Carthage, Mo.

PRIVATES.

John H. Corbet. John F. Corbet, sr., 2428 North Talman Avenue, Chicago, Ill.
Carl J. Dittman. Mary Dittman, General Delivery, Woodstock, Ill.
Arthur C. Still. Mrs. Henry E. Still, 106 Ansonia Apartment, Tacoma, Wash.

Died of Wounds Received in Action.

Corpl. Joseph E. Bush. Mary C. Bush, Fairplay, Mo.

Severely Wounded in Action.

PRIVATES.

Harvey Bixler. Annie Boswell Bixler, 6050 Laurel Street, New Orleans, La.
Tony Borrelli. Silver Borrelli, 7036 South Hermitage, Chicago, Ill.
Roy A. Cash. Ella Cash, 27 Hazel Street, Pine Bluff, Ark.

Wounded in Action (Degree Undetermined).

Corpl. Edward D. Quinn. Mary Quinn, 526 North Paxon Street, Philadelphia, Pa.

PRIVATES.

Walter E. Nierstheimer. Mary Nierstheimer, Newport, Ky.
Charles T. Soniat. Marie Soniat, 1530 Fidelity Street, New Orleans, La.
Frank R. Stahl. Catherine Stahl, Barnesville, Minn.
Everett L. Thomas. Elvira Thomas, New Madison, Ohio.

Previously Reported Missing.

Samuel C. Mullin. Martha Mullin, 421 Shetland Avenue, Pittsburgh, Pa.

NEW LIST OF U. S. SOLDIERS WAR PRISONERS IN GERMANY

The War Department authorizes the publication of the following list of soldiers (with their emergency addresses) of the American Expeditionary Forces, whom it has been ascertained are now prisoners of war in Germany:

Camp Darmstadt.

Pvt. Raymond Earl Berry. John Edward Berry, father, Salona, Pa.
Pvt. William A. Dickey. Mrs. Margaret Dickey, mother, Mill Hall, Pa.
Pvt. (first class) Lee Gilbert Hanna. Mrs. Minnie Hanna, mother, Castanca, Pa.
Pvt. William J. Dolan. Mrs. B. Dolan, mother, 287 Mill Street, Lockport, N. Y.
Pvt. Lewis S. Wheeler. David M. Wheeler, father, Wilson, N. Y.
Pvt. Samuel Bergwerk. Jonas Bergwerk, father, Lemburg, Austria.
Pvt. William Milton Kaplan. Mrs. Annie Kaplan, mother, 54 East One hundred and eighteenth Street, New York, N. Y.
Pvt. Ernest C. Jacobs. Mrs. Mary E. Jacobs, mother, 22 Moulton Street, Williamantic, Conn.
Pvt. David Roth. Jacob Roth, father, 718 East Fifth Street, New York, N. Y.
Pvt. (first class) George W. Tallman. Mrs. Mildred Tallman, wife, 107 Ambrose Street, Rochester, N. Y.
Pvt. Hyman Resnikoff. Isadore Resnikoff, father, 1565 St. Marks Avenue, Brooklyn, N. Y.
Pvt. Alex Sherewifski. Joseph Sherewifski, brother, Jewett City, Conn.
Pvt. John Garberina. Mrs. Rose Garberino, mother, 593 Division Street, Buffalo, N. Y.
Pvt. William A. Fernands. Mr. Angelo Fernands, father, 107 Christopher Street, New York, N. Y.
Corpl. Thomas J. Higgins. Joseph H. Higgins, brother, Amsterdam, N. Y.
Pvt. Morris Gutentag. Mrs. Sarah Gutentag, mother, 59 Second Avenue, New York, N. Y.
Corpl. John F. Smith. Mrs. Violet Smith, mother, 4920 Oakdale Avenue, Chicago, Ill.

Camp Munster, Westphalia.

Pvt. George L. Hawley. Floyd Hawley, father, 49 Forest Street, Hartford, Conn.

Camp Unknown.

Second Lieut. Bryan M. Battey. Sumpter B. Battey, father, 700 West One hundred and seventy-ninth Street, New York, N. Y.
Corpl. Harvey Phipps. Mrs. Nancy Phipps, mother, 704 West Cornwell Street, Aurora, Ind.
Pvt. Lewis Walters Gibb. Jane Walters, aunt, 380 East Main Street, Lock Haven, Pa.
First Lieut. Edward R. Taylor. Mrs. Annie S. Taylor, wife, Howard Street, Bellefonte, Pa.
Second Lieut. William Brown. Mrs. Pearl E. Brown, Scranton, Pa.

ASSIGNED TO FORT OGLETHORPE.

Special Orders, No. 189:

22. Maj. Roy S. Brown, Signal Corps, is relieved from duty with the Department of Military Aeronautics and will proceed to Fort Oglethorpe, Ga., and report to the commanding officer, 11th Cavalry, thereat, for duty.

Coal Administration Order Restricting Shipments From Certain Great Lakes Docks

The United States Fuel Administration issues the following order relative to zoning anthracite coal:

It appearing to the United States Fuel Administration that it is essential to the national security and defense, the successful prosecution of the war, and the support and maintenance of the Army and Navy, that the greatest possible supply of anthracite coal should be produced in the United States; that such production, even though all other conditions necessary therefor are present and capable of employment, is, because of the locations of the mines and the nature of the commodity, limited in part by the capacity of existing transportation facilities for the movement of the coal from points of production to points of delivery and consumption; that the amount of production, notwithstanding a continuance of the other present favorable conditions therefor, can be immediately increased by means of the greater utilization of coal cars, locomotives and other railroad facilities; and that among such means are the elimination of unnecessarily long hauls and of avoidable cross hauls of loaded and empty coal cars, and the provision of the necessary supply of such coal for each consuming section of the country from the one or more coal fields nearest thereto, or most readily accessible thereto, either in actual distance or in the freedom from congestion and delays in rail movements between such coal fields and such section; and that apportionment of the anthracite coal produced in the United States will facilitate the movement of anthracite coal and is necessary for the production of a sufficient quantity of anthracite coal to aid in the successful prosecution of the war,

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that, until further or other order of the United States Fuel Administrator, and subject to revocation and modification by him from time to time and at any time hereafter, every shipper (which term shall include every person, firm, corporation or association shipping as owner, lessee or purchaser of any coal from lake docks) of anthracite coal from any of the coal docks in the States of Minnesota, Wisconsin, and Illinois and the Upper Peninsula of the State of Michigan, located along the western bank of Lake Michigan and Lake Superior shall, except as hereinafter provided, sell, ship and distribute such coal only to dealers and consumers for use and consumption within the following described section of the United States, viz:

(1) The States of North Dakota, South Dakota, Minnesota, and Wisconsin.

(2) The Upper Peninsula of the State of Michigan.

(3) That portion of the State of Iowa located on and north of a line coincident with the Illinois Central Railroad from Dubuque to Sioux City, Iowa.

(4) The following named counties within the State of Illinois: Cook, Stephenson, Winnebago, Boone, McHenry, Lake, Ogle, Dekalb, Kane, Dupage, Lee, Kendall, and Will.

This order shall be effective on and after August 3, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

Keep Bulletin Posted in All U. S. Post Offices

Reports having been made that at some post offices THE OFFICIAL (United States) BULLETIN is not being posted regularly for public reading in accordance with Postmaster General Burleson's orders, postmasters are again reminded of this important duty. It should be remembered that THE BULLETIN is the only publication available to all sections of the country that prints daily the complete and correct casualty lists from our armies oversea exactly as they are issued by the War Department. Many newspapers print only the lists having local interest in their own territory. THE BULLETIN prints every name and address, thus making it a certain means of informing friends and relatives, wherever they may be, of the fate of a soldier or sailor, no matter where his home town or city.

Postmasters are urged, aside from their duty as officials, to make it their patriotic and personal duty to see that the public has the fullest benefit of this privilege.

The Postmaster General's order follows:

All postmasters are directed to post THE OFFICIAL BULLETIN *daily in a conspicuous place in the lobby or other portion of their respective post-office buildings where the public can read it; and, without expense to the Government, each and every postmaster is earnestly urged to see that this* BULLETIN *is made available to as many people as possible in the manner suggested.*

A. S. BURLESON,
Postmaster General.

Sealed Bids Wanted

General Engineer Depot, United States Army, 1438 U Street, Washington, D. C.—Sealed bids are wanted until dates indicated under circular proposals as follows for furnishing miscellaneous supplies for the General Engineer Depot. Additional information may be had upon application to the purchasing officer as above:

Proposal No. 1083, opening of August 23, 1918.—Portable searchlight carriages as per specifications.

Proposal No. 1085, opening of August 23, 1918.—Switches, carbon, and lighting appliances as per specifications.

Proposal No. 1088, opening of August 30, 1918.—Three thousand attachment plugs as per specifications.

Proposal No. 1089, opening of August 26, 1918.—Paint as per specifications.

U. S. MARINE CORPS AVIATOR WINS PRAISE OF THE BRITISH

Secretary Daniels authorizes the following:

That a United States Marine Corps aviator, Lieut. Edmund G. Chamberlain, has taken part in 15 bombing expeditions over the German lines is stated in a report from the commander of the British squadron with which he is operating. The report, which has just been received at Marine Corps Headquarters, Washington, follows:

Active in Many Raids.

"Lieut. Edmund G. Chamberlain has been attached to squadron, Royal Air Forces, under my command from June 20 to July 13, 1918. During this period he has taken part in 15 bombing raids over the enemy lines, four of which the objectives were —— to —— miles over the enemy territory, mostly Zeebrugge Mole, lock gates, torpedo-boat destroyers, Zeebrugge harbor, Zeebrugge-Bruges canal, and Bruges and docks. The fifth raid in one day, a special raid at low altitude, was commended by Gen. ———.

"During the raid on July 5, our formation was attacked by two large formations of about 15 or 20 enemy scouts, Fokker biplanes, Pfalz and Albatross scouts. Our formation destroyed six enemy airplanes and drove down three others out of control. All our machines returned safely, partly due to the fact that Lieut. Chamberlain assisted his leader.

Proved His Capabilities.

"During practically all our raids, and including those Lieut. Chamberlain took part in, our machines have been attacked by enemy airplanes anywhere from 8 to 35 miles behind the lines. Lieut. Chamberlain has proved himself an experienced pilot at all altitudes over enemy territory, and his capabilities as a war pilot are excellent. On one occasion, returning from Bruges, he was shelled continuously for 45 minutes, and although six of our machines were shot out of action, but returned safely, he was undisturbed and flew out for another job. It is with regret that I part with the services of this officer."

Lieut. Chamberlain is a son of Edwin Chamberlain, 1428 Main Avenue, San Antonio, Tex. He entered the Marine Corps April 13, 1917.

CIRCULAR PROPOSAL NOTICE.

WAR DEPARTMENT,
GENERAL ENGINEER DEPOT,
UNITED STATES ARMY,
Washington, D. C., August 14, 1918.

All of the material covered by Circular Proposal No. 1086 is intended for use in the United States.

Packing for domestic shipment only will, therefore, be required. That ordinarily used by the trade will be acceptable, but must be specified in quotation.

EARL WHEELER,
Lieutenant Colonel, Engineers,
United States Army,
Engineering and Purchasing Officer.

Treasury Circulation Statement for August 1, 1918

The Treasury Department issues the following circulation statement as of August 1, 1918:

Circulating medium.	I. General stock of money in the United States.[1]		II. Held in the Treasury as assets of the Government.[2]		III. Held by Federal reserve banks and Federal reserve agents against issues of Federal reserve notes.[3]		IV. Money in circulation.[4]			
	Aug. 1, 1918.	Aug. 1, 1917.	Aug. 1, 1918.	Aug. 1, 1917.	Aug. 1, 1918.	Aug. 1, 1917.	Aug. 1, 1918.	Aug. 1, 1917.	July 1, 1918.	Jan. 1, 1879.
Gold coin (including bullion in Treasury)	$3,080,767,801	$3,086,218,498	$267,152,371	$188,163,487	[5]$656,622,355	$3,100,000	[6]$1,168,048,306	$748,148,372	$1,107,531,243	$96,262,850

Total	6,896,089,799	5,513,292,894	390,798,058	248,268,325	945,895,180	412,940,100	5,559,396,561	4,852,084,469	5,384,797,909	816,266,721
Population of continental United States estimated at							106,012,000	104,288,000	105,869,000	48,231,000
Circulation per capita							$52.44	$46.53	$50.86	$16.92

[1] Includes gold held in the Treasury for the redemption of outstanding gold certificates ($988,944,769, and Federal reserve gold settlement fund $1,251,613,960 on Aug. 1, 1918) and standard silver dollars held in the Treasury for the redemption of outstanding silver certificates and Treasury notes of 1890 ($362,972,704 on Aug. 1, 1918). Amounts of Federal reserve bank notes and national bank notes are amounts issued by Treasury to banks.

[2] Includes the gold reserve fund held against issues of United States notes and Treasury notes of 1890 ($152,979,025.63 on Aug. 1, 1918), and the gold or lawful money redemption funds held against issues of national bank notes, Federal reserve notes, and Federal reserve bank notes ($122,811,094.90 on Aug. 1, 1918). Does not include deposits of public money in Federal reserve banks, national banks, and special depositaries ($1,461,123,435.70 on Aug. 1, 1918), nor does it include funds held in trust in the Treasury for the redemption of outstanding gold and silver certificates and Treasury notes of 1890. (See Column I.) For a full statement of Treasury assets and liabilities see daily statement of the United States Treasury and monthly financial statement.

[3] Includes the gold reserve held by banks against issues and gold or other funds deposited by banks with agents to retire Federal reserve notes in circulation and own Federal reserve notes held by Federal reserve banks.

[4] Amounts of various kinds of money in circulation determined by deducting from the appropriate item in the general stock of money (Column I), the amount held in the Treasury as assets of the Government (Column II), and the amount held by Federal reserve banks or Federal reserve agents against issues of Federal reserve notes (Column III). Gold and silver certificates and Treasury notes of 1890 in circulation are represented in the general stock of money by equal amounts of gold coin or bullion and standard silver dollars held in Treasury for their redemption. (See Column I.) Amounts of Federal reserve bank notes and national bank notes are amounts of issues by Treasury to banks less amounts held in Treasury as assets of the Government.

[5] Includes $638,452,850 credited to Federal reserve agents in the gold settlement fund deposited with United States Treasurer.

[6] Includes $613,161,110 credited to Federal reserve banks in the gold settlement fund deposited with United States Treasurer.

[7] Includes own Federal reserve notes held by Federal reserve banks.

Digest of Opinions Recently Rendered by Judge Advocate General of the Army

Right to Supply Artificial Limbs.

Officers, enlisted men, and nurses who have been separated from the active service and whose injuries were incurred on or after October 6, 1917, are not entitled to commutation in lieu of artificial limbs or apparatus, under section 4788, Revised Statutes. Said section 4788 is a portion of Title LVII, which contains pension laws, and is, therefore, by section 312 of the war-risk insurance act (40 Stat., 398, 408), made inapplicable to persons who were, on October 6, 1917, or thereafter, in the military or naval service, except in so far as rights thereunder accrued prior to that date. No right to artificial limbs, resection apparatus, or commutation thereof accrues prior to injury. It is, however, lawful for the Surgeon General to furnish for the use of persons injured in active military service on or after October 6, 1917, who are still in the active service, such artificial limbs, apparatus for resection, and other appliances as may, in his opinion, be necessary or suitable for their proper medical or surgical treatment. So far as practicable, such appliances should be furnished temporarily and for the period of their treatment only, without donating them to the injured persons, for section 302 of the war-risk insurance act evidently contemplates that such appliances as are needed for the permanent use of the injured persons discharged from the service should be furnished by the United States at the direction of the Director of the Bureau of War-Risk Insurance.

(Ops. J. A. G. 443, Mar. 14, 1918.)

Medical Department, Regular Army.

While all enlisted men of the Medical Department can legally be transferred to the Regular Army forces, yet as to those who are embodied in organizations of special or technical troops, which are authorized in the National Army but not authorized in the Regular Army, such transfers are not practicable, where the transfer of the whole or the major part of an organization is contemplated. For example, in the case of the Sanitary Corps, owing to the fact that there is no Sanitary Corps provided for in the Regular Army, if the enlisted personnel of the Sanitary Corps in the National Army were transferred to the Medical Department of the Regular Army there would remain no enlisted personnel to justify the offices of the sanitary officers now commissioned in the National Army. Clearly, enlisted men can not be transferred to the Regular Army and at the same time continue to constitute a force justifying the existence of organizations and officers therefor in the National Army.

(Ops. J. A. G. 220.4, Mar. 29, 1918.)

Designation of Prisons.

Construing A. W. 42, as contained in the act of August 29, 1916 (39 Stat. 650, 670), to authorize confinement in a penitentiary, the act or omission of which a soldier is convicted (1) must be recognized as an offense of a civil nature by some statute of the United States; that is, some statute enacted by Congress defining the offense and prescribing the punishment therefor, or by common law as the same exists in the District of Columbia, or by way of commutation of a death sentence, and (2) must be a felony within the meaning of section 335 of the Penal Code (35 Stat. 1088, 1152); that is it must be punishable by death or by imprisonment for a term exceeding one year. M. C. M. 338, class 3 (c), was evidently based upon the provisions of the old ninety-seventh article of war, and should be disregarded.

(Ops. J. A. G. 250.3, Mar. 19 and 27, 1918.)

PURCHASES AND CONTRACTS TO BE MADE BY THE HARDWARE AND METALS DIVISION OF U. S. ARMY QUARTERMASTER CORPS

The following is a list of purchases and contracts to be made during the coming week by the hardware and metals division of the office of the Quartermaster General of the Army, 1800 Virginia Avenue NW. The executive officers are:

Wm. A. Graham, chief.

Maj. H. J. Arnold, assistant to chief on outside relations (liaison officer).

Maj. H. P. Hill, assistant to chief on inside relations.

Procurement branch No. 1 (metals and heavy hardware), George E. Welles, chief.

Procurement branch No. 2 (small tools and chests), Wm. F. Fusting, chief.

Procurement branch No. 3 (camp and kitchen equipment), W. J. Peck, chief.

Procurement branch No. 4 (office equipment and sundries), G. H. Richards, chief.

Contract and purchase branch, Earl A. Darr, chief.

Production and inspection branch, Capt. Joseph Odlin, chief.

Administrative branch, T. M. Lynch, chief.

Unless otherwise stipulated, formal contract will be made.

PROCUREMENT BRANCH NO. 1, SECTION 1–A.

Buyer, C. H. Garity, room 422. Bids to be submitted on or before August 30, 1918.

Mats, woven tarred rope---each--	66
Wire, brass, No. 20 B. & S. gauge, half hard----------pounds--	400
Bearing metal, in pigs------do---	4,000
No. 17 commercial wire solder ----------tons--	28

PROCUREMENT BRANCH NO. 1, SECTION 1–A.

Buyer, A. S. Rogers, room 422. Bids to be submitted on or before September 3, 1918.

Manila rope:	
¾-inch----------linear feet--	8,000
¾-inch----slings, 4 feet long--	1,800
⅜-inch----------feet--	2,250
½-inch----------do---	740
Sash cord:	
⅝-inch----------yards--	6,250
Braided, white, 3/16-inch-feet--	3,000
Cotton lacing cord, 20/3/4/3; ----------pounds--	2,000
Chalk line----------linear feet--	2,000
Twine, sailmaker's:	
4-cord----------balls--	1,000
5-cord----------do---	300
Blocking cord, No. 36 (Italian hemp)----------balls--	144
Extinguishers, fire------1-quart--	357
Do----------3-gallon--	100
Do----------2½-gallon--	79
Do--------2½ or 3 gallon--	10,000
Jacks, wagon----------each--	121

PROCUREMENT BRANCH NO. 1, SECTION 1–B.

Buyer, D. W. Jasper, room 424.

Seals, chicken (similar to box-car seal with lead button and wire strap)----------1,000,000	

PROCUREMENT BRANCH NO. 1, SECTION 1–C.

Buyer, John Bertram, room 420. Bids to be submitted on or before August 29, 1918.

Washers, lock----------pieces--	1,220,000
Soft annealed black steel wire, assorted gauges----------tons--	960
Hard-drawn, low-carbon, coppered steel wire, assorted gauges--tons--	260
Rivets, round-head and flat-head, soft steel, assorted----pounds--	106,700

PROCUREMENT BRANCH NO. 2, SECTION 2–A.

Buyer, J. D. Rennick, room 106. Bids to be submitted on or before August 29, 1918.

Wheels, carborundum, with fixtures, 7 by 1¼ inches---------- In submitting proposal, give alternate proposal on same quantities with 6 by 1 inch wheels, 6 by 1¼ inch wheels, 5 by 1 inch wheels.	2,685
Compasses:	
3-inch----------	432
5-inch----------	432
8-inch----------	432
10-inch----------	432
12-inch----------	432
Bits, expansive, Clark's, ⅞ to 1¾ inch----------	275
Holders, bit, extension----------	135
Screws, wood:	
F. H., brass, assorted--gross--	9,113
R. H., brass, assorted---do---	9,113

Bids to be submitted on or before August 31, 1918.

Handles, awl, with wrenches-----	3,000
Rules, hook, 6-inch, No. 4 graduating, similar to B. & S. No. 320-	300

Bids to be submitted on or before September 5, 1918.

Calipers, micrometer, with case, similar to Starrett's No. 128, 6-inch----------	300
Calipers, micrometer, handle, with case, similar to Starrett's No. 124, set A----------sets--	300
Files, second cut, 12-inch--------	17,886
Calipers, inside:	
3 to 5 inch----------	2,110
6 to 7 inch----------	2,110
8 to 9 inch----------	2,110

Important Notice to U. S. Purchasing Agents

Purchasing agents for the various Government departments and the special United States war administrations are earnestly reminded to send to the Official U. S. Bulletin at the earliest possible moment all copy for bids to be advertised and purchase awards, in order that these may be promptly and correctly printed in the Bulletin in accordance with the orders of the Secretary of War and other heads of departments.

The task of preparing this copy for publication, with a view to absolute correctness and continuity, is a considerable one, but, with the cooperation of the purchasing agencies, should result in a great help, not only to the departments themselves, but to bidders throughout the country, all of whom, through the medium of the Official Bulletin, are desirous of keeping informed of the Government's needs.

Calipers, outside:	
3 to 5 inch----------	2,110
6 to 7 inch----------	2,110
8 to 9 inch----------	2,110
10-inch----------	2,110

PROCUREMENT BRANCH NO. 2, SECTION 2–B.

Buyer, Capt. C. B. Price, room 428. Bids to be submitted on or before August 29, 1918.

Strap loops, 0.71 by 0.375 by 0.134 inch----------	240,836
Malleable-iron D rings, 0.85 by 1 inch----------	118,450
Tongueless bar buckles, 3-inch----	872,500
End fastenings, style 3, with clip and hook, assembled-----sets--	440,825
End fastenings, style 2, with clip and hook, assembled-----sets--	87,383
2¼-inch guides----------	538,208
Browning gun-belt fasteners, male and female, 6¼ inches long by 1/16 inch wide ----------pair--	269,104

WANTS ARMY OF SAVERS

THE PURPOSE of the War Savings Committee is to create an army of savers who will, by saving, release labor and materials for the use of the Government in the war, and who will lend their savings to the Government to prosecute the war.

GENOA, HOME OF COLUMBUS, GREETS FIRST AMERICAN SOLDIERS ARRIVING IN ITALY TO BATTLE FOR LIBERTY

NEWSPAPER TELLS STORY OF WELCOME

"Long Live America!" "Long Live Wilson!" the Cry on Every Italian Lip. "Brave Young Men of the Glorious Republic Side by Side with the Sons of Garibaldi."

The American consul general at Genoa has informed the Department of State that Il Corriere Mercantile, published at Genoa on June 27, 1918, contained the following in regard to the landing at Genoa of the first contingent of American troops:

"The country of Columbus salutes to-day worthily the soldiers of free America.

"To the sons of the powerful and glorious Republic of the United States, who come to shed their blood for the holy cause of Italy and of civilization, goes forth our enthusiastic salute.

"They bring us their arms and their young hearts; they bring us the ardently desired and efficacious aid of their land, from which irradiates upon the world such a resplendent light of civilization.

Rich in Significance.

"Therefore their aid is so much the more precious; therefore it is so much the more rich in significance.

"A cause which by force of its ideals has succeeded in drawing to itself the aid of so great a people can not fail to triumph.

"And we shall triumph! And we shall conquer! The gloom shall be dispersed by light.

"Long live America! Long live Wilson! Long live the soldiers who disembark to-day upon the land of Columbus, of Mazzini, and of Garibaldi.

"Civilization opposes its formidable mass against barbarity.

"We shall triumph! We shall conquer!"

Arrival of the Troops.

"This morning a transport arrived in our port having on board a fine and strong contingent of American troops.

"We salute with enthusiasm and with admiration the soldiers of the glorious North American Republic.

"Their presence on our front will let the barbarous enemy know that all the civilized world is solid with us and with our most holy cause.

"The solidarity of the United States with the entente brings to us not only an enormous economic and military aid but a moral approbation of which we are proud.

"We invite the citizens to give a great and worthy reception to the troops over whose heads waves the Star-Spangled Banner.

"They are the sons of Washington who come to fight beside the sons of Garibaldi.

"It is a free people who comes to fight beside a free people.

"It is a people of men eminently practical and modern, who know how to rise to the loftiest and purest heights of idealism, who lands to-day upon the sacred soil of Italy, and who will traverse the streets which saw pass the exalted and radiant figure of the greatest of our idealists—Giuseppe Mazzini.

"All the glorious shades of our great ones will be to-day outstretched in our heaven toward the Star-Spangled Banner, which comes to unite itself with our tricolor.

"This is a historic day.

"We consider useless any words of incitement.

"Genoa will also to-day be great and will know how to show, in representation of the whole nation, how greatly the Italians appreciate the military, economic, and moral aid offered to us by the great North American Republic.

"As soon as the transport had thrown her anchor in our port, the captaincy notified the civil and military authorities of the city, and soon the prefect, the mayor, and the commanders of the army corps and the division went on board to visit the commander of the contingent of American troops.

The Manifestoes.

"Scarcely had the news of the arrival of the American contingent spread through the city when the following manifestoes were published:

"'FELLOW CITIZENS:

"'The intrepid American soldiers land at this port to unite themselves to our victorious army on the fields where already our brothers of France and England attest the solidarity of the allies in the common fight for liberty and for justice.

"'Upon the soil of Italy, together with ours, the banner of the great Republic will wave proudly and the love of the two peoples, already bound together by one and the same ideal, united in one and the same sacrifice, shall have, in glory, its solemn consecration.

"'To the sons of the generous land, bound to Genoa by the genius of Columbus, let us testify with emotion our feeling. Let us so do that they may carry with them the remembrance of it as a viaticum of faith and auspice, and may they be able to say that they have felt in the first salute of Italy the throb of a people firm in its proposals, worthy of the new destinies which the valor of arms prepares for humanity.

"'From the Municipal Palace, June 27, 1918.

"'The mayor: E. MASSONE."

"'GENOESE:

"'Our city, the proud mother of Christopher Columbus, who sailed toward the unknown with leonine courage and with the faith which is the animator of the great, will receive to-day the free sons of the distant land divined by him.

"'Across the centuries and across the seas the United States and Italy, bound together by one and the same cause, proclaim once more that liberty, when right does not suffice to make it triumph, shall be saved and made sublime by the point of the sword.

"'The United States and Italy are at the apex of their history.

"'The Star-Spangled Banner and the fluttering tricolor shall rise up in victory or shall perish.

"'Citizens! To-day the spirit of the country is here.

"'Let us remember it. It is a great good fortune for Genoa to welcome, in the name of Italy, the American soldiers who will go also they to our front to prepare the heroic days, uncancelable in the life of peoples.

"'THE FEDERATED WORKS OF ASSISTANCE AND NATIONAL PROPAGANDA.'"

"Hardly had the notice spread in the neighborhood of the port when a great crowd gradually gathered at Ponte dei Mille to salute the allied soldiers from over the sea. There was a continual waving of handkerchiefs, a warm crescendo of applause, of shouts, of acclamations of America.

"The soldiers of the free Republic from the deck of the ship replied with great enthusiasm to the first salute of the generous people shouting 'Vive l'Italia! Viva l'Intesa!' and waving, also their handkerchiefs and star-spangled and tricolored banners.

GEN. GARIONI SALUTES THE AMERICAN TROOPS IN THE NAME OF THE ITALIAN ARMY.

"This morning on the arrival of the first contingent of the troops which North America is sending to Italy, Gen. Garioni, commander of the army corps, and Admiral Cagni, with the other officers of the garrison, went on board, and were received with great enthusiasm by the officers and troops of the American Army.

"Gen. Garioni, in the name of the head of the Italian Army and of his fellow soldiers, has given to the first contingent of the North American troops the welcome to this land, the country of Columbus.

"He added that the intervention of the arms of the powerful allied Nation is a guaranty of the coming definite victory of the entente in this pitiless war in defense of humanity, of civilization, and of right against Teutonic arrogance, already shaken on the fields of France and Italy.

"After Gen. Garioni, Admiral Cagni gave the welcome in the name of the Italian Navy.

"The commander of the American troops replied briefly, saying that he was pleased to have arrived safely in Italy with the first contingent of the American Army, which will go to fight here, so that soon all under one sole banner, and animated by one sole flame, may conquer the terrible war for the triumph of humanity and right."

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

Official U. S. Bulletin

GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, THURSDAY, AUGUST 22, 1918. No. 393

REVISED LIST OF PREFERRED INDUSTRIES BEING PREPARED THROUGH PRIORITIES BOARD

MUCH LARGER THAN FIRST ONE

Amplification Due to Widely Expanded War Needs—Is a Key to Relative Importance of the Country's Industrial Enterprises.

The War Industries Board authorizes the following:

The War Industries Board, under the direction of Bernard M. Baruch, chairman, working through the Priorities Board, headed by Judge E. B. Parker, is formulating a new list of preferred industries. Although it is not yet in publishable form, it can be stated that the list will be almost twice as long as the one issued last April, which contained about 32 classes.

The amplification has been due to the widely expanded war needs and at the same time to allow for the pressing demands of civilian origin.

Values Established by Surveys.

The preference list is a key to the relative importance of all of the country's manifold industrial enterprises. The values are established by surveys as to national needs, and, once established, the list is maintained by a system of priority in determining the use of the six basic elements of industry, which are:

1. Material.
2. Facilities.
3. Fuel.
4. Transportation.
5. Labor.
6. Capital.

The Priorities Board has representatives of each of these elements in its membership, except capital, and a working arrangement as to that exists between the War Industries Board and the War Finance Board.

What Constitutes War Work.

Another point of widest interest lies in the fact that in the preference list is to be found an indication of what constitutes war work. The War Department ruling in "war work or fight" is met by men, otherwise exempted, who are engaged in any of the classes of essential industries listed. The new table may be expected within a week.

DEATH OF ENSIGN NICHOLS.

The Navy Department has been advised of the death of Ensign Alan L. Nichols, United States Naval Reserve Force, which occurred as the result of an aeroplane accident in Italy on August 17. Ensign Nichols was a native of Blue Island, Ill., born May 6, 1894, and was enrolled as provisional ensign in the Naval Reserve Force January 22, 1918, after previous service as an enlisted man. On February 1 he was transferred from the Naval Air Station, Pensacola, Fla., ordered to France for duty, and had served with the naval aviation forces abroad since last March. Next of kin, father, Clifford L. Nichols, 903 Goodrich Avenue, St. Paul, Minn.

U. S. CARGO STEAMER MONTANAN TORPEDOED IN FOREIGN WATERS

Eighty-one Survivors Landed; 5 Missing—U-Boat Captures American Trawler.

The Committee on Public Information issues the following:

The Navy Department is informed that the steamship *Montanan* was torpedoed and sunk in foreign waters on August 16. Eighty-one survivors were landed. Five men are reported missing—three members of the civilian crew and two of the naval armed guard, David W. Johnson, coxswain, and Chester C. Eldridge, seaman. The names of the three civilians were not given in the dispatch received.

The *Montanan* was an American cargo ship of 6,659 gross tons.

Capture of Trawler "Triumph."

The Navy Department is informed that the master of the steam trawler *Triumph*, who was landed with his crew at Canso, Nova Scotia, stated that the *Triumph* was captured by an enemy submarine 60 miles south by west of Cranberry Island about noon August 20, and that two guns were mounted on the *Triumph*, presumably for use of the trawler as a raider among the fishing fleet.

The Navy is taking steps to protect fishing vessels and to prevent any further damage by the alleged raider.

Notice to Postmasters on Change of Residence Made by German Aliens

The Post Office Department issues the following:

Washington, August 22, 1918.

POSTMASTERS:

The attention of postmasters who are assistant registrars in non-urban areas is invited to the fact that in granting permission to change residence different forms are used in the case of German alien males and German alien females. The necessary forms for these purposes will be furnished by the United States marshals.

J. O. KOONS,
First Asst. Postmaster General.

SPANISH SUBJECTS RESIDENT IN THIS COUNTRY EXEMPTED FROM U. S. MILITARY SERVICE

DRAFT LAW SECTION IS QUOTED

Those Who Have Applied for Citizenship May Withdraw Their Applications if Desiring to Remain Here in Civil Occupations.

The Committee on Public Information issues the following:

The Military Intelligence Branch of the War Department has information to the effect that Spanish subjects resident in the United States are being induced to return to Spain as a means of avoiding service in the United States Army under the selective draft.

These Spanish subjects are being told that they are subject to the draft and that if they remain in this country they will be compelled to serve in the Army here and in France. Section 4, chapter 12, Public Law No. 193, Sixty-fifth Congress (H. R. 12281), reads as follows:

Act as Amended.

"That the second sentence of section two of the act entitled 'An act to authorize the President to increase temporarily the military establishment of the United States,' approved May eighteenth, nineteen hundred and seventeen, be, and is hereby, amended to read as follows:

"That such draft as herein provided shall be based upon liability to military service of all male citizens or male persons not alien enemies who have declared their intention to become citizens between the ages of twenty-one and thirty years, both inclusive, and shall take place and be maintained under such regulations as the President may prescribe, not inconsistent with the terms of this act: *Provided*, That a citizen or subject of a country neutral in the present war who has declared his intention to become a citizen of the United States shall be relieved from liability to military service upon his making a declaration, in accordance with such regulations as the President may prescribe, withdrawing his intention to become a citizen of the United States, which shall operate and be held to cancel his declaration of intention to become an American citizen, and he shall forever be debarred from becoming a citizen of the United States."

From the above it will be seen that Spanish subjects who have not completed their final citizenship in this country are not compelled to enter the United States Army—that is, if they comply with the provisions of this act, they are automatically exempt from military service and thus may remain in their present useful employment in the various fields of activity open to them in the United States.

JOBBERS IN ELECTRICAL GOODS PLACED ON PREFERENTIAL LIST

The War Industries Board authorizes the following:

At a hearing before the Priorities Commissioner and other representatives of the War Industries Board, the War Service Committee, representing electrical jobbers, presented their claims for preferred treatment to maintain their stocks for general distribution.

Preference for Materials.

As a result of the hearing, the Priorities Commissioner announced that manufacturers of electrical apparatus and supplies will be accorded a degree of preference for their materials to enable them to operate, conditioned upon their pledging themselves to limit their output to essential products and undertake to see that such products are devoted solely to essential uses as that term may be defined from time to time by the Priorities Division. The manufacturers must be relied upon to police their own industry and also in a measure to police jobbers, distributors, and retail dealers.

Stocks of Jobbers.

It is believed to be in the public interest that jobbers should be permitted to maintain reasonable stocks from which Government agencies, war industries, and the civilian population may draw for their necessary essential requirements; provided the jobbers will pledge themselves to rigidly restrict the use of all stocks to solely essential uses and to reduce to an absolute minimum both jobbing and retail stocks. The jobbers will be relied upon to police their own industry and that of the retailers. Any jobber or retailer violating the pledge will be cut off from procuring further supplies.

NO SUGAR OR WHEAT SHIPPED TO CANADA WITHOUT LICENSE

The War Trade Board issues the following:

The War Trade Board, after consultation with the Food Administration, announces, in a new ruling (W. T. B. R. 207), the withdrawal of the authority heretofore extended to collectors of customs to license the exportation to Canada of small quantities of sugar, wheat, and wheat products involved in retail border traffic.

Collectors of customs are still authorized to license, in their discretion, for export to Canada, small quantities of foodstuffs and feedstuffs other than those specified above when such exportation involves merely boarder traffic on a small scale by persons living near the border, such as that arising out of customary retail purchases for their own needs.

Hereafter no shipments of sugar, wheat, and products of wheat, no matter in what quantity, may be exported to Canada without the issuance of an individual export license by the War Trade Board.

Special Orders, No. 189:

314. The resignation of Maj. Charles W. Schroeder, Ordnance Department, is accepted by the President, to take effect this date (Aug. 13).

AERIAL MAIL SERVICE FLYING OPERATIONS AND EQUIPMENT ARE FULLY UNDER P.O.CONTROL

LETTERS OF BURLESON AND BAKER

Splendid Work of Military Aerial Postmen Commended by Postmaster General in Announcing Completion of Transfer.

The War Department authorizes publication of the following correspondence:

AUGUST 19, 1918.

Hon. NEWTON D. BAKER,
Secretary of War.

MY DEAR MR. SECRETARY: It is with pleasure that I have to advise you of the completion of the transfer of the equipment and the flying operations of the aerial mail service from the War Department to the Post Office Department on August 12. Permit me to thank you for the valuable and whole-hearted cooperation that I have received from the War Department in the inauguration and the operation of the aerial mail service. I desire to express my appreciation of the assistance received from Maj. Gen. W. L. Kenly, Col. Henry H. Arnold, Col. C. G. Edgar, Col. E. A. Deeds, Maj. William J. Fitzmaurice, Maj. Reuben H. Fleet, Capt. C. A. Willoughby, and Lieut. George J. Kinberg, of the Air Section, under whose jurisdiction and personal attention the flying operations of the aerial mail service came.

Commends Army Officers.

Especially do I want to commend the six Army officers who operated the aeroplanes daily between Washington and New York with courage and conscientious regard for duty, and respectfully ask that this testimonial of their service be made a part of their military record.

Lieut. J. C. Edgerton made 52 trips on the mail route, with but a single forced landing, due to an accident to a magneto in his plane. His total flying time was 106 hours and 36 minutes, and his total mileage was 7,155 miles.

Lieut. E. W. Killgore made 39 trips on the mail route, with five forced landings; 85 hours and 50 minutes total flying time, with a total mileage of 5,670 miles.

Lieut. Walter Miller made 48 trips on the mail route, with four forced landings; 60 hours and 50 minutes total flying time, with a total mileage of 4,975 miles.

Lieut. Stephen Bonsal made 38 trips on the mail route, with four forced landings; 74 hours and 33 minutes total flying time, with a total mileage of 4,975 miles.

Lieut. T. H. Webb made 41 trips on the mail route, with but one forced landing; 44 hours and 49 minutes total flying time, with a total mileage of 3,680 miles.

Lieut. H. P. Culver made 36 trips on the mail route, with but one forced landing; 47 hours and 52 minutes total flying time, with a total mileage of 3,045 miles.

I think it is a high tribute to the Army's training planes anl their engines, as well as to the mechanical maintenance department, that out of 270 flights conducted by the Air Section in carrying the United States mail, covering a grand total of 421½ hours of flying, there were recorded but 16 forced landings.

From May 15 to August 12, the period during which the flying operations were conducted by the military authorities, a total of 20¼ tons of letter mail was dispatched between New York and Washington, at a saving of time of from two to two and one-half hours daily.

Sincerely, yours,

A. S. BURLESON,
Postmaster General.

Secretary Baker's Reply.

August 19, 1918.

My DEAR MR. POSTMASTER GENERAL: I have received your letter of August 19, notifying me of the completion of the transfer of the equipment and the flying operations of the aerial mail service from the War Department to the Post Office Department, and citing the names of those members of the military establishment whose assistance in the creation of this service has been especially noteworthy. It will give me great pleasure to place your commendation upon the military record of the officers whom you name.

In the meantime, permit me to express my high satisfaction that the War Department has been able to cooperate with the Post Office Department so effectively, and to bring this pioneer service so successfully into actual operation.

Cordially, yours,

NEWTON D. BAKER,
Secretary of War.

Hon. A. S. BURLESON,
Postmaster General.

TRANSPORTATION OF COTTON FROM PRODUCER TO CONSUMER

The United States Railroad Administration authorizes the following:

For some weeks the Division of Traffic has been making a careful study of the existing transportation methods of handling cotton from the producer to the consumer. The producer, consumer, compress, and traffic interests have all been consulted.

Higher Compressing Advised.

The saving of transportation and equipment can best be accomplished by compressing to a higher density, which will permit of greater loading of cars.

In order that cotton rates may be placed on a proper and reasonable basis, and to encourage high density compression, a plan is under consideration by which there would be arranged in the 1919-20 season car load rates, with a minimum of 100 standard bales to the car, with less-than-car-load rates on a higher basis.

Continuation of Rates.

On account of the present season being well advanced, it was decided to continue the any-quantity rates on cotton for the 1918-19 season, and to make some payment to compresses to induce high density compression. The allowance to the compresses will probably be increased by the War Industries Board, due to greater cost of labor and supplies, and in order not to deplete the car-carrier's revenue it will be neeessary to add the increase to freight rates.

CHIEF OF STAFF APPROVES PLAN FOR STUDENT TRAINING CORPS

Details Announced for Schooling Men as Officers and Technical Experts.

The following statement is authorized by the War Department:

By order of the Secretary of War, Gen. Peyton C. March, Chief of Staff, has approved a plan for the organization of a student Army training corps in the educational institutions of the country to train men as officers and technical experts in the Army. The plan for the student Army training corps, as altered to conform to the plans of the War Department for lowering the draft age, will utilize the plant, equipment, and organization of the colleges to maintain a reservoir of officer material for training, from which it will be possible to meet the enlarged needs of the various branches of the service.

Length of Training Period.

The length of time during which men will be trained in the colleges will depend upon the needs of the service. As fast as one group of trained men is drawn from the colleges into the service, their places will be taken by a new quota obtained by voluntary induction or through the draft. In this way the educational facilities of the country will be used to maintain a constant supply of men who are trained to meet the needs of the Army.

Under the regulations provided for the student Army training corps, selected young men who are physically fit for military service, who are 18 years of age or over, and who have had a grammar school education, may voluntarily be inducted into the Army and enter upon a course of special training. Those who have had a grammar school education, but no more, will ordinarily enter special training detachments to be trained along mechanical lines of military value. These detachments will become a part of the student Army training corps, and young men who prove in the course of their mechanical training that they are officer material may be transferred to a unit in one of the colleges to be prepared to enter a central officers' training camp.

Training for Officers.

Young men who have had at least a high school education will be allowed to enter the colleges for more advanced training as officers and as technical experts of various kinds, according to their experience and abilities. Those men who show promise under this training will be kept in college until qualified to enter central officers' training camps or to go directly into the service as technical experts. Those who do not will be sent either to noncommissioned officers' schools or to the nearest depot brigade, or in case they show special technical or mechanical ability, to the detachments where men are trained for such work.

Arrangements will be made for transferring from the depot brigades to units of the student Army training corps men whose ratings in the cantonments indicate them to be officer material, but not yet ready to enter central officers' training camps. Every effort will be made to give every young man who enters the service under this plan opportunity for the training best suited to his natural ability and preferences, in order to enable him to serve the country in the most efficient way.

RALPH BARTON PERRY,
Executive Secretary, Committee on Education and Special Training.

SUPPLY CIRCULAR OF WAR DEPARTMENT CONCERNING PUBLICITY AS TO PROPOSED PURCHASES AND AWARDS OF CONTRACTS

WAR DEPARTMENT,
PURCHASE AND SUPPLY BRANCH,
Washington, August 3, 1918.

Supply circular No. 75:

Subject: Publicity of War Department contracts and awards.

1. Full publicity shall be given to proposed purchases and to awards of contracts by the various supply bureaus of the War Department in the manner and subject to the restrictions hereinafter stated.

2. Each bureau shall transmit forthwith to the director of purchases and supplies an indexed list showing—

(a) The articles purchased by it.

(b) The address of the office to which prospective bidders should apply for detailed information in respect of particular articles or classes of articles on the list.

In submitting these lists each bureau shall indicate thereon those articles concerning which, in its opinion, information usually contained in circular proposals to the trade would be of substantial military value to the enemy, and shall accompany each such indication with the reasons therefor.

3. The director of purchases and supplies shall submit such lists to the military intelligence branch, General Staff, who shall delete therefrom the names of articles whose inclusion would afford information of substantial military value to the enemy.

4. The director of purchases and supplies shall then obtain the fullest practicable publicity of such lists as censored in accordance with the preceding paragraph and of a notice to all intending bidders that circular proposals for bids for the furnishing of such articles will from time to time be sent out to persons on the mailing lists of the bureaus interested and that the name of any intending bidder will be entered on such mailing list upon application to the bureau interested, accompanied by satisfactory references from banks or reputable business concerns or from the chairman of the local regional manufacturers' organization associated with the War Industries Board.

5. The lists of articles purchased by each bureau as censored shall be returned to the bureaus submitting them who shall thereafter issue circular proposals whenever any articles on such censored lists are to be purchased, except in classes of cases or in particular circumstances where purchase without proposal may have been authorized by the superior board of contract review.

6. Even in the case of articles on the censored list, when, due to special circumstances concerning either the specifications, quantity, or purchase of such articles, there is any doubt as to the military value of information that may be disclosed by circular proposals, such proposals shall not be issued by the bureaus without consultation with and clearance by the military intelligence branch.

7. Bids on circular proposals shall be opened and given publicity at such time or times and place or places as may be specified by the bureau inviting them.

8. Abstract reports of all bids and awards on circular proposals shall be sent to the director of purchases and supplies, who shall submit them to the Military Intelligence Branch, General Staff. The Military Intelligence Branch shall delete therefrom all awards whose inclusion would afford information of substantial military value to the enemy. As thus censored, the director of purchases and supplies shall obtain the fullest practicable publicity of such abstract reports.

9. The lists prescribed in paragraph 2, the copies of circular proposals prescribed in paragraph 5, and the abstract reports prescribed in paragraph 8 shall be available at all times to the public and the press in the information office of the Purchase and Supply Branch, General Staff.

10. Each supply bureau shall maintain one or more information desks, where there shall be available information as to the officers handling the articles purchased by it, together with blanks for proposals and a bulletin board upon which shall be posted all circular proposals. The location of the information desk or desks in each bureau shall be published in the OFFICIAL BULLETIN.

By authority of the Secretary of War.

GEO. W. GOETHALS,
Major General, Assistant Chief of Staff, Director of Purchase, Storage and Traffic.

One Ship Coal Passer Lost by Sinking of Proteus

The Committee on Public Information issues the following:

The Navy Department is informed that, with the exception of one coal passer, who was lost, all of the crew and passengers of the Southern Pacific steamship *Proteus*, which was sunk in collision with another steamer off Cape Hatteras, N. C., early Monday morning, were rescued by the other vessel and brought safely into port. The name of the man lost was not given in the report.

INDIAN SERVICE PROPOSAL.

The Indian Service, Department of the Interior, is sending out proposals for heating equipment for the Fort Belknap School, Fort Belknap Agency, Harlem, Mont. Bids will be received at Harlem until 5 p. m., August 28.

You may not be able to fight, but you can save and buy war-savings stamps.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

Addresses of Men Cited For Military Honors

The War Department authorizes the publication of the emergency addresses of the following men cited for military honors in American Official Communique No. 97:

Pvt. Curn Christenberry, Infantry. (Not in file.)

Maj. Frank H. Adams, 3d Division, 38th Infantry, advance school detachment. Mrs. Frank H. Adams, The Clyde, 611 Pacific Avenue, Atlantic City, N. J.

Second Lieut. James M. Wilson, Company C, 126th Infantry. Mrs. Mattie A. Wilson, 1120 South West Street, Kalamazoo, Mich.

Pvt. James J. Pretty. (Not in file.)

Pvt. Bertram L. Ream, Company F, 17th Engineers, Railway. Mrs. C. Ream, 417 Washington Avenue, Greenville, Ohio.

Maj. George F. Rozelle, 28th Infantry. Rogers, Benton County, Ark.

First Lieut. Clarence R. Huebner, 28th Infantry. S. J. Huebner, Bushton, Kans.

Sergt. Albert S. Elsea, Company B, 129th Machine Gun Battalion. Jacob D. Elsea, R. F. D. No. 4, Lamar, Mo.

Corpl. Clayton H. Moore, Headquarters Company, 138th Infantry. Thomas David Moore, 5925 Cote Brilliant Avenue, St. Louis, Mo.

Sergt. Robert H. Donaghue, Marines. Martha Blair, sister, Wyona, Okla.

Pvt. Isaac Valley, Company M, 370th Infantry. Mrs. Rachael Valley, 517 Church Street, Girard, Kans.

Second Lieut. F. Bougardt, Field Artillery. (Not in file.)

Pvt. S. J. Kendry, Field Artillery. (Not in file.)

Corpl. Eugene W. Wear, Marines. Angie P. Wear, mother, 579 North Laurel Street, Hazleton, Pa.

Pvt. Louis H. Hackenrider, Medical Department Ambulance Company 15. John M. Hackenrider, general delivery, Griffith, Ind.

Second Lieut. James H. Legendre, Marines, 529 Madison Avenue, New York City.

Lieut. Lemuel C. Sheppard, Marines, 803 Colonial Avenue, Norfolk, Va.

Second Lieut. John McArthur, Aero Squadron. Mrs. Bessie McArthur, 4101 Penneman Avenue, Oakland, Cal.

First Lieut. Ward William Rucker, Aero Squadron. (Not in file.)

Corpl. Daniel Daly, Company B, 102d Infantry. Mrs. E. Daly, 14 Queen Street, Hartford, Conn.

Pvt. F. Fleming, Infantry. (Unidentified.)

Sergt. Arthur F. Ware, Marines. Libby Riley, aunt, 601 Blair Avenue, Fort Scott, Kans.

Second Lieut. Charles W. Chapman, 94th Aero Squadron. Charles W. Chapman, 637 West Thirtieth Street, Waterloo, Iowa.

Second Lieut. Leonard C. Hoskins, Battery I, 52d Regiment, Coast Artillery. Daniel F. Hoskins, 620 Washington Avenue, East Las Vegas, N. Mex.

Sergt. Raymond P. Cronin, Marines. Edna Cronin, mother, 1503 Berkshire Avenue, Pittsburgh, Pa.

JUDGE ADVOCATE AT CAMP MEADE.

Special Orders, No. 190:

315. Capt. James M. Mullin, judge advocate, will report to the commanding general, Camp Meade, Admiral, Md., for duty as camp judge advocate.

Industrial Disputes Adjusted by Labor Department During Week of August 12-17

The Division of Conciliation, Labor Department, issues the following statement of industrial disputes adjusted during the week of August 12 to August 17:

Name.	Conciliator.	Workmen affected. Directly.	Workmen affected. Indirectly.
Threatened strike, industrial work, Bay City, Mich.	H. J. Brown	1,416	.....

Public-debt disbursements	500,987.73
Balance in general fund today	1,619,355,388.67
Total	1,666,726,737.46

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

The Senate was not in session yesterday, but resumed regular daily sessions to-day.

The subcommittee of the Military Affairs Committee, which has been investigating the aircraft situation, agreed upon a report, which was submitted to the full committee to-day.

HOUSE.

The House yesterday passed a Senate bill providing for the payment of $40,000 to Greece as indemnity for damages suffered by Greeks in riots at South Omaha, Nebr., in 1909. A bill admitting free of import duty all supplies consigned to the American Red Cross also was passed.

The Ways and Means Committee tentatively adopted an 80 per cent war profits tax and fixed excess profits rates for the new revenue bill. The war profits tax taxes all earnings in excess of the profits for the years 1911, 1912, and 1913. If a corporation, however, earned less than 10 per cent on its invested capital during those years, it is given a flat 10 per cent exemption before the war tax becomes operative.

"The committee will decide between two propositions for the excess profits tax," said Chairman Kitchin last night. "First, an 8 per cent deduction in addition to the $3,000 specific exemption, with a 35 per cent tax on profits between 8 and 15 per cent; 50 per cent tax on profits between 15 and 20 per cent and 70 per cent tax on profits above 20 per cent, and second, the same exemption and deduction, with 40 per cent tax on profits between 8 and 20 per cent and 70 per cent exceeding 20 per cent. The Treasury Department has objected to any increase over the existing law.

"The committee decided on a flat 10 per cent deduction as a minimum on war profits. The proportion of excess profits and war profits taxes will remain the same—that is, 90 per cent of business will fall under the war profits tax.

"The effect of the two propositions for excess profit will be almost the same; either would produce between $200,000,000 and $300,000,000 more than under the rates of the existing excess profits law which the Treasury wants unchanged.

"If there was no alternative war profits tax, this excess profits plan would produce $800,000,000 or $900,000,000 more than the present excess profits law."

A favorable report was agreed upon by the Military Affairs Committee on the new man-power bill, with an amendment providing that youths from 18 to 20 years of age shall be placed in separate classifications, to be inducted into the military service after men from 20 to 45. Another amendment provides that the fact that a soldier has not reached the age of 21 years shall not prevent him from receiving a commission. A section, added at the request of the War Department, provides that men of draft age may be sent to colleges for technical training in uniform without changing their military status.

The man-power bill was taken up for consideration to-day by both the Senate and House.

MARINE ENGINEERS WANTED FOR U. S. MERCHANT FLEET

The Shipping Board issues the following:

Marine engineers holding land jobs are on a special list kept by the Shipping Board, which may soon call on all such mariners to say farewell to terra firma and lend a hand in manning the new ships of the merchant marine. The list was prepared by agents of the sea-service bureau of the Shipping Board's recruiting service, who are now holding a convention at Boston.

The convention notified Chairman Edward N. Hurley, of the Shipping Board, that there is a shortage of chief and first assistant marine engineers, recommended that men holding licenses for lower grades be urged to try for higher licenses, and suggested that engineers now ashore be drawn upon to fill berths now vacant on ships at Atlantic and Pacific ports. Chairman Hurley, of the Shipping Board, authorized the sea-service bureau to take any measures necessary to secure the engineers needed, in addition to the 500 a month now being specially trained at Shipping Board schools.

Artillery Camp Named in Henry Knox's Honor

The War Department authorizes the following statement:

The new Field Artillery camp to be situated near Stithton, Ky., is to be named Camp Knox. This is in honor of Henry Knox, who was Secretary of War from 1785 to 1794. Henry Knox was a brigadier general and chief of Artillery of the United States Army from 1776 to 1782 and was promoted to major general in 1782. He was made commanding chief of the Army in 1783, which position he held to 1784.

The new Field Artillery camp to be located near Fayetteville, N. C., will be named Camp Bragg in honor of Capt. Braxton Bragg, commander of Battery C, Third Artillery, who rendered singular service in the Battle of Buena Vista during the Mexican War.

EAST ALTON CARTRIDGE MAKERS SWEAR TO KEEP U. S. GUNS LOADED

The following statement is authorized by the War Department:

Following a series of conferences led by Lieut. R. De Violini, of the Italian Bureau of Public Information, 3,300 employees of the Western Cartridge Co., at East Alton, Ill., signed the following pledge, which, with the workers' autographs, is to be sent to Gen. Pershing:

To Gen. Pershing and Our Boys "Over There":

We, the undersigned, president, managers, employees, engineers, mechanics, and workmen of the Western Cartridge Co., East Alton, Ill., hereby solemnly pledge:

To keep constantly in our minds, during the hours of work, as well as during those of rest, that the greatest and most terrible of wars is being fought by our own sons and brothers, for the safeguarding of the honor and liberty of all Americans, and of the entire civilized world. We realize the vital importance of wholehearted and constant cooperation between us and the fighting man, without which no victory, and consequently no peace, can ever be won; and therefore

We vow to stand by them at all times and until the very end, and as they do not relax their fighting, we will never relax our work.

We further solemnly declare that we will not indulge in useless and silly waste of time, money, or food for anything beyond normal and necessary recreation.

We shall live and work as earnestly and as full of purpose here as our boys fight and die over there.

INDUSTRIES BOARD MEMBER.

The Committee on Public Information issues the following:

Bernard M. Baruch, as chairman of the War Industries Board, announces the selection of Herbert Bayard Swope as associate member. Mr. Swope is a well-known editor and publicist, and has studied war problems both in this country and abroad. He will sit with the board, and act as assistant to the chairman.

State Banks Admitted to U. S. Reserve System

The Federal Reserve Board authorizes the following:

The following State institutions were admitted to the Federal reserve system:

Name and place.	Capital.	Surplus.	Total resources.
ADMITTED AUGUST 19, 1918.			
Bank of Emmett, Emmett, Idaho	$60,000	$5,000	$510,387
Victor State Bank, Victor, Idaho	25,000		130,292
Farmers & Merchants Bank, Idaho Falls, Idaho	150,000		1,024,641
Merchants Bank, Mobile, Ala	200,000	200,000	4,255,522
Junction State Bank, Junction, Tex	50,000	50,000	343,636
The Commercial Bank, Chester, S. C	100,000	65,000	[illegible]
Kandiyohi County Bank, Willmar, Minn	100,000	20,000	1,460,158
First State Bank, Kirkland, Tex	25,000	10,000	128,150
Exchange State Bank of South St. Paul, Minn	125,000	25,000	221,399
Lincoln County Bank, Merrill, Wis	100,000	25,000	1,268,807
Farquhar Savings Bank, College Springs, Iowa	25,000	40,000	310,294
Central Bank, St. Paul, Minn	200,000	40,000	1,948,490
ADMITTED AUG. 20, 1918.			
Alta Vista Savings Bank, Alta Vista, Iowa	30,000	10,000	382,248
Bankers Trust Co., Des Moines, Iowa	1,000,000	100,000	3,007,770
Farmers Bank & Trust Co., Blytheville, Ark	50,000	25,000	425,584
Bank of Baraboo, Baraboo, Wis	100,000	50,000	1,815,114
State Bank of Platteville, Platteville, Wis	50,000	10,000	1,003,053

THE PRODUCTION OF NITRATES AT THE MUSCLE SHOALS PLANTS

The War Department authorizes the following statement from the Ordnance Department:

The Ordnance Department announces that the temporary suspension of work on the water power development at the Muscle Shoals nitrate plants will not in any way affect the production of nitrates at these or any of the other plants now engaged in its production.

Reason for Action.

This action was taken upon the representation of the War Industries Board and affects only the erection of the huge water power plant being built on the Tennessee River, power from which was not anticipated for four or five years. The water power development was undertaken by the War Department in line with its established policy of utilizing these nitrate plants for the benefit of agriculture after the war is over, when the water power plant would be available.

Work at the Plants.

Work is progressing rapidly on the Muscle Shoal plants, one of which is about 60 per cent complete, and over 20,000 men are now employed there. Power for their operation is obtained from a steam-electric station erected on the Tennessee River, and also purchased from the Alabama Power Co. This power is adequate for the operation of the nitrate plants. The water power development was projected merely to obtain cheaper power in future years.

CAUTION IN THE PAYMENT OF SOLDIERS' P. O. MONEY ORDERS

The Post Office Department issues the following:

OFFICE OF THIRD ASSISTANT
POSTMASTER GENERAL,
Washington, August 20, 1918.

It has been brought to the attention of the department that clerks in post offices, particularly at stations in the military camps, pay money orders to soldiers not personally known to them, accepting as sufficient evidence of ownership inoculation certificates, registration cards, letters, passes, or service tags. Experience demonstrates that evidence of that character, while useful as an aid to identification, is not to be relied upon as conclusive proof. Two dishonest men may conspire to obtain double payment. In such a case the payee passes on his money order to a confederate, together with his service tag, a piece of marked clothing, or some similar evidence to enable the latter to impersonate the former. If the fraud succeeds, the payee, a little latter, advances claim to the amount and probably establishes a valid title.

When the soldier-payee is not known to the clerk, the best identification obtainable should be sought, such as the testimony of a witness of recognized standing, personally present at the time of payment, or a certificate to the genuineness of the payee's signature, written on the back of the order, or on a separate slip of paper, by the company commander. The clerk should then require the holder of the money order to sign the receipt on its face and should carefully compare the two signatures before payment is made.

In every case of payment to a soldier not personally known to the clerk, the latter for his own protection should write his initials on the back of the coupon, with a brief note as to the identification required.

W. J. BARROWS,
Acting Third Asst. P. M. General.

FRESH ROASTED COFFEE FOR OUR SOLDIERS AT THE FRONT

The War Department authorizes the following:

As a part of the plan of the Quartermaster Corps to keep American troops overseas well fed, the authorization for the establishment of coffee-roasting plants with the American Expeditionary Forces has been approved. An order has now been given for the installation of 16 grinding and roasting plants in France. Sixteen other plants to supplement these are being held in reserve for installation when demanded. Two French plants have just been taken over and are now being operated by French personnel, who will be replaced shortly by Americans skilled in coffee roasting.

Insures Fresh Supply.

Through the installation of these coffee-roasting and grinding plants in France it will be possible to supply our soldiers with coffee that is issued within 24 hours after roasting. It has been estimated by coffee experts that coffee deteriorates in quality about 30 per cent when issued 10 days after roasting. The policy of the subsistence division of the Quartermaster Corps will be to have coffee issued fresh every day. The American soldier likes his coffee strong, and the best Santos coffee is being bought, and the best coffee-roasting process used, so as to give him what he wants.

Besides the advantage of insuring better quality of coffee for the men, it will be possible to save approximately 2 cents on each pound of coffee roasted in the Army roasting plants. On 100,000 pounds this would amount to about $2,000. In considering the quantities of coffee used by the Army, this saving will be great, as 61,000,320 pounds of coffee will be consumed by our Army of 3,000,000 men here and abroad during the year.

For the purpose of training men for duty at coffee-roasting plants throughout the United States a building is being erected at Camp Joseph E. Johnston, Fla., in which a coffee-roasting plant will be installed. Until the completion of this building, Camp Meade is being used to instruct enlisted men in these duties. There are at present five roasting plants being operated by the Army in the United States and three additional ones are being authorized.

ORDERED TO CAMP GORDON.

Special Orders, No. 189:

48. Maj. Justus M. Wheate, Medical Corps, is relieved from duty in the Western Department, and will proceed to Camp Gordon, Atlanta, Ga., and report in person to the commanding general, that camp, for duty.

NEW GOVERNMENT WAR FILM "AMERICA'S ANSWER" READY

The attraction at the Belasco Theater in Washington next week will be the second United States official war picture, "America's Answer," presented by the Division of Films, Committee on Public Information. There will be a public presentation Sunday night, but the official opening performance will be given on Monday night. The President and members of the Cabinet, members of the Senate and of the House of Representatives, Army and Navy officials, and members of the diplomatic corps are expected to be present.

Engineering Feats Pictured.

The 8,000 feet of film to be shown was assembled from 30,000 feet taken by the United States Signal Corps, American Expeditionary Force, by order of Gen. John J. Pershing, under the direction of the General Staff. It shows the activities of the first half million American soldiers in France.

Besides the military phases of the picture there is shown in detail the vast amount of work accomplished by the Engineers' Corps. The building of miles of concrete docks where formerly unsanitary marshes were, the erection of huge railroad shops, the laying of 900 miles of rail, the mushroom-like springing up of miles of hospitals and refrigerating, storage, and reclamation plants, which, however, are built to last for generations, show the making of a new America in old France just as in years gone by a new France was founded on this continent.

Shows Battle of Cantigny.

The military scenes are impressive and the climax is the battle of Cantigny, in which American troops won their first victory over the German troops. The scenic setting, the opening tableau vivant, and the descriptive musical score were arranged by S. S. Rothapfel, director of the Rialto and Rivoli Theaters, in New York.

To those who have gladly given their work and their money to the winning of this war "America's Answer" will be an inspiration for new sacrifice, effort, and giving. It is an accounting to the American people of the stewardship of their servants in the United States and in France.

There will be matinees every day, beginning Monday.

RECLAMATION SERVICE PROPOSALS.

The United States Reclamation Service, Department of the Interior, is sending out proposals as follows:

For furnishing cast-iron gates and gate lifts for the Strawberry Valley project, Utah. Bids will be received at the office of the United States Reclamation Service, Denver, Colo., until 2 p. m., September 3. The material to be furnished will require about 1,200 pounds of metal work.

For furnishing drag-line excavators. Bids will be received by the United States Reclamation Service, Denver, Colo., until 2 p. m., September 5.

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

GERMANY REPORTED BUILDING A VESSEL OF 56,000 TONS

The Shipping Board authorizes the following:

The Nordisches Kolonial Kentor (Northern Colonial Bureau, Limited) in Hamburg has issued a pamphlet entitled "German shipping before, during, and after the war," which contains valuable statistics. The German merchant marine amounted to 5,459,296 gross register tons on January 1, 1914. Shipowners have thus far direct and indirect losses of about 800 ships, with about 2,900,000 gross register tons, or more than 50 per cent.

If the ships still lying in neutral harbors are counted as lost as a precautionary measure about two-thirds of the entire German merchant marine would be done away with. In comparison with these losses the following table of new ships ordered by German steamship companies during the war is of interest:

Some Large Ships Building.

Of the leading companies the Hamburg-American Line is building the *Bismarck*, with 56,000 tons, the turbine steamer *Tirpitz*, with 32,000 tons, and three other ships of 32,000 tons each in Hamburg yards. Near Bremen, nine steamers are being built, of which four, with a cargo capacity of 18,000 tons each, will be the largest freighters in the world. The Flensburg yard is building three large passenger and freight boats, while two other steamers of 13,000 tons each are in order.

Tecklenberg, Goestemunde, is building two cargo steamers of 17,000 tons each for the Panama Canal service. The Hamburg-South American Co. has four cargo steamers being built at various yards aside from the *Cape Polonic*, an improved sister ship of the *Cape Trafalgar* (18,000 tons), new, sunk. The North German Lloyd is building two large liners, *Columbus* and *Hindenberg*, of 35,000 tons each, and two more ships of 12,000 tons each. The African Line is building six, the Hansa Line 12, and the Kosmos Line 10 steamers, ranging from 9,000 to 13,000 tons.

Losses Not Replaced.

According to the above the leading lines are building about 950,000 tons altogether, which is not nearly enough to replace the losses of the German merchant marine during the war. It was therefore necessary to encourage new construction by governmental measures. This purpose is served by the law regarding the reconstruction of the merchant marine recently passed by the Reichstag.

Quick Action by Gunner Saves Submarine's Crew

Secretary Daniels has commended Frank R. Wills, chief gunner's mate, United States Navy, for presence of mind and resourcefulness which prevented possible loss of life on a United States submarine on July 8, 1918.

A torpedo became wedged in the bow torpedo tube, and workmen opened the tube door, with the result that the water pressure washed the torpedo back into the torpedo room, which immediately filled with water. This endangered the lives of the men in the submarine. The workmen did not know what to do to avoid disaster, but Wills saw the danger and closed the tube door. The reports state that Wills's quick thought and prompt action saved the lives of the men and prevented damage to the craft.

Wills enlisted at Honolulu, Hawaii, April 6, 1915, giving as his next of kin, sister, Mary C. Smith, Minot, N. Dak.

TEXTBOOK PUBLISHERS ORDERED TO CUT ANNUAL PRODUCTION TO FIFTY PER CENT

Circular Issued by Pulp and Paper Section of War Industries Board Gives Regulations Designed to Curtail Output and Advises Against Unnecessary Changes.

The War Industries Board authorizes the following:

The Pulp and Paper Section of the War Industries Board has issued to all publishers of textbooks a circular which provides among other things that, during the war, the annual production of new school and college textbooks shall be reduced to 50 per cent of normal or less. It also advises that during the war no change be made in textbooks except where the textbooks in use are clearly unsuited to the needs of the schools.

The circular follows:

To All Publishers of Textbooks:

The Priority Board of the War Industries Board has listed paper mills as an essential industry, and has rated them in the fourth class for priority for coal on the distinct understanding that all wasteful uses of paper shall be eliminated and the necessary use be curtailed to the minimum.

Paper mills will be put upon the priority list for coal conditioned upon their signing a pledge that they will furnish no paper to any consumer who will not also sign a pledge in duplicate that he will exercise the greatest possible economy in the use of paper and will observe all rules and regulations of the Conservation Division and of the Pulp and Paper Section of the War Industries Board. These pledges are now being prepared and will be furnished shortly. One copy will be left on file with the mill and the other will be sent to this office.

The following regulations have been made by the Pulp and Paper Section of the War Industries Board for the control of paper used in the production of all books of educational character, and are to become effective immediately:

1. Price lists to be substituted for catalogues. The price lists shall not contain more than the titles, authors, prices, grade for which the book is intended, and 10 words of descriptive matter. Publishers with no salesman and who do their entire business by mail will be allowed to publish their catalogues in their present form.

2. No new circular shall be issued containing more than four pages. No page is to be over 8½ by 11 inches in size. Circulars to be printed in one color only and no coated paper to be used except where illustrations are reproduced which in the book itself are printed on coated paper. Circulars which do not comply with these conditions shall not be reprinted.

3. The return or consignment privilege shall not be allowed except on introductions, in which case not over 20 per cent of the stock ordered may be returned. This does not apply to State depositories.

4. No coated paper shall be used in the printing of textbooks hereafter, except in cases where coated paper is necessary to print work of such character that it cannot be properly printed on uncoated papers; all of such exceptions to be listed with the Pulp and Paper Section of the War Industries Board.

5. The annual production of new school and college textbooks during the war shall be reduced to 50 per cent or less of the average number issued annually during the five years preceding January 1, 1918. Revisions of old books are not considered as new books. Consideration will be given to the case of publishers who have had no output of new books or only a nominal output for the last five years. Consideration will also be given to new books made necessary or desirable by the exigencies of the war.

6. No textbook publishers shall use paper heavier than the following:

Machine finish	25x38—50
S. & S. C	25x38—60
English finish	25x38—60
Eggshell finish	25x38—60
Coated book (as explained in section 4)	25x38—70
Drawing paper	25x38—70

Weights of binding boards shall be reduced as much as practicable. In cases where books are filed under State laws, with an agreement to maintain weights of papers and boards, publishers are authorized to continue using the present weights of paper and boards until such time as the pulp and paper section of the War Industries Board gets an agreement from the authorities for the publishers to substitute the above standards.

7. No desk or examination copies are to be furnished without charge, except such as are customarily sent by the editorial department to newspapers and periodicals for review. The plan to be followed is that now a part of the textbook law of California. Accompanying each bill for examination copies, the following statement should be used: "As a war measure, the Pulp and Paper Section of the War Industries Board deems it necessary that all examination copies be sent billed on approval at 20 per cent discount from list prices, transportation prepaid. If the books are retained, they are to be paid for at the prices billed; otherwise they are to be returned within 30 days after a decision has been reached as to adoption, when credit in full will be given."

8. The Pulp and Paper Section strongly advises that during the war adopting bodies should make no change in textbooks, except where the books in use are clearly unsuited to the needs of the schools or where the advance in the act of teaching or conditions brought about by the war demand.

SHIPS TOTALING 18,600 TONS ARE DELIVERED IN ONE WEEK

The United States Shipping Board authorizes the following:

One contract steel vessel and two requisitioned steel vessels, aggregating 15,100 tons, and one wood vessel of 3,500 tons were completed and delivered to the United States Shipping Board during the week ending August 10.

Three contract steel vessels and three requisitioned steel ships were launched during the same week, while nine wood ships took to the water during this corresponding period.

8,800-Ton Cargo Ship.

The contract steel vessel delivered to the Shipping Board was the 8,800-ton cargo ship *West Gotomska*, built by the Skinner & Eddy Corporation, Seattle. This brings the grand total of contract steel ships delivered to date to 38 in number, with a total deadweight tonnage of 254,500. There have been 212 requisitioned vessels delivered with a deadweight tonnage of 1,332,756. The wood ships delivered number 13, their aggregate tonnage being 46,500.

The contract steel ships launched number 84, with a deadweight tonnage of 542,750, while 265 requisitioned steel vessels of 1,678,723 deadweight tons have been launched. The wood and composite ship launchings number 157, of 561,600 deadweight tons capacity. The 11 composite ships launched aggregate 41,500 tons.

In the previous week, ending August 1, eight contract steel vessels and five requisitioned steel vessels were completed and accepted. The eight contract vessels included two 8,800-ton cargo ships, one the *Wassaic*, built by the Los Angeles Shipbuilding & Dry Dock Co., and the other the *West Coast*, built by the Columbia River Shipbuilding Corporation. Another was the 9,400-ton cargo boat, *Aniwa*, built by the Moore Shipbuilding Co.

Tanker Requisitioned.

Among the requisitioned vessels was the 11,720-ton tanker *J. A. Bostwick*, built by the Harlan plant of the Bethlehem Shipbuilding Corporation. There was another 8,800-ton cargo boat, the *Western Light*, built by the Northwest Steel Co.; the 7,500-ton cargo carrier, the *Masuda*, built by the Seattle Dry Docks & Construction Co. The total tonnage of the requisitioned ships delivered in that week was 35,320, and the eight contract vessels delivered aggregated 44,750 deadweight tons.

Six New Steel Hangars At Ellington Field, Tex.

The War Department authorizes the following statement:

Six new steel hangars, costing between $9,000 and $11,000 each, are being constructed at Ellington field, one of the gunnery schools of the Air Service, at Houston, Tex. The new hangars will be used in connection with work in bombing, which is soon to be started. Three hundred and thirty-three acres of land near Ellington field have been secured for the bombing field. Troop labor is being used in the construction work.

Besides the main field known as Ellington, there are five auxiliary fields near Houston, all of which are used in the training of fliers. New extensions include the utilization of land at Park Place and on the Gulf, near San Leon, Tex.

Americans on About Same Sugar Ration as Are the People of Great Britain

The Food Administration authorizes the following:

The people of America have had but little opportunity to get on a share-and-share-alike basis with those of the allied nations. If we had as many men under arms proportionately as Great Britain our fighting forces would number about 14,000,000. The nearest to equality we can reach just now is in the matter of food; and limited shipping precludes sending enough of our plenty to the allies to reach a level basis at once.

Near Level on Sugar.

But sugar is one article on which we can get somewhere near a fair level. Two pounds per person per month for household purposes will give us the ration that England is seeking to maintain, but which she can not guarantee absolutely to her people. In France the amount sought to be maintained is 1½ pounds per person per month, though for some time past the quantity actually consumed has been but a trifle over 1 pound per month—13 pounds per year. Italy is trying to maintain the maximum of 1 pound per month, but has been falling below even this allowance. Even if we are able to maintain the allies at their maximum and still keep our population to 2 pounds, the balance will be in our favor, because of the more rigid limitations placed on manufacturers abroad who use sugar.

More Than Absolutely Needed.

The honor ration of 2 pounds per month per person is more than absolutely necessary from a dietetic standpoint, excepting for people who are facing great demands upon their energy, such as constantly getting wet or enduring nerve-straining vigils or performing feats of prodigious endurance.

French and Italian Caterers Required to Prominently Show Fair Price Lists

The Fuel Administration authorizes the following:

A French Government decree, effective July 22, orders that after that date all shops where articles of food and drink and certain household necessities are sold must exhibit a price list both inside and outside the establishment. This will enable an easy check to be kept on retailers both by shoppers and the authorities.

Must Display Price Lists.

Hotels and restaurants will also have to post up a priced bill of fare outside. Special agents will report direct to the ministers concerned all cases of excessive charges, and also irregularity of supplies, overstocking, and anything which tends to increase the cost of living. The decree applies to all places with more than 3,000 inhabitants.

Similar Order in Italy.

A similar order has just been passed in Italy. There the proprietor of every public eating place is required to send each day a copy of his bill of fare to the proper authorities. The bill of fare is examined to see if the prices charged are considered fair, and if so it is stamped to this effect. A copy of the bill of fare bearing this stamp must then be posted conspicuously in the restaurant, and the prices charged for food must not exceed those posted. It is also forbidden to serve any dish which does not appear upon the bill of fare.

Call for 300 Selective Draft Men from Texas

The War Department authorizes the following from the office of the Provost Marshal General:

A call was issued to-day for 300 selective-draft men to attend a special course in mechanical training at the University of Texas, Austin, Tex. The call is limited to white residents of Texas who have had a complete grammar-school education.

Applications to take the course will be on a voluntary basis until August 30. If by that time the full quota of 300 is not filled, local boards will make up the deficiency by selecting individuals for that purpose.

Voluntary applications should be made through the local boards.

Export Declarations On War Consignments

The Treasury Department authorizes the following:

[T. D. 37735.]

TREASURY DEPARTMENT,
August 6, 1918.

To collectors of customs and others concerned:

Export declarations (customs Cat. 7525) will not be required on shipments of munitions, equipment, medical, and other supplies, and baggage made by officers of the Army or Navy of the United States by rail on Government bill of lading consigned to officers of the United States in Canada.

T. D. 37347, dated September 27, 1917, is hereby amended accordingly.

(106835) L. S. ROWE,
Assistant Secretary.

Are you "doing your bit" in saving food for our allies and our soldiers and sailors?

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

333 Sick and Wounded Landed in U. S. During the Week Ending August 16

The War Department authorizes the following statement from the Office of the Surgeon General:

During the week ending August 16, the number of sick and wounded landed in the United States from the American Expeditionary Forces was 333. For the preceding week the number was 63.

These men were sent to the various Army hospitals where facilities for special reconstruction have been provided.

SECTION NO. 1.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	21
Missing in action	65
Wounded severely	81
Died from accident and other causes	2
Died of disease	4
Wounded, degree undetermined	23
Prisoner	1
Total	197

Killed in Action.

LIEUTENANTS.

Orville P. Johnson. Charles H. Johnson, 175 Jay Street, Albany, N. Y.

Elmer Burdett Nelson. Albert Alexander Nelson, R. F. D. No. 4, Pontiac, Mich.

SERGEANTS.

Samuel A. Goldenberg. Barney Goldenberg, 836 Dawson Street, New York, N. Y.

Eddie Lee. Mrs. Sarah T. Lee, Narrows, Ky.

Charles Reardon. John Reardon, Sharpsville, Pa.

CORPORALS.

Floyd Ibbotson. Thomas Ibbotson, R. F. D. No. 6, Dowagiac, Mich.

Morris Lynchick. David Lynchick, 333 Glenmore Avenue, Brooklyn, N. Y.

PRIVATES.

Isaac Allen. George Allen, Bay Shore, Mich.

Andrew Anrzeajczyk. Leo Chojnowski, 2226 West Twenty-first Place, Chicago, Ill.

Rudolph W. Bergquist. Mrs. Hilma Bergquist, 1010 Seventh Street, Rockford, Ill.

Clarence Bofror. Isaac M. Bar, R. F. D. No. 3, Winchester, Ind.

Grant L. Colton. Frank Colton, R. F. D. No. 1, Medina, N. Y.

Arch D. Cumpton. C. M. Cumpton, Altus, Ark.

Alfred J. Curtis. Mrs. Sarah J. Flynn, 110 Lincoln Street, Lewiston, Me.

Mark Ira Duane. Mrs. Mary Duane, box 62, Mellen, Wis.

Edward J. Galaska. Albert Galaska, 829 Garden Street, Milwaukee, Wis.

Guy George. Mrs. Marie Libera Di Felippis, 22 Battery Street, Boston, Mass.

Paul Norbet. Frank Norbet, 902 North Adams, West Franklin, Ill.

Sylvester S. Sanders. Mrs. Mary E. Sanders, Ewing, Nebr.

Helmet Stever. Herman Stever, box 135, Mellon, Wis.

Daniel J. Wansie. Mrs. Ben Starr, 322 Scott Street, Kulpmont, Pa.

Died of Disease.

PRIVATES.

Julian W. Baldwin. Fred C. Baldwin, 287 William Street, East Orange, N. J.

John L. Bower. Mrs. Georgia Irby Bower, 317 Washington Street, Covington, Ga.

International Shoe Co., St. Louis, Mo., leggings.

United States Worsted Co., Lawrence, Mass., olive-drab melton.

Richman, Newburger & Travers, New York City, woolen trousers.

August 14, 1918.

PURCHASE ORDERS.

Hayes Grain & Commission Co., Chicago, Ill., oats.

H. I. Baldwin & Co., Decatur, Ill., oats.

CONTRACTS.

Eugene M. Keller, North Bergen, N. J., English silk colors.

E. T. Wright & Co. (Inc.), Rockland, Mass., field shoes.

Converse, Stanton & Co., New York City, bleached jean.

August 15, 1918.

PURCHASE ORDERS.

Libby, McNeil & Libby, Chicago, Ill., milk.

Emery Candle Co., Cincinnati, Ohio, candles.

John Hoberg Co., Green Bay, Wis., toilet paper.

Carnation Milk Products Co., Chicago, Ill., milk.

Van Camp Products Co., Indianapolis, Ind., milk.

A. G. Spalding & Bros., Brooklyn, N. Y., leggins.

E. O. Richardson, Okoloma, Miss., hay.

Oatman Condensed Milk Co., Dendee, Ill., milk.

Wisconsin Condensed Milk Co., Burlington, Wis., milk.

Valecia Evaporated Milk Co., Madison, Wis., milk.

Grand Ledge Milk Co., Detroit, Mich., milk.

Walter H. Hildlick Co., New York City, vinegar.

S. C. Woolman & Co. (Inc.), Philadelphia, Pa., timothy hay.

A. H. George Co., Meridian, Miss., grass hay.

James A. Connor, St. Louis, Mo., oats.

Thistlewood & Co., Cairo, Ill., oats.

Oatman Condensed Milk Co., Dundee, Ill., milk.

Valecia Evaporated Milk Co., Madison, Wis., milk.

Grand Ledge Milk Co., Detroit, Mich., milk.

Southwest Hay & Grain Co., Phoenix, Ariz., hay.

Mount Hope Finishing Co., North Dighton, Mass., dyeing and finishing duck.

Jacob Lunitz & Sons, New York City, canvas padding.

Penn Sugar Co., Philadelphia, Pa., sugar.

Warner Sugar Refining Co., New York City, sugar.

Standard Oil Co. of Kentucky, Louisville, Ky., gasoline.

Wellington Sears & Co., Boston, Mass., gray duck.

Pillsbury Flour Mills Co., Minneapolis, Minn., flour.

Washburn-Crosby Co., Minneapolis, Minn., flour.

River Plate Commercial Co., New York City, sardines.

Carnation Milk Products Co., Chicago, Ill., milk.

Austin Nichols Co., New York City, tea.

Standard Oil Co. of Louisiana, New Orleans, La., gasoline, kerosene.

Twin Peas Canning Co., Salt Lake City, Utah, peas.

Ephriam Canning Co., Ephriam, Utah, peas.

Fort Lupton Canning Co., Fort Lupton, Colo., peas.

Platte Valley Canning Co., Denver, Colo., peas.

Gasoline Distributing Co., Long Island City, N. Y., gasoline.

Empson Packing Co., Longmont, Colo., peas.

Important Notice to U. S. Purchasing Agents

Purchasing agents for the various Government departments and the special United States war administrations are earnestly reminded to send to the Official U. S. Bulletin at the earliest possible moment all copy for bids to be advertised and purchase awards, in order that these may be promptly and correctly printed in the Bulletin in accordance with the orders of the Secretary of War and other heads of departments.

The task of preparing this copy for publication, with a view to absolute correctness and continuity, is a considerable one, but, with the cooperation of the purchasing agencies, should result in a great help, not only to the departments themselves, but to bidders throughout the country, all of whom, through the medium of the Official Bulletin, are desirous of keeping informed of the Government's needs.

AWARDS BY PURCHASING DEPARTMENT OF THE GENERAL ENGINEER DEPOT

Contracts have been awarded by the General Engineer Depot, War Department, as follows:

AUGUST 14, 1918.

Haskell & Barker Co., Michigan City, Ind., refrigerator cars.
Somers, Fitler & Todd Co., Pittsburgh, Pa., taper shanks.
Evansville Tool Works, Evansville, Ind., tongs.
C. C. C. Fire Hose Co., Canton, Mass., fire hose, rubber lined.
Luther Grinder Manufacturing Co., Milwaukeee, Wis., tool grinders.
Smith-Hemenway Co., Irvington, N. J., pliers.
Moore Push-pin Co., Philadelphia, Pa., push pins, glass heads.
Drop Forging Company of New York, Newark, N. J., pipe wrenches.
Fayette R. Plumb (Inc.), Philadelphia, Pa., axes.
The Borden Co., Warren, Ohio, stock and dies.
Alpher & Kur, Washington, D. C., watchmaker's tools.
Stanley Rule & Level Co., New Britain, Conn., cold chisels.
Fuchs & Lang Manufacturing Co., New York City, scotch hones.
Yawman & Erbe Manufacturing Co., Washington, D. C., drawer box sections.
Raydex (Inc.), Jamestown, N. Y., screen Raydex.
Peter Schuttler Co., Chicago, Ill., log wagons.
Iron City Tool Works, Pittsburgh, Pa., rivet headers.
Lufkin Rule Co., Saginaw, Mich., steel tapes.
Cleveland Stone Co., Cleveland, Ohio, grindstones.
Novo Engine Co., Lansing, Mich., engines.
Warren Tool & Forge Co., Warren, Ohio, hammers, swedges, etc.
Champion Tool Co., Meadville, Pa., tongs and clinch cutters.
E. C. Atkins & Co. (Inc.), Indianapolis, Ind., saws, hammers, files, etc.
Stanley Rule & Level Co., New Britain, Conn., boxwood rules.
Beall Tool Co., East Alton, Ill., sledge hammers.
The Graton & Knight Manufacturing Co., Worcester, Mass., leather belts.
The Irwin Auger Bit Co., Wilmington, Ohio, auger bits.
American Chain Co., Terminal, New York City, coil chains.
The Yale & Towne Co., New York City, chain blocks.
Illinois Iron & Belt Co., Carpentersville, Ill., jack screws.
Columbus McKinnon Chain Co., Columbus, Ohio, coil chain.
The Kelly Axe Manufacturing Co., Charleston, W. Va., scythes.
The Whitman & Barnes Manufacturing Co., Akron, Ohio, wrenches.
Greene-Tweede & Co., New York City, pipe wrenches.
The Harold McCalla Co., Philadelphia, Pa., mild steel, round.
American Chain Co., New York City, switch chains.
Eugene Dietzgen Co., New York City, tripods.
Chicago Steel Tape Co., Chicago, Ill., transit rods.
The C. F. Pease Co., Chicago, Ill., blueprint filing cabinets.
Columbus Handle & Tool Co., Columbus, Ind., push broom handles.
Evansville Battery Corporation, Boston, Mass., batteries.
Liberty Car Equipment Co., Chicago Heights, Ill., box cars.
Pressed Steel Car Co., New York City, box cars.
The Standard Steel Car Co., Washington, D. C., gondola cars tarpaulin.
The American Car & Foundry Co., Washington, D. C., box cars.
Pullman Co., Chicago, Ill., box cars.

AUGUST 15, 1918.

Cooper Hewitt Electric Co., Hoboken, N. J., mercury vapor lights.
American Chain Co., New York City, anchor chains.
Watson McDaniel Co., Philadelphia, Pa., improved steam trap.
Moore Push-Pin Co., Philadelphia, Pa., push-pins.
Kruse Printing Ink Co., mimeograph ink.
Southern Oxygen Co., South Washington, Va., cylinders of oxygen.
C. C. C. Fire Hose Co., Canton, Mass., rubber-lined fire hose.
Vichek Tool Co., Cleveland, Ohio, ball peen hammers.
Fayette R. Plumb (Inc.), Philadelphia, Pa., axes.
J. A. Isbell, Baxter, Tenn., railroad pick handles.
The Oster Manufacturing Co., Cleveland, Ohio, pipe-threading and cutting-off machines.
National Gum & Mich Co., New York City, gum arabic.
Fuchs & Lang Manufacturing Co., New York City, gray Scotch hone.
J. W. Paxon Co., Philadelphia, Pa., floor rammers and foundry riddles.
Little Giant Punch & Shear Co., Sparta, Ill., combined punch and shear.
Luetkemeyer & Co., Cleveland, Ohio, soldering paste.
L. B. Allen Co. (Inc.), Chicago, Ill., soldering salts.
Adams & Westlake Co., Chicago, Ill., parts for switch lamps.
Peter Schuttler Co., Chicago, Ill., lumber wagons.
Armstrong Manufacturing Co., Bridgeport, Conn., pipe-threading machines.
The W. Bingham Co., Cleveland, Ohio, snatch blocks.
General Electric Co., Washington, D. C., motors.
Steger & Sons Piano Manufacturing Co., Steger, Ill., engineers' outfit boxes.
Buffalo Forge Co., Washington, D. C., post drills.
Warner Hammer Co., Cromwell, Conn., riveting hammers.
Vaughn-Bushnell Manufacturing Co., Chicago, Ill., farriers' hammers.
Heller Bros. Co., Newark, N. J., blacksmiths' creasers.
Champion Tool Co., Meadville, Pa., cold chisels.
Whitman & Barnes Manufacturing Co., Akron, Ohio, machinists' knife handle wrenches.
Warren Tool & Forge Co., Warren, Ohio, blacksmiths' flatters.
American Logging Tool Co., Evart, Mich., cant hooks.
Cant & Karwiese, Chicago, Ill., pritchels.
George L. Lyon, Milford, N. Y., tire-measuring wheels.
Oshkosh Manufacturing Co., Oshkosh, Wis., peavies.
Smith-Hemenway Co., Irvington, N. J., pliers.
The W. Bingham Co., Cleveland, Ohio, putty knives, rosin, leather punches, etc.
The Fenn Manufacturing Co., Charlotte, Mich., bush or weed snaths.
Iron City Tool Works (Ltd.), Pittsburgh, Pa., rail forks, tongs, etc.
Garlock Packing Co., Cleveland, Ohio, sheet rubber cloth insertion.
Eugene Dietzgen Co., New York City, stadia rods.
E. J. Murphy Co., Washington, D. C., brushes.
M. Grumbacher, New York City, brushes.
W. & L. E. Gurley, Troy, N. Y., plate level vials.
Hugh Reilly Co., Washington, D. C., paints.
Hectograph Manufacturing & Duplicating Co. (Inc.), Washington, D. C., hectograph pencils.
Blaisdell Paper Pencil Co., Philadelphia, Pa., copying pencils.
B. & H. Relief Map Co., Washington, D. C., relief maps.
Eagle Pencil Co., Washington, D. C., carpenters' pencils.
F. Weber & Co., Philadelphia, Pa., oil colors.
Whiting-Adams Co., Boston, Mass., brushes.
J. W. Hunt & Co., Washington, D. C., brushes, paint strainers, sponges, etc.
Luther Grinder Manufacturing Co., Milwaukee, Wis., tool grinders.
Eagle Glass Manufacturing Co., Wellsburg, W. Va., solid steel oiler.
Beall Tool Works, East Alton, Ill., blacksmiths' countersinks.
Leo A. Phillips, New York City, centrifugal pumps.
Warren Axe & Tool Co., Warren, Pa., saw wedges.
Topping Bros., New York City, ship clamp screws.
Vichek Tool Co., Cleveland, Ohio, ball peen hammers.

AWARDS BY THE HARDWARE AND METALS DIVISION, QUARTERMASTER DEPARTMENT

The following is a list of purchase orders and contracts awarded by the Hardware and Metals Division of the Office of the Quartermaster General of the Army:

August 12 and 13, 1918.

PURCHASE ORDERS.

Canadian Shovel & Tool Co. (Ltd.), New York, N. Y., shovels.
Griebell Instrument Co., Carbondale, Pa., hydrometers and thermometers.
Compound Merchandise Co. (Inc.), New York, N. Y., harness needles.
Union Hardware Co., Torrington, Conn., tackle blocks.
Hauck Manufacturing Co., Brooklyn, N. Y., burners.
Republic Metal Ware Co., Buffalo, N. Y., tin pie plates.
National Enameling & Stamping Co., New York, N. Y., funnels.
Laclede Christy Clay Products Co., St. Louis, Mo., tiles.
Singer Sewing Machine Co., New York, N. Y., machine and parts.
C. A. Myers Co., Chicago, Ill., lock stitch awls.
Republic Metal Wares Co., Buffalo, N. Y., tin pie plates.
Dover Stamping & Manufacturing Co., Cambridge, Mass., tin funnels.
Penn Hardware Co., Reading, Pa., door bolts.
National Stove Co., Lorain, Ohio, stove scrapers.
Westinghouse Electric & Manufacturing Co., Washington, D. C., electric iron.
Budke Manufacturing Co., Parkersburg, W. Va., elbows.
Singer Sewing Machine Co., New York, N. Y., machine and parts.
Nicholson File Co., Providence, R. I., files.
Acme Rubber Manufacturing Co., Trenton, N. J., fire-extinguisher hose.
Landers, Frary & Clark, New Britain, Conn., butcher knives.
Singer Sewing Machine Co., New York, N. Y., sewing machines.
A. Kreamer (Inc.), Brooklyn, N. Y., flour sieves.
Westinghouse Electric & Manufacturing Co., Washington, D. C., electric irons.
Miller Lock Co., Frankford, Philadelphia, Pa., padlocks.
Westinghouse Electric & Manufacturing Co., Washington, D. C., electric motor.
Chantrell Hardware & Tool Co., Reading, Pa., door bolts.
Penn Hardware Co., Reading, Pa., door bolts.
Dow Wire & Iron Works, Louisville, Ky., chambers.
C. J. Taliabue Manufacturing Co., Brooklyn, N. Y., thermometers.
Linen Thread Co., New York, N. Y., Italian hemp twine.
Fayette R. Plumb (Inc.), Bridesburg, Philadelphia, Pa., broadaxes.
John B. Black (Inc.), Chester, Pa., broadaxes.
Westinghouse Electric & Manufacturing Co., Washington, D. C., electric irons.
Singer Sewing Machine Co., New York, N. Y., sewing machines.

CONTRACTS.

Champion Blower & Forge Co., Lancaster, Pa., post drills.
Washington Cutlery Co., Watertown, Wis., butcher's cleavers.
Chicago Flexible Shaft Co., Chicago, Ill., horse clippers.
Engman-Mathews Range Co., South Bend, Ind., Army ranges.

DIGEST OF OPINIONS BY THE JUDGE ADVOCATE GENERAL IN DECIDING VARIOUS ARMY QUESTIONS

Status of Field Clerks.

Army field clerks, being appointed to office by the Secretary of War, are officers in the military service; but they are not commissioned officers in the Army, and of course they are not enlisted men therein. Hence they are not entitled to the increase of pay allowed to commissioned officers and enlisted men while serving beyond the limits of the States of the Union and the Territories contiguous thereto, authorized by the act of June 30, 1902. (32 Stat. 512) The pay of Army field clerks is fixed by statute, and there is no statutory authority for allowing them an increase of pay for foreign service.

(Ops. J. A. G. 211.25, Mar. 8, 1918.)

Enticing Workmen from Factory.

Sections 43 and 45 of the Criminal Code punishing the enticing of workmen from arsenals or armories and the unlawful entering upon any military reservation, Army post, fort, or arsenal, and section 1 of the act of March 3, 1911 (36 Stat., 1084), punishing the unlawful entry upon any fort, arsenal, factory, building, etc., owned and constructed, or in process of construction, by the United States or in the possession or under the control of the United States, and the unauthorized obtaining of information respecting the national defense or the receiving or communicating such information, are applicable to a Government plant for the manufacture of smokeless powder in process of construction. The word "arsenal" as used in such statutes embraces the powder plants of the Federal Government. (23 Opins. Atty. Gen. 444.) These statutes are applicable to powder plants situated on lands of which the Government has possession and where construction work is going on, but as to which the Government's title has not yet been completed, as well to those on lands to which full title has been acquired by the Government.

(Ops. J. A. G. 635, Mar. 23, 1918.)

Member of Court-Martial.

A soldier was tried before a general court-martial on charges signed by one of the members of the court. The accused stated that he had no objection to being tried by any member of the court present. The member who had signed the charges thereupon announced that he had signed the charges but had not formed an opinion. He was not challenged by either the prosecution or the defense. No evidence was taken as to whether or not he was eligible, and the court did not make a finding or record of any action upon the question of his eligibility, and, in fact, no action was taken thereon. The accused pleaded guilty to both the offenses charged. Held, that the officer who signed the charges was ineligible to sit as a member of the court-martial and that the proceedings are invalid. A. W. 8 provides that no officer shall be eligible to sit as a member of a general court-martial when he is the accuser. Whether or not an officer is the accuser in a particular case is a question of fact. Nevertheless, the officer who has signed the charges is prima facie the accuser. In signing the charges he has performed an act that, in the absence of a showing to the contrary, must be construed as having been performed in the capacity of an accuser. Therefore in the absence of a showing, finding, or record that such officer is not in fact the accuser within the meaning of A. W. 8, and consequently not disqualified from sitting as a member of the court for the trial of the case, the fact that he did so sit must be regarded as invalidating the proceedings. (Digs. Ops. J. A. G. 1912–17, 346.) The reviewing authority can not now return the record for correction by taking testimony on the eligibility of this officer to sit as a member of the court. That matter should have been tried and disposed of before the organization of the court. On the face of the record the court was never lawfully constituted, and it would not be lawful for it now to receive and take evidence upon and to investigate the legality of its own existence. The proceedings should be set aside as null and void and the charges referred to another court for trial. (Ops. J. A. G. 250–4, Mar. 18, 1918.)

Procedure of Claims Board.

Where a board, appointed under A. W. 105 to consider the claim for damage done by a soldier to the property of a civilian, has made a careful and conscientious consideration of all evidence available and has fixed the amount of damages to be paid to the claimant out of the pay of the soldier, the findings of said board will be considered and acted upon as the final disposition of the case. The mere fact that one or the other party to the controversy feels himself aggrieved by the result is not a sufficient reason for a reexamination of the dispute by the appointment of a new board to consider the matter. Where a controversy has been once tried and decided by a competent and impartial tribunal, proceeding in a lawful manner, its decision should be considered as final and the litigation ended. (Ops. J. A. G. 153, Mar. 5, 1918.)

Duties of Post Surgeon.

The post surgeon when within the post is the official medical officer within the meaning of section 9 of the act of September 7, 1916 (39 Stat. 742), as regards civilian employees of the United States who are injured while performing their duties in construction work at an Army post. The surgeon having any such case in charge should sign the statement headed "The official medical officer," and any other statement or certificate necessary to complete a thorough history of the case, in so far as he may be connected with it. In a community where there is provided by the United States Compensation Commission an out-patient office or hospital, where medical or surgical attention is available for the relief of civil employees of the United States injured while in the performance of their duties, the post surgeon would not be required to attend any such injured civilians after their removal to such hospital for treatment or later upon their removal from such hospital to their homes.

(Ops. J. A. G. 701, Mar. 30, 1918.)

Civil Service Employees.

Section 9 of the civil-service act of January 16, 1883 (22 Stat. 403), provides "That whenever there are already two or more members of a family in the public service in the grades covered by this act, no other member of such family shall be eligible to appointment to any of said grades." Where, however, through inadvertence an appointment has been made of a third member of a family, and such appointment has been accepted by the appointee without any fraud on his part or concealment of material facts, it is then too late for the Civil Service Commission to correct its certification, and the person so appointed may lawfully be retained in the service. (30 Ops. Atty. Gen. 169.)

(Ops. J. A. G. 230.8, Mar. 19, 1918.)

Soldier at Private Hospital.

When it is properly determined by the proper officers of the Government that the facilities or accommodations at a military hospital are not adequate or proper for the treatment of any particular case, and the patient is removed to a private hospital for suitable care and treatment, the expenses incurred may be paid by the Government under the authority of the provisions in the Medical Department's appropriation (40 Stat. 40, 60) "for medical care and treatment not otherwise provided for, including care and subsistence in private hospitals."

(Ops. J. A. G. 701, Mar. 19, 1918.)

Commutation of Rations.

Regular civilian employees of the United States in service at camps or cantonments at the present time are to be considered as accompanying troops in the field in time of war, within the provisions of A. R. 733 (sub-par. 1 f), C. A. R. 59 and 66. Accordingly they are entitled to an allowance of quarters and rations, as specified in the paragraph, while employed on such duty. Hence it is proper to arrange with a contractor to furnish such civilians with meals during a period when it is impracticable for the Government to provide them with subsistence in kind. In special cases where the circumstances show the impracticability of furnishing rations in kind, such employees may be granted commutation of rations not exceeding the statutory limits of $4 per day, by authorization of the Secretary of War. The expenses thereof would be payable from the quartermaster appropriation for "Supplies, services, and transportation."

(Ops. J. A. G. 430.1, Mar. 2, and 248.5, Mar. 27, 1918.)

How the Government Is Endeavoring to Meet Housing Problems in Cities for Workers in War Munition Plants

Department of Labor Review of Work Already Done Under Authority of Congress Shows Progress in Caring for American Industrial Army. Limitations Encountered in Certain Localities—Special Plans Necessary in Some Towns.

The Department of Labor authorizes the following:

The following general summary of the Government housing program is authorized by the Bureau of Industrial Housing and Transportation of the Department of Labor:

Shortly after the entrance of the United States into the war the attention of the Federal authorities was attracted to the enormous labor turnover occurring in war industries. Preliminary investigation by committees created for that purpose under the Council of National Defense revealed that among the primary causes contributing to this industrial unrest were inadequate housing conditions in the immediate vicinity of the congested manufacturing centers and an insufficiency or total lack of transportation facilities between the communities in which the workers were employed and their places of abode. The loss in production of materials essential to the Government's war program rapidly assumed alarming proportions. Conditions brought about by the war had reduced private building to a minimum. Difficulties in the way of procuring materials and uncertainty as to financial returns operated as further deterrents to private investments. It early became apparent, therefore, that if the flow of munitions and other war products to our armed forces across the seas was to continue uninterrupted, far-reaching measures with a view to increasing available housing accommodations must be initiated by the Federal Government.

Department Heads Confer.

With a view to formulating a comprehensive housing program conferences between representatives of the legislative branch of the Government, the Department of Labor, the War Department, the Navy Department and the Shipping Board were called. Early in the deliberations it developed that more expeditious relief could be afforded the various shipyards throughout the country, at which the need for housing accommodations had become particularly acute by reason of the fact that there was available to the Shipping Board the requisite funds, although it lacked the necessary legal authority to expend this money for housing purposes. To meet the needs of communities engaged in the fabrication of war products, however, there was available neither authority nor finances. The determination was reached, therefore, to urge upon Congress the immediate passage of a bill which would enable the Shipping Board to proceed with its end of the housing program to be administered by the Department of Labor for the benefit of communities other than those affected by shipyards, where the efficiency of workers was being impaired by the shortage of housing facilities.

Several months elapsed before this measure was finally enacted into law, but on May 16, 1918, the President affixed his signature to the housing act. Some further delay ensued in securing the necessary appropriations, but in June the Bureau of Industrial Housing and Transportation of the Department of Labor, the preliminary organization of which had already been perfected, entered actively upon the administration of the housing program.

Inasmuch as the primary purpose of the Government's housing program is to provide accommodations for workers employed upon contracts for the War and Navy Departments, representatives from each of these branches of the Government serve in an advisory capacity to the director of the bureau. Working also in close cooperation with this bureau, the Division of Housing and Transportation of the Shipping Board is proceeding with its task of providing accommodations for workers in the various shipyards.

As originally outlined, the policy to be followed in administering the housing program committed to the Department of Labor contemplated participation of local interests with the Federal Government, the organization contributing to be charged with the administration of the properties during the period of the war and to take title thereto upon repayment of the Government loan. For reasons which were felt to be compelling, this policy has since been abandoned in favor of a clean-cut Government program, which provides that the Government shall build, own, control, and rent all industrial housing which it creates during the war.

The Housing Corporation.

In an effort to secure more freedom of action than was possible through the usual Government agency, there has been created as an adjunct of the Bureau of Industrial Housing and Transportation, the United States Housing Corporation. The corporation is the practical operating branch of the bureau. Its existence, moreover, will make possible the payment of reasonable taxes to these municipalities or States which cooperate with the Government in its new developments by providing utilities, an obligation which could only be assumed through the creation and operation of the corporation as a distinct legal entity.

The original appropriation made available to the bureau amounted to $60,000,000, $10,000,000 of which was specifically set aside for the District of Columbia, where the shortage of accommodations for employees of the Federal Government residing in the city of Washington had already made itself seriously felt. This amount has since been augmented by an additional appropriation of $40,000,000, making $100,000,000 in all which has been allotted to the Department of Labor, aside from the amount which has been appropriated for the Shipping Board for housing purposes.

Even with a sum of this magnitude, it is manifestly impossible for the Federal Government to assist every community which is embarrassed by a housing shortage. As a prerequisite to affirmative action, therefore, it insists upon certification by that branch of the War or Navy Department interested in the fulfillment of war contracts, that additional housing in the particular locality is absolutely essential to the successful prosecution of the war program. Requests from communities failing to secure this certification are not entertained. Investigations are also instituted with a view to ascertain whether the needs of the situation may be met by inducing owners of existing homes to throw open their houses to war workers, or whether the improvement or extension of transportation facilities in communities contiguous to the manufacturing centers may be procured. Considerable success has attended the bureau's efforts through both of these mediums and as a consequence the expenditure of millions of dollars in the creation of additional housing has been obviated.

In the following industrial centers, however, it has been found impossible to solve the problem through either of the aforementioned methods and developments of varying degrees of magnitude have been projected:

Alliance, Ohio.
Aberdeen, Md.
Bethlehem, Pa.
Bridgeport, Conn.
Bath, Me.
Bettendorf, Iowa.
Butler, Pa.
Charleston, W. Va.
Dayton, Ohio.
Davenport, Iowa.
Erie, Pa.
East Chicago, Ind.
Elizabeth, N. J.
Florence, Ala.
Gary, Ind.
Hammond, Ind.
Indiana Harbor, Ind.
Indianhead, Md.
Lowell, Mass.
Milton, Pa.
Madison, Wis.
Mare Island, Cal.
Norfolk, Va.
New Brunswick, N. J.
New London, Conn.
Niagara Falls, N. Y.
Niles, Ohio.
Newport, R. I.
Portsmouth, N. H.
Puget Sound, Wash.
Philadelphia, Pa.
Quincy, Mass.
Rock Island, Ill.
Seven Pines, Va.
Sheffield, Ala.
Sharon, Pa.
Staten Island, N. Y.
Tullytown, Pa.
Tuscumbia, Ala.
Watertown, Mass.
Watervliet, N. Y.
Warren, Ohio.
Waterbury, Conn.
Woodbury, N. J.

SERIES OF WAR LECTURES.

A series of lectures illustrated with slides on the various war activities of the United States up to this time is being prepared by George F. Zook, professor of modern European history, Pennsylvania State College. The cantonments, airplanes, the Navy, shipbuilding, the trenches, and many other features of the war are described in an interesting and instructive way. The lectures will be especially useful for the work of teachers, Y. M. C. A. secretaries, and club officials.

Each lecture is accompanied by from 45 to 65 slides, which are being sold at the nominal price of 15 cents each. The lectures and slides will be available for use about October 1. For further information address the Division of Civic and Educational Publications, Committee on Public Information, Washington, D. C.

BRICKMAKERS TOLD THEY MAY APPLY FOR PLACES ON WAR PRIORITIES LIST

The War Industries Board, Priorities Division, issues the following:

CIRCULAR NO. 7.

To all manufacturers of paving brick, face brick, and common brick:

The Priorities Division of the War Industries Board has undertaken to determine priorities in the fuel requirements of industries and has considered your industry in conferences between your representatives and the undersigned with other representatives of the War Industries Board. Conclusions have been reached as stated herein.

The Priorities Division will receive the application of any manufacturer of brick for a place on the preference list for fuel. It will in every case take into consideration the fuel situation of such manufacturer, the amount of its direct and indirect Government business, and the uses to which the remainder of its product is being devoted.

With its application such manufacturer should include its pledge of cooperation in the form following:

"PRIORITIES DIVISION,
"WAR INDUSTRIES BOARD,
"*Washington, D. C.*

"The undersigned hereby pledges itself not to use, nor so far as lies within its power permit to be used, any products of its manufacture now in, or which may hereafter come into, its possession or control, save (a) for essential uses as that term has been or may be defined or applied from time to time by the Priorities Division of the War Industries Board, or (b) under permits in writing signed by or under authority of such Priorities Division; that it will make no sale or delivery of such products to any customer for resale until such customer has filed with it a similar pledge in writing, and that it will use its utmost endeavor to insure that its products shall be distributed solely for essential uses."

Any manufacturer who has already made application for place on the preference list should send in its pledge of cooperation in the foregoing form and mention the fact that application has previously been forwarded.

In addition, such manufacturer must send each month its reports on forms which it will secure from the Building Materials Section of the War Industries Board showing the deliveries and uses made of its product during the preceding month.

The pledge to be given such manufacturer by its customer who purchases for resale should be addressed to such manufacturer and be in the following form:

"To ———— ————,
"City of ————,
"State of ————.

"The undersigned hereby pledges itself not to use, nor, so far as lies within its power, permit to be used, any brick of your manufacture now in or which may hereafter come into its possession or control, save (a) for essential uses as that term has been or may be defined or applied from time to time by the Priorities Division of the War Industries Board, or (b) under permits in writing signed by or under authority of such Priorities Division; and, further, that it will make no sale or delivery of such brick to any customer for resale until such customer has filed with the undersigned a similar pledge in writing, and that it will report to you monthly dispositions made during the previous month of such brick."

Any manufacturer whose plant now is or who agrees that in future it shall be devoted to manufacturing products being or to be absorbed directly or indirectly by the Government, or in other uses of essential importance, and whose fuel requirements and output bear proper economical relationship to each other, will be placed upon the preference list, upon condition, however, that such manufacturer shall observe its pledge of cooperation and the rulings of the Priorities Board.

Such manufacturer should scrutinize with great care orders which are offered it for its products for use in any construction not directly sanctioned by the Government but represented to be an indirect war requirement in caring for soldiers, seamen, and war workers. Many such projects which would normally be quite unobjectionable can and should be deferred under present conditions. Manufacturers and dealers are in a position to contribute and are expected to contribute substantially to such a result.

The United States Fuel Administrator has very recently in unequivocal terms stated that "the country needs now—and for the whole period of the war will need—more coal than it can possibly produce and transport." The necessity for conserving fuel is, therefore, imperative, and to that end it is necessary to substantially curtail the production of nonwar industries and that portion of the production of war industries devoted to nonwar uses. It is also important that no unnecessary burden be laid upon the transportation lines of the country, that they may be free to render direct and indirect war service. Labor must be released from nonwar industries to the extent that it is required for war work. As far back as March 21, 1918, the following resolution was unanimously adopted and given wide publicity by the War Industries Board:

"Whereas it has come to the notice of this board that new industrial corporations are being organized in different sections of the United States for the erection of industrial plants which can not be utilized in the prosecution of the war; and

"Whereas plans are being considered by certain States, counties, cities, and towns for the construction of public buildings and other improvements which will not contribute toward winning the war; and

"Whereas the carrying forward of these activities will involve the utilization of labor, materials, and capital urgently required for war purposes: Now, therefore, be it

"*Resolved by the War Industries Board*, That in the public interest all new undertakings not essential to and not contributing either directly or indirectly toward winning the war, which involve the utilization of labor, material, and capital required in the production, supply, or distribution of direct or indirect war needs will be discouraged, notwithstanding they may be of local importance and of a character which should in normal times meet with every encouragement: And be it further

"*Resolved*, That in fairness to those interested therein notice is hereby given that this board will withhold from such projects priority assistance without which new construction of the character mentioned will frequently be found impracticable, and that this notice shall be given wide publicity, that all parties interested in such undertakings may be fully apprised of the difficulties and delays to which they will be subjected and embark upon them at their peril."

It is believed that you may confidently be depended on to carry into effect the letter and the spirit of this resolution so far as concerns your industry and see to it that your products are devoted solely to those uses which can not in the public interest be deferred until after the war.

If in any given case the use proposed to be made of the product of any manufacturer shall be one which has not been defined as essential by the Priorities Division, but is one which the proposed user conceives to be in the public interest and of such essentiality that under existing conditions it should not be deferred, then such proposed user may make a full statement of the facts in writing, under oath, to the regional representative of the Resources and Conversion Section of the War Industries Board in his district, applying to such representative for his approval of the proposed construction. Should such regional representative approve the construction project, he should promptly transmit the application for a permit, with his approval and reasons therefor, to the Building Materials Section of the War Industries Board at Washington for submission to the Priorities Division; and if approved by said division a construction permit will be issued by the Building Materials Section.

The instructions contained in this circular shall not be so construed as to prevent the sale of small quantities of materials for repairs of or extensions to existing structures involving in the aggregate a cost not exceeding $2,500.

Yours, very truly,

EDWIN B. PARKER,
Priorities Commissioner.

WAR DEPARTMENT TO TAKE ALL POSSIBLE ADVANTAGE OF SENATE AERO INQUIRY, SAYS MR. BAKER

COMMENTS ON COMMITTEE REPORT

Thirty-First Regiment from Manila Arrives at Vladivostok—Men of 18 to 19 Will Be Called Last as Far as Practicable.

Daily press interview by Secretary Baker:

"I have read only the newspaper summary of the report of the subcommittee on aircraft of the Senate Committee on Military Affairs. Many of the details and difficulties discussed by the report seem to have been corrected, and the conclusion reached by the committee that substantial progress is now being made will be very reassuring to the country.

"In the meantime, of course, the War Department will examine with great care the full text of the report and all the evidence taken by the subcommittee, of which a copy has recently been supplied to the department. Our effort will be to take all possible advantage from the inquiry which the subcommittee has made and to give most careful consideration to its recommendations and findings.

31st Regiment at Vladivostok.

"The 31st Regiment from Manila, commanded by Col. Elmore F. Taggart, has arrived at Vladivostok. Gen. Graves has not yet arrived.

"Whether or not the world's series will be played on account of the work-or-fight order depends, of course, upon the number of men affected. The number would, I think, be very small—two teams. The Army abroad is interested in the result of the world's series, and I understand arrangements are made for transmitting the result of these games abroad for information of our American boys who have not forgotten the great American sport.

"It is the policy of the War Department to call last, as far as practicable, the men from 18 to 19, as I told the Senate committee, and I hoped that the Congress would not make the law so inelastic as to make it impossible for us to call the 18 to 19 men until we could certify definitely that we had exhausted the other ages, because the long-drawn-out processes of classifying and deferring men may take so long that we can never tell when we have absolutely finished with the other ages.

"According to Gen. Crowder's figures, it will not be possible to have 80 divisions abroad by July 1 without using the 18 to 19 men. Gen. Crowder's figures are, of course, estimates.

"No change in the work-or-fight regulation is at present contemplated."

American Naval Aviators Bomb Submarine Docks In a Night Attack on German Base at Ostend

The Committee on Public Information issues the following:

The Navy Department has received a report from Admiral Sims that American naval aviators conducted a successful bombing expedition at night into enemy territory and dropped a large quantity of explosives on the submarine docks at Ostend.

GENERAL CONFERENCE ON PLANS TO INCREASE OUTPUT OF STEEL TO MEET GOVERNMENT NEEDS

ALL INTERESTS ARE REPRESENTED

Program Is Adopted Calling for Expansion of Mills, More Fuel and the Stopping of Shipments Except for War Industries.

The War Industries Board authorizes the following:

At a meeting of the War Industries Board, presided over by Bernard M. Baruch, the chairman, and attended by Dr. Harry A. Garfield, the Fuel Administrator; Carl Gray, representing the Railroad Administration; Felix Frankfurter, representing the Department of Labor; the war service committee of the Iron and Steel Institute, and other steel manufacturers and Government officials, the whole question of the Government's steel requirements was taken under review with a view to meeting every ounce of the actual demand, if that be possible.

Steel Interests Represented.

The steel manufacturers were under the presidency of James A. Farrell, of the United States Steel Corporation, and included E. G. Grace, of the Bethlehem Steel Corporation; A. C. Dinkey, of the Midvale Steel & Ordnance Co.; John A. Topping, of the Republic Iron & Steel Co., and others.

The largest of the Government's steel requirements is that of the railroads; next, that of shipbuilders; third, the War Department; and fourth, the Navy. The question of supplying these demands in such fashion that there need be no curtailment of the actual war requirement for steel was put squarely before the manufactures and all others concerned in any way with steel production.

(Continued on page 3.)

"CONTINGENT FEE COVENANT" HELD NOT TO BE APPLICABLE TO COAL JOBBING CONTRACTS

RULING BY ATTORNEY GENERAL

Decisions Made on Series of Interrogations Submitted by the Fuel Administration—Conditions Not "Within the President's Intent."

The Fuel Administration issues the following:

That the so-called "contingent-fee covenant," directed by the President to be inserted in all Government contracts, is not applicable to the coal industry, is clearly set forth in a communication to the United States Fuel Administration from T. W. Gregory, Attorney General.

In order to break up the practice followed by many business concerns of negotiating Government contracts through brokers or contingent-fee operators, the President directed the insertion of a covenant in all Government contracts prohibiting the practice.

Four Questions Submitted.

To ascertain the influence of the covenant upon the sale of coal the Fuel Administration submitted to the Department of Justice four interrogatories, as follows:

"1. Where coal is purchased by a jobber from an operator at a price below the mine price fixed by the President or the United States Fuel Administrator, can such jobber sell such coal to the United States Government at the mine price so fixed? Of course, in the case of such a sale the jobber would be the 'contractor' and not the operator, and it would appear that the profit realized by the jobber might not be construed as compensation paid by the operator to the jobber for the procurement of the contract.

"2. Is the above provision intended to prevent an operator from employing a sales agent on sales of coal to the Government where such sales agent receives as compensation for his services either a fixed price per ton or a percentage of the selling price? In the determination of this question it should be borne in mind that many coal operators do not maintain their own sales departments, but employ established distributors of coal to act as sales agents under term contracts, on which such sales agents undertake to sell the output or a given quantity of the operator's coal for a fixed or percentage compensation.

"3. Is the above covenant to be construed to prevent any agency of the Government from employing a distributor of coal as purchasing agent and paying such agent the commission allowed by rule 2 of the

rules and regulations in reference to licenses contained in publication No. 22, inclosed herewith?

"4. Are contracts between coal operators and railroads to be construed as Government contracts so as to require the insertion therein of the covenant quoted above? In answering this question the fact should be considered that a very large percentage of coal purchased by railroads in the past has been purchased—(1) At the Government price through jobbers, who in turn purchase from the operators below the Government price. (2) At the Government price from sales agents, who receive their compensation from the operators. (3) At the Government price through purchasing agents employed by the railroad and paid by the railroad the purchasing agent's commission permitted by the above-mentioned rule 2."

Attorney General's Rulings.

The Attorney General's ruling is contained in a letter dated August 19, which reads as follows:

"I have before me your letter of July 20 on the subject of the covenant against contingent fee operators which the President has directed to be inserted in all Government contracts.

"You ask how far the requirement of the insertion of this covenant is to be observed in certain circumstances arising in the coal industry, and what its effect will be if so inserted.

"I have no hesitation in saying that the circumstances set forth in your first, third, and fourth paragraphs are within neither the letter nor the spirit of the covenant.

"In the second paragraph you ask: 'Is the above provision intended to prevent an operator from employing a sales agent on sales of coal to the Government where such sales agent receives as compensation for his service either a fixed price per ton or a percentage of the selling price?'

Not Related to Situation.

"The letter of the covenant and the President's request is broad enough unquestionably to include such a situation, but it is clear, when the attendant circumstances are considered, that the situation is not within the spirit either of the President's order or of the covenant. Rules and regulations have been promulgated relative to licenses for the distribution of coal and coke by which the compensation to be paid to sales agents is rigidly controlled. Manifestly, it was not the intention of the President in requesting the insertion of this covenant to modify the policy or affect these rules and regulations. The situation in the coal industry is, therefore, outside the mischief which the covenant was intended to cure, and unquestionably outside the President's intent.

"It is my opinion, therefore, that the covenant has no relation to any of the situations set forth in your letter.

"Respectfully,

"T. W. GREGORY,
"Attorney General."

ASSIGNED AS CAMP JUDGE ADVOCATE.

Special Orders, No. 190:

314. Capt. Cassius R. Peck, judge advocate, will report to the commanding general, Camp Lewis, American Lake, Wash., for duty as camp judge advocate.

General Order Amending Regulations For the Appointment and Promotion Of Officers in United States Army

The War Department authorizes publication of the following General Order No. 78:

By direction of the President, General Order No. 132, War Department, 1917, is rescinded and the following regulations governing for the duration of the war the appointment and promotion of officers of the Army are published for the information and guidance of all concerned:

1. Vacancies—How Filled.

Training schools will be maintained to prepare selected noncommissioned officers and privates for commissions.

Vacancies in the grade of second lieutenant in a regiment or separate unit will be filled, in so far as practicable, by the appointment of candidates from the unit, who have passed through these schools. In exceptional cases, for gallantry in action and demonstrated fitness, enlisted men may be appointed second lieutenants, though not graduates of the training schools.

Vacancies in the grade of second lieutenant not filled in the foregoing manner will be filled by transfer or assignment.

Vacancies in grades below that of lieutenant colonel and above that of second lieutenant in any regiment or separate unit will be filled, as far as practicable, by the promotion of officers selected from the next lower grade in the regiment or separate unit in which the vacancy occurs. In case of necessity, the selection may be made from officers of the next lower grade in the same arm or corps within the division.

Vacancies in the grade of colonel and lieutenant colonel will be filled, as far as practicable, by selection from officers in the next lower grade in the same arm of the service in the division to which the organization in which the vacancy occurs is assigned or attached for service.

Vacancies in any commissioned grade within a division may be filled by transfer of officers of the same grade and arm or corps of the service by competent authority when the interests of the service demand such action.

2. Recommendations for Appointment.

A personnel board will be organized in each separate unit and regiment, or higher unit. The board will be appointed by the unit commander to recommend to him details, assignments, and appointments of officers. The board will be permanent, but the members thereof will be changed so that no member will serve continuously more than three months, and having served three months he will not serve again until the expiration of three months.

Recommendations for appointment must be based solely on demonstrated fitness and capacity without regard to seniority except that selections will ordinarily be made from the next lower grade.

In the United States and its possessions commanding generals of divisions and of separate units will submit recommendations to The Adjutant General of the Army to fill vacancies in organizations forming part of their command.

While serving in expeditionary forces similar recommendations will be made to the commanding general of the expeditionary forces. Commanding generals of expeditionary forces serving abroad are authorized, pending the approval of the War Department, to fill all vacancies in their command below the grade of general officer.

3. Coast Artillery.

When a vacancy occurs in an organization of the Coast Artillery not serving with a division or higher tactical unit or in an expeditionary force abroad, the Chief of Coast Artillery will submit recommendation to The Adjutant General of the Army for filling such vacancy.

When an organization of the Coast Artillery is serving with a division or higher tactical unit or expeditionary force, the same rules with respect to appointment and promotion apply as in the case of other arms of the service.

4. Staff Officers.

When a vacancy exists in a staff corps or department within the territorial limits of the United States in a grade above the lowest commissioned grade authorized by law, such vacancy shall be filled by promotion or assignment on recommendation of the chief of the bureau. When such vacancy exists in a staff corps or department in an expeditionary force, the vacancy will be filled upon the recommendation of the commanding general of the expeditionary force in which the vacancy occurs; and the commander of such expeditionary force may fill such vacancies by temporary appointments or by assignments, subject to the approval of the War Department.

Appointments and promotions in the Staff Corps, as well as in the line, will be made solely to obtain efficiency. The policy of the department is, however, that only for exceptional merit will staff officers be advanced in grade above meritorious contemporaries in the line.

5. Officers Not Covered by the Above Paragraphs.

Commanding officers of expeditionary forces serving abroad, to whom officers detached from tactical units and serving abroad report, will make recommendation as to the promotion of such officers.

The chiefs of their respective corps and their commanding officers or the officers to whom they report will make recommendation for the promotion of officers not covered by the preceding paragraphs of this order.

6.

All promotions and appointments made as herein prescribed will be subject to examination as to physical fitness.

(210.2, A. G. O.)

By order of the Secretary of War:

PEYTON C. MARCH,
General, Chief of Staff.

Official:

P. C. HARRIS,
Acting The Adjutant General.

19 U. S. GUN CARRIAGE PLANTS OUT OF 26 NOW COMPLETED

The War Department authorizes the following:

The Army Ordnance Department announces the completion of 19 of 26 plants for the production of gun carriages and recoil mechanisms. Of the seven other plants, four are 98 per cent complete, one is 95 per cent complete, one 90 per cent complete, and one 85 per cent complete.

To provide plant facilities—buildings and machinery—for the production on a large scale of carriages and recoil mechanisms for artillery of all calibers, the Ordnance Department has expended $24,837,336.

Plants Previously Completed.

On July 25, the Army Ordnance Department announced the completion of 15 of its 16 gun plants for the forging and machining of cannon, with a total expended or obligated of $74,769,297, including the new plant for big guns being built at Neville Island, Pittsburgh. Altogether, the amount expended or obligated to date to provide facilities for the production of guns, carriages, and recoil mechanisms, totals $99,606,633. This sum does not include provision made for the manufacture of artillery limbers, caissons, and ammunition wagons.

As was the case with the gun plants for forging and machining of cannon, a new industry had to be created for the production of gun carriages. The problem of carriage production in America was even more difficult than that of forging and machining cannon. For example, the carriage of the 240 mm. howitzer, the most complex of carriages, comprises about 6,000 separate pieces, exclusive of rivets. The carriage for 155 mm. guns or 155 mm. howitzers comprises between 3,000 and 3,500 individual pieces, exclusive of rivets.

All Now in Operation.

All of the 26 carriage plants are in operation, even those that took over the production of French models. The building of French model carriages in this country necessitated special arrangements with the French Government, the procurement of French drawings of all parts of the carriages, the translation into English measurements of those drawings, the selection of plants to manufacture the carriages, the building of new shops, the manufacture and installation of special machinery, and even the building of machine tools with which to make the machine-tool equipment of the carriage plants; the standardization of manufacture to such a degree that any part produced in any plant should be interchangeable with any similar part produced in any other plant, and all parts produced in American plants should be interchangeable with similar parts produced in French plants.

Weather a Handicap.

In building the plants last winter's weather was a serious handicap. Traffic tie-ups occasioned many delays.

Two companies are producing carriages for the 155-millimeter howitzer. One of these formerly made steel passenger cars and the other safes. A company which formerly manufactured hoisting and mining machinery is making carriages for the 155-millimeter gun. There are three types of 75-millimeter gun carriages in production at four plants, of which one is a Government arsenal, one produced ordnance before the war, one formerly manufactured automobiles, and another one air brakes.

The Recoil System.

The most vital part of any artillery carriage is the recoil system, or the "brake," as the French style that part upon which the gun when fired recoils, and which returns the gun to battery or position for firing again. Cast on the side of the recoil mechanism of every French gun are the words, "Be good to your brakes." The recoil mechanisms hold the secret of the guns. Their manufacture presents peculiarly difficult problems. Before the war this country had no facilities whatever for the production of recoil mechanisms. Now recoil mechanisms for the 155's are being made by an elevator company and by an automobile manufacturer, and those for the 75's are being made by a sewing-machine company and a Government arsenal.

Over 5,000,000 Soldiers Transported On American Railroads in 14 Months

The United States Railroad Administration issues the following table of troop movements:

	May 1, 1917, to Dec. 31, 1917.	Jan. 1, 1918, to June 30, 1918.	Total.
Special trains operated	2,850	4,323	7,173
Grand total cars used	39,349	55,897	95,246
Averages:			
Cars per train	13.8	12.9	13.3
Hours per train	49	47	47.8
Miles run per train	942	934	937
Miles per hour	19.1	20	19.3
Passengers per train	353	430	405
Persons handled:			
On special trains	1,007,174	1,895,476	2,902,099
On regular trains	708,674	371,181	1,079,855
Drafted men	502,584	892,930	1,395,514
Total	2,218,432	3,169,587	5,377,468

GENERAL CONFERENCE ON STEEL

(Continued from page 1.)

To accomplish this it was decided that there must be:

First, greater conversion of mills to the production of steel that is required in the war program.

Second, an increase in the coal supply, particularly by-products coal, available for mills engaged on Government work.

Third, shutting off further steel shipments to industries other than those engaged in meeting war needs.

Fourth, more rigorous conservation in the handling of steel in the mills.

Pledge to Cooperate.

The steel men in the meeting promised to cooperate to their utmost in meeting the Government's steel requirements and virtually pledged themselves to so increase their output as to guarantee the needs of the war program.

CALLS FOR NATION'S WORKERS ON 100 PER CENT WAR BASIS

The Department of Labor issues the following:

A present shortage in war work of 1,000,000 unskilled laborers and the exhaustion of reserves of skilled workers are conditions which make the alignment of the Nation on a 100 per cent war basis an immediate and imperative necessity.

So acute is the labor shortage that completion of a number of important war projects for the Army and Navy is being delayed. No idle labor of any real value exists from which to draw the men needed to keep contracts on scheduled delivery.

Stop All Non-essentials.

Nonessential production must be curtailed wholesale to release men for war work. Only thus can the balance be reestablished and assurance given that adequate supplies and ammunition will be provided for the fighting forces.

These facts as to the present war labor situation were brought out at a conference of field agents of the United States Employment Service of the Department of Labor in Washington. Reports from every section of the country told the same story of exhausted labor reserves and increasing shortages for war work.

"The time has come for the entire Nation to realize that business as usual is no longer possible," Nathan A. Smyth, assistant director of the United States Employment Service, told the conference.

Getting Quick Result.

"It is a question of winning the war quickly and finally or having it drag on indefinitely to an indefinite end. If we are to win the war quickly the production of luxuries and nonessentials in this country must come to an end. Classification of what are essentials at the present time has been brought by the War Industries Board to the point where definite action can be taken.

"We are faced with a condition which means a great lesson to be learned by the American people. When the people know the facts they will rise to the situation."

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communiques

The following is authorized by the Secretary of War:

American Official Communique No. 99.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
August 21, 1919.

Section A.—Small hostile attacks in the Vosges and northwest of Toul broke down before reaching our lines.

Yesterday our aviators successfully bombed the railway at Flabeuville. All our machines returned.

American Official Communique No. 100.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
August 22, 1918.

Section A.—North of the Vesle a successful raiding party brought in 21 prisoners. Hostile raids in Lorraine and in Alsace were repulsed.

Northwest of Toul one of our aviators shot down a hostile machine. On August 21 and 22 our aviators successfully bombed the railroad yards at Longuyon, Audun-le-Roman, and Conflans. Three and one-half tons of bombs were dropped and many direct hits were observed. All our machines returned.

Constructive work at home must run well ahead of destructive work at the front.

U. S. Building Ships, First to Win War, Then for Fair and Square World Trade, Says Hurley, Answering Foe Propaganda

The Shipping Board authorizes the following:

To carry out her great military program America is building a large fleet of transports and food ships. After the war this merchant marine will be used in America's enormous ocean-carrying trade.

It is to be expected that enemy propagandists should endeavor to use this American merchant fleet as a basis for arousing distrust between the allies.

GUARANTEES OF FAIR DEALING.

Guarantees of fair dealing in this matter are found in America's unselfish policy in fighting for democracy, in President Wilson's devotion to the cause of humanity, and also in America's past record.

President Wilson has demonstrated to the world that the people of the United States are not fighting for the permanency of their own liberty alone but for the liberty of civilization everywhere.

It is unthinkable that a nation fighting shoulder to shoulder with other great democracies should, after the war, turn its resources against them for trade conquests of the very kind which were largely instrumental in bringing on the war. If our ships do not bring prosperity to our neighbors as well as to ourselves, our own pride in the achievement will be diminished. Our ships will be operated after the war upon principles which recognize human and national rights and equities. This is a part of the consistent policy of President Wilson. It is made plain in his public statements. It is also plain in the history of the United States, which is free from selfish aggression in either territory or trade.

FIRST OF ALL WIN THE WAR.

In building her merchant fleet America plans first of all to win the war, and after that to overcome her own neglect in providing ocean transportation for her own trade. To this end the people of the United States are preparing to develop transportation on their own trade routes, without disturbing the trade or rights of other nations. And they, furthermore, hope that the American merchant marine will play a large part in bringing the neighboring democracies of the American hemisphere closer together.

ENEMY MOTIVES APPARENT.

Suggestions of selfish motives will, of course, be circulated in connection with the fleet we are building. Every nation lined up against autocracy can be depended upon to detect the source of such suggestions, and discount them, and maintain the solid line for democracy and humanity till the end.

EDWARD N. HURLEY,
Chairman,
United States Shipping Board.

Two More Warehouses For Ohio Storage Depot

The War Department authorizes the following statement:

Two additional warehouses are to be added to the Columbus, Ohio, quartermaster interior storage depot. The estimated cost is $800,000. The buildings will be 160 feet wide and 1,540 feet long, with tile walls, concrete floors, and wooden roof.

ADMITTED TO RESERVE SYSTEM.

Two Large Chicago Institutions Announced by Federal Board.

The Federal Reserve Board authorizes the following:

The Illinois Trust & Savings Bank and the Northern Trust Co., Chicago, have been admitted to membership in the Federal Reserve System. These are two of the largest trust companies in Chicago, the Illinois Trust having total resources of $112,500,000 and the Northern $39.500.000.

Monthly record of State bank admissions has been broken already this month, 81 institutions having been admitted to the system, 37 of which are in the Chicago district. Total number of State institution members to date is 670, with resources of about $6,600,000.000, 181 of which are in the Chicago Federal reserve district.

No Orders to Officers Not to Buy Uniforms in U. S. for Service Abroad

The War Department authorizes the following statement:

Reports current that officers of the Army have been instructed not to buy their uniforms in this country for service abroad are not based on any orders or suggestions made by the War Department.

The Adjutant General has written to Charles F. Wetzel, of New York, president of the National Association of Merchant Tailors, who brought the rumor to the attention of the Government, that there is no foundation for such a report. No such orders are contemplated by the General Staff.

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

The Senate yesterday began debate on the man-power bill extending the draft age limits to 18 and 45 years. Senator Chamberlain, in charge of the measure, in opening the debate urged the prompt passage of the bill. A number of Senators took part in the discussion.

Senator Thomas, of Colorado, presented the report of the Committee on Military Affairs on an investigation of the aircraft situation made by a subcommittee of which Senator Thomas was chairman. The report contained criticism of delays in the early days of the war, a review of improved conditions, and recommendations for the creation of a department of aviation, with a Cabinet officer at its head.

A joint resolution authorizing the admission into the United States of refugees driven from their own countries by war conditions was transmitted to the Senate and House by President Wilson.

The Senate adopted a resolution urging such States as have not provided for absent voting of soldiers and sailors to enact laws permitting their franchise.

Gratitude of Congress to men in the Army and Navy for their efforts in the war is expressed in a resolution by Senator Jones, of New Mexico, adopted by the Senate. As a special tribute to the men who have died for their country the Senators, in voting, remained standing for one minute.

Senator Borah introduced a war revenue bill providing for a sales tax on every purchase made during the war. The tax ranges from 1 cent on all purchases from 5 cents to $100 and $1 on each $1,000 purchase, with an added 3-cent tax for each additional $1,000 on purchases of $50,000 or more.

HOUSE.

The House yesterday completed general debate on the man-power bill. Representative Kahn, of California, ranking Republican member of the Military Affairs Committee, opposed the McKenzie amendment putting the younger registrants in separate classes, contending that it would tie the hands of the Government. Representative Platt, Republican, of New York, speaking against the McKenzie amendment, declared it represented the "last gasp of the obstructionists and pacifists, who tried to prevent the first draft."

Authority to continue in the overseas service dismissed or discharged Army officers was asked of Congress by the War Department, at the instance of Gen. Pershing. It was explained that there have been many cases of officers found guilty of offenses that show incapacity to command troops, but who could do service as privates, if the law permitted.

Authority for the President to prohibit, in his discretion, exportation of goods from continental United States to the Philippines is proposed in a bill introduced by Representative Webb, of North Carolina. The Council of National Defense has asked for the legislation, it was stated.

14 Major and 44 Brigadier Generals In List of Nominations Sent to Senate

The following nominations were sent to the Senate August 22, 1918:

State.

To be minister resident and consul general to Liberia.—Joseph L. Johnson, of Columbus, Ohio.

To be secretaries of embassies or legations of class 1.—James G. Bailey, of Kentucy; Sheldon Whitehouse, of New York; Edward Bell, of New York.

To be secretaries of embassies or legations of class 2.—Charles B. Curtis, of New York; Jefferson Caffery, of Louisiana; William W. Andrews, of Ohio; Frederick A. Sterling, of Texas; Hugh R. Wilson, of Illinois.

To be secretaries of embassies or legations of class 4.—Henry I. Dockweiler, of Los Angels, Cal.; James Theodore Marriner, of Portland, Me.

To be marshal of the United States Court for China.—Nelson E. Lurton, of St. Louis, Mo.

To be a member of the Federal Board for Vocational Education.—James P. Munroe, of Massachusetts.

Treasury.

To be collectors of customs.—Walker Taylor, of Wilmington, N. C., District No. 15, headquarters at Wilmington, N. C.; John F. Pugh, of Juneau, Alaska, District No. 31, headquarters at Juneau, Alaska.

To be collector of internal revenue for the sixth district of Virginia.—James S. Persinger, of Salem, Va.

To be assistant surgeons in the Public Health Service.—Dr. Charles Edward Gibbs, Dr. Claude William Mitchell, Dr. Richard Baxter Norment, jr.

War.

To be major general in the United States Army.—Maj. Gen. Henry P. McCain, The Adjutant General.

Major general to be major general in the United States Army.—Jesse McI. Carter, chief, Militia Bureau.

Brigadier generals to be major generals in the United States Army.—William H. Johnston, Beaumont B. Buck, William Weigel, Robert L. Howze, Robert Alexander, John L. Hines, Grote Hutcheson, Walter H. Gordon, Eli A. Helmick, William Lassiter, and William S. McNair.

Colonels to be brigadier generals in the Army of the United States.—Henry C. Newcomer, La Roy S. Upton, Peter W. Davison, Howard L. Laubach, Frank E. Bamford, George H. Estes, Briant H. Wells, Frank B. Watson, LeRoy Eltinge, Dennis E. Nolan, Manus McCloskey, William E. Cole, Guy V. Henry, William P. Ennis, Beverly F. Browne, William H. Burt, Edward D. Anderson, William J. Glasgow, John E. Woodward, S. J. Bayard Schindel, Frank Parker, Oliver Edwards, Pegram Whitworth, Robert E. Callan, Frank K. Fergusson, Harley B. Ferguson, George A. Nugant, Fox Conner, Raymond W. Briggs, Edward H. De Armond, Marlborough Churchill, and Robert M. Danford.

Colonels to be brigadier generals, Ordnance Department.—John T. Thompson, Colden L'H. Ruggles, Samuel S. McRoberts, George W. Burr, Odus C. Horney, and Guy E. Tripp.

To be assistant surgeon general, with rank of major general.—Brig. Gen. Merritte W. Ireland.

Colonels to be brigadier generals, the United States Army.—John W. Heavey, Ulysses G. McAlexander, Lucius R. Holbrook, Amos A. Fries, Preston Brown, and Frank R. McCoy.

Navy—Coast Guard.

Third lieutenants to be second lieutenants.—Robert Donohue, Elmer Fowler Stone, Fletcher Webster Brown, James Alexander Frost, jr., Loyd Vineyard Kiellorn, Carl Christian von Paulsen, John Elliot Whitbeck, and Gordon Whiting MacLane.

Interior.

To be surveyor general of Colorado.—John B. McGauran, of Colorado.

To be receivers of public moneys.—Albert T. Forse, of California, at Independence, Cal.; John E. Barrett, of Kansas, at Topeka, Kans.; James L. Travers, of Minnesota, at Duluth, Minn.; James P. Bole, of Montana, at Bozeman, Mont.; John J. Missemer, of Colorado, at Hugo, Colo.

To be registers of land offices.—Frank M. McHaffie, of Montana, at Missoula, Mont.; Shober J. Rogers, of Nevada, at Carson City, Nev.; Carl A. Ferguson, of California, at Visalia, Cal.; John R. Beavers, of Colorado, at Hugo, Colo.

Commerce.

To be supervising inspector, eleventh district, Steamboat-Inspection Service.—William Fisher, of California.

Official Bulletin Index

An index for the Official Bulletin for the first six months of 1918 has been prepared and may be had on application to this office. An index for each month hereafter will be printed in an early issue of the Bulletin after the close of that month.

NEW RULING ON EXPORTATION OF LARD TO CERTAIN COUNTRIES

The War Trade Board issues the following:

The War Trade Board announces in a new ruling (W. T. B. R. 210) that it will now consider applications for the exportation of compound lard to all countries in North, Central, and South America and the West Indies. Applicants should file their applications on Form X. Applicants for licenses to export compound lard to Canada must obtain from the Canada food board the requisite import license and attach the same to their application to the United States War Trade Board for export license.

UNSKILLED LABOR IN CERTAIN INDUSTRIES HERE IS CLASSED AS NONESSENTIAL WAR WORK

COMMUNITY LABOR BOARD RULING

Formal Notice May Be Served on Employees Affected—Voluntary Release of These Men by Their Employers Is Expected.

The Department of Labor authorizes the following:

The community labor board of the United States Employment Service of the District of Columbia, acting in conformity with the declaration of the labor-recruiting program as prescribed by the Department of Labor, declares as nonessential or nonwar work the unskilled labor employed in the industries mentioned below in which male employees are now working and on whom a formal notice will be served, if that course is necessary. The voluntary release of these men by their employers so that they may be transferred to war work is expected without such formal notice from this board.

Men who are released from the various nonessential industries, as determined by this board, may apply at the local office of the United States Employment Service, 1410 Pennsylvania Avenue NW., where they will be given employment in essential war work.

Industries Held Nonessential.

The men at this time to be released by establishments determined by the board to be nonessential are the laborers, porters, janitors, and other unskilled workers. This board has determined the following industries to be engaged in nonessential war work:

Auto industry accessories.

Drivers of pleasure cars—cleaning, repairing, and delivery of same.

Sight-seeing cars.

Auto trucks engaged in work other than fuel or Government work.

Teaming, other than delivery of products for war work.

Bath and barber shop attendants.

Bowling alleys, billiard and pool rooms.

Bottlers and bottle supplies.

Candy manufacturers, cigars and tobacco.

Cleaners and dyers.

Clubs.

Confectioners and delicatessen establishments.

Builders and contractors not engaged in the erection of structures for war work.

Dancing academies.

Mercantile stores.

Florists.

Fruit stands.

Junk dealers.

Livery and sales stables.

Pawn brokers.

Peanut venders and establishments.

Shoe shining shops.

Window cleaners.

Soft drink establishments.

Soda fountain supplies.

It may be necessary for the board to add to this list from time to time.

The following is the general policy of the Department of Labor, under which the Washington board is operating:

"For the purposes of the centralizing war labor recruiting program 'war work' means—

"1. The manufacture of products or the erection of structures directly or indirectly supplied to some department of the Government for use in connection with the war. 'Indirectly supplied' includes goods delivered under subcontracts to Government contractors.

"2. Coal mining is wholly war work.

"3. Railroads and farms are engaged in war work to the extent that under this program they are protected from all recruiting by other industries.

"The making of products which may ultimately be used for war purposes, but which are not to be delivered either directly to the Government or to some contractor who uses them in producing or as a part of products to be delivered to the Government, is not considered war work."

Prices on New Woolen Clips Announced By the War Industries Board Committee

The War Industries Board authorizes the following:

The price-fixing committee of the War Industries Board has fixed the following maximum prices upon the new woolen clips and also prices for men's wear and women's wear new clips which are to be paid by the rag collector to the cutter-up, effective on all sales made from August 22, and remaining in effect until October 1, 1918, and thereafter pending the compilation of data which is to be furnished by the Federal Trade Commission. These prices are net f. o. b. shipping point and are based on high standard of grading and should not be paid for inferior packing, and are to apply to sales made both to the Government and to the public:

	Per pound.

ONE MEDIUM FOR CONTROL OF ALL GRAIN EXPORTED

The Food Administration issues the following:

The Railroad Administration and the exports control committee have decided, in order to better control the port situation and thereby prevent congestion and to secure maximum transportation results, to concentrate the approval of transportation permits, covering all export grain and grain products, through one channel, and to that end it has been arranged that, effective at once, the issue of these permits shall hereafter be subject to the approval of C. E. Spens, manager of inland traffic for the United States Food Administration, and who also is a representative of the United States Railroad Administration. The permits will be issued directly, as heretofore, by the freight traffic committee, but only when approved as mentioned.

At the present time this arrangement will only include North Atlantic ports, where heretofore the permit system has obtained. It is the intention, however, to also inaugurate the permit system within the immediate future at all Gulf ports, when the issue of permits will be subject to the same approval as at North Atlantic ports.

Mr. Spens has opened an office at New York, 42 Broadway, with Mr. C. A. Lahey, assistant manager of inland traffic, of the United States Food Administration, directly in charge of the new work.

Pending the determination of the amount of malt required for next winter's operations, the Food Administration has issued a ruling prohibiting all malsters buying for malting purposes any grain before October 1, 1918.

RULES FOR THE REGISTRATION OF MEN IN THE 21-YEAR CLASS

Those Exempted and the Procedure in Case of Sickness or Unavoidable Absence.

The War Department authorizes the following from the office of the Provost Marshal General:

To-morrow is the date set by proclamation of the President for the registration of all young men in the country who have reached their twenty-first birthday since June 5, 1918, and on or before August 24, 1918.

The Exceptions Noted.

Attention is called again to the fact that the proclamation applies to all young men within that classification, excepting officers and enlisted men of the Regular Army, the Navy, the Marine Corps, and the National Guard and Naval Militia while in the service of the United States, officers in the Officers' Reserve Corps, enlisted men in the Enlisted Reserve Corps while in active service, and residents of the Territories of Alaska, Hawaii, and Porto Rico. A day for registration in these territories will be named in a later proclamation.

Cases of Sickness, Etc.

Attention is also called to the provision in the proclamation which says that any person "who, on account of sickness, will be unable to present himself for registration may apply on or before the day of registration at the office of any local board for instructions as to how he may register by agent."

Any person absent from the jurisdiction of the local board where he permanently resides may register by mail, provided his registration card reaches his local board by to-morrow.

A person who has no permanent residence must register at the place designated for registration by the local board having jurisdiction of the area where he may be on registration day.

Any young man of the prescribed age affected by the proclamation who, on account of absence at sea or absence without the territorial limits of the United States, may be unable to comply with the regulations pertaining to absentees, must register within five days after reaching the first United States port, either by applying in person before his proper local board or by complying with the regulations for other absentees.

May Register Next Monday.

The Secretary of War has notified all of the local draft boards in the United States to accept the registration of draftees who are observant of Saturday as the Sabbath day on Monday, August 26, next, instead of on Saturday, August 24, the date proclaimed by the President upon which men who have reached the age of 21 since June are to be registered throughout the United States by their local boards. This action was taken at the request of the Union of Orthodox Rabbis of the United States and Canada. It applies to draft men of the orthodox Jewish faith and those of any other religious denomination who observe Saturday as the Sabbath day.

Reports on Railroad Pension Systems Called for by Public Service Director

The United States Railroad Administration, Division of Public Service and Accounting, issues the following:

P. S. & A. CIRCULAR No. 22.

WASHINGTON, D. C., *August 10, 1918.*

The chief accounting officers of all carriers under Federal control are requested to at once prepare and forward to the undersigned, not later than September 15, a statement giving a concise and brief outline of the pension system or plan, if any, in effect December 31, 1917. If no regular system or plan was in effect and payments were made in the nature of pensions, outline the method of calculating such payments and the method of selection of the pensioners. In addition to the foregoing, fully answer the following questions:

1. Was the system or plan continued after December 31, 1917, and is it in effect at the present time? If discontinued after December 31, 1917, advise when and why discontinued.

2. Are the payments to pensioners being made on account of the Director General and treated as part of operating expenses?

3. Has the rate of payment for pensions been increased or decreased since December 31, 1917? If so, give particulars and authority therefor.

4. State the total amount of increases or decreases caused by changes in rates of pensions paid from January 1 to June 30, 1918.

5. Does the corporation or do the employees contribute to the pension fund, or to the payments that were made to pensioners subsequent to December 31? If so, to what extent and how were these contributions made and accounted for.

6. State the number of retired employees (not including officers) that were being paid pensions in the month of December, 1917.

7. State for each month separately for the period January 1 to June 30, 1918, the number of employees (not including officers) that were paid pensions and the aggregate monthly amount paid, and the amount thereof that was charged to operating expenses.

8. State the number of retired officers that were paid pensions in the month of December, 1917, and the aggregate amount of pensions paid.

9. State for each month separately for the period January 1 to June 30, 1918, the number of retired officers that were paid pensions and the aggregate monthly amount paid, and the amount thereof that was charged to operating expenses.

10. Submit a list of the names and designations of retired officers to whom pensions have been paid during the period from January 1 to June 30, 1918, and state the monthly amount of salary paid at the date of retirement and the monthly rate of the pension paid at June 30, 1918.

11. State for the month of December and separately for the months January to June, 1918, inclusive, the number of employees and officers, not included in any of the foregoing answers, that are carried on the regular pay rolls, who perform little or no service or a different service than when regularly employed, and who receive full or partial rates of compensation formerly paid, but who, because of the absence of a pension plan, or because of the belief that pension plans might be discontinued, are not carried on the pension rolls.

12. State in reference to question 11 separately, for each month, the total amounts paid, and show the accounts charged therewith and the amount distributed to each account, showing, in addition, the name of each person so appearing on the pay roll for the month of June, 1918, and the amount payable to such person for that month.

13. What portion, if any, of the amount charged to operating expenses for pensions paid during the period January 1 to June 30 is chargeable to the corporation?

C. A. PROUTY,
Director.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
Washington, August 21, 1918.

Balance in general fund to-day	1,571,911,360.84
Total	1,638,116,585.54

WOOLEN MILLS ASKED TO STOP MAKING FANCY INDIAN BLANKETS

The War Industries Board authorizes the following:

Because of the necessity of conserving the existing wool supply for the military needs, Herbert E. Peabody, chief of the woolens section, and Lewis Penwell, chief of the domestic wool section, of the War Industries Board, have requested all woolen mills to refrain from further manufacture of Navajo or fancy Indian blankets. This applies to the mills only and not to the Indians, whose small production is made upon hand looms.

The woolen mills have been further requested to divert their stocks into the production of clothing material for loggers engaged in work for the Emergency Fleet Corporation and for the aircraft production.

Contribute to the Red Cross fund.

MOTORCYCLE MANUFACTURERS DISCUSS STEEL SAVING PLANS

The War Industries Board authorizes the following:

Representatives of the motorcycle industry conferred with the Conservation Division on a program to effect economies in the use of metals and rubber in the manufacture of its product. The manufacturers agreed to put their experts to work on techical problems connected with various methods of effecting economies and to report within a few weeks, through the war service committee, which is to be organized by the industry.

Use of Substitutes.

The industry consumes a considerable amount of steel, copper tubing, brass tubing, tinplate, and rubber. The manufacturers were asked to suggest wherein it is practicable for them to use substitutes for the metals, particularly copper and brass, which are required in the war program. They agreed to give the matter careful consideration, and to make suggestions to the Conservation Division that will form the basis for recommendations by the latter.

Representatives Present.

Representatives of the industry at the meeting were: T. C. Butler, jr., C. B. Franklin, and F. J. Weschler, of Springfield, Mass.; F. B. Rodgers, Arthur Davidson, W. S. Harley, and August Frey, Milwaukee; A. G. Hale and F. J. Stareck, Cleveland, Ohio.

Laundries in Big Camps Are to Cost $5,754,990

The War Department authorizes the following statement:

Laundries are to be provided in all of the principal camps and cantonments. The average cost of each will be $150,000. The expenditure of $5,754,990 for this purpose has been authorized. The work will be done by the construction division.

Power to operate the laundries will be supplied by special power houses, which will be erected at the same time. The buildings in each of the larger camps will cost $176,000, while $130,688 is provided for each of the smaller camps.

Instructions have been issued to proceed with the work at the following camps: Johnston, Sevier, MacArthur, Las Casas, Devens, Gordon, Dodge, Grant, Pike, Taylor, Greene, Hancock, Shelby, Sheridan, Beauregard, Wadsworth, McClellan, Meigs, Mills, and Forts Wright and Terry.

Articles Prohibited by Mail to England

OFFICE OF SECOND ASSISTANT
POSTMASTER GENERAL,
Washington, August 20, 1918.

Manufactures of bone, horn, ivory, and celluloid are specially prohibited importation into Great Britain and if received in the mails are subject to seizure by the British customs authorities.

OTTO PRAEGER,
Second Asst. Postmaster General.

FUR AND FELT HAT MAKERS AGREE TO LIMIT STYLES, COLORS, SHAPES AND TRIMMINGS FOR SPRING OF 1919

The War Industries Board authorizes the following:

Variety in styles, colors, shapes, weights, and trimmings of fur and felt hats for the civilian trade for the spring season of 1919 will be restricted and curtailed under a program accepted by the manufacturers through their war-service committee after conference with the felt section of the textile division and the conservation division of the War Industries Board.

The conservation division has sent to makers of men's fur and wool felt hats and to makers of women's fur and wool felt hat bodies a schedule of the program for conservation for the spring season of 1919 to become effective about September 1. The schedule follows:

To the makers of men's fur and wool felt hats and the makers of women's fur and wool felt hat bodies:

As you well know, readjustments of prewar business methods and business practices are necessary in order to meet the extraordinary conditions which have now developed. These readjustments should be made with the least possible dislocation of industry in order that all interests may be protected as far as possible. Conservation is a vital factor in the war program and conservation of materials and labor in the hat industry is urgently necessary.

The inclosed program for conservation for the spring season of 1919 has been thoroughly discussed with the war-service committee of the industry. This plan will be further developed and issued in a more specific form for the fall season of 1919. For instance, it is then planned to standardize colors along the lines mentioned in item No. 2.

This program will be finally announced and made effective on or about September 1, unless substantial reasons are immediately presented which will give cause for its modification. Any such changes will only be considered in the light of bringing about a more effective method of meeting the present war conditions.

CONSERVATION DIVISION,
WAR INDUSTRIES BOARD.

The Recommendations.

The following recommendations are to cover the manufacture of all fur and wool felt hats for the civilian trade for the spring season 1919:

1. The number of body qualities usually manufactured to be reduced as far as practicable.

2. The variety of colors of fur felt hats for men to be restricted to 9. The variety of colors of fur felt hats for women to be restricted to 9. Mixed colors to be eliminated in fur felt hats. The variety of colors of wool felt hats for men to be restricted to 12. The variety of colors of wool felt hats for women and children to be restricted to 12. (A manufacturer producing fur felt hats for men and women may manufacture 9 distinct colors for each. A manufacturer producing wool felt hats for men and women may make 12 distinct colors for each. A manufacturer producing both wool and fur felt hats for men and women may make 9 distinct colors of fur for men and 9 distinct colors of fur for women, 12 distinct colors in wool for men and 12 for women.) It is suggested that the colors of men's hats be confined to the following: Black, two shades of brown, two shades of green, two shades of steel, pearl, and Belgian belly.

3. The variety of weights of bodies to be reduced as far as is practicable.

4. No styles to be produced in the so-called staple shapes in dimensions in excess of 6-inch crown, 3½-inch brim. No fancy or novelty shapes in excess of 5¾-inch crown and 2¾-inch brim.

5. No genuine leathers to be used exceeding in width 1⅛-inch unturned; no genuine leathers with turned edges. No imitation leathers exceeding in width 1⅛-inch turned.

6. The use of linings to be discouraged for spring season of 1919, and to be discontinued for fall season of 1919.

7. On so-called staple shapes in soft hats bands are not to exceed 12 lignes in width. On fancy or novelty shapes no band to exceed 22 lignes in width. On both of the above bands not to exceed 36 inches in length for a size 7⅛ hat. This figure to include material used in bow. No bindings exceeding 10 lignes in width to be used on soft hats. No bands exceeding 12 lignes in width to be used on stiff hats. Bands not to exceed 36 inches in length, including bow for size 7⅛ hat. No binding on stiff hats to exceed 11 lignes in width.

8. No leathers to be draw strung or laced. No elastics, cords, buttons, or eyelets to be used.

9. No stickers to be used in the tips of soft hats.

10. Six hats to be packed in a carton wherever possible. (This does not mean that not more than one style may be packed in a box.) In order that stocks in the hands of the hat manufacturers and paper manufacturers be fully utilized, no one special color or design of covering paper should be insisted upon by any manufacturer. It is suggested that wherever possible uncovered chip board boxes be used. If a covering paper is used it should be unbleached.

11. Salesmen to carry only one sample trunk on the initial trip, and no sample trunk on the duplicate trip each season.

12. Roundings to be compressed in bales instead of shipped in bags.

13. No hats to be made with turned over or turned under edges.

14. The amount of shellac used to be reduced as far as is practicable.

15. The sale of ticket hats to be discouraged.

Please report any materials that you have on hand which will be affected by these recommendations, itemizing character and quantities.

CONSERVATION DIVISION,
WAR INDUSTRIES BOARD.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

Army

SECTION NO. 1.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	21
Missing in action	37
Wounded severely	23
Died of wounds	24
Died from accident and other causes	6
Died of disease	2
Wounded (degree undetermined)	15
Total	128

Killed in Action.

Lieut. Herman H. Smith. Mrs. Theresa Smith, 7 Shipley Street, Brooklyn, N. Y.
Corpl. Everett Doney. Ira Doney, 503 Main Street, Oconto, Wis.
Corpl. Carl J. Sund. John E. Sund, 28 Rodney Street, Worcester, Mass.

PRIVATES.

Gustav Herman Anderson. Charley Anderson, 512 East Forty-fourth Place, Chicago, Ill.
Irving Ashley. Mrs. Jane Ashley, Portage, Wis.
Dominique J. Babineau. Mrs. Lucelia Babineau, Foxcroft, Me.
David Baron. Mrs. Ewdohia C. Baron, Bobrusky, Muisk, Russia.
Charles L. Eddy. Mrs. Mary L. Eddy, 1942 West One hundred and second Street, Chicago, Ill.
Eugene B. Gallion. James O. Clifton, Benson, N. C.
Perley F. Greaves. Frank Greaves, Walden, Vt.
John R. Iholtz. Mrs. Lue McGrath, Albert Street, Wabash, Ind.
John J. Joyce. Mrs. Annie Joyce, Greenock, Pa.
John Kalinski. Valo Kalinski, 2139 Cambridge Street, Baltimore, Md.
Howard A. Koagel. Mrs. Margaret Smith, 409 Helen Street, Syracuse, N. Y.
Edgar G. Miller. Mrs. Margaret Miller, Congress Street, Portland, Me.
Sherman H. Patton. Mrs. Myra Patton, R. F. D. No. 4, Greensburg, Ind.
Frank E. Peoples. Mrs. Mary Hinkley, 317 Yellowstone Avenue, Miles City, Mont.
Harrison F. Rachow. George Rachow, Round Lake, Minn.
Angelo Spino. John Spino, San Pietro, De Fileto, Italy.
Harold C. Wood. Mrs. A. J. Wood, R. F. D. No. 2, Mooers, N. Y.
Walter A. Zahnow. Mrs. Rickey Zahnow, 1717 Johnson Street, Saginaw, Mich.

Died of Wounds.

Capt. Philip Mills. Mrs. Paul D. Mills, St. Davids, Pa.
Sergt. Fred W. Murray. Mrs. Josephine Murray, 30 Ogden Avenue, Menominee, Mich.
Sergt. Harold W. Ross. Mrs. A. P. Ross, 1012 West Twelfth Street, Des Moines, Iowa.
Sergt. Lewis Thompson. Mrs. Eliza Thompson, Gibson, Ga.
Sergt. Albert J. Williams. Mrs. John Williams, 625 Hoven Street, Duryea, Pa.
Corpl. William Junod. Miss Regina Junod, 317 Tusculum Street, Philadelphia, Pa.

Orrin Francis Hartle, machinist's mate, second class, United States Naval Reserve Force, killed in aeroplane accident August 17, in Italy. Father, Michael Hartle, 4045 Cabinet Street, Pittsburgh, Pa.

Keep Bulletin Posted In All U. S. Post Offices

Reports having been made that at some post offices THE OFFICIAL (United States) BULLETIN is not being posted regularly for public reading in accordance with Postmaster General Burleson's orders, postmasters are again reminded of this important duty. It should be remembered that THE BULLETIN is the only publication available to all sections of the country that prints daily the complete and correct casualty lists from our armies oversea exactly as they are issued by the War Department. Many newspapers print only the lists having local interest in their own territory. THE BULLETIN prints every name and address, thus making it a certain means of informing friends and relatives, wherever they may be, of the fate of a soldier or sailor, no matter where his home town or city.

Postmasters are urged, aside from their duty as officials, to make it their patriotic and personal duty to see that the public has the fullest benefit of this privilege.

The Postmaster General's order follows:

All postmasters are directed to post THE OFFICIAL BULLETIN *daily in a conspicuous place in the lobby or other portion of their respective post-office buildings where the public can read it; and, without expense to the Government, each and every postmaster is earnestly urged to see that this* BULLETIN *is made available to as many people as possible in the manner suggested.*

A. S. BURLESON;
Postmaster General.

Ordnance Department Proposals for Materials

The miscellaneous procurement division, Ordnance Department, is in the market for bids on the following:

Forty-eight lathes, complete with tools, to be Goodell-Pratt Co., Greenfield, Mass. (or equivalent lathes), shown in Tool Book No. 13, to be fitted with the following: 1 slide rest, No. 132; 1 countershaft, No. 130; 1 scroll chuck, No. 182, fitted to lathe; 1 odd-job chuck, No. 179, fitted to lathe; 1 drill chuck, 1503-S capacity, 0-⅝ inch, fitted to tail center.

Shipment to begin at the rate of 10 per week, beginning August 27, 1918, and completed September 27, 1918.

Buyer is Lieut. Obenshain. Bids to be submitted on or before August 26, 1918.

We are giving our work, our time, and our money, but "they" are giving their lives.

ITALIAN DECREE REGULATING CIVILIAN BOOTS AND SHOES

Consul General Wilber, at Genoa, reports:

The Gazzetta Ufficiale of May 21, 1918, contains the following ministerial decree in regard to boots and shoes for civilians:

ARTICLE 1.—From July 1 next boots and shoes for civilians can not be manufactured with a leather top which, measured laterally from the base of the heel, exceeds in height 12 centimeters for men's and 14 centimeters for women's. The maximum height of a leather heel measured laterally should not exceed 3 centimeters for men and 4 centimeters for women.

No limit of measure is established for tops and for heels which are not of leather.

Regulations for Sales.

ART. 2.—From October 1 next it is forbidden to sell, either at wholesale or retail, boots and shoes of Italian manufacture and imported which do not conform to the rules of the preceding article.

Article 3.—From August 1 next the sale prices to the public of civilians' boots and shoes, impressed upon the sole, according to article 5 of lieutenant's decree of August 23, 1917, No. 1,345, can not exceed by 25 per cent the sale prices of the manufacturer for boots and shoes of Italian manufacture, or the invoice price including the eventual documented actual expenses, in case of imported goods.

The Ministry of Industry, Commerce, and Labor has authority to control the above indicated prices conformably with lieutenant's decree of August 23, 1917, No. 1,345.

Article 4.—Shoe factories equipped for the manufacture of civilians' boots and shoes are obliged to destine a part of their free commerce production to the manufacture of boots and shoes made wholly or in part from substitutes for leather.

Schedule of Types.

For this purpose each shoe factory shall, within a month from the date of the publication of the present decree, present to the ministry for industry, commerce and labor (office national boots and shoes) the type or types of boots and shoes which they intend to manufacture with substitutes for leather, proposing the amount and price fer each type.

The ministry of industry, commerce, and labor may apply to the types presented the modifications which they consider opportune, determining the sale price of the manufacturer and prescribing for each shoe factory the monthly output of boots and shoes which it must produce conforming to the approved type or types, account being taken of the power and equipment of each establishment and of the contracts which it may have assumed for military and national boots and shoes.—Commerce Reports.

WAREHOUSES IN SPANISH PORT.

Consul General Hurst reports from Barcelona under date of August 14 that the right to maintain customs free premises for storage of imported merchandise is granted to the port of Santander by a Spanish royal decree of August 13.—Commerce Reports.

Agricultural Lime Put on Essential List By Action of the War Priorities Board

At the request of the Secretary of Agriculture the War Priorities Board has placed agricultural lime in preferred classification in the matter of fuel supply as well as in the matter of transportation. Secretary Houston acted upon the recommendation of the Agricultural Advisory Committee, which was in session in Washington last week. The committee declared that production and distribution of pulverized limestone and burned lime for agricultural purposes should be declared essential in the production of food and other war necessities, both indirectly through the clovers and directly through many staple crops, such as wheat, corn, and cotton.

The action of the War Priorities Board should bring relief to farmers. Reasons given by the Agricultural Advisory Committee for urging that lime be placed on the preference list were that the prices of lime and limestone are now very high, that they were advancing before the war on account of the newly created demand on the part of farmers, and that now the high cost of labor and fuel has made further heavy increase. Inability to secure delivery by transportation lines, together with a great advance in the cost of material, is limiting the liming of land to a serious degree, the committee said. The limited coal supply and danger of actual coal shortage was declared to be a further serious handicap to the lime supply.

Text of the Recommendation.

The full text of the Advisory Committee's recommendation to the Secretary of Agriculture is as follows:

"We believe that hunger throughout the European countries is a thing to be greatly feared during the coming years, and the eastern half of the United States must do much in saving the situation. In a great part of this area production is hampered by soil acidity, which can be corrected only by plentiful use of lime. Meeting the lime deficiency of these soils should be our first consideration. Experiments running through long terms of years at various experiment stations and the experience of thousands of practical farmers indicate clearly that our acid soils will not produce the clovers unless lime is supplied. There has also been full demonstration of the fact, both by experiment station and repeated farm practice, that many staple crops can not profit rightly from applications of fertilizers until the lime requirement has been met. The prices of lime and limestone now are very high. They were advancing before the war on account of the newly created demand on the part of farmers, and now the high cost of labor and fuel has made further heavy increase. Inability to secure delivery by transportation lines, together with the great advance in the cost of material, is limiting the liming of land in a serious degree. A limited coal supply, and danger of actual coal shortage, is a further serious handicap to the lime supply.

"We believe it to be just as important to deliver lime or limestone to the farmers quickly as it is to deliver most other war necessities. We believe that we are justified in asking that the railroads, under the Director General, make a special freight rate less than that now prevailing, and every possible improvement in the transportation of agricultural lime should be made. Manufacturers should be encouraged to put low-priced pulverizers on the market, and these should be delivered to buyers without any undue delay. Manufacturers of lime should be supplied all the fuel that they can properly use in the production of agricultural lime, and their shipments should go forward as promptly as other essentials. There should be assurance that material for new plants will be provided and forwarded promptly, when such plants are necessary for an adequate supply of agricultural lime. If supplies of lime and limestone can not be secured by farmers promptly, and at prices that will encourage their free use, the Government should regulate the whole business for the public good. This extreme course should not be taken until the transportation and fuel factors have been taken care of by the Government and the full energy of the United States Department of Agriculture has been expanded in propaganda to secure the liming of our soils.

Should Be Declared Essential.

"Whereas the Advisory Committee of the Department of Agriculture and the Food Administration fully indorses the above statement of the agricultural lime situation; and

"Whereas it is our conviction that this statement is backed by the United States Department of Agriculture, by many State experiment stations, and by repeated experience of many practical farmers:

"*Resolved*, That the production and distribution of pulverized limestone and burned lime for agricultural purposes should be declared essential in the production of food and other war necessities, both indirectly through the clovers and directly through many staple crops, such as wheat, corn, and cotton; and

"*Resolved*, That our Government should do everything in its power to further such production and distribution by placing agricultural lime in preferred classification in the matter of fuel supply as well as in transportation."

Subsequently the committee voted thanks to the Secretary of Agriculture for his prompt action in securing the placing of agricultural lime on the preference list of the War Priorities Board, and requested that the ruling to that effect be made public, together with the resolution previously adopted by the committee.

Yakima Tieton Irrigation Contract Is Approved

Secretary of the Interior Lane has approved a contract between the United States and the Yakima Tieton Irrigation district of the State of Washington, whereby the Government agrees to expend the sum of $150,000, or so much thereof as may be necessary, in the enlargement and betterment of the Tieton Main Canal and distribution system for the irrigation of 32,000 acres.

CIRCULAR TO CEMENT MANUFACTURERS ISSUED BY PRIORITIES COMMISSIONER

CIRCULAR No. 8.

WAR INDUSTRIES BOARD,
PRIORITIES DIVISION.

To all manufacturers of cement:

Since the conference between your representatives and the undersigned with other representatives of the War Industries Board, careful consideration has been given to the several problems then considered, and a decision has been reached that yours is in part a war industry, in view of the showing that you have made that your commodity is used in so many of the building operations carried on, directly or indirectly by the war agencies of the Government. The board is further of the opinion that your industry is also in part one of national importance, in that a portion of your products is used in filling nondeferable and essential civilian requirements.

The Priorities Board will receive the application of any manufacturer of cement for a place on its preference list. It will in every case take into consideration the situation of such manufacturer, the amount of its direct and indirect Government business, and the uses to which the remainder of its product is being devoted.

Any plant now or in future exclusively devoted to manufacturing products being or to be absorbed directly or indirectly by the Government, or in other uses of essential importance and whose fuel requirements and output bear proper economical relationship to each other, will be placed upon the preference list upon condition, however, that the owner of such plant shall observe its pledge of cooperation and the rulings of the Priorities Division.

With its application such manufacturer should include its pledge of cooperation in the form following:

"PRIORITIES DIVISION,
"WAR INDUSTRIES BOARD,
"*Washington, D. C.:*

"The undersigned hereby pledges itself not to use nor, so far as lies within its power, permit the use of any products of its manufacture now in or which may hereafter come into its possession or control, save (a) for essential uses as that term has been or may be defined or applied from time to time by the Priorities Division of the War Industries Board, or (b) under permits in writing signed by or under authority of such Priorities Division; that it will make no sale or delivery of such products to any customer for resale until such customer has filed with it a similar pledge in writing; and that it will use its utmost endeavor to insure that its products shall be distributed solely for essential uses."

Any manufacturer who has already made application for place on the preference list should send in its pledge of cooperation in the foregoing form and mention the fact that application has previously been forwarded.

In addition, such manufacturer must send each month its reports on forms which it will secure from the Buildings Materials Section of the War Industries Board showing the deliveries and uses made of its product during the preceding month.

The pledge to be given such manufacturer by its customer who purchases for resale should be addressed to such manufacturer and be in the following form:

"To ——— ———,
"*City of* ———,
"*State of* ———.

"The undersigned hereby pledges itself not to use, nor so far as lies within its power, permit to be used, any cement of your manufacture now in or which may hereafter come into its possession or control, save (*a*) for essential uses as that term has been or may be defined or applied from time to time by the Priorities Division of the War Industries Board, or (*b*) under permits in writing signed by or under authority of such Priorities Division; and further that it will make no sale or delivery of such cement to any customer for resale until such customer has filed with the undersigned a similar pledge in writing, and that it will report to you monthly dispositions made during the previous month of such cement."

Manufacturers should scrutinize with great care orders which are offered them for their products for use in any construction not directly sanctioned by the Government but represented to be an indirect war requirement in caring for soldiers, seamen, and war workers. Many such projects which would normally be quite unobjectionable can and should be deferred under present conditions. Manufacturers and dealers are in a position to contribute and are expected to contribute substantially to such a result.

The United States Fuel Administrator has very recently in unequivocal terms stated that "the country needs now—and for the whole period of the war will need—more coal than it can possibly produce and transport." The necessity for conserving fuel is, therefore, imperative, and to that end it is necessary to substantially curtail the production of nonwar industries and that portion of the production of war industries devoted to nonwar uses. It is also important that no unnecessary burden be laid upon the transportation lines of the country, that they may be free to render direct and indirect war service. Labor must be released from nonwar industries to the extent that it is required for war work. As far back as March 21, 1918, the following resolution was unanimously adopted and given wide publicity by the War Industries Board:

"Whereas it has come to the notice of this board that new industrial corporations are being organized in different sections of the United States for the erection of industrial plants which can not be utilized in the prosecution of the war; and

"Whereas plans are being considered by certain States, counties, cities, and towns for the construction of public buildings and other improvements which will not contribute toward winning the war; and

"Whereas the carrying [illegible] activities will involve the utilization of labor, materials, and capital urgently required for war purposes: Now, therefore, be it

"*Resolved by the War Industries Board*, That in the public interests all new undertakings not essential to and not contributing either directly or indirectly toward winning the war, which involve the utilization of labor, material, and capital required in the production, supply, or distribution of direct or indirect war needs, will be discouraged notwithstanding they may be of local importance and of a character which should in normal times meet with every encouragement; and be it further

"*Resolved*, That in fairness to those interested therein notice is hereby given that this board will withhold from such projects priority assistance, without which new construction of the character mentioned will frequently be found impracticable, and that this notice shall be given wide publicity, that all parties interested in such undertakings may be fully apprised of the difficulties and delays to which they will be subjected and embark upon them at their peril."

It is believed that you may confidently be depended upon to observe the letter and the spirit of this resolution so far as concerns your industry and see to it that your products are devoted solely to those uses which can not in the public interest be deferred until [illegible].

If in any given case the use proposed to be made of the product of any manufacturer shall be one which has not been defined as essential by the Priorities Division, but is one which the proposed user conceives to be in the public interest and of such essentiality that even under existing conditions it should not be deferred, then such proposed user may make a full statement of the facts in writing, under oath, to the regional representative of the Resources and Conversion Section of the War Industries Board in his district, applying to such representative for his approval of the proposed construction. Should such regional representative approve the construction project, he should promptly transmit the application for a permit, with his approval and reasons therefor, to the Building Materials Section of the War Industries Board at Washington for submission to the Priorities Division, and if approved by said division a construction permit will be issued by the Building Materials Section.

The instructions contained in this circular shall not be so construed as to prevent the sale of small quantities of materials for repairs of or extensions to existing structures involving in the aggregate a cost not exceeding $2,500.

Yours, very truly,

EDWIN B. PARKER,
Priorities Commissioner.

WASHINGTON, D. C., *August 1, 1918.*

WANTS ARMY OF SAVERS

THE PURPOSE of the War Savings Committee is to create an army of savers who will, by saving, release labor and materials for the use of the Government in the war, and who will lend their savings to the Government to prosecute the war.

CIRCULAR TO MANUFACTURERS OF LIME ISSUED BY PRIORITIES COMMISSIONER

CIRCULAR No. 9.

WAR INDUSTRIES BOARD,
PRIORITIES DIVISION.

To all manufacturers of lime:

Since the conference between your representatives and the undersigned, with other representatives of the War Industries Board, careful consideration has been given to the several problems then considered, and a decision has been reached that yours is in part a war industry, in view of the showing you have made that your commodity is used in many manufacturing processes producing war materials and in operations carried on directly and indirectly by the war agencies of the Government. In the opinion of the board your industry is also, in part, one of national importance, in that, to a limited extent, your product is used in filling nondeferable and essential civilian requirements especially in connection with soil rehabilitation.

The Priorities Division will receive the application of any manufacturer of lime for a place on the preference list. It will, in every case, take into consideration the situation of such manufacturer, the amount of its direct and indirect Government business, and the uses to which the remainder of its product is being devoted.

With its application such manufacturer should include its pledge of cooperation in the form following:

"PRIORITIES DIVISION,
"WAR INDUSTRIES BOARD,
"*Washington, D. C.:*

"The undersigned hereby pledges itself not to use, nor so far as lies within its power permit to be used, any products of its manufacture now in, or which may hereafter come into, its possession or control, save (a) for essential uses as that term has been or may be defined or applied from time to time by the Priorities Division of the War Industries Board; or (b) under permits in writing signed by or under authority of such Priorities Division; that it will make no sale or delivery of such products to any customer for resale until such customer has filed with it a similar pledge in writing, and that it will use its utmost endeavor to insure that its products shall be distributed solely for essential uses."

Any manufacturer who has already made application for place on the preference list should send in its pledge of cooperation in the foregoing form and mention the fact that application has previously been forwarded.

In addition, such manufacturer must send each month its reports on forms which it will secure from the Building Materials Section of the War Industries Board showing the deliveries and uses made of its product during the preceding month.

The pledge to be given such manufacturer by its customer who purchases for resale should be addressed to each manufacturer and be in the following form:

"To ——— ———.
"City of ———,
"State of ———.

"The undersigned hereby pledges itself not to use, nor, so far as lies within its power, permit to be used, any lime of your manufacture now in or which may hereafter come into its possession or control, save (a) for essential uses as that term has been or may be defined or applied from time to time by the Priorities Division of the War Industries Board, or (b) under permits in writing signed by or under authority of such Priorities Division; and further that it will make no sale or delivery of such lime to any customer for resale until such customer has filed with the undersigned a similar pledge in writing, and that it will report to you monthly dispositions made during the previous month of such lime."

Any manufacturer whose plant now is, or in future shall be exclusively devoted to manufacturing products being or to be absorbed directly or indirectly by the Government, or in other uses of essential importance, and whose requirements and output bear proper economical relationship to each other, will be placed upon the preference list, upon condition, however, that such manufacturer shall observe its pledge of cooperation and the rulings of the Priorities Division.

Such manufacturer should scrutinize with great care orders which are offered it for its products for uses not directly sanctioned by the Government but represented to be of indirect war value or to be of value to agricultural lands. Many such uses which would normally be quite unobjectionable can and should be deferred under present conditions. Manufacturers and dealers are in a position to contribute and are expected to contribute substantially to such a result.

The United States Fuel Administrator has very recently in unequivocal terms stated that "the country needs now—and for the whole period of the war will need—more coal than it can possibly produce and transport." The necessity for conserving fuel is therefore imperative, and to that end it is necessary to substantially curtail the production of nonwar industries and that portion of the production of war industries devoted to nonwar uses. It is also important that no unnecessary burden be laid upon the transportation lines of the country, that they may be free to render direct and indirect war service. Labor must be released from nonwar industries to the extent that it is required for war work. As far back as March 21, 1918, the following resolution was unanimously adopted and given wide publicity by the War Industries Board:

"Whereas it has come to the notice of this board that new industrial corporations are being organized in different sections of the United States for the erection of industrial plants which can not be utilized in the prosecution of the war; and

"Whereas plans are being considered by certain States, counties, and towns for the construction of public buildings and other improvements which will not contribute toward winning the war; and

"Whereas the carrying forward of these activities will involve the utilization of labor, materials, and capital urgently required for war purposes: Now, therefore, be it

"*Resolved by the War Industries Board*, That in the public interest all new undertakings not essential to and not contributing either directly or indirectly toward winning the war, which involve the utilization of labor, material, and capital required in the production, supply, or distribution of direct or indirect war needs will be discouraged, notwithstanding they may be of local importance and of a character which should in normal times meet with every encouragement; and be it further

"*Resolved*, That in fairness to those interested therein notice is hereby given that this board will withhold from such projects priority assistance, without which new construction of the character mentioned will frequently be found impracticable, and that this notice shall be given wide publicity that all parties interested in such undertakings may be fully apprised of the difficulties and delays to which they will be subjected and embark upon them at their peril."

It is believed that you may confidently be depended upon to carry into effect the letter and spirit of this resolution so far as concerns your industry and see to it that your products are devoted solely to those uses which can not in the public interest be deferred until after the war.

If in any given case the use proposed to be made of the product of any manufacturer shall be in connection with construction which has not been defined as essential by the Priorities Division but is one which the proposed user conceives to be in the public interest and of such essentiality that even under existing conditions it should not be deferred, then such proposed user may make a full statement of the facts in writing under oath to the regional representative of the resources and conversion section of the War Industries Board in his district, and apply to such representative for his approval of the proposed construction. Should such regional representative approve the construction project, he shall promptly transmit the application for a permit with his approval and reasons therefor to the building materials section of the War Industries Board at Washington for submission to the Priorities Division, and if approved by said division a construction permit will be issued by the building materials section.

Where a proposed purchaser of lime intends using during any one year exceeding 1 ton for the improvement of the soil for agricultural purposes, then the proposed user should make a full statement of the facts in writing, under oath, and present same to the State official of the State where the lands are situated having supervision of agricultural production or soil conservation (usually the State director of extension). Should such official be of the opinion that the use proposed is essential to the maintenance of the present producing capacity of the land in question or that it will directly or immediately increase its production of agricultural products, then such official shall so certify, stating in such certificate the amount of lime which the proposed purchaser is justified in so using, bearing constantly in mind (a) that a great amount of fuel is consumed in the manufacture of lime and that the necessity for conserving fuel as a war measure is imperative, and (b) that as a war

(Continued on page 15.)

Channon-Emery Stove Co., Quincy, Ill., army range.

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

Important Notice to U. S. Purchasing Agents

Purchasing agents for the various Government departments and the special United States war administrations are earnestly reminded to send to the Official U. S. Bulletin at the earliest possible moment all copy for bids to be advertised and purchase awards, in order that these may be promptly and correctly printed in the Bulletin in accordance with the orders of the Secretary of War and other heads of departments.

The task of preparing this copy for publication, with a view to absolute correctness and continuity, is a considerable one, but, with the cooperation of the purchasing agencies, should result in a great help, not only to the departments themselves, but to bidders throughout the country, all of whom, through the medium of the Official Bulletin, are desirous of keeping informed of the Government's needs.

CIRCULAR ISSUED TO LIME MANUFACTURERS

(Continued from page 14.)

measure the use of lime for agricultural purposes should as a rule be limited to such uses as are calculated to produce direct and immediate results rather than results which will not manifest themselves until after the war. A manufacturer or dealer in lime may sell to the holder of such certificate not exceeding the amount of lime named therein to be used for agricultural purposes.

The instructions contained in this circular relating to the use of lime in construction work shall not be so construed as to prevent the sale of small quantities for the repair of or extension to existing structures, which repairs or extensions involve in the aggregate a cost of not exceeding $2,500, nor to prevent the sale of small quantities of lime for agricultural purposes of not exceeding one ton to any one purchaser during any one year.

Yours, very truly,

EDWIN B. PARKER,
Priorities Commission r.

W. C. KENDALL,
Manager, Car Service Section.

EXECUTIVE ORDER CONCERNING WYOMING LANDS IS REVOKED

[Executive Order No. 2887.]

Executive Order No. 2530 of February 14, 1917, withdrawing, under authority of the act of June 25, 1910 (36 Stat., 847), as amended, certain lands in Wyoming in aid of legislation then proposed in H. R. 19413, Sxity-fourth Congress, is hereby revoked. And under authority of said act of June 25, 1910, as amended, it is hereby ordered that the public lands in the following described areas in Wyoming, including a portion of the area released from said withdrawal of February 14, 1917, together with other lands, be temporarily withdrawa until March 5, 1919, in aid of pending legislation embodied in bill H. R. 10930, subject to valid claims initiated prior to the date of withdrawal and maintained pursuant to law, and to the provisions of existing withdrawals: In T. 27 N., R. 114 W., secs. 6 and 7; in T. 28 N., R. 114 W., secs. 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, and 32; W. ½ of T. 29 N., R. 114 W.; in T. 30 N., R. 114 W., secs. 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, 31, and 32; in T. 31 N., R. 114 W., secs. 6, 7, 17, 18, 19, 20, 29, 30, 31, and 32; in T. 32 N., R. 114 W., secs. 7, 18, 19, 30, and 31; in T. 33 N., R. 114 W., E. ½ sec. 20, all secs. 21 and 28, E. ½ of secs 29 and 32, all sec. 33; in T. 27 N., R. 115 W., secs. 1 to 12, inclusive, secs. 16 to 21, inclusive, and 28 to 33, inclusive, sixth principal meridian.

If said legislation be not enacted before the adjournment of the last session of the Sixty-fifth Congress, and no other direction is given regarding the disposal of such lands, they will, on March 5, 1919, become subject to disposal under any law then applicable thereto without further order.

The lands released from withdrawal of February 14, 1917, and not rewithdrawn hereby are described as follows: In T. 34 N., R. 113 W., NE¼ sec. 6, secs. 17 and 18; in T. 35 N., R. 113 W., secs. 6, 7, 18, 19, 30, and E½ sec. 31; in T. 30 N., R. 114 W., secs. 4, 9, 16, 21, 28 and 33; in T. 31 N., R. 114 W., secs. 4, 5, 8, 9, 16, 21, 28, and 33; in T. 32 N., R. 114 W., secs. 8 9, 16, 17, 20, 21, 28, 29, 32, and 33; in T. 33 N., R. 114 W., secs. 2, 10, 11, 15, 22, 27 and 34; in T. 34 N., R. 114 W., secs. 26 and 35, sixth principal meridian.

It appearing proper and necessary, in the interest of equal opportunity and good administration, that all of the lands last above described subject to disposition should be restored to homestead entry in advance of settlement or other forms of disposition, it is hereby ordered, under authority of the act of September 30, 1913 (38 Stat., 113), that the public lands in the areas last described, subject to valid rights, shall be opened to entry only under the provisions of the homestead laws requiring residence at and after, but not before, 9 o'clock a. m., standard time, July 30, 1918, and to settlement and other disposition under any public land law applicable thereto at and after, but not before, 9 o'clock a. m., standard time, August 6, 1918. Prospective applicants may, during the period of twenty days preceding the date on which the lands shall become subject to entry, selection, or location of the form desired under the provisions of this order, execute their applications in the manner provided by law and present the same, accompanied by the required payments, to the United States land office at Evanston, Wyo., in person, by mail, or otherwise, and all applications so filed, together with such as may be submitted at the hour fixed, shall be treated as though simultaneously filed and shall be disposed of in the manner prescribed by existing regulations. Under such regulations, conflicts of equal rights will be determined by a drawing.

Warning is hereby given that no settlement initiated prior to seven days after the date for homestead entry above named will be recognized, but all persons who go upon any of the lands to be restored hereunder and perform any act of settlement thereon prior to 9 o'clock a. m., standard time, August 6, 1918, or who are on or are occupying any part of said lands at such hour, except those having valid subsisting settlement rights initiated prior to withdrawal from settlement and since maintained, will be considered and dealt with as trespassers and will gain no rights whatever under such unlawful settlement or occupancy: *Provided*, however, that nothing herein contained shall prevent persons from going upon and over the lands to be restored to examine them with a view to thereafter appropriating them in accordance herewith. Persons having prior settlement rights, as above defined, will be allowed make entry in accordance with existing law and regulations. Intending entrymen are also warned to ascertain the status of the lands by inquiry of the local land office before making application therefor as a portion of the lands last herein described are not subject to entry, being included in final and pending entries under the public land laws.

WOODROW WILSON.

Amendments to Postal Regulations on Pay of Fourth Class Postmasters

The Post Office Department issues the following:

OFFICE OF POSTMASTER GENERAL,
Washington, August 14, 1918.

Order No. 1851.

Section 272 of the Postal Laws and Regulations is amended to read as follows:

"The compensation of postmasters of the fourth class shall be fixed upon the basis of the whole of the box rents collected at their offices and commissions upon the amount of canceled postage-due stamps and on postage stamps, * * * stamped envelopes, postal cards, * * * canceled, on matter actually mailed at their offices, and on amounts received from waste paper, dead newspapers, printed matter, and twine sold, at the following rates, namely (1883, Mar. 3, ch. 142, 2; 22 Stat., 602. See R. S. 3852-3856):

"*Provided*, That postmasters of the fourth class shall receive the same compensation as now provided by law, except that they shall receive one hundred per centum of the cancellations of the first $80 or less per quarter:

"*Provided further*, That if the compensation does not exceed $50 for any one quarter, fourth-class postmasters shall be allowed an increase of twenty per centum of the compensation allowed under existing law.

"*Provided further*, That no office shall be advanced to third class by means of the temporary increases herein provided. (Act of July 2, 1918.)

"* * * On the next $100 or less per quarter, sixty per centum; on the next $200 or less per quarter, fifty per centum; and on all the balance, forty per centum, the same to be ascertained and allowed by the Auditor for the Post Office Department in the settlement of the accounts of such postmasters upon their sworn quarterly returns;

"*Provided further*, That * * * when the total compensation of any postmaster at a post office of the fourth class for four consecutive quarters shall amount to $1,000, exclusive of commissions on money orders issued, and the receipts of such post office for the same period shall aggregate as much as $1,900, the Auditor for the Post Office Department shall so report to the Postmaster General, who shall in pursuance of such report assign such post office to its proper class, to become effective at the beginning of the next succeeding quarterly period, and fix the salary of the postmaster accordingly. (Acts of May 18 and July 28, 1916.)

"*Provided further*, That in no case shall there be allowed to any postmaster of this class a compensation greater than $250 in any one of the first three quarters of any fiscal year, exclusive of money-order commissions, and in the last quarter of each fiscal year there shall be allowed such further sum as he may be entitled to under the provisions of this act, not exceeding for the whole fiscal year the sum of $1,000, exclusive of money-order commissions.

"2. Postmasters, assistant postmasters, clerks, or other employees at post offices of the presidential grade, and postmasters at offices of the fourth class, shall not be allowed or paid any additional compensation for the transaction of postal-savings depository business. (See act of Sept. 23, 1914.)"

NOTE.—See section 273, as to commissions on postage collected in money; section 848, as to compensation for special-delivery business; section 1118, as to commissions on money-order business; section 145, as to fixing compensation in case of false returns of cancellations; section 1681, as to punishment for making false returns.

A. S. BURLESON,
Postmaster General.

VOL. 2 WASHINGTON, SATURDAY, AUGUST 24, 1918. No. 395

MORE THAN 1,500,000 MEN NOW IN OVERSEAS FORCES; GEN. MARCH PRAISES WORK OF U. S. TROOPS IN FRANCE

"DELIVERED GOODS" ON EVERY OCCASION

Tells How First American Division, in One Engagement, Took 68 German Guns and 3,500 Foe Prisoners—Most Advanced Part of U. S. Front Not More Than 20 Miles From the Rhine.

Semiweekly press interview by Gen. March, August 24, 1918:

When I talked to you last Wednesday the French had reached the brink of the plateau overlooking the broad valley of the Oise, southeast of Noyon. Thursday there was a continued advance down the sloping plain beyond to the Oise River, and northeastward to the Ailette, the maximum advance being 9 miles since August 18. The enemy was forced to withdraw from Carlepont Forest, south of Noyon, and fell back across the Oise.

The fine work which has been done by the French during the past week has been duplicated on the British front. Beginning on Wednesday on a 10-mile front, they started a drive south of Arras and made rapid headway across the rolling plains until at noon on that day they had advanced to a depth of about 3 miles. Here the advance was delayed, but not stopped, by strong counter attacks on the line of the Arras-Amiens railroad, where the railroad embankments are said to have made good positions for defense against the English advance.

The British Advance.

On Thursday the British advanced over Albert and gained an important triangular tract between the Ancre and the Somme. On Friday the British continued the pressure on both sectors and forced the enemy back toward Bapaume and so developed a new salient. The rest of the line is reported as quiet, most of the recent work along the line being nibbling, artillery work, exchange of artillery fire, but no advance on a large scale.

We have now crossed, in the number of men embarked for foreign shores, the 1,500,000 mark.

(Continued on page 4.)

SECRETARY OF WAR IN FAVOR OF WORLD SERIES BALL GAMES

Daily press interview by Secretary Baker August 23, 1918:

The baseball commission asks me to give official sanction to the world series. My disposition is to do it. I will write to Gen. Crowder and tell him that I would be glad to have the local draft boards informed that I am in sympathy with an extension to the 15th of September for such persons as will be involved in the world series.

URUGUAY'S FOREIGN MINISTER RECEIVED AT THE WHITE HOUSE

Dr. Baltasar Brum, minister of foreign affairs of Uruguay on special mission, was yesterday presented to the President by the Secretary of State. Accompanied by the members of his mission and by Senor de Pena, the Uruguyan charge d'affaires in Washington, Dr. Brum first called at the State Department, where he met the Secretary of State. The entire party, which also included Col. William Kelly, U. S. A.; Lieut. Comdr. Augustin T. Beauregard, U. S. N., and Col. Clarence S. Ridley, U. S. A., aid to the President, proceeded to the White House.

Introduced by Mr. Lansing.

There Dr. Brum was introduced to the President by Mr. Lansing, and the members of the mission by the Uruguayan charge d'affaires. An informal conversation ensued. There were no formal speeches. Last evening Dr. Brum and his suite were the guests at dinner of Secretary and Mrs. Lansing. This morning the party visited Fort Myer, and this afternoon they went to Mount Vernon. This evening they will be the guests at dinner of the Assistant Secretary of State. Tomorrow the party will visit Annapolis.

Guests at Dinner.

Following were the guests of the Secretary of State at the dinner for Dr. Brum last evening: Dr. Baltasar Brum, Minister for Foreign Affairs; Dr. Cesar Miranda; Dr. Javier Mendivil; Dr. Asdrubal Delgado; Dr. Justo Jose Mendoza; Lieut. Juan Canosa; the Charge d'Affaires of Uruguay; Secretary Lane; Secretary Redfield; Mr. William Phillips; Mr. Breckenridge Long; Mr. Jordan H. Stabler; Mr. Julius Lay; Senator Willard Saulsbury; Senator Gilbert M. Htchcock; Senator Henry D. Flood; Maj. Gen. Frank McIntyre; Rear Admiral Samuel McGowan; Col. William Kelly, United States Army; Col. Clarence S. Ridley, United States Army; Lieut. Commander Augustin Beauregard, United States Navy; Capt. John Foster Dulles.

LAKE EDON, ARMY CHARTERED CARGO TRANSPORT, IS SUNK BY U-BOAT IN FOREIGN WATERS

16 OF CREW REPORTED AS MISSING

The U. S. S. Cubore Also Torpedoed and Sunk in European Waters. West Bridge Reported Lost, Then as Being Safe in Port.

The Navy Department received a cablegram yesterday afternoon stating that the steamship *Lake Edon*, an Army chartered cargo transport, was sunk by enemy submarine in European waters August 21. There were 49 in the crew; 16 are reported missing. The names of those missing were not given in the dispatch.

Reports About the West Bridge.

Reports received by the department show that the following were lost in the sinking of the U. S. S. *West Bridge* by submarine in foreign waters on August 16:

Jens Peter Gronne Nielsen, fireman third class. Mother, Mrs. Johanne Marie Sorensen, Olstrup pr Lervang, Jylland, Denmark.

William I. Porter, fireman second class. Wife, Mrs. May E. Porter, 8114 Sixty-sixth Avenue SE., Portland, Oreg.

Robert Johnson McConkey, fireman second class. Mother, Mrs. Ella Little, R. F. D. No. 5, Mount Vernon, Wash.

The *West Bridge* was a cargo ship of 8,800 tons dead-weight, in Government service, and was westbound when torpedoed.

Reported Safe in Port.

The Navy Department is informed that the steamship *West Bridge*, which was reported torpedoed in foreign waters on August 16, was not sunk, but has reached port.

A British steamer has brought to New York 104 survivors of the British steamship *Diomed*, sunk on August 21 about 250 miles east of Nantucket.

The Cubore Sunk.

The U. S. S. *Cubore*, 7,300 gross tons, was torpedoed and sunk on August 15 in European waters on westbound voyage. Reports state that there was no loss of life in the sinking of the *Cubore*.

ON MISSION TO BRAZIL.

The Department of Commerce issues the following:

Mr. J. E. Philippi, of New York City, has been appointed American commercial attache at Rio de Janeiro, and is preparing to leave for the Brazilian post. Mr. Philippi will be assigned to the American Embassy at Rio de Janeiro. The position of commercial attache in Brazil is considered of special importance at this time when the relations between the two countries are becoming more cordial.

MOTION-PICTURE INDUSTRY RECOGNIZED AS ESSENTIAL BY WAR INDUSTRIES BOARD

APPLIED TO ALL ITS BRANCHES

Tentative Agreement Reached After Hearing Gives Preferment to Film Makers and Exhibitors Under Certain Stated Limitations.

The War Industries Board authorizes the following:

After a hearing before the priorities commissioner and other representatives of the War Industries Board of the claims of a committee representing the entire motion-picture industry in all its branches from the manufacture of the film to the projection of the picture on the screen the following conclusions, tentatively reached, are announced:

Summary of Reasons.

(1) To the extent of the activities of the industry in connection with the several agencies of the Government, the Red Cross, the Y. M. C. A., the Knights of Columbus, and other organizations actively engaged in war work, and also to the extent of its activities in supplying an educational medium and in furnishing to the great masses of the people a wholesome and comparatively cheap means of recreation, it should be, and is, recognized as an essential industry.

(2) This, in common with practically every other industry, embraces some elements of nonessentiality, and each member of the industry will pledge himself to discontinue all nonessential production and eliminate all wasteful practices, as these may from time to time be defined by the War Industries Board.

(3) Permits for the erection of new theater buildings and equipment of new theaters will be denied until we shall have won the war.

Local Conditions Considered.

(4) Some localities are overtheatered, and where this condition exists no new theater will be opened to replace those retiring from business.

(5) There is used in the manufacture of films nitrate of soda, sulphuric acid, camphor, acetone, wood alcohol, and linters, all of which are needed in producing explosives. The imperative necessity of economizing in the use of these materials is obvious. To that end, the practice of taking a number of negatives of a single picture will be discontinued, and in the future only one negative will be taken, save where the film is intended for export, when the number will be limited to two.

(6) Films that are worn out or obsolete and now carried in stocks will be "scrapped" and returned to the film manufacturer to be worked over and reclaimed and used in the manufacture of new films. In this way the drafts of the film manufacturer on war materials will be greatly curtailed.

(7) The studio directors will exercise the greatest care to insure that only wholesome pictures are produced.

(8) Manufacturers of machines for projecting the picture on the screen will be given preference treatment for the manufacture of spare and repair parts of existing machines and should encourage in every possible way the repair and use of all existing machines rather than junking them and replacing them with new ones.

(9) The manufacture of new tin containers and of iron boxes for packing and shipping film will be discontinued and substitutes used therefor, in order that tin and iron may be conserved.

(10) Those members of the industry, whatever the nature of their activities, will be accorded a degree of preference to enable them to operate, conditioned upon their rigidly observing the rules and regulations which will be prescribed by the War Industries Board.

Protect your soldiers with your savings.

HOUSING FOR NAVY WORKERS AT YARDS ON PACIFIC COAST

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation of the Department of Labor announces two housing developments on the Pacific coast.

One of these is for the employees of the navy yard at Mare Island, Cal., and is to be built at Vallejo. It is to consist of permanent dormitories to accommodate about 1,000 men; 30 small apartment houes of four apartments each, a type locally popular; about 100 frame houses a story and a half in height, containing four, five, or six rooms each, and a mess hall. There will also be stores, a schoolhouse, and a recreation building.

Sewers and Streets.

The United States Housing Corporation has been compelled to build sewers and streets and to provide a water supply. The designer of the buildings is George W. Kelham, architect; the town planner is P. R. Jones, and S. E. Kieffer is the engineer, all of San Francisco. The contract for the buildings has been let to the Dinwiddie Construction Co.; that for the public utilities to J. A. Marshall.

The other development is for the Puget Sound Navy Yard workers at Bremerton, Wash. Because of the housing shortage at Bremerton, which is an isolated community, the navy yard has had to draw workmen from Seattle. This involves a two-hour trip morning and evening, which with work proceeding in three shifts makes maximum production an impossibility.

Hotel of 350 Rooms.

In this case the buildings to be erected will be a hotel of 350 rooms; three apartment houses of 15 apartments each; and some 250 houses of the bungalow type, to be of four, five, and six rooms. The contract for this work will be let very shortly. The architect is A. H. Albertson, of Seattle; the town planner, E. T. Mische, of Portland; and the engineers, Sawyer Bros., of Seattle.

These two navy yards being the most important on the Pacific coast, the meeting of their housing needs has been considered urgent.

OVER 300 COLLEGES TO HELP IN STUDENTS' TRAINING CORPS

The Committee on Public Information issues the following:

More than 300 colleges will be equipped in September for the organization of the Students' Army Training Corps. This new branch of the Army uses the already existing machinery of educational institutions as intensive training centers and as preofficer schools. The grammar-school graduate of 18 years and over is as eligible to the Students' Army Training Corps as the high-school graduate or the man who has already qualified as a college student.

Each unit will be a clearing house for officer material. The student-soldier will come directly under the observation of both military instructors assigned by the War Department and the faculty, so that men may be chosen as technical experts for further training for line officers, officers in technical branches, and noncommissioned officers.

List of Schools Accepted.

Schools accepted on Saturday for units singly or in combination are: Lincoln Memorial College, Cumberland Gap, Tenn.; St. Joseph's College, Philadelphia, Pa.; Grove City College, Grove City, Pa.; Drexel Institute, Philadelphia, Pa.; Geneva College, Beaver Falls, Pa.; Hobart College, Geneva, N. Y.; Manhattan College, New York City; New York State College for Teachers, Albany, N. Y.; College of Dentistry, New York City; Cathedral College, New York City; Hastings College, Hastings, Nebr.; Yanktown College, Yanktown, Pa.; Butler College, Indianapolis, Ind.; Antioch College, Yellow Springs, Ohio; St. Mary's College, Dayton, Ohio; Loyola College, Baltimore, Md.; University of Chattanooga, Chattanooga, Tenn.; Southwestern Presbyterian University, Clarksville, Tenn.; Tusculum College, Greeneville, Tenn.; King College, Greeneville, Tenn.; St. Mary's College, Oakland, Cal.; Bethel College, Russellville, Ky.; Georgetown College, Georgetown, Ky.; West Kentucky Normal School, Bowling Green, Ky.; International Y. M. C. A. College, Springfield, Mass.; Southwestern Normal School, Weatherford, Okla.; and Maryville College, Maryville, Tenn.

Engineers or Surveyors Wanted at Charleston, S.C.

Three (3) junior engineers or surveyors and six (6) surveymen are wanted by the district engineer, Charleston, S. C., for duty in connection with survey of Charleston Harbor, South Carolina, and its channel, for improvement to provide a channel 40 feet deep and 1,000 feet wide. Application should be made direct to the District Engineer, Room 33, Customhouse, Charleston, S. C., stating fully experience and qualifications, present salary, and lowest salary acceptable, age and draft classification.

STATE FUEL ADMINISTRATOR.

The United States Fuel Administration announces the appointment of Hovey E. Slayton, a shoe manufacturer, of Manchester, as State fuel administrator for New Hampshire.

OFFICER AND 3 MEN KILLED; 22 HURT BY THE EXPLOSION OF DEPTH BOMB ON ORIZABA

ACCIDENT AT SEA ON AUGUST 17

Lieutenant Commander Williamson, Executive Officer, Instantly Killed, Commander White Reports—Little Damage to Ship—Order Inquiry.

The Navy Department is informed that Lieut. Commander Price Williamson and three enlisted men were killed; Commander R. D. White, in command of the *Orizaba*, and 22 men wounded by the explosion of a depth charge on the U. S. S. *Orizaba* at sea on August 17.

The dead are:

Lieut. Commander William P. Williamson. Wife, Mrs. Florence B. Williamson, 280 Madison Avenue, New York, N. Y.

Samuel T. Lambert, oiler, United States Naval Reserve Force. Father, W. George Lambert, 562 Fairview Street, Riverside, N. J.

Frank J. Mayer, baker, second class, United States Navy. Brother, John Mayer, 512 Dandridge Street, Cincinnati, Ohio.

Arthur K. Baird, seaman, United States Naval Reserve Force. Mother, Mrs. Mary Baird, 714 East Parkway, Pittsburgh, Pa.

Commander White's jaw was broken and his knee cap fractured by the explosion.

Commander Williamson, who was executive officer of the ship, was instantly killed.

Court of Inquiry Ordered.

The Navy announces that a court of inquiry has been formed to investigate the cause of the accident. No material damage was done the vessel, reports state.

Commander R. Drace White, in command of the *Orizaba*, in his report says:

"I wish to invite attention to the remarkable behavior of the officers and men immediately subsequent to this explosion. About 90 minutes later a submarine was sighted coming from abaft the port beam. In spite of the fact that half of the after gun crews had been hurt and that there was every reason for demoralization, the guns were promptly manned and were ready to fire almost immediately.

"I wish especially to invite attention to the work of Surgs. Winn, Skillern, and Krepps. These officers worked incessantly from the time of the explosion until daybreak next morning. The most modern methods were employed and many men who might have suffered serious consequences were about the decks next day, manning their guns. So far there has not been a single case of infection.

Morale of Men Praised.

"Finally, I wish to say of the ship that I have never known such spirit to exist in any of my previous service. Officers and men alike have risen to their responsibilities in a manner truly amazing. There has been a splendid spirit of loyalty and cooperation."

Commander White, who was standing near by when the explosion occurred, was thrown to the deck, his clothes torn off, jaw broken, and kneecap fractured. Lieut. John C. Tyler was injured in the knee, chest, and elbow. Most of the men wounded were only slightly injured.

Lieut. Commander Williamson, who was killed on the *Orizaba*, was born on August 10, 1884, at Norfolk, Va., and entered the naval service as a midshipman from Minnesota on June 29, 1903; was appointed as ensign September 13, 1908; promoted to lieutenant (junior grade) September 13, 1910; promoted to lieutenant July 1, 1914; and later served on the *Galveston*. In 1916 he was inspector of ordnance and powder in charge of naval magazines and chemical laboratory at Olongapo, P. I. On August 31, 1917, he was temporarily appointed a lieutenant commander. On February 6, 1918, he was detached from the ammunition depot, Olongapo, P. I., and ordered to the United States. On April 4, 1918, he reported for duty in connection with the fitting out of the U. S. S. *Orizaba*, and had been executive officer of that vessel since it was commissioned.

List of the Injured.

The Navy Department reports that the men injured as the result of the explosion of the depth charge on the U. S. S. *Orizaba* on August 17 were:

Basil Earnest Aton, seaman second class, United States Naval Reserve Force. Father, Charles W. Aton, 113 Collins Avenue, McKeesport, Pa.

Ernest John Bach, seaman second class, United States Navy. Father, Herman Bach, 626 North Warren Street, Pittsburg, Kans.

Joseph Charles Basso, pharmacist's mate third class, United States Naval Reserve Force. Mother, Mary Basso, 48 Hope Street, Providence, R. I.

Frank Henry Born, coxswain, United States Navy. Father, Henry Born, Raspeburg, Md.

John A. Corey, coxswain, United States Naval Reserve Force. Sister, Mrs. Margaret Morgan, Allentown, Pa.

Robert Mark Cornett, coxswain, United States Navy. Father, Robert L. Cornett, 3359 Wyandotte Street, Kansas City, Mo.

Judson Decker Allen, seaman second class, United States Navy. Father, Orren Allen, 20 Royce Avenue, Middletown, N. Y.

Stanley Elmer Daut, seaman second class, United States Naval Reserve Force. Mother, Mrs. Clarice Daut, 523 West Rockland Street, Philadelphia, Pa.

Eugene Blair Dunkleberger, pharmacist's mate third class, United States Naval Reserve Force. Mother, Mrs. Jane Dunkleberger, 1011 Douglas Street, Reading, Pa.

Arthur Fox Holler, pharmacist's mate first class, United States Naval Reserve Force. Father, Henry F. Holler, Hummelstown, Pa.

Joseph Francis Jawors, quartermaster second class, United States Naval Reserve Force. Wife, Harriet Harvey Jawors, 3120 North Marston Street, Philadelphia, Pa.

Harry Krummen, chief gunner's mate, United States Navy. Mother, Josephine Krummen, 1423 Raco Street, Cincinnati, Ohio.

Robert Hamilton McCracken, seaman, first class, United States Naval Reserve Force. Mother, Mrs. Matilda McCracken, 3333 Spring Garden Street, Philadelphia, Pa.

Earl O'Brien, seaman, second class, United States Naval Reserve Force. Mother, Emma Frey, 7612 Ridge Avenue, Philadelphia, Pa.

Frank Greenlee Paxson, seaman, second class, United States Naval Reserve Force. Mother, Sarah H. Richardson Paxson, 1152 Walnut Street, Chester, Pa.

Leonard Lawrence Schilb, seaman, second class, United States Navy. Father, Schilb, Montserrat, Mo.

Paul Adam Schlefsky, seaman, second class, United States Navy. Mother, Louise Schlefsky, Chaska, Minn.

John Wilde Shaw, seaman, United States Naval Reserve Force. Father, Thomas Buckley Shaw, 207 West Seventh Street, Chester, Pa.

Samuel Stewart, seaman, United States Naval Reserve Force. Father, 4044 Powelton Avenue, Philadelphia, Pa.

Clarence Albert Wiesman, seaman, second class, United States Naval Reserve Force. Mother, Mrs. Euzetta Wiesman, R. F. D. No. 2, Crothersville, Ind.

Charles Wildhagen, boatswain's mate, first class, United States Navy. Mother, Elsie Wildhagen, 192 Irving Avenue, Brooklyn, N. Y.

Harold James Wilson, ship's cook, second class, United States Naval Reserve Force. Mother, Mrs. Marcella Wilson, 345 Sackett Street, Brooklyn, N. Y.

SHEET AND PLATE ZINC PRICE APPROVED BY THE PRESIDENT

The War Industries Board authorizes the following:

The President has approved an agreement made between the producers of sheet and plate zinc and the price-fixing committee of the War Industries Board (after investigations by this committee in conjunction with the Federal Trade Commission as to the cost of production), that the maximum base price of 14 cents per pound f. o. b. plant for plate zinc and 15 cents per pound f. o. b. plant for sheet zinc, shall be continued on deliveries from September 1, 1918, to January 1, 1919, subject to the usual trade discounts and extras or differentials that were in effect February 13, 1918. These discounts and extras shall be effective on all contracts executed between February 13, 1918, to January 1, 1919. Sheet zinc shall be considered as including all gauges of one-eighth inch thickness and less and plate zinc as including all gauges thicker.

Conditions to Stand.

The conditions are as formerly: First, that the producers of plate and sheet zinc will not reduce the wages now being paid; second, they will sell to the allies, to the public, and to the Government at the same price; third, that they will take the necessary measures, under the direction of the War Industries Board, in the distribution of plate and sheet zinc to prevent it from falling into the hands of speculators, who might increase the price to the public; and fourth, that they pledge themselves to exert every effort necessary to keep up the production of plate and sheet zinc so as to insure an adequate supply as long as the war lasts.

TOURIST RAILROAD FARES TO CALIFORNIA AND FLORIDA

The United States Railroad Administration authorizes the following:

Director General McAdoo announces that tourist fares to California, tickets on sale all the year, with nine months' limit as heretofore, will be 90 per cent of double the one-way fares bearing the same percentage relation to the present one-way fares as the former round-trip fares bore to the old one-way fares. The fares from the Missouri River will be $5.40 higher than they were formerly, from Chicago $9.81 higher, from New York $17.55 higher.

Winter tourist fares to Florida and southern points will be made on the same basis as to California, namely, 90 per cent of double the one-way fares, and the new fares will bear about the same average ratio to the present advanced fares as the old winter fares bore to the old one-way fares. Tickets will be sold from October 1 to April 30, both inclusive, with return limit June 1, stop-overs to be allowed on going or return trip within final limit as heretofore.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communique

The following is authorized by the Secretary of War:

American Official Communique No. 101.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
August 23, 1918.

Section A.—One of our outposts between Fismes and Bazoches, which was driven back on a small local action, later reoccupied its position.

Our aviators successfully bombed the railroad yards at Conflans. All our machines returned.

Indian Service Invites Proposals for Materials

The United States Indian Service will receive proposals for the following materials:

Nine hundred linear feet of strap iron, size 2 by 12 inches, and 1,600 square feet of expanded metal lath, for the Carson Indian School, Stewart, Nev., bids to be received until 10 a. m. August 31, 1918.

One extractor, 28-inch basket, full-proof cover, for the Carson Indian School, Stewart, Nev., bids to be received until 10 a. m. August 28, 1918.

One thousand gallons of gasoline for the Haskell Institute, Lawrence, Kans., bids to be received until 1 p. m. August 31, 1918.

The philosophy of the W. S. S. is save, save, save.

OVER 1,500,000 AMERICANS NOW UNDER ARMS IN FRANCE

(Continued from page 1.)

I have a telegram by courier from Gen. Pershing, which has just come in, in which he calls attention to a circular which has been sent around the United States asking people to buy a picture for help of the blind, claiming thousands of blinded soldiers are being brought into Paris. In fact, only two blind American soldiers were in Paris after the recent battle up to August 3.

During the last week in hearings before the Senate and House Military Committees, in answer to specific questions as to the effect of the proposed military program upon conditions in France, I made some statements which were released to the press. Those statements are deliberate military opinion. They are founded upon the study of the respective man power of all the allies and of the enemy at the time indicated—in June, 1919—and are not simply issued as spread-eagle statements; they are cold-blooded military opinion.

Confidence in American Troops.

Anybody who has served with the American troops has confidence in them. My confidence in them is inspired and developed by serving with them and beside them in battle, and that confidence has been well illustrated to me during the past week by officers coming back from France. I have ordered back from France certain men who have won distinction over there to give them increased rank in the divisions I am organizing at home. These men come in to pay their respects, and they talk the same language I do. You do not find any lack of confidence on the front in France among the American forces. These men are now telling me interesting things which have not yet come over in official reports. One officer reported specifically that in one engagement of the 1st American Division they captured 68 guns of the Germans and brought them in with our own trucks. On the same occasion they took 3,500 prisoners. Another officer reported that the 2d Division, which he was with, captured 10 complete German batteries, which they brought in and presented to Gen. Pershing.

The American soldier deserves the confidence of the American people. On every occasion so far where he has been tested he has absolutely delivered the goods.

Questions and Answers.

Are the 83d and 37th Divisions in the 4th Army Corps? What are they doing?

The 83d Division is in the 5th Corps and is a replacement division not up on the fighting line. The 37th Division is in the 4th Corps, and is on the line in the Baccarat sector.

Other questions related to the activities of infantry regiments in the 83d Division. I have already covered them by my answer to the first question.

Where is the 29th Division located?

The 29th has now landed and is in training in France in the rear of the line.

Can you give the present location of the 51st Infantry Regiment?

That regiment belongs to the 6th Division and is in the training sector. It has not yet reached the front.

How far is the most advanced part of the American line from the Rhine?

Not over 20 miles, at the nearest point, I should say.

Concerning Gen. March's statement above as to his "deliberate military opinion" before the committees of Congress, he said: "The deliberate military opinion is my opinion of the value of these troops to the allied cause upon their delivery in France June 30, 1919."

Can you tell us how far the organization of the first army has progressed?

Gen. Pershing hasn't reported anything further than that he was organizing a field army and taking personal command of it.

NATIONAL BANK CHARTERS APPLIED FOR AND GRANTED

Applications to the Comptroller of the Curreney during the week ending Friday, August 23, 1918, for authority to organize national banks and to convert State banks into national banks, charters issued, charters extended and reextended, increases and reductions of capital approved, changes of title approved, and national banks placed in voluntary liquidation.

APPLICATIONS FOR CHARTER.

	Capital.
For conversion of State banks: The First National Bank of Barnwell, S. C.; conversion of the Barnwell Banking Co	$50,000

CHARTERS ISSUED.

Original organizations:	
The Farmers and Merchants National Bank of Benton, Ark	25,000
The First National Bank of Hastings, Pa	50,000
The First National Bank of Magna, Utah	25,000
The First National Bank of Avoca, Minn.; succeeds the Avoca State Bank	25,000
Conversion of State banks: The First National Bank of Parshall, N. Dak.; conversion of the First State Bank of Parshall	25,000
Total	150,000

CHARTERS EXTENDED.

The National Union Bank of Rock Hill, S. C.; until close of business Aug. 18, 1938.

The First National Bank of Eldora, Iowa; until close of business Aug. 21, 1938.

INCREASES OF CAPITAL APPROVED.

	Amount.
The Citizens National Bank of Antlers, Okla., from $25,000 to $40,000	$15,000
The Hugo National Bank, Hugo, Okla., from $50,000 to $100,000	50,000
The Citizens National Bank of Orange, Va., from $50,000 to $60,000	10,000
Total	75,000

SUMMARY.

	No. of banks.	Capital.
Applications for charter	1	$50,000
Charters issued	5	150,000
Charters extended	2	
Increases of capital approved	3	75,000

ORDERED TO WASHINGTON.

Special Orders, No. 190:

265. Maj. David C. Selheimer, Quartermaster Corps, is relieved from his present duties, will proceed to Washington, D. C., and report to the Acting Quartermaster General of the Army for duty with the motor transport service.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

The Senate yesterday concluded general debate on the man-power bill and formal consideration, with precedence being given to the committee amendments, was begun. Senator Lodge made a speech urging lowering of the proposed maximum draft age to 40 years. He stated that military necessity demanded the calling of youth over 18, but that he could not see the wisdom of taking men of more than 40 years when the number secured would be so small.

Senator Pomerene opposed the drafting of youths of 18. Senator Thomas, author of the original "work or fight" amendment, defended that proposition, and denied that it was intended to conscript labor. Senator McCumber condemned slackers in industry.

Senator Lodge delivered a warning against German peace propaganda, declaring that peace must be dictated to and not negotiated with Germany to place her in a position where she never again can disturb the peace of the world.

Senator Fletcher, chairman of a subcommittee of the Military Affairs Committee, which was appointed to investigate the cross licensing of patents in connection with the aircraft inquiry announced that no further investigation of the airplane situation is to be made at this time.

Confirmation of the nominations of 11 major generals and 44 brigadier generals sent to the Senate Thursday by President Wilson was recommended by the Military Committee after Secretary Baker and Gen. March had appeared to answer questions concerning the War Department's policy governing promotions. Later all these nominations were confirmed by the Senate, together with those of Brig. Gen. Harry L. Rogers, to be quartermaster general with rank of major general; Brig. Gen. Merritte W. Ireland, to be assistant surgeon general with the rank of major general; and Brig. Gen. Henry P. McCain, to be a major general for the war period.

Charles W. Hecht, of the Hardaway-Hecht Grocery Co., who is regional director for the War Industries Board for the Charlotte (N. C.) district, testified before the submilitary committee investigating contracts. Mr. Hecht admitted that Mr. Hardaway, of the Hardaway Construction Co., owned most of the grocery concern's stock and that the grocery company had sold between $50,000 and $60,000 worth of supplies to the Hardaway Construction Co. at a 5 per cent profit while engaged in work at Camp Jackson, S. C. Mr. Hecht offered to resign.

HOUSE.

The House spent all of yesterday's session in consideration of the man-power bill and rejected a number of amendments thereto. The McKenzie amendment, which would have required that youths from 18 to 20 be placed in a separate class to be called to the colors only after the older registrants, was rejected by a vote of 167 to 120. The House also voted down, 172 to 90, an amendment by Representative Johnson, of Washington, to change the draft age limits to 19 to 45. Another amendment by Representative Johnson to make the maximum age limit 50 years was voted down, 168 to 118. An amendment by Representative Blackmon, of Alabama, to make the minimum age 21 years was rejected, 195 to 92. An amendment by Representative McCullough, of Ohio, directing reclassification of the nationals of cobelligerents and the withdrawal of deferred status from those physically fit was adopted, 129 to 74.

Members of Congress and State legislatures will be subject to draft under an amendment by Representative Gregg, of Texas, which was adopted. It also includes executive officials of the States and the United States.

Secretary Baker and Chairman Baruch, of the War Industries Board, at a hearing by the Commerce Committee, testified that the Government's shipbuilding and general war program is in danger of being seriously retarded unless increased electric power facilities are provided for industrial centers. They had been asked to appear and explain the need for the Sims water-power bill, which would give the President authority to take over and operate existing power plants and to build new ones.

PROPOSALS TO BE RECEIVED FOR COTTON GOODS SUPPLIES

The following notices as to supplies needed have been sent out by the Cotton Goods Branch of the Clothing and Equipage Division, Quartermaster General's Office, New York City:

"Office of the Quartermaster General, New York City.—Sealed proposals for furnishing 4-leaf uniform twills, cotton drills, burlap, paper sheets, jute canvas padding, plain cotton cloth, gray gauze, and jeans will be received here until 2 p. m. August 30, 1918. Information on application. Envelopes containing proposals must be indorsed 'Proposals for cotton goods,' and addressed to the Cotton Goods Branch, Clothing & Equipage Division, 109 East Sixteenth Street, New York City."

"Office Quartermaster General, New York City.—Sealed proposals for furnishing 102,500 dugout blankets, 48 by 84, weighing 3½ to 4½ pounds per blanket, will be received here until 2 o'clock p. m., September 3, 1918. Information on application. Envelopes containing proposals to be indorsed 'Proposals for dugout blankets' and addressed to the Cotton Goods Branch, Clothing and Equipage Division, 109 East Sixteenth Street, New York City."

"Office Quartermaster General, New York City.—Sealed proposals for furnishing 1,680,000 yards 39-inch 68 by 76 4.00 3-leaf twill will be received here until 2 o'clock p. m., September 3, 1918. Information on application. Envelopes containing proposals to be indorsed 'Proposals for 39-inch 68 by 76 4.00 3-leaf twill' and addressed to the Cotton Goods Branch, Clothing and Equipage Division, 109 East Sixteenth Street, New York City."

Sealed Bids Wanted

General Engineer Depot, United States Army, 1438 U Street, Washington, D. C.—Sealed bids are wanted until dates indicated under circular proposals as follows for furnishing miscellaneous supplies for the General Engineer Depot. Additional information may be had upon application to the purchasing officer as above:

Proposal No. 1087, opening of August 27, 1918.—6,025,000 feet of copper cable and wire, as per specifications, and 75,000 feet of packing-house cord.

Proposal No. 1090, opening of August 30, 1918.—5,400 tampers.

Proposal No. 1091, opening of September 6, 1918.—80,000 feet two-conductor No. 6 B. & S. gauge cable.

Proposal No. 1092, opening of September 10, 1918.—105 ten-ton gasoline road rollers; 22 scarifiers.

ORDER FIXING THE PRICES OF COAL MINED BY VARIOUS COMPANIES IN SEVERAL STATES

U. S. FUEL ADMINISTRATION,
Washington, August 13, 1918.

Applications having been made to the United States Fuel Administrator for a further revision of the prices of bituminous coal mined by the Wayne Mining Co. in Guernsey County, in the State of Ohio, the United States Fuel Administrator, after due consideration of such applications, acting under authority of an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined by the Wayne Mining Co. in the county of Guernsey, in the State of Ohio, may be sold at prices f. o. b. cars at the mine not to exceed the following per net ton: For run of mine, $2.50; for prepared sizes, $2.75; for slack or screenings, $2.25. To the foregoing prices may be added the 45-cent allowance for wage increase, if the producing company is entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., August 20, 1918.

H. A. GARFIELD,
United States Fuel Administrator.
By CYRUS GARNSEY, Jr.,
Asst. United States Fuel Administrator.

U. S. FUEL ADMINISTRATION,
Washington, August 15, 1918.

Application having been made to the United States Fuel Administrator for a revision of the prices of bituminous coal mined by the Wallen Jellico Coal Co., in the county of Whitley, in the State of Kentucky, the United States Fuel Administrator, after due consideration of such application, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined by the Wallen Jellico Coal Co., in the county of Whitley, in the State of Kentucky, may be sold at prices f. o. b. cars at the mine not to exceed $3.25 per net ton for run of mine, $3.50 per net ton for prepared sizes, $2.50 per net ton for slack or screenings, provided said coal is not sold as Blue Gem coal. To said prices may be added the 45-cent allowance for wage increase if the said company is entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m. August 19, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

(Continued on page 10.)

Country Weeklies Notified They Must Observe Plan for Economy In the Use of News Print Paper

The War Industries Board authorizes the following:

Bernard M. Baruch, chairman of the War Industries Board, announces that the plan for conservation of news-print paper has been extended to include country weeklies. The plan as formulated by the war committee of the country weekly publishers and accepted by the War Industries Board through Thomas E. Donnelley, chief of the Pulp and Paper Section, contemplates a saving of 15 per cent in the use of news-print paper in the industry as a whole.

Prominent features of the plan include: Discontinuance of papers to subscribers three months after the date of expiration of their subscriptions, unless the subscriptions are renewed and paid for; stopping the publication of extra copies for advertising stimulation; stopping returns of unsold copies from news dealers; stopping the use of free copies in exchange for other publications except those published within the same county or within a 40-mile radius; and a reduction of 25 per cent of all publication space in excess of eight pages.

Following is the official announcement:

To publishers of country weekly newspapers:

The Priorities Board of the War Industries Board has listed paper mills as an essential industry, and has rated them in fourth class for priority for coal on the distinct understanding that the greatest possible economy in the use of paper be exercised and that the reduction in the use of paper by the newspapers shall be 15 per cent.

Paper mills will be put upon the priority list for coal, conditional upon their signing a pledge that they will furnish no paper to any customer who will not also sign a pledge in duplicate that he will exercise the greatest possible economy in the use of paper, and will observe all rules and regulations of the conservation division and of the pulp and paper section of the War Industries Board. These pledges are now being prepared and will be furnished shortly.

The war committee of weekly newspaper publishers feels that the necessary saving of 15 per cent should come out of the industry as a whole, and in order to accomplish this purpose made the following suggestions, which were accepted by the pulp and paper section of the War Industries Board, and are to be effective September 1, 1918.

Each publisher shall eliminate the following wasteful practices. If for any reason a publisher desires to continue any of these practices, he must adopt some other methods to accomplish at least a 15 per cent reduction in paper used. If by November 1, 1918, a saving of 15 per cent has not been made in the industry as a whole, the matter will be reviewed by the pulp and paper section and further curtailments will be necessary.

1. No publisher of a weekly, semi-weekly, or triweekly newspaper shall use in the production any paper except news-print and of a weight on the basis of not heavier than 30½ by 44—50-pound (basis—24 by 36—32 pounds). All stocks now on hand may be used whether news-print, machine-finished, or sized and supercalendered and regardless of weight.

2. No publisher may continue subscriptions after three months after date of expiration, unless subscriptions are renewed and paid for.

3. No publisher may give free copies of his paper, except for actual service rendered; except to camp libraries and huts or canteens of organizations recognized by the Government, such as the Red Cross, Y. M. C. A., or K. of C.; except to the Library of Congress and other libraries which will agree to bind for permanent keeping; except to Government departmental libraries which use said publications in their work; and except for similar reasons.

4. No publisher shall give free copies to advertisers, except not more than one copy each for checking purposes.

5. No publisher shall accept the return of unsold copies from news dealers.

6. No publisher shall print extra copies, for stimulating advertising or subscriptions, or for any uses other than those specified in these regulations, except not to exceed 1 per cent of his circulation with a minimum of 10 copies.

7. No publisher shall send free copies in exchange for other publications, except to such other publications as are printed within the county, or within a radius of 40 miles from his point of publication.

8. No publisher shall sell his publication at an exceedingly low or nominal subscription price.

9. No publisher shall sell his publication to anyone below the published subscription price.

10. No publisher shall offer premiums with his publication unless a price is put upon the premium for sale separately and the combined price is at least 75 per cent of the sum of the individual prices.

11. No publisher shall conduct voting or other contests for the purpose of obtaining subscriptions; subscriptions obtained in this way will not be considered bona fide subscriptions.

12. No publisher may issue holiday, industrial, or other special editions.

13. Publishers shall, so far as possible, procure paper and all other materials from the nearest available source of supply, provided it is consistent with price, quality, and service.

14. Publishers of papers of more than eight pages in size will reduce the pages in excess of eight pages 25 per cent. This reduction shall be an average reduction over one month's period.

15. Any publisher of a four or eight page paper will be considered to have fulfilled the requirements of this order if he immediately puts into effect paragraphs numbered 1 to 13, inclusive, and in addition thereto reduces to the lowest possible point all pressroom waste.

No newspaper may be established during the period of the war, except those for which arrangements had been made and plants purchased previous to the issuing of this order, or unless it can be shown that a new newspaper is a necessity.

A sworn statement will be required from each publisher on November 1 as to how many of these rules have been put into effect by him, and what results in the matter of reducing paper consumption have been obtained.

ADJUTANT GENERAL'S OFFICE ISSUES PERSONNEL WEEKLY

The committee on classification of personnel in the Army authorizes the following statement:

The first issue of a new Government weekly, called Personnel, has just been published by The Adjutant General. As its name implies, it is designed chiefly to strengthen and develop the vitally important work of the personnel adjutants, and especially to give them a better basis for cooperating with all branches of military activity. Now that the personnel adjutants number into the thousands, and are widely scattered, it is evident that the new publication can give them assistance that could be provided in no other way.

Place Most Important Consideration.

The subtitle of Personnel, "The Right Man in the Right Place," simply crystallizes an ideal that has always been foremost in the wishes of those responsible for planning the personnel work. The ideal is emphasized also by Secretary of War Baker in the speech to the School of Personnel Adjutants at Camp Meigs, which occupies practically the whole of this first issue. The *place* has always been the most important consideration in placing men in the Army. The best material had to be put in the places where it was most needed. The next task was to see that the rest of the material was used where it was of real service and to keep such record of it that wherever any need arose qualified men could be found without delay and without impairing the efficiency of any unit.

No Precedent for Task.

There was no precedent for a personnel task of the magnitude of that faced by the Army during the past year, when it started to classify and place millions of men drawn from every section and walk of life. The organization had to be built up quickly and methods devised that would get practical results, and get them at once. At the same time it was necessary to escape the danger of faulty methods that would have resulted in much misplacing and the possible necessity of later reorganization.

System a Success.

There seems to be general agreement that the personnel system that was devised has been a success. The commanding officers are finding themselves in charge of well-balanced, qualified units; the men are finding that their fighting is done in the ways for which they are best fitted by nature or by training. This condition promises to become increasingly true as the personnel organization becomes better knit together and more experienced.

RAILROADS URGED TO PREVENT LIGHT LOADING OF FOODSTUFFS IN CIRCULAR ISSUED BY THE CAR SERVICE SECTION

The car service section of the United States Railroad Administration has issued the following:

BULLETIN No. 41.

To railroads:

We are quoting below revised rule 9 of the United States Food Administration's rules and regulations governing the importation, manufacture, storage, and distribution of food commodities and feeds for domestic trade by persons subject to license:

Rule 9. All carload shipments of the following commodities shall be made in car lots of not less than the amount prescribed below unless a different minimum is authorized by special written permission of the United States Food Administration, provided, however, that when cars of lower carrying capacity are used the maximum load which the car will carry may be used without such permission.

	Pounds.
Canned peas, meats, tomatoes, tomato soup, tomato catsup or other tomato products, beans, corn, salmon, and tuna	60,000
Canned sardines	45,000
Evaporated milk and condensed milk	45,000
Exception: Milk in barrels may be loaded to floor space capacity, barrels on end.	
Powdered milk	40,000
Dried beans and peas	60,000
Dried apples, peaches, prunes, and raisins	60,000
Flour (wheat, barley, corn, rye, and rice)	60,000
Green coffee	60,000
Sirup (corn, glucose, sugar, molasses), except in barrels or in tank cars	60,000
Sirup (corn, glucose, sugar, molasses) in barrels—flour space, barrels on end.	
Corn meal, corn grits, hominy, oatmeal, rolled oats	60,000
Cornstarch	60,000
Exception: Starch in barrels shall be loaded to capacity in tiers on end.	
Cottonseed meal, cottonseed cake, peanut meal, peanut cake, soya bean meal, soya bean cake, coconut or copra meal, coconut or copra cake	60,000
Peanuts in hulls, car capacity.	
Linseed meal, linseed cake	60,000
Cotton seed, car capacity.	
Cotton seed, peanut, soya bean, copra, and palm kernel oil, in tank cars, car capacity.	
Rice	60,000
Sugar	60,000
Fresh meat:	
Apr. 1 to Sept. 30	22,000
Remainder of year	24,000
Mixed carloads fresh meat, with other packing house products:	
Apr. 1 to Sept. 30	24,000
Remainder of year	26,000
Cured beef, cured pork, cured mutton, lard and lard substitutes, straight or mixed	30,000
Frozen beef	30,000
NOTE.—These trade units not to apply on so-called peddler car, on which minimum weights and regulations prescribed by the carriers will govern. They, however, will apply on car of this character when handled through branch houses for local distribution or for reshipment.	
Butter	24,000
Eggs and dressed poultry:	
June 1 to Sept. 15	20,000
Remainder of year	24,000
Mixed carloads of butter, eggs, and poultry:	
June 1 to Sept. 15	20,000
Remainder of year	24,000
Cheese	30,000
Feeding stuffs	60,000
EXCEPTION.—If a car will not hold 60,000 pounds it shall be loaded to its full visible capacity. In loading molasses feeds in warm weather an air space not to exceed 3 feet from top row of sacks to roof of car at lowest point may be allowed to insure against heating of feed.	
Wheat, corn, oats, rye, barley, car capacity.	
Oranges and lemons, straight or mixed carloads, in ventilator or refrigerator cars, from California and Arizona, 7 boxes wide, 2 boxes high, boxes on end full length of car.	
EXCEPTION.—Lemons shipped in collapsible tank cars with bunkers open may be loaded 6 boxes wide instead of 7 boxes wide.	
Oranges, lemons, limes, and grape fruit, straight or mixed carloads, in ventilator or refrigerator cars, from Florida, 360 boxes.	
Watermelons:	
Averaging 25 pounds or less, 5 tiers high.	
Averaging more than 25 pounds, 4 tiers high.	
All perishable foodstuffs (fresh and frozen fish, fresh fruits and vegetables) not specifically provided for above, to be loaded as heavily as will permit transportation without damage to commodity shipped.	

1. United States Food Administration rule 9 only applies to shipments moving as carloads and on carload rates.

2. Comparatively few railroads are reporting to this section violations of rule 9, indicating that the matter is not being given proper attention.

3. Commencing at once in order to avoid duplication these reports must be made by railroads originating shipment. Agents at points of origin will make necessary inspection of the loading of commodities on which trade units are established to determine to what extent cubical capacity of equipment is utilized.

4. At large stations where agents can not inspect the loading, some arrangements should be made to have either a personal representative or an inspector of weighing and inspection bureau make weekly check for violations.

5. Agents at point of origin will require shippers to show on bill of lading reasons for not complying with rule 9. A report must immediately be made to his superior officer, who will report promptly to car-service section for handling with the Food Administration. No other investigation will be conducted by any railroad officer or committee.

6. Rule 9 should be reissued as revised and all agents made familiar with its provisions.

7. All reports sent to this office should be in duplicate with a separate sheet for each commodity.

W. C. KENDALL,
Manager Car Service Section.

ASSIGNED TO REGIMENT.

Special Orders, No. 189:

413. Col. Moor N. Falls is relieved from his present assignment and will proceed to Camp Sheridan, Ala., and report in person to the commanding general, that place, for assignment to duty with the Sixty-seventh Infantry.

New Short Line Railroad Section Is Established

The United States Railroad Administration issues the following:

WASHINGTON, *August 7, 1918.*

CIRCULAR No. 46.

Effective July 29, 1918, the short line section of the division of public service and accounting has been created, and Mr. Edward C. Niles has been appointed manager, with office at Washington, D. C.

The short line section will be charged with the duty of seeing that short line roads which are being operated by their owners whether under Federal control based upon contract or whether definitely relinquished from Federal control receive a fair division of rates, fair treatment in the routing of traffic, and a reasonable share of the available car supply, and such helpful cooperation from the United States Railroad Administration as is consistent with present war conditions, and that in general in their relation to other railroads they are fairly dealt with.

W. G. MCADOO,
Director General of Railroads.

Fixes Hours and Wages of Pullman Employees

The United States Railroad Administration issues the following:

WASHINGTON, *August 9, 1918.*

SUPPLEMENT No. 5 TO GENERAL ORDER No. 27.

Effective August 1, 1918, the wages, hours, and other conditions of employment of employees of the operating department of the Pullman Co. will be the same as those fixed in Supplement No. 4 to General Order No. 27 for corresponding classes of railroad employees, but none of the provisions named therein will be retroactive prior to August 1, 1918.

W. G. MCADOO,
Director General of Railroads.

THE WEEKLY WEATHER FORECAST

The Weather Bureau has issued the following forecast for the period August 26 to 31, inclusive:

North and Middle Atlantic States.—Probably showers Monday in north portion; fair in south. Showers again at end of week. Slightly above normal temperature.

South Atlantic and East Gulf States.—East Gulf States, probably showers Monday and again at end of week; South Atlantic States, showers at end of week. Seasonal temperature.

West Gulf States.—Generally fair, with temperature above the seasonal average.

Ohio Valley and Tennessee.—Generally fair, with temperature above the seasonal average.

Region of Great Lakes.—Generally fair except showers about middle of week in north portion and in south portion about Friday. Seasonal temperature.

Upper Mississippi and lower Missouri Valleys.—Probably showers Tuesday or Wednesday in north portion; fair in south. Normal temperature by first of week; slightly above thereafter.

Northern Rocky Mountain and Plateau regions.—Probably showers Tuesday; generally fair, with seasonal temperature thereafter.

Southern Rocky Mountain and Plateau regions.—Fair weather except showers in mountain districts first of week. Slightly above normal temperature.

Pacific States.—Generally fair weather, with seasonal temperature.

TRAINING OF U. S. AVIATORS PROGRESSING IN FAR WEST

Gen. Kenly Tells of Morale Among Officers and Men On the Pacific Coast.

The War Department authorizes the following:

Maj. Gen. Wm. L. Kenly, director of the Division of Military Aeronautics, who has returned from a trip to the Pacific coast, visiting the spruce and fir country with John D. Ryan, director, Bureau of Aircraft Production, and later all of the flying and balloon fields on the coast, makes the following statement:

Speeding Up Training.

The Division of Military Aeronautics is speeding up the training of fliers and the schools are responding splendidly to the calls already made. It is my desire to be ready to produce whatever number of fliers are called for. Training schools are now being grouped in districts, so that the cadet fliers may pass from ground, primary, and advanced instruction all in one locality, and when the final test is passed be ready for France. It is also the intention as classes of these cadets finish their training as fliers to organize them into squadrons and brigades, so that they may be sent overseas as such and take the air at the front in the formation in which they have been trained.

Advantages in This Country.

Our study and observation and also the experience of officer instructors who have been overseas makes us confident that this country offers the best training ground, not excepting England and France. This is primarily so because we have unlimited room here in the United States. We are now equipping our flying fields with experienced instructors. In England and France the population is so great and uninhabited areas are so few and far between that it is difficult to locate even half a dozen training fields, to say nothing of several dozen. Over there, for instance, it is difficult to establish a gunnery school for fear of the damage that might be done to noncombatants or even to buildings. Gunnery schools require great areas of open ground in isolated districts. It is easy to locate such fields in the United States and at the same time have them accessible.

Splendid Morale in West.

The spirit of the West and the morale of officers and men, no matter whether they came from the North, East, South, or West, is altogether splendid. They are absolutely fearless, show a high grade of intelligence, and are bound to give a good account of themselves.

One of the fields I visited was Mather Field, at Sacramento, Cal. This field has a record of 250,000 hours of flying without a fatality. Another interesting place was the balloon field at Arcadia, Cal., where I saw seven balloons in the air at one time. The site of this field is a ranch back of which mountains rise to elevations the tops of which offer the same atmospheric conditions as the cadet gets suspended high in the air in the balloon basket. By taking the cadets up in these mountain tops the instructors can train a large number at a time in observation and range-finding work instead of limiting the classes to a few pairs in balloon baskets.

We want good men in the Air Service, and we will need them in generous numbers. As soon as the new draft regulations are determined I will venture to say that there will be unlimited opportunity for young men of the right caliber in flying schools and on the ground for both this country and overseas.

ANACOSTIA, D. C., FLYING FIELD TO BE EXTENDED AND IMPROVED

The War Department authorizes the following:

The Assistant Secretary of War has approved an allotment of $103,850 for improving and extending Bolling Field, Anacostia, D. C. This field, on the left bank of the Eastern Branch of the Potomac, is being enlarged for the aerial patrol and protection of Washington, as well as to meet the training needs of the Air Service officers in Washington.

Additional Hangar to Be Built.

Besides enlarging the flying field, an additional hangar will be erected and quarters for 23 officers and 154 enlisted men provided. The high-tension electrical wires at the southern end of the field and the drainage ditch, which are now dangerous to the flyers, will be removed. An aero repair shop and a machine shop will be erected and the whole field encircled by a high barbed-wire fence.

Will Have Balloon Station.

There will be a balloon station with one company located north of the flying field. The equipment will include captive balloons and free balloons for training observers.

A photo-developing hut for the developing and printing of aerial photographs taken in the vicinity, and a small radio telegraph station for the purpose of working up communication with airplanes while in flight will be additional features of the development of this aero flying field adjacent to the National Capital.

Order Amends Wording in Aero Classification

EXECUTIVE ORDER.

Schedule B of classified positions which may be filled upon noncompetitive examination is hereby amended by inserting in Subdivision IV, War Department, paragraph 1, after the words "aeronautical mechanical engineers" the words "aeronautical chemists." As amended the paragraph will read:

"1. Aeronautical engineers, aeronautical mechanical engineers, aeronautical chemists, instructors in flying, student instructors in flying, aviation mechanicians, inspectors of airplanes and airplane engines, and aeronautical mechanical draftsmen in the aviation section of the Signal Corps."

WOODROW WILSON.

THE WHITE HOUSE,
August 21, 1918.

FRENCH ASSISTING RED CROSS TO FEED AMERICAN PRISONERS

The Red Cross issues the following:

To provide for conditions brought by Germany's constant shifting of American prisoners from one camp to another, with the result that parcels of food and clothing may not reach them for weeks, the American Red Cross, according to advices from Berne, has completed cooperative arrangements with the French relief agencies to assist in the immediate care of all newly arriving Americans. Under this arrangement French committees at the German prison camps supply food and clothing from their reserve stocks until the Germans see fit to let news of the arrival get to the Red Cross at Berne.

New Addresses Held Back.

In the case of a transferred prisoner, the Germans frequently do not let his friends know his new address for two or three weeks, during which time, of course, he receives no parcels from the outside.

Capt. Provot, in charge of French relief at Berne, has notified all French committees in prisons in southern Germany to supply food and necessaries to all Americans, whether newly captured or transferred, the moment they arrive at any camp where there is no American Red Cross committee or American reserve stock of supplies.

Aided by French Agents.

He has requested the other French prisoners' depots at Paris and Lyon to send similar instructions to all prison committees supplied by them. These French committees also report the arrivals of Americans to the American Red Cross, which at once begins regular shipment of food and clothing. Any supplies furnished by the French to Americans to maintain them until the arrival of their parcels from Berne, the Red Cross restores to the French depots. The American Red Cross is establishing American committees with reserve stocks as rapidly as it can get in touch with groups at different prisons. Such committees already are established at Tuchel, Braudenburg, Villingen, and Darmstadt.

THREE MARINES ARE KILLED BY SANTO DOMINGO BANDITS

Marine Corps headquarters has received a dispatch stating that in a skirmish between United States Marines and bandits in Seibo Province, Santo Domingo, August 13, three marines were killed and one wounded. A number of the bandits were killed or captured.

The marines killed were:

Corpl. Bascome Breeden. Mother, Mrs. Ella Breeden, Archville, Tenn.

Pvt. Russell William Jones. Brother, Jerry A. Jones, 2225 Seventh Avenue, Altoona, Pa.

Pvt. Joseph Stanilaus Haydel. Father, Stanilaus Haydel, 1325 Carondelet Street, New Orleans, La.

Pvt. Thomas J. Rushforth. Son of Mrs. Mary Rushforth, 703 Henry Street, Brooklyn, N. Y., was wounded but escaped after a hand-to-hand fight with the bandits, armed with machetes.

The dead marines were buried at San Pedro Macoris, Santo Domingo.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

Total Casualties In Overseas Forces

The following is a summary of the casualties reported to date by the commanding general of the American Expeditionary Forces:

Killed in action (including 291 at sea)	4,212
Died of wounds	1,260
Died of disease	1,594
Died of accident and other causes	715
Wounded in action	10,476
Missing in action (including prisoners)	2,187
Total to date	20,444

SECTION NO. 1.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	2
Missing in action	17
Wounded severely	17
Died of wounds	4
Died from accident and other causes	6
Died of disease	1
Wounded (degree undetermined)	5
Prisoner	1
Total	53

Killed in Action.

Lt. Ewing Boone. Mrs. H. C. Boone, 4146 Warwick Boulevard, Kansas City, Kans.

Corpl. William F. Ruth. William Ruth, Emaus, Pa.

Died of Wounds.

Sergt. Wilbain O'Neill. John P. Kelly, 212 East Ninetieth Street, New York, N. Y.

Sergt. Thomas R. Summers. Abram W. Summers, 69 Amelia Street, Lawrenceburg, Tenn.

Corpl. Buff E. Melton. Earnest Melton, North Bend, Nebr.

Corpl. Floyd J. Simons. Mrs. Joseph Simons, 321 Vineyard Street, Bethlehem, Pa.

Died of Disease.

Pvt. James Clarence Brown. Mrs. Florence M. Brown, North Juniper Street, Kannapolis, N. C.

Died from Accident and Other Causes.

Corpl. Clarence E. Knaub. George H. Knaub, Charles Street, Red Lion, Pa.

PRIVATES.

Herbert S. Evans. E. S. Fausch, 616 East Cherokee Street, McAlester, Okla.

Arthur Hargrove. Mrs. Tea Golden Hargrove, New Glasgow, Amherst County, Va.

Joseph S. Ostrowski. Vincent Ostrowski, 504 College Avenue, Winnipeg, Canada.

Jack Whitten. Mrs. Jennie Bright, Carterville, Mo.

Anthony Wilken. Herman Wilken, 2314 Center Street, La Fayette, Ind.

Severely Wounded.

Lieut. Howard J. Cummings. Lawrence Cummings, 34 Kilmurray Street, Clinton, Mass.

Lieut. Carl A. Foss. Charles E. Foss, 75 Greenfield Street, Buffalo, N. Y.

Sergt. Stewart Donald Graham. P. B. Graham, Chestnut Street, Meadville, Pa.

Sergt. Carl Le Roy Peterson. Mrs. Selma Peterson, 74 West Corydon Street, Bradford, Pa.

Corpl. Clarence A. Baxter. Mrs. Mary E. Baxter, 4118 Murray Avenue, Pittsburgh, Pa.

Corpl. Dexter L. Booth. Mrs. Lettie Booth, 813 Sheldon Avenue, Grand Rapids, Mich.

Corpl. Adolph H. Brandes. Mrs. A. Brandes, 916 South Twenty-fifth Street, Omaha, Nebr.

Corpl. John R. Butler. Patrick Butler, 92 Dykeman Street, New York, N. Y.

Corpl. Thomas J. Cummings. Mrs. Elizabeth Cummings, 2734 West Harrison Street, Chicago, Ill.

Corpl. Edward J. Foley. Mrs. P. W. Foley, 39 Beecher Place, Newton Center, Mass.

Corpl. Michael Gettings. Mrs. J. J. Gettings, 764 Ninth Avenue, New York, N. Y.

Corpl. James E. Howard. John J. Howard, 554 West One hundred and sixtieth Street, New York, N. Y.

Corpl. Alger Russell Hunter. Albert Hunter, R. F. D. 3, Mount Clemens, Mich.

Corpl. Edward J. McEnnis. Mrs. Mary McEnnis, Littleton, Mass.

Corpl. Kenneth A. McKenzie. J. A. R. McKenzie, Burlington, Mass.

Corpl. Thomas Manley. Henry J. Manley, 91 Jacobs Street, Malden, Mass.

Cook John F. McKeon. Edward McKeon, Main Street, Cherry Valley, Mass.

Wounded (Degree Undetermined).

PRIVATES.

Thomas J. Burges. Tom Burges, Waynesboro, Miss.

Thomas S. Catechi. K. Catechi, 948 Olney, San Francisco, Cal.

Arthur R. Hardy. Mrs. G. B. Hardy, Surrey, N. Dak.

Steve Lampas, John Lampas, 2184½ W Street NW., Washington, D. C.

James Murtha. Mrs. Julia Smith, 420 East One hundred and twenty-third Street, New York, N. Y.

Missing in Action.

Corpl. Leo F. Harvey. Mrs. Grace T. Harvey, 1705 North Fifty-fifth Street, Philadelphia, Pa.

PRIVATES.

Artie C. Bell. J. H. Bell, Brookeland, Sabine County, Tex.

John L. Bergoust. Alex Gordon, Utica, Mont.

William F. Boethin. William Boethin, Phillipsburg, Kans.

Ancel Brown. Mrs. Celesta Baity, Ridge Farm, Ill.

Gilbert Burns. Mrs. Walter Burns, 1408 East Center Street, Mahonoy City, Pa.

Matteo Calletti. Emanuel Daccarde, 175 Avenue C, New York, N. Y.

Joseph Carroll. Mrs. Thomas Carroll, 102 Sexton Street, New Britain, Conn.

Parfen Dillendike. Harry Nocok, 1437 High Park Avenue, High Park, Mass.

William F. Hayes. Mrs. Decker, 306 Connecticut Avenue, New London, Conn.

Edward Jukes. Mrs. Luella Finchauser, 119 New Hampshire Avenue, Rochester, Pa.

William W. Keeler. Mrs. Annie Keeler, Muriel Street, Clearfield, Pa.

William B. Lower. Mrs. Ada Lower, 308 Buffalo Road, Lewisburg, Pa.

Alva P. McGimsey. Mrs. Addie McGimsey, Boonville, Cal.

William E. Myers. William E. Myers, R. F. D. No. 2, Dry Ridge, Ky.

Earl E. Smith. Mrs. Mary E. Smith, R. F. D. No. 2, Punxsutawney, Pa.

Edward Truppe. Mrs. Mary Truppe, 313 Palmer Street, Elizabeth, N. J.

Prisoner.

Lieut. Edward R. Taylor. Mrs. Annie Shutt Taylor, Howard Street, Bellefonte, Pa.

SECTION NO. 2.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	7
Wounded severely	56
Died of wounds	8
Total	71

Killed in Action.

PRIVATES.

Mike Babchak. Andrew Babchak, 167 Seymour Street, Auburn, N. Y.

Paul E. Bills. Mrs. Florence Bills, 89 West Main Street, Somerset, Pa.

David E. Bonnett. Mrs. Hannah Collins, Milan, Mo.

John J. Collins. Mrs. Ellen Collins, 165 East Seventy-fifth Street, New York, N. Y.

George P. McKeon. Mrs. C. Redmond, 536 White Avenue, Brooklyn, N. Y.

Emmett J. Newcomer. A. J. Newcomer, Pipe Creek, Tex.

Frederick J. Reuter. Jacob J. Reuter, Monkton, Md.

Died of Wounds.

Corpl. Andrew F. Wagner. Mrs. Ella Wagner, 176 West Park Avenue, Elmhurst, Ill.

PRIVATES.

Joseph C. Gaudin. C. A. Gaudin, Belle Helene, Ascension, La.

Gray Hanrahan. Mrs. Mary E. Hanrahan, 218 Whitney Avenue, Bridgeport, Conn.

Harry C. Holmes. Mrs. Nettie Holmes, General Delivery, Syracuse, Kans.

Jesse Hudson. Teaman Hudson, North Chattanooga, Tenn.

Frederick D. Jones. Thomas J. Jones, R. F. D. No. 2, Ekford, Mich.

McKinley Robinson. Mrs. Jennie Reed, 525 North Fulton Street, Wanseon, Ohio.

Luigi Salinetti. Mrs. Louise Salinetti, Vittorio 5, Rome, Italy.

Severely Wounded.

PRIVATES.

Roy H. Ackerman. Mrs. Anna Ackerman, 3110 Colorado Avenue, Chicago, Ill.

James J. Bevan. Olive E. Bevan, 126 Clark Street, Port Chester, N. Y.

Paul Borders. John M. Borders, Mount Herman, Ky.

John J. Broadbrook. Mrs. Laura Broadbrook, 346 Lenox Avenue, Bridgeport, Conn.

James A. Brown. John Brown, 15 Bassett Street, Barre, Vt.

Stanford W. Burke. Mrs. Margaret A. Burke, 732 Madison Avenue, Scranton, Pa.

William Cammer. Jacob Cammer, 348 North Garfield Avenue, Scranton, Pa.

Benaga G. Carawan. James F. Carawan, Lowland, N. C.

Patrick J. Corrigan. Mrs. Anna Corrigan, 119 West Sixtieth Street, New York, N. Y.

Carlton Monroe Cowher. Theodore C. Cowher, Mapleton Depot, Pa.

Michael James Cudmore. Peter Cudmore, 33 Tayator Avenue, Binghamton, N. Y.

George A. Cypher. Mrs. Ella A. Cypher, 1 Kingsbury Street, Worcester, Mass.

John Joseph Dempsey. John J. Dempsey, 18 North Tarson Street, Philadelphia, Pa.

George A. Devoid. Mrs. Oliver Devoid, Bristol, Vt.

George Dougherty. Mrs. Thomas Dougherty, Mount Holly Springs, Pa.

Francis W. Eaton. W. D. Eaton, North Street, North Reading, Mass.

John Fay. G. W. Reynolds, 375 Bergen Street, Brooklyn, N. Y.

Raymond Flaherty. Mrs. Bridget Flaherty, 261 Eighth Street, South Boston, Mass.

William Arthur Fraker. William Fraker, R. F. D. No. 1, Newville, Pa.

James F. Garrett. Mrs. John Garrett, 133 Madison Avenue, Mount Holly, N. J.

Edward A. Ginna. Mr. Ginna, 579 Vanderbilt Avenue, Brooklyn, N. Y.

OVERSEAS CASUALTY LIST

Bernhard Goldmonz. Mrs. Johanna Goldmonz, 260 Twentieth Street, Brooklyn, N. Y.
Charley M. Grogans. Mrs. M. L. McConkey, Lafayette, Ga.
Rufus Guffey. William R. Guffey, Gabell, Ky.
Victor Hamel. Mrs. Selinia Hamel, 25 High Street, Willimantic, Conn.
Hubert H. Harris. Mrs. John A. See, General Delivery, Winnemucca, Nev.
Joseph P. Hennessey. Mrs. Patrick Hennessey, Premium Point, New Rochelle, N. Y.
William Kemok. Mrs. Marie C. Kemok, 430 King Street, East Stroudsburg, Pa.
Frank J. Keyes. Michael Keyes, 16 Harvest Street, Dorchester, Mass.
Charles E. Kittredge. Lawrence Kittredge, 54 Clinton Street, Framingham, Mass.
Terle John Leipold. John George Leipold, 198 Summer Street, Bradford, Pa.
Thaddeus S. Lewandowski. Mrs. Clemince Lewandowski, 2145 Chicago Avenue, Chicago, Ill.
Edward J. MacDonald. Mrs. Mary V. Buzzel, 31 Montvale Road, Woburn, Mass.
Arthur H. McMann. Mrs. J. H. McMann, 59 Sheppard Street, Bath, Me.
John McSparran. Mrs. Catherine McSparran, 116 Eckford Street, Brooklyn, N. Y.
Reigh A. Marietta. Mrs. George Hannon, R. F. D. No. 20, Brownsville, Pa.
Edward Martin. Mrs. Matilda Martin, 146 Charles Street, North Abington, Mass.
Andrew Nodulaztis. John Snider, R. F. D. Box 132, Fairfield, Conn.
Louis G. Renn. Mrs. May Renn, 307 Market Street, Frederick, Md.
Basil H. Rice. Mrs. Louis A. Brown, 22 Pleasant Street South, Natick, Mass.
Dominick Rogers. Mrs. Rose Rogers, 114 Spruce Street, Danville, Pa.
James J. Rooney. Mrs. Susan Rooney, 194 Highland Avenue, Malden, Mass.
William F. Ropp. John H. Ropp, Middletown, Md.
George L. Rushforth. Mrs. M. A. Rushforth, 140 High Street, Charlestown, Mass.
Oscar Leonard Sandberg. Mrs. Anna Sandberg, R. F. D. No. 2, Box 110-A, Kane, Pa.
John E. Seifried. Mrs. Helen Siefried, 3915 Fifth Avenue, Brooklyn, N. Y.
Wiley G. Sheetz. Jacob Sheetz, Idlewild, N. C.
Edward Smith. Mrs. Joseph H. Smith, 409 North Oak Street, Durand, Mich.
Mike Sushok. Alexander Sushok, 418 Fourth Avenue, Homestead, Pa.
James D. Van Tassel. James R. Van Tassel, Hallton, Pa.
Alexander B. Vartenisian. Oscar Vartenisian, Main Street, Manchester, Conn.
Frank Vennezzio. Mrs. Mattie Vennezzio, 10 Main Street, North Plymouth, Mass.
Charles Wardell. Mrs. Elizabeth Wardell, Ladd, Ill.
Irvin R. Webb. Mrs. Sarah Webb, Norfolk, Mass.
John F. Whalen. Etna House, Watertown, Mass.
George F. Wickens. John Wickens, 173 Main Street, Malden, Mass.

Previously Reported Missing in Action—Now Reported Killed in Action.

Pvt. Charles E. Kelly. John P. Kelly, 409 High Street, Meyersdale, Pa.

Previously Reported Killed in Action—Now Reported Wounded.

Pvt. Warren W. Dubbs. William H. Dubbs, 204 North Fourth Street, Emaus, Pa.

Previously Reported Missing in Action—Now Reported Wounded Severely.

Pvt. Michele Cerelli. Tony Cerelli, 918 Dukes Alley, Baltimore, Md.

Previously Reported Missing in Action—Now Reported on Duty.

PRIVATES.

John Carter. Mrs. Margaret Carter, R. F. D No. 4, Avoca, Pa.
Norman I. Harris. Mrs. Rose Harris, 1524 North Opal Street, Philadelphia, Pa.
John Novack. Miss Anna Johnson, 113 South Everett Avenue, Philadelphia, Pa.
Michael J. Walsh. Miss Catherine Walsh, 2014 Prospect Avenue, Scranton, Pa.

SERIES OF WAR LECTURES.

A series of lectures illustrated with slides on the various war activities of the United States up to this time is being prepared by George F. Zook, professor of modern European history, Pennsylvania State College. The cantonments, airplanes, the Navy, shipbuilding, the trenches, and many other features of the war are described in an interesting and instructive way. The lectures will be especially useful for the work of teachers, Y. M. C. A. secretaries, and club officials.

Each lecture is accompanied by from 45 to 65 slides, which are being sold at the nominal price of 15 cents each. The lectures and slides will be available for use about October 1. For further information address the Division of Civic and Educational Publications, Committee on Public Information, Washington, D. C.

ORDER FIXING THE PRICES OF COAL MINED

(Continued from page 5.)

UNITED STATES FUEL ADMINISTRATION,
Washington, August 15, 1918.

Applications having been made to the United States Fuel Administrator for further revision of the prices as to bituminous coal mined by the T. M. Morrison Coal Corporation and the Lone Mountain Coal Corporation at Pennington Gap, in the county of Lee in the State of Virginia, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined by the T. M. Morrison Coal Corporation and the Lone Mountain Coal Corporation at Pennington Gap, in the county of Lee in the State of Virginia, may be sold at prices not to exceed, f. o. b. cars at the mine, $2.55 per net ton for run of mine, $2.80 per net ton for prepared sizes, $2.30 per net ton for slack or screenings, plus the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m. August 19, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

U. S. FUEL ADMINISTRATION,
Washington, August 15, 1918.

Applications having been made to the United States Fuel Administrator for further revision of the prices as to bituminous coal mined by the Elkhorn City Coal Co. and the Guthrie Coal Co., in the county of Pike, in the State of Kentucky, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined by the Elkhorn City Coal Co. and the Guthrie Coal Co., in the county of Pike, in the State of Kentucky, may be sold at prices not to exceed, f. o. b. cars at the mine, $2.55 per net ton for run of mine, $2.80 per net ton for prepared sizes, $2.30 per net ton for slack or screenings, plus the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m. August 19, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

U. S. FUEL ADMINISTRATION,
WASHINGTON, *Aug. 15, 1918.*

An application having been made to the United States Fuel Administrator for a further revision of the prices as to bituminous coal mined by the Essanbee Mine Co., in the county of Vermilion, in the State of Indiana, the United States Fuel Administrator, after due consideration of such application, acting under the authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined by the Essanbee Mine Co., in the county of Vermilion, in the State of Indiana, may be sold at prices not to exceed, f. o. b. cars at the mine, $2.30 per net ton for run of mine, $2.50 per net ton for prepared sizes, $2 per net ton for slack or screenings, plus the 45-cent allowance for wage increase if the producing company is entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m. August 19, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

UNITED STATES FUEL ADMINISTRATION,
Washington, August 15, 1918.

Application having been made to the United States Fuel Administrator for further revision of the prices as to bituminous coal mined by the Bon Air Coal & Iron Corporation in the Bon Air mine, in the county of White, in the State of Tennessee, the United States Fuel Administrator, after due consideration of such application, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined by the Bon Air Coal & Iron Corporation in the Bon Air mine, in the county of White, in the State of Tennessee, may be sold at prices not to exceed, f. o. b. cars at the mine, $3.45 per net ton for run of mine, $3.70 per net ton for prepared sizes, $2.30 per net ton for slack or screenings, plus the 45 cents allowance for wage increase if the producing company is entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m. August 19, 1918.

H. A. GARFIELD,

This order to become effective at 7 a. m., August 19, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

RED CROSS HOME SERVICE

Information for Soldiers' and Sailors' Families, Issued by Department of Civilian Relief.

Disposition, After Death of Beneficiary, of Accrued Allotment and Allowance Compensation or Insurance

The Bureau of War-Risk Insurance has recently furnished information to the department of civilian relief of the Red Cross in reference to the disposition after the death of the beneficiary of the accrued allotment and allowance, compensation, or insurance. Checks for such accrued amount must be returned to the bureau and may not be cashed by the personal representatives of the deceased.

A member of the family or any other person who has borne the expenses incident to the death of the beneficiary should submit in affidavit form, supported by receipted bills, a statement of the expenses incurred on account of funeral expenses, expenses of last illness, board, rent, or other household expenses for which decedent was liable. These claims should be filed in the name of one person and should show that they are a complete schedule of all expenses for which reimbursement will be claimed.

A form for this statement prescribed by the Bureau of War-Risk Insurance is being prepared. It will contain a certificate substantially as follows:

"I certify that I am responsible for the expenses listed above (or that I have been held responsible for payment thereof); that the same constitute a complete list of all expenses incident to itemization claimed above; that they are just and reasonable; that payment has not been received; and that I am entitled to reimbursement therefor in the amount accrued and unpaid to the above-named beneficiary or allottee; and I do hereby agree and warrant that I will personally pay and discharge any and all other claims of such character not included in the above list to the extent of the pro rata share of such omitted claims in the aforesaid funds of said beneficiary or allottee."

Until these forms are ready, an informal affidavit may be used. Upon receipt of the form or informal affidavit with receipted bill attached, the Bureau of War-Risk Insurance will make an award of the amount of the accrued allotment, allowance, compensation, or insurance toward defraying these expenses. If the accrued amount is insufficient to reimburse the claimant or the several claimants for the expenses incurred, the bureau will prorate the accrued amount.

The Comptroller of the Treasury and the general counsel of the Bureau of War-Risk Insurance have rendered opinions explaining this matter. That of the general counsel is as follows:

The several items—namely, funeral expenses, expenses of last illness, etc.—mentioned in the comptroller's decisions are not payable preferentially in the order named, but are to be considered as charges against the total amount available, each of equal standing with the other. When all the claims which are recognizable under the comptroller's decisions have been presented, the total amount available should be applied to the settlement of the several claims. If the total amount available is not sufficient to satisfy the several claims, it should be divided among the claimants in proportion to their claims. If the total amount available exceeds the amount necessary to satisfy all the claims, the excess amount, in the case of allotments of pay, should be refunded to the enlisted man through his commanding officer by request to credit the amount on the succeeding pay roll, and, in the case of family allowance or compensation or insurance, should remain or be redeposited in the Treasury. No disbursement or refundment should be made until all the claims have been presented or until there is on file in the records of the bureau satisfactory proof that there are no outstanding claims recognizable under the comptroller's decisions.

Disabled Men Need Not Fear That Education Given Them in Military Hospitals Will Reduce Compensation

The education which is provided in our military hospitals, or after discharge through the Federal Board for Vocational Education, is meant entirely for the benefit of the men themselves and of the communities in which they are to live by making them more useful and more prosperous citizens. Such education is not intended to relieve the Government of any of its obligations for compensation assumed under the war-risk insurance act to men suffering from specific permanent injuries and does not have the effect of reducing such compensations.

Men who have become ill or who have been injured in the service are not discharged until all has been done for them that can be done by medical science. Until discharged they do not receive either compensation or insurance, but up to the time of discharge they continue to receive their regular pay with such allotments and allowances as may be attached thereto.

Provision is made in the war-risk insurance act for the payment of certain compensation in case of total disability, the amount of compensation depending upon the family which the disabled man may have and the nature of his injuries, and ranging from $30 to $100 a month. If the injury is both permanent and total, payments will also be made monthly on any war-risk insurance policy carried by the disabled man up to the time of his death.

For partial disability compensation is provided, which is to be a percentage of the compensation that would be payable for total disability equal to the degree of reduction of earning capacity resulting from the disability, if there is at least a 10 per cent reduction in such earning capacity.

If a man's physical condition improves, his compensation may decrease; while if his physical condition becomes worse as a result of the injury received, or disease contracted in service, his compensation may be increased, provision being made for reviewing an award from time to time as occasion may arise. But such change in a man's condition is to be clearly distinguished from change in a man's earning capacity due to his overcoming his physical handicap. It is expressly provided in the war-risk insurance act that ratings of reduction in earning capacity due to specific injuries or combination of injuries of a permanent nature shall be based as far as practicable upon the average impairment of earning capacity and not upon the impairment of earning capacity in each individual case, so that there shall be no reduction in the rate of compensation for individual success in overcoming the handicap of a permanent injury.

It is therefore clear that an enlisted man suffering from a permanent injury should take advantage of all the opportunities for education which are offered him while in the hospital, or which are offered him after discharge under the Federal vocational rehabilitation act. This latter act provides in brief that where a man after discharge is entitled to compensation under the war-risk insurance act and is unable to carry on a gainful occupation or to resume his former occupation, or to enter upon some other occupation, or is unable to continue such an occupation successfully, he shall be furnished by the Federal Board for Vocational Education with vocational rehabilitation if this is feasible. During such period of education a man is to receive the pay which he received before discharge, or the compensation which he has been receiving since discharge, whichever would be the larger amount, and his family is to receive the allotment and allowance according to the provision of the war-risk insurance act.

Payment of the Family Allowance After Discharge of Enlisted Man

The Treasury Department recently issued the following regulation relative to the payment of family allowances for one month after the enlisted man is discharged from the service:

"The provision in section 204 of the war-risk insurance act that 'the family allowance shall be paid from the time of enlistment to * * * one month after discharge from the service' is not limited by any provision as to the nature of the discharge, and the family allowance will be paid without regard to the nature of the discharge."

Apportionment of Compensation Between Widows and Children of Enlisted Men

The Treasury Department recently issued the following decision relative to the apportionment of compensation as between a widow and children not in her custody, and as between children:

"As between a widow and children not in her custody the compensation payable under section 301 of the war-risk insur- act shall be apportioned on the basis of $20 for the widow and the remainder divided between the children in equal shares.

"If there is no widow, such compensation shall be divided between the children in equal shares."

LIST OF PURCHASE ORDERS AND CONTRACTS PLACED BY THE GENERAL ENGINEER DEPOT OF THE ARMY

Contracts have been awarded by the General Engineer Depot, War Department, as follows:

August 16, 1918.

Eugene Dietzgen Co., Washington, D. C., metal erasing shields.
W. D. Campbell Co., Washington, D. C., flat-top desks.
Marshall Wells Hardware Co., Duluth, Minn., stretchers and singletrees.
Wilcon, Crittenden Co., Middletown, Conn., wire rope clips.
United States Steel Products Co., Washington, D. C., black steel sheets.
Wright Wire Co., Worcester, Mass., wire rope clips.
Smith & Hemenway Co., Irvington, N. J., shoeing pincers.
American Axe & Tool Co., Glassport, Pa., brush hooks.
Burke & James (Inc.), Chicago, Ill., cameras.
National Screw & Tack Co., Cleveland, Ohio, stove bolts.
Oliver Iron & Steel Co., Pittsburgh, Pa., hot-pressed hexagon nuts.
Rudolph & West Co., Washington, D. C., cleats.
Western Electric Co., New York City, switching sets.
G. Elias & Bro. (Inc.), Buffalo, N. Y., chests.
Lockwood Mfg. Co., Cincinnati, Ohio, match boxes.

Niagara Machine & Tool Co., Buffalo, N. Y., combination snips.
Mack Axe Co., Beaver Falls, Pa., axes.
Turner, Day & Woolworth Handle Co., Louisville, Ky., ax handles.
Champion Tool Co., Meadville, Pa., blacksmith's hot chisels.
Eberhard Faber, Washington, D. C., colored pencils.

Klein-Logan Co., Pittsburgh, Pa., pinch bars.
Warner Hammer Co., Cromwell, Conn., riveting hammers.
Riter-Conley Co., Pittsburgh, Pa., oil storage tanks.
Birdsboro Steel Foundry & Machine Co., Birdsboro, Pa., belting lacing machines.
S. G. Taylor Chain Co., Chicago, Ill., hook and hoisting chains.
General Fireproofing Co., Washington, D. C., card index sections.
Heller Bros. Co., Newark, N. J., blacksmith's creasers.
Hires-Turner Glass Co., Rosslyn, Va., plate glass.

Joseph Dixon Crucible Co., Jersey City, N. J., colored pencils.
Goodell-Pratt Co., Greenfield, Mass., levels.
Rand, McNally & Co., Chicago, Ill., maps.
James H. Mann Co., Lewistown, Pa., axes.
Boker Cutlery & Hardware Co., New York City, wrought anvils.
Atlantic Mfg. Co., Wilmington, Del., blacksmith's aprons.
A. B. Dick Co., Washington, D. C., dermatype stencil paper.
American Lead Pencil Co., Washington, D. C., colored pencils.
Baldwin Tool Works, Parkersburg, W. Va., shovels.
The Fairbanks Co., Washington, D. C., shank drills.
Verona Tool Works, Verona, Pa., sledge hammers.

The W. Bingham Co., Cleveland, Ohio, soft steel.
Bethlehem Steel Co., Washington, D. C., I beams.
United States Steel Products Co., Washington, D. C., I beams.
Seymour Mfg. Co., St. Louis, Mo., augers.
Jones & Laughlin Steel Co., Washington, D. C., I beams.
Samson Cordage Works, Boston, Mass., chalk lines.

American Logging Tool Co., Evart, Mich., cant hooks.
Weibusch & Hilger Co. (Ltd.), New York City, bicycle wrenches.
Lackawanna Steel Co., Buffalo, N. Y., I beams.
Trimont Mfg. Co., Roxbury, Boston, Mass., pipe cutters.
J. W. Hunt & Co., Washington, D. C., lamp black and turpentine.
Vichek Tool Co., Cleveland, Ohio, ball peen hammers.

Important Notice to U. S. Purchasing Agents

Purchasing agents for the various Government departments and the special United States war administrations are earnestly reminded to send to the Official U. S. Bulletin at the earliest possible moment all copy for bids to be advertised and purchase awards, in order that these may be promptly and correctly printed in the Bulletin in accordance with the orders of the Secretary of War and other heads of departments.

The task of preparing this copy for publication, with a view to absolute correctness and continuity, is a considerable one, but, with the cooperation of the purchasing agencies, should result in a great help, not only to the departments themselves, but to bidders throughout the country, all of whom, through the medium of the Official Bulletin, are desirous of keeping informed of the Government's needs.

Buffalo Forge Co., Washington, D. C., forges.
Eastern Steel Co., Pottsville, Pa., I beams.
National Bolt & Nut Co., Pittsburgh, Pa., hexagon nuts.
The Chase Foundry Co., Columbus, Ohio, rail laying cars.
Hibbard-Spencer Bartlett Co., Chicago, Ill., lumber crayons.
Jackson Mfg. Co., Harrisburg, Pa., tubular barrows.

August 17, 1918.

Edward R. Ladew Co. (Inc.), Glen Cove, N. Y., leather belting.
Barber-Greene Co., Aurora, Ill., electric belt conveyers.
Bradlee & Co., Philadelphia, Pa., hoisting chains.
Virginia Leather Co., Richmond, Va., tanned leather belts.
Baltimore & Belting Co., Baltimore, Md., double leather belts.
Steiner & Voegetly Hardware Co., Pittsburgh, Pa., hand reamers.
Standard Crayon Mfg. Co., Danvers, Mass., carpenter's chalk, blue.
Lockwood Mfg. Co., Cincinnati, Ohio, boxes, match.

Joseph Dixon Crucible Co., Jersey City, N. J., colored pencils.
Heller Bros. Co., Newark, N. J., farrier's knives.
Smith & Hood, Philadelphia, Pa., forge fire shovels.
Peck, Stow & Wilcox Co., Southington, Conn., miscellaneous hardware.
The Link-Belt Co., Chicago, Ill., locomotive cranes.
The Hukill-Hunter Co., Pittsburgh, Pa., carbon drills.
The W. Bingham Co., Cleveland, Ohio, soft steel.
Somers, Fitler & Todd Co., Pittsburgh, Pa., twist drills.
Manhattan Rubber Mfg. Co., Passaic, N. J., fire hose.
Evansville Tool Works, Evansville, Ind., sledge hammers.
U. S. Steel Products Co., Washington, D. C., steel wire.
George L. Lyon, Milford, N. Y., tire measuring wheels.
J. W. Paxon Co., Philadelphia, Pa., floor reamers and foundry riddles.
Burke & James (Inc.), Chicago, Ill., cameras.

Clyde Iron Works, Duluth, Minn., hoists.
Smith & Hood, Philadelphia, Pa., forge fire shovels.
Champion Tool Co., Meadville, Pa., hot chisels.
Bethlehem Steel Co., Bethlehem, Pa., latches.
Cambria Steel Co., Washington, D. C., I beams.
Eagle Pencil Co., Washington, D. C., colored pencils.
H. H. Mayhew Co., Shelburne Falls, Mass., hand center punches.
The Baldwin Locomotive Works, Philadelphia, Pa., castings (sets).
Defiance Pressed Steel Co., Defiance, Ohio, book boxes.
John B. Black Co., Chester, Pa., hatchets.
Greenfield Tap & Die Corporation, Greenfield, Mass., tap wrenches.
Miller Bros. Cutlery Co., Meriden, Conn., knife erasers.
Sperry Gyroscope Co., Brooklyn, N. Y., high intensity lamps.
Boston Woven Hose & Rubber Co., Boston, Mass, air hose.
The Herschede Hall Clock Co., Cincinnati, Ohio, pocket sextants.
Republic Rubber Co., Washington, D. C., rubber-lined fire hose.
The Globe-Wernicke Co., Washington, D. C., typewriter chairs.
Georgia-Florida Yellow Pine Emergency Bureau, Jacksonville, Fla., rough yellow pine.
Greenlee Bros. & Co., Rockford, Ill., draw knives.
C. C. C. Fire Hose Co., Canton Junction, Mass., fire hose.
Dodge Sales & Engineering Co., Philadelphia, Pa., cold rolled shafting, wood pulleys, etc.
Bethlehem Steel Co., Washington, D. C., steel rails.
Geo. B. Carpenter Co., Chicago, Ill., triple steel blocks.

August 19, 1918.

Henry Disston & Sons, Tacony, Philadelphia, Pa., files.
Western Block Co., Lockport, N. Y., metal-lined bushed sheaves.
Mark Mfg. Co., Evanston, Ill., washer well points.
Steger & Sons Piano Mfg. Co., Steger, Ill., boxes.

NAVY DEPARTMENT CONTRACTS PLACED BY BUREAU OF SUPPLIES AND ACCOUNTS

The Bureau of Supplies and Accounts of the Navy Department has placed contracts as follows:

August 13, 1918.

40579. Radium Summer Maten Corporation, New York City, N. Y., sight attachment.
40580. Willard Storage Battery Co., Cleveland, Ohio, batteries.
40581. Taylor Instruments Co., Rochester, N. Y., battery sets.
40589. Bethlehem Steel Co., South Bethlehem, Pa., track spikes.
40590. Semet-Solvay Co., Detroit, Mich., coke.
40596. Brown & Sharpe Manufacturing Co., Providence, R. I., grinding machine.
40597. Becker Milling Machine Co., Hyde Park, Mass., milling machines.
40598. Swind Machinery Co., Philadelphia, Pa., profiling machines.
40599. Sherritt & Stoer Co., Philadelphia, Pa., lathe machines.
40600. Manning, Maxwell & Moore, New York City, N. Y., grinding machine.
40601. Pratt & Whitney Co., Hartford, Conn., lathes and quills.
40602. Gleason Works, Rochester, N. Y., generator.
40603. Lodge & Shepley Machine Tool Co., Cincinnati, Ohio, engine lathes.
40604. D. Nast Machinery Co., Philadelphia, Pa., lathes.
40605. Elgin Tool Works, Elgin, Ill., swing lathes.
40606. Dodge Bros., Detroit, Mich., roadster.
40607. Plouff Co., Boston, Mass., bushings and tees.
40608. Brown & Sharpe Manufacturing Co., Providence, R. I., screws, machine.
40609. U. S. Light & Heat Corporation, Niagara Falls, N. Y., storage batteries.
40610. Philadelphia Storage Battery Co., Philadelphia, Pa., storage batteries.
40611. Vandyck Churchill Co., Philadelphia, Pa., cornice brakes.
40612. Southern State P. C. Co., Rockmont, Ga., cement.
40613. Mueller Machine Tool Co., Cincinnati, Ohio, drill.
40615. E. I. Franklin & Co., Attleboro, Mass., boatswain calls.
40617. Clarence S. Nathan (Inc.), New York City, N. Y., pamphlets.
40618. Ex-Fire Appliance Co., Columbus, Ohio, extinguishers.
40619 and 40620. International Nickel Co., Bayonne, N. J., nickel.
40621. S. Obermyer Co., Chicago, Ill., laundry equipment.
40622. Henry Disston & Seur (Inc.), Philadelphia, band saws.
40623. J. A. Fay & Egan Co., Cincinnati, Ohio, motor-driven saw bands.
40624. H. Barrett & Co., selling agents for Toledo Furnace Co., Toledo, Ohio, Solva naphtha.
40625. H. Barrett & Co., selling agents for Colorado Fuel & Iron Co., Denver, Colo., Solva naphtha.
40626. H. Barrett & Co., selling agents for Allegheny By-Products Coke Co., Glassport, Pa., Solva naphtha.
40627. H. Barrett & Co., selling agents for United Furnace Co., Canton, Ohio, Solva naptha.
40628. H. Barrett & Co., selling agents for Inland Steel Co., Indian Harbor, Ind., Solva naptha.
40629. H. Barrett & Co., selling agents for Indiana Coke & Gas Co., Terre Haute, Ind., Solva naptha.
40630. Vulcan Iron Works, Wilkes-Barre, Pa., locomotives.
40633. Seymour Manufacturing Co., Seymour, Conn., sheets, german silver.
40634. A. W. Burritt Co., Brigeport, Conn., box lumber.
40635. Hamilton Ridge Lumber Co., Richmond, Va., box lumber.
40636. Lansing Co., Lansing, Mich., concrete mixer.
40637. Texas Machine Tool Co., Cleveland, Ohio, boring machines.
40638. Pratt & Whitney Co., Hartford, Conn., propelling machines.
40639. Van Norman Machine Tool Co., Springfield, Mass., duplex machines.
40640. H. K. Porter Co., Pittsburgh, Pa., locomotives.
40641. Jefferson Lumber Co., Birmingham, Ala., yellow pine.
40642. Henderson Molpus Co., Philadelphia, Miss., yellow pine.
40643. C. W. Learey, Greenville, Ala., yellow pine.
40644. Midvale Steel & Ordnance Co., Washington, D. C., steel plates.
40645. Carnegie Steel Co., Washington, D. C., rivet steel.
40646. Carnegie Steel Co., Washington, D. C., steel.
40647. Brown & Sharpe Manufacturing Co., Providence, R. I., cutting machines.
40649. H. B. Davis Co., Baltimore, Md.
40650. Sherritt & Stoer Co., Philadelphia, Pa., grinding machines.
40651. Kemp Machinery Co., Baltimore, Md., engine lathes.
40652. Christinsen Lumber Co., San Francisco, Cal., P. O. cedar.

August 14, 1918.

40653. Schaeffer & Budenby, Brooklyn, N. Y., tachometers.
40654. L. S. Starrett Co., Athol, Mass., gauges.
40661. Potter & Johnston Machine Co., Pawtucket, R. I., chucking maehine.
40662. Dayton Engineering Laboratory, Dayton, Ohio, Delco lighting.
40666. Kelly Springfield Motor Truck Co., Springfield, Ohio, motor trucks.
40667. Oliver Machinery Co., New York City, lathe gap.
40668. American Brass Co., Waterbury, Conn., brass and copper tubes.
40669. F. W. Wakefield Brass Co., Vernbro, Ohio, blinkers, tubes.
40670 and 40671. Buffalo Gasoline Motor Co., Buffalo, N. Y., generating sets.
40672. Little Giant Punch & Shear, Sparta, Ill., punches.
40673. Fred. C. Meyer & Co., Philadelphia, Pa., cellos and base violins.
40676. American Lubricating Co., Detroit, Mich., oil cups.
40677. American Conduit Manufacturing Co., New Kinsington, Pa., conduit steel.
40678. Fort Pitt Rivet Co., Pittsburgh, Pa., steel rivets.
40679. Snyder Electric Heating Co., Cambridge, Mass., electric heated clothing.
40680. H. K. Porter Co., Pittsburgh, Pa., locomotives.
40681. Pittsburgh Screw & Bolt Co., Pittsburgh, Pa., rivets.
40682. Carnegie Steel Co., Washington, D. C., steel plates.
40683. Keyless Auto Clock Co., New York City, aero watches.
40684. Taylor Instrument Co., Washington, D. C., barometers.

August 15, 1918.

40685. Colorado Portland Cement Co., Denver, Colo., cement.
40687. A. E. Moeller, Brooklyn, N. Y., battery-testing sets.
40691. Osborne Paper Co., Philadelphia, Pa., toilet paper.
40693. American Metal Hose Co., Waterbury, Conn., fuel-oil hose.
40694. Thomas Morse Co., Ithaca, N. Y., pontoons.
40695. N. W. Greenhut Co., New York City, blankets.
40696. Santa Cruz P. C. Co., San Francisco, Cal., cement.
40698. Edward Miller & Co., New York City, oil burners.
40699. Robert Findlay Manufacturing Co., New York City, burners and lights.
40700. Macbeth Evans Glass Co., New York City, chimneys.
40701. Universal Met. Spin. & Stamp. Co., New York City, domes, fonts, lights.
40702. Isidor Blickman, New York City, fonts.
40703. F. W. Wakefield Brass Co., Vermilion, Ohio, fonts.
40704. Perkins Marine Lamp Co., Brooklyn, N. Y., miscellaneous.
40705. S. Neath Glass Co., Hartford City, Ind., lens oil.
40706. Vogel Stamping Co., Brooklyn, N. Y., lights.
40707. S. Blickman, New York City, miscellaneous.
40708. Cleveland Welding Co., Cleveland, Ohio, bands.
40709. Manning, Maxwell & Moore, New York City, wood trimmers.
40710. Manning, Maxwell & Moore, New York City, pipe-cutting machines.

LIST OF PURCHASE CONTRACTS MADE BY BUREAU OF AIRCRAFT PRODUCTION

The following is a list of purchases contracted for by the Bureau of Aircraft Production:

[NOTE.—The first number at the beginning of each paragraph is the ORDER NUMBER, the second the CONTRACT NUMBER.]

August 12, 1918.

30011–A–1. 1867–D. Wright-Martin Aircraft Corporation, New Brunswick, N. J., 2,000 Hispano Suiza 300-horsepower engines.
380627. 4455. Curtiss Aeroplane & Motor Corporation, Buffalo, N. Y., plain hexagon head bolts with castellated nuts.
380662. 4457. Curtiss Aeroplane & Motor Corporation, Buffalo, N. Y., machine bolts and castellated nuts.
380678. 4470. Armstrong Bros. Tool Co., Chicago, Ill., 2,400 structural wrenches, 100 C clamps.
710125. 4464. Hoosier Veneer Co., Indianapolis, Ind., 17,000 fet walnut lumber.
710126. 4462. Pickrel Walnut & Veneer Co., St. Louis, Mo., 40,000 feet walnut lumber.
710127. 4476. George W. Hartzell, Piqua, Ohio, 95,000 feet walnut lumber.
710128. 4479. Des Moines Sawmill Co., Des Moines, Iowa, 500,000 feet walnut lumber.
720137. 4460. Howell & Lesser, San Francisco, Cal., spares for 75 JN4D planes, elevators, landing gears, rudders, wings, etc.
720245. 4471. Curtiss Aeroplane & Motor Corporation, Buffalo, N. Y., sets dual controls for 436 JN6H advanced training planes.
720269. 4459. Curtiss Aeroplane & Motor Corporation, Buffalo, N. Y., 91 sets dual controls for JN4D planes.
720274. 4461. F. A. Requarth Co., Dayton, Ohio, 75 gear training models.
720276. 4463. United States Aircraft Corporation, Redwood City, Cal., spares for 50 JN4D planes, elevators, vertical fins or stabilizers, landing gears, rudders, wings, etc.
720278. 4468. Curtiss Aeroplane & Motor Corporation, Buffalo, N. Y., 26 sets upper wings, with ailerons.
730155. 4433. General Motors Corporation, Flint, Mich., 5,000 Liberty right cylinder motors.
730187. 4469. Packard Motor Car Co., Detroit, Mich., 100 Liberty 12-cylinder aviation engines.
810017. 4465. Norwich Chemical Co., Smethport, Pa., 4,500 gallons acetone.
810018. 4466. W. S. Gray & Co, New York City, 5,000 gallons methyl ethyl ketone.
810019. 4467. American Cyanamid Co., New York City, 2,350 pounds urea in containers.

SERVICE BUREAU
. . . OF THE . . .
COMMITTEE ON PUBLIC INFORMATION
FIFTEENTH AND G STREETS
WASHINGTON, D. C.
Information available as to Officials, Functions, and Location of all Government Departments

Health Conditions at Army Camps Within the United States as Reported to the Surgeon General for Week Ending August 16

The War Department authorizes the following:

Herewith is a detailed report on the health conditions of troops in the United States (including Porto Rico) for the week ending August 16. The report of the Division of Sanitation to the Surgeon General of the Army for that week is as follows:

1. General.—Admission and noneffective rates show a decrease as compared with last week. The death rate for disease (2.71) continues low and shows a decrease from last week's report (3.18). There is a slight decrease in the number of new cases of measles reported this week and an increase in the number of new cases of pneumonia and malaria. There continues to be an increase in the number of venereal diseases, 7,230 cases being reported this week, as compared with 6,797 for last week. Of the venereal diseases reported this week 94.2 per cent are reported as having been contracted prior to arrival at camp. There were 335 new cases of pneumonia this week, as compared with 260 last week, an annual rate per 1,000 of 10.8 this week, as compared with 8.4 last week.

2. Divisional camps.—The death rate from disease from camps of this group is remarkably low (1.61). Camp Cody continues to show the lowest sick rates of camps of this group (admission 418.9 and noneffective of 16.5). There were 115 new cases of measles reported from all divisional camps, Camp Sheridan leading with 42 and Shelby with 35 new cases. Of the 54 new cases of malaria reported 26 were from Camp Shelby; no other camp had over 6 cases. The greatest number of cases of pneumonia in any camp was 7.

3. Cantonments.—Camps Funston and Grant, each with a command of 50,000, show an unusually low sick rate, Camp Funston having an admission rate of 463.5 and a noneffective of 12.3, and Grant an admission rate of 296.1 and a noneffective of 13.3. Camp Gordon shows the highest sick rate of all camps of this group.

There was an increase in the number of cases of pneumonia, 251 cases being reported this week against 179 last week. Camp Gordon reports 77 new cases this week against 30 last week. Camp Travis reports 35 new cases this week, Pike 26, and Dodge and Las Casas each 19 new cases, Funston 15, and Taylor 10. Of the 83 new cases of malaria reported this week, Camp Gordon reported 28 and Camp Pike 23; no other camp had over 8 cases.

4. Departmental and other groups.—The sick rates from the stations of this group continue to be the lowest. There is no unusual prevalence of disease reported at any of the stations.

Summary.

Troops.	Noneffective rate.		Admission rate for disease.		Death rate.			
					All causes.		Disease only.	
	This week.	Last week.	This week.	Last week.	This week.	Last week.	This week.	Last week.
Divisional camps	43.7	42.0	25.0	25.7	1.7	4.3	1.6	2.7

[1] First figure in this column for each camp gives the total number of new cases during the week; the figure in parenthesis is the number of those cases which were contracted during the week by men in that camp's command at the time of contracting the disease—the difference, therefore, is the number of cases first reported during the week which were either (a) cases brought from civilian life by recruits, or (b) cases brought by men transferred from other camps to the camp under which the case is reported, or (c) old cases which have previously evaded detection. An interrogation point signifies that the report from that camp did not segregate cases contracted at the camp from other cases.

NOTE.—Five new cases of typhoid fever also reported from Camp Lee, 1 from Wadsworth, 1 from Devens, 1 from Greene, 1 from Gordon, 1 from Shelby, 1 from Eastern Department and 1 from Central Department.

Causes of deaths by camps.

Camp or department.	No. of deaths.	Causes.
Merritt	0	
Stuart	4	Pneumonia, 3; sunstroke, 1.
Aviation camps	19	Traumatism, 13; drowning, 1; toxemia, 1; peritonitis, 1; anthrax, 1; embolism, 1; cause not reported, 1.
Eastern	3	Fracture of skull, 1; cardiac dilitation, 1; septicemia, 1.
Northeastern	0	
Southeastern	1	Uremia, 1.
Southern	7	Pneumonia, 3; fractured skull, 1; traumatism, 2; suicide, 1.
Central	3	Paresis, 1; pneumonia, 1; septicemia, 1.
Western	0	
Beauregard	0	
Bowie	0	
Cody	0	
Greenleaf	2	Pneumonia, 1; suicide, 1.
Fremont	0	
Greene	0	
Hancock	2	Pneumonia, 1; appendicitis, 1.
Kearney	1	Meningitis, 1.
Logan	0	
McArthur	2	Meningitis, 1; heart disease, 1.
McClellan	0	
Sevier	0	
Shelby	0	
Sheridan	0	
Wadsworth	0	
Wheeler	3	Malaria 2; meningitis 1.

LIST OF SOLDIERS WHO DIED DURING THE WEEK

List of names of soldiers (not members of the American Expeditionary Forces) reported to The Adjutant General's Office as having died during the week ending August 16, 1918. Included in this list are the names of soldiers (not members of the American Expeditionary Forces), not previously published, who died prior to the week mentioned and subsequently to March 8, 1918. These names are indicated by an asterisk:

Camp Devens, Mass.—Recruit William Sessions, Greeleyville, S. C.

Camp Dix, N. J.—Pvt. Thomas Harrison, R. F. D. No. 6, Box 59, Henderson, N. C.; Pvt. Joseph A. Hudgins, R. F. D. No. 2, Box 13, Macon, N. C.; Pvt. Clarence Miller, 701 West Fourth Street, West Palm Beach, Fla.;* Sergt. Charles Vincent Moran, 172 Waverly Street, Buffalo, N. Y.;* Pvt. James Wright, Wake Forrest, N. C.

Camp Dodge, Iowa.—Pvt. George W. Burnett, Naylor, Mo.; Pvt. Christ S. Conrad, R. F. D. No. 2, Sterling, Ohio; Pvt. Ole Egge, Wentworth, S. Dak.; Pvt. Isam Love, Colbert, Okla.

Camp Forrest, Ga.—Pvt. Dwight L. M. Hughes, Linden, Pa.

Camp Fremont, Cal.—Pvt. Patrick H. Nalon, 54 Hospital Street, Carbondale, Pa.;* Pvt. Floyd J. Turner, Lewistown, Mont.*

Camp Gordon, Ga.—Pvt. Eulyos Denson, R. F. D. Route C, Americus, Ga.; Sergt. Jerry Lowe, Willacoochee, Ga.; Pvt. George Butler Markland, R. F. D., Shell Creek, Tenn.;* Pvt. Casa A. Nuble, Box 4, Gleason, Tenn.;* Pvt. George Washington Phillips, Senoia, Ga.*

Camp Grant, Ill.—Pvt. Obie Duncan, St. Patrick, La.; Pvt. Philip Williams, R. F. D. No. 2, Box 71, Baton Rouge, La.*

Camp Hancock, Ga.—Pvt. William J. McKenna, 17 Pine Hill Street, Lowell, Mass.;* Pvt. Herman H. Scherr, 230 East Two hundred and thirty-ninth Street, New York City, N. Y.;* Pvt. Harold H. Wood, R. F. D. No. 2, Morrisonville, Wis.*

Camp A. A. Humphreys, Va.—Pvt. Edward Morgan, Box A, Welborn, Fla.*

Camp Jackson, S. C.—Pvt. Jack Allen, New Berlin, N. C.; Pvt. Kelly Rowe, Blythewood, S. C.

Camp Kearny, Cal.—Pvt. Clarence J. Mason, 520 West, Brigham City, Utah.

Camp Lee, Va.—Pvt. Edward C. Austin, Greenlee, Va.;* Pvt. Thurman C. Fletcher, Whitacre, Va.; Pvt. Robert P. Galloway, Rosebud, Pa.; Pvt. James F. Olinger, Route No. 1, Box 36, Chatham Hill, Va.

Camp Lewis, Wash.—Pvt. William A. Gradwohl, Walla Walla, Wash.; Pvt. George Lambros, Agios, Basios, Vroceina, Patios, Greece.

Camp McArthur, Tex.—Recruit Morris F. Anderson, 2208 Indiana Avenue, St. Louis, Mo.; Pvt. Nat Hoffman, 3000 Kennis Place, Pittsburgh, Pa.;* Wagoner Harry McNeill, Blackfoot, Idaho.

Camp Merritt, N. J.—Corpl. Mathew A. Horgan, 147 Jefferson Avenue, Everett, Mass.

Camp Perry, Ohio.—Second Lieut. Robert G. Buchanan, Chattanooga, Tenn.

Camp Pike, Ark.—Pvt. Walter Angelle, Beaubridge, La.;* Pvt. Levi Brown, Wilmot, Ark.;* Pvt. Eli Cannon, R. F. D. No. 1, Hughes, Ala.; Pvt. Lee Cary, Netherland, Mo.;* Pvt. Ephrane Daly, Watson, Ark.; Pvt. Ben Ethridge, Halsel, Ala.; Pvt. John Grogan, Maple, Ark.; Pvt. John Jacoway, Stevenson, Ala.; Pvt. Rogers Meadlock, 11 Hampton Avenue, Jackson, Miss.; Pvt. Will Parker, Kokomo, Miss.; Pvt. Hayman Pelham, box 8, Fiveaugergne, Ark.; Pvt. Fate Shearer, route 1, Cotton Plant, Ark.; Pvt. Joseph Skinner, McCrory, Ark.; Pvt. Joe T. Thornton, box 4, Morrell, Ark.

Camp Sevier, S. C.—Pvt. Lucius Ray, 331 Manning Street, Sumter, S. C.*

Camp Sheridan, Ala.—Pvt. Ralph Wilbur Garner, Gas City, Ind.;* Recruit Will Hunter, Sumpter, Ala.

Camp Sherman, Ohio.—Pvt. Jesse Abshier, Lake, Spencer County, Ind.;* Recruit Samuel Gavin, 767 Hobort Street, Memphis, Tenn.; Recruit Will Riley, Sparta, Ky.; Pvt. Thorn W. Ward, 14243 Cerdorwood Avenue, Lakewood, Ohio; Pvt. James Williams, 372 Rear Allen Avenue, Memphis, Tenn.

Camp Stuart, Va.—Pvt. Harrison Keith, P. O. Box 38, Sherrell, Ark.;* Pvt. Lucius Sullivan, Greenville, Ga.*

Camp Taylor, Ky.—Pvt. Herbert William R. Boriand, 310 East Main Street, Louisville, Ky.; Pvt. Edgar Dawson, Glasgow, Ky.; Pvt. Roy H. Gray, R. F. D. No. 24, Plainville, Ill.; Pvt. Forest Wright, 44 Sixteenth Street, Bangor, Me.

Camp Travis, Tex.—Pvt. Zack Brooks, Chatfield, Tex.; Pvt. James Clemons, 717 East Mulberry Street, Sherman, Tex.; Pvt. Walter Elmore, Steel Store, Tex.; Pvt. Harvey Harper, Westmoreland, Tenn.; Pvt. Lee Murray, 1625 Burnet Street, San Antonio, Tex.; Pvt. Manuel White, jr., Minerva, Tex.

Camp Upton, N. Y.—Cook Joseph L. Jones, Hooper, Utah; Pvt. Pasquale Paschini, 71 Fourth Avenue, Long Island City, N. Y.;* Recruit Alexander Tyler, Charles City, Va.*

Camp Wheeler, Ga.—Pvt. Edwin W. Pearson, 48 East Grant Avenue, Highland Park, Mich.

Fort Bliss, Tex.—Recruit Albert Foley, Newman, N. Y.*

Fort Sam Houston, Tex.—Lieut. Col. Clarence Leroy Cole, Blue Rapids, Kans.

Fort Leavenworth, Kans.—Pvt. Charles A. McCormick, Shirley Street, Huron, Ohio.

Fort Logan, Colo.—Recruit Julius H. Meyer, Torrington, Wyo.*

Fort McHenry, Md.—Recruit Henry H. Cohen, 5791 Westminster Street, St. Louis, Mo.

Fort McPherson, Ga.—Pvt. Gen M. Taylor, Oakland, Ill.; Pvt. Henry Taylor, Colquitt, Ga.

Fort Oglethorpe, Ga.—Pvt. Rollin Burbridge, Fairplay, Ky.; Pvt. Mack McBride, Rosebud, Tex., route 1; Pvt. Thomas C. Wilson, Kasson, W. Va.*

Fort Omaha, Nebr.—Pvt. Clarence Labell, 1392 Eleventh Street, Milwaukee, Wis.

Fort Riley, Kans.—Second Lieut. Collins S. Nash, 220 East Eighth Street, Junction City, Kans.; Pvt. Allen Lablanc, 614 West Fourth Street, Crowley, La.; Pvt. George Rogers, Castlewood, S. Dak.

Fort Ringgold, Tex. Corpl. Harry Myers, 2341 North Twenty-ninth Street, Philadelphia, Pa.*

Fort Warren, Mass.—Sergt. John J. Holub, 1533 Nestrand Avenue, Brooklyn, N. Y.*

Fort Worden, Wash.—Pvt. Emil H. Wedemeyer, Adair, Iowa.

Fort Worth, Tex.—Pvt. William Robert Tunstall, Brooksfield, Mass.

Jefferson Barracks, Mo.—Recruit Warren Hamilton, Viola, Wis.

Brindley Field, N. Y.—Second Lieut. Harold F. Maxson, 528 Ven Nuys Building, Los Angeles, Cal.

Carlstrom Field, Fla.—Second Lieut. Louis Robert McGinnis, 5337 Chester Avenue, Philadelphia, Pa.; Pvt. Verl Leo Nichols, Winter Haven, Fla.

Chanute Field, Ill.—Second Lieut. John William Johnston, Traffor, Ala.; First Class Pvt. Newell Rogers, 1213 Beacon Street, Brookline, Mass.

Bellevue, Ohio.—Wagoner Edward C. Nehls, 27 Thaddeus Street, Detroit, Mich.

Blue Island, Ill.—Corpl. Joseph Gannon, 24 North Water Street, Kent Ohio.

Bristol, Pa.—Pvt. Stanley Baczkowski, 3050 Allen Avenue, Chicago, Ill.*

Brownsville, Tex.—Pvt. Joseph W. Purcell, Craigsville, N. Y.

East Potomac Park, Washington, D. C.—Pvt. Lee V. Blankenship, 2401 South Ninth Street, St. Joseph, Mo.*

Hardy County, W. Va.—Pvt. David Archibald Liller, Oldfield, W. Va.*

Hart Lake, Mich.—Corpl. Erland V. Bolm, Park River, Minn.;* Pvt. Stanley Hajtek, 2330 North Mongo Avenue, Chicago, Ill.

Hillsboro, Tex.—Pvt. James Davis, R. No. 4, Hillsboro, Tex.*

Hoboken, N. J.—Pvt. Roby Ferguson, Maravian Falls, N. C.;* Pvt. Vaden Hobbs, Clinton, N. C.;* Pvt. Will Simmons, Deverux, Ga.;* Pvt. Richard Singleton, Hinesville, Ga.*

Hot Springs, Ark.—Sergt. Anton Johnson, 3624 Marshall Street NE., Minneapolis, Minn.; Sergt. John Marine, Delphi, Ind.*

Long Branch, N. J.—Pvt. Irving Grossman, 1854 Seventh Avenue, New York City, N. Y.*

Long Beach, Cal.—Pvt. Charles L. Mowery, Baker, Oreg.*

Nashville, Tenn.—Pvt. Charles S. Nuzum, Bridgeport, W. Va.*

New Orleans, La.—Pvt. John N. Leas, 902 Jackson Avenue, New Orleans, La.*

New York, N. Y.—Sergt. David Robertson, 16 Eighth Avenue, Brooklyn, N. Y.; Pvt. Albert Lusten, R. F. D. No. 2, Baldwin, Miss.

Omaha, Nebr.—Pvt. Rayome H. McKinnon, 1004 Mason Street, Bellingham, Wash.

Otisville, N. Y.—Pvt. Leonard Gilyard, Whatley, Ala.

Pisgah Forest, N. C.—Pvt. Robert Maxwell, Rantowles, S. C.*

Plattsburg, N. Y.—Pvt. Allen G. Wise, Saluda, S. C.*

Pleasant Hill, Mo.—Pvt. Martin Caldwell, 418 Amin Street, Poughkeepsie, N. Y.

Portland, Me.—Sergt. Leo J. McLaughlin, 644 Genessee Avenue, Morrison, Ill.*

Racine, Wis.—Pvt. Christian Hjorth, 1600 Hamilton Avenue, Racine, Wis.*

Rochester, N. Y.—Pvt. William V. Shepard, 1256 St. Paul Street, Rochester, N. Y.

San Antonio, Tex.—Capt. John Vincent Kelly, 225 Summer Street, Buffalo, N. Y.*

San Francisco, Cal.—Pvt. James J. McNess, 142 McCallister Street, San Francisco, Cal.; Pvt. Harry Vollmar, Silverpeak, Nev.*

San Juan, P. R.—Recruit Eladio Santiago, Arroy, P. R.*

San Mateo, Cal.—Capt. Ross Padgitt, Waco, Tex.

South Beach, Oreg.—Pvt. Elmer M. Johnstad, Badger, Minn.*

Syracuse, N. Y.—Recruit Harry Myers, 726 Rosemary Avenue, Ambler, Pa.

Waynesville, N. C.—Sergt. Ralph J. Wadsworth, R. F. D. No. 6, Cambridge Springs, Pa.*

Yuma, Ariz.—Pvt. Harry F. Beaubien, 818 East Fifty-first Street, Chicago, Ill.*

COTTON PRICE CORRECTIONS BY WAR INDUSTRIES BOARD

The War Industries Board authorizes the following:

In accordance with the agreement between the representatives of the cotton industry and the price fixing committee, July 1, 1918, the following differentials based on the prices then agreed to have been fixed by the price-fixing committee, to remain in effect until October 1, 1918:

Shelter tent duck.

Width.	Yards per pound.	Sley and pick.	Price basis per pound.
			Cents.
35 inches	1.94	54 x 56	75
35 inches	1.94	62 x 62	78.9

NOTE.—This is a correction of price published August 7th, and should supplant the figures then published, applying to this fabric.

NEW CLOTHING BRANCH FORMED IN THE QUARTERMASTER CORPS

The War Department authorizes the following:

The Quartermaster Corps announces the establishment of a new branch in the clothing and equipage division, which is to be known as the research and specifications branch. This branch will connect the procurement of supplies with their consumption and actual use, and will also pass on all specifications submitted by procurement officers.

It is intended that this branch shall keep in touch with the actual consumption of supplies furnished by the clothing and equipage division, and all the camps and the various reclamation depots will be visited by representatives of the branch, in order to make certain that the supplies furnished are adapted to the use to which they are put and are of the proper quality.

The new branch will investigate all suggestions, will examine into the various supplies and determine whether they are of suitable quality, and will pass on all specifications submitted by the division to the equipment board. No departure from specifications in case of emergency will be made without the approval of the research and specifications branch.

The establishment of this branch is expected to prove of great value not only to the Quartermaster Corps but also to the manufacturers and contractors who are supplying equipment for the Army.

QUESTIONNAIRE TO TELEGRAPH AND TO TELEPHONE COMPANIES BY THE POSTMASTER GENERAL

TO FIX BASIS OF COMPENSATION

Inquiry Sent to Lines Taken Over by Federal Government Asks for Detailed Reports on Earnings and Expenses for Period of Years.

The Post Office Department authorizes the following:

To assist in determining the compensation to the telegraph and telephone companies taken over by the Government, Postmaster General Burleson has sent to each telephone company and each telegraph company a questionnaire prepared by the Interstate Commerce Commission at the request of the Post Office Department.

The act authorizing the President to take possession and assume control of the telegraph and telephone systems provided that just compensation to the companies shall be determined by the President. The telegraph and telephone committee which is engaged in determining a basis of compensation will make use of the information procured through these questionnaires before reporting on the subject.

Details of Inquiry.

The inquiry made of telegraph companies is as to operating revenues and operating expenses during the last six months of 1914, during the years 1915, 1916 and 1917, and the six months ending June 30, 1918; and the estimated operating revenues and expenses for the year ending June 30, 1919. Covering the same period information is sought as to telegraph and cable operating revenues, uncollectible operating revenues, taxes assignable to operations, deductions from net operating revenues, operating income, income from lease of plant, rent from lease of plant, miscellaneous rents in connection with telegraph and cable operations only; net interest on its debt, other interest deductions, dividend appropriations of income, dividend appropriations of surplus, plant and equipment installed (net); total revenues from telegraph transmission, total revenues for cable transmission, total nontransmission revenues, contract revenues; and amount of depreciation charged to operating expense account.

Basis of Compensation.

The companies are asked what basis should be used in determining just compensation, and what factors have been used in reaching conclusion in answer to this question. Full information on the subject is requested.

"Are the conditions such under your company management," is asked, "keeping particularly in mind the present and prospective cost of labor and materials, that the estimated net earnings for the year beginning July 1, 1918, will be sufficient to cover the compensation," etc. If this is not the case, the company is requested to state fully what increase in revenue is considered necessary to put the company on such a basis, and it is stated that estimates for operating expenses should be shown in budget form.

The companies are further required to state total investment in plant and equipment, capital stock outstanding, funded debt outstanding, amount of other interest-bearing securities outstanding, number of offices, miles of pole lines, miles of copper wire, and miles of iron wire.

Answers Must Be Complete.

The companies are instructed that answers should be complete; and full information as to the reasons for conclusions presented, as well as detailed information as to the records or conditions, which in the opinion of the reporting officer justify the conclusions.

The questionnaires are in a form blank to be filled out by each company and sworn to. The questionnaires addressed to telephone companies are similar in form, differing in the character of questions only in so far as the character of the service differs.

PENALTIES IMPOSED FOR VIOLATIONS OF U. S. FOOD ADMINISTRATION RULES

The Food Administration authorizes publication of the following:

For violation of the Food Administration sugar regulations the Greeley Square Hotel Co., of New York, which controls the Hotel McAlpin and a number of other large hotels and restaurants in the metropolis, has agreed to shut down for three months the confectionery department, which it runs in connection with its hotel and restaurant business, and to contribute $10,000, to be divided equally between the Red Cross and the Y. M. C. A.

Oversupply of Brown Sugar.

The company's violation lay principally in having excessive quantities of brown sugar, 170,000 pounds of which they purchased in November, principally for distribution to their employees during the sugar shortage, the company running a supply department, which sells to the employees at cost. Some excessive quantities of white sugar were found in some of the company's establishments, but these were comparatively slight. Some of the brown sugar was being used in cooking and some in the manufacture of candy, of which the McAlpin makes considerable quantities, its product having been for the most part supplied to the Army.

Not Believed Intentional.

The Food Administration believes that this was not a case of deliberate violation, but due very largely to the fact that the company did not fully realize that brown sugar is a part of the country's sugar supply, to be dealt with on the same principles as white sugar. The company's previous excellent record in cooperating with the Food Administration in the observance of wheat-saving and meat-saving regulations was also taken into account.

The brown sugar in the company's possession was sold under the direction of the Food Administration, to be refined.

Kansas City Bakers Penalized.

Penalties were voluntarily accepted by a number of bakers of Kansas City, Mo., who failed to use the required amount of substitutes in bakery products, the penalties to become effective August 5.

The following were involved: J. J. Zeph, closed four days and paid $100 to the Red Cross; Lorenzo Daleo, closed for two weeks; Fred Conte, closed for three days; Philip Shoemaker, closed for three days; Fred Zondler and J. J. Pipott, both prohibited from making any products except bread and rolls for two weeks; Mrs. Loretto Barnett, same charge, closed until September 1; J. J. Cohen, same charge, agreed to pay $25 to the Red Cross. Nine other bakers were put on probation.

Retires from Business.

Joseph Woods, a restaurant keeper, of 513 Main Street, Little Falls, N. Y., has gone out of business because he refused to square himself with the United States Food Administration. He will not be permitted to open another place until he meets his obligations to the Food Administration and gives assurances that he will obey its laws.

Woods was found guilty of violating the food rules and requested that he be permitted to contribute $25 to the Red Cross rather than have his place closed for one week. This was accepted. After paying $5 he declined to make further payment and assumed a very hostile attitude toward the Food Administration officials who had his case in charge. An unfair order was then issued against him, preventing him from buying any more supplies. He then closed his place and left Little Falls.

An order has been issued from Washington that no license be issued to Woods nor will he be able to buy food supplies until he makes amends.

LANDS RESTORED TO ENTRY.

About 15,950 Acres Withdrawn from Lincoln National Forest.

The Department of the Interior authorizes the following:

Upon the recommendation of Secretary of the Interior Lane and Secretary of Agriculture Houston, the President has signed a proclamation excluding certain areas in south-central New Mexico from the Lincoln National Forest and restoring the public lands subject to disposition within such areas to homestead entry in advance of settlement. Such lands will become subject to entry only under the homestead laws requiring residence at and after 9 o'clock a. m., October 9, and to settlement and other forms of disposition on and after October 16, 1918.

About 15,950 acres will be restored under this proclamation. These lands are chiefly surveyed and generally grazing lands with some agricultural tracts and 1,200 acres are under withdrawal for coal classification and will be subject to surface homestead entry.

For detailed information concerning these lands communications should be addressed to the United States Land Office at Roswell, N. Mex.

Contribute to the Red Cross fund.

Official U. S. Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, MONDAY, AUGUST 26, 1918. No. 396

MANY MEDIUMS OF PUBLICITY WILL BE USED TO INSURE FULL REGISTRATION OF MEN 18 TO 45

EXTENSIVE CAMPAIGN MAPPED OUT

Posters in Post Offices and Railroad Stations, Newspapers, Four-Minute Men, Preachers, and School-Teachers to Tell Men to Register.

The Official U. S. Bulletin, going to every public institution in the United States, and posted daily in 56,000 post offices, will furnish its readers with all announcements and statements that may be made from day to day bearing on the registration of men between the ages of 18 and 45 years, both inclusive, as provided in the new man-power bill.

The War Department authorizes the following from the office of the Provost Marshal General:

Practically every medium of publicity in the United States has been placed at the disposal of the Government to insure a 100 per cent registration under the new man-power bill pending in Congress.

Between the time the bill is signed and the date that will be set for registration it is the purpose to carry to every man affected by the change in the age limits of the selective draft the message that he must register.

The campaign that has been mapped out for this purpose will probably be the most intensive ever undertaken by the Government, considering the time within which it must be carried through. For it is the intention of the Provost Marshal General's office, in order to meet the pressing demands of the man-power program, not to let more than 10 days elapse, if possible, between the signing of the bill and registration day.

Plans for the Campaign.

Through the aid of the Committee on Public Information and the Council of National Defense, plans for the campaign have been laid, subject in all instances, of course, to the uncertainty concerning the exact date of the registration and to the fact that Congress might see fit to change the age limits proposed. The bill as introduced prescribes 18 to 45 years as the limits, in place of the present limits of 21 to 31 years, thus calling for the registration of all men between 18 and 45, both inclusive, unless previously registered, or approximately 13,000,000 men, as compared with the 9,586,508 en-

(Continued on page 7.)

SEAPLANE WRECKED AND CREW MISSING, RESULT OF COLLISION

The Navy Department is informed that a seaplane was wrecked and the crew of three are missing as a result of a collision with another plane about 7 o'clock Saturday night 12 miles south, southeast of Fire Island light vessel in a fog. Following the collision both planes went into a tail spin. The one commanded by Ensign H. Stevens landed immediately, and for 40 minutes searched for the survivors of the other plane, finding no trace of any of the personnel. Ensign Stevens' plane was later towed safely into port. The other plane, command by Ensign Donald C. Pero, went straight down after the collision and disappeared. The other two members of the crew, who are also missing, are W. C. Jaegel, chief machinist's mate, and F. A. Newman, machinist's mate, first class.

Mine sweepers and patrol vessels searched the vicinity for the missing men.

BUILDINGS FOR THE INSTRUCTION OF NON-COMMISSIONED OFFICERS

The War Department authorizes the following statement:

So that no time will be lost in the instruction of recruits for overseas duty, buildings are to be provided in camps for the instruction of noncommissioned officers during inclement weather. The Construction Division will erect from four to six buildings for this purpose at Camps Devens, Funston, Lewis, and Meade. Buildings may be provided at other camps later.

Modern methods of warfare will be explained to the noncommissioned officers when the weather does not permit them to be on duty in the field. They in turn will instruct their men in the points developed during the indoor lectures.

FISHING STEAMER IN DENSE FOG, GROUNDED AND SUNK SATURDAY

The Navy Department is informed that, in a dense fog, the fishing steamer *George Hudson* grounded and sank in 40 feet of water at 11.30 p. m., August 24, a mile and three-quarters southwest of Coast Guard Station No. 58, Watch Hill, R. I. The crew of 26 men were all safely landed at the Coast Guard station.

The wreck of the Brazilian vessel *Madnegada*, which was gunned by a submarine and burned August 15 about eight miles from Winter Quarter Shoals Lightship off the Maryland coast and constituted an obstruction to navigation, has been removed.

OUTPUT OF PASSENGER AUTOS FOR LAST HALF OF 1918 TO BE ONE-FOURTH OF THAT IN 1917

AGREEMENT WITH MANUFACTURERS

War Industries Board Announces Program for Curtailment of Production—Can Make No Promises As to Output Next Year.

The War Industries Board authorizes the following:

Bernard M. Baruch, chairman, and representatives of various divisions of the War Industries Board reached yesterday a satisfactory conclusion of their negotiations with representatives of the automobile industry, concerning the curtailment to be effected in the production of passenger automobiles.

The meetings in which the agreement was reached were characterized by complete harmony, Messrs. Hugh Chalmers and Albert Reeves, representing the industry, accepting without hesitation or reservation the cut suggested as one imperatively required by the demands of the Government's war program, particularly for steel, iron, coal, and labor.

Agreement Expressed in Letter.

The agreement was expressed in a letter addressed to the National Automobile Chamber of Commerce and signed by Alexander Legge, vice-chairman; Edwin B. Parker, priorities commissioner; J. L. Replogle, director of steel supply; and George N. Peek, commissioner of finished products of the War Industries Board, who served as a committee with full powers to act for the board in the automobile negotiations.

In effect the agreement provides that no manufacturer of passenger automobiles shall produce in the second half of this year more than 25 per cent of the number of cars produced by him in the entire year 1917. To effect this production, the War Industries Board will extend preference treatment to automobile manufacturers in the matter of obtaining the materials they require to "match up" the stocks now in hand, upon condition that the manufacturers subscribe to the pledges required by the priorities division of the board. There is a further condition that, in evening up their stocks and completing the cars now in process of manufacture, plants that have an excess supply of steel shall turn over to other plants that can use it such steel as may be required to complete their production and is not needed for war work.

Manufacture of Cars Next Year.

Concerning the production of passenger automobiles after December 31, 1918, the representatives of the board were

al[illegible] up permissive. Because of the [illegible] for iron, steel, and coal in the war program, the members of the committee again urged the members of the automobile industry to make all possible haste in converting their plants so that they [illegible] for direct or indirect [illegible].

The [illegible] in the industry in 1917 was roundly [illegible] a billion dollars. It was the feeling of the board that an industry of this magnitude demanded all the assistance that could be legitimately given in enabling it to clean up its stocks, and the representatives of the industry expressed their willingness to place themselves on the same basis of business sacrifice that is demanded of other industries in this period when the needs of the Government proceed all others.

Text of Letter.

Following is the full text of the letter:

"NATIONAL AUTOMOBILE
CHAMBER OF COMMERCE,
"7 East Forty-second Street,
"New York City.

GENTLEMEN: Supplementing our letter to you of the 9th inst., we beg to advise that we have now received most of the reports embodying the data and information which we requested you to furnish us, and have given these reports careful study and consideration. From them it appears that the stocks of raw materials and of semifinished materials in the hands of manufacturers of passenger automobiles, while large, are greatly unbalanced, with the result that these large stocks, aggregating approximately $150,000,000, can not be liquidated until they have been "matched up" with other materials necessary to manufacture the completed cars.

"The conclusion has been reached that it is in the public interest, as well as in the interest of your industry, that it be assisted as far as practicable, without interfering with the war program, in the liquidation of its stocks now on hand; and to that end the priorities division of the War Industries Board will accord a degree of preference designed to accomplish this result to all manufacturers of passenger automobiles who will subscribe to a pledge to be prescribed by the priorities commissioner embodying in substance the following:

"(1) That the manufacturer will limit its purchase of materials, equipment, and supplies to such as are absolutely necessary to match up its stocks now on hand.

"(2) That its production of passenger automobiles and all repair parts therefor, shall not for the six months ending with December 31, 1918, exceed 25 per cent of its production for the calendar year 1917.

"(3) That it will conserve and economize in every possible way its stocks of iron and steel and their products now in its hands, or that may come into its possession, and will release on request of the War Industries Board to such other manufacturer of passenger automobiles as may be designated by the said board such of its stocks as can be utilized by such other manufacturer and which are not required by it for either the limited production above specified or for war work.

"(4) That it will from time to time render such [illegible] of its activities under

(Continued on page 8.)

GEN. CROWDER CALLS 186,773 MEN INTO MILITARY SERVICE UNDER FOUR SELECTIVE DRAFT ORDERS

The War Department authorizes the following from the office of the Provost Marshal General:

Four separate selective-draft calls, constituting the first of the September calls, were issued Saturday night by the Provost Marshal General.

The total number of men effected is 186,773, divided as follows:

General military service:		
White	125,000	
Colored	21,270	
		146,270
Limited service:		
White	40,500	
White (military intelligence photographers)	3	
		40,503
Total		186,773

Calls By States.

The calls by States, with the camps to which the men are to be sent, follow:

GENERAL MILITARY SERVICE—WHITE.

[Entrainment September 3, 1918, to September 6, 1918.]

State.	Quota.	Camp.
Alabama	3,000	Pike, Little Rock, Ark.
Arizona	300	Kearney, Linda Vista, Cal.
Arkansas	3,000	Pike, Little Rock, Ark.
California	3,800	Kearney, Linda Vista, Cal.
Colorado	500	Funston, Fort Riley, Kans.
Connecticut	600	Devens, Ayer, Mass.
Delaware	100	Meade, Admiral, Md.
District of Columbia.	500	Lee, Petersburg, Va.
Florida	500	Jackson, Columbia, S. C.
Georgia	2,100	Gordon, Atlanta, Ga.
Idaho	700	Lewis, American Lake, Wash.
Illinois	2,000	Custer, Battlecreek, Mich.
	3,000	Grant, Rockford, Ill.
Indiana	3,300	Taylor, Louisville, Ky.
Iowa	8,000	Dodge, Des Moines, Iowa.
Kansas	4,500	Funston, Fort Riley, Kans.
Kentucky	700	Taylor, Louisville, Ky.

(Continued on page 7.)

BASIC PRICE FOR ALUMINUM IS CONTINUED UNTIL MARCH 1, 1919

The War Industries Board authorizes the following:

The President has approved an agreement made between the producers of aluminum and the price-fixing committee of the War Industries Board (after investigations by this committee in conjunction with the Federal Trade Commission as to the cost of production) that the maximum base price for aluminum of 33 cents per pound f. o. b. United States producing plants, for 50 tons and over, of ingot of 98 to 99 per cent, be continued until March 1, 1919. Differentials for sheet, rod, and wire, and differentials for quantity, for grade, and for alloys will remain those approved by the price-fixing committee of the War Industries Board as effective from June 1, 1918. Copies of the price list including differentials may be obtained upon application to the nonferrous metals section of the War Industries Board.

Effective Dates for Prices.

These prices will be effective on deliveries made during the period from September 1, 1918, to March 1, 1919, on contracts made during said period; and, furthermore, the new prices will be effective on deliveries made during said period on existing contracts which specify that the price shall be that in force at the time of delivery. Deliveries made during the period of September 1, 1918, to March 1, 1919, on other contracts shall be at the price stated in such contracts, except that on existing "direct and indirect Government contracts" containing a provision that refund is to be made of the difference between the price stated in the contract and the "Government fixed price, if as and when made" such difference shall be refunded on deliveries made during the period from September 1, 1918, to March 1, 1919, on presentation of proper proof that the purchasing government gets the benefit of the refund.

Conditions are as Formerly.

The conditions are as formerly: First, the producers of aluminum will not reduce the wages now being paid; second, aluminum shall be sold to the United States Government, to the public in the United States, and to the allied Governments at the same maximum base price; third, they will take the necessary measures, under the direction of the War Industries Board, in the distribution of aluminum to prevent it from falling into the hands of speculators, who might increase the price to the public; and fourth, they will pledge themselves to exert every effort necessary to keep up the production of aluminum so as to insure an adequate supply so long as the war lasts.

Three Red Cross Men Are Wounded by Enemy Shells

The Red Cross makes public the following:

Three American Red Cross men were wounded by enemy shells in the Franco-American counter drive late in July, one of them being slightly gassed at the same time. They are: Lieut. J. L. Butterfield, of New York City, who was leading an ambulance section; W. A. Fox, of Buffalo, ambulance driver, and Capt. George B. Karr, representative of the home communication and home service department with the ——— Division. All the men will recover.

SHOE MANUFACTURING RULES ON "COBBLING" OLD LASTS

The War Industries Board authorizes the following:

C. F. B. Stout, chief of the hide, leather, and tanning materials section of the War Industries Board, has issued the following instructions to shoe manufacturers with respect to the "cobbling" or replenishing of old lasts:

To the shoe manufacturers and allied industries:

In order that the trade may more clearly understand the recommendations issued under date of June 29, 1918, regarding lasts, we have made the following ruling regarding the remodeling of lasts:

Rules for Old Lasts.

This section rules that a shoe manufacturer may have an old last that he has discarded in his individual factory changed or "cobbled" to conform to a last of a somewhat different form which is now in regular use and was in regular use in his individual factory prior to June 29, 1918, provided this changing or remodeling is of such a character that no new style is created. The remodeled last must conform so nearly to the old style last that the same upper leather patterns, the same insole patterns, etc., may be used.

In other words, a manufacturer is simply replenishing a last that is now in use and has been in general use in his factory prior to June 29, 1918, by "cobbling" an obsolete last.

Remodeling Not Permitted.

Any remodeling of an old last into a new style last is not permitted, and no "cobbling" should be done by a shoe manufacturer that does not conform absolutely to the conditions set forth in the preceding paragraphs.

Further note that no remodeling or "cobbling" of a boot last into an oxford last, or the remodeling or "cobbling" of an oxford last into a pump last is permitted, even if the general character and style is maintained.

Class B Trucks Moving Steadily to France

The War Department authorizes the following:

The development in the production of Class B motor trucks has reached a stage where the Motor Transport Service of the Quartermaster Corps is producing and shipping overseas a steady stream of these trucks.

The first five of the Class B truck, which is a standardized truck of 3 to 5 tons capacity, were completed on January 8, 1918. The production of these trucks as of August 17, 1918, was as follows: Shipped, 3,174; completed and O. K'd, 2,404; completed but not inspected, 747; in process, 637; a total of 6,962.

GENERAL PERSHING VISITS RED CROSS HOSPITALS IN PARIS

The Red Cross makes public the following:

Gen. Pershing visited American Red Cross Hospitals Nos. 1, 2, 3, and 5 in Paris recently. In each ward he talked to the men, asked them if they were well cared for, and inquired where and how they were wounded, and to what regiments they belonged. He expressed his sympathy to scores of patients. He also talked to many of the physicians and nurses and thanked them for the hard work they had been doing in the caring for the wounded.

Praises Conduct of Men.

The general told the men that they had fought splendidly, that their country was proud of them, and that he was more than proud to command such men. No one, he said, could ask more of any fighting force than that they should do as well as those who had been in action during that trying week.

Sends Message to All.

Gen. Pershing said that he wished he could visit every man in the hospitals, but as this was impossible he authorized Maj. James H. Perkins, commissioner of the Red Cross, who accompanied him, to convey his sympathy, and to repeat the message that he could not himself convey to every man—"The American people are proud of you." The general greeted several men who had fought under him in the Philippines and in Mexico.

MONEY FOR BALLOON SCHOOL AT LEE HALL, VA., APPROVED

The War Department authorizes the following:

To complete the construction of the new balloon school at Lee Hall, Va., the allotment of $203,000 has been approved by the Assistant Secretary of War. This balloon school is for the training of officer observers in the control of artillery fire from observation balloons.

To Be Finishing School.

Lee Hall will be a finishing school for air service officers in aerial observation and will cooperate with artillery stationed there. In this manner the officers will receive actual experience in artillery fire adjustments, directing the same from observation balloons in the air, just as they will do at the front.

To Include Sixty Buildings.

The completed plans for the new school include about 60 buildings, among them a balloon shed, aero repair shop, garage, firehouse, photo laboratory, as well as mess halls, barracks, school buildings, etc.

The capacity of the school will be more than 1,000 men. Maj. Harry R. Vaughn, A. S. M. A., is the commanding officer. It is expected that the buildings will be completed and that the school will be in full operation within two months.

Easy to buy, convenient to handle, no red tape—Get a WAR-SAVINGS STAMP to-day.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers [illegible]: to every post office in the United States (to be posted daily, for the [illegible] of the public, in order of the Postmaster): to officials of the United States [illegible] and also to commercial institutions [illegible] for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily— One year $5.00
Six months 3.00
One year, postage prepaid to foreign countries 8.00
Six months, postage prepaid to foreign countries 4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communique

The following is authorized by the Secretary of War:

American Official Communique No. 102.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
August 24, 1918.

Section A.—East of Bazoches our troops slightly advanced their line. In the Vosges a hostile raid was repulsed with losses. From the other sectors held by our troops there is nothing to report.

Section B.—There is nothing to report in this section.

American Official Communique No. 103.

[illegible]
EXPEDITIONARY FORCES.

[illegible] in attempts to reach our lines. At other points occupied by our troops the day was uneventful.

[illegible]

[illegible] Revising Selling Costs.

Following the order issued by the United States Fuel Administrator, re- [illegible] and screenings at Lake Michigan and Lake Superior docks to conform with the new Ohio prices. The new prices will run until April 30, 1919.

CHAIN OF LANDING FIELDS FOR AIR PILOTS ACROSS CONTINENT

The War Department authorizes the following:

A chain of landing fields for the accommodation of air pilots is being steadily built across the continent. In a few States they already await the flyers at intervals of 100 miles.

When completed, these well-marked, safe landings will be to air pilots like water tanks to transcontinental locomotive engineers, or harbors to mariners. Besides oil and gas, the majority of the fields will supply to the pilots shelter and limited machine-shop facilities, maps, charts, and barometer and thermometer ratings. New York, Pennsylvania, Ohio, Illinois, District of Columbia, Georgia, Texas, and California have already established lines of such landing fields. Arkansas, Mississippi, Alabama, New Mexico, and Nebraska will soon be equipped.

Value of Landing Fields.

The value of permanent landing fields sufficiently close together to establish well-defined air routes across country was early established in the development of training United States flyers, and hereafter will no doubt enter largely into the location of future training fields. Flying by compass has since become an established practice, but landing fields, like beacon lights, help the pilot to pick his course, even though he has his compass. Most of the landings to-day are on Army fields, but local boards of trade, chambers of commerce, and business men's associations in rival cities and towns have begun to compete for the location of sites.

Movement Gaining Momentum.

Reports to the Division of Military Aeronautics from field officers indicate that this movement, like that which started good roads, is steadily gaining momentum, and it is confidently predicted that before another year has elapsed any aviator with an ordinary powered plane will be able to make a transcontinental flight without difficulty or inconvenience.

AIRCRAFT TECHNICAL SECTION MOVING TO DAYTON, OHIO

The Director of the Division of Military Aeronautics announces that the technical section is moving from Washington to Dayton, Ohio. This section is headed by Lieut. Col. T. H. Bane, National Army.

The technical section passes on such designs of aircraft and accessories as are submitted to it by the Bureau of Aircraft Production and outside individuals and concerns, which might be of value in relation to military aeronautics. Wilbur Wright Field, at Fairfield, Ohio, is used by this section to conduct special researches and experiments in the testing of planes and accessories.

The movement of the headquarters of the technical section to Dayton brings it in closer relation to the scene of its experiments.

GOLD IN THE FEDERAL RESERVE BANKS EXCEEDS $2,000,000,000

Increases of 81.6 millions in net deposits and of about 123 millions in earning assets, largely discounted bills, are indicated by the Federal Reserve Board's weekly bank statement issued as at close of business August 23, 1918. Gold reserves of the banks show an increase of 10.5 millions, and for the first time exceed 2 billion dollars.

Investments.—Discounted bills on hand show an increase of 108.4 millions, practically all at the New York bank. Of the total commercial paper held, $53.5 millions, or 61.2 per cent, against 58.5 per cent the week before, is representing war paper, i. e., member bank's notes and customers' paper secured by Liberty bonds and Treasury certificates. Acceptances show a net gain of 24.3 millions for the week, the New York, Boston, and Cleveland banks reporting substantial increases in their holdings of this class of paper. Following the [illegible] Treasury of a 15-million [illegible] of indebtedness held by the New York bank Government short-term securities show a decrease of 9.1 millions. Total earning assets show an increase for the week of 122.8 millions.

Deposits.—With the exception of Minneapolis and Dallas, all Federal reserve banks report substantial gains in Government deposits, the total showing an increase for the week of 77.5 millions. Members' reserve deposits decreased about 4.5 millions, while net deposits went up 81.6 millions.

Reserves.—As the result chiefly of Government operations there has been a further movement of 70 millions of reserves away from the New York bank, all the other reserve banks, except Minneapolis and Dallas, reporting considerable gains in reserves, chiefly through the gold settlement fund. The bank reserve percentage declined from 58.5 to 56.7 per cent.

Note circulation.—Federal reserve agents report an increase for the week of 44.9 millions in outstandnig Federal reserve notes. The banks show a Federal reserve note circulation of 2,032.8 millions, an increase of 47.4 millions for the week, besides an increase of about 1.7 millions in their aggregate liabilities on Federal reesrve bank notes in circulation.

Capital.—Payment for Federal reserve bank stock by newly admitted members is largely responsible for an increase of $790,000 in paid-in capital, the larger portion of this increase being shown for the Chicago bank.

Substantial increases in demand deposits in reserve cities, coupled with moderate liquidation of United States securities are indicated by the board's statement of condition on August 16 of 733 member banks in leading cities, compared with like figures for 734 banks on August 9.

Total United States securities on hand decreased 39.6 millions, of which 38.5 millions represents the decrease in Treasury certificates held. For the central reserve city banks decreases of 15.1 millions in United States bonds other than circulation bonds and of 21.9 millions in certificates are shown. Aggregate loans secured by United States war obligations show a slight decline.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

Consideration of the new man-power bill consumed the session of the Senate on Saturday. Senator Chamberlain, of the Military Affairs Committee, announced that supporters of the Nation-wide prohibition amendment, which had been scheduled for consideration to-day, had agreed to give the man-power bill the right of way and that the latter measure would again be taken up this afternoon.

Senator Borah, speaking on the bill in opposition to the drafting of youths, stated that while he favored having 4,000,000 men on the front in France by June 30, 1919, he did not believe that the formal hearings before the committee had disclosed the necessity for taking boys 18 years of age.

Senator McCumber, of North Dakota, criticized delay in the capture or destruction of the trawler *Triumph*, armed and set loose by a German submarine to prey upon American fishing vessels. Senator Penrose, of Pennsylvania, criticized the Navy Department, declaring that the submarine-chaser program had been delayed. The work of the Navy Department was defended by Senator Chamberlain, Senator Gerry, and Senator Lodge.

Lodge Republican Floor Leader.

Senator Lodge, of Massachusetts, senior Republican in point of service and ranking minority member of the Committee on Foreign Relations, was unanimously elected floor leader by the Republican members of the Senate at a meeting held by them Saturday. Senator Lodge succeeds the late Senator Gallinger, of New Hampshire, as minority leader. The Republican conference also adopted a resolution urging action at the earliest possible date on the pending suffrage amendment.

Nomination of two Marine Corps brigadier generals, John A. Lejeune and Littleton W. T. Waller, to be major generals, and of six colonels to be brigadier generals were sent to the Senate by President Wilson. The colonels named brigadiers are James E. Mahoney, Ben H. Fuller, John T. Myers, Charles G. Long, W. C. Neville, and Albertus W. Catlin. Cyrus S. Radford, assistant quartermaster with the rank of colonel, also was nominated to be a brigadier general.

Members of the Military Affairs Committee were assured by Gen. March, at their weekly conference Saturday, that stories of great unpublished casualties among the Expeditionary Forces are wholly false and that all casualties are given to the public as promptly as the cables can transmit them.

HOUSE.

The man-power bill extending the draft age limits to include all men between the ages of 18 and 45 years was adopted by the House Saturday by a vote of 336 to 2, with only minor changes from the original draft of the measure as made by the War Department. The two negative votes were cast by Representative London, of New York, Socialist, and by Representative Gordon, of Ohio, Democrat.

Chairman Dent, of the Military Affairs Committee, was defeated in a final attempt to secure the adoption of the McKenzie amendment for separate classification for youths from 18 to 20, the House rejecting by a vote of 191 to 146, a motion to recommit the bill with instructions to reinsert the amendment.

An amendment prohibiting deferred classification of Government employes on account of employment, offered by Representative Madden, of Illinois, was defeated 140 to 128.

"Work or Fight" Amendment Rejected.

A "work or fight" amendment by Representative Black of Texas, similar to one introduced in the Senate but modified to meet the objections of organized labor, was voted down, 91 to 52.

The House's action on Friday in removing the exemption of members of Congress and State legislatures from military service was reversed, and the exemption, by a vote of 143 to 89, was restored. The amendment by Representative Smith, of New York, to exempt from the draft police officers in cities of 500,000 population or more was rejected.

The excess profits schedule of the new war revenue bill was completed by the Ways and Means Committee Saturday. After 8 per cent deduction and $3,000 specific exemption, there is a 35 per cent tax on excess profits over the exemption and up to 15 per cent, 50 per cent on all between 15 and 20 per cent, and 70 per cent on all above 20 per cent on profits. Provision was made to avoid undue hardship to small concerns.

Lieut. W. W. Stanley, of the Army Engineers, submitted to the Interstate Commerce Committee the proposed distribution of the $200,000,000 asked by the War Trade Board for Government construction or improvement of power plants in war industrial centers.

SERIES OF WAR LECTURES.

A series of lectures illustrated with slides on the various war activities of the United States up to this time is being prepared by George F. Zook, professor of modern European history, Pennsylvania State College. The cantonments, airplanes, the Navy, shipbuilding, the trenches, and many other features of the war are described in an interesting and instructive way. The lectures will be especially useful for the work of teachers, Y. M. C. A. secretaries, and club officials.

Each lecture is accompanied by from 45 to 65 slides, which are being sold at the nominal price of 15 cents each. The lectures and slides will be available for use about October 1. For further information address the Division of Civic and Educational Publications, Committee on Public Information, Washington, D. C.

Are you "doing your bit" in saving food for our allies and our soldiers and sailors?

HELP OF THE NATIONAL BANKS IN THE LIBERTY BOND ISSUES

The Comptroller of the Currency announces:

The national banks of the United States have been most useful and effective instrumentalities in the placing of Liberty loans and very potent factors in insuring the success of the issues.

The records show that the total subscriptions to the three Liberty loans received through national banks aggregated more than $[illegible] out of a total of all subscriptions of $11,828,000,000. The total amount allotted to subscribers was $9,975,000,000. The bonds have been widely and thoroughly scattered among investors, and only a small portion has been retained by the national banks themselves. The effect of this distribution has been to leave the resources of the national banks free to supply the commercial and industrial needs of the country.

Holdings on June 29.

On June 29, 1918, the aggregate amount of Liberty bonds of all three issues held by national banks was $[illegible]—or 2.29 per cent of the total resources of the national banks, which on the same date amounted to $17,839,000,000.

The national banks further report that the total amount of money which they were loaning on the security of Liberty bonds of all the three issues on June 29, 1918, was only $457,000,000, or 2.56 per cent of total resources.

These figures indicate clearly that these banks have pursued a conservative policy in keeping their resources in a liquid condition, and have not overinvested in Liberty bonds, but have performed an exceedingly valuable service in effecting a broad distribution among their customers and to the public.

The banks of the country are now in a position to contribute largely of their own resources toward the purchase of Liberty bonds if there should ever be occasion to do so; but it is hoped and believed that they will be able to continue successfully their policy of aiding in the diffusion of the Liberty loans widely among the people, rather than of buying them for their own account.

Accounts on June 29.

The bonds of the three Liberty issues owned by national banks on June 29, 1918, exclusive of bonds they had sold or contracted to sell, included $62,290,000 of 3½ per cent bonds, $272,016,000 of 4 per cent bonds, and $74,553,000 of bonds of the third issue. In addition to these bonds the national banks also reported holdings of $618,766,000 of United States short-term certificates of indebtedness.

It is noteworthy that the net amount of Liberty bonds of the third issue retained by all national banks in the New England States is only $4,017,000. The amount retained by all national banks in the Eastern States, including the large cities of New York and Philadelphia, is only $55,435,000; by national banks in the Southern States, $6,162,000; and in the Middle States, $7,254,000. The national banks in the Western States have in the aggregate disposed of an amount equal to all that they subscribed for, and the net balance of the third loan kept by national banks in the Pacific States was only $2,329,000.

ORGANIZATION OF BUSINESS MEN OF NATION TO ASSIST GOVERNMENT IN CARRYING OUT WAR PROGRAM FINISHED BY WAR INDUSTRIES BOARD

The War Industries Board authorizes the following:

Systematic organization of the business men throughout the country to assist the Government in carrying out its war program has been practically completed through the War Industries Board, of which Bernard M. Baruch is chairman. For the purpose of getting the fullest results from the material and industrial resources of the Nation the country was divided recently into 20 districts or regions and a regional advisor was appointed in each.

It is their particular function to keep in touch with business men and business conditions and to inform the Government as to the supply and industrial situation in their respective districts in order that the Government purchasing agents may know where to get the best and quickest results on orders to meet war requirements.

The Regional Advisors.

These regional advisors thus serve as the points of contact between the Government and the business men of the country. They are the direct representatives of the resources and conversion section of the War Industries Board, of which Charles A. Otis is chief, and to whom their reports are made.

These reports serve not only as a basis of information to the Government, but also have led to the conversion to war work of hundreds of idle or partly idle factories throughout the country.

Now, Mr. Otis announces the appointment of the subregional chairmen, representing the business men of the various sections. They are solely representatives of business and its organizations and not of the Government, their contact with the Government coming through the regional advisors.

In the following list are the names first of the regional advisors, representing the Government through the War Industries Board, and below the subregional chairman, representing the business interests in each of the 20 regions.

DISTRICT No. 1—BOSTON.

Stuart W. Webb, regional advisor, Chamber of Commerce.

SUBREGIONAL CHAIRMEN.

E. W. Cox, Portland, Me.
R. D. Reed, Manchester, N. H.
J. G. Estey, Brattleboro, Vt.
G. S. Barton, Worcester, Mass.
E. B. Kirth, Campello, Mass.
R. Crinnel, Providence, R. I.
E. N. Kimball, Boston, Mass.

DISTRICT No. 2—BRIDGEPORT.

B. D. Pierce, regional adviser, First Bridgeport National Bank Building.

SUBREGIONAL CHAIRMEN.

Charles E. Bilton, Bridgeport, Conn.
Colonel I. M. Ullman, New Haven, Conn.
Charles L. Taylor, Hartford, Conn.
Charles C. Peck, New London, Conn.
William J. Shuart, Springfield, Mass.
Allen H. Bagg, Pittsfield, Mass.

DISTRICT No. 3—NEW YORK.

Wm. F. Morgan, regional adviser, Merchants' Association of New York.

SUBREGIONAL CHAIRMEN.

Robert Alfred Shaw, New York City, N. Y.
Richard B. Aldcroft, Bronx, N. Y.
Ray Palmer, Long Island City, N. Y.
William V. Campbell, Yonkers, N. Y.
T. F. Chadwick, Newburg, N. Y.
H. A. Schatz, Poughkeepsie, N. Y.

MANY MEDIUMS OF PUBLICITY FOR 18 TO 45 REGISTRATION

(Continued from page 1.)

rolled in the great registration of June 5, 1917.

In addition to the news information, which will be conveyed to the public in the ordinary way through the daily newspapers, following are some of the methods which will be employed to emphasize the importance of the registration:

Methods to be Employed.

All of the 55,000 post offices and the 56,000 railroad stations in the country are to be placarded with posters.

These posters, made up in the form of four-page newspapers, will go into all factories. On the first page will be messages from President Wilson, the Secretary of War, the Secretary of the Navy, and other high officials calling on the Nation to respond. On the back page will be detailed instructions for the guidance of registrants. Across the two inside pages will be spread the poster announcement of the registration date and the ages affected.

Street cars will carry card legends and posters will be pasted up in all subway and elevated stations.

Between 5,000,000 and 6,000,000 hand bills will be circulated by rural free-delivery carriers along their 11,000 routes.

Messages from Pulpits.

On the Sunday before registration day, which will be on a Saturday, clergymen from their pulpits will carry the message to their congregations.

On the Saturday preceding the registration pay envelopes in all the large factories and business establishments will carry little slips inside as reminders of the day.

School teachers, assembling their classes for the school year, will see to it that the children under their care remind their fathers and older brothers of the enrollment.

Every day during the seven days preceding registration four-minute speakers of the Committee on Public Information will explain the duties of the registrant to moving-picture audiences in cities and towns throughout the country.

Messages to Labor.

The American Federation of Labor will cooperate with messages to all labor organizations.

The Women's Division of the Council of National Defense will enlist the aid of all women to aid in the registration.

Local ad clubs in the various communities will supervise local publicity.

Each State council of defense, acting under the direction of the National Council, will work in cooperation with local chambers of commerce and State and municipal authorities.

Newspapers have been asked to use advertising space for matter to be supplied by the Committee on Public Information. Department stores have volunteered page ads.

Farm and trade papers, including weeklies, will carry especial appeals for cooperation to their readers and translators of the Committee on Public Information will furnish especially prepared material for the foreign language papers, with articles explaining the registration to the foreign born.

BUSINESS MEN ORGANIZED TO AID GOVERNMENT

FOOD ADMINISTRATION SUGAR PRICE PLAN TO STABILIZE OLD AND NEW CROP MARKETS

The Food Administration issues the following:

As a consequence of the higher price for the domestic beet and cane sugars which will be soon coming into the market, and in order to minimize the inequalities that would result from having this new domestic crop at the new price and the old foreign crop at the old price in the market at the same time, the Food Administration announces that the United States Sugar Equalization Board will on a date to be announced later purchase all sugars in the country or in transit at the old price and immediately resell them back to the holders at the new price. The exact date at which the new price will become effective has not yet been determined, nor has it been settled yet what the new price will be.

Absorbs the Excess Profit.

By this device the extra profit which would otherwise accrue to the refiners, who purchased at the old price and would sell on the basis of the new, will be absorbed by the Sugar Equalization Board, which is the Government agency charged with the equalization of sugar prices, and which is handling the machinery of sugar distribution in the country.

The Food Administration is notifying all distributers or manufacturers using sugar and all refiners of the impending change and warning the distributers and manufacturers that all their contracts should be made subject to any change in price that is authorized. It is reminding the distributers also of the rule that requires them to sell on the basis of invoice cost without regard to market or replacement value.

The price difficulty which this action is designed to meet comes about through the fact that the sugar from Cuba sent to the United States refineries and the sugar from the domestic beet and cane fields overlap in the market. The Food Administration some time ago agreed with the domestic producers that an increase of price was justified on the new crop.

Text of the Notice.

The notice being sent to the cane refiners of the country announcing this action is as follows:

"In the near future the domestic beet and cane sugar crops will be coming on the market. The increased cost of producing these crops requires an increase in the price which can be charged for refined sugar. The Food Administration feels that it will be more satisfactory if a uniform price for sugar prevails throughout the United States after allowing for freight differentials, than a two-price system such as developed last fall. In any event it is not proper to allow refiners to sell refined sugar manufactured from raws, purchased at the price of the 1917–18 Cuban crop at the higher price to be arranged for new crop domestic sugars.

Equalization of Price.

"One of the purposes for which the United States Sugar Equalization Board has been incorporated is for equalizing the price of refined sugar in cases of this kind. The Food Administration requests you to transfer to the Equalization Board all of the sugar owned by you on the date when the price is raised, and all sugar which is still due you under the contract of December 24 between the International Sugar Committee, the agents of various Cuban producers and others at cost plus a certain allowance hereafter referred to. The Sugar Equalization Board will immediately resell to you the same sugar at a price to be based on the increased price for domestic refined sugar. The entire stock of the Sugar Equalization Board is held by the Unitetd States, and any profit made on this transaction will be used by the board in paying its expenses and for equalizing sugar conditions throughout the United States.

Sale of Old Crop Sugars.

"The old crop of domestic sugars will be purchased from the producers on the present basis and will be resold to the same parties on the basis of the advanced price.

"The proposed change in price will become effective at 7 o'clock a. m. on a day to be indicated later, and will apply to all sugars then held by refiners, beet or cane sugar producers wherever located, and also to all shipments then in transit and undelivered by railroad or other carriers to purchasers of sugar, excepting only that the proposed change in price will not apply on any shipments or deliveries made before 7 a. m. on the date of its taking effect to the United States Government or its allies, or for export or overseas shipment."

The Food Administration also announces that at the same time that the new sugar price becomes effective refiners will be allowed an increased margin for cost and profit over the present margin of $1.30 a hundred pounds. The new margin will be $1.45 per hundred and will be retroactive, dating from August 1. The increase is granted on the evidence that from August 1, 1918, to January 1, 1919, the refiners will operate at a greatly reduced capacity, bringing about an increased cost per unit, due to a shorter supply of raw sugar and increased cost of labor, material, and containers.

Mr. Straus Referee.

Upon the presentation of the refiners' request for an increased margin last May, the Food Administration, after considering the matter, turned it over to the Hon. Oscar S. Straus as a referee to determine whether an increase was justified. Mr. Straus called upon the tariff commission for expert advice, and after two months' investigation by the tariff commission and study by Mrs. Straus he reported that from January 1 to July 1, 1918, the $1.30 margin gave a fair and adequate profit, and that if the conditions should remain the same for the remainder of the year no additional margin would be justified, but that the possibilities of lack of raw sugar, increase of wages, and in cost of materials, fuel, and containers would have a bearing on the proper decision, and since he could not decide upon the probability of these contingencies he referred the settlement of this matter to the Food Administration. Thereupon the Food Administration appointed a special committee to take the matter up. This committee consisted of F. W. Taussig, Theodore F. Whitmarsh, C. M. Wooley, Robert A. Taft, George A. Zabriskie, and George M. Rolph. This committee has now determined that the increased margin is justified.

WAR LABOR BOARD STATEMENT.

Did Not Pass Upon Validity of Individual Contracts in Recent Ruling.

Frank P. Walsh, joint chairman of the National War Labor Board, and Frederick N. Judson, alternate for Joint Chairman William Howard Taft, have issued the following statement with regard to the board's decision on August 21, in the case of the Smith & Wesson Co., of Springfield, Mass.

The National War Labor Board, in its recent ruling in this case, did not pass upon the validity of the individual contracts of the company with its employees, but said that whether such contracts were valid or not, a further making of them should be discontinued during the continuance of the war under the principles of the board, in the interest of industrial peace. The board also recommended for the same reason that the company should reinstate the employees who had been discharged for violation of the contracts, whether the discharge was legally valid or not under the terms of the contracts.

A Spanish order in effect on August 19 prohibits the exportation of canary seed. This order was reported by Consul General Hurst, Barcelona.—Commerce Reports.

OUTPUT OF PASSENGER AUTOS CUT

(Continued from page 2.)

oath or otherwise as may be called for by the War Industries Board.

"The War Industries Board will, in carrying into effect the terms of the pledge herein provided for, use as a basis, as far as applicable, the sworn reports recently rendered it in pursuance of its request.

"In justice to the passenger automobile industry we feel again impelled, as the situation appears to us now, to frankly repeat our statement to you of August 9, that the urgent war requirements for iron and steel are so great that the probability of your industry procuring iron and steel after January 1, 1919, for the manufacture of passenger automobiles is so uncertain that we again urge the members of your industry to as rapidly as possible utilize your facilities for the production of direct and indirect war requirements, not only in the interest of the Nation but in the interest of your industry itself. In such effort the members of your industry will have the active and whole-hearted cooperation of this board."

Only the simple life is honorable or even decent to-day.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

Army

SECTION 1, AUGUST 25, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	14
Missing in action	15
Wounded severely	111
Died of wounds	11
Died from accident and other causes	11
Died of disease	1
Wounded, degree undetermined	66
Total	169

Killed in Action.

LIEUTENANT.

James J. Mansfield. Mrs. Mary E. Mansfield, Bedford Street, Concord, Mass.

PRIVATES.

Timothy Omeara. Mrs. Bridget Omeara, Kyle Park, Borrisokome, Ireland.

Herman C. Schmeling. Mrs. Amelia Schmeling, Wauconda, Wash.

Harry J. Venneman. Mrs. Ed. Doolin, R. F. D., New Cambria, Mo.

Werner R. Wagner. John Wagner, Krupp, Wash.

Sidney Edwards. Eddie Edwards, Pinedale, Wyo.

Alfred Giordano. Teresa Adwatz, 47 Margino Street, Boston, Mass.

Bernard Gudell. Clara Pfeffer, R. F. D. 2, Box 456, Wauwatosa, Wis.

George W. League. Noble League, 2115 Rensdom Street, Indianapolis, Ind.

Joseph P. Lyons. Mrs. H. F. Hume, 812½ Second Avenue north, Great Falls, Mont.

Harold H. Mansfield. Mrs. A. C. Mansfield, Weaverville, Cal.

Joseph A. Ponczoch. Mrs. Tillie Ponczoch, R. F. D. 1, Rozellville, Wis.

Roy P. Stone. Mrs. Josephine E. Stone, 103 Central Street, Stoneham, Mass.

Iowan Tolokianik. Mrs. Anna Tolokianik, Ekatolenoslav, Yplatinen, Russia.

Died of Wounds.

LIEUTENANT.

George A. Bilsbarrow. Mrs. Flora A. Bilsbarrow, 3420 Cambridge Avenue, Maplewood, Mo.

CORPORALS.

DISPOSITION OF MONEYS OF THE NOBEL PEACE PRIZE

[PUBLIC RESOLUTION—No. 87—[illegible] CONGRESS.]

[H. J. Res. 313.]

Joint resolution providing for the disposition of moneys represented in the Alfred Bernhard [illegible] prize awarded in nineteen hundred and six.

Whereas in compliance with the expressed desire of Theodore Roosevelt Congress passed an act entitled "An act to establish the foundation for the promotion of industrial peace," approved March second, nineteen hundred and seven, [illegible] and

Whereas [illegible] appointed with power to accept from the said Theodore Roosevelt the money [illegible] awarded him in the Nobel peace prize awarded him in the year nineteen hundred and six; and

Whereas the trustees, or industrial peace committee, created under said act still has in its custody the moneys represented in the said Nobel prize, and accretions thereto, and has not found it practicable to dispose of the same in accordance with the provisions of said act: Therefore be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the industrial peace committee, created under an act of Congress entitled "An act to establish the foundation for the promotion of industrial peace," approved March second, nineteen hundred and seven, be, and they are hereby, authorized and directed to return to the Hon. Theodore Roosevelt the sum of money in its hands, principal and interest, represented in the Nobel peace prize, and placed with it in accord with the expressed desires and purposes of Theodore Roosevelt in nineteen hundred and seven.

Approved, July 12, 1918.

Leave to Attend Reunion of Spanish War Veterans

OFFICE OF POSTMASTER GENERAL,
Washington, August 19, 1918.

[illegible] No. [illegible]:

The following Executive order, issued by the President under date of June 13, 1918, is hereby promulgated for the information of employees of the Post Office Department and Postal Service:

"It is hereby ordered that all veterans of the Spanish-American war in the service of the Government of the United States who desire to attend the twentieth annual encampment of the United Spanish War Veterans to be held in Baltimore, Md., September 3, 4, and 5, 1918, shall be granted leave of absence with pay, in addition to annual leave provided for by statute, from September 3 to 5, inclusive, that they may have the opportunity to attend the encampment, and that they be granted as many more days' additional leave with pay in each case as are necessary for the journey to Baltimore, Md., and return to their posts of duty."

A. S. BURLESON,
Postmaster General.

ORDER OF THE U. S. FUEL ADMINISTRATOR CONCERNING PRICES AND GROSS MARGINS DESIGNATED BY STATE ADMINISTRATORS

UNITED STATES FUEL ADMINISTRATION,
Washington, August 16, 1918.

Order of the United States Fuel Administrator concerning retail prices and retail gross margins designated by State fuel administrators, and establishing an appeal board and rules of procedure for appeal from orders and rulings of State fuel administrators fixing such maximum retail gross margins, and vacating the order of the United States Fuel Administrator of December 8, 1917 (Statement No. 347) relative to retail prices and retail gross margins.

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs:

1. That all retail prices and retail gross margins heretofore and hereafter designated by any State fuel administrator or by any local committee with the approval of the State fuel administrator, who appointed such committee, are hereby adopted and fixed by the United States Fuel Administrator as the retail prices or retail margins for the sale of coal in the locality or by the dealers designated by such fuel administrator or local committee, subject, however, to modification either by the State fuel administrator making or approving the same or by the United States Fuel Administrator; and further subject to all orders, rules, and regulations heretofore or hereafter issued or made by the President of the United States or the United States Fuel Administrator, or by any State fuel administrator affecting the sale, shipment, or distribution of coal.

2. That any one or more persons, partnerships, firms, ascociations, or corporations feeling themselves aggrieved by any final order of the State fuel administrator establishing maximum retail gross margins or prices for coal for retail dealers shall have the right of appeal from such final order to the United States Fuel Administrator at Washington, D. C.; provided that all the facts and data concerning such prices complained of shall have first been submitted to the State fuel administrator having jurisdiction over such maximum retail gross margins or prices, and that said State fuel administrator, after considering such facts and data, has refused to modify or change to the satisfaction of the petitioner or petitioners the maximum retail gross margins or prices established.

3. That any one or more persons, partnerships, firms, associations, or corporations desiring to prosecute an appeal from a final order or a ruling of a State fuel administrator, as specified in paragraph 2, shall file a petition with the United States Fuel Administration at Washington, D. C., addressed to the United States Fuel Administrator, which shall be verified by the oath of the petitioner or petitioners, and shall set forth fully and in detail the following facts:

(a) A brief statement of the hearing or hearings had before the State fuel administrator and local fuel committees for the purpose of establishing such maximum retail gross margins or prices.

(b) A copy of the final order or ruling issued by said State fuel administrator establishing such maximum retail gross margins or prices.

(c) The objections of the petitioner or petitioners to said ruling or order of the State fuel administrator, giving all reasons for such objections.

4. That an exact copy of the petition, as required by paragraph 3 above, shall at substantially the same time that it is filed with the United States Fuel Administrator also be filed with the State fuel administrator from whose order or ruling such appeal is taken.

5. That such evidence in the way of affidavits, reports, accounts, documents, cost forms, and written statements may be offered at the hearing of the said petition as the petitioner or petitioners or any other party in interest may desire to offer and which the United States Fuel Administrator may deem necessary to require.

6. That in the event that the petitioner desires to offer oral evidence or statements, he shall file with his petition, as an exhibit, a written statement stating the substance of the proposed oral testimony or statement which he desires to offer.

7. That no change in the maximum gross retail margin or prices made by the United States Fuel Administrator upon any appeal shall affect the orders of the State fuel administrator appealed from as to sales made prior to the date of the final rulings of the United States Fuel Administrator making such changes.

8. That all appeals shall be heard in the first instance by the director of the bureau of State organizations who may, if he desires to do so, call in to join with him in hearing such appeal not more than two other members of the staff of the United States Fuel Administration at Washington, D. C., which shall be known as the appeal board.

9. That the final rulings or orders of such appeal board shall be subject to review and revision by the United States Fuel Administrator, but only upon a transcript of the entire record and all of the proceedings before such appeal board.

10. That all expenses and costs of such appeal and application for review shall be paid for by the petitioner or petitioners, and the appeal board and the State fuel administrator shall, if they deem it necessary, require cash deposits to cover all such costs and expenses.

11. That the said appeal board shall have power to make and establish rules and regulations for the purpose of carrying into effect this order.

12. That the order of the United States Fuel Administrator of December 8, 1917, relative to retail prices and retail gross margins designated by State fuel administrators or local committees (statement No. 347) is hereby revoked as of the effective date of this order.

This order shall become effective at 7 a. m. on the 17th day of August, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

PRICES FIXED FOR NUT COAL IN TWO MISSOURI COUNTIES

The United States Fuel Administration authorizes the following:

The United States Fuel Administrator having, by a regulation promulgated May 27, 1918, and combined in Publication No. 25 of the United States Fuel Administration, defined the terms "slack or screenings" and "prepared sizes" as used in the Executive order of the President dated August 21, 1917, and in the orders of the United States Fuel Administrator fixing prices of bituminous coal, and it having been provided in section 4 of such regulation that the United States Fuel Administrator, upon application from producers or consumers in any district, might establish prices for any special sizes different from those defined in said regulation, or for any mixture of sizes required for the proper distribution of coal from such district, and application having been made by producers and consumers of coal produced in the district comprising Barton and Vernon Counties, in the State of Missouri, for the establishment of prices for coal of the special sizes known as nut run, or stoker, coal and mill coal, and it having been determined by the United States Fuel Administrator that the establishment of prices for such special sizes is required for the proper distribution of coal produced in said district,

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby makes and establishes the following regulation, effective August 3, 1918, until further or other orders, and subject to modification hereafter from time to time and at any time:

Regulation fixing the prices of nut run, or stoker, coal and mill coal in Barton and Vernon Counties, Mo.

The prices of nut run, or stoker, coal and mill coal produced in Barton and Vernon Counties, in the State of Missouri, and shipped on and after the effective date of this regulation, are hereby fixed f. o. b. cars at the mine, per net ton, as follows:

Nut run, or stoker, coal	$3.05
Mill coal	2.95

H. A. GARFIELD,
United States Fuel Administrator,
By CYRUS GARNSEY, Jr.,
Assistant U. S. Fuel Administrator.

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

Supple & Ballin	Calala	4,000
Total wood delivered to date (15 ships)		53,500
Total composite delivered to date (1 ship).		4,000
Total delivered (16 ships)		57,500

Grand total deliveries of steel, wood, and composite ships, 273, of 1,685,456 deadweight tons.

The following is a list of the steel ships launched during the week ending August 17, 1918:

CONTRACT STEEL SHIPS.

Company.	Name.	Tonnage, dead-weight.
American Shipbuilding Co., Detroit, Mich.	Lake Gakona	3,500
American Shipbuilding Co., Lorain, Ohio.	Lake Deval	3,550
Columbia River Shipbuilding Corporation, Portland, Oreg.	Western Plain	8,800
Federal Shipbuilding Co., Newark, N. J.	Federal	9,000
American Shipbuilding Co., Detroit, Mich.	Lake Akira	3,550
Merchant Shipbuilding Corporation, Bristol, Pa.	Watonwam	9,000
Skinner & Eddy Corporation, Seattle, Wash.	West Hosokie	8,800
Total (7 ships)		46,800
Total launched to date (91 ships)		589,600

REQUISITIONED STEEL SHIPS.

Globe Shipbuilding Co., Superior, Wis.	Lake Medford	3,500
Total requisitioned launched to date (266 ships)		1,682,223
Grand total launched to date (357 ships)		2,271,823

WOOD SHIPS.

Seaborn Shipyards	Wakanna	3,500
Dantzler Shipbuilding & Dry Dock Co.	Boone	3,500
Total wood launched to date (148 ships)		527,100
Total composite launched to date (11 ships)		41,500
Total launched (159 ships)		568,600

Grand total steel and wood ships launched to date, 516, of 2,840,423 dead-weight tons.

Table Showing Seven Months' Exports From London to the United States

Consul General Skinner at London reports:

The aggregate of declared exports from London to the United States for the seven months ending July 31, 1918, totaled $39,671,453, compared with $96,768,793 for the same period in 1917. The principal items entering into the foregoing figures were:

Articles.	7 months ended July 31— 1917	1918
Rubber	$37,825,075	$3,732,799
Precious stones	10,793,448	10,172,947
Tin	7,550,057	2,803,558
Art	3,878,497	1,413,647
Furs	4,529,185	5,094,454
Hides	2,306,128	158,219
Tea	746,110	
Wool	907,663	7,583

The total for the month of July, 1918, reached $4,438,127, against $8,420,291 in 1917. During the month precious stones totaled $1,223,412, compared with $893,712 in June; rubber, $117,708, against $154,751; tin, $281,744, against $322,523; furs, $240,769, against $208,157; and art, $80,491, against $23,811. The aggregate for the month compares with $3,261,785 in June. There were no shipments of hides, tea, or wool, but one shipment occurred of precious metal residues valued at $147,996.—Commerce Reports.

ORDERED TO WASHINGTON.

Special Orders, No. 190:

223. Maj. Mark E. Guerin, judge advocate, will proceed to Washington, D. C., in time to report August 26, 1918, to the Judge Advocate General of the Army for duty in his office.

4 NAVY OFFICERS AND 5 MEN DIE IN SEAPLANE ACCIDENTS

The Committee on Public Information issues the following:

The Navy Department reports that an ensign and four enlisted men were killed in a seaplane accident in France on August 22 as the result of the explosion of a bomb. The dead are:

Ensign Edmund B. Barry, United States Naval Reserve Force. Father, Edmund P. Barry, 52 Cady Street, Rochester, N. Y.

Miles Henry Holley, quartermaster, second class, United States Navy. Father, Marshall J. Holley, Walton, Delaware County, N. Y.

Jesse Carter Richardson, machinist's mate, first class, United States Navy. Brother, Edward Jewette Richardson, R. F. D. No. 2, Montgomery, Ala.

Lewis Franklin Tucker, quartermaster, second class, United States Navy. Father, Martin L. Tucker, North Charlotte, N. C.

Earl Joseph Vath, electrician, third class (radio), United States Naval Reserve Force. Father, F. A. Vath, 6815 South Union Avenue, Chicago, Ill.

Accident on August 21.

Two ensigns and one enlisted man were killed in a seaplane accident in France on August 21. They were:

Ensign Arthur Lee Boorse, United States Naval Reserve Force. Wife, Mrs. Evelyn Glass Boorse, 2030 Quinlan Avenue, Birmingham, Ala.

Ensign Robert F. Clark, United States Naval Reserve Force. Father, Robert J. Clark, 94 Village Street, Dedham, Mass.

William Frederick Redman, machinist's mate second class. Mother, Mrs. Martha Jane Redman, Bladensburg, Md.

Death of Ensign Davidson.

The Navy Department has been advised of the death of Ensign Delozier Davidson, United States Naval Reserve Force, which occurred as the result of a seaplane accident in France on August 22.

Ensign Davidson was born in Elizabeth, N. J., February 23, 1893; on January 21, 1918, was appointed an ensign in the United States Naval Reserve Force, and since March 19 had been serving at a United States naval air station in France. Next of kin, mother, Mrs. Marie A. Davidson, 656 North Broad Street, Elizabeth, N. J.

Three Other Casualties.

The Navy Department reports the following casualties:

James H. Mallon, yeoman, third class, United States Navy. Fell overboard from U. S. S. *Louisville*, and was drowned. Father, Joseph Mallon, 259 West One hundred and fifty-third Street, New York.

John Milton Perry, musician, first class, United States Navy, died of abdominal wound. Father, Shubbe Perry, Monthotia, Tex.

William Hugh Sims, seaman, second class, United States Naval Reserve Force. Drowned at training camp, Key West, Fla., August 20. Mother, Mrs. Sophie Sims, Lakeland, Fla.

Additions Announced to Export Conservation List

The War Trade Board issues the following:

The War Trade Board announces, in a new ruling (W. T. B. R., 208), that further additions have been made to the Export Conservation List, effective August 24, 1918. A revised Export Conservation List, dated August 24 and containing the additions effective on that date, has been sent to all individuals and firms on the mailing list of the War Trade Board.

Additional copies of the revised list may be obtained either from the War Trade Board, Washington, D. C., or from branch offices.

5 SPECIAL ASSISTANTS NAMED TO THE CHIEF OF ORDNANCE

The War Department authorizes the following from the Ordnance Department:

Announcement is made of the appointment by Maj. Gen. C. C. Williams, Chief of Ordnance, United States Army, of five special assistants who will act for him in the general supervision of the various activities of the Ordnance Department.

Col. Guy E. Tripp, Ordnance Department, United States Army, who has been serving as chief of the production division, has been named as one of these special assistants, and has been placed in complete charge of the administration and work of the 11 district officers having supervision over the production of ordnance material in their respective sections of the country. The ordnance district chief will report directly to him. Col. C. C. Jamieson, Ordnance Department, United States Army, succeeds Col. Tripp as chief of the production division.

Special Assistants.

The other special assistants named are:

Mr. W. H. Marshall, in charge of all material excepting machine guns, rifles, pistols, and their ammunitions and accessories, and excepting also chemicals, propellants, and explosives.

Lieut. Col. Bascom Little, Ordnance Department, United States Army, in charge of machine guns, rifles, pistols, and their ammunitions and accessories.

Lieut. Col. W. C. Spruance, Ordnance Department, United States Army, in charge of chemicals, propellants, and explosives.

Lieut. Col. Ralph Crews, Ordnance Department, United States Army, in charge of matters pertaining to the interpretation of contracts, etc.

Definition of Duties.

It will be the function of Mr. Marshall and Lieut. Cols. Little and Spruance to decide all engineering, manufacturing, and inspection matters concerning the respective ordnance materials over which they will have supervision, keeping informed as to low points in the manufacturing programs for these articles, and directing appropriate steps by the proper division or divisions to overcome these low points. For example, it will be the function of Mr. Marshall to follow the artillery program through all divisions of the work, including engineering, manufacturing, and inspection, and see to it that there is no unnecessary lagging anywhere along the line. Where differences of opinion arise between the various divisions concerning artillery or other material under his supervision, it will be his function to make the proper decisions. Each of these special assistants, in turn, will keep the Chief of Ordnance constantly advised as to the progress of the various programs under their charge. Heretofore each of the divisions would report to the Chief of Ordnance. The difficulty lay in the fact that whereas the chief of the engineering division, for example, could report as to plans made in his division for all the various articles to be produced by the Ordnance Department for the Army, he could not report as to production progress on any of these articles or as to what proportion of them were meeting the standards of the inspection division and the demands of the supply division. Hereafter all this information, in coordinated form, will be available to the Chief of Ordnance through his several special assistants.

Sixth Special Assistant.

A sixth special assistant is to be appointed who will have charge of financial, accounting, and statistical matters, with authority to decide for the Chief of Ordnance all questions relating to the appropriation of money, accounting methods, financial statements, statistical reports, etc., and all differences of opinion between divisions on accounting or statistical methods, disposition of complaints, and dealing with other governmental agencies on these matters.

Lieut. Col. D. C. Seagrave, Ordnance Department, United States Army, in the capacity of secretary to the Chief of Ordnance, will be in charge of the main office and correspondence requiring the attention of the Chief of Ordnance and the executive section. Maj. Charles H. Swift, Ordnance Department, United States Army, is named in the order as assistant to Col. Seagrave.

Lieut. Col. James L. Walsh, Ordnance Department, United States Army, is placed in charge of communication by cable with Expeditionary Forces and all other confidential matters requiring the attention of the Chief of Ordnance.

FIELD QUARTERS ANNOUNCED FOR FORTY AIR SQUADRONS

The War Department authorizes the following:

Of the 40 air squadrons, whose organization was recently authorized, 4 will be located at Houston, Tex., and 36, or a training brigade of three wings, on Long Island, N. Y. The base of this Long Island training brigade, as now planned, will be Hazelhurst Field, near Mineola. The squadrons will be quartered in groups of four on nine outlying fields.

To Serve Under Field Conditions.

These squadrons are to serve under field conditions, simulating as nearly as practicable the conditions behind the lines in France. They will train as organizations, and it is hoped to furnish them completely with personnel and equipment, so that when they have finished their training in the brigade, very little additional training will be required before they take their places on the front. This will also enable them to be sent to Europe in complete squadrons instead of detachments as heretofore.

Fields on Long Island.

The outlying fields on Long Island, which will be used for the new enlarged training operations, will be Brindley Field, at Commack; Lufbery Field, at Wantaugh; Mitchel Field, at Mineola; and Henry J. Damm Field, near Babylon. Five more will be occupied eventually.

A country worth fighting for is a country worth saving for. Buy THRIFT STAMPS.

MAXIMUM PRICES ANNOUNCED ON REWORKED WOOL OR FIBER

The War Industries Board authorizes the following:

The price-fixing committee of the War Industries Board has fixed the following prices on reworked wool or fiber on sales made from August 23, 1918, to remain in effect until October 1, 1918, and thereafter, pending the compilation of data which is to be furnished by the Federal Trade Commission. These prices are net f. o. b. selling point and are to apply to sales both to the Government and to the public.

These prices include carbonizing, picking, and carding. If dyeing is added, the charge for same must not exceed 5 cents for black or O. D. (khaki) without special permit from the fiber administrator.

Table of Prices.

The maximum selling prices on reworked wool (or fiber) made from the following grades of old rags are:

	Cents per lb.
Blue serge	48½
Brown serge	58
Green serge	58
Red serge	55
Black serge	44½
White softs	86
White flannels and serges	83
White knits	92
Red knits	59
Blue knits, mixed	57
Silver gray knits	93
Brown knits	66
Fancy knits	48½
Black dressed knits	63
Light hoods	76
Light gray underwear	50
Fine white merinos	58½
Fine dark merinos	48
Coarse dark merinos, with serges	38
Coarse light merinos, with serges	50
Thibets	50½
Light skirted cloth	39
Black and white skirted cloth	42
Fine light skirted cloth	44½
Brown skirted cloth	29
Dark skirted cloth	27
Black skirted cloth	29
Blue skirted cloth	29
Tan skirted cloth	48
Light skirted worsteds	48½
Blue skirted worsteds	43
Black skirted worsteds	44½
Brown skirted worsteds	46
Dark skirted worsteds	39
Wool carpets	30
Soft black carpets	33½
Skirted delaines	36

NEW RATES ON FEEDER CATTLE FROM TEXAS TO POINTS EAST

The United States Railroad Administration authorizes the following:

Director General McAdoo announces that representatives of the live-stock interests of the Southwest have been advised that he will at once instruct that rates be published on feeder cattle from Texas to all points east, including Kentucky and Virginia. These rates will be on the basis fixed by the Interstate Commerce Commission in the Shreveport case plus the advances required by General Order No. 28, the rates for feeder cattle being 75 per cent of the beef-cattle rates.

There have not been heretofore any through rates on cattle from Texas to the southeastern territory, and these rates are to be published because of the emergency existing in the Southwest under drouth conditions, which made necessary the movement of stock out of that territory to points where feed can be found.

Official U. S. Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, TUESDAY, AUGUST 27, 1918. No. 397

BUREAU FOR SUGGESTIONS AND COMPLAINTS IS ESTABLISHED BY RAILROAD ADMINISTRATION

NOTICE BY THE DIRECTOR GENERAL

Cooperation by the Public in Pointing Out Deficiencies or Commendable Features of the Service is Desired, Says Mr. McAdoo.

U. S. RAILROAD ADMINISTRATION,
Washington, August 22, 1918.

CIRCULAR No. 50.

To promote efficiency and public convenience in the service rendered by the railroads, I have caused to be organized a "Bureau for suggestions and complaints," as more fully shown in the subjoined notice.

This bureau has been placed in charge of Theodore H. Price, actuary to the United States Railroad Administration. In this work he will have the assistance of Mr. Ballard Dunn, who is hereby appointed assistant actuary to the United States Railroad Administration.

The attached notice shall be permanently displayed in all stations and passenger coaches under control of the United States Railroad Administration, and when practicable shall also be displayed on all time-tables, dining-car menus, and other printed matter prepared for public distribution.

W. G. McADOO,
Director General of Railroads.

To the public:

I desire your assistance and cooperation in making the railroad service while under Federal control in the highest possible degree satisfactory and efficient.

Of course, the paramount necessities of the war must have first consideration.

War Needs First.

Our gallant sons who are fighting in France and on the high seas can not be adequately supported unless the railroads supply sufficient transportation for the movement of troops and war materials and to keep the war industries of the Nation going without interruption.

The next purpose is to serve the public convenience, comfort, and necessity to the fullest extent not incompatible with the paramount demands of the war.

In order to accomplish this, criticisms and suggestions from the public will be extremely helpful, whether they relate to the service rendered by employees and officials or impersonal details that may convenience or inconvenience patrons of the railroads. It is impossible for even

Submarine Chaser Sunk by Steamship's Guns; Mistaken for U-Boat

The Navy Department is informed that Submarine Chaser No. 209 was shelled and sunk by the steamship Felix Taussig at 3.15 a. m. this morning south of Long Island. In the darkness the armed guard on the steamship mistook the sub-chaser for an enemy submarine and opened fire. The commander and executive officer, and fifteen members of the crew of the submarine chaser are reported missing.

Nine of the survivors have been landed, eight at New York and one, R. A. Corcoran, at Lewes, Del.

Four of those landed were wounded:

Thomas Harran, chief boatswain's mate;

Claude Wilde, machinist's mate, second class;

Clarence S. Evans, machinist's mate, second class;

R. A. Corcoran, quartermaster, third class.

Five were uninjured:

Elmer E. Gleason, machinist's mate, first class.

Elmer S. Kirby, electrician, second class;

Claude Kalmey, quartermaster, third class;

Charles N. Thomas, seaman, second class;

George B. Weigand, gunner's mate, first class.

Vessels are searching the vicinity for other possible survivors.

HOUSING CONTRACT AWARDED.

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation announces that Edward K. Fenno, of Syracuse, N. Y., has been awarded the contract for the construction of houses at Watertown, N. Y., which will provide accommodations for 300 families.

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

UNOFFICIAL REGULATIONS FOR REGISTRATION OF MEN UNDER NEW DRAFT BILL ARE SENT OUT

IGNORANCE NO EXCUSE IS WARNING

Rules Deal With all Phases of Huge Task Connected With the Enrollment of Approximately 13,000,000 Men Under Proposed Law.

The War Department authorizes the following from the office of the Provost Marshal General:

Advance unofficial regulations for the registration of men under the act of Congress extending the draft-age limits, have been mailed out to all local draft officials by the Provost Marshal General. These regulations cover approximately 30 printed pages and deal with all phases of the gigantic task connected with the enrollment of approximately 13,000,000 men, representing the estimated total of men between the ages of 18 and 20 and 31 and 45, both inclusive, not heretofore registered and not already enlisted in the Army or Navy.

Persons Required to Register.

After quoting the language of the act fixing the new limits, the regulations at the outset give the following tentative ruling by the Provost Marshal General as to the persons required by the act to register:

"All male persons who shall have attained their eighteenth birthday and shall not have attained their forty-sixth birthday on or before the day set for registration by the President must register. The only exceptions are:

"(a) Persons, who, prior to the day set for registration by the President, have registered under the terms of the act approved May 18, 1918 (which fixed the original age limits at 21 to 30 inclusive) or under the terms of the public resolution of Congress approved May 20, 1918 (providing for the registration since June 5, 1917, of those reaching the age of 21 years), whether called for public service or not.

Service Men Exempt.

"(b) Officers and enlisted men of the Regular Army; officers appointed, and men of the forces drafted under the provisions of the act approved May 18, 1917; officers and enlisted men of the National Guard while in the service of the United States; and the officers of the Officers' Reserve Corps and enlisted men in the Enlisted Reserve Corps while in the service of the United States; and

"(c) Officers and enlisted men of the Navy and Marine Corps and officers and enlisted and enrolled men of the Naval Re-

serve Force and Marine Corps Reserve while in the service of the United States.

"Persons not subject to registration solely on account of being in the military or naval service of the United States become subject to registration and are required to register immediately upon leaving such military or naval service.

"Citizens of the United States or persons who have declared their intention to become citizens of the United States who do not register on account of absence from the territorial limits of the United States are required to register within five days after their return to the United States."

Ignorance Will Not Excuse.

The regulations then warn registrants and all other persons charged with a knowledge of the regulations that ignorance of the provisions will not excuse them.

"These regulations," it is set forth, "have the force and effect of law, and all persons required by these regulations to be registered, and all persons who may claim any right or privilege in respect of any registrant, are charged with knowledge of the provisions hereof. Failure by any person required to be registered to perform any duty prescribed by these regulations is a misdemeanor, punishable by imprisonment for one year, and may result in the loss of valuable rights and privileges and an immediate induction into the military service."

The regulations provide for the registration machinery, under the supervision in each State of the governor and adjutant general, and prescribe the functions of the local draft boards and central registration committee, the places of registration, the duties of the registrars, of the mayors, county and township clerks, of the county and city attorneys, of the agents of publicity, of the Post Office Department and postmasters, and of the Federal, State, and municipal police officials.

Use of Election Machinery.

As in the case of the first registration on June 5, 1917, use is to be made as far as is possible of the election machinery in the various States, particularly in the use of voting booths as places of registration. In cities of 30,000 population and over the local authorities are called upon to assist the local draft boards in providing places of registration and making available for such purpose public buildings under their control. As far as possible a place of registration will be provided in each of the customary voting precincts within the city, with the assistance furnished of persons ordinarily employed in setting up voting booths.

The duties of registrars and others connected with the registration are set forth in minute detail:

Registration booths will be opened to registrants at 7 a. m. on the day set for the registration and will remain open until 9 p. m. Placards explaining to registrants how questions in the registration cards are to be answered will be posted conspicuously. In each place of registration there will be a table and two chairs (one for the registrar and one for the registrant) with the necessary stationery and blank forms. Only one registrant will be permitted to approach the table at a time.

Questions will be asked of the registrants as they appear on the registration card, and registrars are especially instructed to be patient and painstaking in explaining these questions. If the registrant appears sullen, or inclined to falsify, evade, or refuse to answer, his attention is to be called to the law and the penalties prescribed for such conduct. If he continues refractory, the registrar is instructed not to delay the registration, but to take the man's name, note the witnesses to the occurrence, and, after giving one more opportunity to the man to reconsider, report the case to the chief registrar, who in turn will report it to the local boards. Failure on the part of the registrar to take this action renders him equally liable to punishment under the law and his oath of office.

Certificate for Each Registrant.

After registering each man, the registrar will make out for the registrant a certificate, which the registrant is cautioned to keep with him always.

At the close of the day, the registration cards are turned over to the chief registrar, who delivers them in person to the chairman of the local board, together with a summarization report.

On the day following the registration, the local board will cause to be numbered consecutively, beginning with number one, all the cards in its possession without attempting to arrange them alphabetically or any other way. These numbers will be the "serial numbers" for the registrants. Subsequent regulations will be issued prescribing the method of determining the "order" numbers (showing order of liability to service) and no "registration" numbers will be needed and none will be assigned. When the "serial" numbers have been assigned each board will prepare five identical lists of the names of all registrants with the "serial number" beside each name. One of these lists will be posted at the office of the board, one made accessible to the press, one sent to the adjutant general of the State, one sent to the Provost Marshal General at Washington, and one retained by the board.

It will be the duty of all registrants to ascertain their serial numbers in order that, when the drawing takes place at Washington, they will know their "order of liability" to call.

Detailed instructions are laid down for the registrars as to the registration of absentees, persons sick on registration days, and persons absent on that day from the territorial limits of the county.

POLICE MUST HELP TO ENFORCE ORDER ON REGISTRATION DAY

The War Department authorizes the following from the office of the Provost Marshal General:

Local police authorities in all parts of the country will cooperate with the Government in the enforcement of order on registration day. Regulations prescribed by the President and sent to draft officials of the various States contain the following provisions:

"On the day set for registration all Federal marshals, deputy marshals, and investigating agents, and all police officers—State, county, township, municipal, and town—of whatever grade or class, shall hold themselves in readiness to render whatever assistance may be necessary in preserving order at places of registration and in assisting in bringing about a complete registration.

"All marshals, deputy marshals, investigating agents, and police officers shall examine the registration lists and report without delay to the local boards the names of any persons known by them to have failed to register themselves when liable to registration, and it shall be the duty of local boards to report to the proper United States district attorney all cases coming to their attention of persons who have failed to present themselves for registration as required by law.

"Police officers may require any person subject to registration to exhibit his registration certificate.

"In every case in which a duly designated officer or agent refuses or fails to act, the governor, adjutant general, or member of a local board will proceed at once to name another officer or agent for such duty, and will bring the fact of such refusal or failure, and the circumstances connected therewith, to the attention of the proper United States district attorney, with a view to the institution of prosecution of such officer or agent, as provided in section 6 of the act approved May 18, 1917."

75 DEEP-SEA TRAWLERS TO BE BUILT FOR FISHING INDUSTRY

The Food Administration authorizes the following:

In order to greatly increase the production of salt-water fish and to make up for the loss in vessels and small producing units which American fisheries have suffered through the war and particularly by naval drafts, the Emergency Fleet Corporation, at the request of the United States Food Administration, will begin immediately the construction of a fleet of 75 deep-sea trawlers of the most modern type. These vessels, through arrangements with the fishing industry, will be put into operation early in 1919 on both the Atlantic and Pacific coasts.

Heavy increases in the annual production of haddock, small cod, flatfish, and other salt-water varieties will result, enabling carloads to enter all the interior markets of the country every week in the year. Stable prices will be maintained at low levels. The addition of the large catches of this fleet to the total fish supply of the Nation will effect a general lowering of prices on practically all varieties of both salt-water and fresh-water fish.

Accident on U. S. Transport In Which 8 Men Are Killed

Reports received by the Navy Department regarding the accident which occurred Saturday morning on a United States transport in port, and which resulted in the death of Delos LeRoy Peay, fireman, third class, United States Navy; six stevedores and one unidentified man, who was storing coal, state that the cause was the rupture of a steam line in a coal bunker. The ship was not injured, the report states. A court of inquiry has been ordered.

Peay, the only member of the ship's crew killed, was from Utah; next of kin, father, George T. Peay, 86 South Ninth Street, West Provo, Utah.

FACILITIES DIVISION OF WAR INDUSTRIES BOARD CREATED TO SPEED INDUSTRIAL ACTIVITY

ITS PURPOSES ARE OUTLINED

Chairman Baruch Announces New Service to Meet Demands of War Program and Needs of the Civilian Population as Well.

The War Industries Board authorizes the following:

Bernard H. Baruch, chairman of the War Industries Board, announces the authorization of a new division in the board—the Facilities Division—to which will be assigned a great deal of important work in speeding up industrial activity throughout the country to meet the demands of the war program and to supply the essential needs of the civilian population through the creation of new facilities. Conversion of existing industries into war facilities is handled by the Resources and Conversion Section, which is headed by C. A. Otis.

At the head of the new division is Samuel P. Bush, who has been directing ordnance facilities expansion for more than a year, and has held an important place in the War Industries Board since its organization. Associated with Mr. Bush will be D. R. McLennon, of Chicago, who has been appointed chief of the division's section on civilian industrial facilities.

Duty of the Division.

It will be the duty of the Facilities Division to consider and determine all questions of need or suggested need of new and additional industrial facilities for the conduct of the war.

In this connection, of course, the division will work in close cooperation with the Resources and Conversion Section of the board, which has already turned to war work hundreds of plants made idle or partly so by the changed conditions of the times. Wherever the conversion or enlargement of existing facilities can be made to meet the requirements of any new or exceptional demand, full advantage will be taken of the information gathered by the Resources and Conversion Section regarding industrial and supply conditions in all parts of the country.

H. F. Chase, director of the explosives division of the board, will cooperate with the facilities division in the matter of its chemical requirements, and other sections on specialized war facilities will be authorized and established. A council to coordinate all the war demands of the Government will later be made a part of the division's organization. The Army, the Navy, the Emergency Fleet and other departments will be represented.

Questions to be determined by the division will embrace:

1. Are new or additional facilities in any line of production necessary to the conduct of the war?

2. If necessary, is it not possible through expansion to make existing facilities meet the need?

3. If existing facilities can not be adjusted to meet the need, how is it best to create and locate the new facilities or facility?

Entering into determination of these questions will be considerations of economic matters, such as capital and available labor and housing accommodations; location, with respect to material supplies, transportation, and safety; character and capacity of facility.

Felicitations to Uruguay on Independence Day of That Country Expressed in Message by President

The following has been sent:

His Excellency the PRESIDENT OF URUGUAY:

The anniversary of the independence of your country is an occasion which affords me an opportunity to give expression to the good will and sincere friendship the Government and people of the United States feel for the Government and people of Uruguay. Particularly is this so today when Dr. Brum, your distinguished minister of foreign affairs, is in the Capital as our guest.

I am genuinely glad to receive and to honor him on his own account and as the representative of a Government with which we have had the most cordial relation in the past and to which we look for that sympathy which is mutual between our Republics and which it is confidently expected will grow and will insure a perfect understanding and lead to a cooperation for our common good.

In conveying to your Government the most sincere congratulations from the Government of the United States I take the occasion to send to your excellency my personal greetings and sincere regards.

WOODROW WILSON.

SOLDIERS LIKE LEMON DROPS.

About 200,000 Pounds Being Supplied to Army Each Month.

The War Department authorizes the following:

Lemon drops are so popular in the Army that considerable difficulty has been experienced by the subsistence division of the Quartermaster Corps in obtaining the quantity and quality desired. About 200,000 pounds of lemon drops are used each month at the present time, constituting about 15 per cent of the amount of candy furnished to the Army.

At the beginning of the war it was found that most of the lemon drops being manufactured for the commercial market were not adaptable for use in the Army. Most of these lemon drops were made of glucose and inferior and imitation fruit flavors.

The lemon drops now being supplied to the Army are made of pure granulated sugar and are flavored with an emulsion made from the rind of the lemon. It is found that an extra sour lemon drop is the favorite with the soldiers. The product made from the formula used has the thirst-quenching quality of lemonade.

U-BOAT SINKS U. S. SCHOONER AND 3 CANADIAN FISHING BOATS

All But One of Armed Guard of American Ship Lake Eden Landed.

The Navy Department is informed that the members of the crew of the Canadian fishing schooner *E. B. Walters*, who landed at St. Pierre Sunday night, reported that the *Walters* was bombed and sunk by a submarine Sunday morning, 35 miles off Point Platte, Miquelon, and that the American schooner *F. J. Flaherty* and the Canadian fishing schooners *C. M. Walters* and *Morris B. Adams* were also sunk. The crews, numbering about thirty men, were reported on their way to St. Pierre.

Lost on the Lake Eden.

The Navy Department is informed that all except one of the naval armed guard of the steamship *Lake Eden*, torpedoed and sunk in foreign waters on August 21, have been landed. The missing member of the guard is Ralph Eugene Hooten, gunner; father, William Arlington Hooten, Laurel Hill, Fla.

The following of the crew are supposed to have been drowned or killed by the explosion of the torpedo: George Bruce, master; C. Crass, second engineer; P. Denham, fourth engineer; C. Maller, boatswain; A. Martin, and Muller.

The following members of the crew were still missing at last accounts: Johnson, sailor; Lyrecian, sailor; F Feres, fireman; Loronsow, fireman; Duderok, fireman; A. Mosher, chief cook; J. Harms, greaser; Stanbor, second cook; H. Ricardo, mess boy.

NEW PLAN FOR TRAINING U. S. FLYERS FOR OVERSEAS SERVICE

The War Department authorizes the following:

In connection with the development of the new plan of the Air Service for thorough training of our flyers before they are sent overseas, experienced flying officers are being returned from abroad to act as special instructors in the more advanced courses of aviation training.

Recent practice in elemental training now gives the candidate more time in the air with his instructor than heretofore. The new plan is known as the Gosport system or "All Thru," as it is popularly called here, and insures closer contact between the cadet and the instructor.

When the cadets arrive at a flying field from the ground school, where they have learned much of the theory of flight, engine control and repair, radio, signaling, and other kindred subjects, several of them are assigned to an instructor who stays with them until they have qualified in elemental flying. They are then sent to the special schools for final work and training in their particular line, as pursuit, reconnoissance, artillery control, or bombing pilots. The old practice of giving a cadet so much time in the air under instruction and then turning him loose for his first solo flight, in a "sink or swim" fashion, is being discontinued and what is believed to be a more safe and sane system is being adopted.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communique

NEW REGULATIONS ISSUED BY PUBLIC PRINTER DESIGNED TO EFFECT ECONOMIES IN THE USE OF PAPER FOR GOVERNMENT PUBLICATIONS

In compliance with the paper economy resolutions adopted by the Joint Committee on Printing on July 3, and published in THE OFFICIAL U. S. BULLETIN of July 8, the Public Printer has issued regulations eliminating a number of heavier weights of paper from the Government Printing Office stock and has standardized the sizes and forms of a large number of Government publications.

The Public Printer transmitted the following letter to the chairman of the Joint Committee on Printing, Senator Marcus A. Smith, of Arizona, advising that committee as to the new regulations adopted by the Government Printing Office regarding weights and sizes of paper:

"Owing to the scarcity of paper-making materials, the shortage of coal, labor, and many other features entering into the manufacture of paper, a number of the heavier weights of paper are to be eliminated and the Government Printing Office will confine the purchase of suitable paper stock as far as possible to the following substance numbers:

"Bond paper.—Nos. 9, 13, 16, and 20.
"Writings.—Nos. 9, 13, 16, 20 and 24.
"Ledgers.—Nos. 24, 28, 32, 36, and 44.
"Bristols.—Nos. 52, 68, and 84.

Limits on Sizes.

"In keeping with the substance numbers above and in order to secure a better standardization of Government publications, the departments in ordering for the above substance numbers will be requested as far as possible to limit themselves to the sizes hereinafter prescribed, or to sizes which may be conveniently cut from the sizes so prescribed:

"Bonds, ledgers, and writings.—8 by 10½, 16 by 21, 21 by 32, 32 by 42; 8½ by 14, 14 by 17, 17 by 28, 28 by 34, 34 by 56.

"Book papers.—6 by 9½, 9½ by 12, 12 by 19, 19 by 24, 24 by 38, 32 by 48, 38 by 48; 29 by 41, 32 by 48, 38 by 48, 50 per cent rag; 36 by 52, S & S C, Navy Register.

"Departments will be requested to eliminate the use of all 8½ by 11 and 22 by 34 papers.

"It will be noted that the following substance numbers are eliminated:

"Writings.—8-11-28-32-36-40.
"Bonds.—8-11-24-28.
"Ledgers.—40-48-60.
"Bristols formerly purchased by weight to hereafter be bought by substance number.

"With the exception of ledger paper, substance No. 44, the above will comply with established weights, which the Paper Department of the Government recently requested the purchasers of paper to follow.

Standards for Books.

"In order to confine the various sizes of books to suit the different sizes of paper to be carried in stock I have standardized books into eight different sizes and same will be submitted to departments for their information:

Paper sizes.	Trim sizes.	
Inches.	*Inches.*	
24 x 38	2½ x 5¼	Vest Pocket Directory.
24 x 38	4¼ x 5⅜	Drill Manuals, etc.
32 x 42	5⅛ x 9⅜	Regular Octavo Size.
29 x 41	7 x 10	Royal Octavo.
21 x 32	8 x 10½	Demy Publications.
24 x 38	9¼ x 11½	Census Bulletins and other Publications.
17 x 28	8½ x 14	
21 x 32	5¼ x 7¾	

"With the foregoing changes in paper, sizes of paper and books, and the substitution of imitation leather for leather and other changes that will be made as necessity arises, I am of the opinion that a great saving to the Government in money and time will result and a greater output will result with a materially decreased cost."

The Joint Committee on Printing at its meeting on Monday expressed its approval of the new regulations adopted by the Public Printer and assured him that if further steps are necessary or advisable to bring about additional economies in the public printing and binding the committee will cooperate with him in every way possible.

A country worth fighting for is a country worth saving for. Buy THRIFT STAMPS.

RAILROAD COMPLAINTS BUREAU

(Continued from page 1.)

the most vigilant management to keep constantly in touch with local conditions and correct them when they are not as they should be, unless the public will cooperate in pointing out deficiencies and disservice when they exist, so that the proper remedies may be applied.

New Bureau Established.

I have, therefore, established a Bureau for Suggestions and Complaints in the Director General's office at Washington, to which the public is invited to resort.

Aside from letters of complaint and suggestion, the public can render a genuine service by sending letters of commendation of employees who are conspicuously courteous and efficient in the performance of their duties. Nothing promotes the esprit of a great organization more than recognition from time to time of those employees who perform their duties faithfully and commendably.

It is requested that all communications be brief and explicit and that the name and address of the writer be distinctly written.

Also give the time of day or night, the number of the train, the name of the railroad, and, if possible, the name of the employee whose conduct is complained of or whose services are commended, together with such other information as will enable me to take appropriate action.

Please address—

W. G. McADOO,
Director General of Railroads,
Bureau for Suggestions and Complaints, Washington, D. C.

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

The Senate, by unanimous consent, agreed yesterday to vote this afternoon, not later than 4 o'clock, on the manpower bill extending the draft age limits. In order to expedite procedure, the House bill, which had already been adopted by that body, was substituted for the Senate measure after adding the Senate amendments, including the "work or fight" clause.

A committee amendment presented by Senator Reed, providing for education after the war, at the expense of the Government, of young men under 21 years of age who either enlist or are drafted, was adopted by a vote of 53 to 13.

A House bill suspending customs duties on Red Cross imports was passed and sent to the President.

Senator Reed, of Missouri, left Washington to-day for a two months' trip through the war zone.

HOUSE.

The House yesterday adopted the Keating bill providing minimum wages for women and minor employees in the District of Columbia.

Members of the House were urged by Representative Barnhart, of Indiana, chairman of the joint congressional Committee on Printing, to curtail their extensions of remarks in the Congressional Record in view of the shortage of paper, which, he asserted, might make it necessary for the President to requisition stocks in order to get out Government publications. The committee had met earlier in the day and authorized the warning.

Under a bill introduced by Representative Clark, of Florida, the President would be authorized to requisition property where excessive rental is charged war workers in industrial centers, and would be authorized to fix a fair rental price for such property.

The expenditure of money up to $50,000 during the present fiscal year by the Secretary of War for athletic goods, including baseballs and bats, footballs, and boxing gloves, as a part of the equipment of each regiment would be authorized under a bill introduced by Representative Siegel, of New York.

Secretary McAdoo, in conference with Chairman Kitchin, of the Ways and Means Committee, renewed his recommendation that a higher tax be levied on unearned than on earned incomes as a means of encouraging sale of tax-free Government securities. The Secretary pointed out that if the revenue bill is not enacted by September 28, the opening day of the fourth Liberty loan, the loan may be somewhat hampered, because business men will not know definitely what their tax burdens are to be.

FALL KILLS NAVY CARPENTER.

The Navy Department is informed that John P. McArdle, carpenter's mate, third class, United States Naval Reserve Force, died August 22 from a compound fracture of the skull, the result of an accidental fall from a scaffold. Father, E. J. McArdle, 111 Broadway, Wilmette, Ill.

List of Fatalities At U. S. Flying Fields

The War Department authorizes the following:

Herewith is a summary of deaths due to aviation accidents in training at flying fields in this country for the week ending August 17, 1918:

Place at which fatality occurred.	Number of fatalities.
Brooks Field, San Antonio, Tex	1
Carlstrom Field, Arcadia, Fla	1
Carruthers Field, Benbrook, Tex	1
Chanute Field, Rantoul, Ill	1
Kelly Field, San Antonio, Tex	1
Post Field, Fort Sill, Okla	1
Total	6

The six deaths during the week ending August 17 represent one fatality for every 3,638 hours flown or 291,040 miles air travel. There were no fatalities at 21 other fields.

POST THE OFFICIAL BULLETIN.

Secretary of War Baker orders:

Commanding officers of military posts and stations will post copies of the OFFICIAL BULLETIN *in conspicuous places for the information of all concerned.*

It is the desire of the department that the OFFICIAL BULLETIN *be made accessible to the entire personnel of the Navy. All commandants and commanding officers are directed to have it placed in a conspicuous and accessible place and to notify the officers and men under their command of its existence and purpose.*

JOSEPHUS DANIELS,
Secretary of the Navy.

All postmasters are directed to post THE OFFICIAL BULLETIN *daily in a conspicuous place in the lobby or other portion of their respective post-office buildings where the public can read it; and, without expense to the Government, each and every postmaster is earnestly urged to see that this* BULLETIN *is made available to as many people as possible in the manner suggested.*

A. S. BURLESON,
Postmaster General.

FREIGHT CLAIM SECTION.

U. S. RAILROAD ADMINISTRATION,
Washington, August 22, 1918.

CIRCULAR No. 48.

A freight claim section of the division of law is hereby established, with jurisdiction over all matters pertaining to loss and damage freight claims and their prevention.

Mr. John H. Howard is appointed manager, with office in Southern Railway Building, Washington, D. C.

W. G. McADOO,
Director General of Railroads.

EQUITABLE ALLOCATION OF RICE CROP AMONG MILLERS EFFECTED

The Food Administration authorizes the following:

Equitable allocation of the rice crop of the country among all rice millers has been arranged by the Food Administration, after conferences with representatives of the trade. Last month rice millers agreed to pay certain basic prices for rough rice for milling, and the latest step is a further following-out of the Food Administration policy of assisting the trade in standardization, in order that the consumer may be able to purchase standard grades of rice-products at equitable prices.

Subcommittees known as valuation committees have been appointed in various southern and California cities, in which sales offices have been established. These committees were chosen by the Southern Rice Committee of the Food Administration, under whose direction all grading and classification will be done. This committee, the personnel of which was recently announced, is made up of Edgar A. Eignus and J. E. Broussard, of Beaumont, Tex., and J. H. Roman, of New Orleans.

Valuation Committee Offices.

The valuation committee will have offices in the following cities: Louisiana headquarters, New Orleans, Crowley. Sales offices, Lake Charles, Welsh, Jennings, Crowley, Rayne, Gueydan, Abbeville, Eunice, Kinder, New Iberia, New Orleans.

Texas headquarters, Beaumont. Sales offices, Beaumont, Houston, Eagle Lake, El Campo, Bay City, Orange.

Arkansas headquarters, Stuttgart. Sales offices, Stuttgart, De Witt, Carlisle.

California offices will be announced later.

In order to save man power and expense, all rice is to be weighed at points of shipment to mills, where grading will be done by officials designated by the committees. No purchases will be made excepting at regular sales offices, unless with prior approval of one of the offices, and after a valuation has been set on the rice to be sold.

Basis of Allotments to Mills.

Each mill will have allotted to it the maximum amount it may purchase of the 1918 crop, based upon its present capacity and its average receipts during the three past seasons. Millers are required to furnish, not later than September 1, a sworn statement covering these facts. All rice is to be bought at the valuation and on the grades fixed by the valuation committees.

Prices, based on rice in bags, will range from $7.50 per barrel for Nos. 1 and 2, Honduras, Edith, and Carolina (river type), to $6.75 per barrel, Nos. 3 and 4, Japan and Early Prolific. All mills are to pay 6½ cents per barrel as administration fee, to be sent to the Food Administration Grain Corporation, New Orleans. If expenses amount to less than this fee, it will be reduced in subsequent months.

By agreement last month, millers pledged themselves to the Food Administration not to sell clean rice at more than 7⅞ cents a pound for choice Japan, to 9⅛ cents for Fancy Honduras.

GROUND SCHOOLS FOR AIRMEN IN 4 PRINCIPAL UNIVERSITIES

The War Department authorizes the following:

The Division of Military Aeronautics has determined to concentrate the ground-school training in four universities, namely, Princeton, the University of Illinois, the University of California, and the University of Texas. The schools at Cornell, Ohio State University, and Massachusetts Institute of Technology have given excellent and efficient service, but their facilities are greatly needed for other war training. It has also been found that the ground-school training for the Air Service can be more efficiently and economically administered in a smaller number of schools.

This cutting down in the number of ground schools does not mean any curtailment of the training program, as the four remaining schools were greatly enlarged some time ago to take care of all needs.

Two Men Dead, 5 Missing From U. S. Mine Sweeper

The Navy Department is informed that two men are dead and five missing of the crew of the mine-sweeper *Montauk*, which was driven ashore and wrecked in a gale on the Florida coast August 21.

The dead are:

Joseph E. McCurry, yeoman third class; wife, Mrs. Fanny May McCurry, 220 South Warley Street, Florence, S. C.

Roy E. Travis, fireman third class; mother, Mrs. Biddie Coppadge Travis, 120 Stonewall Street, Atlanta, Ga.

The missing:

Obed L. Nicholas, fireman third class; mother, Mrs. Mattie Nicholas, Blackstock, S. C.

William L. Sample, seaman second class; mother, Mrs. Addie Sample, Newberry, S. C.

Jacob O. Singley, seaman second class; mother, Mrs. Anna Singley, Prosperity, S. C.

Frank S. Stewart, seaman second class; mother, Mrs. M. J. Stewart, Simpsonville, S. C.

Jennings Sudduth, seaman second class; mother, Mrs. Alice Sudduth, 11 Hale Street, Greenville, S. C.

Lighthouse Service Contracts Approved

Mr. A. L. Thurman, Acting Secretary of the Department of Commerce, has approved a request by Mr. J. S. Conway, Acting Commissioner of Lighthouses, for authority to contract with the American Gas Accumulator Co., of Elizabeth, N. J., in the estimated amount of $8,800 for furnishing and installing gas apparatus on five type L buoy bodies for Joe Flogger Shoal, Delaware River, fourth district.

Authority also has been granted to contract with the Union Boiler & Manufacturing Co., of Lebanon, Pa., in the estimated amount of $9,250 for furnishing and delivery five type L acetylene buoy bodies and lantern frames, complete, for Joe Flogger Shoal, Delaware River.

Houses for Army Nurses at the Base Hospitals

The American Red Cross issues the following:

To give Army and Navy nurses a comfortable place in which to spend their hours off duty, the American Red Cross will provide special nurses' recreation houses at all large base hospitals, to cost about $350,000. Contracts have been let for 40, several of which are completed and some more are under contract.

These houses were provided as soon as it was learned that the nurses had no attractive rest rooms and were obliged either to stay in their bedrooms or to sit in a narrow corridorlike space set aside for them. In some of the camps the Red Cross not only has provided these houses but has secured cottages near-by in the mountains or at the seashore, where nurses, especially in need of rest, can go for a recuperative week end. The nurses keep house for themselves.

OUTLINES DUTIES AND POWERS OF COMMUNITY LABOR BOARDS

The Department of Labor authorizes the following statement:

In view of some uncertainty as to the jurisdiction of the District of Columbia Community Labor Board of the United States Employment Service of the Department of Labor, Nathan A. Smyth, Assistant Director General of the United States Employment Service, has issued the following statement:

"The Community Labor Board of the District of Columbia, as well as those in other communities, is charged with the responsibility of determining the methods which shall govern the United States Employment Service in its community in attempting to recruit for war work men from industries which are not directly connected with the prosecution of the war.

No Form of Compulsion.

"The United States Employment Service is not purposing to use any form of compulsion in such recruiting other than an appeal to the patriotism of the worker and the employer.

"The power to determine priority among industries and to close up nonessential industries by shutting off supplies rests with the War Industries Board.

"The United States Employment Service will follow the priorities determined by the Priorities Board of the War Industries Board. The Employment Service, through all its agencies, will keep in systematic and constant cooperation with the other divisons of the Government concerned with the man power and material program of the Government.

"It is within the province of each community labor board to list those nonwar industries in its community which will first be called upon to contribute men to war work.

Not Compelled to Close.

"This does not mean that such industries will be compelled to close up or to discharge their male employees at once, but that with as much fairness as is possible, and with as much speed as may be necessary to meet the national emergency, they will release male workers.

"In the District of Columbia, as elsewhere, we may well face the facts. The work on the great Army and Navy buildings at Potomac Park, the construction of housing facilities opposite the Union Station, the extension of Camp Humphreys to meet new Army requirements, and much other work essential to our war program, are being seriously retarded by lack of unskilled labor. In this situation it is obviously wrong to have able-bodied men continuing to sell candy, cigars, and like articles to be doing work in shops and stores which might, with reasonable effort on the part of the employers, be entrusted to women, and to be attendants in clubs, barber shops, soft-drink establishments, bowling alleys, dancing academies, and elsewhere.

Lack of Skilled Mechanics.

"Our war industries are suffering severely for lack of skilled mechanics. It therefore becomes a burden upon the conscience of every person who employs a chauffeur to determine whether such employment is necessary or merely for the gratification of personal pleasure.

"Moreover, every owner of an automobile should realize that every time he spends $5 for automobile accessories, supplies, or repairs he is in effect determining whether working energies of the country equivalent to about a day's labor of one man shall be devoted to winning the war or to his own personal uses.

"The time has come when from the standpoint of conservation of labor we must all of us limit our expenses to those things which are essential."

GOVERNMENT PLAN TO INCREASE THE CONSUMPTION OF GULF FISH

The Department of Commerce authorizes the following:

During July there were issued under the joint auspices of the Food Administration, the Bureau of Chemistry, and the Bureau of Fisheries, three illustrated posters giving information regarding the sea mullet, the sea catfish, and the crevalle, three fishes of which large quantities are available for shipment from points on the Gulf of Mexico.

These posters, which will be followed by others as required, were designed especially for use in Nashville, Louisville, and Indianapolis, communities in which the cooperating Government agencies have arranged to supply fish in carload lots, shipped under Government direction from the Gulf coast.

Shipments to be Extended.

The bureau's representative, who may be termed a sales agent, is doing excellent service in these cities and advises that it now appears that these centers will use a minimum of eight carloads of these fish per month. As soon as the market is established, the work will be transferred to other centers.

Up to July 24, six carloads of "Government fish," as they are locally called, were shipped to these centers during the month, shipments being made from Punta Gorda and Gasparilla, Fla. Among the fish which are being shipped are mullet, red snapper, sea catfish, pompano, grouper, and various species of bottom fish.

FEDERAL APPROVAL REQUIRED FOR CONSTRUCTION OF HIGHWAYS

The Department of Agriculture authorizes the following:

The United States Highways Council to-day made public its regulations, effective September 10, governing highway and street work during the period of the war. Federal approval is required for practically all highway construction.

"No Manufacturer," the council's announcement says, "will furnish any road-building material until the project has been approved by the United States Highways Council."

The proposed work that should be first submitted to the United States Highways Council through the appropriate State highway department is defined as follows:

"All proposed highway, street, culvert, and bridge construction, reconstruction, and maintenance involving (a) the issuance of bonds; (b) the use of rail or water transportation; (c) the use of coal or oil as fuel; (d) the use of cement, brick, asphalt, oil, tar, crushed stone, or steel (also sand and gravel where shortage exists), as highway material."

NEW IMPORT REGULATIONS OF THE ITALIAN GOVERNMENT

The War Trade Board has issued the following statement:

To all shippers:

For your convenience and guidance, the War Trade Board directs your attention to the following regulations which have been adopted by Italy concerning the regulation of imports:

(1) A decree published by the Italian Government, effective July 1, 1918, forbids the purchase abroad and importation into Italy of any material or product without an import license from the Italian Government.

(2) Applications for licenses to import into Italy any commodity of foreign origin must be filed by the Italian purchasers with the Giunta Tecnica Interministeriale, Rome, before the placing of orders abroad.

(3) After licenses to import have been granted by the above body, the orders may be placed abroad. The prospective importers should advise the prospective exporters in the United States the numbers of such import licenses in order that the latter may designate such numbers in their applications for licenses to export from the United States.

(4) Import licenses issued by the Giunta Tecnica Interministeriale are valid for only one shipment, even though such shipment covers only part of the commodities originally licensed for import into Italy.

(5) The Giunta Tecnica Interministeriale will cable to the Italian High Commission in Washington the numbers of the import licenses granted, so that such commission may approve the corresponding applications for export licenses when filed with the War Trade Board.

Luxuries as usual means a victorious Germany. Save and buy war-savings stamps.

ORDERS REDUCTION OF NEW TITLES OF BOOKS PUBLISHED AFTER OCTOBER 1

The War Industries Board authorizes the following:

Under new regulations controlling the use of paper by publishers of trade books, copyright reprints, toy books, juvenile and noncopyright books, the War Industries Board, through the pulp and paper section, Thomas E. Donnelley, chief, directs that, beginning October 1 next, there shall be a reduction in new titles of books manufactured in this country of 25 per cent of the average of the three years from July 1, 1915, to June 30, 1918.

Publishers who have not been in business for five years will have their reduced tonnage based on their tonnage used in the year ended June 30 last, and bona fide new publishers who maintain no connection with existing publishers may apply to the War Industries Board for registration and allotment of the number of titles to be published in the first year.

Exception from the regulations is made for books of research, published under subsidy, and war-service books published for the United States or allied Governments under subsidy. Also, the regulations are not to apply to books, etc., in process of manufacture to be published prior to October 1 next.

Text of Regulations.

Full text of the new regulations follows:

To publishers of trade books, copyright reprints, toy books, juvenile and noncopyright books:

The following recommendations have been made to the pulp and paper section of the War Industries Board by the war committee of publishers, to accomplish the necessary savings in the use of paper brought about by war conditions.

If you believe that any of these regulations will unfairly affect your interests, will you kindly state your objections concisely before September 5, 1918?

REGULATIONS.

First. Beginning October 1, 1918, reduce new titles of books manufactured in this country 25 per cent of the average of the three-year period July 1, 1915, to June 30, 1918. In the case of a publisher who has not been in business over five years, the reduction in titles may be from the number of titles published in the year ending June 30, 1918. A bona fide new publisher who maintains no connection with any existing publisher may apply to the War Industries Board for registration and allotment of the number of titles to be published in his first year. Books of research published under subsidy or war-service books published for the United States or allied Governments under subsidy are to be excepted from this regulation.

Second. Papers are to be reduced in weight as follows:

(a) Books of 320 pages or over to be printed on 50-pound machine finish or eggshell or 60-pound supercalender.

Smaller books may use up to 60-pound English finish, eggshell, or supercalender.

(b) Juvenile and toy books:

Weights to vary in accordance with the number of pages as follows: 257 pages or over, 60-pound machine finish, or eggshell, or supercalender; 256 pages or less, 70-pound machine finish, or eggshell, or supercalender; 192 pages or less, 80-pound machine finish, or eggshell, or supercalender; 128 pages or less, 90-pound machine finish, or eggshell, or supercalender; 64 pages or less, 100-pound machine finish, or eggshell, or supercalender. Cover stock for toy books, 125 pounds. Weights in all cases based on 25 by 38.

(c) Type page: With a 100,000-word book of prose, 320 pages, 12mo. size (roughly 300 words to a page), as the standard, the type page shall scale down to a minimum of 150 words to a page for a prose book of 20,000 words.

Third. Coated paper is to be used only for inserts or color work and is limited to 25 by 38—80 pounds.

Fourth. Eliminate all coated paper for jackets and circulars.

Fifth. Circulars: No new circulars to be issued exceeding 4 pages in length. The term "circulars" here used means a description of one book or group or series of books. No circular to exceed the standard trimmed size of 8½ by 11.

Sixth. All shipment of books "on sale," "on consignment," or "protected" shall be prohibited, except that in any case where a traveling salesman of a publishing house has been unable to solicit an advance order for any particular publication (because of time limitation between the receipt of the manuscript and the publication of the book), then the publisher may ship a sample order "on sale," but such an "on sale" shipment to either of the large jobbers shall in no case be in excess of 100 copies, and no such "on sale" shipment to any other dealer shall be in excess of 5 copies.

Seventh. No "on sale" shipment shall be made for display or any other purpose except as stated in previous paragraph, and no rebates shall be made for unsold stock.

Eighth. Standard size of paper shall be used in printing all books so far as possible. The standard sizes are:

Machine finish or eggshell: 28 by 38, 30½ by 41, 33 by 44, 35 by 46, 38 by 56, 41 by 61.

Super and coated: 25 by 38, 28 by 42, 30½ by 41, 33 by 44, 38 by 50, 41 by 61.

To avoid unnecessary wastage of paper on series of books already established special sizes may be made on orders of 5 tons or more.

The above regulations are not to be retroactive, and therefore do not apply to books, etc., already in process of manufacture and published prior to October 1, 1918.

To subscription book publishers: Publishers of subscription books will be considered to have lived up to the terms of these regulations if they use the above weights of paper and reduce the tonnage used during the year 25 per cent over the tonnage used during the year July 1, 1917, to June 30, 1918.

No trouble to buy, cheap, convenient, a real investment—W A R - S A V I N G S STAMPS.

WAR DEPARTMENT ACCEPTS HOSPITAL AT COOPERSTOWN

The War Department authorizes the following:

The War Department has accepted the offer of Edward Severin Clark, of Cooperstown, N. Y., to use the Mary Imogene Bassett Hospital and Pathological Laboratory, at Cooperstown, for the period of the war and one year after. It will become a general hospital where special attention will be given to nervous conditions among aviators.

Ready Early Next Year.

The hospital, which is now being erected, will be ready for use early in 1919. It is a stone building of fireproof construction, and consists of one main building and wards with accommodations for 185 patients, isolation pavilion and power house, nurses' home, pathological laboratory, garage, and employees' dormitory, all situated in a large tract of ground.

Mr. Clark's only stipulation as to the use of the hospital and grounds was that the Government should not intentionally bring in any patients suffering from contagious diseases and that the property should be returned in as good condition as when taken, making allowances for ordinary wear and tear.

One hundred beds and full equipment necessary for caring for that number of patients will be provided by Mr. Clark. The balance of the equipment is to be furnished by the Government.

Hotel In Temporary Use.

In the event that the hospital is finished before the other buildings are ready, Mr. Clark has placed at the disposal of the Government a small hotel, to be used till the buildings are ready. He has also agreed to furnish all officers and enlisted men the use of the gymnasium and bathing floats, the village library and club, the Otesage golf course and tennis courts as long as the hospital remains under Government control.

WORK OF CONVERTING CAMPS INTO CANTONMENTS STOPPED

The following statement is authorized by the War Department.

Orders have been issued that all work is to be stopped in connection with the converting of any of the National Guard camps into cantonments.

Additional information received shows that the cost of converting these tent camps into semipermanent cantonments would necessitate an expense and the use of labor that can be avoided at this time.

This order applies to Camp Shelby, the authorization for which had already been issued, and other National Guard camps, the converting of which into cantonments had been contemplated.

Additions to the National Guard camps not in the sense of converting them into cantonments as authorized is to proceed as announced.

The food YOU waste to-day may mean HUNGER to Someone, Somewhere, Sometime. Be Saving!

PLANT TO MAKE "CARBOCOAL" IS ESTABLISHED IN VIRGINIA

The Fuel Administration issues the following:

Following tests made of "Carbocoal" by the United States Navy and two railroads, the United States Government has become interested in the establishment of a plant for the manufacture of the product, at Clinchfield, Va. The plant, which is now in the preliminary stages of construction, will have a capacity of treating several hundred thousand tons of bituminous coal annually. The plans for the plant and grounds allow for an eventual capacity of 1,500,000 tons per year.

New Process of Distillation.

By a new process of low-temperature distillation, bituminous coal is treated in such a manner as to recover greater quantities of the valuable by-products, such as toluol, sulphate of ammonia, and valuable oils. From the residue is made a valuable smokeless fuel, in the form of briquettes. Tests of "Carbocoal" by the Navy disclose that it contains less than 4 per cent volatile matter, rendering it practically smokeless. Moreover, it is found to work satisfactorily where there is limited grate area and restricted boiler capacity.

Plant Near Clinchfield.

The new plant, which is expected to be in operation early in 1919 is being built near the junction of the Carolina, Clinchfield & Ohio and Norfolk & Western Railways. On account of the successful tests of "Carbocoal" and the great promise it gives of saving fuel, the United States Fuel Administration and the Ordnance Bureau of the War Department are cooperating in the construction of the plant.

LESS DELAY IN UNLOADING CARS URGED UPON RAILROAD OFFICIALS

The car-service section of the Railroad Administration has issued the following:

BULLETIN No. 42.

To railroads:

Referring to semimonthly report of carloads of company material on hand, Form CS–13:

Instructions printed on this form contain the following:

"A full and complete explanation should be given when there is any unusual delay in releasing cars."

In very many instances the figures submitted by different roads from time to time indicate clearly that there has been unusual delay in unloadig cars, and yet it is extremely rare that any line offers an explanation. We are therefore left in doubt as to whether any use is made of the figures by the roads that compile them. In other words, we are left in ignorance as to what, if anything, is being done to bring about an improvement where cars are unduly delayed.

It is believed the figures of this report will serve a good purpose if analyzed and followed up closely by the different roads. The car-service section is calling attention to the figures of various roads from week to week, and in return is receiving various explanations. Most of this correspondence would be unnecessary if instructions quoted above were complied with. Furthermore, in making explanation those responsible would have their attention called to accumulations and delays much more forcibly than under the present practice of merely submitting the bare figures with no explanation.

The total number of cars reported from time to time will average about 58,000. The total number of car days represented by this figure, based on the average delay to cars as reported, is very large—in fact so large as to be well worth every reasonable effort to keep it reduced to the minimum at all times.

We would therefore ask that this whole question be overhauled, with a view to obtaining better results than are accomplished at present.

W. C. KENDALL,
Manager Car-Service Section.

ORDNANCE BOARD IS APPOINTED FOR THE CONTROL OF METALS

The War Department authorizes the following from the Ordnance Department:

In order to assure the more complete coordination of the various Ordnance departmental activities along metallurgical lines it has been decided to establish a board on metallurgical matters. The appointment of this board will also assure the complete coordination of similar activities of the different divisions of the War Department and the War Industries Board. The personnel of the board is as follows:

Dr. G. W. Sargent, Engineering Division, chairman.

Lieut. Col. W. P. Barba, Production Division.

Maj. A. E. White, Inspection Division, representing the Ordnance Department.

Lieut. Col. F. B. Richards, of the office of the Assistant Secretary of War.

Mr. L. L. Summers, representing the War Industries Board, and

Mr. William H. Smith, representing the manufacturers.

The board will act not only for the various sections of the Ordnance Department but also in connection with the manufacturers working for and with the department in the production of war material, and will gather the most recent and complete information on all metallurgical products.

Larger Camp at Lee Hall For Artillery Gunners

The War Department authorizes the following:

In order that the work of training men for heavy artillery may be developed as rapidly as possible and under the most favorable conditions, it has been decided to increase the size of Camp Abraham Eustis, at Lee Hall, Va., at once. Orders have been issued to the Construction Division to proceed with the work. It is estimated that the additions will cost $1,940,800.

The enlargement calls for motor transportation schools for 500 students, garages, repair shops, a short railroad, concrete roads, new ranges, and barracks and quarters for one trench motor battalion and one antiaircraft battalion.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

SECTION NO. 1.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	48
Missing in action	4
Wounded severely	88
Died of wounds	4
Died from accident and other causes	1
Died of disease	2
Died from aeroplane accident	1
Wounded slightly	1
Wounded (degree undetermined)	2
Total	151

Killed in Action.

CAPTAINS.

John Carver Adams. Richard Ranney Adams, Brooklyn Navy Yard, Brooklyn, N. Y.

Frank C. Valentine. McGill Valentine, care of Government Printing Bureau, Ottawa, Canada.

LIEUTENANTS.

George E. Braker. Mrs. George E. Braker, 430 South Sixtieth Street, Philadelphia, Pa.

Marvin T. Thompson. Mrs. Martin Thompson, 113 Eleventh Avenue west, Menomonie, Wis.

SERGEANT.

Alex Wojciechowski. Valentine Wojciechowski, 1523 South Monroe Street, Bay City, Mich.

CORPORALS.

George Washington Myers. Mrs. Jennie Myers, East Superior Street, Alma, Mich.

Walter Mike Nadolski. Mrs. Julia Nadolski, 1214 South Monroe Street, Bay City, Mich.

Edward Sullivan. Mrs. Ella Sullivan, 728 Cass Avenue, Grand Rapids, Mich.

WAGONER.

Roy Stafford. Albert Stafford, County Farms, Des Moines, Iowa.

PRIVATES.

Melvin L. Crandall. Wesley Crandall, Pittsford, Mich.

Trimble C. Curry. Joseph Curry, Corning, Iowa.

J. Earl Near. Mrs. Rose Near, 564 Ward Street, Niles, Ohio.

John Paul. John S. Paul, 619 East Twenty-sixth Street, Paterson, N. J.

John Raustis. Joe Raustis, Gubernookowinska, Parviat Sanly Proure, Russia.

Chester Sadkowski. Stanley Autinovich, 664 Garfield Avenue, Detroit, Mich.

John Edwin Schultz. Mrs. Katie Klatt, Daggett, Mich.

John Short. W. M. Short, Conway, Iowa.

Eugene Thomas. John Thomas, Yale, Ky.

Emil Tiegs. Miss Anna Tiegs, Shawano, Wis.

Florenzo Tira. Mrs. Domanico Tira, Cicoino, Italy.

Peter Van Wert. Mrs. Margurett Luxton, 2501 Center Avenue, Bay City, Mich.

John Thomas Walker. Mrs. Sophia Walker, 977 Bessmore Avenue, Detroit, Mich.

Adam Wilczynski. Mrs. Josephine Marie Wilczynski, 76 Addison Street, Detroit, Mich.

Frank Zeman. Mrs. Antonette Zeman, 5334 West Twenty-fifth Place, Cicero, Ill.

Leon Beatty. S. P. Beatty, Washington, Iowa.

Edward H. Blase. August H. Blase, R. F. D. No. 4, Mexico, Mo.

Jesse Cornelius Burch. William Burch, R. F. D. No. 2, Coleman, Mich.

Arthur G. Cornwell. George N. Cornwell, 36 Edison Street, Dubuque, Iowa.

William H. Davidson. Charles R. Davidson, Box 649, Apollo, Pa.

Alfred H. Dietrich. Mrs. Mary Dietrich, 717 Wright Street, Milwaukee, Wis.

William Fields. Mrs. Helen Fields, St. Louis, Mich.

James E. Fowler. Mrs. Bell E. Fowler, Lincoln, Placer County, Cal.

Peter Francovick. Mrs. Helen Keshen, Crivitz, Wis.

Ernest F. Frost. Nels P. Frost, Smolan, Kans.

Howard G. Graham. John W. Graham, R. F. D. No. 2, Mystic, Iowa.

Lloyd W. Head. Miss Lola Head, Greenfield, Iowa.

Isaac Hishorseisfast. Robert Hishorseisfast, White Horse, S. Dak.

Clay James. Mrs. Georgia James, 1975 Hillside Avenue, Indianapolis, Ind.

Fred Kalkbrenner. William Kalkbrenner, 301 West Ross Street, St. Bernard, Cincinnati, Ohio.

Albert S. Killiam. Mrs. A. O. Sprague, Sheridan, Wyo.

Peter J. Maas. John Seymour Maas, 940 West Johnson Street, Madison, Wis.

James A. Mathieson. Mrs. Elizabeth Mathieson, General Delivery, Sundas Center, Canada.

Loman Morgan. Will Morgan, Andrew, N. C.

Alfred Lenord Nelson. Sam Dyrlnd, R. F. D. No. 4, Chetek, Wis.

Frank J. O'Connor. John O'Connor, Berlin, Wis.

Arthur Peach. Bert Landon, Bradyville, Iowa.

Dewey Phillips. John Phillips, 427 Hanchette Street, Saginaw, Mich.

John R. Rowe. Mrs. Albert J. Rowe, 360 Broad Lane, Honolulu, Hawaii.

Died of Wounds.

PRIVATES.

Hubert Blayney. Gilbert Blayney, Olin, Iowa.

Harold J. Lee. Ben H. Lee, 2002 Pennsylvania Avenue, North Minneapolis, Minn.

Wincenty Michalek. Onufry Michalek, 2814 Short Street, Chicago, Ill.

Robert S. Pomeroy. Alley Pomeroy, Cabin Creek Junction, W. Va.

Died of Disease.

PRIVATES.

Thomas Batis. Mrs. Mary Batis, Maysville, Ky.

Herman Ray. Mrs. Norah Ray Perry, Waller, Tenn.

Died from Aeroplane Accident.

Lieut. Louis I. Phillis. H. W. Phillis, 1435 East Sixty-fourth Street, Chicago, Ill.

Died from Accident and Other Causes.

Pvt. Thomas W. Bridges. Mrs. Flora Bridges, Malden, Mo.

Severely Wounded.

LIEUTENANTS.

Everrett Sleeter Fick. Mrs. Helen Fick, Winnfield, La.

George L. Howard. George S. Howard, Malone, N. Y.

Oscar F. Jacobs. Mrs. Abbie Jacobs, R. F. D., Aurora, Ind.

SERGEANTS.

Henry J. Dube. Mrs. Alphonse Dube, 60 Main Street, Winsted, Conn.

Patrick J. Heneghan. Mrs. Mary Kald, 2 Dunham Place, South Boston, Mass.

Louis Knutson. John Knutson, 1116 Christiania Avenue, Chicago, Ill.

Emil Lundquist. August Lundquist, R. F. D. No. 3, Ligonier, Pa.

Theodore Pantchuck. Simon Pantchuck, 1107 Marshfield Avenue, Chicago, Ill.

Andrew Rozner. Dock C. Collins, 127 Company C, C. A. C., Galveston, Tex.

CORPORALS.

Joseph Boyer. H. Boyer, care of American Consul, Fort de France, Martinique, West Indies.

Edwar L. Faleer. Mrs. Lena Faleer, 2117 Jefferson Avenue, Detroit, Mich.

Wynter M. Felland. Mrs. Trena Felland, R. F. D. No. 2, Madison, Wis.

Math. P. Friedrich. Mrs. Mary Kraus, 1312 Marshall Street NE., Minneapolis, Minn.

David B. Hunt. M. O. Hunt, 549 Fourth Street, Portland, Oreg.

Wylie Margeson. George Margeson, R. F. D. No. 6, Marquoketa, Iowa.

Charlie Morris. Mrs. Pearl Perkins, Geneva, Nebr.

William C. Stekelberg. Fred Stekelberg, Middleton, Wis.

James B. Turner. L. T. Turner, Mashulaville, Miss.

Cook George McGarvey. Hattie Hedger, 930 West First Street, Terre Haute, Ind.

PRIVATES.

Tilmon Bethel Dromion Adcock. Robert David Adcock, R. F. D. No. 3, Rock Island, Tenn.

Fred Apperley. Vernon Apperley, Whitewood, Saskatchewan, Canada.

Charlie W. Askins. Albert Askins, Lovington, Ill.

Ray P. Ackley. Emma Ackley, Odanah, Wis.

Edward Baldis. Alfred Knith, 405 Cooper Avenue, Detroit, Mich.

Bernt Benson. Alfred Benson, 146 Center Street, Eau Claire, Wis.

Wallace O. Benson. Mrs. Mary H. Benson, Donelson, Tenn.

John J. Blanchard. Mrs. Alice Blanchard, Amelia, La.

Frederick H. Blauvelt. Charles H. Blauvelt, 1245 Flatbush Avenue, Brooklyn, N. Y.

Andrew S. Brownwell. Mrs. Alice Brownwell, Lewiston Junction, Mifflin County, Pa.

Gust A. Bruum. Christ Bruum, General Delivery, Mellen, Wis.

Comenico Castagnola. John Castagnola, 403 Bradord Street, Johnstown, Pa.

Jasper Chance. Charlie Chance, Swift Creek Cotton Mill, Box 242, Petersburg, Va.

Ralph Christie. Mrs. Isabell Curtis, 4 Bennett Street, Woburn, Mass.

Samuel Herbert Creel. Mrs. Ada A. Creel, Station B, Charleston, W. Va.

Clyde L. Davis. Robert A. Davis, R. F. D. No. 2, Monroe, Ind.

Addresses of Men Missing After Seaplane Accident

Ensign Donald C. Pero, United States Naval Reserve Force, who is reported missing as the result of a seaplane collision on August 24, was born at Indian Orchard, Mass., January 14, 1896. He served as an enlisted man in the United States Naval Reserve Force prior to his appointment as an ensign last March. He was stationed at the naval air station, Pensacola, Fla., and on March 26, 1918, was ordered to Rockaway, Long Island, where he was serving at the time of the accident. Father, George F. Pero, 257 Oak Street, Indian Orchard, Mass.

The two enlisted men also missing as a result of the collision are: W. C. Jaegle, chief machinist's mate, United States Naval Reserve Force. Father, W. C. Jaegle, 1985 Southern Boulevard, New York.

F. A. Newman, machinist's mate, first class, United States Navy. Mother, Mrs. Anna Newman, 381 Elk Street, Buffalo, N. Y.

Two Navy Men Killed in France in Plane Accident

The Navy Department is informed that Dale Vern Campbell, quartermaster, second class, United States Navy, and Lester Achan Barnett, quartermaster, second class, United States Navy, were killed in France August 22, in a seaplane accident. The body of Campbell has not been recovered.

Campbell enlisted December 14, 1917, at Portland, Oreg. Next of kin, mother, Mrs. Lulu Campbell, Portland, Oreg. Barnett enlisted December 12, 1917, at Nashville, Tenn. Next of kin, father, Jeff Davis Barnett, Mount Pleasant, Tenn.

NEW RULES FOR CONSERVATION OF PRINT PAPER IN COUNTRY EDITIONS OF BIG CITY DAILIES AND "MAIL ORDER" PUBLICATIONS

The War Industries Board authorizes the following:

The War Industries Board, through its pulp and paper section, Thomas E. Donnelley, chief, has issued regulations for the conservation of print paper used in the country editions of metropolitan dailies, published either weekly, semiweekly, or triweekly, and "mail-order" weeklies, which reduce their tonnage of paper used 15 per cent, as compared with the tonnage used during the six months, January 1 to June 30, inclusive, of the present year. The regulations become effective September 9.

Suggesting the abolishment of a number of practices that under war conditions are considered wasteful and unbusinesslike the pulp and paper section calls on the publishers affected by the new regulations to report on their publications for last year as to total paper tonnage used, quality and weight of paper, size in inches, average number of pages and average number of copies issued.

Text of Regulations.

The regulations in full follow:

To publishers of weekly, semiweekly, or triweekly editions of metropolitan papers for country circulation, and for "mail-order" publications:

We are inclosing herewith a copy of the regulations for the weekly, semiweekly, or triweekly editions of metropolitan papers for country circulation, and for mail-order publications.

Will you kindly send us a report for the year July 1, 1917, to June 30, 1918, covering the following:

First. Quality and weight of paper used in your publication.

Second. Size in inches of your publication.

Third. The average number of pages.

Fourth. The average number of copies printed.

Fifth. Total tonnage used during the year.

REGULATIONS FOR COUNTRY EDITIONS OF METROPOLITAN DAILIES AND "MAIL-ORDER" PUBLICATIONS.

TONNAGE ALLOWED.

Country editions of metropolitan dailies, published either weekly, semiweekly, or triweekly, and "mail-order" weeklies shall reduce their tonnage of paper used 15 per cent over the tonnage used during the six months January 1, 1918, to June 30, 1918, inclusive, this regulation to become effective September 9, 1918.

Any publisher whose circulation has increased by legitimate methods an unusual amount over the average circulation for the six months January 1, 1918, to June 30, 1918, may present his case for special consideration.

ADDITIONAL REGULATIONS.

Discontinue selling advertising upon a guaranty of circulation requiring a rebate if circulation falls below guaranteed amount.

Because of the absolute necessity of curtailing the use of paper, no new publications may be established during the period of the war unless it can be shown that such publication is an absolute necessity.

SUGGESTIONS.

The pulp and paper section does not guarantee to the publisher an adequate supply of paper after the above curtailment is put into effect. The supply of paper depends entirely upon the limitation of coal, supplies, transportation, and labor, and conditions may arise where the demand for war products will require an additional curtailment. If such conditions arise, special consideration will be given to those publishers who have established themselves upon the most economical basis. Certain practices, which under normal conditions might be justifiable, are, under war conditions, considered wasteful and unbusinesslike, and if possible each publisher should attempt to eliminate the following:

(1) Continuing subscriptions after date of expiration, unless subscriptions are renewed and paid for.

(2) Giving free copies—except for actual service rendered; except to camp libraries and huts of organizations recognized by the Government, such as the Y. M. C. A., K. of C., etc.; except to the Library of Congress and other libraries which will agree to bind for permanent keeping; except to Government departmental libraries which use said papers in their work; and except for similar reasons.

(3) Giving free copies to advertisers, except not more than one copy each for checking purposes.

(4) Accepting returns from news dealers of unsold papers.

(5) Sending free copies for the purpose of stimulating circulation or advertising, except upon application and except to a limit of 1 per cent of circulation.

(6) Sending free copies in exchange for other publications.

(7) Selling at an exceedingly low or nominal subscription rate.

(8) Selling to subscribers below published subscription rate, except in clubbing with other periodicals, when the price should not be less than 75 per cent of the sum of published prices.

(9) Selling premiums with periodicals unless a price is put upon the premium for sale separately, and the combined price is at least 75 per cent of the sum of the individual prices.

A statement will be required November 1, 1918, as to how many of these practices have been discontinued.

The urgent necessity of economizing in the use of paper in every possible way can not be too strongly emphasized, and each publisher should carefully:

Restrict the overruns which are printed for files, office copies, etc.

Scrutinize the pressroom wastes.

Consider the possibility of reducing the size of the type and the margins.

Procure, as far as possible, paper and all other materials from the nearest available source of supply, provided it is consistent with price, quality, and service.

If it is possible for publishers to reduce their tonnage of paper below the allotted amount, it is their patriotic duty to do so.

ALL SOLUBLE COFFEE IN U. S. BOUGHT FOR USE OF ARMY

The War Department authorizes the following:

The entire output of all factories in the United States making soluble coffee is now being purchased by the Quartermaster Corps for the use of the Army. The quantity at present being manufactured, however, is not sufficient to meet the great demand, and as a result new companies are being organized and large capital is being expended to insure a largely increased output of the soluble coffee for the near future.

Used in the Trenches.

Practically all the soluble coffee now being supplied to the Army is used in the front-line trenches. It is not always possible to have hot water in the trenches, for there are times when it can not be brought up from the rear and the heating of water causes a raising of smoke, which invites the fire of the enemy. Cold water is nearly always to be found in the canteens carried by the men, and this assures the making of good, strong coffee, even though it is cold.

Great Care in Manufacture.

The subsistence division of the Quartermaster Corps sees to it that great care is exercised in the manufacture of soluble coffee, so that it can easily be dissolved in cold water. Experiments have been made to have the soluble coffee put up in stick form, very similar to sticks of chewing gum, to be wrapped in waterproof wrappers.

An increased supply of the soluble coffee will mean an added comfort for the troops not only in the trenches but it will enable the men to have coffee when in isolated places or hidden in out-of-the way sections and listening posts.

Postmasters' Telegrams Should Be Made Explicit

OFFICE OF FIRST ASST.
POSTMASTER GENERAL,
Washington, Aug. 20, 1918.

The department has experienced a considerable amount of difficulty and loss of clerical time in efforts to locate the files or previous correspondence referred to in the telegrams from postmasters, which fail to include the subject or sufficient description of the inquiry.

Postmasters are expected to comply with the requirements of paragraph 3 of section 287, Postal Laws and Regulations, with reference to the brevity of official telegrams, but they should be careful also to include therein sufficient information to readily identify any departmental file or previous correspondence to which they may relate.

Telegrams which do not include such information can not be given consideration.

J. C. KOONS,
First Asst. Postmaster General.

Regulations for the Control of Paper When Used in Magazine Publications Issued by the War Industries Board

The War Industries Board authorizes the following:

The War Industries Board, through the pulp and paper section, announces regulations for the control of paper used in the production of all periodicals entered at the Post Office Department as second-class mail matter, with the exception of newspapers and agricultural publications, which are made the subject of special regulations.

Relate to Magazines Generally.

These regulations, which cover magazines generally, are made effective for weekly periodicals September 15 and for bimonthlies and quarterlies which are put on sale subsquent to October 2. Inability to comply with the regulations because of mechanical reasons by the dates proposed must be set forth in letters to be filed with Thomas E. Donnelley, chief of the pulp and paper section.

The regulations fix the weights of paper that may be used by periodicals, while allowing consumption of stocks of heavier paper on hand; suggest specific methods for curtailment in tonnage from that used last year and add an arbitrary reduction of 10 per cent on average tonnage, with no guaranty of adequate supply under the reduced tonnage; suggest discontinuance of many alleged wasteful practices and also the selling of advertising with a guaranty of circulation, requiring a rebate if circulation falls below the guaranteed amount.

Text of the Regulations.

The regulations in full follow:

To publishers of all periodicals except newspapers and agricultural publications:

The priority board of the War Industries Board has listed paper mills as an essential industry and has rated them in fourth class for priority for coal on the distinct understanding that all wasteful uses of paper shall be eliminated and the necessary use be curtailed to the minimum.

Paper mills will be put upon the priority list for coal conditioned upon their signing a pledge that they will furnish no paper to any consumer who will not also sign a pledge in duplicate that he will exercise the greatest possible economy in the use of paper and will observe all rules and regulations of the Conservation Division and of the Pulp and Paper Section of the War Industries Board.

The following regulations have been made by the Pulp and Paper Section of the War Industries Board for the control of paper used in the production of all periodicals entered as second-class matter, with the exception of newspapers and agricultural publications.

The following regulations shall be effective for weekly periodicals September 15, 1918; for bimonthlies and quarterlies which are put on sale subsequent to October 2, 1918. If for mechanical reasons it is impossible to put these regulations into effect on the above dates, a concise statement of reasons must be sent by letter to this office as soon as possible.

WEIGHTS OF PAPER.

No periodical shall use in its production any paper heavier than the following basis:

News	24 x 36— 36
Machine finish	25 x 38— 45
Super calendered for body	25 x 38— 50
Super calendered for color work	25 x 38— 70
Coated for body or inserts	25 x 38— 70
Cover, only of sufficient weight to properly protect publication and not to exceed:	
Coated	25 x 38—100
Super	25 x 38— 90

All stocks on hand heavier than the above weights may be used and computed as of the above weights in figuring the tonnage allowed in the following regulations.

If any publisher desires to substitute supercalendered for coated, or news for super or machine finish, the use of heavier weights than the above schedule will be considered by this office.

TONNAGE ALLOWED.

Each publisher shall figure the total tonnage he would have used during the year July 1, 1917, to June 30, 1918, inclusive, had he used body and insert paper of the above weights and cover paper of the weight he actually used, provided it did not weigh more than 100 pounds for coated and 90 pounds for supercalendered. From this amount he will deduct one-half of the tonnage represented by items 1, 2, 3, 4, 5, and 6 of the suggestions printed below. He will be allowed hereafter this last amount less 10 per cent as his average tonnage.

This saving may be accomplished by a further reduction in weight, by cutting the number of pages, curtailment of circulation, or in any other way the publisher chooses, and the tonnage may be used for reading matter, advertisements, or circulation as the publisher chooses.

This tonnage will be apportioned by issue, but any publisher may use more or less than the average tonnage in any one issue, provided the total tonnage in any six months is not exceeded.

Any publisher whose circulation has increased by legitimate methods in an unusual amount over the average circulation for the year July 1, 1917, to June 30, 1918, may present his case for special consideration.

ADDITIONAL REGULATIONS.

Discontinue selling advertising with a guaranty of circulation requiring a rebate if circulation falls below guaranteed amount.

Because of the absolute necessity of curtailing the use of paper, no new publications may be established during the period of the war unless it can be shown that such publication is an absolute necessity.

SUGGESTIONS.

The pulp and paper section does not guarantee to the publisher an adequate supply of paper after the above curtailment is put into effect. The supply of paper depends entirely upon the limitation of coal, supplies, transportation, and labor, and conditions may arise where the demand for war products will require an additional curtailment. If such conditions arise, special consideration will be given to those publishers who have established themselves upon the most economical basis. Certain practices which, under normal conditions might be justifiable, are, under war conditions, considered wasteful and unbusinesslike, and if possible, each publisher should attempt to eliminate the following:

(1) Continuing subscriptions after date of expiration, unless subscriptions are renewed and paid for.

(2) Giving free copies—except for actual services rendered; except to camp libraries and huts of organizations recognized by the Government, such as the Y. M. C. A., K. of C., etc.; except to the Library of Congress and other libraries which will agree to bind for permanent keeping; except to Government departmental libraries which use said periodicals in their work, and except for similar reasons.

(3) Giving free copies to advertisers, except not more than one copy each for checking purposes.

(4) Accepting returns from newsdealers of unsold papers.

(5) Sending free copies for the purpose of stimulating circulation or advertising, except upon application and except to a limit of 1 per cent of circulation.

(6) Sending free copies in exchange for other publications.

(7) Selling at an exceedingly low or nominal subscription rate.

(8) Selling to subscribers below published subscription rate, except in clubbing with other periodicals, when the price should not be less than 75 per cent of the sum of published prices.

(9) Selling premiums with periodicals unless a price is put upon the premium for sale separately, and the combined price is at least 75 per cent of the sum of the individual prices.

A statement will be requested November 1, 1918, as to how many of these practices have been discontinued.

The urgent necessity of economizing in the use of paper in every possible way can not be too strongly emphasized, and each publisher should carefully—

Restrict the overruns which are printed for files, office copies, etc.

Scrutinize the pressroom wastes.

Consider the possibility of reducing the size of the type and margins.

Procure, as far as possible, paper and all other materials from the nearest available source of supply, provided it is consistent with price, quality, and service.

If it is possible for publishers to reduce their tonnage of paper below the allotted amount, it is their patriotic duty to do so.

GIVES CANNON TO GOVERNMENT.

The War Department authorizes the following statement:

Mr. Francis Bannerman has patriotically offered to the United States two 6-inch .30-caliber guns, together with $20,000 for the purpose of furnishing the guns with modern field carriages. Upon the recommendation of the Chief of Ordnance, the Secretary of War has accepted this gift on behalf of the War Department.

P. C. MARCH,
General, Chief of Staff.

LIST OF QUARTERMASTER PURCHASES PASSED BY THE BOARD OF REVIEW

The following is a list of purchase orders and contracts approved by the Board of Review of the Office of the Quartermaster General:

AUGUST 16, 1918.

PURCHASE ORDERS.

Lehigh Paper Mills (Inc.), New York City, toilet paper.
Larkin Co., Buffalo, N. Y., extracts.
Wisconsin Butter & Cheese Co., Elkhorn, Wis., evaporated milk.
S. C. Woolman & Co. (Inc.), Philadelphia, Pa., timothy hay.
Gannon Mills, New York City, terry cloth (gas masks).
Tatum, Pinkham & Greey, New York City, terry cloth (gas masks).
Bigelow Brush Co., Baltimore, Md., brushes (hair).
Wilson & Co., Chicago, Ill., butter.
Stein, Hall & Co., Chicago, Ill., flour (rice).
Cudahy Packing Co., Chicago, Ill., lard substitute.
Wilson & Co., Chicago, Ill., butter.
Ontario Knife Co., Franklinville, N. Y., knives.
Holt Mfg. Co., Peoria, Ill., caterpillar tractor.
Standard Oil Co. of New Jersey, New York City, fuel oil.
Standard Oil Co. of Kentucky, Louisville, Ky., gasoline.
Canadian Shovel & Tool Co., New York City, shovels.
Stone & Forsyth, Boston, Mass., toilet paper.
Hunter Walton & Co., New York City, butter.
Oscar Fronnel & Bro., New York City, potatoes.
Atlanta Canning Co., Atlanta, N. Y., apples.
Southwest Hay & Grain Co., Phoenix, Ariz., alfalfa hay.
Wisconsin Butter & Cheese Co., Elkhorn, Wis., evaporated milk.
Libby, McNeill & Libby, Chicago, Ill., evaporated milk.
M. Piowaty & Sons, Chicago, Ill., potatoes.
John Hoberg Co., Green Bay, Wis., toilet paper.
Grand Ledge Milk Co., Detroit, Mich., evaporated milk.
Valeoia Evaporated Milk Co., Madison Wis., evaporated milk.
John E. Murray, New York City, timothy hay.
United States Finishing Co., Darlington, R. I., tent duck.

CONTRACTS.

New England Whip Co., Westfield, Mass., whiplashes.
Landers, Frary & Clark, New Britain, Conn., butchers' steels.
Beall Tool Co., East Alton, Ill., tongs.
C. J. Tagliabue Manufacturing Co., Brooklyn, N. Y., dough thermometers.
Champion Tool Co., Meadville, Pa., tongs.
Wellington, Sears & Co., Boston, Mass., tent duck.
Bronx Co., New York City, dyeing and finishing duck.
Landers, Frary & Clark, New Britain, Conn., knives.
Channon-Emery Stove Co., Quincy, Ill., Army ranges.
Wrought Iron Range Co., St. Louis, Mo., Army ranges.
Ivory Handle Co., Hope, Ark., ax helves.
Paramount Knitting Co., Chicago, Ill., wool stockings.
Lawrence & Co., New York City, dugout blankets.
L. Margulies & Son (Inc.), New York City, wool trousers.
Schwartz, Jaffee & Charles D. Jaffee (Inc.), New York City, wool trousers.
Apfelberg, Rosenblett & Co., New York City, wool trousers.
Edward Tailoring Co., Baltimore, Md., wool trousers.
Schulmen Co., New York City, wool trousers.
I. Berger & Co., Newark, N. J., wool trousers.
Woodbine Children's Clothing Co., Woodbine, N. J., wool trousers.
Graton & Knight Manufacturing Co., Worcester, Mass., revolver holsters.

AUGUST 17, 1918.

PURCHASE ORDERS.

A. E. Little Co., Lynn, Mass., leggins.
Zimmer & Dunkakm, New York City, butter.
Wisconsin Dairy Products Co., Stoughton, Wis., evaporated milk.
Hales & Edwards, Chicago, Ill., burlap sacks.
Miller Lock Co., Philadelphia, Pa., padlocks.
Marsh & Truman Lumber Co., Chicago, Ill., lumber.
Standard Oil Co. of New Jersey, New York City, fuel oil.
Arcady Farms Milling Co., Chicago, Ill., white oats.
Niezer & Co., Fort Wayne, Ind., white oats.
Charles F. Baker & Co., Boston, Mass., nails (2).
Pittsburgh Steel Co., Washington, D. C., nails.
Jones & Laughlin Steel Co., Pittsburgh, Pa., nails.
Studebaker Corporation of America, Detroit, Mich., auto parts.
Lamb, Finlay & Co., New York City, jute canvas.
C. A. Myers Co., Chicago, Ill., awls.
Sturtevant, Wright & Wagner, Beloit, Wis., milk.
Oelerich & Berry Co., Chicago, Ill., sirup.
Denmark Condensed Milk Co., Denmark, Wis., milk (2).
Sturtevant, Wright & Wagner, Beloit, Wis., milk.
Baker Importing Co., Minneapolis, Minn., coffee.
Fitch, Cornell & Co., New York City, butter.
Fox River Butter Co., New York City, butter.
S. C. Woolman & Co. (Inc.), Philadelphia, Pa., hay.

CONTRACTS.

Max Applebaum, New York City, finished venetians.
The Richardson Garment Co., Kalamazoo, Mich., wool trousers.
M. J. Whittall Associates, Worcester, Mass., O. D. webbing.
M. Loeb, Jersey City, N. J., wool trousers.
H. Daroff & Son, Philadelphia, Pa., wool trousers.
James Smith & Son, Brooklyn, N. Y., saddler's sewing palms.
Tucker & Dorsey Mfg. Co., Indianapolis, Ind., spatulas.
The Compound Merchandise Co., New York City, harness menders.
E. T. Wright & Co. (Inc.), Rockland, Mass., field shoes.

Important Notice to U. S. Purchasing Agents

Purchasing agents for the various Government departments and the special United States war administrations are earnestly reminded to send to the Official U. S. Bulletin at the earliest possible moment all copy for bids to be advertised and purchase awards, in order that these may be promptly and correctly printed in the Bulletin in accordance with the orders of the Secretary of War and other heads of departments.

The task of preparing this copy for publication, with a view to absolute correctness and continuity, is a considerable one, but, with the cooperation of the purchasing agencies, should result in a great help, not only to the departments themselves, but to bidders throughout the country, all of whom, through the medium of the Official Bulletin, are desirous of keeping informed of the Government's needs.

Louis Walther Mfg. Co., Philadelphia, Pa., shirting flannel.
Black Cat Textiles Co., Kenosha, Wis., underwear.
Wellington, Sears & Co., Boston, Mass., gray duck.
Hart, Schaffner & Marx, Chicago, Ill., wool trousers.
Spitz Bros. & Meyer Co., Chicago, Ill., wool trousers.
Wilson Bros., Chicago, Ill., underwear.
Reinberg & Greenberg, New York City, wool trousers.
Specialty Knee Pants Co., New York City, wool trousers.
The France Co., Chicago, Ill., wool trousers.
Kreiger-Frankel Uniform Co., New York City, wool trousers.
B. Axe & Co., Philadelphia, Pa., wool trousers.
John Taaffe (Inc.), New York City, wool trousers.
Levy & Schilt, New York City, wool trousers.
The Torrey-Epstein Co., Stoughton, Mass., wool trousers.
David Epstein & Co., New York City, wool trousers.
Colin & Spiewak, New York City, wool trousers.
Zeeman & Grossman, New York City, wool trousers.
Quinto, Cohn & Levin (Inc.), New York City, wool trousers.
Pahl-Hoyt Co., Brooklyn, N. Y., wool trousers.
Milton Simpson Co., New York City, wool trousers.
Rosenwald & Weil, Chicago, Ill., cotton service coats.

AUGUST 19, 1918.

PURCHASE ORDERS.

Landers, Frary & Clark, New Britain, Conn., knives.
Kokomo Steel & Wire Co., Kokomo, Ind., nails.
Sturtevant, Wright & Wagner, Beloit, Wis., evaporated milk.
The Standard Parts Co., Cleveland, Ohio, motor parts.
J. M. Alderson, Newport, Nebr., hay.

CONTRACTS.

B. & L. Textile Co., Cohoes, N. Y., cotton drawers.
The Scioto Rubber Co., Columbus, Ohio, wool trousers.
Perfect Pants Co., New York City, wool trousers.
C. S. Osborne & Co., Newark, N. J., saddler's knives.
Budke Mfg. Co., Parkersburg, W. Va., elbows and stovepipes.
Chantrell Hardware & Tool Co., Reading, Pa., door bolts.
Tucker & Dorsey Mfg. Co., Indianapolis, Ind., potato mashers.
Thurman Mfg. Co., Philadelphia, Pa., knitted puttees.
D. M. Oberman Mfg. Co., Jefferson City, Mo., wool trousers.
Seltzer Bros., Philadelphia, Pa., wool trousers.
Sigmund Eisner Co., Red Bank, N. J., wool service breeches.
Weinstein & Brecher (Inc.), New York City, wool trousers.
The Commercial Shirt Co., New York City, flannel shirts.
Koppelman Clothing Co., New York City, wool trousers.
Elmira Knitting Mills, New York City, underwear.
Way Bros. Mfg. Co., Philadelphia, Pa., wool drawers.
Sunset Mfg. Co. (Inc.), Brooklyn, N. Y., wool trousers.
New York Uniform Co., New York City, wool service coats.
Lenigan Uniform Co., New York City, wool service coats.
M. L. Stickle, New Haven, Conn., wool trousers.
Weinstein & Fabrikant, Brooklyn, N. Y., wool trousers.
H. Fisher & Co., New York City, wool trousers.
Conway Co., New York City, wool trousers.
J. J. Preis & Co., New York City, wool service coats.
J. C. Platt Clothing Co., New York City, wool trousers.
Lyons & Zeeman, New York City, wool trousers.
Siegel & Siegel, New York City, wool service coats.
Brand Bros., New York City, wool trousers.
Leopold Morse Co., Boston, Mass., wool trousers.
Jacob David Sons & Co., New York City, wool trousers.
Progressive Knitting Works, New York City, wool trousers.

LIST OF PURCHASE CONTRACTS MADE BY BUREAU OF AIRCRAFT PRODUCTION

The following is a list of purchases contracted for by the Bureau of Aircraft Production:

[NOTE.—The first number at the beginning of each paragraph is the ORDER NUMBER, the second the CONTRACT NUMBER.]

August 9, 1918.

30442–18. 2250–2. Wright-Martin Aircraft Corporation, New Brunswick, N. J., spares for 150-horsepower type A Hispano-Suiza engine.

380630. 4453. Curtiss Aeroplane & Motor Corporation, Buffalo, N. Y., hexagon-head bolts with castellated nuts.

710121. 4448. Cherry Lumber Co., Cincinnati, Ohio, 60,000 feet walnut lumber.

710122. 4449. Brown & Harris Lumber Co., Holmesville, Ohio, 50,000 feet walnut lumber.

720116. 4452. West Virginia Aircraft Corporation, Wheeling, W. Va., spares for 500 JN4D training planes: Engine-bed bearers, elevators, rudders, wings, landing gears, etc.

720238. 4441. John A. Roebling's Sons Co., Trenton, N. J., 240,000 feet balloon cable.

720254. 4451. Pyrene Manufacturing Co., care of H. B. Vandergrift, Continental Hotel, Washington, D. C., 5,000 Pyrene fire extinguishers.

720257. 4454. Liberty Iron Works, Sacramento, Cal., spares for 100 JN4D planes: Elevators, vertical fins, landing gears, rudders, wings, etc.

750028. 4450. International Register Co., Chicago, Ill., 3,500 mechanical interrupter gears.

August 13, 1918.

20038A10. 1816A. Dayton-Wright Airplane Co., Dayton, Ohio, spares for D.H.4 planes: wings, stabilizer braces, front direct-wire fitting with tie rods.

20038A11. 1816A. Dayton-Wright Airplane Co., Dayton, Ohio, parts for D.H.4 pdanes: wings, right and left ailerons, elevators rudder, landing gears, etc.

30442–20. 2250–2. Wright-Martin Aircraft Corporation, New Brunswick, N. J., spares for Hispano-Suiza motors: Speedometer shaft and bushing assembly, cotter pins, air pump parts, gaskets, nuts, etc.

320017. 4472. N. C. L. Engineering Corporation, Providence, R. I., 50 N. C. L. windlasses, complete.

320018. 4473. James Cunningham Son & Co., Rochester, N. Y., 25 Cacquot windlasses.

320019. 4474. McKeen Motor Car Co., Omaha, Nebr., 25 Burton windlasses.

480057. 4481. Cleveland Tractor Co., Cleveland, Ohio, 10 standard model H Cleveland tractors.

710115. 4439. Livingston Radiator & Manufacturing Co., New York, N. Y., 541 Handley-Page type radiators.

710129. 4484. Whittaker-Glessner Co., Portsmouth, Ohio, 700 steel drums, 110-gallon capacity.

710131. 4487. Chase Metal Works, Waterbury, Conn., seamless copper tubing.

710132. 4490. Sheffield By-Products Co., New York, N. Y., 40,000 pounds casein.

August 14, 1918.

320020. 4482. N. C. L. Engineering Corps, New York, N. Y., 1 N. C. L. kite balloon windlass.

370117. 4493. Gilbert & Barker Manufacturing Co., Springfield, Mass., 10 tanks of 10,200 gallons' capacity each.

380702. 4492. Dobbie Foundry & Machine Co., Niagara Falls, N. Y., 100 No. 21 single-drum hand-power hoists.

380705. 4494. Henry Cheney Hammer Corporation, Little Falls, N. Y., 14,400 hammers.

380706. 4495. Henry Cheney Hammer Corporation, Little Falls, N. Y., 13,150 hammers.

380708. 4498. Collieries Supply & Equipment Co., Philadelphia, Pa., 48 electrical engineers' chests.

450020. 4497. Blaw-Knox Co., Pittsburgh, Pa., furnishing and fabricating necessary structural steel and accessory structural material for the construction of 70 hangars.

450021. 4406. Belmont Iron Works, Philadelphia, Pa., furnishing and fabricating 576 columns (approximately 1,500 pounds each).

710130. 4485. Whittaker-Glessner Co., Portsmouth, Ohio, 1,000 steel drums, 110 gallons' capacity.

710135. 4477. Ayer & McKinney, Philadelphia, Pa., 30,000 pounds casein.

720169. 4488. Standard Aero Corporation of New York, Elizabeth, N. J., 30 E-1 advanced planes constructed to mount Gnome motors.

720190. 4480. Standard Aero Corporation of New York, Elizabeth, N. J., 6 E-1 advanced planes constructed to take LeRhone motors.

720280. 4483. Fedders Manufacturing Co. (Inc.), Buffalo, N. Y., 109 radiators complete, with inlet and outlet connections.

720285. 4496. Hartzell Walnut Propeller Co., Piqua, Ohio, 1,000 wooden air fans.

720290. 4499. Hardman, Peck & Co., New York, N. Y., 500 sets of laminations for Handley Page propellers.

720295. 4501. Parsons Pulp & Lumber Co., Philadelphia, Pa., 4,800,000 feet spruce.

730204. 4500. Dayton Adding Machine & Tire Leek Co., Dayton, Ohio, 1,000 gun synchronizing generators.

730210. 4503. Light Manufacturing & Foundry Co., Pittstown, Pa., spares for OX5 engine, upper and lower crank case, bearing caps.

840041. 4489. Lamb, Finlay & Co., New York City, for services in connection with the handling, paying of duties, and shipping of airplane linens, tapes, and balloon cloths, which are being imported from Great Britain for the Bureau of Aircraft Production.

August 15, 1918.

410087. 4505. Louisiana Oxygen Co., New Orleans, La., 500,000 cubic feet hydrogen gas.

710137. 4504. Isaac McLean Sons Co., Dorchester, Boston, Mass., 10,000 feet African mahogany and 25,000 feet Mexican or Central American mahogany.

730198. 4491. Ericsson Manufacturing Co., Buffalo, N. Y., parts for Berling, type D81 magneto (99 items).

780031. 4508. Link Tool & Machine Corporation, New York City, miscellaneous thread gauges to be furnished from time to time.

820017. 4506. Paul Whitin Manufacturing Co., Northbridge, Mass., 25,000 yards cotton airplane fabric.

August 16, 1918.

30442–21. 2250–3. Wright-Martin Aircraft Corporation, New Brunswick, N. J., spares for type 3 engine (43 items).

31072–2. 2250–3 Wright-Martin Aircraft Corporation, New Brunswick, N. J., spares for type 3 engine (43 items).

370124. 4519. Universal Grinding Machine Co., Pittsburg, Mass., 1 No. 2 grinder with C equipment.

710139. 4512. Steward-Hartshorn Co., New York, N. Y., 2,000 sets complete streamline tie rods for D. H. 4 machines.

710140. 4513. Witherow Steel Co., Pittsburgh, Pa., 2,000 sets complete streamline tie rods for D. H. 4 machines.

710141. 4518. Eastman Kodak Co., Rochester, N. Y., 5,000 United States Army unit sights.

710142. 4514. J. V. Stimson & Co., Owensboro, Ky., 50,000 feet walnut lumber.

710143. 4516. Hoosier Veneer Co., Indianapolis Ind., 500,000 feet walnut lumber.

720233. 4440. Canadian Aeroplane (Ltd.), Toronto, Ontario, Canada, 12 wings for JN4D Canadian planes.

730212. 4515. Disco Manufacturing Co., Detroit, Mich., 3 000 C. C. gun synchronizing generators.

740092. 4517. Wireless Improvement Co., New York City, 1,500 S. C. R., 65 sets.

August 17, 1918.

450028. 4522. Arthur F. Smith Co., New York, N. Y., labor and material required to change 315 sets of curtains.

810021. 4520. Electro Metallurgical Sales Corporation, New York City, 1,000 tons ferrosilicon.

810022. 4523. Electro Metallurgical Sales Corporation, New York City, 200 tons ferrosilicon.

August 19, 1918.

160072. 4521. Novo Engine Co., Lansing, Mich., air compressor outfits.

30442–26. 2250–2. Wright-Martin Aircraft Corporation, New Brunswick, N. J., crank case.

30442–27. 2250–2. Wright-Martin Aircraft Corporation, New Brunswick, N. J., engine spares.

30442–28. 2250–2. Wright-Martin Aircraft Corporation, New Brunswick, N. J., engine spares.

30442–29. 2250–2. Wright-Martin Aircraft Corporation, New Brunswick, N. J., engine spares.

360104. 4528. Positype Co., Cleveland, Ohio, paper film.

710147. 4525. American Optical Co., Southbridge, Mass., 10,000 goggles [illegible].

710151. 4526. Gleason Works, Rochester, N. Y., generators.

720321. 4524. Canadian Aeroplanes (Ltd.), Toronto, Canada, spares for JN4D planes.

720324. 4527. English & Mersick Co., New Haven, Conn., radiators.

August 20, 1918.

20038-A-13. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, stabilizer braces.

20038-A-15. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, stabilizer braces.

20038-A-23. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, connections for gasoline rubber joints.

20038-A-24. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, connections for gasoline rubber joints.

20038-A-25. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, connections for gasoline rubber joints.

20038-A-26. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, control cables.

20038-A-27. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, control cables.

20038-A-28. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, control cables.

20038-A-29. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, stabilizer braces.

30442-31. 2250-2. Wright-Martin Aircraft Corporation, New Brunswick, N. J., engine spares.

30442-36. 2250-2. Wright-Martin Aircraft Corporation, New Brunswick, N. J., engine spares.

340151. 4543. American Steel & Wire Co., 30 Church Street, New York City, wire.

380787. 4528. Columbia Steel & Shafting Co., 1145-1146 Munsey Building, Washington, D. C., cold-rolled steel.

380817. 4534. Western Block Co., Lockport, N. Y., tackle blocks.

720298. 4407. Curtiss Aeroplane & Motor Corporation, Buffalo, N. Y., spares for planes.

720331. 4531. John A. Roebling's Sons Co., Trenton, N. J., cable

720333. 4537. Buffalo Aeroplane Corporation, Buffalo, N. Y., propellers.

720334. 4541. Springfield Aircraft Corporation, Springfield, Mass., spares for planes.

730179. 4456. Willys-Overland Co., Toledo, Ohio, engines.

730220. 4536. Splitdorf Electrical Co., 98 Warren Street, Newark, N. J., magneto parts.

730221. 4532. Union Switch & Signal Co., Swissvale, Pa., engines.

730223. 4546. Winton Motor Car Co., Cleveland, Ohio, engines and spares.

730227. 4547. Union Switch & Signal Co., Swissvale, Pa., engines.

760113. 4529. Eastman Kodak Co., Rochester, N. Y., cameras.

820020. 4539. Aero Supplies Co., 864 East Thirty-ninth Street, Brooklyn, N. Y., goggles.

August 21, 1918.

20038-A-14. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, parts for planes.

20038-A-18. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, parts for planes.

20038-A-19. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, parts for planes.

20038-A-20. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, spares for planes.

20038-A-21. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, spares for planes.

20038-A-22. 1816-A. Dayton Wright Airplane Co., Dayton, Ohio, spares for planes.

30442-39. 2250-2. Wright-Martin Aircraft Corporation, New Brunswick, N. J., engine spares.

710155. 4554. C. L. Willey Co., 2558 South Robey Street, Chicago, Ill., lumber.

720293. 4552. Firestone Tire & Rubber Co., 312 Colorado Building, Washington, D. C., balloons.

720297. 4502. Thomas Morse Aircraft Corporation, Ithaca, N. Y., spares for planes.

720322. 4545. Walden-Worcester (Inc.), Worcester, Mass., parts for planes.

720323. 4544. Walden-Worcester (Inc.), Worcester, Mass., parts for planes.

720340. 4548. Lionel Manufacturing Co., 48 East Twenty-first Street, New York City, flame-proof keys.

720342. 4551. Connecticut Aircraft Co., New Haven, Conn., balloons.

730230. 4553. Bosch Magneto Co., 223-225 West Forty-fifth Street, New York City, magnetos and switches.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

Orders of U. S. Fuel Administration Establishing Regulations Relative to Charges Made by Lake Forwarders

The Fuel Administration issues the following statement concerning various orders of the United States Fuel Administration establishing regulations relative to charges by Lake forwarders and Lake fuelers on the Great Lakes, issued by legal division, United States Fuel Administration, August 8, 1918:

I. Prior to April 1, 1918.

No regulation of the United States Fuel Administration was in effect prior to April 1, 1918, and the only restriction was that contained in section 4 of the food and fuel control act declaring it unlawful "to make any unjust or unreasonable rate or charge in handling or dealing in or with any necessaries."

II. April 1 to April 25, 1918. (Publication 22.)

(a) Bituminous cargo coal: Lake forwarders' charges were limited by the provisions of rule 8 that the same should not be unjust, unreasonable, discriminatory, or unfair. No purchasing agent's commission could be charged to or paid by a Lake forwarder.

(b) Bituminous fuel coal: (1) If the Lake forwarder was a licensee and acted as a purchasing agent in buying fuel coal for a vessel, the purchasing agent's commission of 15 cents per ton could be charged.

(2) If the Lake forwarder owned and physically handled the fuel coal furnished the vessel, he was a retailer and his margin was that fixed by the local fuel administrator for retail transactions.

(3) If no retail margins were applicable, the Lake forwarder's charge should not be "unjust, unreasonable, discriminatory, or unfair," as provided by rule 8 of Publication 22.

(4) As a retailer, the Lake forwarder could employ a purchasing agent to buy the fuel coal for him, and add such purchasing agent's commission of 15 cents per net ton to the price charged for the coal.

III. April 25 to June 1, 1918 (Rule 22).

(a) Cargo coal: The Lake forwarder's charge of 15 cents per net ton, which could be paid to, or divided with a purchasing agent not prohibited from receiving the same by rule 3 of Publication 22.

(b) Fuel coal: (1) The Lake forwarder could charge 15 cents per net ton even though he did not physically handle the coal, which could be paid to, or divided with a purchasing agent not prohibited from receiving the same by rule 3 of Publication 22.

(2) If the Lake forwarder physically handled the fuel coal, he was a retailer, and his margin was that fixed by the local fuel administrator for retail transactions.

(3) If no retail margins were applicable, then the Lake forwarder's charge should not be "unjust, unreasonable, discriminatory, or unfair," as provided in rule 8 of Publication 22.

(4) As a retailer, the Lake forwarder could employ a purchasing agent to buy the fuel coal for him and add such purchasing agent's commission to the price charged for the coal.

IV.

Since June 1, 1918, and now applicable, under orders of June 5, 1918, and August 6, 1918:

(a) A Lake forwarder may charge 20 cents per ton on cargo coal for his services.

(b) A Lake forwarder may charge 25 cents per ton for fuel coal furnished a vessel, and 50 cents additional, or a total of 75 cents per ton, where the coal is delivered to the vessel by barge or scow.

(c) A purchasing agent may be employed by the Lake forwarder to buy either cargo or fuel coal and charge a commission of 15 cents per ton, if not prohibited by rule 3 of Publication 22 from so doing.

(d) A Lake forwarder may pay a purchasing agent 15 cents per ton for buying either cargo or fuel coal for him and add same to the 20 cents allowed for cargo coal and the 25 cents or 75 cents allowed for fuel coal.

(e) A licensed distributor acting as a Lake forwarder or Lake fueller who purchases coal from an entirely independent mine, or from a mine not owned or controlled by another Lake forwarder or Lake fueller, may add the purchasing agent's commission of 15 cents per ton to the 20 cents per ton allowed on cargo coal, and to the 25 cents or 75 cents allowed on fuel coal, but such sum can not be added if the Lake forwarder has employed an independent purchasing agent in the purchase of such coal.

(f) No commissions whatever can be added by Lake forwarders or Lake fuellers to the applicable Government price of anthracite coal.

U. S. FUEL ADMINISTRATION,
By W. T. ALDEN,
General Solicitor.

BITUMINOUS COAL PRICES SET FOR CERTAIN MINES IN VIRGINIA

The United States Fuel Administration issues the following:

WASHINGTON, D. C.,
August 13, 1918.

Applications having been made to the United States Fuel Administrator for a revision of the prices of bituminous coal mined in Lee County, Va., at the mines operated by Mohawk Coal Mining Co., Keokee, Va.; Powell River Coal Co., Purcell, Va.; and North Fork Coal Co., Pennington Gap, Va.; the United States Fuel Administrator, after due consideration of such applications, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs, That bituminous coal mined in Lee County, Va., at the mines operated by Mohawk Coal Mining Co., Keokee, Va.; Powell River Coal Co., Purcell, Va.; and North Fork Coal Co., Pennington Gap, Va.; may be sold at prices f. o. b. cars at the mine not to exceed the following per net ton: For run of mine, $2.55; for prepared sizes, $2.80; for slack or screenings, $2.30. To the foregoing prices may be added the 45-cent allowance for wage increase, if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., August 20, 1918.

H. A. GARFIELD,
United States Fuel Administrator.
By CYRUS GARNSEY, Jr.,
Asst. U. S. Fuel Administrator.

HANDLING AND FORWARDING LAKE TRANSPORT CHARGES

The Fuel Administration issues the following:

To adjust charges for handling and forwarding lake cargo coal and fuel for lake vessels various amendments to the original regulations have been made, the United States Fuel Administration announces.

Heretofore, except during such period of time as specific sums were allowed by order of the Fuel Administration to be charged for designated service, the only restriction was that contained in the food and fuel control act, declaring it unlawful to "make any unjust or unreasonable rate or charge in handling or dealing with any necessaries."

Rules Now in Force.

Since June 1, 1918, and now applicable, under orders of June 5, 1918, and August 6, 1918, the following regulations and rates of charges for such service are in force:

(a) A lake forwarder may charge 20 cents per ton on cargo coal for his services.

(b) A lake forwarder may charge 25 cents per ton for fuel coal furnished a vessel and 50 cents additional, or a total of 75 cents per ton, where the coal is delivered to the vessel by barge or scow.

(c) A purchasing agent may be employed by the lake forwarder to buy either cargo or fuel coal and charge a commission of 15 cents per ton, if not prohibited by rule 3 of Publication 22 from so doing.

(d) A lake forwarder may pay a purchasing agent 15 cents per ton for buying either cargo or fuel coal for him and add same to the 20 cents allowed for cargo coal and the 25 cents or 75 cents allowed for fuel coal.

(e) A licensed distributor acting as a lake forwarder or lake fueler, who purchases coal from an entirely independent mine, or from a mine not owned or controlled by another lake forwarder or lake fueler, may add the purchasing agent's commission of 15 cents per ton to the 20 cents per ton allowed on cargo coal, and to the 25 cents or 75 cents allowed on fuel coal, but such sum can not be added if the lake forwarder has employed an independent purchasing agent in the purchase of such coal.

(f) No commissions whatever can be added by lake forwarders or lake fuelers to the applicable Government price of anthracite coal.

BATTLE LINE NOW 50 MILES; BRITISH STEADILY ADVANCING, GENERAL MARCH TELLS PRESS

FRENCH OFFENSIVE IS INCREASING

Deep Salient Made Into Foe Position Opposite Roye—Allies Take 112,000 Prisoners and 1,300 Cannons Since July First.

Semiweekly press interview by Gen. March, August 28, 1918:

When I spoke to you last Saturday the British drive on the front between the Scarpe and the Somme was carrying the allied lines forward over the hilly plains east of Albert. The allies advanced Saturday and Sunday, in spite of more or less determined resistance by the enemy. On Monday, the British captured the heights east of Arras known as Orange Hill, and on Tuesday continued along the Arras-Cambrai road to a depth of 5 miles. This advance of the British overran the so-called Hindenburg line a distance of 1 mile on a front of 3 miles.

British Press On 40-mile Front.

On Tuesday the pressure by the British spread along a front of 40 miles, down to the junction with the French line.

In the meantime, the French began a new offensive opposite Roye on a 10-mile front and went forward a distance of 2 miles. The railroad junction at Roye, a very important point, fell into the hands of the allies, and also the ground east of it, which is quite high and very important. So the total width of the line of battle yesterday was about 50 miles.

This morning the French, according to their official statement, have made a deep salient in this line, cutting out and putting between the pincers a new salient of the German lines. They have reached

(Continued on page 3.)

General Order Relating to the Rank and Title of U. S. Naval Officers

Secretary Daniels has issued the following General Order, No. 418:

"Applicable alike to regulars and reservists, the uniform of any given rank or rating in the Navy shall hereafter be identical in every respect throughout except for the necessary distinguishing corps devices; and every officer in the Navy shall be designated and addressed by the title of his rank without any discrimination whatever.

"JOSEPHUS DANIELS,
"Secretary of the Navy."

Call for 5,000 White Men for the Military Service Issued by Gen. Crowder

The War Department authorizes the following:

An additional call for 5,000 white men for general military service was issued to-day by the Provost Marshal General. This call is supplementary to the general call announced last week. Of the 5,000 called, 2,500 will come from Illinois and 2,500 from Pennsylvania. The men from both States will be sent to Camp Forest, Lytle, Ga., and will leave for the camp between September 3 and September 6.

SUFFOCATED IN COAL BUNKER.

The Navy Department is informed that Fred C. Clark, fireman, second class, United States Navy, was suffocated in a coal bunker of the U. S. S. *Albany* while coaling ship on the afternoon of August 22. Mother, Mrs. Emma Clark, Wenatchee, Wash.

JOHN D. RYAN MADE AIR SERVICE DIRECTOR AND ACTING SECOND ASSISTANT SECRETARY OF WAR

TAKES PLACE OF MR. STETTINIUS

Latter to Continue as Special Representative of the War Department in France—Mr. Crowell to Direct Munitions Program.

The Secretary of War authorizes the following:

With the concurrence of the President, I have to-day selected Mr. John D. Ryan to act as Second Assistant Secretary of War in the place of Mr. Edward R. Stettinius, who is now in France. Mr. Stettinius will continue the special representative of the War Department in France, with full power to carry out special missions with which he is charged, and will exercise as such special representative all the powers he has heretofore had.

Director of Air Service.

Mr. John D. Ryan, as Second Assistant Secretary, is designated director of air service and is charged with the responsibility of procuring and furnishing to the Army in the field the materiel and personnel required for the air service, and is given supervision, control, and direction over the Bureau of Aircraft Production and the Bureau of Military Aeronautics with full power completely to coordinate their activities and to develop and carry out the air program. Mr. Ryan will select a new head for the Bureau of Aircraft Production.

Mr. Crowell Munitions Director.

Mr. Benedict C. Crowell, First Assistant Secretary of War, is specially intrusted with the responsibility for the munitions program, and as director of munitions is given the necessary power to see that the munitions required for our military operations are procured and furnished to the Army in the field.

Mr. Keppel retains the duties heretofore assigned him.

The new relation assumed by Mr. Stettinius is in pursuance of a plan fully discussed with him before he went to Europe, and with which he is in full accord.

Pro-German Rumors About Bank Savings Pronounced Absurd by Secretary M'Adoo

Secretary McAdoo made the following statement:

My attention has been called to an insidious propaganda that is being carried on, probably by secret agents of Germany, to sow the seeds of distrust in the minds of savings bank depositors by false rumors that the United States Government is contemplating the confiscation of the savings of the people. The absurdity of these statements is manifest. In order, however, to allay the fears of the few who might be alarmed by such reports, I repeat that these rumors are wholly baseless.

TWENTY QUESTIONS ON THE CARD

Copies in Poster Form to be Widely Circulated in Factories and Other Places to Familiarize Men with Form of Answers Required.

The War Department authorizes the following from the office of the Provost Marshal General:

The Provost Marshal General has issued to local draft boards throughout the United States detailed instructions for registrants on how to answer the questions on the registration cards that will be used in the enrollment of the men affected by the extension of the draft age limits.

Copies of these instructions, in poster form, are to be circulated among factories and other places of employment throughout the country and posted in all railroad stations, post offices, street cars, subway and elevated stations.

Twenty Questions on Card.

The 20 questions on the card, which is somewhat different in form from the card used in the registration of men between the ages of 21 and 31, and the instructions on how to answer them, are given below. Between now and registration day, early next month, prospective registrants are strongly urged by this office to study carefully both the questions and the instructions, in order to be able to give prompt response to the registrars. Similar request is made of the registrars.

Order of the Questions.

Answers to the questions will be written on the registration card by the registrars in ink and in the numerical order stated.

Question 1. Name.—The name must be given in full, thus: First name; middle name; last name. For example, "John Henry Smith."

Question 2. Permanent home address.—This means where you have your permanent home NOW, *not* the place where you work, *nor* the place where you were born, unless that is your permanent home. Be prepared to give it this way: "100 Woodward Avenue, Detroit, Wayne County, Mich., or R. F. D. No. 2, Jonesville, Smith County, Pa." If the registrant lives in an apartment house, he should state the number of the apartment in which he lives. If his address is "in care" of some one, this should be stated.

Age Stated in Years Only.

Question 3. Age in years.—State your age in YEARS only. Disregard additional months or days. Be prepared to say "34" or "38," not "34 years, 3 months" or the like.

Question 4. Date of birth.—If you do not remember the year, start to answer as you would if some one asked you your birthday, as "October 12." Then say, "On my birthday, *this year*, I will be (or was) ——— years old." The registrar will then fill in the year of birth. This may be obtained by the registrar by subtracting the age in years on *this* year's birthday from 1918.

Question 5. White?

Question 6. Negro?

Question 7. Oriental?

Question 8. Citizen Indian.—An Indian born in the United States is a citizen if (1) he, or his father or mother prior to his birth or before he attained the age of 21, was allotted land or received a patent in fee prior to May 8, 1906; (2) if he was allotted land subsequent to May 8, 1906, and received a patent in fee to his land; (3) if he was residing in the old Indian Territory on March 3, 1901; (4) if he lives separate and apart from his tribe and has adopted the habits of civilized life.

Classifying Indians.

Question 9. Noncitizen Indian.—An Indian born in the United States shall be classed as a noncitizen Indian unless he falls within one of the classes of citizen Indian described in the instructions on Question 8.

Question 10. Native-born United States citizen.—If you were born in the United States, including Alaska and Hawaii, you are a native-born citizen of the United States irrespective of the citizenship of your parents. Any inhabitant of Porto Rico who was a Spanish subject on April 11, 1899, and who resided in Porto Rico on that date and continued to reside therein until April 11, 1900, is held to be a citizen of Porto Rico, except such inhabitants, natives of the Spanish Peninsula, who elected to preserve their allegiance to Spain on or before April 11, 1900, by making a declaration before a court of record of their decision to do so. Any citizen of Porto Rico, as above defined, and any native of Porto Rico who was temporarily absent from the island on April 11, 1899, and has since returned, and is not a citizen of any foreign country, is held to be a citizen of the United States, provided he did not elect to retain his political status by making declaration under oath of his decision to do so within six months after March 2, 1917. If you were born abroad you are still a citizen of the United States if your father was a citizen of the United States at the time you were born, unless you have expatriated yourself.

Naturalized Citizens.

Question 11. Naturalized citizen of the United States.—You are a naturalized citizen if you have completed your naturalization; that is, if you have "taken out final papers." But you are not a citizen if you have only declared your intention to become a citizen (that is, if you have only "taken out first papers"); in the latter case you are a declarant.

Question 12. Citizen of the United States by father's naturalization before registrant's majority.—The children of persons who have been duly naturalized under the laws of the United States, being under the age of 21 at the time of the naturalization of their parents, are, if

(Continued on page 7.)

Form of Registration Certificate to Be Given Men Under 18-45 Draft

The War Department authorizes the following from the office of the Provost Marshal General:

Men called upon to register under the extension in the age limits of the selective draft will be given a "Registration Certificate" slightly different in form, though not in substance, from the certificate issued to registrants between the ages of 21 and 31. As these certificates must be shown at any time on demand of the authorities, prospective registrants are cautioned to see to it that they have them with them at all times.

The certificate will be in the form of a blue card, measuring 2½ by 4 inches, and will be made up as follows:

P. M. G. O. Form No. 68.

REGISTRATION CERTIFICATE

To Whom It May Concern, Greetings:

These presents attest, That in accordance with the proclamation of the President of the United States, and in compliance with law,

_____
(First name.) (Middle name.) (Last name.)

_____
(No.) (Street or R. F. D. No.) (City or town.) (County.) (State.)

has submitted himself to registration and has by me been duly registered this _____ day of _____, 1918, under the supervision of the Local Board designated on the back hereof.

_____
Registrar.

[Place stamp of Local Board on back of this card.]

ONE U. S. OFFICER AND TWO MEN KILLED AND 15 OTHERS WOUNDED IN SKIRMISH WITH THE MEXICANS

GEN. MARCH READS TELEGRAMS

First Shot is Fired at American Sentry After an Attempt to Halt Suspected Smuggler—Heavy Casualties Reported Among Mexicans.

Extract from press interview by Gen. March:

The morning papers contained some account of a fight which went on at Nogales. I am going to read to you the official telegrams describing what occurred. The first telegram was sent from Nogales and arrived at department headquarters at Fort Sam Houston, Tex., at 6 o'clock last night, and reads as follows:

"Engagement started 4.10 p. m.; brought about by an effort upon the part of American customs guards to halt a suspected smuggler. Man halted at line, and during conversation with customs men a man ran out of the depot on Mexican side and fired at American sentry coming down line; wounded him. General firing then started from cover on the Mexican side. American military guard on duty from G and H companies of the 35th Infantry returned fire from prostrate skirmish formation, continuing same all along the line as fresh troops came up. Squad of infantrymen beside depot on American side suffered four casualties before their ammunition gave out. Balance of the line is being held by skirmishers, taking advantage of the terrain along line. Col. Herman wounded through right knee early in skirmish. Not serious. Casualties at depot on the American side: Corpl. Barney Lotz, Company G, 35th Infantry, killed, wounded through body; Paul Deppoe, H Company, 35th Infantry, wounded through left hand; Pvt. Piasitzki shot through left shoulder. These casualties occurred in detachment under immediate command of Lieut. Fannin, near depot. Firing has now ceased all along the line, following conference between Col. Herman and Mexican commander at international bridge. Conference arranged for 6.30 p. m. Each side has withdrawn its soldiers, but desultory firing by civilians from hills continues at intervals. Gen. Cabell left Douglas by automobile for Nogales at 7 p. m., having previously ordered three troops 10th Cavalry there from Huachuca and arranged for conference with Governor Cailles."

This telegram was signd by Gen. Holbrook, commanding the Southern Department.

Telegram from Gen. Cabell.

The following telegram was received by the War Department this morning, having been forwarded from southern department headquarters:

"Col. Herman reports from Nogales by telephone all firing ceased 10 p. m. One officer two men killed. Two officers thirteen men wounded. Mexican casualties heavy. Am sending two troops Tenth Cavalry from here, also machine guns. Herman reports additional Mexican troops coming into Nogales. Have ordered one squadron march from Douglas to Huachuca. Gen. Calles agrees to meet me 8 Wednesday morning. Expect to reach Nogales about three a. m. Signed Cabell."

General control of affairs along the Mexican border is in the hands of Maj. Gen. W. A. Holbrook, who is in command at Fort Sam Houston, and he has instructions from the War Department how to act in these emergencies.

BATTLE LINE NOW 50 MILES, GENERAL MARCH TELLS PRESS

(Continued from page 1.)

Nesle and are now within 2 miles of the Somme.

The British are still making further progress beyond the Hindenburg line east of Arras and further gains on the Flanders front.

In Albania an Austrian attack succeeded in driving back the Italians several miles in the region about Berat, restoring a part of the line which they gave up on our recent offensive.

Allies Take 112,000 Prisoners.

With reference to the general fighting which has been going on, the number of prisoners captured by the allies from July 1 to date is about 112,000, and the number of heavy guns taken—by guns I mean field guns and higher—is over 1,300.

Questions:

Q. Where is the Ninety-first Division?

A. The Ninety-first Division is in training with the French.

Q. Who commands the Ninety-first Division?

A. The acting commander is Brig. Gen. Frederick S. Foltz; but unquestionably Gen. Pershing has assigned a major general to this division from the list which has just been confirmed.

Q. Where is the Fortieth Division?

A. The Fortieth Division has not yet reached France.

Q. Can I learn who is in command or to command Camp Knox?

A. Camp Knox is a field artillery training sector, and the officer in command is Col. Charles S. Blakely.

Q. Has a commander been assigned to the Eighteenth Division now being formed at Camp Travis?

A. No commander has yet been assigned to that division.

New War Warehouses at Schenectady, N. Y.

The War Department authorizes the following:

The Construction Division has been authorized to make additions to the Schenectady quartermaster interior storage at Schenectady, N. Y., which will cost $1,498,500.

The new work consists of two more warehouses the same size as the other warehouses at this point, to be of standard construction, tile walls, wood roof, concrete floors, and to be provided with fire-protection facilities. The heating plant is to be enlarged, and quarters are to be erected for the officers who will be stationed at this point. There will also be constructed additional trackage and sheds to expedite the movement of materials.

LOCOMOTIVE BUILDERS PLAN TO DOUBLE NEW PRODUCTION

Manufacturers, at Conference, Discuss Means for Meeting War Necessities.

The War Industries Board authorizes the following:

At a meeting of representative locomotive builders with Bernard M. Baruch, chairman of the War Industries Board, and other officials of the board, the Railroad Administration, and the Government departments, one of the heaviest problems connected with the direction of war work—an adequate supply of railroad locomotives—was solved.

To Double Output.

Plans were worked out whereby the output of the American locomotive manufacturing plants will be doubled, the increase being from more than 3,000 on a prewar basis to more than 6,000 completed machines. An equable distribution of the output to meet the military needs in France and the needs of the Railroad Administration for the steam roads of the United States has been provided by the chairman which has met the approval of the Government officials involved.

Among those attending the meeting were Samuel Vauclain, of the Baldwin Locomotive Co.; Mr. Fletcher, president of the American Locomotive Co.; Mr. Lassiter, general manager of the American Locomotive Co.; Cols. Tyler and Wright, of the Army Engineers Corps; Assistant General Manager Hines, Director of Operations Gray, and Director of Railroad Equipment J. R. Flannery, of the Railroad Administration; and Henry Rea, of the committee on munitions and plants.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
August 26, 1918.

RECEIPTS.	
Customs receipts	$387, 308. 26
Internal-revenue receipts:	
Income and excess-profits tax	1, 711, 443. 72
Miscellaneous	3, 615, 332. 82

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily—	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

Information Concerning U. S. Mails on Vessels That Were Lost at Sea

OFFICE OF SECOND ASSISTANT POSTMASTER GENERAL,
Washington, August 20, 1918.

Owing to the number of inquiries regarding vessels sunk and, in consequence, whether mails were thereby lost, it is deemed advisable to publish this list of vessels recently sunk, statement being made in connection with each showing what loss of mails occurred.

The vessels and mails are as follows:

S. S. *Justicia:* No mails on board.

S. S. *Carpathia:* No mails on board.

U. S. S. *Covington:* No mails on board.

U. S. S. *President Lincoln:* Six sacks of letter mail and 1 sack of returned parcel-post packages from United States naval bases No. 7 and No. 19, posted between May 27 and May 30.

S. S. *Napoli:* From New York June 8, lost in collision. United States mails for Genoa and Naples, Italy, consisting of 1,000 ordinary letters and 14 registered articles, together with 13,770 ordinary and registered parcel-post packages; also, 7 sacks of mail from the Shanghai (Chinese post office) for Chiasso-Basel, Switzerland.

Postmasters receiving inquiries for missing mail matter shall consider whether the inquiries relate to the mails herein reported as lost, and reply accordingly in case it is apparent that the missing matter was on either the U. S. S. *President Lincoln* or the S. S. *Napoli.*

OTTO PRAEGER,
Second Asst. Postmaster General.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique No. 104—Continued.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES.
August 26, 1918.

The Commander in Chief has awarded the distinguished service cross to the following officers and men of the American Expeditionary Forces for acts of gallantry as set forth after their names:

Brig. Gen. B. B. BUCK, commanding general, brigade. "Before and during the attack of Berzy le Sec, France, July 21, 1918, he displayed conspicuous gallantry and heroic leadership of his command. When most of the officers of his brigade had fallen, Gen. Buck, with contempt of personal danger, in spite of heavy artillery bombardment and machine-gun fire, traversed the front of his advancing forces, gave correct directions to his organization commanders, and led the first wave of the culminating attack which stormed and captured the town."

Capt. EDWARD J. MEEHAN, Infantry. "Early in the morning of July 17, 1918, near Monthureak, France, while in an advanced position in the fight, he was severely wounded, but refused to leave his command and continued to direct its operations until it was relieved the night of July 18, 1918."

Capt. WILLIAM C. WILLIAMS, Infantry. "Early in the fighting near Month-Ureal, France, July 15, 1918, he was wounded three times, but in spite of suffering and loss of blood he refused to leave his men until his battalion was relieved three days later."

First Lieut. HARRY C. BARNES, Infantry. "He showed good judgment, bravery, and determination in leading his patrol into the enemy's lines in the Bois-Brule near St. Die, in the Vosges, on July 19, 1918. Although seriously wounded, he continued to direct his men and succeeded in driving off the enemy, at the same time wounding four of the German patrol with his own revolver."

Sergt. JOHN U. E. HOPPE, Infantry. "He displayed extraordinary heroism, presence of mind, and physical endurance during an enemy raid against his small advance post near Gildwiller, in Alsace, on July 31, 1918. Although seriously wounded from grenades, he and one private from his company counterattacked a greatly superior enemy, personally killing at least one of them with his rifle, preventing any entry by the enemy into his post and finally reentering our lines after having received a second severe wound."

Corpl. JOHN J. LOTT, Infantry.—"Two different times near St. Agnan, France, July 16, 1918, he preceded his platoon into enemy wire under fire, cut a path for it, and returned and let it through the gaps thus made."

Pvt. First Class ANDY YOUNGBAR, Infantry. "During a raid against a post of his command near Gildwiller, France, July 31, 1918, he showed fine courage and endurance when attacked with hand grenades. Although seriously wounded he joined in a counterattack against greatly superior numbers and continued to fight, even after receiving a second wound, until the enemy was repulsed."

Pvt. EDWARD G. FENWICK. (With French Army.) "On the morning of June 7, 1918, near Abeele, after having suffered severe injuries, with no thought of himself, walked some distance to camp and procured assistance for the three wounded soldiers whom he had removed from his car after it had been struck by a high-explosive shell."

Pvt. First Class GEORGE J. SHIVELY, United State Ambulance Service. "During the fighting near Soissons, France, July 21, 1918, drove his ambulance through shell fire and continued on after his car was badly shattered until he had delivered his patients to a dressing station, when he fainted from serious wounds in his left arm and both legs, existence of which he had denied when the ambulance was hit."

Pvt. ANTHONY DOGESTINO, Infantry. "He voluntarily went out alone through strange territory under heavy bombardment near St. Agnan, France, July 15, 1918, obtained important information and by his own initiative rescued two wounded French soldiers exposed to enemy fire."

Pvt. CROSSLEY HOLROYD, Infantry. "In action of July 16, 1918, near St. Agnan, France, he voluntarily left the shelter of his trench and went into machine gun and artillery fire three times to rescue wounded comrades 100 yards away."

Official Bulletin Index

An index for the Official Bulletin for the first six months of 1918 has been prepared and may be had on application to this office. An index for each month hereafter will be printed in an early issue of the Bulletin after the close of that month.

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

By a unanimous vote the Senate yesterday adopted the man-power bill extending the draft-age limits to include all men between 18 and 45 years old. On the roll call Senator Gore, of Oklahoma, voted in the negative, but he later withdrew it and was excused from voting, thus allowing the Senate to be recorded as unanimously in favor of the bill.

The "work or fight" amendment written into the bill by the Committee on Military Affairs, after being modified so as not to apply to strikers who return to work and submit their grievances to the War Labor Board, was approved by a vote of 40 to 29.

The measure now goes to conference between the House and Senate.

Consideration of the "bone-dry" prohibition measure was resumed to-day under an informal understanding that the bill should provide that absolute prohibition would begin on July 1, 1919, and continue through the remainder of the war. At a hearing yesterday before the Senate Committee on Agriculture, representatives of California grape growers asked for the postponement of the effective date of the bill until July 1, 1920.

Senators Lodge and Weeks, of Massachusetts, criticized Army censorship orders prohibiting transmission abroad of certain features of the recent report of the Senate subcommittee that investigated aircraft production.

Hearings on the new war-revenue bill will begin next Tuesday and continue not more than 10 days the Senate Finance Committee announced. All industries will be asked to appoint representative spokesmen so as to avoid duplication of evidence.

Edward D. Dianeloni, of Louisiana, was nominated by President Wilson to be register of the land office at Baton Rouge, La., and William Ventress, of Louisiana, was nominated to be receiver of public moneys at Baton Rouge, both reappointments.

HOUSE.

Dr. Baltasar Brum, minister for foreign affairs of Uruguay, addressed the House yesterday, a reception in his honor following.

Representative Rodenberg, Republican, of Illinois, delivered a speech in which he sought to support his claim that politics has not been adjourned by the administration. Representative Dewalt, Democrat, of Pennsylvania, in replying, stated that Mr. Rodenberg voted against the declaration of war against Germany, for the McLemore resolution, for an embargo against the carrying of munitions on armed ships, and against the revenue bill of 1917.

Representative Mason, of Illinois, criticized the President for what he termed partisanship.

Representative Madden, of Illinois, denied the truth of statements made in a recent report by the Federal Trade Commission concerning the meat-packing industry, and opposed the recommendation of the commission for further Government control of the industry. Representative Ferris, of Oklahoma, defended the report of the commission.

Representative London, Socialist, of New York, delivered an address in which he urged the formation of an international league to secure peace.

Testifying before the Commerce Committee, Morris L. Cook, of the Shipping Board, urged quick action on the bill authorizing the President to requisition and build power plants in industrial centers.

New proposals for the income-tax rates in the revenue bill were discussed at a conference between Secretary McAdoo and Chairman Kitchin, of the Ways and Means Committee. The new suggestion is to make the normal rate 12 per cent on all incomes up to either $20,000 or $25,000, with an abatement in favor of the earned income as against the unearned income; this abatement would be 2 per cent, making the rate 10 per cent on that class of incomes instead of 12 per cent.

A bill granting to all short-line railroads not under Federal control the same right, privileges, and immunities now enjoyed by Government-controlled roads was introduced by Representative Parker, of New Jersey. Hearings on it will be begun shortly before the Commerce Committee.

FRENCH ORDNANCE MISSION START ON INSPECTION TOUR

The War Department authorizes the following from the Army Ordnance Department:

The French mission of ordnance engineers and experts in the production of ordnance materiel, which since August 7 has been in Washington studying with American ordnance engineers and ordnance production and inspection experts various phases of the munitions program, left Washington following a luncheon given in its honor at the Army and Navy Club by Maj. Gen. C. C. Williams, Chief of Ordnance.

Division of Duties.

The French mission, which numbers six officers and engineers and 20 foremen and superintendents of French munitions plants, was divided. Experts on shell production left for the shell plants; experts on gun production—field artillery and heavy artillery—for the centers where guns are being forged and machined and where the carriages and recoil mechanisms are being built; the experts on tanks, tractors, and caterpillars left for that part of the country where such materiel is in production.

Lieut. Col. Martinon, head of the mission, proceeded to the Hotel Vanderbilt in New York. He will leave New York City at 11 o'clock to-morrow morning for Elizabethport, N. J. For many years Col. Martinon has been in charge of manufacturing at the plant of Schneider & Cie., Le Greuset, where the famous French howitzers are produced.

Before leaving Washington, Col. Martinon made the following statement:

"In the conferences which have taken place since my arrival with the committee which was formed by Gen. Williams, we have considered in detail all questions relative to the production of ordnance. I would say that we of the French mission and our American conferees are in absolute agreement on all subjects.

"To supply the ever-increasing needs of both the American and French armies, production of certain items of materiel has yet to be increased. We rely on the manufacturers and on the working men of America to increase production—to outdo the magnificent work they have already done.

"We of the French mission are now setting out with Col. James L. Walsh, of the Staff of the Chief of Ordnance, on a long trip to America's many great munitions plants that we may see, on the spot the conditions of production.

To Share in Benefits.

"We would wish that the improvements which have been reached, either by France or America, in ordnance production, should be made use of by either country.

"With this object in view, it is the intention of Gen. Williams to send to France a mission of the same character as this of ours, and which will aim to make known to the French manufacturers all improvements in ordnance production obtained by American manufacturers.

"Needless to say, such an American mission will be very heartily welcomed in France, and that welcome will serve to acknowledge the great kindness which Gen. Williams and the officers of the Ordnance Department have shown us in order to facilitate our work in this country.

"America and France have no secrets one from the other as to the production of any ordnance materiel."

GERMANS, VIOLATING PLEDGE, SINK BELGIAN RELIEF SHIP

Described as "Special Act of Piracy With Hideousness" Beyond the Ordinary.

The Commission for Relief in Belgium issues the following:

Last Thursday the *Gasconier*, one of the Belgium Relief Commission ships, while en route to Belgium with a cargo of food, was attacked by a German submarine off Haugusemb in Norwegian territorial waters, entirely outside of the war zone, and was sunk. After the ship was sunk, the submarine fired on the lifeboats, killing the first officer and five men, and wounding several others of the crew.

The Belgium relief ships operate under an undertaking given by the German Government that they shall be immune from attack so long as they are not in the war zone. This special act of piracy has features of hideousness even greater than ordinary submarine work.

A shipload of food to a starving people, proceeding under guaranties from the German Government, is sunk in neutral waters and even after that the crew is murdered.

Remember! the men in our Army and Navy do not expect luxuries. Should we at home expect them? Buy necessities and war-savings stamps.

OFFICERS AND MEN OF U. S. SHIP CITED FOR BRAVERY IN DANGER

The Navy Department has received from Commander William B. Wells, United States Navy, commander of the U. S. S. *Schurz*, a report reciting the conduct of the officers and men of the *Schurz* when that ship was sunk in collision with the steamship *Florida* on June 21. He states that they acted in accordance with the best traditions of the service, and that the small loss of life, only one man being lost, was due to their courage and coolness.

Five of the officers and seven members of the crew are specifically mentioned, and have been commended by Secretary Daniels. The commanding officer reports that the ship was abandoned in a rough sea shortly before dawn, while it was still very dark, and the fact that there was only one lost and few injured was due to the prompt obedience of the crew and their strict adherence to the "abandon ship drill."

Ship's Officers Commended.

The following officers have been commended:

Lieut. G. F. Howell, United States Navy, executive officer. When the accident occurred he relieved the officer of the deck and at once began preparations for abandoning the ship. He is commended for his efficiency in organizing and drilling his crew and his coolness in carrying out the "Abandon ship" order when the emergency arose.

Lieut. A. W. Schwerin, United States Naval Reserve Force, coolly and efficiently inspected damaged compartments of the ship, made accurate reports, and continued his efforts to find some way to save the vessel until the last man had left and he was ordered to quit the ship.

Lieut. J. E. Shaw, United States Naval Reserve Force, after having been painfully injured, continued his work of rescue for three hours.

Lieut. E. B. Rogers, United States Navy, showed efficiency and coolness in inspecting damaged compartments, in saving or destroying confidential and secret papers, and in skillful handling of his boat.

Lieut. Olav Johnson, United States Navy, commended for the efficiency of his organization of the engineering department, which enabled the men to perform all duties without confusion and in such manner that the vessel was kept afloat for the longest possible time after the collision.

Men of the Crew Named.

The following members of the crew have been commended:

John Milton Kiser, machinist's mate, first class, stayed at his post in charge of the engine rooms, performing his duty efficiently until ordered up by the engineer officer. He did this, knowing the forward fireroom was flooded and the vessel was in immediate danger of sinking.

James A. Donnellan, water tender, was in charge of the fireroom, got all his men out safely, remaining himself until the water in the fireroom was up to his waist.

Fay R. Rabon, water tender, was in charge of the after fireroom, got his men out of the bunkers and fireroom and did not leave his post until ordered out by the engineer officer, although he knew the ship was in a sinking condition.

Virgil W. Dinell, quartermaster, first class, did not take to his life raft, but stayed to assist the captain into the last boat, although he was aware of the danger the ship was in.

Claude H. Judson, boatswain's mate, second class, handled the lowering of the boats with the utmost efficiency and did not leave the ship until every boat was in the water.

David Sarran, seaman, acting coxswain of the motor sailing launch, did efficient rescue work.

Edward C. Bryant did efficient rescue work as coxswain of the motor dory.

Home Addresses of Men.

Home addresses and next of kin of officers and men mentioned above:

Lieut. Howell; father, S. W. Howell, Woodhull, Ill.

Lieut. E. B. Rogers; mother, Mrs. Mary R. Rogers, Herndon, Va.

Lieut. J. E. Shaw; daughter, Miss Lauretta M. Shaw, 350 Obispo Avenue, Long Beach, Cal.

Lieut. E. W. Schwerin; mother, Mrs. Lucy B. Schwerin, 2921 Grove Street, Berkeley, Cal.

Lieut. O. Johnson; wife, Mrs. Ada M. Johnson, Vallejo, Cal.

Kiser; father, Winfield Scott Kiser, Routt County, Hayden, Colo.

Donnellan; father, Henry T. Donnellan, 324 South Galvez Street, New Orleans, La.

Rabon; father, Richard Rabon, Kinte, Okla.

Dinnel; mother, Estelle Dinnel, 325 Ash Street, Chico, Cal.

Judson; wife, Rose Judson, general delivery, San Francisco, Cal.

Sarran; sister, Edna Sarran, 921 California Street, San Antonio, Tex.

Bryant; father, Edward R. Bryant, 109 Congress Avenue, Austin, Tex.

Merchandise in Mails For Foreign Countries

OFFICE OF SECOND ASSISTANT POSTMASTER GENERAL,
Washington, August 21, 1918.

At the request of the War Trade Board, postmasters are hereby notified that they may accept shipments of merchandise by mail, otherwise satisfactory, even though the number of packages covering the consignment differs from the number of packages named in the license, because the senders often find it impracticable to determine the exact number of packages a consignment will ultimately make.

It is to be understood that the quantity of merchandise and its value will be in accordance with the 5 per cent variation which the War Trade Board allows on each license.

OTTO PRAEGER,
Second Asst. Postmaster General.

A country worth fighting for is a country worth saving for. Buy THRIFT STAMPS.

ASKS CONSUMERS TO DEMAND LIGHTWEIGHT CATTLE MEATS

The Food Administration issues the following:

Housewives who have been accustomed to purchase beef from heavier weight carcasses should now be able to buy at much lower prices than the average which has ruled during the past year if they observe the Food Administration's request to demand meat from cattle which dress below 475 pounds per head. The Food Administration declared that the lightweight cattle are now moving rapidly to market, the producers in the Southwest endeavoring to dispose of them before they suffer further from the effects of long-continued drought.

Sales Prices of Steers.

Heavy steers are being sold Eastern meat centers for $26 to $27 per 100 pounds; good steers, somewhat lighter in weight, at $24 to $25; medium-weight steers, at $19 to $21, and lightweight steers at $14 to $18.

While prices are not uniform throughout the country, it will be found that this ratio will rule in practically every market. Meat markets which normally cut $26 beef can obviously give their patrons the benefit of such a wide difference in first cost. Selling light cuts, bought at $14 to $18, there should be a material reduction below the selling price of meat bought at $26.

How Market Will Be Helped.

The Food Administration believes that its request for consumption of the light cattle will not only do much to relieve the producers who are affected by severe droughts, but should be followed by a general downward trend in retail purchasing prices—the demand turning to the cattle which are now in abundance and relieving the strain on the market for heavier beef, which is still badly needed for the military forces and for export to the civil populations of the allied countries. The market should naturally follow in its price reductions the difference in first cost, providing a reasonable low price to those who utilize the lightweight cattle. They are wholesome, of good quality, and before being marketed have passed Government inspection.

PULLMAN CAR LINES MANAGER.

L. S. Taylor Appointed by the Director General of Railroads.

The United States Railroad Administration issues the following:

WASHINGTON, D. C., *August 17, 1918.*

CIRCULAR NO. 47.

The operating department of the Pullman Co., now under Federal control, will hereafter be known as the Pullman car lines.

Mr. L. S. Taylor is appointed Federal manager of the Pullman car lines, effective this date, with office in the Pullman Building, Chicago, Ill.

The Federal manager of the Pullman car lines will have jurisdiction over all departments, reporting to the director, division of operation.

W. G. MCADOO,
Director General of Railroads.

INSTRUCTIONS TO REGISTRANTS UNDER NEW DRAFT AGE LIMITS

(Continued from page 2.)

dwelling in the United States before attaining their majority, considered as citizens thereof.

Question 13. Alien declarants.—You are a declarant if, although a citizen or subject of some other country, you have declared before a naturalization court your intention to become a citizen of the United States. This is referred to as "taking out first papers."

Alien Nondeclarants.

Question 14. Alien nondeclarant.—You are a nondeclarant alien if you do not fall within one of the classes described by questions 10, 11, 12, and 13, and are not an Indian. In other words, you are a nondeclarant alien if you are a citizen or subject of some other country than the United States and have not declared before a naturalization court your intention to become a citizen of the United States; that is, have not "taken out first papers."

Question 15. If not a citizen of the United States, of what nation are you a citizen or subject?—This need be answered only by declarant and nondeclarant aliens. Remember that a declarant is not yet a citizen of the United States. If you are an alien of either class, state the name of your country, which the registrar will write in this space, for example, "Great Britain," "France," "Italy." State also the name of the subdivision of your country in which you were ordinarily resident before proceeding to the United States, which will be written by the registrar in parentheses after the name of your country, as "Great Brtain (Scotland)." In the case of Czecho-Slovaks, German, or Austrian Poles, Alsatians, Lorrainers, and persons of like status, the registrant may answer "Czecho-Slovak, claimed as subject of Austria-Hungary," "Pole claimed as subject of Germany or Austria-Hungary," "Alsatian claimed as subject of Germany," etc., and such entry shall be made by the registrar.

Present Occupation.

Question 16. Present occupation.—This means your present occupation, trade, or employment, which the registrar will enter in this space. Do not state what you once did, nor what you have done most of the time, nor what you are best fitted to do. Simply state what your job is right now. State briefly as "farmer," "miner," "student," "laborer" (on farm, in rolling mill, in automobile, wagon or other factory), "machinist in automobile factory," etc. If you hold an office under State or Federal Government, name the office you hold.

Question 17. Employer's name.—If you are working for a firm, corporation, or association, state its name. If in business, trade, profession, or employment for yourself, so state. If you are an officer of the State or Federal Government, say whether your office is under the United States, the State, the county, or a municipality.

Question 18. Place of employment or business. This means where you work. Give the number and name of street first, then city or town, then county and State; or R. F. D. number first, then town, then county and State.

Question 19. Name of nearest relative.—If you are married and your wife is living, her name should be stated. If you are single or your wife is dead, you should state the name of your nearest blood relative. If you are not married and have no blood relatives, the name of a close friend should be stated.

Address of Nearest Relative.

Question 20. Address of nearest relative.—In stating the address give the number and name of the street first, then the city or town, then the county and State, or R. F. D. number first, then post office, then county and State.

The registrar will ask the registrant if he receives his mail at a place other than that designated as his present permanent home address in answer to Question 2. If he answers that he receives it at some other place (that is, by general delivery, at a post-office box, in care of some other person at some other address, etc.), the registrant shall state such place in full, which shall be entered by the registrar under the registrant's signature.

The registrant's signature or mark is placed by him at the bottom of the card in a blank space opposite the statement "I affirm that I have verified above answers and that they are true."

WARNING AGAINST HANDLING OF PICTURES OF ENEMY ORIGIN

Exploitation Being Attempted as Part of German Propaganda Says Military Censor.

The Committee on Public Information issues the following:

The attention of the military censor has been directed to the fact that there are considerable stocks of still and motion pictures of enemy origin in the United States, and that their exploitation is being constantly attempted by certain interests in this country.

Part of German Propaganda.

Publishers and editors, as well as motion-picture producers, distributers and exhibitors, should realize that the object of such exploitation is the furtherance of German propaganda here and that the sole intent is to influence public opinion in America, or wherever such pictures are used, and that consequently the military censorship will not approve such pictures, whether taken before or after our entrance into the war, and whether they be prominently or otherwise displayed, and regardless of caption matter or titles accompanying them.

Violates Enemy Trading Act.

The handling of these enemy pictures violates the "Trading with the Enemy Act." Such pictures were taken solely for the glorification of the German cause and German methods and their introduction here is a part of a subtle propaganda campaign which should be opposed wherever found.

Violations of this request, and attempts to introduce such material, should be immediately reported to the Chief, Military Intelligence Branch, Washington, D. C., where they will be promptly prosecuted.

ORDERS AIRPLANE AMBULANCES FOR ALL U. S. FLYING FIELDS

The War Department authorizes the following:

Following the successful operation of the first ambulance plane at Gerstner Field, Lake Charles, La., Gen. Kenly, commanding the Division of Military Aeronautics, has had all flying field commanding officers supplied with photographs and drawings of this new emergency air carrier, with orders to complete the equipment at once. The nine Texas fields have already finished their equipment.

The airplane ambulance is used in reaching scenes of accidents occurring at a distance from the flying field hospitals and in localities difficult to reach quickly with automobile ambulances. It is in turn followed by an automobile ambulance by road or overland as fast as possible.

Standard Plane Used.

A standard training plane is used for the new airplane ambulance with the rear cockpit cleared and enlarged sufficiently to permit of a combination stretcher seat that allows the injured man to rest easily. He is slightly propped up, with his head toward the pilot and his feet and legs extending into the fuselage. The patient is securely strapped in and made quite as comfortable as in a regular ambulance. The real value of the plane is its speed, but it also assures a far more gentle and comfortable trip than is to be had in a rolling and bumping automobile.

Promotions Announced in Division of Operation

The United States Railroad Administration issues the following:

DIVISION OF OPERATION,
Washington, August 3, 1918.

Effective at once, the following promotions are announced by the division of operation, mechanical department: John J. Tatum, general supervisor car repairs; F. P. Pfahler, chief mechanical engineer; John McManamy, general supervisor of equipment, West; George N. De Guire, general supervisor of equipment, East; all with offices at Washington, D. C.

FRANK MCMANAMY.
Asst. Director, Division of Operation.

Approved:
C. R. GRAY,
Director, Division of Operation.

PROPOSALS FOR SUPPLIES.

The General Supply Committee of the Government will receive sealed proposals at its office in Washington, D. C., until 2 o'clock p. m., Monday, September 16, 1918, for forage, flour, and feed for use in the District of Columbia by the executive departments and other establishments of the Government and for use by such field services as are included in the specifications during the period beginning October 1, 1918, and ending December 31, 1918.

You can't eat your sugar and give it to the soldiers, too.

WHEAT CONSERVATION PROGRAM SET FORTH IN NEW REGULATIONS BY THE FOOD ADMINISTRATION

THE 50-50 RULING IS SUPERSEDED

Wheat Bread of the Allies Must Contain 20 Per Cent of Other Grains to Maintain Enough Supplies and Necessary Reserves.

The United States Food Administration authorizes the following:

The recent careful survey by the Food Administrators of the United States, France, England, and Italy of the food resources of the 220,000,000 people fighting against Germany shows that to maintain enough supplies and necessary reserves against disaster there must be maintained in all countries a conservation of wheat flour during the coming year.

It has been agreed that the wheat bread of the Allies shall contain 20 per cent of other grains than wheat, and it is only just that we should bear our share in this saving and that our bread at least should be universal with those who are suffering more greatly from the war than ourselves.

Rely on Voluntary Action.

Distribution and transportation circumstances in the United States render it necessary to rely very largely on the voluntary action of our homes to enforce this mixture. The "Victory bread" so made is wholesome and there is no difficulty in preparation. We desire to emphasize the fact that the mixtures outlined below are for wheat bread and the saving of wheat flour, but they are not intended to displace the large use of corn bread. We must use the mixture with wheat flour in addition to our normal consumption of corn bread.

For this purpose regulations are formulated below, effective September 1, providing, first, for the preparation and marketing by the manufacturing and distributing trades of the country of a mixed flour complying with the international policy, which will be available for purchase by the household; second, in regulations covering the case where straight wheat flour is sold by retailers, that at the same time 20 per cent of other cereal flours must be sold coincidentally; third, requiring that all bakers' bread shall contain 20 per cent of other cereals, and the Food Administration relies upon the householders of the country to mix at least 20 per cent of the substitute cereals into the wheat flour at home for all uses. Corn meal for the use of corn bread should be purchased separately from combination sales.

It is desired to insure a supply of ready mixed flours on the market, and to have millers and dealers of all kinds encourage the use and sale of this flour so that the country may be on a mixed flour basis without the necessity of retailers making combination sales of flour and substitutes.

All such mixed flours made according to the following regulations should be labeled "Victory mixed flour," and are to be labeled with the ingredients in order of their proportion. The flours so mixed must be milled in accordance with the standards of the United States Food Administration. No "mixed flours" (except pancake flours) shall be made or manufactured except in the exact proportions as outlined below:

Mixed wheat and barley flour shall be in the proportion of 4 pounds of wheat flour to 1 pound of barley flour.

Mixed wheat and corn flour shall contain the proportion of 4 pounds of wheat flour to 1 pound of corn flour.

Mixed wheat, barley, and corn flour shall contain the proportions of 8 pounds wheat flour to 1 pound barley and 1 pound corn flour.

Mixed wheat and rye flour shall contain the proportion of 3 pounds of wheat flour and not less than 2 pounds of rye flour.

Whole wheat, entire wheat, or graham flour or meal shall contain at least 95 per cent of the wheat berry.

All the above "Victory flours" may be sold without substitutes, but at no greater price from the miller, wholesaler, or retail dealer than in the case of standard wheat flour.

Retail Sale of Standard Wheat Flour.

The new regulations supersede the 50-50 rule. The retail dealer selling standard wheat flour is required to carry in stock either barley flour, corn meal or corn flour, and with every sale of wheat flour must sell a combination of some one or more of these in the proportion of 1 pound of substitute to each 4 pounds of wheat flour. No dealer may force any other substitutes in combination upon the consumer, and these substitutes must conform to the standards fixed by the United States Food Administration.

There are some localities where other substitutes are available and which retailers may wish to carry. In order to meet this situation the following flours may be sold in such combination in lieu of the above flours if the consumer so demands at the ratio of 1 pound to each 4 pounds of wheat flour; that is, feterita flour and meals, rice flour, oat flour, kaffir flour, milo flour, peanut flour, bean flour, potato flour, sweet potato flour, and buckwheat flour. Pure rye flour or meal may be sold as a substitute, but must be sold in proportion of at least 2 pounds of rye with 3 pounds of wheat flour.

The foregoing rules apply to all custom and exchange transactions, as well as sales of flour to farmers, unless modified by special announcement of the Federal food administrator of the State where the mill is located, acting with the approval of the zone committee.

Bakers.

In compliance with the general situation above, the following alterations are made in the rules and regulations governing the baking trade:

Rule 1–A. The consumption of wheat flour in bakery products not to exceed 70 per cent of the 1917 consumption is hereby rescinded.

Rule 2–A. Wheat-flour substitutes for bakers remain as heretofore with the exception of rye, which will be a substitute when used upon a basis of not less than 40 per cent, which is 2 pounds of rye flour to every 3 pounds of standard wheat flour. When rye is used in this proportion or a greater proportion, no other substitutes are required. If less than this proportion of rye flour is used, the difference between such amount used and 40 per cent must be made up of other substitutes.

Rule 6–A. Bakers will be required to use 1 pound of substitutes to each 4 pounds of wheat flour in all bakery products, including bread, except Class 3a—Crackers—in which only 10 per cent of substitutes other than rye are required.

The use of the name "Victory" will be allowed in all products containing the above proportions of substitutes.

Revisions of Previous Rules.

The previous rules limiting licensees, millers, wholesalers, retailers, and bakers to 30 days' supply of flour will be changed to permit a 60 days' supply.

The rules limiting sales by retailers of wheat flour to an eighth of a barrel in cities and a quarter of a barrel in sparsely settled districts are rescinded.

The rule limiting the sale of flour by millers to wholesalers, or wholesalers to retailers, in combination with substitutes or certificates therefor, and the rule restricting the sale to 70 per cent of previous sales are rescinded.

Manufacturers of alimentary pastes and wheat breakfast foods are limited to their normal consumption of wheat or wheat flour, with the understanding that they are not to unduly expand their ordinary consumption of wheat.

Rules prohibiting the starting of new plants ready for operation prior to July 1, 1918, are rescinded.

Where millers sell directly to consumers they shall obey the same regulations as retail store dealers.

Wheatless days and wheatless meals are discontinued.

Nothing in these regulations is to be construed to mean that there has been any setting aside or changing of the pure-food laws as promulgated by the Bureau of Chemistry, Department of Agriculture, or the internal revenue law as administered by the Internal Revenue Commissioner, which requirements must be conformed to by manufacturers and dealers in all cases.

MILITARY INSTRUCTION OF MEN INDUCTED FOR LIMITED SERVICE

War Department General Orders, No. 71:

II. Men inducted for limited service are generally not in the best physical condition, and are intended to be used in special positions for which they have been fitted by their previous civilian life. They are usually not in such physical condition as to be able to take up the strenuous military drill and exercise required for soldiers generally. Upon the arrival of such men at posts, recruit depots, trade schools, etc., the commanding officers will so graduate their military instruction as to make it compatible with the physical condition of the man. The surgeon should be required to examine each of these men and make recommendations as to the amount of drill or physical exercise he can profitably stand. Men inducted for special or limited service will not be returned to their local boards unless clearly physically unable to perform the special work for which they are inducted.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

SECTION NO. 1.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	47
Missing in action	93
Wounded severely	130
Died of wounds	16
Died of aeroplane accident	1
Wounded (degree undetermined)	32
Died of disease	7
Total	326

Killed in Action.

Capt. Ray P. Harrison. Joseph R. Harrison, Columbia City, Ind.

LIEUTENANTS.

Kenneth E. Fuller. Arthur O. Fuller, 80 Court Street, Exeter, N. H.

Calvin George. Mrs. Mary Cobb George, 19 Fairview Road, Atlanta, Ga.

Charles Evan Hurlbutt. T. Grant Hurlbutt, 83 Hazel Street, Oshkosh, Wis.

SERGEANTS.

Eugene P. Canty. Mrs. Nora Canty, 609 Dorchester Avenue, South Boston, Mass.

George I. Furo. Mrs. Carrie Furo, R. F. D. No. 1, Junction, Wis.

Edmund Welton. Mrs. Elizabeth Welton, 95 Adams Street, Dorchester, Mass.

CORPORALS.

Floyd Gallagher. John H. Chambers, Kimbolton, Ohio.

Paul Lucian Harder. Guido Harder, 104 Robert Street, Fort Atkinson, Wis.

William Rizos. Louis Rizos, 1434 Chestnut Street, St. Louis, Mo.

James C. Sutton. Charles M. Sutton, Robinson, Pa.

Robert Nelson Craidge. Mrs. Eleanor Craidge, 611 Polk Street, Bay City, Mich.

Guy McCarty. Mrs. Callie Howell, Grand View, Tex.

Eugene Trottier. Mrs. Alina Trottier, 30 Elliott Street, Brockton, Mass.

Jerry J. Kucera. Mrs. A. Kucera, 1152 West Sixty-first Street, Chicago, Ill.

Cook John M. Palla. Joseph Palla, 1601 Kaiser Avenue, Scranton, Pa.

PRIVATES.

William Collis. Miss Emma Collis, 219 East One hundred and twenty-second Street, New York, N. Y.

John A. Killmeyer. Mrs. Louis Killmeyer, 1238 Woefrum Street, North Side, Pittsburgh, Pa.

Robert Haney Lymburner. Alfred Lymburner, 602 South Huron Avenue, Harbor Beach, Mich.

George Sedlock. Mrs. Mary Sedlock, 1416 Kostner Avenue, Chicago, Ill.

James Witt. Mrs. Rebecca Witt, Norris, S. Dak.

Marion L. Alderton. Frank M. Alderton, Great Cascapon, W. Va.

Conrad M. Ellingson. Mrs. Johanna Waug, Canton, S. Dak.

Samuel Raymond Forney. Mrs. John Zimmerman, Lykens, Pa.

Frank F. Genn. Mrs. Jessie Genn, 204½ South Fourteenth Street, Richmond, Ind.

Henry M. Gerald. Mrs. Sarah Gerald, R. F. D. No. 1, Loris, S. C.

Philip Ghelfi. Mrs. Martha Ghelfi, Genoa, Wis.

William Goetzinger. Mrs. Emelia Goetzinger, 12 Kercheval Avenue, Detroit, Mich.

Magnus Grondal. Trond Grondal, Starbuck, Minn.

Wallace W. Lafayette. Frank Lafayette, East Baree Road, Barre, Vt.

Sam G. Lindsey. Miss Mabee Lindsey, 1005 Walnut Street, Kansas City, Mo.

William C. Lynch. Mrs. Mary Lynch, 202 Mussey Street, Rutland, Vt.

James D. McCarty. Mrs. Bertha Bergne, Mouth of Laurel, Ky.

Samuel McGuire. Mrs. Lillie Stalcup, R. F. D. No. 2, Doeville, Tenn.

John C. Meeker. Mrs. Anna McDonald, Martins Ferry, Ohio.

Frederick Morris. Mrs. Timothy Sullivan, 3 Gay Street, Portland, Me.

Ernest Gustive Nuffer. Mrs. Ernest Nuffer, 251 East Cambria Street, Philadelphia, Pa.

Charles J. Rice. Miss Ruby Davis, Cross Avenue, Syracuse, N. Y.

Eason Tiney. Mrs. Tank Tiney, R. F. D. No. 1, Macclesfield, N. C.

Johnnie Wilburn. W. T. Wilburn, Dennistion, N. C.

Max Doris. Mrs. Mary Cieslak, 1501 Greenleaf Street, Evanston, Ill.

Delbert LaPoint. Mrs. Lizzie LaPoint, Box 147, Linden, Mich.

Peter F. Lish. Frank Lish, Dickinson, N. Dak.

Brancson Lloyd. Mrs. Clara Lloyd, 32 Ward Street, Salem, N. J.

Adelbert Peterson. F. O. Peterson, 63 Chapin Street, Jamestown, N. Y.

Gordon Rawley. William F. Rawley, Lankershim, Cal.

Frank Rooney. Michael J. Rooney, Kippen, Mont.

Died of Wounds.

Capt. Kossuth T. Crossen. Mrs. J. K. Crossen, Albany, Ohio.

PRIVATES.

Otis Marthaler. Mrs. Maggie Marthaler, 143 Vermont Street, Beaver Dam, Wis.

Harley Mules. Mrs. George Mules, Elkhorn, Wis.

Emile Tardiff. Norsis Tardiff, Madison, Me.

Cornelius J. Devereaux. John Devereaux, Highland, Mich.

Mika Duda. Steve Lisafski, 715 West Fourteenth Place, Chicago, Ill.

Mike George. Frank Posten, 738 West Fifty-first Place, Chicago, Ill.

John German. William German, General Delivery, Margunville, Ala.

John F. Gilbert. Charles H. Gilbert, 18 Fairfield Avenue, Danbury, Conn.

William Alfred Johnson. Mrs. Celia Johnson, General Delivery, Barronett, Wis.

Leo Kahn. Mrs. Daniel Kahn, 514 North Troy Street, Chicago, Ill.

Walter Leo Kobylazak. Mrs. Rose Kobylazak, 400 Thayer Street, Saginaw, Mich.

Kelly Shushereba. Mrs. Annie Shushereba, Smolkin, Austria.

John J. Sullivan. Mrs. Julia Sullivan, 395 Grand Avenue, New Haven, Conn.

Frank Young. John Young, Liberty, Nebr.

Edward L. Zimmerman. Mrs. S. Zimmerman, 301 Columbia Street, Cambridge, Mass.

Died of Disease.

Sergt. Ivan McCutcheon. Mrs. Delia McCutcheon, 2646 Washington Boulevard, Chicago, Ill.

CORPORALS.

Chester Daniels. Mrs. Louise Daniels, 109 West Willow Street, Normal, Ill.

Stewart K. Nevil. Mrs. George W. Nevil, 1042 Main Street, Stroudsburg, Pa.

PRIVATES.

James W. Crosland. John Crosland, Holden, Utah.

William M. Glendon. Mrs. Richard Glendon, 13 Sake Street, Winchester, Mass.

Arthur J. Inman. Richard P. Inman, 1107 Massasoit Avenue, Chicago, Ill.

Harold E. May. Mrs. C. R. Messinger, 1819 North Fourteenth Street, Toledo, Ohio.

Died from Aeroplane Accident.

Pvt. Ronald Bathe McNeill. William McNeill, 605 North Jackson Street, Harrisburg, Ill.

Wounded Severely.

Lieut. Frank M. Owens. James A. Owens, Crawford, W. Va.

SERGEANTS.

Robert E. Beauchamp. Mrs. Mary F. Floyd, Bullard, Tex.

Claude Harvey. T. E. Harvey, R. F. D. No. 6, Clarksville, Tenn.

Anthony Scanlan. Mrs. Annie Conway, R. F. D. No. 2, Lost Creek, Pa.

Hamilton Walker Bowen. Mrs. Richard Bowen, 2 Pickens Street, Easley, S. C.

George Kappler. Alex. Kappler, R. F. D. No. 2, Vicksburg, Miss.

William H. Springs. Mrs. Frances Buchner, R. F. D. No. 32, Mars Hill, N. C.

Hans Wyttenburg. J. Wyttenburg, Clackamas, Oreg.

CORPORALS.

Alden Bush. Ralph E. Bush, R. F. D. No. 4, Rockford, Mich.

William F. Caraway. William M. Caraway, 637 North Market Street, Shawnee, Okla.

Louis H. Courcier. Mrs. Philomene Courcier, R. F. D. No. 5, Paducah, Ky.

William L. Cullen. Mrs. Catherine Cullen, R. F. D. Box 211, Gilroy, Cal.

Joseph Michael Kaliszewski. Mrs. Antonette Kaliszewski, 790 Grandy Avenue, Detroit, Mich.

Eben J. McIntosh. Mrs. T. Newell Lane, 256 Brooks Street, Wollaston, Mass.

Alex D. Nurse. Mrs. Lucy Nurse, Bulls Ferry Road, Hudson Heights, N. Y.

George Smith. Mrs. Thomas Bernhart, 381 New York Avenue, Jersey City, N. J.

Charlie A. Stark. Jacob G. Stark, 707 East Seventh Street, Bartlesville, Okla.

John Bazydlo. Stony Bazydlo, Oglesby, Ill.

Ralph Capatosta. Louis Capatosta, 331 Gom Street, Lowell, Mass.

Joseph Chicoine. Mrs. Ezilda Chicoine, 10 Maple Street, Webster, Mass.

Harry M. Fawber. Harvey Fawber, 13 South Dorwart Street, Lancaster, Pa.

Garrett J. Fitzgerald. Mrs. Maggie Fitzgerald, 1509 Thirty-fourth Street NW., Washington, D. C.

George Halas. George Halas, 4927 Northcot Avenue, East Chicago, Ind.

Charles H. Hampton. William H. Hampton, 2527 Waughtown Street, Winston-Salem, N. C.

Samuel Hatty. Mrs. Nellie Hatty, 1314 South Howard Street, Philadelphia, Pa.

Marcus Hill. Mrs. Naomi Hill, Wilkes-Barre, Pa.

Robert M. Hughett. Alex Hughett, Huntsville, Tenn.

Frederick Hummell. Joseph Hummell, 45 North Street, Seymour, Conn.

Paul Hunt. Mrs. Mattie B. Hunt, Centerville, Ind.

Cecil E. Kell. Mrs. Verna Ruth Kell, 614 Elm Street, Centralia, Ill.

William G. Kinsey. Mrs. Hannah Kinsey, R. F. D. No. 29, Winchester, Ind.

Andrew E. Kraftshack. Mrs. Mary Kraftshack, 2018 South Second Street, Philadelphia, Pa.

Ted Lachayewski. Michael Lachayewski, 718 South Van Buren Street, Bay City, Mich.

Levy B. Laferry. John W. Laferry, Brooken, Okla.

Marion Samuel Lamb. W. H. Lamb, R. F. D. No. 2, Livermore, Iowa.

Frank Lapointe. Frank Lapointe, sr., Wilton, N. H.

Stephen Joseph Lasky. Michael Lasky, 718 South Van Buren Street, Bay City, Mich.

Elliot Lavoy. Vivian Gochenour, Newport, Ark.

Fessenden Lutz. Mrs. Nellie Lutz, Fairfield, Me.

Raymond E. McCammack. Mrs. Mary Biggs, 44 Martinsville Street, Greencastle, Ind.

Ernest F. McGuire. Sol Soggins, R. F. D. No. 5, Cairo, Ga.

Claude Mackey. Mrs. T. G. Mackey, Leeds, Ala.

CASUALTIES REPORTED BY GEN. PERSHING

Frank Mackey. Albert Mackey, R. F. D. No. 2, Athens, Mich.

Luther S. Melton. Ben F. Melton, Lawson, Okla.

Clarance Andrew Miller. Mrs. Ettie Miller, Carbon, Ind,

James Moore. Levi Moore, Porterwood, W. Va.

Francis P. Murry. Owen Murry, 216 South Eighteenth Street, Easton, Pa.

Thomas Tolifson Netland. Peter Netland, Catawba, Wis.

Warn Norman. I. T. Norman, Mill Creek, W. Va.

Frank O'Neil. J. W. Morris, R. F. D. No. 1, Viroqua, Wis.

Thomas J. O'Reilly. Patrick O'Reilly, 1 Crest Street, Concord Junction, Mass.

Eddie Osborn. Mrs. Mary Osborn, St. Bernice, Ind.

John Carroll Osterberg. Mrs. Fannie Osterberg, State Street, Schenectady, N. Y.

Harvey Oxford. Mrs. Sarah Delph, Keokee, Va.

William Perkins. Mrs. Lon Perkins, Whitley City, Ky.

R. Arnold Rohan. John A. Rohan, 10 Butler Street, Meriden, Conn.

Leslie Newton Rogers. Mrs. Marthey J. Rogers, 1009 East Tenth Street, Bloomington, Ind.

Herbert R. Schmidt. Herman Schmidt, 595 Ancher Street, Milwaukee, Wis.

Charles W. Schmitt. Mrs. Emma Schmitt, 5431 Bischoff Avenue, St. Louis, Mo.

Daylon Sears. W. S. Sears, Apex, N. C.

James Shaughnessy. No emergency address given.

John G. Schamberg. Mrs. Catherine Tuite, 221 Taylor Street, Pittsburgh, Pa.

Lawrence Clapp Smith. Anita Britton, 312 Maple Street, West, Johnston City, Tenn.

Charley Bryan Sullivan. A. F. Sullivan, Perkins, Ky.

Charles M. Tucker. Mrs. Mary C. Tucker, 831 West Forty-third Street, Los Angeles, Cal.

Lyle J. Turner. Milferd Woodworth, 186 Center Street, Ashtabula, Ohio.

Arthur Van Os. Roscoa Van Os, 5833 Norfolk Street, Philadelphia, Pa.

Fred H. Ward. Frank R. Ward, Moultrie, Ga.

George E. Wenner. Fred Wenner, 3310 West Thirty-third Street, Cleveland, Ohio.

Dock Wolford. Green Wolford, Edgarton, W. Va.

Robert Stanley Woods. William Woods, R. F. D. No. 1, Blacksbury, W. Va.

Orville L. Wymore. Mrs. Sladie Wymore, Barnes City, Iowa.

John Zacharoff. Mike Zacharoff, 661 Belmont Street, Hamtramck, Mich.

Lawrence J. Lavelle. Mrs. Mary Lavelle, 22 Charter Street, Washington, Pa.

John C. Mate. Mrs. Eliza Mate, 311 Montgomery Street, Grand Rapids, Mich.

Proposals for Materials for the Indian Service

The United States Indian Service, Department of the Interior, is sending out proposals for the following material for the Santa Fe Indian School, New Mexico, bids to be received until 2 p. m. August 31, 1918:

3,000 feet lumber, common, SIS and 1E, 2 by 4 by 12 or 16 feet.
2,000 feet lumber, common, SIS and 1E, 2 by 6 by 12 or 16 feet.
5,000 feet lumber, 2 by 12 by 12 or 16 feet, SIS and 1E.
4,000 feet lumber, clear, S2S, 1 by 12 by 12 or 16 feet.
8,000 feet sheathing, grade fir, SIS, 1 by 12 by 12 or 16 feet.
1,000 feet common, SIS, 1¼ by 12 by 12 or 16 feet.
2,000 feet quarter round.
125 bundles shingles, redwood or equal.
2,000 lath.
50 poles, 30 feet by 14-inch butts.
500 feet bed molding, 1½-inch.
500 feet crown molding, 4 inch.
24 window frames, 4 lights; inside measure 5 feet 6 inches by 2 feet 9 inches by 1⅜ inches; window pane 14 by 30 inches.
12 doors, 2 feet 8 inches by 6 feet 8 inches by 1⅜ inches.

Proposals also are being sent out for 20,000 common building brick for the same school, bids to be opened at the same time as above.

Proposals are being sent out for one truck, 1-ton, for the Carson Indian School, Stewart, Nev., bids to be received until 2 p. m. August 30, 1918; and also for 45 sacks of asbestone, color light gray, for the same school, bids to be received until 10 a. m. August 31, 1918.

Proposals are being sent out for one standard cream separator, capacity 750 pounds per hour, for the Tongue River School, Lame Deer, Mont., bids to be received until September 14.

Alleged Wrong Payment of P. O. Money Orders

OFFICE OF THIRD ASSISTANT
POSTMASTER GENERAL.
Washington, August 21, 1918.

When the postmaster receives complaint of alleged wrong payment of a money order drawn upon his office in favor of a soldier or sailor serving with the colors or in any way connected with the military service, as a preliminary to investigation he should procure from the complainant a formal statement under oath to the effect that he has not signed or received payment of the order, or authorized any other person to receive or receipt for payment for him. Such affidavit should also contain directions for disposal of the amount involved if it is recovered after he has left this country under orders for service overseas.

If the desired affidavit of the payee can not be secured, the postmaster should endeavor to obtain at least a written statement of any facts bearing on the matter known to either payee or remitter which may assist the inspector having the case in charge to take it up for early investigation.

W. J. BARROWS,
Acting Third Asst. P. M. General.

The food program is a fighting program and every fighter counts.

Officers and Men of Interned U. S. Ship Reported Well Cared For In Turkey

HEALTH OF ALL GOOD

Scorpion's Crew Receiving Wholesome Food, Books, and Shore Leave to Play Football, but are Hungry for Home News, Royal Swedish Legation Says.

The Committee on Public Information issues the following:

The Navy Department announces that information has been received from the Royal Swedish Legation at Constantinople, Turkey, that the officers and enlisted men of the U. S. S. *Scorpion*, interned there since April 11, 1917, are in good health, and that the food supply is wholesome and abundant.

Ship at New Anchorage.

The report states that the *Scorpion* has been moved to a new anchorage that is a healthier and more agreeable location than the former mooring; there are numerous books aboard the ship, the Constantinople newspapers are available, and the crew is allowed to play football on the drill grounds of the ministry of marine.

Officers and men are all said to be in excellent health, there being no cases of sickness on board at the time the report was made. Every week two officers and seven members of the enlisted personnel are allowed to visit the city under escort. In addition to this, several of the men have been permitted to go into the city to receive dental treatment. Steps are being taken, the report states, to get even more liberal permissions for shore liberty. The men appear contented, their chief requests being for more news from home and more shore leave.

List of Officers and Men.

The officers and men of the *Scorpion* interned at Constantinople are as follows:

Lieut. Leman L. Babbitt, Houghton, N. Y.

Lieut. Commander James G. Omelvena, Weston, W. Va.

Lieut. Commander John F. Huddlestone, Geneva, Fla.

D. H. Barnes, fireman, third class; sister, Mrs. Elida Willoughby, 405 George Avenue, Parsons, Pa.

C. Bindo, fireman, second class; father, William Bindo, 78 Bowery, New York, N. Y.

K. E. Boehmer, seaman; mother, Mrs. Lucy C. Boehmer, 531 Twelfth Street, Washington, D. C.

C. P. Boes, carpenter's mate, first class; wife, Mrs. Mary Boes, 2 Rue Mancasar, Constantinople, Turkey.

A. H. Broschk, boatswain's mate, second class; mother, Mrs. Augusta Broschk, 1042 Holmden Avenue, Cleveland, Ohio.

O. O. C. Claus, seaman; mother, Mrs. Christianna Claus, Route No. 2, West Bend, Wis.

J. H. Darley, chief yeoman; son, Henry T. Darley, Hedge End Road, Botley, Hants, England.

J. B. Denight, coxswain; mother, Mrs. Isabella Denight, Willow Street, Delanco, N. J.

G. L. Dickerhoof, gunner's mate, third class; sister, Mrs. Anna Gumpers, 31 North Howard Street, Philadelphia, Pa.

C. B. Dodge, quartermaster, first class; wife, Mrs. Triandifilia Dodge, 33 Rue Orta, Constantinople, Turkey.

B. Douglass, chief pharmacist's mate; sister, Miss Ethel Douglass, 110 Blackhall Street, New London, Conn.

R. W. Earle, chief boatswain's mate; mother, Mrs. Sarah Earle, 9 Colliston Road, Brighton, Mass.

H. F. Eklof, electrician, first class; wife, Mrs. Malance Eklof, 9 Rue Tchoplouk-Tchesme, Constantinople, Turkey.

C. E. Froendhoff, quartermaster, second class; father, Gustave A. Froendhoff, 421 South Main Street, Dayton, Ohio.

H. F. Gaiser, machinist's mate, first class; father, George A. Gaiser, 23 Western Street, Providence, R. I.

W. L. Graf, boatswain's mate, second class; wife, Mrs. Julia Graf, 29 Rue Chickmi, Constantinople, Turkey.

C. Hartley, seaman; mother, Mrs. Clara Walls, 2523 North Fifteenth Street, Terre Haute, Ind.

R. A. Havens, oiler; father, Henry T. Havens, Rebe, Essex County, N. Y.

E. Hayes, boatswain's mate, first class; wife, Mrs. Katina Hayes, 3 Rue Kater, Toscoporau, Constantinople, Turkey.

P. Hoffman, bugler; wife, Mrs. Mary Hoffman, 145 Bleecker Street, Brooklyn, N. Y.

P. H. Howse, water tender; wife, Mrs. Fanny Howse, 13 Rue Pitak-Sokak, Toscoporau, Constantinople, Turkey.

R. Humphries, fireman, second class; father, Benjamin F. Humphries, Billings, Okla.

H. C. Huston, yeoman, third class; mother, Mrs. Margaret Huston, 1471 Corno Avenue, West St. Paul, Minn.

B. W. Jeffris, wardroom steward; wife, Mrs. Elizabeth Jeffris, 27 Fayette Street, Chester, Pa.

L. M. Keating, electrician, second class; mother, Mrs. Helen V. Keating, 5021 Page Avenue, St. Louis, Mo.

F. Korn, seaman; mother, Mrs. Emma Korn, 809 Union Avenue, Bronx, N. Y.

F. J. Lahondere, chief gunner's mate; brother, Joseph Lahondere, 214 West One hundred and thirty-first Street, New York.

R. W. Langworthy, chief machinist's mate; mother, Mrs. Elizabeth Langworthy, 916 South Fifth Street, East Cedar Rapids, Iowa.

T. Lamb, mess attendant; mother, Mrs. Mary E. Lamb, 4 Fleet Street, Brooklyn, N. Y.

O. LeR. Lodge, chief yeoman; wife, Mrs. Hazel D. Lodge, 431 East North Avenue, Olney, Ill.

D. L. Lotts, electrician, second class; wife, Mrs. Mary Lotts, Independence, Iowa.

P. Manion, chief water tender; wife, Mrs. Maria V. Manion, North Rue Cinearutch, Emir Han, Constantinople, Turkey.

M. Martinez, W. R., cook; wife, Mrs. Elizabeth Martinez, 61 Rue Coumbradji, Constantinople, Turkey.

S. Meena, P. & F.; wife, Mrs. Olympia Meena, 52 Rue Tosca Pardu, Constantinople, Turkey.

M. Miller, seaman; mother, Mrs. Bessie Miller, 94 Henry Street, New York, N. Y.

M. Milton, oiler; wife, Mrs. Sophia Milton, Lemnos Island, Aegean Sea.

T. Miskell, water tender; brother, Edward Miskell, 117 West Thirteenth Street, Bayonne, N. J.

H. R. McCleary, fireman, first class; wife, Mrs. Margaret McCleary, Apartment No. 6, Dovadjik, Yosef-Zesley, Constantinople, Turkey.

H. I. G. McDonald, carpenter's mate, first class; sister, Miss Nellie McDonald, 1210 I Street NE., Washington, D. C.

J. Necles, water tender; wife, Mrs. Doxi Necles, 3 Rue Anaik-Sokak, Constantinople, Turkey.

J. M. O'Dell, quartermaster, first class; father, Leroy O'Dell, Hamilton, Ill.

J. E. O'Neill, baker, second class; aunt, Mrs. Sarah Lalley, 80 Court House Place, Jersey City, N. J.

D. A. Payton, mess attendant; uncle, Joseph H. Payton, 832 Fourth Street, Norfolk, Va.

W. E. Peterson, C. M. A.; wife, Mrs. Helen Peterson, 43 Rue Coumbradji, Constantinople, Turkey.

E. A. Reed, water tender; wife, Mrs. Mendel Reed, 19 Rue Orta, Constantinople, Turkey.

G. Reed, quartermaster, third class; stepbrother, Jesse E. Derhamer, Grove City, Ohio.

L. S. Rifenberg, fireman, first class; aunt, Mrs. Nellie Jackson, 606 Wells Avenue, Athens, Pa.

C. I. Smith, oiler; wife, Mrs. Totime Smith, 8 Rue Hemil Bachi, Constantinople, Turkey.

O. L. Stannard, seaman; brother, Ernest Stannard, 6 Elm Street, Glen Falls, N. Y.

R. Stewart, oiler; wife, Mrs. Mary Stewart, 19 Rue Orta, Constantinople, Turkey.

P. B. Sweat, jr., fireman, second class; father, Pierce B. Sweat, sr., Blackville, S. C.

J. J. Tatosky, boilermaker; wife, Mrs. Olga Tatosky, 9 Rue Coumbradji, Constantinople, Turkey.

G. Taylor, oiler; father, Samuel Taylor, R. F. D. No. 1, Carter, Tenn.

D. Tedesco, ship's cook, second class; wife, Mrs. Mary Tedesco, 5 Rue Kayouk-Sokak, Constantinople, Turkey.

J. Thompson, fireman, first class; wife, Mrs. Ada M. Thompson, 29 Rue Ibe, Constantinople, Turkey.

E. D. Williamson, chief yeoman; aunt, Mrs. Jennie F. Scanlon, Huntington, W. Va.

BASIC PRICE IS INCREASED FOR PENNSYLVANIA HEMLOCK

The War Industries Board authorizes the following:

The price-fixing committee of the War Industries Board announces a base price of $29, an increase of $2 over the former price for Pennsylvania hemlock lumber. The entire output of No. 1 and No. 2 grades will probably be required by the Government and the stock will be distributed subject to the control of the War Industries Board.

Following is the official announcement:

"After considering the information submitted by the Federal Trade Commission as to the cost of hemlock lumber production in the State of Pennsylvania, and the information submitted by the representatives of the manufacturers of such lumber at a hearing granted them on Wednesday, August 14, 1918, the price-fixing committee of the War Industries Board, by agreement with the producers, passed a ruling fixing a maximum base price for mill shipments of Pennsylvania hemlock lumber at $29 per thousand feet f. o. b. cars shipping point, such price to become effective midnight August 15, 1918, and to remain in effect to and including October 20, 1918.

Lumber Companies Represented.

"The following companies, producing the greater part of Pennsylvania hemlock lumber, were present at the hearing: Goodyear Lumber Co., Norwich, Pa.; Wheeler & Dusenbury, Endeavor, Pa.; Pennsylvania Lumber Co., Killettsville, Pa.; Central Pennsylvania Lumber Co., Williamsport, Pa.

"By reason of the construction program of the various governmental departments, it is apparent that the Government will require substantially the entire output of No. 1 and No. 2 grades of Pennsylvania hemlock. It was, therefore, agreed at the hearing by all of the above manufacturers—

"1. That their entire stock and production of Pennsylvania hemlock, grades Nos. 1 and 2, will be held available for the direct and indirect needs of the Government in the war, and will be distributed and dealt in subject to the control of the War Industries Board.

"2. That such of the foregoing lumber as, in the judgment of the chief of the lumber section of said board, can without detriment to governmental requirements be released for urgent commercial or other needs, may be sold to car lot purchasers (with his consent) at prices which, per item, shall not exceed the prices as established by the attached list."

The "attached" list referred to above contains the item prices, which are unchanged from the old list, except that they apply to the new $29 base.

BASIS OF PRICES FOR PORTLAND CEMENT FOR GOVERNMENT PURCHASES ANNOUNCED

The War Industries Board authorizes the following:

After meeting the War Service Committee of the industry on August 23, the price fixing committee of the War Industries Board has fixed the following basis of prices for Portland cement, f. o. b. at the locations named, for Government purchases, effective for the four months ending December 31, 1918:

	Per barrel.
Hudson, N. Y.	$1.82
Northampton, Pa	1.72
Universal, Pa	1.72
Fordwick, Va	1.67
Bellevue, Mich	1.77
Mitchell, Ind	1.67
Hannibal, Mo	1.67
Buffington, Ind	1.57
La Salle, Ill	1.67
Mason City, Iowa	1.67
Iola, Kans	1.72
Steelton, Minn	1.67
Kingsport, Tenn	1.62
Richard City, Tenn	1.62
Harrys, Tex	1.67
Houston, Tex	1.77
El Paso, Tex	1.92
San Antonio, Tex	1.92
Trident, Mont	1.87
Portland, Colo	1.72
Devils Slide, Utah	1.87
Brigham, Utah	1.87
Salt Lake City, Utah	1.87
Irvin, Wash	1.92
Concrete, Wash	1.92
Oswego, Oreg	1.97
Cement, Cal	1.92
Davenport, Cal	1.92
Crestmore, Cal	1.92

Shipments in bulk 5 cents per barrel less.

Shipments in paper bags 30 cents per barrel additional.

Shipments in cloth bags $1 per barrel additional.

Credit for Cloth Bags.

Cement companies will issue credit to the department or contractor to whom the cement has been sold or shipped in cloth bags at the rate of 25 cents each for the company's empty cloth bags bearing its brand, upon receipt in serviceable condition at its mill, freight prepaid, subject to the company's inspection and count; such bags to be returned within 60 days from date of receipt of shipment. The cloth bags are the property of the cement companies and are not to be used by the Government departments or their contractors for other purposes, and while in their possession are to be properly cared for and special attention given to their prompt return to the shipping mill.

The above does not cover shipments in wooden barrels or paper-lined cloth bags, which special forms of packages are rarely required. When shipments in such packages are desired, prices based upon their cost will be determined at the time the order is placed.

Where bin storage is required for cement held for the 7 or 28 day test, there will be an additional charge of 3 cents per barrel. Where cement is not held in bins to await the result for the seven-day test there will be no charge for bin storage.

Purchaser Must Pay Freight.

On the above basis, with freight added, prices will be named f. o. b. cars at destination, based upon present rates of freight, subject to increase in destination prices in accordance with any increase which may be made in freight rates. The freight charges are to be paid by the purchaser and shipments must be consigned to a Government officer, or, if consigned to other than a Government officer, must be accompanied by a certificate (form 750) signed by a Government officer stating that the cement is for Government use and that any saving will accrue to the benefit of the Government, otherwise the purchaser must also pay the war tax on the freight charges. Shipments are to be made freight collect, and for convenience in billing, invoices will be rendered on the basis of the above named prices, plus the current freight rate. In payment of the account, the freight charges paid by the Government departments or their contractors will be deducted from the total amount of the invoices. When shipments are required freight prepaid, form 750, furnished by the Commissioner of Internal Revenue, must be signed by the officer in charge of the work in question, and forwarded to the shipping company with the order, who will file this certificate with the railroad company at the time the first shipment is made on this order.

Terms of payment will be net cash within 30 days from date of receipt of shipment.

Purchase Conditions.

Attached are the conditions under which the purchases of Portland cement are to be made by the several departments of the Government at the above-named prices for the four-month period ending December 31, 1918:

1. All cement must meet the requirements of the United States Government specifications for Portland cement. (Note Circular No. 33.)

2. The cement will be generally shipped on 7-day test unless specifically waived, but this does not waive the full requirements of the specifications including the 28-day tests, and any waiver will be handled direct by the department concerned.

3. All shipments must be from 7-day accepted cement unless otherwise provided by the purchasing officer, but no cement shall be shipped that has not passed the tests for fineness, soundness, and time of settling.

4. At the discretion of the purchasing officer any company whose cement has failed to meet the Government tests may be denied further orders.

5. The minimum shipment shall be one carload.

6. Three bills of lading will be required.

7. When shipments are required freight prepaid, Form 750, furnished by the Commissioner of Internal Revenue, must be signed by the officer in charge of the work in question, and forwarded to the shipping company with the order, who will file this certificate with the railroad company at the time the first shipment is made on this order.

8. To secure the Government price, orders must be either placed directly by the Government officer or the order must be certified as for Government use by the department concerned, stating that the saving in the Government price over the commercial price will accrue to the benefit of the Government.

9. All orders must bear the requisition number, contract number, number of barrels required, when required, rate of shipment, definite shipping point, name of purchaser, and to whom consigned, and name of contractor.

10. The allotted time for the return of the bags shall be 60 days from the date of delivery of the shipment.

11. Unless otherwise directed, the cement shall be billed direct to the Government officer in charge.

12. All orders for cement to be purchased at Government price must be placed through the War-Service Committee on Portland Cement.

FARM ORGANIZATIONS AND THE U. S. EMPLOYMENT SERVICE

The Department of Labor authorizes the following:

The National Grange, the National Farmers' Union, and the National Dairy Union will henceforth be jointly represented in the farm service of the United States Employment Service of the Department of Labor by a representative who will be permanently stationed at the national headquarters of the Federal Employment Service in Washington. This will bring the active support of the millions of members of these organizations behind the campaign which the Government is conducting in behalf of adequate and capable farm labor supply.

Mr. Williams Chosen.

As the result of conference between M. A. Coykendall, chief of farm service of the Employment Service; Oliver Wilson, master of the National Grange; Charles S. Barrett, president of the National Farmers' Union; and William T. Cresy, secretary of the National Dairy Union, this special representative on the executive staff of the Employment Service Division has been chosen in the person of Howard E. Williams, of Trout, W. Va.

Mr. Williams has been for many years a prominent member of the National Grange and has successfully filled the offices of commissioner of agriculture, State highway inspector, and director of farmers' institutes in West Virginia. He is a man of practical farming, stock raising, and dairy experience and leaves a large agricultural property in West Virginia to come to the Employment Service. He will be with the Department of Labor before the end of August, from which time on the Employment Service will have the benefit of his counsel and advice in all matters directly affecting the farm labor situation.

Supplement to Cooperation.

The appointment of Mr. Williams supplements the cooperation already existing between the Employment Service and the National Grange, whereby local granges throughout the country are arranging to each have a member acting as a farm labor agent of the Employment Service, his principal duty being to serve as the point of contact between all the members of his grange in need of farm help and the nearest branch office of the United States Employment Service.

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

New Regulations Governing Exportation of Tin Plate and Terne Plate are Issued In Ruling Announced by War Trade Board

The War Trade Board announces, in a new ruling (W. T. B. R. 209), the following regulations governing the issuance of licenses for the exportation of tin and the manufactures of tin:

Tin plate and terne plate: Applications for licenses to export tin plate will only be received from the manufacturer, or, if the applicant is other than the manufacturer, when evidence satisfactory to the War Trade Board shall be furnished showing that the purchase of the tin plate to be exported has been made by the applicant directly from the manufacturer. A copy of the contract for such purchase shall be filed with the application.

To facilitate furnishing the additional requisite information indicated below, the War Trade Board has prepared Form X-4, which should be duly executed by the applicant and attached to the application when filing all applications for licenses for the exportation of tin plate.

Exportations of tin plate to Canada will be considered when the applicant furnishes satisfactory evidence that the material is to be used for a purpose for which it may be used within the United States.

Exporters will facilitate the consideration of applications for licenses to export tin plate to North and South America (except Canada and Newfoundland) and to Bermuda, West Indies, Falkland Islands, Galapagos, Aleutian Islands, China, and Japan if, in addition to the above evidence satisfactory to the War Trade Board is furnished showing that the tin plate to be exported will actually be consumed in the manufacture of:

(*a*) Containers for food to be consumed by the people of the nations at war with Germany, or by the people inhabiting the country in which the food is packed, or

(*b*) Containers for food or alcohol to be used by the owners and employees of a manufacturing plant or mine or oil well, the product of which or a major portion thereof is necessary to and actually aids in the successful prosecution of the war, or is exported either to the United States or to the Allies, or

(*c*) Cans to be used by oil refiners as containers for oils when such refiners are furnishing fuel oil or other products, such as gasoline, to the United States or to the allies, in substantial quantities.

And further provided that the applications for licenses for the exportation of tin plate are accompanied by—

(*d*) Evidence satisfactory to the War Trade Board of the existence of an order from the actual purchaser abroad.

In the consideration of applications for licenses for the exportation of manufactures of tin it will be necessary for the applicant in filing his application for (2) empty tin containers, (3) tops and bottoms and fastenings to be used in the manufacture of fiber containers, for shipment to Bermuda, West Indies, Aleutian Islands, St. Pierre, Miquelon, to furnish evidence satisfactory to the War Trade Board to the effect that the containers will be used for food for human consumption by the people of the nations at war with Germany or by the people inhabiting the country in which the food is packed.

Applications for the following articles need only be accompanied by Form X–4: (4) Type metal, (5) printers' type, (6) dental alloys.

Sundry articles either made of tin plate or coated or dipped in tin, such as (7) tin lanterns, (8) tin lamp founts, (9) tinned rivets, (10) tin kitchen utensils, (11) tin tableware, (12) tin household devices, (13) tin toys made of tin plate, (14) tin specialties, (15) tinned wire, (16) tin car seals, (17) tin stoves, (18) tin picture frames, (19) tin clothing buttons, (20) tinned wirecloth, (21) tin chaplets, (22) tin tags, (23) tin spouts, (24) tin roofing disks, (25) tinned tacks, (26) tin oil squirt cans, (27) tin signs, (28) tin novelties, (29) tin curtain rollers, (30) sundry articles of like character.

Applications for the following: (31) Bearing metals, (32) antifriction metals, (33) white metals, (34) tin alloys, containing more than 5 per cent of tin; (35) solder, containing more than 40 per cent of tin; (37) tin foil, (38) collapsible tin tubes, (39) bottle caps or covers of tin foil, containing more than 5 per cent of tin will be considered, provided that, in the case of shipment to Canada or Newfoundland, evidence satisfactory to the War Trade Board is furnished showing that the above-mentioned commodities are to be used for a purpose for which they may be used within the United States, and do not contain a percentage of tin higher or of a quality other than is requisite for the purpose to which they are to be put.

Further provided that in case the shipment is to a destination other than Canada or Newfoundland, evidence satisfactory to the War Trade Board is furnished showing that the above-mentioned commodities will be used for a purpose which will contribute directly to the successful prosecution of the war, and do not contain a percentage of tin higher or of a quality other than is requisite for the purpose to which they are to be put.

Further provided that in the case of Nos. 31, 32, 33, 34, and 35 such tin content does not consist of Straits tin or Banca tin.

The exporter will facilitate the consideration of applications for license to export—

(31a) Bearing metals, (32a) antifriction metals, (33a) white metal, (34a) tin alloys, containing 5 per cent of tin or less; (35a) solder, containing 40 per cent of tin or less; (37a) tin foil, (38a) collapsible tin tubes, (39a) bottle caps or covers of tin foil, containing 5 per cent of tin or less.

Provided that the application is accompanied by an affidavit of the manufacturer stating the amount of tin content.

Further provided that in the case of Nos. 31a, 32a, 33a, 34a, 35a, such tin content does not consist of Straits tin or Banca tin.

Applications for license to export—

(40) Second-hand crushed oil cans will be considered for shipment to China and Japan if evidence satisfactory to the War Trade Board is furnished, showing that the second-hand crushed oil cans to be exported have been received, filled with oil from China or Japan, and provided also that shipment of such second-hand crushed oil cans has not originated at a point east of the Rocky Mountains.

Applications for licenses to export—(41) Block tin will be considered for shipment to all destinations, provided that the block tin to be exported constitutes a portion of a manufactured article or machine, such as a soda-water carbonator, and is of small value in proportion to the value of the whole article.

The War Trade Board will consider applications for license for the exportation of—(42) Phosphorized tin, (43) tin crystals, (44) tin oxide, (45) tetrachloride of tin, (46) bichloride of tin, for shipment to Canada, provided that evidence satisfactory to the War Trade Board is furnished, showing that the above-mentioned commodities to be exported will be used for a purpose for which they may be used within the United States.

Applications for the exportation of—(47) Bottle caps, covers, or closures made of tin plate to North and South America and to Bermuda, West Indies, Falkland Islands, Galapagos, and Aleutian Islands, provided that evidence satisfactory to the War Trade Board is furnished, showing that the above-mentioned commodities are to be used to close a container for food or drink for human consumption by the people of the nations at war with Germany, or by the people inhabiting the country in which such commodities are to be used.

The War Trade Board at the present time is not in a position to consider applications for the exportation of tin when contained as a base for silverware, pig tin, metallic tin, and scrap tin.

POST THE OFFICIAL BULLETIN.

Secretary of War Baker orders:

Commanding officers of military posts and stations will post copies of the OFFICIAL BULLETIN *in conspicuous places for the information of all concerned.*

It is the desire of the department that the OFFICIAL BULLETIN *be made accessible to the entire personnel of the Navy. All commandants and commanding officers are directed to have it placed in a conspicuous and accessible place and to notify the officers and men under their command of its existence and purpose.*

JOSEPHUS DANIELS,
Secretary of the Navy.

All postmasters are directed to post THE OFFICIAL BULLETIN *daily in a conspicuous place in the lobby or other portion of their respective post-office buildings where the public can read it; and, without expense to the Government, each and every postmaster is earnestly urged to see that this* BULLETIN *is made available to as many people as possible in the manner suggested.*

A. S. BURLESON,
Postmaster General.

VOL. 2 WASHINGTON, THURSDAY, AUGUST 29, 1918. No. 399

TREASURY READY TO FINANCE THE MOVEMENT OF CROPS BY LOANS THROUGH BANKS

TO REDISCOUNT ELIGIBLE PAPER

Federal Institutions as Fiscal Agents for the War Finance Corporation Prepared to Receive Applications for Advances.

The Treasury Department authorizes the following:

Secretary McAdoo again calls attention to existing facilities for financing the movement of the crops.

Under the provisions of the Federal reserve act and the regulations issued by the Federal Reserve Board, the Federal reserve banks are authorized to rediscount for member banks eligible commercial paper.

In order to supplement the rediscount facilities available to member banks in the Federal reserve system, the War Finance Corporation at the suggestion of Secretary McAdoo announced on August 5 that it was willing to make advances to banks under sections 7 of the War Finance Corporation act to assist them in financing the crop moving.

Ready to Receive Applications.

The Federal reserve banks of Richmond, Atlanta, St. Louis, Minneapolis, Kansas City, Dallas, and San Francisco as fiscal agents of the War Finance Corporation have notified all the banks of their districts, whether or not members of the Federal reserve system, of the announcement, and are prepared to receive applications for advances. Under the terms of the War Finance Corporation act the advances are limited to 75 per cent of the amount of the loan made by the bank, or to 100 per cent in case the bank itself furnishes collateral security to the amount of at least 33 per cent of the loan.

Action Through Reserve Banks.

The advances will be made by the War Finance Corporation on written application through the several Federal reserve banks acting as its fiscal agents, but only after consideration of their recommendations, upon the promissory notes of the borrowing bank secured by the obligations of the farmers or merchants to whom loans have been made by the borrowing bank, together with any security taken for such obligations. Those obligations must evidence loans made by the bank for crop moving purposes or loans previously made to farmers and merchants, provided that the applying bank certifies that the proceeds of the advance will be used for crop moving purposes.

Inasmuch as these advances are for crop moving purposes only, the loans by

(Continued on page 5.)

Secretary McAdoo Denies Newspaper Reports About Liberty Bond Taxation

The Treasury Department authorizes the following:

Secretary McAdoo said: "Newspaper reports that I have urged that the Liberty bonds hereafter issued be free from all taxation are erroneous."

Rear Admiral Wilson Appointed to Command Battleship Force 2

Secretary Daniels announces that Vice Admiral De Witt Coffman, now in command of Battleship Force 2, Atlantic Fleet, will become commandant of the fifth naval district, with headquarters at Norfolk, Va.; and that Rear Admiral Henry B. Wilson has been designated to succeed him in the battleship command, which carries with it the rank of vice admiral.

Admiral Wilson, who is now in command of the United States naval forces operating in French waters, will continue on this duty for the present, the Secretary stated.

Hearing on Newsprint Paper Industry Postponed

The National War Labor Board authorizes the following:

The National War Labor Board has postponed until September 11 the hearing scheduled for yesterday in the case of the news-print paper industry. This action was taken because of the absence from Washington of C. A. Crocker and T. M. Guerin comprising the section of the board which has had the case in charge.

The desire for further hearing in the case, which was decided some time ago, is due to the failure of employers and workers to agree completely upon an interpretation of the decision.

SELECTS FLAG FOR SHIPS.

Director McAdoo Chooses Emblem for Railway Operated Vessels.

The United States Railroad Administration issues the following:

Director General McAdoo to-day selected a flag which will be flown by all of the 79 vessels being operated by the United States Railroad Administration. There are also 25 vessels owned by the railroads which are now under the control of other agencies, but which will also fly this flag when restored to control of the Railroad Administration.

The flag has the letters "U. S. R. A." in blue on a white field with a red border,

DIRECTOR RYAN IN INTERVIEW DISCUSSES THE PROGRESS MADE IN WAR AIRCRAFT PRODUCTION

TESTS OF MANY TYPES BEING MADE

Mistakes Admitted, but Work Is Going Ahead with View to Building Only Machines That Have Real Military Value.

Transcript of regular Wednesday interview with John D. Ryan, August 28, at the office of the Director of the Bureau of Aircraft Production.

I am not going to discuss reports of investigations, but generally try to give you an idea of the work that has been going on in the Bureau of Aircraft Production for the last few months.

We think in many respects satisfactory progress has been made. We were unfortunate in having to abandon the production of one of the smaller types of airplanes, the so-called Bristol Fighter, which has proven after thorough tests that it was not a safe machine, that it was not a useful machine for military purposes, and we are not going to make it, or any but safe machines and machines of military value.

Possibility of Mistakes.

We may repeat that kind of a mistake, we may find that we are even ready to go into production with a machine, and we may have spent a lot of time and a lot of effort in developing it, but when we get to the point, whenever or wherever it is, where we find a machine is not of military value, we are not going to produce it.

We are making a good many de Haviland 4's. There has been a good deal of criticism of them, and there have been a good many changes made on them recently. These changes have not been discovered in the way that is generally supposed. I mean the so-called defects that result in changes are not in many cases what you can really call defects at all, but improvements in workmanship, and they are going on all the time. Men are learning to do these things better all the time. Improvements may be developed in one country or another on different kinds of planes, but as they are developed they are incorporated in every machine that can carry them.

Officer Sent to Investigate.

When the first de Haviland's were built (and it was before my time), a capable officer was sent from this bureau to see these machines put together on the other side, to see them flown, to get the information that came from the tests, and to report any change that would better them. This officer returned, and some

days later a cable from Gen. Pershing was received embodying the same things, covering the same points, found through the same channels, and as soon as it did come the orders for changes were made and issued. That is all there is to that story.

The de Havilands are being built now in about the same quantity as before the change was made. It is not a totally different machine; it is just an improved machine, and we think in a few months it will be improved further.

On account of the cancellation of the Bristol because it was an unsafe machine, it left us for the time being a limited program as far as manufacturing was concerned, because we were developing other types that had not been brought to the point of production.

Four New Machines Flown.

In the last two weeks, as the result of these months of investigation and study and design, we have flown in tests out at Dayton at least four machines that are new as far as our manufacture is concerned in this country.

We have flown the SE-5, which is a British machine, a single-seated fighter. Samples of it have been brought over from England, copies have been made in this country, and with our engines in them they have been flown and are now being tested. In a few days we will decide whether that machine will go into quantity production or not. The exact copy of the English Bristol, with an engine of about the same power that they use in it in England, has been brought over here, copies have been made, machines have been built, and they are being flown.

Another machine now being tested was designed in Detroit by Capt. Lepere, a French officer, who was brought over here to design machines equipped with Liberty engines. Three different machines of that type have been flown and are very promising.

Two Other Types Flown.

There are at least two other types of machines that are being flown that we do not think it advisable to give publicity to, because they are not so far along that we feel satisfied that they are going through. We do not want to say that we have five types and come out with only three. These are all machines that can be made in quantity, and of course it will take some little time to get them into production, but the work of design has been going on. Now we are using, contrary to the general supposition, many American designers of reputation.

Italian Designers Here.

Continuing, Mr. Ryan said: "Within a week the Pomilio Bros., an Italian family of airplane designers, have come to this country. They have a number of very effective types of machines in use in the Italian army. They were very successful designers and builders of airplanes in Italy, but they sold their business to the Anseldos, the big munitions people in Italy, and they have come over here. They have come to the United States to design planes to fit our engines, and are established in Indianapolis and are at work. They brought about 30 designers and workmen with them.

"This is just to give you a general idea of the scope of preparation that is being made to put us in production on planes that will fit our engines. The types of planes that we are building are fixed by the engines that we are going to build, for, after all, engines are the limiting factor.

"We have increased the orders for Liberty motors from 22,500, when this bureau was formed, to approximately 50,000—that is, the Liberty 12. We have ordered a large number of Liberty 8's, which were developed and set aside temporarily for the 12's when the larger and more powerful engine was decided upon. We have contracted for some of the very best foreign engines, such as the Hispano Suiza motor. We are going into quite a large production at some of the best engine-building shops in America with that engine. Our engine program is a large one. We are giving every inducement to engine builders who are at work on these things, and they have to be selected carefully because it is not every engine builder, no matter how successful he has been, who can build a high-powered aeronautical engine.

Up to Expectations.

"We are fully up to the expectations on motor production that we had in May, when this bureau was formed. Under present conditions it is impossible to obtain quantity production of a new motor in much less than a year, whereas a new plane can usually be produced in about six months. The Lepere plane has been flying for 30 days, but we are not going to say anything about the performance of a given plane until it has given such performance that we can talk about it. We can not wait for war conditions to test machines. We have to test them under all conditions that we can supply short of war and depend upon it to pass the final tests.

"We are not afraid of what we can accomplish, but we are not going to make any promises or predictions."

Questions and Answers.

Question. Is the Liberty 8 perfected?

Answer. There are a number of Liberty 8's in production.

Question. What is the Liberty 8 for?

Answer. That is to be determined. It is a 250-horsepower engine, the Liberty 12 is a 400, and it is an engine in between the 180-horsepower Hispano motor, which we are building in large quantities, and the Liberty 12. There is too much range to be without an engine of that size. We have ordered the Hispano Suiza; we are actually in production on the 180-horsepower Hispano, the 300 Hispano has been ordered, and the sample engines have been built, but it is not yet in what we call production.

Question. The allies have not enough planes on the front. Is our production doing anything at the present to meet that?

Answer. I would not say that we are meeting the need on the front, because the need on the front has never been met, not only as far as the American Army is concerned, but it has never been met as far as any army is concerned.

Question. Are planes going across in large quantities now?

Shipment of Planes Overseas.

Answer. Planes are going across in fair quantities now. Not in many types, but we are supplying engines for planes that are built in both England and France and in that way obtaining just that many planes for our own armies and in considerable numbers.

Every one of our allies is calling for Liberty engines, demanding them, finding it impossible to meet their own production of planes with engines for them. They are all relying on our production of Liberty engines; not for a few engines, but for a large part of their program. They all now have Liberty engines and have tested them and tried them out. Particularly the English say to us, "We saw it first. We knew it was a good engine before you admitted it was." And they are satisfied with it and demanding numbers that are out of the question for us to meet—that is, they will take more engines than we can make. Remember this, that there has never been on either side of this war a sufficient number of engines. That is the limiting factor in any air program on both sides of the war.

All Men in 18-45 Class Urged to Ascertain Their Exact Ages Before Registration Day

The War Department authorizes the following:

Provost Marshal Crowder issued to-day a statement calling attention to the obligation resting on all men of draft age to ascertain as nearly as possible their exact ages before registration day. He said:

Persons in doubt as to whether or not they come within the new age limits of 18 to 45 years should make evey effort possible to clear up this doubt between now and the day set for registration. Failure to do this will not excuse a man from presenting himself for registration if, as a matter of fact, he comes within the age limits laid down by Congress. The entire resources of local, State, and Federal police officers, investigating agents, and district attorneys will be at the disposal of the local boards to locate persons who so fail to register. Such persons, under the law, would be guilty of a misdemeanor, and, upon conviction, would be liable to a year's imprisonment.

Not only should those in doubt avail themselves of such official birth records as might be available, but they should consult their relatives and other persons who have known them through their lifetime, seek access to church and family records, and examine all other documents, such as marriage certificates, and the like. Municipal and county officials, clergymen, and others having possession of information which might be of assistance can be relied on to aid.

ANNOUNCES PLAN TO EXTEND FINANCIAL AID TO INDUSTRIES

Chairman Baruch Outlines Suggestions Made to the Federal Reserve Board.

The War Industries Board authorizes the following:

Bernard M. Baruch, chairman of the War Industries Board, announces that he had suggested to the Federal Reserve Board it work out some plan under which financial aid might be extended to industries that would be hit by the war in the industrial curtailments that are now under way and are to come.

Mr. Baruch warned that curtailments would be necessary in increasing proportions as the war needs grew. His purpose in appealing to the Federal Reserve Board for development of the plans to extend financial aid to industries that must be skeletonized to get maximum production from industries necessary to winning the war was to soften the blow on the industries affected injuriously and to prevent their wrecking.

The New Preference.

Mr. Baruch said that the new preference list which the War Industries Board is preparing will carry in 64 groups the prime essential industries rated according to war needs. He said this grouping of preferred industries would be followed by the district boards in charge of the selective draft in rulings on exemptions on account of need in industry. With these boards will sit members of the Committee on the Relationship of Industrial and Military Man Power, an organization formed by the War Department and the War Labor Policies Board.

Standardization of Shoes.

The War Industries Board chairman said that he was discussing with the shoe manufacturers the question of price fixing and of standardizing their output to conserve material and labor. He said that the makers realize the conditions that must be met and are cooperating with the board to meet them. The manufacturers have agreed to cut out as many lines of styles of shoes as possible and get down to a limited number of fashions. The matter of price fixing is still open. It was explained that the effort to stabilize the price of shoes is not made with the idea that the shoemakers are profiteering, but the shoe industry is the first to be taken up in this way. Other industries may be similarly treated later.

The Demand for Steel.

Mr. Baruch stated that the demand for steel was constantly increasing as the war needs and uses grew, and that the heavy war pressure on this material made any nonwar use out of the question.

During the week, the War Industries Board had before it a question of material for new Federal post-office buildings and for new State and municipal school buildings. The chairman said that Secretary McAdoo had decided some time ago that new public buildings were not necessary during the period of the war. This position was taken by the War Industries Board. Also the War Industries Board has ruled that new school buildings, unless needed for replacement, came within the same prohibition and could not be supplied with material in view of war need. He pointed out that the construction of buildings involved the use of labor, material, transportation, and fuel, all of which are needed urgently in war work.

ADDRESS BY DR. BALTASAR BRUM FOREIGN MINISTER FOR URUGUAY AT DINNER TO SECRETARY LANSING

Following is the text of an address of Dr. Baltasar Brum, minister of foreign affairs of Uruguay, at a dinner given in honor of the Secretary of State at the Pan American Union Building August 27, 1918:

In the House of America and in the propitious ambient of this fraternal festival which I am offering you one feels more firm in his desire that the organization of the world for justice and peace may become an actual reality as soon as possible. This thing, which formerly appeared to be a chimera doomed to fade away in the painful reality of life like the futile dreams of a good-hearted man, is now beginning to be considered as an ideal capable of realization since the generous voice of the great President Wilson has made itself heard at this historic hour when the trend of the era is being traced which is to follow this horrible catastrophe of humanity.

And verily, gentlemen, we Americans may believe with noble satisfaction that it is no longer here on this continent that the idea of a "society of the nations" will meet insurmountable resistance—that idea which will insure world-wide tranquillity forever—for here in America, where there is no ambient of imperialism and conquest, eloquent examples demonstrating its adaptability to equitable and peaceful settlements have abounded for many decades.

Thus, among the many cases which have occurred in the New World, Argentina has already settled by arbitration her boundary questions with Chile, Brazil, and Paraguay; Brazil has settled all her boundary problems, even going so far as to spontaneously rectify in favor of my country the problem she had with it; and Peru and Bolivia have also adjusted their boundary questions. The same spirit of cordiality also prevails in all the other countries. Thus my own native land 30 years ago remitted a war claim against Paraguay and returned the trophies which it had from that brother country, telling it that the flags of an American country could not find a place in its military museums. And I am certain that in Argentina, as in Brazil, there exists a great current of opinion which is openly in favor of the altruistic settlement of the debts which the said country owes them on the same account.

Upon my passage through Rio Janeiro I signed with Chancellor Pecanha a treaty settling the debt which Uruguay owed Brazil and arising from assistance which the latter country lent Uruguay in struggles which they undertook jointly in behalf of justice and liberty, and in this agreement, which constitutes the highest expression of equity and brotherly disinterestedness, Brazil waived the collection of interest from my country and assigned the amount of the debt, which had previously been devoted to a cause which united us both, to the creation of works of common benefit on our frontiers.

Like sentiments of peace and solidarity exist in all the other countries of America, and if to-day there still exist certain questions among them which still await solution, we may be confident that, to the greater glory of America, they will be discussed and settled in an equitable spirit and in an ambient of lofty cordiality.

When we note the feeling of solidarity which animates the peoples of the American Continent, when we observe the numerous historic precedents which confirm the triumph of honorable and pacific doctrines in the development of the international relations of its countries, when we see the most powerful of its nations, the richest and best organized, launch into this apocalyptic war which is destroying the world, with the sole idealistic and salutary program of wiping out forever the predominance of might and of permanently establishing the reign of righteousness, equalizing all countries and enforcing respect for all sovereignties; when we see and feel all this, we must have confidence in the fraternal future of America, and we must believe that the auspicious hour has arrived to group together in such a way that injustice and aggression shall be forever banished from international relations.

I am sure that this is the ideal of everybody, and since it is the ideal of everybody we must hope that it will some day be transformed into a tangible reality. I hereby express my earnest hopes that it may not fail and that the public men of all the countries may unite their efforts in order to contribute toward its realization.

Gentlemen, on a certain occasion President Wilson, in one of his masterly public speeches in which he was studying with the clarity and precision of a prophet the transformations which the old order of things had undergone, exclaimed in a sad mood, filled with infinite bitterness, in referring to men who are capable of oppressing and being unjust: "I do not see how they can sleep calmly."

Ah, gentlemen, the present hour is perhaps the historic one which ought to be utilized in order to impart to the world the final impulse which will organize it for justice and love; and let us hope that

(Continued on page 6.)

Draft Call for 900 Men from Porto Rico

The War Department authorizes the following:

A call for 900 white and colored drafted men from Porto Rico was issued to-day by the Provost Marshal General. These men will be mobilized in September at Camp Las Casa, San Juan, P. R.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

BIDS FOR 4 MILLION SHOES FOR ARMY TO BE OPENED

The War Department authorizes the following:

Bids for the manufacture of approximately 4,000,000 pairs of shoes for the Army will be opened in the office of the Quartermaster General, at Washington, at noon on Friday, August 30. Requests for bids on metallic-fastened marching shoes, and metallic-fastened field shoes were issued on August 20 according to specifications which were adopted on that day. Contracts will be made for deliveries in October, November, December, and January only, January 31 being the latest delivery date that will be considered.

New Metallic-fastened Shoe.

The new metallic-fastened marching shoe is a departure from past marching shoes and from the old russet shoe. Arrangements are being made for the more economic use of sole leather, the specifications providing for the use of soles running lighter in the shank and heel than in the fore part. This shoe will be lighter than the field shoe, having only two soles in addition to the inner sole. This will make the new marching shoe a halfway measure for the new soldier between civilian shoes and the heavy footwear used overseas. The new marching shoe is designed for use principally in this country and in places where the heavy hobbed field shoe would prove unsuitable.

Difference in Upper Stock.

The new specifications for the metallic-fastened field shoe call for a difference in the upper stock, the trimming of the hide for which is to be radically changed. The shoulders will be trimmed off inside the fore shank and the hind shank will be trimmed just above the knee. Contractors will not be permitted to use leather that is suitable only for tongues and other lighter parts of the shoe.

Many Makers Expected.

It is expected that there will be a large meeting of shoe manufacturers in Washington the day the bids are opened, at which the various details of the specifications will be made thoroughly understood. The meeting will be presided over by the chief of the shoes, leather, and rubber goods branch of the clothing and equipage division of the Quartermaster Corps.

SAILOR LOST OVERBOARD.

The Navy Department is informed that Shipley Nichols, quartermaster first class, United States Naval Reserve Force, was lost overboard from U. S. submarine chaser *No. 325* on August 21. His body was not recovered. Father, Rev. H. P. Nichols, 18 West One hundred and twenty-second Street, New York.

American Official Communiques on Operations of U. S. Forces

The following is authorized by the Secretary of War:

AMERICAN OFFICIAL COMMUNIQUE NO. 105.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
August 27, 1918.

Section A.—Aside from renewed local combats along the Vesle between Bazoches and Fismes, there is nothing to report.

Section B.—The Commander in Chief has issued the following general order dated August 27:

It fills me with pride to record in general orders a tribute to the service and achievements of the First and Third Corps, comprising the First, Second, Third, Fourth, Twenty-sixth, Twenty-eighth, Thirty-second, and Forty-second Divisions of the American Expeditionary Forces.

You came to the battlefield at the crucial hour of the allied cause. For almost four years the most formidable army the world had as yet seen had pressed its invasion of France, and stood threatening its capital. At no time had that army been more powerful or menacing than when, on July 15, it struck again to destroy in one great battle the brave men opposed to it and to enforce its brutal will upon the world and civilization.

Three days later, in conjunction with our allies, you counter-attacked. The allied armies gained a brilliant victory that marks the turning point of the war. You did more than give our brave allies the support to which as a nation our faith was pledged. You proved that our altruism, our pacific spirit, our sense of justice have not blunted our virility or our courage. You have shown that American initiative and energy are as fit for the test of war as for the pursuits of peace. You have justly won the unstinted praise of our allies and the eternal gratitude of our countrymen.

We have paid for our success in the lives of many of our brave comrades. We shall cherish their memory always and claim for our history and literature their bravery, achievement, and sacrifice.

This order will be read to all organizations at the first assembly formations after its receipt.

AMERICAN OFFICIAL COMMUNIQUE NO. 106.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
August 28, 1918.

Section A.—North of the Aisne our troops, in cooperation with the French, advanced to the railroad west of Juvigny and captured 200 prisoners. Along the Vesle local hostile attacks forced our outlying detachments in Bazoches and Fismette to retire.

List of Americans Cited For Bravery in France

The War Department authorizes the following list of emergency addresses of the men cited for distinguished service in Communique No. 104:

Brig. Gen. P. B. Buck; father, G. H. Buck, Elkhart, Tex.

Capt. Edward J. Meehan, Infantry; mother, Mrs. Mary A. Meehan, 1935 Ridge Avenue, Philadelphia, Pa.

Capt. Wm. C. Williams, Infantry; wife, Mrs. Gertrude Williams, 1839 North Sixteenth Street, Philadelphia, Pa.

First Lieut. Harry C. Barnes, Infantry; mother, Mrs. Vella McAllister Barnes, 713 South Frisco Avenue, Tulsa, Okla.

Sergt. John H. E. Hoppe, Company K, 115th Infantry; emergency address, Mrs. Margaret Hoppe, 2525 East Monument Street, Baltimore, Md.

Corpl. John J. Lott, Infantry; no record.

First Class Pvt. Andy Youngbar, Infantry; wife, Mrs. Mary Youngbar, Fairfield, Md.

Pvt. Edward G. Fenwick (with French Army); father, E. T. Fenwick, East Falls Church, Va.

First Class Pvt. George J. Shively, United States Ambulance Service; mother, Mrs. B. F. Shively, Brookville, Pa.

Pvt. Anthony Dogestino, Infantry; no record.

Pvt. Crossley Holroyd, Infantry; father, Samuel Holroyd, 27 Lingwod Road, Grilington, Bradford, Yorkshire, England.

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

The Senate adjourned yesterday, shortly after convening, out of respect for the memory of the late Senator James, of Kentucky, whose death in a hospital at Baltimore was announced by his colleague, Senator Beckham. A committee of Senators was appointed to attend the funeral services which will be held at Marion, Ky.

Elimination of the "work or fight" amendment to the man-power bill was determined upon yesterday by the Conference Committee after the House Members declined to accept it, the Senate conferees deciding to yield rather than risk delaying the military program. No agreement was reached concerning the Penrose amendment which would place upon the local boards the duty of determining the status of registrants without requiring them to enter specific claims for exemption.

The McCulloch amendment, which was adopted by the House, providing for the drafting of nationals of cobelligerents of the United States unless exempted by treaty, was stricken from the bill. The amendment providing that the uniforms and equipment of officers be furnished to them at cost, upon application from officers' headquarters, was accepted. The amendment extending soldiers' and sailors' homestead rights to men under 21 also was accepted.

The Senate amendment providing for the education after the war of soldiers under 21 whose schooling is interrupted by the draft was eliminated by the conferees.

Senator Thomas, chairman of the subcommittee of the Military Affairs Committee which recently investigated the aircraft production situation, made a statement to the Senate yesterday to the effect that published accounts of the report were erroneous and did the officials an injustice, in stating that the committee reported the original appropriation of $640,000,000 had been practically wasted. What the report said, Senator Thomas explained, was that a substantial part of the fund had been wasted. Only about one-half of the appropriation has actually been expended, he stated.

Consideration of the nation-wide war time prohibition measure, which was scheduled to begin yesterday, was postponed until to-day on account of the adjournment out of respect for Senator James.

HOUSE.

The House was in session but a few minutes yesterday, adjourning out of respect to the memory of Senator James, after the adoption of appropriate resolutions and the appointment of a committee to attend the funeral.

The war revenue bill, which has been under consideration by the Ways and Means Committee for several weeks, will be reported to the House to-morrow, Chairman Kitchin announced.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

New Poster is Expected To Help in War Work By Cutting Down Mails

A poster printed in appropriate typing and coloring has been prepared in response to numerous requests by Chambers of Commerce, Boards of Trade, libraries, and other public institutions. The purpose of the poster is self-evident. It reads as follows:

Read the

Official U. S. Bulletin

PUBLISHED DAILY UNDER ORDER OF THE PRESIDENT OF THE UNITED STATES

BY COMMITTEE ON PUBLIC INFORMATION GEORGE CREEL CHAIRMAN

WAR

Information

Save writing to Washington for what you want to know about

The Army and Navy
The Red Cross
The Selective Draft Laws
The Food Administration
The Fuel Administration
Trading with the enemy
The War Labor Board
The War Industries Board
The Railroad Administration

and all the other permanent or emergency governmental departments, boards, commissions, committees, and administrations at the Capital and elsewhere.

ASK FOR IT HERE

Copies of the poster will be sent to all applicants who are in a position to aid in this public service. It is hoped that its wide publicity will help to lessen the war burden put upon the mails and serve to minimize the work of all government departments at Washington.

FUNDS FOR CROP MOVEMENT.

(Continued from page 1.)

the War Finance Corporation to the banks are limited to four months. On August 5 the War Finance Corporation announced that the rate of interest on the loans would be 6 per cent per annum, but on August 15 it announced a reduction of the interest rate to 5 per cent. Full information can be secured by any bank in the districts above mentioned from the Federal reserve bank of the district.

The orderly movement of the crops is essential to the conduct of the war, and the Treasury Department hopes that the facilities of the Federal reserve system available to member banks, supplemented by the offer of the War Finance Corporation, to both member and nonmember banks, will be adequate to provide for financing the crop movement.

ASSISTANT FUEL DIRECTOR.

The selection of Mercer Pamplin Moseley as assistant fuel administrator for the State of New York has been approved by United States Fuel Administrator H. A. Garfield, and announcement to that effect has been communicated to Delos W. Cooke, New York State fuel administrator. Mr. Moseley succeeds C. E. Robertson, resigned. He is vice president of the American Exchange Bank, of New York City.

CIRCULAR TO NAVY CONTRACTORS CONCERNING BILLS OF LADING

The Navy Department, Bureau of Supplies and Accounts, Division of Inland Traffic, issues the following:

WASHINGTON, *August 6, 1918.*

CIRCULAR No. 14.

To all Navy contractors:

Subject: Furnishing copies of bills of lading—commercial and Government—to car service section of the United States Railroad Administration.

References: S. and A. Circular No. 5, 386–16, dated May 15, 1918.

1. From the above reference it will be noted it is necessary that an extra legible copy of each Government and commercial bill of lading on carload consignments be made and forwarded to the "Car Service Section, United States Railroad Administration, Washington, D. C." This matter should be handled as outlined below:

(a) If shipper prepares bill of lading for presentation to the railroad agent, it is necessary that he make an extra copy for such agent, in order that the same may be forwarded to the Car Service Section.

(b) If railroad agent prepares bill of lading it is necessary that he make an extra copy for transmittal by him to the Car Service Section.

2. It is desirable that Navy contractors cooperate with railroad agents at point of shipment, first in seeing that a legible copy of bill of lading is made, and secondly in calling attention to the necessity for promptly forwarding this copy to the Car Service Section.

3. If the foregoing procedure is strictly complied with deliveries will be more promptly effected and payments expedited.

H. P. ANEWALT,
Manager Inland Traffic.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
August 27, 1918.

RECEIPTS.	
Customs receipts	$537,469.80
Internal-revenue receipts:	
Income and excess-profits tax	821,265.45
Miscellaneous	2,961,896.86
Miscellaneous revenue receipts	1,610,586.28
Total ordinary receipts	5,931,128.39
Panama Canal receipts	
Public-debt receipts	57,948,032.73
Balance previous day	1,371,628,186.26
Total	1,435,507,347.38
DISBURSEMENTS.	
Ordinary disbursements	$62,980,484.63
Panama Canal disbursements	6,919.81
Purchase of obligations of foreign Governments	
Purchase of Federal farm loan bonds	
Public-debt disbursements	10,324,143.86

Total	1,435,507,347.38

MARINE CORPS SUPPLIES.

The Depot Quartermaster, United States Marine Corps, 1100 South Broad Street, Philadelphia, will receive proposals until 11 o'clock a. m. September 9, 1918, for the following: Two thousand feed bags, 3,000 currycombs, 500 horse combs, 500 pony cruppers, and 2,000 pairs of spurs.

ADDRESS BY DR. BRUM, FOREIGN MINISTER OF URUGUAY

(Continued from page 3.)

the generations of the future, when they judge the work accomplished by this generation, may not have to employ in order to characterize it, in referring to the manner in which it reconstructed the world on the ruins of the present disaster, the same sentence which has already once burst forth from the noble President Wilson: "I do not see how they can sleep calmly!"

I drink to the health of the Chief Magistrates of the countries here represented, to Secretary Lansing, and to the fraternity of America and of humanity.

Mr. Lansing's Reply To Dr. Brum's Address

Remarks of Secretary of State Lansing at the dinner given in his honor by the Uruguayan Minister of Foreign Affairs at the Pan American Union, August 27, 1918:

Your Excellency and gentlemen: It is with a sense of hesitation that I address you after you have listened to the eloquent words of our distinguished host, whose powerful appeal for international justice and for fraternity between nations can not be improved by anything that I might say.

Yet I would deny my own feelings were I to remain silent on a theme so dear to the heart of every American who looks into the future with hope and confidence. However great the confusion of the present day in the affairs of men, however concentrated are the thoughts and energies of Americans upon the terrible task which is ours as a people, however intense the passion for sacrifice and service in our holy cause, we look forward through the tempest of battle to the calm which lies beyond, where reason will again become supreme over the nations.

To-day this country thinks war, breathes war, lives war, not because we love to slay men or lust for conquest, but because the path to enduring peace for this world lies only across red battle fields. We are fighting to rid the world of the greatest enemy of international peace and fraternity that has ever sought to trample upon liberty and right. We shall go forward until we reach the heights which are beyond the grim scenes through which humanity is living in these days of war.

In this struggle for the salvation of liberty the American Nation has found strength and comfort in the sympathy of other great Republics in this hemisphere; but none has understood our motives better than the Republic of Uruguay and Uruguay's statesmen. Our hearts glow with the consciousness that the prayers of Uruguay are ours.

It is the fraternal spirit, the appreciation of liberty and all that liberty means, and the devotion to eternal justice so eloquently proclaimed by our host to-night, upon which the nations must build a new world dedicated to righteousness and peace.

These lofty ideals are the vital principles of Pan Americanism. In the Americas they have taken root and are already bearing fruit. It is for us to scatter the seeds throughout the earth until all nations learn the truth and unite with us in submitting to the bonds which make all peoples free.

Your excellency, I can not refrain from expressing my sincere admiration for the nobility of your thoughts to-night. They will find an echo in the heart of every man who loves his fellow men and who longs for the day when peace and prosperity again come to this bleeding and exhausted world. In the name of the President and of the American people, I thank you. As an apostle of Pan Americanism and of world unity, as a prophet of a glorious future for mankind, you will be remembered when you have left our shores. But above all we, who have met you face to face, will ever think of you as the generous and sincere friend of the United States—a friend upon whom we can always depend, because he knows us and understands us.

I give you the toast—Uruguay, her President, and the distinguished statesmen who are the guests of the United States.

Grammar School Men Called to War Service

The Provost Marshal General has issued a call for men for general military service who are grammar-school graduates, entrainment September 1, apportioned for training at the following institutions:

Arizona, 108; Tucson, Ariz., University of Arizona.
California, 106; Tucson, Ariz.
California, 103; Berkeley, Cal.
California, 124; Oakland High School, Oakland, Cal.
Georgia, 50; South Carolina University, Columbia, S. C.
Illinois, 103; 3300 Federal Street, Chicago, Ill.
Illinois, 257; Old Southern Division High School, Chicago, Ill.
Indiana, 515; Indianapolis, Ind.
Indiana, 772; West Lafayette, Ind.
Massachusetts, 255; Wentworth Institute, Boston, Mass.
Massachusetts, 103; Franklin Union Institute, Boston, Mass.
Michigan, 206; Indiana University, Bloomington, Ind.
New Mexico, 206; Mesilla Park, N. Mex.
New York, 206; New Hampshire College, Durham, N. H.
North Carolina, 100; South Carolina University, Columbia, S. C.
North Dakota, 206; North Dakota School of Mines, Grand Forks, N. Dak.
Ohio, 124; University of Cincinnati, Cincinnati, Ohio.
Pennsylvania, 206; Newark, Del.
Pennsylvania, 206; Cambridge Springs, Pa.
Pennsylvania, 257; Spring Garden Institute, Philadelphia, Pa.
South Carolina, 165; Orangeburg, S. C.
South Carolina, 77; South Carolina University, Columbia, S. C.
South Dakota, 124; South Dakota School of Mines, Rapid City, S. Dak.
Tennessee, 726; University of Tennessee, Knoxville, Tenn.
West Virginia, 103; Richmond Commercial Club, Richmond, Ind.
Wisconsin, 309; No. IV Blind Asylum, Indianapolis, Ind.
Total, 5,709.

Also, white, for limited service, entrainment August 26, apportioned and assigned:

District of Columbia, 15; 808 Aero Squadron, Washington, D. C.
Ohio, 15; Wilbur Wright field, Dayton, Ohio.

Easy to buy, convenient to handle, no red tape—Get a WAR-SAVINGS STAMP to-day.

BRITISH RESTRICTIONS ON BOOT AND SHOE IMPORTS ARE LIFTED

Goods Made Under Contracts Entered Into Prior to Issuance of Rules May Be Delivered.

The War Industries Board authorizes the following:

Information was made public Monday that the British Government has lifted the restrictions on imports of boots and shoes for the British markets made under contract with American manufacturers, but of which delivery could not be made before the effective date of the import restrictions.

When the British Government announced the effective date of the import restrictions which closed the British markets to these contracts—boots and shoes—American manufacturers affected appealed to Bernard M. Baruch, chairman of the War Industries Board, who took the matter up with the proper representative authorities of the British Government.

Much Capital Tied Up.

The manufacturers urged that the lifting of the import restrictions would release a large stock of boots and shoes manufactured for the British market for which there was no home market, and would free a considerable amount of capital tied up in such stock which was needed in the business.

Mr. Baruch has received a letter from Sir Richard Crawford, commercial adviser to the British Embassy, to the effect that the concession has been made in favor of the American manufacturers as requested, and the War Trade Board has been advised that the import restrictions have been waived to permit the immediate import into the United Kingdom of the stock of boots and shoes for the British markets made under contracts entered into prior to the issuance of the order of import restrictions.

ST. ELIZABETHS HOSPITAL PROPOSALS.

St. Elizabeths Hospital, Department of the Interior, will receive proposals until 4 o'clock p. m. August 30 for the following materials:

3,000 yards of ticking, A. C. A., 36-inch.
20 grains of hematoxylin, light crystals.
4,000 Blaud's pills.
4,500 pounds fresh beef, to be delivered September 2.
4,500 pounds fresh beef, to be delivered September 3.
4,500 pounds fresh beef, to be delivered September 9.
4,500 pounds fresh beef, to be delivered September 10.

Proposals will be received until 4 o'clock September 2 for the following material:

1,000 pounds of boneless codfish.

Proposals will be received until 4 o'clock p. m. September 3 for the following:

1,000 pounds natural leaf tobacco, pressed for chewing.
200 pounds granulated smoking tobacco, in 2-ounce bags.
10,020 pounds oleomargarine, in 8-pound packages (colored), to be delivered September 25.

TREASURY CERTIFICATE OFFER TO AMOUNT OF HALF BILLION

The Treasury Department authorizes the following:

Secretary McAdoo, under the authority of the act approved September 24, 1917, as amended by the act approved April 4, 1918, offers for subscription at par and accrued interest, through the Federal reserve banks, $500,000,000 or more Treasury certificates of indebtedness, Series IV E, dated and bearing interest from September 3, 1918, payable January 2, 1919, with interest at the rate of 4½ per cent per annum. Applications will be received at the Federal reserve banks.

Books Close September 10.

Subscription books will close at the close of business September 10, 1918. Certificates will be issued in denominations of $500, $1,000, $5,000, $10,000, and $100,000. Said certificates shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess-profits and war-profits taxes now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations, or corporations. The interest on an amount of bonds and certificates authorized by said act approved September 24, 1917, or by said act as amended by said act approved April 4, 1918, or by the act approved July 9, 1918, the principal of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in clause (b) above.

Terms of Redemption.

Upon 10 days' public notice, given in such manner as may be determined by the Secretary of the Treasury, the certificates of this series may be redeemed as a whole at par and accrued interest on or after any date occurring before the maturity of such certificates set for the payment of the first installment of the subscription price of any bonds offered for subscription by the United States after the offering and before the maturity of such certificates. The certificates of this series, whether or not called for redemption, will be accepted at par, with adjustment of accrued interest, if tendered on such installment date in payment on the subscription price then payable of any such bonds subscribed for by and allotted to holders of such certificates. The certificates of this series do not bear the circulation privilege and will not be accepted in payment of taxes.

Right to Reject Reserved.

The right is reserved to reject any subscriptions and to allot less than the amount of certificates applied for and to close the subscriptions at any time without notice. Payment at par and accrued interest for certificates allotted must be made on and after September 3, 1918, and on or before September 10, 1918. After allotment and upon payment Federal reserve banks will issue interim receipts pending delivery of the definitive certificates.

Railroad Employees Urged to Rally To Support of Fourth Liberty Loan

Director General McAdoo is distributing the following Liberty Loan Message to all railroad employees:

IN order to raise sufficient money to arm, equip, and support our gallant soldiers and sailors, to finance our other war activities, and to extend necessary credits to our allies, to enable them to continue the war against the German military despotism, the Fourth Liberty Loan campaign will begin September 28, 1918. Every loyal American must invest in the securities of his Government to the limit of his ability if America is to triumph in this war.

Railroad men and women are doing a vital service for their country. They responded patriotically to the appeal of the Government in the First, Second, and Third Liberty Loan campaigns, and I hope that they have bought liberally of War Savings Stamps. They are also operating the railroads, which is war service of primary importance. I am sure that they count it a glorious privilege to do this vital work for their country. I deeply appreciate what they have already done, but there is more to do, and I am sure that they will do more if the way is pointed out to them.

The enormous sums required to finance democracy's part in the war impose a new duty upon each and every one of us. Liberty Loans must be offered from time to time until the Kaiser is licked to a finish. Each of these loans must be subscribed in full. No patriotic American will have performed his duty by subscribing to one loan only, or by buying a few War Savings Stamps. Each and every one should practice every possible economy, save every possible dollar, and buy as many Liberty Bonds as he can afford every time a Liberty Loan is offered to the country.

In the Fourth Liberty Loan campaign which is just ahead of us I wish to make a special appeal to every railroad employee to go the limit in lending of his available means to Uncle Sam. Now is the time to prepare for that campaign by saving every possible dollar, so that each may be ready to do his part before the subscription closes. Hundreds of thousands of employees in the railroad service of the United States have received, or will receive, checks for back pay, in accordance with the provisions of the Wage Order I, approved May 25, 1918, and Supplement No. 4 to General Order 27, issued on July 25, 1918. No employee can make better use of his back pay than to lend it to the Government at interest, thus securing an investment of absolute safety for himself and building up a reserve for a rainy day.

You must remember that you are not asked to give your savings to the Government; you are asked merely to lend your money to your Government—and for what purpose? To back the millions of the finest American boys ever collected together in a great Army, and to help them fight irresistibly for our lives, liberties, and vital interests. One and a half million of these splendid boys are already in France, and already they have given the Kaiser a dose from which he is staggering and from which he will not recover. But the pressure must be kept up. Arms, ammunition, and food supplies of all kinds must go forward in a continuous stream if the pressure is to be maintained. It depends upon us who stay at home to keep the pressure applied. We must lend our money to our Government, lend it to the limit, so that the Government may in turn put in the hands of our splendid sons the things without which they can not fight and without which the defeat of the Kaiser and his hateful military despotism can not be accomplished.

I want the railroad men and women of the United States to do more, if possible, than anybody else, because I want them to be among the first always in patriotism, in service, and in sacrifice to our great and glorious country. We have the Kaiser groggy—let us keep hitting hard now until he is counted out.

W. G. M'ADOO,
Director General of Railroads.

APPEAL TO USERS OF GASOLINE EAST OF THE MISSISSIPPI RIVER TO OBSERVE SPECIAL ECONOMY

NECESSARY AS A WAR MEASURE

Fuel Administration Asks, Among Other Things, That All Sunday Motor Riding Be Cut Out—Gas Needed For The Allied Armies

The Fuel Administration issues the following:

The United States Fuel Administration considers it necessary that a limited conservation of gasoline be undertaken in the States east of the Mississippi River in view of the increasing demand for gasoline for war purposes and the paramount obligation of meeting promptly and fully all overseas requirements.

An appeal is made, therefore, to the people of the United States east of the Mississippi River to exercise rigid economy in the consumption of gasoline during the next few weeks as a necessary and practical act of patriotism.

Safeguard Against Shortage.

War necessities are being and will continue to be promptly and fully met, but this is the period of the year when consumption of gasoline is at its highest, and the increased domestic demands, together with the extensive military operations in France, have rendered necessary, for a limited period, the adoption of safeguards against possible shortage.

In view of the difficulty, if not the impossibility, of differentiating between the various uses to which automobiles are applied, the United States Fuel Administration believes that the greatest measure of economy can be effected with the least interference with the business of the country through the discontinuance of the use of all classes of motor vehicles, motor boats, and motorcycles, on Sundays.

No Riding on Sunday.

The United States Fuel Administration therefore requests that in the section of the United States east of the Mississippi River there shall be a discontinuance of use of the vehicles above specified, including all such as are operated for hire, on each Sunday hereafter until notification that the need for such discontinuance has ceased.

The following exceptions are made:

1. Tractors and motor trucks employed in actual transportation of freight.
2. Vehicles of physicians used in performance of professional duties.
3. Ambulances, fire apparatus, police patrol wagons, undertakers' wagons, and conveyances used for funerals.
4. Railway equipment using gasoline.
5. Repair outfits employed by telephone and public-service companies.
6. Motor vehicles on errands of necessity in rural communities where transportation by steam or electricity is not available.

Appeal to Patriotism.

In addition to the above appeal is made to the patriotic men and women of America east of the Mississippi River to undertake, voluntarily, additional conservation in the operating of their own automobiles wherever possible.

The United States Fuel Administration believes that all consumers of gasoline will observe the spirit of this request. In that event no mandatory order governing the use of gasoline will be necessary.

Instructions on the Proper Method Of Billing Shipments to Navy Officers

The Navy Department, Bureau of Supplies and Accounts, Division of Inland Traffic, issues the following:

WASHINGTON, *August 6, 1918.*

CIRCULAR No. 16.

To: All bureaus, headquarters Marine Corps, commandants and supply officers, all naval districts, yards, and stations, the officers in charge naval ammunition depots, training camps, air stations, supply depots, naval hospitals, etc., superintending constructors and inspectors at private works and all Navy offices in the United States interested in the purchase, shipment, and storage of Navy material and supplies.

All Navy contractors.

Subject: Proper method to pursue in billing shipments to Navy officers.

Reference: General Order No. 38 of Director General of Railroads, dated July 24, 1918.

It is imperatively necessary that the instructions indicated in the following digest of General Order No. 38, issued by the Director General of Railroads July 24, 1918, and effective August 15, 1918, be strictly observed:

1. Shipments intended for use of any one of the Government departments, either directly or through a contractor with the United States Government, shall not be entitled to or receive any privilege which may be accorded on account of being intended for use of one of the United States Government departments, either directly or indirectly through a contractor with the United States Government, where said shipments are consigned otherwise than in one of the following ways:

(a) To a Government officer designated, not by the name of the individual, but by the title of his position, as for example: Supply Officer, Naval Inspector, or Constructing Quartermaster.

(b) To a Government officer designated, not by name, but by title as above, followed by the words "For account of," and then followed by the name of the contractor or agent for the Government engaged on the work at the point of destination.

(c) On some contracts the Government has entered into an agreement designating certain parties as agent, or agents, for the Government on that particular contract. Shipments for such parties shall be consigned to the particular department for which the work is being done, followed by the words "For account of," and then followed by the name of the agent as, for instance: "Ordnance Department: For account of du Pont Engineering Co., Agent, Penniman, Williamsburg, Va.," or "Ordnance Department: For account of T. A. Gillespie, Loading Co., Agents, South Amboy, N. J."

2. It is forbidden:

(a) In consigning a shipment to use the words "United States Government" or substantially that term, or abbreviations thereof, as the sole description of the consignee:

(b) Or to consign a shipment to and in the name of the United States Government followed by words indicating that it is sent "care of" a private person, firm or corporation:

(c) Or to consign a shipment to a Government official or to an officer of the Army or Navy by his name as an individual.

(d) Or to consign a shipment to a Government official or to an officer of the Army or Navy followed by words indicating that it is sent "care of" a private person, firm or corporation.

3. No shipper or other person seeking or obtaining any privilege which may be accorded on account of the shipment being intended for the use of any one of the United States Government departments, either directly or indirectly through a contractor with the United States Government, shall, without authority, use or cause to be used as consignee the name or title of the United States or of any department, bureau, agency, employee, or officer thereof; nor shall any shipper or other person offer or cause to be received for carriage, or transported, without authority, any such shipment consigned as specified in the foregoing paragraphs Nos. 1 and 2 for the purpose of securing, by such consignment, any privilege which may be accorded on account of the shipment being intended for the use of any one of the United States Government Departments, either directly or indirectly, through a contractor with the United States Government.

4. Agents are forbidden to sign or issue bills of lading or receipts for shipments which in any manner conflict with any of the foregoing provisons.

5. Violation of the foregoing order is punishable by fine of not more than $5,000 or by imprisonment for not more than two years, or by both such fine and imprisonment.

H. P. ANEWALT,
Manager, Navy Inland Traffic.

Additional List of American Prisoners and the Camps Where They Are Held

The War Department authorizes the publication of the following list of American soldiers, who it has been ascertained are now prisoners of war in Germany.

Camp Darmstadt.

Corpl. Joseph Schultz. Jacob Schultz, father, 14 Coal Street, Nanticoke, Pa.

Corpl. George M. Houck. Conrad Houck, father, 78 Morgan Street, Pringle, Pa.

Corpl. Cluster C. Cook. Mrs. Hilda C. Cook, mother, Wanego, W. Va.

Corpl. Sidney Edward Brown. Mrs. Vina Schank, mother, Marthaville, La.

Corpl. Edgar L. M. Crouse. Miss Marie Crouse, sister, Somerset, Pa.

Sergt. Theron E. Johnson. Mrs. Emma Johnson, wife, 128 Parish Street, Wilkes Barre, Pa.

Sergt. Hobert Kemp. Charles H. Kemp, father, Somerset, Pa.

Corpl. Arthur B. Jenkins. Mrs. Mary Jenkins, wife, lock box 50, Hyndman, Pa.

Corpl. Charles H. Doane. Mrs. Mollie Doane, mother, 1325 South Fifteenth Street, Terre Haute, Ind.

Pvt. William Lagassey. Mrs. Della Lagassey, mother, South Elm Street, Bristol, Conn.

Pvt. Peter Monaco. Joe Monaco, brother, 923 Crane Street, Schenectady, N. Y.

Pvt. Oscar Leckman. August Leckman, father, R. F. D. 2, Dalton, Minn.

Corpl. Earl J. Smith. Mrs. Alice Smith, mother, Railroad Street, Gettysburg, Pa.

Sergt. Sydney J. Winship. Lionel Winship, father, Moscow, Pa.

Sergt. Roy A. Hill. Mrs. George W. Hill, mother, 1122 Lafayette Street, Scranton, Pa.

Corpl. Robert D. Waterman. Mrs. Charles E. Waterman, mother, 145 South Rebecca Avenue, Scranton, Pa.

Corpl. Michael Connolly. Mrs. Patrick Slattery, sister, 308 East Thirty-eighth Street, New York, N. Y.

Sergt. Peter M. Coyle. Peter Namassa Coyle, sr., father, 947 Ash Street, Johnstown, Pa.

Pvt. Joseph R. Hetu. Mrs. Delia Hetu, 108 North Main Street, Woonsocket, R. I.

Sergt. William F. Scott. Charles Eldridge Scott, brother, R. F. D. No. 6, Lebanon, Pa.

Corpl. Nelson H. Ewing. Mrs. Lillian Houx Ewing, mother, 247 Chestnut Avenue, Springfield, Ohio.

Pvt. Samuel Chaskes. Alter Chaskes, father, 244 Madison Street, New York, N. Y.

Pvt. John F. Becker. Mrs. Bridgett Becker, mother, 5521 Hunter Street, Philadelphia, Pa.

Corpl. Peter J. McCormick. Mrs. Elizabeth McCormick, mother, 14 Fairbury Street, Roxbury, Mass.

Corpl. David L. Eicher. Mrs. Grace Eicher, mother, Somerset, Pa.

Pvt. Homer Steele. Will Steele, father, Chanute, Kans.

Camp Rastatt.

Lieut. Zenos Ramsey Miller. Mrs. James A. Miller, mother, 131 Scoffield Avenue, Carthage, Ill.

Lieut. George W. Puryear. Judge David B. Puryear, brother, 419 Stonemill Place, Memphis, Tenn.

Lieut. Aviator A. M. Roberts. Mrs. H. T. Roberts, mother, 1211 Thirty-sixth Avenue, Gulfport, Miss.

Lieut. William H. Oates. R. M. Oates, father, Hendersonville, N. C.

Second Lieut. Alfred B. Baker. Mr. Baker, father, 511 Tenth Street, Washington, D. C.

Camp Giessen.

Corpl. John Glowicki. Mrs. Mary Glowicki, mother, 254 Winter Street, Saginaw, Mich.

NAVY

The Navy Department reports the following casualties:

Herbert Florian Canfield, chief quartermaster (aviation), United States Naval Reserve Force, killed in seaplane accident at Miami, Fla., August 26. Father, Dr. Herbert H. Canfield, 1804 East Fiftieth Street, Seattle, Wash.

William Jacob Cleveland, apprentice seaman, United States Naval Reserve Force, attached to Wissahickon Barracks, drowned at Cape May, N. J., August 24. Next of kin, grandmother, Mrs. Otille Ernst, 6208 Clearview Street, Philadelphia, Pa.

Pvt. Howard R. Freer. Mrs. Emma C. Freer, mother, 2288 Main Street, Northampton, Pa.

Pvt. William H. Ross. Mrs. Mary E. Ross, mother, 2402 North Fifteenth Street, Philadelphia, Pa.

Camp Karlshruhe.

Second Lieut. Ralph A. Floyd. Mrs. Alice M. Floyd, mother, Independence, Oreg.

Second Lieut. Clyde C. Vaughan. Mrs. J. H. Vaughan, mother, Liberty Hill, Tex.

Camp Merseburg.

Pvt. Salvatore Filoso. Mrs. Mary C. Vallotzi, aunt, 625 Kimball Street, Philadelphia, Pa.

Sergt. Thomas J. Hines. Mrs. Bridget Hines, mother, 75 River Street, Lynn, Mass.

Pvt. Frank Monzo. Mrs. Christiana Monzo, mother, Salerno, Sillacilento, Italy.

Pvt. Daniel Stein. Philip Rubin, cousin, 215 Christian Street, Philadelphia, Pa.

Camp Landshut.

Lieut. Blanchard B. Battle. Charleton E. Battle, father, Columbus, Ga.

Camp Aichfield, Bavaria.

Sergt. Aviator Thomas Hitchcock. Thomas Hitchcock, Westbury, N. Y.

Camp Unknown.

Lieut. Richard C. Martin. Charles W. Martin, father, Mechanicsburg, Ohio.

Second Lieut. Charles F. Frizzell. Charles F. Frizzell, father, 84 Williams Street, New York City.

Second Lieut. Walter B. Wanamaker. R. M. Wanamaker, care Hotel Lincoln, Columbus, Ohio.

Lieut. Stuart Ellison McKeown. John W. McKeown, father, R. F. D. No. 3, Fort Collins, Colo.

Lieut. Henry G. MacLure. Rev. Laurens MacLure, father, 64 Eldredge Street, Newton, Mass.

The War Department is in receipt of information that the following men are prisoners of war in Germany:

Albright, Ralph Harrison, private, first class. Miss May Albright, sister, 1127 Monument Avenue, Philadelphia, Pa.

Fazio, Salvatore, private. Tony Fazio, brother, 40 Lucille Place, Passaic, N. J.

Fenstermaker, William, private. Mrs. Amanda Rehrig, sister, Bowmanstown, Pa.

Miller, Francis Joseph, corporal. Mrs. Verna Gummoe, mother, R. F. D. No. 1, Honesdale, Pa.

O'Hearn, James, corporal. Mrs. Catherine O'Hearn, mother, 195 Chestnut Avenue, Risebank, Staten Island, N. Y.

Pellattiro, Charles. Mrs. Mary Pellattiro, mother, Hooversville, Pa.

FOOD DEALER PENALIZED.

The Food Administration issues the following:

Dealers in foodstuffs have been instructed by the Food Administration not to deal with the Mendota Market, Nineteenth Street and Columbia Road NW., Washington, D. C., from August 27 until further notice. It will have to suspend business in licensed commodities.

The proprietor of the market, W. B. Krantz, has been found guilty of charging exorbitant prices for potatoes, eggs, corn, and tomatoes; also of adopting a hostile and stubborn attitude toward the Food Administration.

He was given two hearings. At the first he agreed to follow the fair price list and put up a sign stating that he had violated the food rules. Failing to keep faith, he was ordered to show cause why an unfair order should not be issued against him but failed to develop a substantial defense.

SIGNAL CORPS RETURNS ON AERONAUTICAL PROPERTY

War Department General Orders, No. 71:

III. 1. All Aviation and Aircraft property now carried on Signal Corps returns, as of June 30, 1918, will be invoiced to the proper supply officers of the Division of Military Aeronautics and the Bureau of Aircraft Production, and separate returns of Signal Corps supplies, Aviation supplies and Aircraft supplies shall henceforth be made. The property returns of the Signal Corps supplies will be rendered to the Chief Signal Officer for auditing, and the property returns for the Aviation supplies will be rendered to the Director of Military Aeronautics for auditing, and the property returns for Aircraft supplies will be rendered to the Director of Aircraft Production for auditing.

2. Signal Corps supplies will consist of supplies other than Aeronautical, designated as Fire Control and Signal Corps supplies in the authorized Signal Corps Manuals; and all Aeronautical supplies heretofore considered Signal Corps supplies will be construed as Aviation supplies and Aircraft supplies.

3. Aircraft supplies will consist of those supplies necessary for the production of airplanes, airplane engines, aircraft equipment, unfinished, unattached or unassembled airplanes, airplane engines or aircraft equipment. Such Aircraft supplies will automatically be transferred and become Aviation supplies on delivery to the Department of Military Aeronautics by the Bureau of Aircraft Production, the transfer being effected on the bill of lading. Such supplies will be invoiced to the receiving Supply Officer of the Department of Military Aeronautics by the Supply Officer of the Bureau of Aircraft Production, who makes the shipment. These supplies when received by the Department of Military Aeronautics and all other supplies now considered as Signal Corps supplies with the exception of those described above as Aircraft supplies and Signal Corps supplies will be construed as Aviation supplies. The decision as to whether Aeronautical supplies are Aircraft or Aviation will be based on the distinction drawn in General Orders, No. 51, War Department, 1918.

4. All Signal Corps supplies as accounted for in property returns up through the period ending June 30, 1918, will be audited by the Chief Signal Officer of Army and this order shall operate as from July 1, 1918. All returns rendered to the Chief Signal Officer for auditing for period ending June 30, 1918, and all previous periods, will remain the property of the Chief Signal Officer.

COAL CONTRACT APPROVED.

Mr. E. F. Sweet, Acting Secretary of the Department of Commerce, has approved a request of the Commissioner of Lighthouses for authority to contract with the Milwaukee-Western Fuel Co., of Milwaukee, Wis., in the estimated amount of $14,000, and with the C. Reiss Coal Co., of Sheboygan, Wis., in the estimated amount of $6,300, for furnishing and delivering approximately 2,000 tons and 900 tons of bituminous coal, respectively, for tenders, light vessels for the twelfth district.

British Imports and Exports Compared for Six Months of 1916, 1917, and 1918

Alfred Nutting, clerk in the consulate general at London, reports:

The total values of all imports into the United Kingdom during the first six months of 1916, 1917, and 1918 were $2,310,730,038, $2,435,468,299, and $3,173,851,129, respectively. British merchandise exported aggregated $1,176,758,053, $1,222,209,523, and $1,201,211,086 for the same periods, while foreign and colonial merchandise reexported totaled $263,380,338, $225,057,731, and $81,650,921.

Features of the Import Trade.

In imports of food, drink, and tobacco, meat increased by $192,521,782 in the first six months of 1918, compared with the corresponding period in 1917, and by $229,088,647 over 1916; nondutiable food and drink increased by $41,438,505 and $105,550,847, respectively, over the 1917 and 1916 periods; dutiable food and drink increased by $34,743,496, compared with the first half of 1917, but decreased by $1,605,127 compared with the figures for 1916. Tobacco imports increased by $15,738,731 over 1917, which was approximately the increase over 1916 also. On the other hand, imports of grain and flour in the 1918 period were valued at $35,734,608 less than in 1917, but were $59,525,836 higher than in 1916.

Of raw materials imported, the chief increases occurred in raw cotton, which rose by $157,324,000 over the 1917 and $189,938,000 over the 1916 six months' period; oil seeds, nuts, oils, gums, and greases showed gains of $69,580,360 and $83,620,247, and wood and timber $30,552,000 and $10,611,000 over the same periods, respectively.

The principal increases in imports of articles wholly or mainly manufactured occurred in metals and manufactures thereof which rose by $37,344,553 and $16,467,988 compared with the first six months of 1917 and 1916, and chemicals, drugs, dyes, and colors which showed gains of $32,606,360 and $13,341,164 over the corresponding six months, respectively.

Exports of British Merchandise.

In the exports of British merchandise, food, drink, and tobacco showed an aggregate decrease of $15,937,792, compared with the first six months of 1917, and of $42,454,003 compared with the 1916 period. Exports of tobacco alone showed a small increase of about $340 over the 1917 period. In exports of raw materials there was a total decrease of $25,923,163, as against the value for the 1917 period, and of $9,553,441 compared with 1916, due in the former half year mainly to a decrease in coal, coke, and manufactured fuel, and in 1916 to raw wool. Of exports of wholly or mainly manufactured articles, the only increase worth recording occurred in cotton yarns and fabrics, which rose by $116,686,168 and $174,375,323 over the values in the first six months of 1917 and 1916, respectively, while iron and steel and manufactures thereof decreased by $27,100,059 and $59,105,184 for the two periods, respectively.

Reexports declined by over $143,000,000, compared with the first six months of 1917, or rather more than 60 per cent, and by over $180,000,000, or nearly 70 per cent, against the value for the 1916 period.

Imports of raw rubber showed a very marked decrease with lower price. The imports for the first six months of 1916 were 829,661 centals, valued at $59,348,271; 1917, 1,101,228 centals, valued at $75,900,081; and 1918, 564,716 centals, valued at $32,683,122.—Commerce Reports.

PRICES FIXED ON CERTAIN GRADE OF COAL IN KANSAS COUNTIES

The United States Fuel Administrator having, by a regulation promulgated May 27, 1918, and contained in Publication No. 25 of the United States Fuel Administration, defined the terms "slack or screenings" and "prepared sizes" as used in the Executive order of the President dated August 21, 1917, and in the orders of the United States Fuel Administrator fixing prices of bituminous coal, and it having been provided in section 4 of such regulation that the United States Fuel Administrator, upon application from producers or consumers in any district might establish prices for any special sizes different from those defined in said regulation, or for any mixture of sizes required for the proper distribution of coal from such district, and application having been made by producers and consumers of coal produced in the district comprising Cherokee and Crawford Counties, in the State of Kansas, for the establishment of prices for coal of the special sizes known as nut run or stoker coal and mill coal, and it having been determined by the United States Fuel Administrator that the establishment of prices for such special sizes is required for the proper distribution of coal produced in said district,

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby makes and establishes the following regulation, effective August 3, 1918, until further or other order, and subject to modification hereafter from time to time, and at any time:

REGULATION FIXING THE PRICES OF NUT RUN OR STOKER COAL AND MILL COAL IN CHEROKEE AND CRAWFORD COUNTIES, KANS.

The prices of nut run or stoker coal and mill coal produced in Cherokee and Crawford Counties, in the State of Kansas, and shipped on and after the effective date of this regulation, are hereby fixed, f. o. b. cars at the mine, per net ton as follows:

Nut run or stoker coal	$3.05
Mill coal	2.95

H. A. GARFIELD,
United States Fuel Administrator.
By CYRUS GARNSEY, Jr.,
Asst. United States Fuel Administrator.

REVISION OF SOFT COAL PRICES AT CERTAIN COLORADO MINES

The United States Fuel Administration issues the following:

WASHINGTON, D. C., *August 13, 1918.*

Applications having been made to the United States Fuel Administrator for a further revision of the prices of bituminous coal mined at the following mines of the Victor American Fuel Co., viz, the Radiant mine in the Canon City district of Colorado, and the Ravenwood mine in the Walsenburg district of Colorado, the United States Fuel Administrator, after due consideration of such applications, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs that bituminous coal mined at the following mines of the Victor American Fuel Co., viz, the Radiant mine in the Canon City district of Colorado, and the Ravenwood mine in the Walsenburg district of Colorado, may be sold at prices f. o. b. cars at the mine, not to exceed the following per net ton, viz, for run of mine, $2.15; for prepared sizes, $4.15; for slack or screenings, $1.15. To the foregoing prices may be added the 43-cent allowance for wage increase, if the producing company is entitled to add such allowance under the President's order of October 27, 1917.

The price for prepared sizes is subject to the following monthly summer reductions: 70 cents for the month of April, 50 cents for the month of May, 35 cents for the month of June, 15 cents for the month of July.

This order to become effective at 7 a. m., August 20, 1918.

H. A. GARFIELD,
United States Fuel Administrator.
By CYRUS GARNSEY, JR.,
Assist. United States Fuel Administrator.

AMERICAN RED CROSS AIDING WAR REFUGEES IN JERUSALEM

The Red Cross issues the following:

Thousands of Armenian refugees at Port Said and many homeless families in or near Jerusalem are now being cared for by the American Red Cross according to cable advices just received by the war council from the Red Cross Commission to Palestine, headed by Dr. John H. Finley. The relief work was undertaken at the request of Gen. Allenby, and is being carried on under the direction of the military governor.

Hospital in Jerusalem.

The Red Cross has established a general dispensary and hospital with a children's clinic in Jerusalem. Hundreds of persons have already received treatment there. At the request of the government of Jerusalem the organization has taken over two orphan asylums with 400 children. Three hundred Russian refugees are also being cared for in Jerusalem by the Red Cross.

3,000,000 Tonnage Mark in Launchings Fast Approaching, Shipping Board Says

The Shipping Board authorizes the following:

During the week ending August 22 the following requisitioned and contract steel and wood vessels were completed and delivered to the United States Shipping Board Emergency Fleet Corporation:

REQUISITIONED.

Name.	Place of delivery.	Type.	Dead-weight tonnage.
W. S. Rheem	Alameda, Cal	Tanker	10,475
Lake Borgne	Superior, Wis	Cargo	3,500
Total number of ships			2
Dead-weight tonnage			13,975
Previously reported number ships.			217
Dead-weight tonnage			1,366,356
Grand total requisitioned ships.			219
Dead-weight tonnage			1,380,331

CONTRACT.

Crawl Keyes [1]	Ecorse, Mich	Cargo	3,350
West Galoc	Los Angeles, Cal	do	8,800
Lake Gedney	Cleveland, Ohio	do	3,550
Lake Eliko	Lorain, Ohio	do	3,550
Lake Ormoc	Detroit, Mich	do	3,550
Total number of ships			5
Dead-weight tonnage			22,800
Previously reported number ships.			40
Dead-weight tonnage			261,600
Grand total contract ships.			45
Dead-weight tonnage			284,400

[1] Completed last week, but not reported in time.

WOOD AND COMPOSITE SHIPS.

Bellota	R. J. Chandler		3,500
Total wood delivered to date			16
Dead-weight tonnage			57,000
Total composite delivered to date.			1
Dead-weight tonnage			4,000
Total delivered			17
Dead-weight tonnage			61,000

Grand total deliveries steel, wood, and composite ships, 281, of 1,725,731 dead-weight tons.

The following is a list of the steel ships launched during the week ending August 24, 1918:

CONTRACT STEEL SHIPS.

Zirkel	Moore Shipbuilding Co., Long Beach, Cal.		9,400
Berwyn	Bethlehem Shipbuilding Corporation (Ltd.), Sparrows Point, Md.		7,100
West Erral	Los Angeles Shipbuilding & Dry-Dock Co., Los Angeles, Cal.		8,800
Lake Agomak	American Shipbuilding Co., The, Superior, Wis.		3,550
Lake Galera	American Shipbuilding Co., The, Buffalo, N. Y.		3,550
Lake Alavada	American Shipbuilding Co., The, Cleveland, Ohio.		3,550
Lake Gaspar	American Shipbuilding Co., The, Lorain, Ohio.		3,550
Lake Fondulac	American Shipbuilding Co., The, Chicago, Ill.		3,550
Total number of ships			8
Dead-weight tons			43,350
Total contract ships launched to date.			99
Dead-weight tons			632,350

REQUISITIONED STEEL SHIPS.

E. L. Doheny III	New York Shipbuilding Co., Camden, N. J.		12,300
Total requisitioned ships launched to date.			267
Dead-weight tons			1,694,523
Grand total steel ships launched to date.			366
Dead-weight tons			2,326,873

WOOD SHIPS.

Name.	Placd of delivery.	Type.	Dead-weight tonnage
Buhisan	Traylor Shipbuilding Corporation		3,500
Fame	Crowninshield Shipbuilding Co	Tug	
Arenas	Southern Dry-Dock & Shipbuilding Co		3,500
Bobring	Pacific American Fisheries		3,500
Toiler	Northwest Engineering Works	Tug	
Cocopa	Fulton Shipbuilding Co		3,500
Latoka	Grant Smith-Porter Ship Co		3,500
Braxton	Peninsula Shipbuilding Co		4,000
Toka	Meacham & Babcock		3,500
Octorara	Nilson & Kelez		3,500
Total wood launched to date.			156
Dead-weight tons			555,600
Total tugs launched to date.			2
Total composite launched to date.			11
Dead-weight tons			41,500
Total launched			169
Dead-weight tons			597,100

This shows that the United States Shipping Board Emergency Fleet Corporation is rapidly approaching the 3,000,000 tonnage mark in launchings, the grand total steel and wood ships launched to date being 535 vessels of 2,923,973 deadweight tons.

SERIES OF WAR LECTURES.

A series of lectures illustrated with slides on the various war activities of the United States up to this time is being prepared by George F. Zook, professor of modern European history, Pennsylvania State College. The cantonments, airplanes, the Navy, shipbuilding, the trenches, and many other features of the war are described in an interesting and instructive way. The lectures will be especially useful for the work of teachers, Y. M. C. A. secretaries, and club officials.

Each lecture is accompanied by from 45 to 65 slides. The slides are of excellent workmanship and will be sold at the nominal price of 15 cents each. The lectures and slides will be available for use about October 1. For further information address the Division of Civic and Educational Publications, Committee on Public Information, Washington, D. C.

EXPANSION OF CONSERVATION AND RECLAMATION WORK BY QUARTERMASTER CORPS IN CANTONMENTS IS OUTLINED

The War Department authorizes the following:

Expansion of the work which the Conservation and Reclamation Division of the Quartermaster Corps is carrying on in the camps and cantonments throughout the country, has been provided for by the authorization for the construction of buildings which will house the various activities of this division. The authorization covers erection of clothing and hat repair shops, canvas and cot repair shops, and dry-cleaning plants in 34 camps, cantonments, and depots and the necessary machinery for the equipment of these various shops.

Following are the buildings which the Construction Division of the Army has been authorized to begin work on:

Camp Custer, clothing and hat repair shop, canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,850.

Camp Devens, clothing and hat repair shop, canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,850.

Camp Dix, clothing repair shop, canvas and cot repair shop; authorized for construction, $15,000; authorized for machinery and equipment, $2,740.

Camp Dodge, clothing and hat repair shop; authorized for construction, $13,400; authorized for machinery and equipment, $2,050.

Camp Funston, clothing and hat repair shop; canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,850.

Camp Gordon, clothing and hat repair shop; authorized for construction, $13,400; authorized for machinery and equipment, $2,050.

Camp Jackson, clothing and hat repair shop, canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,850.

Camp Lee, clothing and hat repair shop, canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,850.

Camp Lewis, clothing and hat repair shop, canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,850.

Camp Meade, clothing repair shop, canvas and cot repair shop; authorized for construction, $15,000; authorized for machinery and equipment, $2,740.

Camp Pike, clothing and hat repair shop, canvas and cot repair shop; authorized for construction, $17.100; authorized for machinery and equipment, $2,850.

Camp Sherman, clothing and hat repair shop, canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,850.

Camp Taylor, clothing and hat repair shop, canvas and cot repair shop reclamation warehouse; authorized for construction, $37,485; authorized for machinery and equipment, $3,450.

Camp Travis, clothing and hat repair shop, canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,850.

Camp Upton, clothing repair shop, canvas and cot repair shop; authorized for construction, $15,000; authorized for machinery and equipment, $2,740.

Camp Beauregard, clothing and hat repair shop, canvas and cot repair shop reclamation warehouse; authorized for construction, $37,485; authorized for machinery and equipment, $3,450.

Camp Bowie, clothing repair shop, canvas and cot repair shop; authorized for construction, $15,000; authorized for machinery and equipment, $2,740.

Camp Cody, canvas and cot repair shop; authorized for construction, $3,500; authorized for machinery and equipment, $850.

Camp Hancock, clothing repair shop, canvas and cot repair shop; authorized for construction, $15,000; authorized for machinery and equipment, $2,740.

Camp Kearney, clothing and hat repair shop, canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,850.

Camp Logan, clothing repair shop, canvas and cot repair shop, reclamation warehouse; authorized for construction, $35,475; authorized for machinery and equipment, $3,500.

Camp McArthur, clothing repair shop, canvas and cot repair shop; authorized for construction, $15,000; authorized for machinery and equipment, $2,740.

Camp McClellan, clothing repair shop, canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,740.

Camp Sevier, clothing and hat repair shop, canvas and cot repair shop; authorized for construction, $17,100; authorized for machinery and equipment, $2,850.

Camp Shelby, clothing repair shop, canvas and cot repair shop; authorized for construction, $15,000; authorized for machinery and equipment, $2,740.

Camp Sheridan, clothing repair shop, canvas and cot repair shop; authorized for construction, $15,000; authorized for machinery and equipment, $2,740.

Camp Greene, canvas and cot repair shop; authorized for construction, $3,500; authorized for machinery and equipment, $850.

Camp Wadsworth, canvas and cot repair shop; authorized for construction, $3,500; authorized for machinery and equipment, $850.

Camp Wheeler, clothing repair shop, canvas and cot repair shop; authorized for construction, $15,000; authorized for machinery and equipment, $2,740.

Camp Humphreys, clothing and hat repair shop, shoe repair shop, reclamation warehouse; authorized for construction, $45,475; authorized for machinery and equipment, $2,870.

Fort Sam Houston supply depot, dry-cleaning plant; authorized for construction, $52,115; authorized for machinery and equipment, $31,450.

Atlanta supply depot, dry-cleaning plant; authorized for construction, $52,-115; authorized for machinery and equipment, $31,450.

El Paso supply depot, dry-cleaning plant; authorized for construction, $35,-455; authorized for machinery and equipment, $18,700.

United States Disciplinary Barracks, Alcatraz, Cal., dry-cleaning plant; authorized for construction, $35,415; authorized for machinery and equipment, $18,700.

Official Bulletin Index

An index for the Official Bulletin for the first six months of 1918 has been prepared and may be had on application to this office. An index for each month hereafter will be printed in an early issue of the Bulletin after the close of that month.

LATEST SCHOOLS TO QUALIFY FOR STUDENT TRAINING UNITS

The War Department authorizes the following:

It is estimated that the colleges accepted for organization and equipment of units of the Students' Army Training Corps next month represent an "educational plant" worth $500,000,000 to the Government. The use of this existing machinery as a means of giving the men over 18 years intensive training is obviously an economy. Each day additional schools are being accepted by the War Department for the Students' Army Training Corps. The latest to qualify are:

Campion College, Prairie du Chien, Wis.

Virginia Christian College, Lynchburg, Va.

Luther College, Decorah, Iowa.

Fordham University, New York City.

St. Peters College, Jersey City, N. J.

Bradley Polytechnic Institute, Peoria, Ill.

Clarkson College of Technology, Pottsdam, N. Y.

Milwaukee State Normal, Milwaukee, Wis.

Albright College, Myerstown, Pa.

Baker University, Baldwin City, Kans.

Michigan College of Mines, Houghton, Mich.

Rose Polytechnic Institute, Terre Haute, Ind.

Oglethorpe University, Oglethorpe, Ga.

Willamette University, Salem, Oreg.

State Normal School, Jacksonville, Ala.

Spring Hill College, Spring Hill, Ala.

Center College, Danville, Ky.

St. John's College, Brooklyn, N. Y.

Virginia Military Institute, Lexington, Va.

Official U. S. Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, FRIDAY, AUGUST 30, 1918. No. 400

U. S. SOLDIERS NOW HOLDING OVER 30 BILLIONS INSURANCE

About 3,400,000 Applications Received by War Risk Bureau up to Date.

The Treasury Department authorizes the following:

More than $30,000,000,000 of Government insurance has been written to date to protect America's fighting forces and their families, Secretary McAdoo announces.

Approximately 3,400,000 insurance applications have been received by the Bureau of War-Risk Insurance of the Treasury Department up to the close of business August 30. An unprecedented rush of business in the last fortnight has eclipsed the billion-dollar-a-week record. The total for the month of August will be approximately $5,000,000,000 in new insurance applications.

Ninety Per Cent Insured.

Unofficial estimates indicate that the United States Army is substantially more than 90 per cent insured.

New men joining the colors are almost without exception availing themselves of the maximum insurance protection permitted by law—$10,000. In the opinion of Army officers this is strengthening the morale of the Nation's Army to a very considerable degree.

More than 2,000,000 insurance certificates have been mailed to date. They are being dispatched at a steadily increasing rate. Persons who have been named as beneficiaries under the war-risk insurance but have not as yet received their insurance certificates are again reminded that these certificates are not essential to make the insurance protection effective.

Other Work of Bureau.

In addition to handling the greatest insurance organization in the world, the Bureau of War-Risk Insurance of the Treasury Department has charge of soldiers' and sailors' family allotments and Government allowances, and indemnity compensation for death and disability.

The bureau has sent forward to date close to five and a half million Government checks.

Checks are being mailed at the rate of approximately a million a month.

ORDERED TO WASHINGTON.

Special Orders, No. 197:

376. Col. Perley F. Walker and Lieut. Col. Mahlon O. Kasson, Engineers, will proceed without delay to Washington Barracks, D. C., and report in person to the commanding general for temporary duty as students at the staff school and upon the completion thereof will rejoin their regiments.

British Ship Kellogg First Reported Sunk, Salvaged and in Port

The Navy Department announces that the British steamship, *Frederick R. Kellogg*, torpedoed on August 13, has been salvaged and towed into port. First accounts of the attack on the *Kellogg* stated that the vessel had been sunk, but later reports showed it still afloat. Its recovery was accomplished by naval salvage operations.

TELEPHONE USERS TO PAY THE COST OF INSTALLATION

The Postmaster General issues the following:

AUGUST 28, 1918.

Order No. 1931:

Owing to the necessity for conserving labor and material and to eliminate a cost which is now borne by the permanent user of the telephone, a readiness to serve or installation charge will be made on and after September 1, 1918, for all new installations, also a charge for all changes in location of telephones.

Installation charges to be as follows:

Where the rate is $2 a month or less	$5
Where the rate is more than $2, but not exceeding $4 a month	10
Where the rate is more than $4 a month	15

The moving charge to the subscriber will be the actual cost of labor and material necessary for making the change.

In accordance with Bulletin No. 2, issued by me August 1, 1918, stating that "until further notice the telegraph and telephone companies shall continue operation in the ordinary course of business through regular channels," in all cases where rate adjustments are pending or immediately necessary they should be taken up by the company involved through the usual channels and action obtained wherever possible. In all cases, however, where rates are changed such changes should be submitted to me for approval before being placed in effect.

A. S. BURLESON,
Postmaster General.

ALLIES' PETROLEUM MISSION IN CONFERENCE IN WASHINGTON

Here to Discuss Specifications for Products with the American Committee.

The Fuel Administration issues the following:

The Specifications Commission of the Inter-Allied Petroleum Conference in London has arrived in Washington for the purpose of discussing the standardization of specifications for petroleum products with the committee recently appointed by Presidential proclamation.

Personnel of Commission.

The Specifications Commission from London is composed of the following members:

W. Fraser, chairman; H. R. J. Conacher, secretary; Engineer Commander A. E. Hyne, Royal Navy; Capt. W. E. Guttentag, British Air Ministry; Capt. E. C. Paix, French Army; Capt. L. Noyer, French Army; Maj. Galileo, Italian Navy.

A. C. Woodman and W. A. Williams have been nominated as alternates to represent the American Government in the absence of Chester Naramore and W. E. Perdew, who are now in Europe.

The above-named commission met in conference August 29 with the American Committee on Standardization of Petroleum products composed of the following members:

The American Members.

M. L. Requa, General Director Oil Division, United States Fuel Administration, chairman; J. W. Williams, secretary; Col. George E. Warren, appointed by Secretary of War; Admiral R. S. Griffin, appointed by Secretary of the Navy; H. L. Doherty, appointed by chairman of Shipping Board; C. B. Young, appointed by Director General of Railroads; C. H. Beal, appointed by Director of Bureau of Mines; Dr. C. W. Waidner, appointed by Director of the Bureau of Standards.

Further conferences will be held from day to day.

FOOD VIOLATION IN ALASKA.

First Case Reported is That of Grocer at Ketchikan.

The Food Administration authorizes the following:

The first case of violation of food rules which has come to the attention of the Food Administration from Alaska is that of N. F. Zimmerman, grocer, of Ketchikan, Alaska, who was found guilty of selling flour and sugar without first obtaining the necessary permits. Zimmerman's place was closed for three days.

SAVING IN GASOLINE AND OIL BY SUNDAY REST FOR AUTOS

The Fuel Administration issues the following:

In response to queries as to what amount in saving of gasoline might be expected as a result of the United States Fuel Administration's request that the use of automobiles be restricted on Sundays, M. L. Requa, director of the oil division, says:

East of Mississippi Only.

"The request for this conservation applies only to the territory east of the Mississippi River. In this territory there are 4,000,000 motor-driven vehicles, of which approximately 200,000 are trucks. It is fair to assume that the remaining 3,800,000 motor vehicles if run on Sundays would each use two gallons of gasoline; so that the saving to be effected, if every motor user patriotically complies with the Fuel Administration's request, would be about 7,600,000 gallons. This would be in addition to the saving effected by the nonuse of motorboats; and in this connection it might be well to state that the conservation request has no application to those motor fishing boats plying at a necessary trade.

Points for the Motorist.

"Motorists are requested to initiate every means of conservation possible in the handling and use of gasoline and lubricating oils. The useless operation of engines when the car is not in motion must be discontinued. Extreme care must be exercised that gasoline and oil is not spilled; that leaks are not tolerated; and evaporation not permitted. The gasoline and lubricating oil user must realize that there is not an inexhaustible supply of crude oil, and he must appreciate the fact that the need for it now exceeds that of any previous time.

"War needs must be first supplied. By conserving through the nonuse of motor-driven vehicles for a few Sundays and the exercise of care in the use of gasoline and oil during other days, there probably will be no necessity for more severe control.

"If this program is followed to the extent that the Fuel Administration believes it will be, a few Sundays will effect the desired conservation."

CARBON ELECTRIC LAMP TO GO IN PLAN TO CONSERVE COAL

The Fuel Administration issues the following:

The United States Fuel Administration, in connection with the manufacturers and dealers in incandescent electric lamps, has worked out a detailed plan for eliminating the inefficient types.

The lamp manufacturers, at a meeting held in Washington August 28, voluntarily agreed to abandon the manufacture of certain types of the inefficient carbon filament lamp in accordance with the program which practically calls for the discontinuance of their manufacture and sale.

There are still a few isolated cases where the carbon lamp is required, such as on battleships where excessive vibration or shock calls for a lamp of the sturdy type. But with few exceptions, and these are confined to essentially war industries, the program is expected to gradually eliminate the carbon lamp in favor of the more efficient tungsten lamp.

Asked to Assist.

Central stations, public service corporations, municipal plants, and others who may be using carbon-filament lamps are being asked to assist the manufacturers as well as the Fuel Administration in working out this program, inasmuch as sweeping conservation measures are imperative if the war industries and essential public needs are to be supplied.

The importance of this radical step may be judged from the fact that the program as formally adopted at the meeting will mean the saving of more than 1,000,000 tons of coal.

SITUATION ON APPLICATIONS TO OPEN NEW COAL MINES

The Fuel Administration issues the following:

The United States Fuel Administration does not hesitate to grant permission to open new mines when convinced that the new operation will increase production.

All Applications Investigated.

Each application is investigated by the mine track committee, and their decision is governed by the following considerations: Quality of coal; production tonnage promised at an early date; labor supply available without interfering with other operations; diffusion of cars; and ability of railroads to handle the production.

Up to this time there have been 623 applications to open bituminous mines, and 10 applications to open anthracite mines. Of this number, 215 bituminous applications and 9 anthracite applications have been approved. Seventy-two bituminous applications have been rejected, and one has been withdrawn. The mine track committee has under consideration one anthracite and 335 bituminous requests.

So long as the railroads are experiencing difficulty in supplying cars and in moving the loads to their destination, and so long as labor for the mines is short, the advisability of extending coal development is held by the United States Fuel Administration in a doubtful light. Only when convinced that a new operation will surely increase production is consent given for a new opening.

AGRICULTURE DEPARTMENT PROPOSALS.

The Department of Agriculture is sending out the following proposals:

Induced draft equipment. Mimeograph paper, 800,000 pounds. To be opened September 3, 1918.

Green manifolding paper, 500 boxes (500 sheets to box). To be opened September 6, 1918.

Strychnine, U. S. P. (alkaloid), 5,000 ounces. To be opened September 13, 1918.

Copies of proposals and specifications may be obtained from R. M. Reese, chairman board of awards, United States Department of Agriculture, Washington, D. C.

AGREEMENT ON RAIL RATES ON U. S. ARMY SHIPMENTS

The United States Railroad Administration issues the following:

Director General McAdoo authorizes the following announcement:

For a period of three years or more prior to Federal control, the railroads of the country, on the one hand, and the War Department on the other, were in dispute as to the proper freight rates to apply on military impedimenta, the former contending for a second-class rate and the latter for a fourth-class rate. Neither side being willing to concede the reasonableness of the claim of the other, it was agreed by the two parties early in November of 1917 to submit briefs to the Interstate Commerce Commission as a referee. This procedure would have necessitated a more or less exhaustive and expensive investigation on the part of the commission.

However, before the briefs had been prepared the matter was brought to the attention of the Division of Traffic, United States Railroad Administration. After weighing the arguments carefully the Railroad Administration recognized merit in the positions of both the carriers and the War Department and suggested to the War Department, for account of the carriers under Federal control, a compromise basis of third class, minimum weight 24,000 pounds per shipment, which the War Department readily accepted.

This disposition of the case makes for uniformity of practice by all carriers, and a simplified method of accounting both with the carriers and with the War Department.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
August 28, 1918.

RECEIPTS.

Customs receipts	$285,655.48
Internal-revenue receipts:	
Income and excess-profits tax	767,361.75
Miscellaneous	2,251,456.00
Miscellaneous revenue receipts	124,671.15
Total ordinary receipts	3,429,144.38
Panama Canal receipts	202,359.11
Public-debt receipts	99,961,834.31
Balance previous day	1,362,195,799.08
Total	1,465,789,136.88

DISBURSEMENTS.

Ordinary disbursements	$156,195,580.82
Panama Canal disbursements	238,821.11
Purchase of obligations of foreign Governments	20,500,000.00
Purchase of Federal farm loan bonds	
Public-debt disbursements	420,937.72
Balance in general fund to-day	1,288,433,797.23
Total	1,465,789,136.88

LIGHTHOUSE PROPOSALS.

SEALED PROPOSALS will be opened by the Superintendent of Lighthouses, Baltimore, Md., at 2 o'clock p. m., September 10, 1918, for the sale of condemned lighthouse property, including twenty-five (25) row and sail boats, blocks, library books, chest and tools, old furniture, etc., located at Lazaretto Lighthouse Depot, Baltimore, Md. Information upon application to the above office.

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

BRASS MANUFACTURERS AGREE TO SPEED UP MILL PRODUCTION

Shortage of Labor Chief Difficulty in Way of Maximum Output, It Is Stated.

The War Industries Board authorizes the following:

At a conference yesterday with Bernard M. Baruch, chairman of the War Industries Board, and other officials of the board, representatives of the brass manufacturers promised full cooperation with the Government officials in plans to speed up the rolled brass mills production to cure a shortage in the supply of essential war material such as shells, cartridges, condenser tubes, etc.

Plans suggested to this end were:

1. Each mill to take its full share of Government business.
2. Each mill to take work best suited to its equipment.
3. Cut off all nonessential uses of the products in which there is a shortage.
4. Determination by the manufacturers to get out the product in the face of obstacles—in other words, to work up to full capacity.

Industry Largely Represented.

The meeting of the manufacturers to consider the Government's requirements for its own forces and to supply the needs of the allies was called by Everett Morss, chief of the brass section of the War Industries Board. The industry was largely represented.

The chief difficulty in the way of maximum production, it developed, was shortage in labor. It was stated that with 9,600 additional unskilled laborers the mills could increase their output 33⅓ per cent. Theoretically there is mill and machine capacity to meet demands, but full capacity is seldom attained at a mill. A number of plants are installing additional facilities, and the output of such plants will be increased shortly.

Pledge Best Efforts.

The cutting out of nonessential uses of the particular products needed in the war program was urged as a necessary move in the plan to give some relief immediately to a situation that is serious. This part of the program to prevent shortage in war material will be taken care of later by the War Industries Board, and the manufacturers pledged their best efforts to get the greatest production from their mills. Their gross production is now figured at about 2,910,000 pounds per day. An increase of a third would give a production of 3,388,000 pounds per day, while the gross demands, according to latest figures, are about 4,685,000 pounds per day.

CORRECTION IN ADDRESSES.

In an announcement by the War Industries Board, published in the OFFICIAL U. S. BULLETIN of Monday, August 26, 1918, concerning the appointment of regional and subregional chairmen, to cooperate with that body in its war work, the list from District No. 5 gave the addresses of F. M. Staunton, H. E. Travis, R. L. Cunningham, and J. L. Hawkins as being in Pennsylvania, whereas they are residents of West Virginia. The address of W. Wallace McKaig should likewise have been in Maryland, not Pennsylvania.

WORK OF BOARD OF REVIEW PASSING ON WAR CONTRACTS

The War Department authorizes the following:

The Board of Review in the Office of the Quartermaster General of the Army, which passes on all contracts and purchase orders of the Quartermaster Corps amounting, respectively, to more than $5,000, last week approved 194 contracts and purchase orders, amounting to $11,683,499.48.

This was a typical week's work, and covered 5 contracts for underwear, amounting to $936,580; 8 contracts for coats, $1,043,874; 34 contracts for trousers and breeches, $2,113,095; 11 contracts for raincoats, $1,450,800; 24 orders for cloth, $1,222,143.82; and 2 contracts for overcoats, $101,360.

Other purchase orders and contracts included 10 for subsistence, amounting to $123,598.25; 33 for hardware and metals, $2,476,099.31; and 14 for fuel and forage, $136,485. There were 53 miscellaneous contracts and purchase orders during the week, totaling $2,079,464.10.

New Poster is Expected To Help in War Work By Cutting Down Mails

A poster printed in appropriate typing and coloring has been prepared in response to numerous requests by Chambers of Commerce, Boards of Trade, libraries, and other public institutions. The purpose of the poster is self-evident. It reads as follows:

Read the

Official U. S. Bulletin

PUBLISHED DAILY UNDER ORDER OF THE PRESIDENT OF THE UNITED STATES

BY COMMITTEE ON PUBLIC INFORMATION GEORGE CREEL CHAIRMAN

WAR

Information

Save writing to Washington for what you want to know about

The Army and Navy
The Red Cross
The Selective Draft Laws
The Food Administration
The Fuel Administration
Trading with the enemy
The War Labor Board
The War Industries Board
The Railroad Administration

and all the other permanent or emergency governmental departments, boards, commissions, committees, and administrations at the Capital and elsewhere.

ASK FOR IT HERE

Copies of the poster will be sent to all applicants who are in a position to aid in this public service. It is hoped that its wide publicity will help to lessen the war burden put upon the mails and serve to minimize the work of all government departments at Washington.

SPECIAL TRAINS FOR EXPRESS BETWEEN CAPITAL AND ATLANTA

The United States Railroad Administration issues the following:

Director General McAdoo has arranged to put on an exclusive train on the Southern Railroad for express shipments between Washington and Atlanta, September 1, which will result in a substantial improvement in the service for express matter between points in the northeastern and southeastern sections of the country.

Daily Except Monday.

The first southbound train will leave Washington Sunday, September 1, at 11 a. m., arriving at Atlanta the following day at noon. This train will be operated from Washington daily, except Monday, and will make stops at Charlottesville, Lynchburg, Danville, Greensboro, High Point, Salisbury, Charlotte, Spartanburg, Greenville, and Gainesville. This train will handle through express cars from New York to Atlanta, Jacksonville, New Orleans, Birmingham, and Montgomery, and a through express car from Philadelphia to Atlanta.

The first northbound train will leave Atlanta Monday, September 2, at 10 p. m., reaching Washington the following evening at 11 o'clock, stopping at the same intermediate points, with one or two additions, and will carry through cars from Southern points to Northern points, including New England.

Will Obviate Transfers.

This plan for through service will obviate the necessity of transferring many express shipments at Washington and will result in a very much improved express service for the Army camps on the line of the Southern Railroad, as well as affording considerable relief to several important passenger and mail trains between Washington and Atlanta, benefitting the passenger, mail, and express service generally.

It was not possible to bring about this kind of an arrangement when the roads were operated separately, as there was not enough express business to warrant a special train for express shipments on any one line, but with Federal control, under which the railroads are operated as one system, the business is consolidated, bettering the service to a large number of people.

PROPOSALS TO BE RECEIVED FOR COTTON GOODS SUPPLIES

The following notice as to supplies needed have been sent out by the Cotton Goods Branch of the Clothing and Equipage Division, Quartermaster General's Office, New York City:

Sealed proposals for furnishing 1,331,500 yards 31-inch, 28 by 36, weighing 5.6 to 5.7 ounces per yard, combed cheesecloth yarns, to be about 20 single soft twist, will be received here until 2 o'clock p. m. September 6, 1918. Information on application. Envelopes containing proposals to be indorsed "Proposals for 31-inch, 28 by 36, weight 5.6 to 5.7 ounces per yard, combed cheesecloth yarns, to be about 20 single soft twist, and addressed to the Cotton Goods Branch, Clothing and Equipage Division, 109 East Sixteenth Street, New York City.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

Reports Mexican Border Situation Satisfactory

Daily press interview by Secretary Baker, August 29, 1918:

I have received a dispatch from Gen. Holbrook, commanding the Southern Department, in which he says that entirely satisfactory adjustments have been worked out in a conference with the Mexican authorities about the difficulty on the border, and the border has been reopened. The dispatch does not give details.

New Section on Claims, Railroad Law Division

The United States Railroad Administration, Division of Law, issues the following:

WASHINGTON, D. C.,
August 26, 1918.

CIRCULAR No. 1.

Effective September 1, a section is created in the division of law entitled Claims and Property Protection, to be located in the Southern Railway Building, Washington, D. C.

The section is to have jurisdiction over freight claims and prevention; property protection, now under the jurisdiction of the property-protection section; and personal-injury claims.

John H. Howard is appointed manager; Philip J. Doherty, counsel for the property-protection work; Charles F. Patterson, late of Pittsburgh, Pa., counsel for claims.

JOHN BARTON PAYNE,
General Counsel.

American Official Communiques on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique No. 106—Continued.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
August 28, 1918.

SECTION B.

The following list of awards of the Distinguished Service Cross constitutes part of section B of the daily American official communique and is sent forward separately to avoid delay in the transmission of other news:

Section B.—The commander in chief has awarded Distinguished Service Crosses to the following-named officers and men for acts set forth after their names:

First Sergt. HANS P. CHRISTIANSON, Infantry. "On 27–28 May, 1918, at Cantigny, France, he refused to receive treatment, although sick, and walked up and down the line encouraging his men, exposing himself to shell and machine gun fire."

Pvt. First Class LEXIE DOWNHAM, Infantry. "On 28–30 May, 1918, at Cantigny, France, he captured single-handed, by exercising unusual bravery, 10 of the enemy."

Corpl. ABE L. ALLEN, Infantry. "During a heavy bombardment of the front line near Cantigny, France, 22 May, 1918, although severely injured by the explosion of a shell which buried two comrades, he promptly and courageously dug them out with his hands and took them to shelter, being subjected all the time to severe fire of shell and shrapnel."

Corpl. LEWIS KOPASKI, Infantry. "Near Cantigny, France, on 28–30 May, 1918, he captured an enemy machine gun, and aided materially in breaking up a counterattack by using it against his foes. In company with his captain, he led the way to a dugout which he had located in capturing the machine gun and assisted in taking nine prisoners."

Second Lieut. JOHN H. CHURCH, Infantry. "Knocked down and rendered unconscious by the explosion of a shell early in the attack on Cantigny, France, 28–31 May, 1918, he staggered forward as soon as he regained consciousness and insisted upon resuming command, thereby giving a striking example of fortitude to his men."

Pvt. FRED GUNN, Medical Department, Infantry. "At the battle of Cantigny, France, May 28–31, 1918, he repeatedly on his own initiative left the security of the trench to administer first aid under fire and in full view of the enemy snipers and machine gunners. His brave conduct was a noble example and his ministrations relieved suffering and saved lives."

Pvt. JOHN B. WHEN, Medical Department, Infantry. "For three nights at Cantigny, France, May 28–31, 1918, he worked unceasingly under fire, bringing the wounded to safety and ministering to them on his own initiative. He repeatedly left shelter to help wounded men."

Pvt. FRANK J. REYNOLDS, Medical Department, Infantry. "During the fight at Cantigny, France, May 28–30, 1918, while acting as a stretcher bearer, he constantly and fearlessly exposed himself to artillery and machine-gun fire to succor the wounded, frequently on his own initiative, when he might have remained in security himself."

First Lieut. THOMAS M. BARBER, Medical Reserve Corps, Infantry. "On May 28–30, 1918, near Cantigny, France, he repeatedly demonstrated heroic self-sacrifice by caring for wounded under enemy fire and with apparent contempt for his own safety. When his aid station had been destroyed by shell fire he promptly moved into a shell hole near by and continued his faithful work."

First Lieut. S. C. SORENSON, Infantry. "When the officers of his unit were killed or wounded at Cantigny, France, on May 28, 1918, and although he himself had been wounded early in the attack and suffered intensely, he took command, refused to leave his post, and by heroic courage and resolution in resisting counterattacks, contributed in great measure to the successful defense of his sector."

Sergt. Maj. JACKSON D. BURKE, Infantry. "On May 28–30, 1918, at Cantigny, France, he showed exceptional energy, bravery, and loyalty to duty. At one period of the fight it was necessary to send a message of great importance to the regimental commander. It was considered impossible for a runner to reach regimental headquarters on account of intensity of the enemy fire. He nevertheless volunteered to carry the message, and by crawling several hundred yards through machine-gun fire he successfully executed his mission."

Pvt. C. E. WHITTINGTON, Infantry. "For three days at Cantigny, France, on May 28–30, 1918, he performed with great bravery the duties of battalion gunner without rest; although wounded, he remained on duty, under fire, until his battalion was relieved."

First Lieut. WALTER B. CRISTIENSEN, Infantry. "On July 15, 1918, near Rheims, France, immediately following the bombardment of his position, he conducted himself with heroic disregard of personal safety in speedily placing his men in such advantageous posts and spurring them to vigorous action by seizing a rifle and fighting himself on the

(Continued on page 6.)

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

Without a record vote the Senate late yesterday afternoon adopted the Sheppard substitute for war-time prohibition as an amendment to the pending agricultural extension bill. Under the terms of the substitute as adopted the sale as a beverage in this country of all alcoholic liquors, including beer and wine, will be prohibited after June 30, 1919, except for export. After May 1, 1919, the manufacture of beer and wine will be prohibited. The amendment was so worded as to include not only the period of the war but until all the troops have been demobilized after the war. The President is given authority at any time after the passage of the act to establish prohibited zones around coal mines, shipbuilding plants, munitions plants, and other places engaged in the manufacture of war materials. Penalties for the violation of the law are provided. All efforts to amend the proposition, either by changing the date when it should become effective as to beer and wine, or to change the date when the general prohibition becomes effective, were voted down.

Large Number of Nominations.

The President yesterday afternoon sent to the Senate the largest number of nominations at one time that has ever been submitted.

The list included about 2,000 postmasters in cities, towns, and villages in practically every State in the Union, most of them being reappointments, and about 2,500 Army and Navy officers, most of these being promotions in the lower grades. Thirteen captains in the Navy were nominated to be temporary rear admirals. Albert Rathbone, of New York, was nominated to be Assistant Secretary of the Treasury to succeed Oscar T. Crosby, who is now in France representing the Treasury Department. Charles D. Tenney, of Massachusetts, was nominated to be secretary of embassy or legation of class 1. Murphy J. Foster, of Franklin, La., was nominated to be collector of customs, district No. 20, and John Marks, of Napoleonville, La., to be surveyor of customs of the same district.

The Committee on Commerce ordered a favorable report on the bill for the registration of international trade-marks, designed to carry into effect the recommendations made by the convention for the protection of trade-marks and commercial names, held in Buenos Aires in 1910.

The Committee on Mines and Mining ordered a favorable report on the Henderson bill for Government control of production and distribution of minerals needed in the war. The measure was prepared after conference with Secretary of the Interior Lane and Chairman Baruch of the War Industries Board, and has the approval of the administration.

HOUSE.

The conferees on the man-power bill reached a complete agreement yesterday and submitted their report to the House, where it was adopted after about an hour's discussion, without a roll call. The Senate was expected to act favorably as soon as the measure reached it to-day. It will then be sent to the President for his approval. The bill extends the draft age to from 18 to 45 years. Following the elimination Wednesday of the "work-or-fight" amendment of the Senate, the conferees yesterday struck out the Senate amendment providing that local draft boards classify registrants without requiring them to specifically claim exemption. This action was taken after Provost Marshal Gen. Crowder told the conferees the amendment would seriously interfere with the War Department's registration program. Another amendment struck out was one providing for a badge or other insignia for men deferred for industrial or other service. Although somewhat modified, the principles of the Senate amendment removing the restrictions against commissioning and admitting to officers' training camps men under 21 years of age was retained. The Senate amendment extending the draft to the Navy and Marine Corps and providing that men may be allotted for those services was retained.

Water-Power Bill.

The House continued consideration of the water-power bill without reaching final conclusions. Chairman Sims, of the Interstate Commerce Committee, read to the House a letter from the President, in which he expressed his disapproval of the proposal to pay the "net investment" for water-power plants which may be taken over for public ownership. The President in his letter said the "net investment" provision had been inserted after he provisionally approved the measure, and asked Congress to pass it in its original form, which provided for the payment of "fair value," not exceeding the original cost.

Financial aid for the drought-stricken portion of Texas is sought by Representative Blanton, of that State, in a bill he introduced providing for a Federal fund of $50,000,000 to be set aside to be loaned to needy farmers of that region. The Federal Reserve Board would be required to handle the fund.

Under the terms of a bill introduced by Mr. Sears, of Florida, the Secretary of Agriculture would be authorized to arrange for an agricultural exhibit at the Pan-American International fair and live-stock exhibit at Jacksonville, Fla., during the fiscal year ending June 30. The President also would be authorized to extend an invitation to other nations to send delegates.

The Ways and Means Committee spent the most of yesterday considering a number of recommendations of Secretary McAdoo pertaining to the administrative features of the war-revenue bill. A subcommittee, consisting of Chairman Kitchin and Messrs. Garner, Fordney, and Longworth, was appointed to confer with the Secretary to-day.

Press Feeders Wanted

We wish seven press feeders and would like to have returned soldiers; pay $3 per day.

Department of the Interior.

MANILA HEMP PRICE FIXING DISCONTINUED ON AUGUST 31

The War Industries Board authorizes the following:

The price fixing committee of the War Industries Board at the request of the Philippine Government and of the Philippine Agricultural Congress, and after learning from investigation that war needs and commercial interests of the United States would not suffer, announces the expiration on August 31 of price fixing on Manila hemp.

Reasons for the Action.

The action of the committee and its reasons therefor are set forth in the following statement:

The price fixing committee of the War Industries Board in fixing a tentative price on July 25, 1918, on Manila hemp to remain in effect until August 31, 1918, announced that in the interim it would receive evidence from all interested parties, especially the Philippine Government and the Governor General of the Philippines, and after a careful review of such evidence would determine its price-fixing policy on Manila hemp for the future.

Cables from Manila.

Upon transmitting to the Governor General of the Philippines and the Philippine Government evidence submitted here, we are in receipt of cables from the Governor General, from both branches of the Philippine Government, and from the Philippine Agricultural Congress, requesting that the fixing of price by the price fixing committee on Manila hemp be discontinued; and as no evidence was submitted indicating that our war needs or the interests of our people would suffer from relinquishing price control, it was unanimously decided by the price fixing committee in consultation with our insular representatives and other representatives of the Philippine interests present at said meeting, that there was no justification in continuing to fix a price on Manila hemp.

Therefore the price fixing committee hereby announces that price fixing by the price fixing committee on Manila hemp expires August 31, 1918.

PRICE-FIXING COMMITTEE RULE ON CIVILIAN AND OTHER SALES

The War Industries Board authorizes the following:

At a meeting of the price-fixing committee, held August 27, the following resolution was passed:

Be it resolved, that where prices are stated to be fixed for the United States Government, the governments associated with it in this war, and the public (or primary civilian sales) the said prices are hereby declared to extend to the Government and civilians of the United States (including civilians of its territories and insular possessions) and to the following Governments, i. e., Great Britain, France, Italy, Belgium, and Japan.

And be it further resolved, that these maximum prices shall not extend to purchases made by the civilians of the latter-mentioned allied nations nor to the Governments or civilians of nations other than those above enumerated.

SOLDIERS CITED IN COMMUNIQUE FOR HEROISM

(Continued from page 4.)

parapet of the trench that the German charge at that point was instantly repulsed. Although wounded, he remained on duty until the enemy was defeated and his men were safe."

Pvt. DAVID O. CLAPP, Infantry. "During the defense of Cantigny, France, May 28, 1918, although wounded several times, stayed with his automatic rifle and assisted in the reconsolidation of his platoon. He was ordered to the aid station; but after receiving first aid insisted on returning to his post, where he remained working until forced to be evacuated."

First Lieut. W. ROSS FAHRING, Infantry. "On May 28–31, 1918, at Cantigny, France, he was severely wounded by machine-gun fire shortly after successfully leading his platoon to its objective. Notwithstanding this he remained on duty for nine hours, thereby setting a brave example for his men."

Pvt. HENRY QUINN, Infantry. "On May 29, 1918, at Cantigny, France, in response to a call for volunteers to penetrate a heavy enemy barrage and obtain definite information concerning tanks and conditions of enemy front line, he accomplished his mission to the imminent peril of his life."

Second Lieut. VINTON A. DEARING, Infantry. "Detailed in command of a carrying party on May 28, 1918, near Cantigny, France, he bravely proceeded, under fire, to execute his mission, and by his example of bravery heartened his men who were under fire for the first time. On May 29, 1918, Lieut. Dearing took his party through heavy shelling to carry ammunition to the front lines without being ordered to do so."

Pvt. WILLIAM J. HOWE, Infantry. "Acting as company runner on May 28–30, 1918, at Cantigny, France, he showed exceptional bravery in carrying messages through heavy shelled area, where he was also a target for snipers. Although rendered unconscious by shell explosion, on one of his trips, he continued on duty as soon as he regained consciousness."

Pvt. EDGAR THANKER, Infantry. "On May 28–30, 1918, near Cantigny, France, he displayed distinguished conduct as a company runner, passing frequently through Cantigny when it was being heavily shelled and also cutting through German barrages on several occasions."

Corpl. NEWEL B. DAVIS, Infantry. "Near Cantigny, France, on May 28, 1918, (?) he voluntarily left shelter and exposed himself to violent machine-gun fire in order to bring to shelter a wounded comrade. While performing this meritorious deed he was himself seriously wounded."

Sergt. MANIPHE STONECIPHER, Infantry. "He showed remarkable coolness and disregard of danger under heavy bombardment near Cantigny, France, on May 28–30, 1918. While directing the consolidation of a new position, a driving fire caused many casualties in his command, but by his example of fortitude he inspired confidence in his men and refused to withdraw to the second line, even when his ammunition was nearly exhausted."

Corpl. AUGUST DE FORD, Infantry. "Although wounded three times in the attack at Cantigny, France, May 28, 1918, he showed conspicuous bravery in assisting to capture a machine gun which was causing heavy losses. Although nearly exhausted he captured three prisoners and made them secure before accepting attention to his injuries."

Pvt. EMERY L. BAKER, Infantry. "On May 28, 1918, near Cantigny, France, while acting as platoon runner he passed through three violent artillery barrages with coolness and apparent contempt for danger and repeatedly carried ammunition to his comrades under fire."

Corpl. STANLEY LAGEAISE, Infantry. "During the three days of fighting at Cantigny, France, on May 28–30, 1918, he worked bravely without thought of himself to maintain lines in working condition. He was almost constantly under heavy fire, but fearlessly went into it whenever necessary and thereby aided materially in the success of the regiment's enterprise."

Pvt. DEWEY HALPHEN, Infantry. "He acted (?) as liaison agent with the tana (?) group during the night of May 28–30, 1918, at Cantigny, with courageous disregard of his own safety."

Pvt. MORRIS F. FLEETZ, Marines. "He showed extraordinary heroism and faithfulness in the face of great danger, remaining on arduous duty without rest for two days under constant fire to supply his battalion with rations and ammunition on June 9–10, 1918, in the attack on Bois de Belleau. He made two trips with ammunition in broad daylight and in plain view of the enemy, and carried ammunition across the field under heavy shell fire."

Pvt. FRANK G. WARD, Engineers. "Even though his normal duties were as orderly for two officers, he volunteered for action at Cantigny, France, May 28, 1918; successfully went into no-man's land and killed a sniper who was inflicting losses on his detachment; carried messages through machine-gun and artillery fire; and, although twice buried in shell craters, he displayed heroic bravery, coolness, and fearless devotion throughout."

The Commander in Chief has awarded the Distinguished Service Crosses posthumously to the following-named officers and men for acts set forth after their names:

Second Lieut. MAX C. BUCHANAN, "On May 28–31, 1918, he brilliantly led his platoon in the assault at Cantigny, France, reached his objective, consolidated his position successfully under heavy fire, and continually walked up and down his line to instruct and encourage his men, until he was killed by an enemy shell."

Pvt. TONY LUBEC, Infantry. "While engaged on a mission to kill an enemy sniper, who was concealed in a wheat field and was inflicting severe losses upon American forces near Cantigny, France, May 28, 1918, and after succeeding in his mission, he was killed himself."

Capt. H. E. MOSHER, Infantry. "During a heavy bombardment near Cantigny, France, on May 28, 1918, he displayed heroic conduct and utter disregard of his own safety while successfully directing the consolidation and defense of the position taken by his command. After succeeding in the accomplishment of his task, he was struck by enemy fire and killed."

Second Lieut. CLARENCE M. DRUMM, Infantry. "At Cantigny, France, May 28, 1918, he bravely led his platoon through shell and machine-gun fire to its objective and fearlessly exposed himself by walking up and down his line to direct and encourage his men. After making certain that they were well cared for and just before it was possible for him to think of himself, he was killed."

Second Lieut. PAUL W. DERRICKSON, Infantry. "In the advance on Cantigny, France, May 28, 1918, he courageously went forward with his platoon and reached the position he had been directed to take. Fearlessly walking up and down his line, he cheered and directed the work of his men until he was killed."

Sergt. FRANK L. MEDEIROS, Infantry. "During the counter-dash attack by the enemy near Cantigny, France, on May 28, 1918, by courageous devotion to duty and presence of mind under fire, he prevented the advance against the left flank of his command, which threatened the success of the battle. While exposing himself fearlessly to distribute ammunition and to counsel his men, he was killed."

First Lieut. R. B. ANDERSON, Infantry. "In the attack and defense at Cantigny, France, May 28–30, 1918, he showed utter disregard for his personal safety in leading his command forward, in spite of artillery and machine-gun fire. While directing the security of his men after the advance, and in order to make certain that they were protected first, he himself was killed."

Capt. EDWARD G. FULLER, Marines. "While fearlessly exposing himself in an artillery barrage for the purpose of getting his men into a position of security in the attack on Bois de Belleau, on June 12, 1918, he was killed, and thereby gave his life in an effort to protect his men."

Capt. JOHN F. BARNES, Marines. "In the attack on Bois de Belleau,

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

SECTION NO. 1, AUGUST 30, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	52
Missing in action	10
Wounded severely	24
Died from accident and other causes	2
Died of disease	5
Wounded (degree undetermined)	15
Died of wounds	5
Total	113

Killed in Action.

LIEUTENANTS

Bruce W. Clarke. Mrs. Frank L. Clarke, 424 North Francis Street, Madison, Wis.

Hope W. Massie. Madison E. Massie, Tyro, Va.

SERGEANTS.

Harold V. Beebe. Mrs. Emery A. Reynolds, 212 West First Street, Woodstock, Ill.

Pryce N. Evans. David D. Evans, care of A. B. Evans, Delnorte Co., Crescent City, Cal.

Charles J. Gerald. Mrs. Mary Gerald, 2307 North Church Street, Beloit, Wis.

Albert R. Marquardt. Mrs. Louis Marquardt, R. F. D. 4, box 16, Baraboo, Wis.

Alvia Rogers. Alvia R. Rogers, Glenflora, Tex.

CORPORALS.

Earl W. Andrews. James M. Andrews, R. F. D. 1, Owendale, Mich.

John Armstrong. William Armstrong, Harrisville, Mich.

Abraham Timothy Fleury. Mrs. Abraham Fleury, 615 South Fourth Street, Marquette, Mich.

William Miller. Fred C. Miller, 613 Division Street, Eau Claire, Wis.

Jesse Frank Rowe. Mrs. Jennie Rowe Clemens, R. F. D. 3, Corunna, Mich.

Daniel T. J. Rust. Mrs. Erma Beebe Rust, 1013 South Shiawassee Street, Owosso, Mich.

Bert Ryan. William Ryan, Attica, Mich.

Edward Salzer. Mrs. Tracy Salzer, Shawano, Wis.

Albert Waybrant. Mrs. Ida Waybrant Sibbald, R. F. D. 1, box 75, Sault Sainte Marie, Mich.

PRIVATES.

Victor Andrykowski. Mrs. Mary Roseberry, 919 Atwater Street, Saginaw, Mich.

Burt Bailey. Mrs. Elizabeth Bailey, Goodells, Mich.

Arthur Gehring Beechley. Henry George Beechley, 1015 Mason Street, Flint, Mich.

Frederick Blocom. Mrs. Elvina Smith, R. F. D. 1, Akron, Mich.

John Brennan. Mrs. Mary Brennan, 424 Lehigh Street, Easton, Pa.

Edward A. Bushong. William A. Bushong, Independence, Kan.

Andrew N. Coleman. Mrs. John Coleman, Mayville, N. Dak.

Clare Cooper. Manford Cooper, Birch Run, Mich.

Eugene Dupras. Rigis Dupras, Two Rivers, Wis.

Milford O. Fisher. Benjamin Fisher, R. F. D. 3, box 10, Charleston, W. Va.

Charles C. Heines. Mrs. Elizabeth Heines, 1½ St. Jacob Street, Rochester, N. Y.

George Herrier. Mrs. H. C. Newth, 1151 Seventy-fifth Avenue, Oakland, Cal.

Emmett C. Hinderlong. Mrs. Elizabeth Hinderlong, R. F. D. 4, Marengo, Ohio.

Forest Hughes. William Hughes, Patriot, Ind.

Richard C. Hughes. Catherine M. Earl, 1838 Race Street, Denver, Colo.

Richard Ray Hunt. Charles Hunt, 68 Foster Street, Pontiac, Mich.

Ralph A. Judson. Mrs. Sadie Hiscock, Cody, Wyo.

Ray Keegan. Christy Hailey, 1417 Broad Street, Flint, Mich.

John J. Kelley. Miss Margaret Kelley, 1127 South Third Street, Philadelphia, Pa.

George Theodore McFarling. Mrs. Ada Jane McFarling, 824 Leith Street, Flint, Mich.

Johannes S. Mikkelsen. Johannes Mikkelsen, Del Ray, Cal.

Frank Novak. Miss Gladys Scheer, Clara Avenue, Sheboygan, Wis.

Stanley Peatrski. Mrs. Helen Filipkrek, 148 Jacob Street, Hamtramck, Mich.

Charles A. Peron. John A. Peron, 2922 Budlong Avenue, Los Angeles, Cal.

Oscar A. Rippberger. Mrs. Alice Rippberger, 25 Whistler Street, Freeport, Ill.

Albion E. Robison. Peter Robison, 401 South Rollins Street, Macon, Mo.

423 Sick and Wounded Landed in U. S. During the Week Ending August 23

The War Department authorizes the following statement from the Office of the Surgeon General:

During the week ending August 23 the number of sick and wounded landed in the United States from the American Expeditionary Forces was 423. For the preceding week the number was 333. These men are sent to the various Army hospitals where facilities for special reconstruction have been provided.

FURTHER DETAILS OF SINKING OF SUBMARINE CHASER 209

Taussig's Shot Thought to Have Exploded Depth Charge—List of Missing.

Reports received by the Navy Department give further details of the sinking of submarine chaser *209*. The captain of the steamship *Felix Taussig* reported that at 2.30 a. m., August 27, the lookout reported an object resembling a submarine about 200 feet away, off the port beam. Orders for general alarm were given by the captain. The craft sighted had no lights showing and was headed in the same direction as the *Taussig*, the captain said. As it passed the steamship and crossed her bow, four shots were fired from the forward gun of the *Taussig*. It was only after the third shot that the vessel showed lights, the report stated. Apparently two shots struck the submarine chaser, and it is believed that one shot exploded a depth charge. The *Taussig* stopped to render assistance to the sub chaser, which was burning and which sank in about three minutes.

Officers and Men Missing.

The following officers and men of the crew of submarine chaser *No. 209* are reported missing.

Lieut. (junior grade) Henry J. Bowes, U. S. N. R. F., commander of submarine chaser *209;* wife, Mrs. Evaline H. Bowes, Wellwood avenue, Merchantville, N. J.

Ensign G. H. Randolph, U. S. N. R. F., executive officer; next of kin not given in department records.

Collins Alwin Crowe, machinist's mate (second class); mother, Aletta Barnett, Valencia and Seventh Street, Los Angeles, Cal.

Harry Sawyer Denney, gunner's mate (first class), U. S. N. R. F.; mother, Mrs. Lavinia Denney, 1703 South Second Street, Philadelphia, Pa.

Gordon James Groves, seaman (second class), U. S. N. R. F.; mother, Mrs. Joanna Hynson, 421 Queen Street, Alexandria, Va.

George Charles Gunderman, jr., hospital apprentice (second class), U. S. N. R. F.; mother, Mrs. Mary Katherine Gunderman, 2246 Eighty-second Street, Brooklyn, N. Y.

Richard Coyle Hasinger, quartermaster (third class), U. S. N. R. F.; mother, Mrs. Emma Ester McGourley, 810 Pine Street, Wilmington, Del.

Leonard Alonzo Haskett, boatswain's mate (second class), U. S. N. R. F.; mother, Mrs. Agnes McGowan Haskett, 801 Allison Street, Philadelphia, Pa.

Edwin Flavius Hodgdon, fireman (third class), U. S. N. R. F.; father, William Hodgdon, subdivision Brazaria, Tex.

Frank Reamer Hullette, ship's cook (first class), U. S. N. R. F.; wife, Nellie Hullette, 1119 Broadwalk, Atlantic City, N. J.

Frederick William Keihn, machinist's mate (first class), U. S. N. R. F.; mother, Mrs. Therese Keihn, 2A Foxall Street, Brooklyn, N. Y.

Frank Moore Patterson, jr., machinist's mate (second class), U. S. N. R. F.; father, Frank Moore Patterson, sr., 257 Seventy-fifth Street, Brooklyn, N. Y.

Casper Garrett Schroder, ship's cook (third class), U. S. N. R. F.; father, George C. Schroder, Waverly Avenue, Morton, Pa.

Irwin John Sheehan, oiler, U. S. N. R. F.; mother, Mrs. Alice Sheehan, 2247 Pierce Street, Philadelphia, Pa.

Timothy Frank Treacy, electrician (third class, radio), U. S. N.; mother, Mrs. Catherine Treacy, 419 Euclid Avenue, Indianapolis, Ind.

Harold Peverill, machinist's mate (second class), U. S. N.; mother, Mrs. Clara Amanda Peverill, R. F. D. No. 5, Waterloo, Iowa.

SOLDIERS CITED FOR HEROISM

(Continued from page 6.)

June 12, 1918, he was badly wounded, but completed the disposition of his platoon under violent fire. The injuries which he sustained in the performance of this self-sacrificing duty later caused his death."

Pvt. First Class JONES W. HUNTER, Infantry. "He showed himself to be conspicuously brave when, at Vaux, France, 3 July, 1918, although wounded by a shell and unable to carry ammunition, for which duty he had been detailed, he went over the top with his squad and fought heroically with it until killed."

Sergt. First Class ARTHUR E. NELSON, Signal Corps. "Near Vaux, France, on July 1, 1918, under heavy bombardment, Sergt. Nelson while sick went to maintain communications with an attacking battalion of the infantry and was killed in this heroic action."

Pvt. ARMY A. DUKE, Infantry. "Near Souain, France, in the engagement of 15–16 July, 1918, he displayed praiseworthy devotion to duty and courageous self-sacrifice when he remained at his post under heavy fire, receiving wounds that later caused his death."

Lieut. Col. ROBERT J. MAXEY, Infantry. "On 28 May, 1918, at Cantigny, France, he advanced with his first wave and in the face of heavy shell and machine gun fire located the objective of his battalion. He was a cool, dependable, and heroic leader. Although fatally wounded he gave detailed instructions to his second in command and caused himself to be carried to his regimental commander and delivered important information before he died."

Sergt. First Class CARL G. THOETE, Engineers. "Although twice wounded early in the attack at Castigny, France, 28 May, 1918, he went over the top with his section and courageously directed its operations for five hours under steady first (fire?), refused medical treatment, and led a second advance until killed by a machine-gun bullet."

Sergt. BERNARD J. FINNERTY, Infantry. "He bravely attacked a group of the enemy without assistance in a bayou near Auberive, France, 16 July, 1918, and drove them out, thereby saving his unit from surprise attack. While engaged in this courageous enterprise he was killed."

Second Lieut. JAMES S. TIMOTHY, U. S. M. C. "Although weakened by gas poisoning, inflicted while serving with the French in the Verdun sector, he declined medical assistance and served with heroic fortitude with the marines. In the operations of one 15 June, 1918, near Chatteau Thiery, he inspired the officers and men with whom he was in action by his fearlessness and fortitude until instantly killed by a high explosive shell."

Corpl. ROBERT FINNEGAN, Infantry. "On 27–28 May, 1918, at Cantigny, France, although mortally wounded, he concealed that fact, encouraged his men by his example of fortitude and continued to fire his automatic rifle until he became exhausted."

American Official Communique No. 107.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
August 29, 1918.

Section A.—North of the Aisne, our troops have made progress in the region of Juvigny, in spite of the strong resistance of the enemy. Our patrols were active along the Vesle and in the Woevre, and brought in prisoners.

STOCK EXCHANGE SEAT SALES BY ALIEN PROPERTY CUSTODIAN AUTHORIZED BY THE PRESIDENT

UNDER TRADING WITH ENEMY ACT

Executive Order Gives Discretionary Powers to Dispose of Any Such Holdings in Incorporated Bodies Within the United States.

EXECUTIVE ORDER.

AN EXECUTIVE ORDER CONCERNING CERTAIN SALES TO BE CONDUCTED BY THE ALIEN PROPERTY CUSTODIAN PURSUANT TO THE "TRADING-WITH-THE-ENEMY ACT" AND AMENDMENTS THEREOF.

By virtue of the authority vested in me by "an act to define, regulate, and punish trading with the enemy, and for other purposes," approved October 6, 1917, known as the "trading-with-the-enemy act," and the amendment to such act embodied in "an act making appropriations to supply urgent deficiencies in appropriations for the fiscal year ending June 30, 1918, and prior fiscal years, on account of war expenses, and for other purposes," approved March 28, 1918, I hereby, in the public interest, make the following determination, order, rule, and regulation:

The Alien Property Custodian may sell at private sale, without public or other advertisement, any seats upon or memberships in any stock, cotton, grain, produce, or other exchanges incorporated or organized and existing anywhere within the United States as defined in the "trading-with-the-enemy act"; and any such sale or sales may be made and conducted wherever and upon such terms and conditions as the Alien Property Custodian or his authorized agent shall determine.

My reasons, in the public interest, for the foregoing determination, order, rule, and regulations are:

(a) The methods required by law and the character of said property to be pursued in the sale thereof are such that the power of sale vested in the alien property custodian can not be exercised effectively except at private sale; in that such seats upon or memberships in said exchanges can be purchased only by persons who are already members of said exchange or who are approved by said exchange according to its constitution and by-laws, and such seats upon or memberships in said exchanges can be sold and transferred therefore only to persons who are members of or who are approved by the exchange the seat upon or membership in which is the subject matter of sale.

(Continued on page 2.)

Dentists Are Warned Not to Extract Teeth For the Sole Purpose of Aiding "Slackers"

The War Department authorizes the following from the office of the Provost Marshal General:

The Department of Justice has turned over to this office information which it has received tending to show that registrants in certain localities, desiring to avoid military service, have sought to have teeth extracted so as to render them eligible to physical disqualification. A dentist in New York State advises that several would-be slackers have approached him with requests to have teeth extracted for this purpose.

This office desires to warn all dentists against permitting themselves to be a party to practices of this sort and to call attention to the fact that severe penalties are provided in the law for any person conspiring to aid another to avoid the draft.

How the Bulletin Goes to Its Mail Subscribers

Frequent letters from subscribers to the Official U. S. Bulletin complain that copies of the Bulletin are received late at their destination. Numerous investigations of these individual instances have been made by the Government Printing Office and the Post Office Department, and while some irregularities in transmission have been found and corrected, the interval between the date of publication and that of delivery, as a rule, did not disclose neglect of service. The Post Office Department is giving it letter-mail attention, so far as it is practicable to do so in this time of stress and unusual burden of official mail matter.

The Official U. S. Bulletin is editorially compiled in the day and evening of the date of publication and the mechanical work of the Government Printing Office has still to follow. Thus, it reaches the mails late at night or early the next morning, which, upon receipt immediately, would make it seem 24 hours behind. A simple remedy would be to date it ahead, which is the usual way in the publishing world, but this method is not deemed necessary at this time.

U. S. STEAMER CUDAHY IS SUNK BY TORPEDOES OFF THE ENGLISH COAST; 62 OF CREW MISSING

TWO U-BOATS IN ATTACK

Captain's Report Says 22 of Armed Guards Are Unaccounted For—Thirteen Saved—Fuel Tank and Engine Room Both Hit by Missiles—Went Down 700 Miles Out at Sea.

The Navy Department is informed that the United States cargo steamship *Joseph Cudahy* was torpedoed at sea about 700 miles from the English coast about 12.30 a. m., August 17. Thirteen members of the crew were rescued, 62 are reported missing. According to the captain's report two submarines figured in the attack. Two torpedoes struck the ship, the first striking the fuel tanks and the second the engine room. The captain was taken aboard one of the submarines and questioned.

Naval Guards Missing.

Of the naval armed guard on board the *Cudahy* two are reported saved and 22 missing. The names of the civilian members of the crew have not been received by the department. Following are the missing members of the naval guard and their home addresses:

Edwin Frank Brezinski, boatswain's mate, second class, United States Navy. Father, Joseph Brezinski, 507 Columbia Avenue, Neenah, Wis.

Stephen Cerstvik, electrician, third class (radio), United States Navy. Father, Matthew Cerstvik, 95 Darcey Street, Newark, N. J.

Goddard Hall Clarke, electrician, third class (radio), United States Navy. Father, Charles A. Clarke, 1735 Wynne Avenue, Helena, Mont.

Herbert James Doig, seaman, second class, United States Naval Reserve Force. Mother, Mrs. Grace Davidson Doig, 1537 St. Charles Street, Alameda, Cal.

Herman Fiedler, gunner's mate, first class, United States Navy. Sister, Frieda Fiedler, 468 Union Avenue, Paterson, N. J.

William Conrad Haack, seaman, second class, United States Naval Reserve Force. Mother, Mrs. Margaret Haack, 195 Holladay Avenue, San Francisco, Cal.

Edward Hahnemann, seaman, United States Navy. Father, Ernest Hahnemann, 98 Berlin Street, Newark, N. J.

Herman Glick, gunner's mate, third class, United States Navy. Mother, Mrs. Ester Glick, 12 Cliff Street, Paterson, N. J.

Virgil Huggins, seaman signalman, United States Navy. Father, Matt Huggins, 123 Eighteenth Street, Columbus, Ga.

Duello Moss Lilly, seaman, second class, United States Naval Reserve Force. Mother,

Mrs. Ida Husband Frasher, Acacia Hotel, Los Angeles, Cal.

Hayden Purcell Roberts, chief electrician (radio), United States Naval Reserve Force. Father, Simon J. Roberts, Clifton Building, Cleveland, Ohio.

Samuel Schoppe, chief boatswain's mate, United States Navy. Mother, Mrs. Susan Schoppe, 281 Scholes Street, Brooklyn, N. Y.

Harris B. Sproles, seaman, second class, United States Naval Reserve Force. Mother, Mrs. Laura Winston Sproles, Los Gatos, Cal.

Claude Mathias Stark, seaman, United States Navy. Father, Ernest Stark, 891 Fair Street, Appleton, Wis.

Anton Mike Szudera, gunner's mate, third class, United States Navy. Mother, Mrs. Kate Szudera, 720 East Third Street, Winona, Minn.

William Roy Suttles, seaman, United States Navy. Mother, Mrs. Martha Suttles, Elmwood, Ga.

Edward Clarence Masterson, seaman, second class, United States Naval Reserve Force. Mother, Mrs. Julia Masterson, 366 Pleasant Avenue, St. Paul, Minn.

Sydney Lehman Munro, seaman, second class, United States Naval Reserve Force. Wife, Mary Munro, 1025 Forty-seventh Street, Oakland, Cal.

Elmer Fred Nelson, seaman, second class, United States Naval Reserve Force. Mother, Gerda Nelson, 166 Hyland Avenue, San Francisco, Cal.

Frank Herbert Odell, seaman, second class, United States Naval Reserve Force. Sister, Martha Carter, Alice Apartments, Oakland, Cal.

Miguel Baldonegro Peralta, seaman, second class, United States Naval Reserve Force. Wife, Mary Peralta, 3112 Humboldt Street, Los Angeles, Cal.

William Leo Pyne, seaman, second class, United States Naval Reserve Force. Mother, Mrs. Josephine Pyne, 2105 Vallejo Street, San Francisco, Cal.

CONTROL OF FOUR FIRMS TAKEN BY ALIEN PROPERTY CUSTODIAN

A. Mitchell Palmer, the Alien Property Custodian, announces that immediate steps will be taken to liquidate the German-controlled tobacco jobbing firm of H. Neuberger & Co., Inc., which has offices at 130 Water Street, New York. This concern, which has been taken over by the Alien Property Custodian, did a large speculative business in leaf tobacco. It has $300,000 worth of leaf tobacco in storage, which will be sold shortly.

Stock Owned Elsewhere.

Neuberger & Co. owns 50 per cent of the stock of the Connecticut Tobacco Co., of Hartford, Conn., 37 per cent of the stock of the Griffin Tobacco Co., of Connecticut, and 25 per cent of the stock of the Arthur Corey Tobacco Co., of Jacksonville, Fla.

Neuberger & Co. was organized about 15 years ago by Frederick Lederer, who was sent to this country by Heinrich Neuberger to establish a branch of Neuberger & Co., large tobacco dealers of Bremen, Germany. On the death of Heinrich Neuberger, the majority interest in the company came into the possession of Capt. Moritz Neuberger, of the German Army. Lederer continued to be the active man in the American company, Capt. Neuberger visiting this country about once a year.

The firm has a capitalization of $719,000, of which $654,700 of stock was issued and is outstanding. Capt. Neuberger held 65 per cent of the stock.

Custodian Names Directors.

Mr. Palmer has appointed the following directors for the company: Chellis A. Austin, 115 Broadway, New York, vice president and chairman of the board of directors; William M. Cruickshank, secretary; N. J. Verdery, Secretary of the New York Stock Exchange, treasurer; C. J. Edwards, and William Redmond Cross.

Mr. Lederer has been allowed to remain as president by the Alien Property Custodian. Royal H. Weller, of New York, is representing the Alien Property Custodian as counsel for Neuberger & Co.

The Alien Property Custodian also announced that he has taken over the Translucent Window Sign Co., with offices at 118 East Twenty-eighth Street, New York. This concern, which was 100 per cent enemy owned, manufactured and sold translucent window signs, etc. The Alien Property Custodian has named William H. Green, 220 Broadway; Arthur B. Grotz, 26 Cortlandt Street; and F. T. Lawrence, 257 Fourth Avenue, New York City, to act as directors in this concern.

The Alien Property Custodian has also taken over the enemy interest in the International Haircloth Co., of 334 Fourth Avenue, New York, manufacturers of horsehair interlinings and fiber cloth. Robert Adamson and former Corporation Counsel Lamar Hardy, of New York, were named as directors in this concern by Mr. Palmer.

Other Interests Taken Over.

The enemy interests in the Astoria Homestead Co., 109 East Fourteenth Street, New York City, have also been taken over by the Alien Property Custodian. Lawrence Maguire, 115 Broadway, New York, and Robert Adamson, 1493 Broadway, New York, have been named as directors.

In discussing the two last-named concerns the Alien Property Custodian emphasized the fact that only a minority of the stock holdings are of enemy character, and that the concerns are controlled by Americans. He said that in many instances competitors sought to injure the business of concerns in which the enemy holdings were a minority of stock by circulating statements that such concerns were of enemy character. The Alien Property Custodian desires to emphasize that the taking over of a part of the shares of an American corporation should not be used against such corporation or throw any doubt on its loyalty, and should not be used for insinuating that the loyalty of the corporation is questioned.

ASKS MINERS NOT TO EXTEND LABOR DAY BEYOND MONDAY

Coal Production Next Week Should Prove Men's Mettle, Says Mr. Garfield.

United States Fuel Administrator Garfield has issued an appeal to all mine workers not to extend their celebration of Labor Day, next Monday, beyond the one day. In an open letter to the miners of the country, he said:

"*To all persons engaged in coal mining:*

"It is urged and expected that coal production for the week beginning September 1 will be a demonstration of the true mettle of America's coal miners and operators.

"The excellent working record made for the day following the last general holiday, July 4, showed what can be done, and it is hoped and expected that both attendance records and output following Labor Day will equal and exceed all previous records.

"The more coal we produce the fewer lives will be sacrificed in battle, for coal means everything in transportation, equipment, guns, and ammunition, which America's soldiers must have to speed the end of the war. The more coal mined now the more shells will be available, the fewer lives lost in the battle line, and the quicker will be ultimate victory.

"Every added ton of coal is literally another supply of munitions and food. So far as the miner is concerned, he who works fights. The coal industry of America can and should show its temper to the world by its record for Tuesday, the day after Labor Day. With shells to waste, lives can be saved.

"H. A. GARFIELD,
"*United States Fuel Administrator.*"

LEGAL BOARDS CALLED UPON TO ASSIST DRAFT REGISTRANTS

The War Department authorizes the following from the office of the Provost Marshal General:

Legal advisory boards in the various States were called upon by Provost Marshal General Crowder to make arrangements to render every assistance to registrants and to local draft boards in connection with the coming classification. The following telegram was sent to the draft executives of the several States:

"On account of approaching classification of new registrants under new law amending selective-service law by increasing ages, it is imperative that members of legal advisory boards, both permanent and associate, should be prepared to take up the work of aiding and advising registrants and assisting in the administration of the law and regulations immediately following registration under the new law. Please take up this matter immediately with the central legal advisory committee of your State, or through such other means as may be necessary, and arrange for preliminary meetings and other necessary steps to be taken to assure efficient and ample personnel organized and ready to repeat the magnificent work which they did during the first questionnaire and classification period. Please acknowledge receipt of this, stating what steps you have taken to carry same into effect."

Advice given registrants by members of these boards is free of charge.

STOCK EXCHANGE SEAT SALES BY ALIEN PROPERTY CUSTODIAN

(Continued from page 1.)

(b) The sales hereby authorized may be made at the time and place of most favorable demand and upon such terms and conditions as may be necessary to secure the best market price.

(c) Unnecessary expense, delay, and inconvenience may be avoided.

WOODROW WILSON.

THE WHITE HOUSE,
August 29, 1918.

GLASS INDUSTRY OF AMERICA AS AFFECTED BY THE WAR

The Tariff Commission authorizes the following:

In anticipation of the adjustments in the industry, which will no doubt be necessary after the war, the Tariff Commission has made an investigation and report of the glass industry as affected by the war. It finds that all branches of the industry have been seriously handicapped by the abnormal conditions.

The cutting off of imported raw materials, particularly potash, followed by delays in experimenting with or in finding suitable domestic substitutes, have added to the obstacles in the way of successful manufacture. Great difficulties have been experienced in the transportation of materials and fuel and the delivery of finished products.

The report shows that notwithstanding these and other obstacles, commercial production has increased and export trade has extended to countries not hitherto reached in specific lines by American glass manufacturers. The information obtained by the commission warrants the conclusion that a new era has set in for the industry.

The consensus of opinion of glass manufacturers is that, although the European war has injuriously affected the production of a number of staple articles of American manufacture through lack of important ingredient materials, it has stimulated the industry to a remarkable degree, and has been the principal factor in the creation and development in this country of a number of new branches of glass manufacture.

The glass companies that have successfully engaged in the manufacture of new products are comparatively few. They are leaders in four of the principal divisions of the industry—window glass, plate glass, blown and pressed ware, and bottles and jars.

Conditions in Europe.

The destructive effect of the war upon the glass industries of Belgium and France, and the shutting off of glass imports from Germany and Austria, especially optical and laboratory glassware, made immediate constructive work in the United States imperative. At the present time we are producing large quantities of optical glass of the kinds needed for military fire-control instruments and of a quality equal in practically every respect to the best European glass.

The inquiry elicited from manufacturers and importers suggestions and recommendations having especial reference to our developed export trade and its extension, and the retention and expansion of our domestic trade after the war. The views of manufacturers who expect to hold their export trade after the war and those who do not expect to hold it are interesting features of the report. The replies to the inquiry "Factors depended upon for holding domestic trade after the war" are also of particular interest and range from "low costs of production," "quality of goods," "efficiency in production," "lower costs of materials," and "readjustments of wages" to dependence "upon a protective tariff."

In the production of bottles a high degree of mechanical efficiency has been reached. Without the aid of a human hand an automatic machine produces complete 1-dram bottles at the rate of 165 per minute and larger sizes up to 12-gallon bottles in proportionate time. The labor cost "is practically nothing," said the manufacturer.

In the making of window glass a machine blower in the most efficient American factories can blow a cylinder of window glass nearly 39 feet long and 32 inches in diameter in less time than a Belgian hand blower can blow a cylinder 5 feet long and 15 inches in diameter.

ADDITIONAL DIFFERENTIALS ON PRICES OF COTTON GOODS

The War Industries Board authorizes the following:

In accordance with the agreement between the representatives of the cotton industry and the price-fixing committee, July 1, 1918, the following differentials based on the prices then agreed to have been fixed by the price-fixing committee, to remain in effect until October 1, 1918. This price is a revision of the price put into effect July 25, 1918:

Sheeting:
Width.—31 inches.
Yards per pound.—5.
Sley and pick.—48 by 48.
Price basis per yard.—13½ cents net f. o. b. mill.

In accordance with the agreement between the representatives of the cotton industry and the price-fixing committee, July 1, 1918, the following differentials based on the prices then agreed to have been fixed by the price-fixing committee, to remain in effect until October 1, 1918:

Sateens:
Width.—53 to 54 inches.
Yards per pound.—1.30.
Sley and pick.—104 by 64.
Price basis per yard.—53½ cents net f. o. b. mill.

PRICE LIMITATIONS WAIVED ON CERTAIN U. S. PURCHASES

EXECUTIVE ORDER.

Whereas by the Act of Congress approved July 8, 1918, Public No. 189, Sixty-fifth Congress, it is provided—

"That except as expressly otherwise authorized herein no part of the sums appropriated by this act shall be expended in the purchase from private manufacturers of any material at a price in excess of 25 per centum more than the cost of manufacturing such material by the Government, or, where such material is not or has not been manufactured by the Government, at a price in excess of 25 per centum more than the estimated cost of manufacture by the Government. *Provided*, That whenever in the opinion of the President the situation is such as to justify such action he may waive the limitations contained in this section."

And whereas, in view of the practical impossibility under existing conditions of making the estimates necessary to comply fully and adequately with said provisions, it appears that the situation is such as to justify a waiver of said provisions.

It is hereby ordered that during the present national emergency the limitations contained in the above section be and the same are hereby waived.

WOODROW WILSON.

THE WHITE HOUSE,
August 29, 1918.

DIFFERENTIALS AND CORRECTIONS IN SCHEDULE OF PRICES OF SKINS

The War Industries Board authorizes the following:

The price-fixing committee of the War Industries Board has approved these differentials and corrections reported from the hide, leather, and tanning materials section as applying to the schedule of maximum prices for goatskins, cabarettas, sheepskins, and deerskins fixed May —, for a period of three months, and continued effective August — for the months of August, September, and October:

Errata and Differentials.

GOATSKINS, CABARETTAS, SHEEPSKINS, AND DEERSKINS.

AUGUST, SEPTEMBER, OCTOBER.

Packer.—Maximum price of kids measuring about two-thirds of goatskins is two-thirds of price of such goatskins. Other domestic skins, kids, $4 per dozen. West Indies, St. Kitts, dry salted, are at 35 per cent reduction.

Brazil "regulars."—Price mentioned is for primes.

Argentina.—Price on Bahia Blancas 11/12 kilos average should be 60 cents.

China.—Weights mentioned on Chowchings apply also to Shuntifus, Pactingfus, and Tientsins.

"Hankow" should read "Hankow and Honan."

Brazil.—Weights mentioned are averages.

Punjab sheep pelts, 700 pounds average per 500 skins, are also known as Paprahs.

West India sheepskins should be 1 to 1½ pounds average.

Para deerskins.—Price should be 55 cents.

Panama deerskins.—Price should be 65 cents.

China deerskins.—Price should be 95 cents.

Labor Day Greeting To Our Boys Oversea Sent by Mr. Schwab

The Shipping Board issues the following:

Greeting to the boys in France, by Charles M. Schwab:

"I am indeed glad of the opportunity offered by this Labor Day to send to you boys in France my sincerest greetings. We read with wondering eyes of the splendid feats you are performing and our hearts are overwhelmed with patriotic enthusiasm and gratitude for the stand you are making to safeguard Democracy. We are with you in every possible way; are devoting all of our energies and making all of the sacrifices, no matter how great, so that you may be supplied with food, ammunition, and other necessities. The ships are coming out at a splendid rate, and this shows what our industrial workers can do when inspired by patriotic enthusiasm. God be with you all and may you return covered with honor and the glory of magnificent deeds in keeping with American traditions."

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communique

The following is authorized by the Secretary of War:

American Official Communique No. 103.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
August 30, 1918.

Section A.—In the Vosges a strong raiding party advanced under cover of artillery fire to our lines; was driven back without securing any result. Aside from artillery fighting in this region there is nothing else to report.

During the day the railroad yards at Barricourt and Conflans were effectively bombed by our aviators. All of our machines have returned.

RAILROAD DAMAGE CLAIMS.

U. S. RAILROAD ADMINISTRATION,
Washington, August 22, 1918.

CIRCULAR No. 49.

Effective August 1, 1918, the handling of loss and damage freight claims and the prevention of causes of such claims will be placed in charge of freight claim agents, reporting to the head of the legal department of each railroad.

Claims for personal injury and damage to property, other than freight, will be handled by the legal department.

Overcharge and relief claims will be handled by the accounting department.

W. G. MCADOO,
Director General of Railroads.

New Poster is Expected To Help in War Work By Cutting Down Mails

A poster printed in appropriate typing and coloring has been prepared in response to numerous requests by Chambers of Commerce, Boards of Trade, libraries, and other public institutions. The purpose of the poster is self-evident. It reads as follows:

Read the
Official U. S. Bulletin

PUBLISHED DAILY UNDER ORDER OF THE PRESIDENT OF THE UNITED STATES

BY COMMITTEE ON PUBLIC INFORMATION GEORGE CREEL CHAIRMAN

WAR
Information

Save writing to Washington for what you want to know about

The Army and Navy
The Red Cross
The Selective Draft Laws
The Food Administration
The Fuel Administration
Trading with the enemy
The War Labor Board
The War Industries Board
The Railroad Administration

and all the other permanent or emergency governmental departments, boards, commissions, committees, and administrations at the Capital and elsewhere.

ASK FOR IT HERE

Copies of the poster will be sent to all applicants who are in a position to aid in this public service. It is hoped that its wide publicity will help to lessen the war burden put upon the mails and serve to minimize the work of all government departments at Washington.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
August 29, 1918.

RECEIPTS.

Customs receipts	$602,955.11
Internal-revenue receipts:	
Income and excess-profits tax	635,649.72
Miscellaneous	2,671,295.32
Miscellaneous revenue receipts	74,644.32
Total ordinary receipts	3,984,544.47
Panama Canal receipts	
Public-debt receipts	65,663,666.76
Balance previous day	1,288,433,797.23
Total	1,358,082,008.46

DISBURSEMENTS.

Ordinary disbursements	$65,100,304.02
Panama Canal disbursements	122,570.40
Purchase of obligations of foreign Governments	
Purchase of Federal farm loan bonds	
Public-debt disbursements	345,410.60
Balance in general fund to-day	1,292,513,723.44
Total	1,358,082,008.46

BIDS FOR MARINE CORPS SUPPLIES.

The Quartermaster's Department, Marine Corps, Washington, D. C., will receive sealed proposals until September 13, 1918, for furnishing 3,000 pounds motor cup grease in 10-pound cans and 2,000 pounds motor transmission grease in 50, 25, and 10 pound cans, to be delivered to the depot quartermaster, Marine Corps warehouse, Charleston Terminal Wharf, foot of Columbus Street, Charleston, S. C. C. L. McCawley, brigadier general, quartermaster.

PLANS TO STABILIZE THE PRICE OF COTTON SEED AND PRODUCTS

The representatives of the organized cottonseed producers of the Southern States have presented to the Food Administration the extreme desirability of stabilizing the price of cotton seed and its products during the next 12 months, in protection both to the seed producer and the cattle feeder from the highly speculative market that now threatens the industry.

They have stated that in consideration of the necessities of the cattle feeders they are prepared to agree that the price of cotton seed shall be stabilized at the same average price as last year despite the increased cost of seed production. The figure they recommend is $70 for seed f. o. b. cars, based on a yield of 41 gallons per ton of oil, with a $3 reduction for seed delivered in wagonload lots.

Effect of Agreement.

The effect of this would be to make the price of seed vary from $64 to $72 in carload lots, f. o. b. cars, depending upon the yield in oil. As the yield varies from zone to zone, they recommend that it is possible for the Food Administration to determine the price of seed in the different zones based on the yield. The zone yielding the lowest price for cotton seed would be that of some sections in Texas, and the highest points would be some sections of Louisiana and Mississippi. There will be some necessary increase in the costs of manufacturing and crushing during the coming year, owing to the rise in materials and labor.

Cattlemen's Meeting Called.

The Food Administration is now considering this proposal, and has called a meeting of cattlemen to consult in the matter. The greatest difficulty arises from the fact that foreign vegetable oils are selling from 3 to 4 cents a gallon in the market less than cottonseed oil, and that unless some device can be found for stabilizing the price of cottonseed oil it is likely to fall, and in consequence the price of feeding stuffs is likely to rise accordingly. If the oil can not be held to the average price of last year, the price of feeding stuffs is likely to rise to $70 or $80 a ton.

Range of Prices.

Under the plan presented the price of meal would range from $57 per ton in Texas for 43 per cent protein meal, with a variation of $1 for each unit in protein, to $53 for 36 per cent protein meal in the eastern section.

The representatives of the producers include the commissioners of agriculture and directors of markets for Georgia, Texas, Alabama, Arkansas, Louisiana, North Carolina, and Florida, together with representatives of the farmers' unions from the various Southern States.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

After a debate continuing throughout the greater part of yesterday afternoon, devoted almost entirely to the elimination of the "work-or-fight" amendment by the conferees, the conference report on the man-power bill was adopted without a record vote. The House had adjourned by the time the Senate acted, so the measure could not be sent at once to the President. It will be signed by the Speaker and the President pro tempore of the Senate to-day and sent at once to the President for his approval. The discussion developed some criticism on the part of several senators of certain regulations issued under authority of the War Department, which those senators contended had resulted in nullifying certain provisions as to exemptions specifically set forth in the draft law.

The War Department has asked Congress to repeal existing law requiring four years' service of officers before they may be appointed as staff officers or department heads. This request is the result of a scarcity of eligible officers for these places.

Consideration of the agricultural extension bill was resumed yesterday afternoon. An amendment was adopted setting aside $2,500,000 for the purchase of seed wheat to be sold to farmers at cost.

HOUSE.

The Ways and Means Committee yesterday gave its approval to the final draft of the $8,000,000,000 war-revenue bill which is expected to be submitted to the House Monday. Chairman Kitchin stated that the experts figured that the measure would yield almost $200,000,000 more than the desired maximum of $8,000,000,000. No announcement was made as to the exact provisions of the bill and these will not be officially disclosed until the bill is formally laid before the House. At the conclusion of the committee's session yesterday evening Chairman Kitchin issued the following statement:

"We have practically finished the bill except the final reading for correction and textual changes. The Treasury Department and the committee have gotten together absolutely and satisfactorily on a normal tax on incomes, which will be 12 per cent, and 6 per cent on incomes below $4,000 a year down to the exemption limit. By reason of the split normal rate and the many differences and complexities in administering the differentiated earned and unearned income tax plan, and the many questions that would arise under an unearned and earned income tax plan, all agreed that it is wiser to make no differential.

Adjustment of Surtaxes.

"The surtaxes will be adjusted correspondingly with this 12 per cent flat normal tax rate. All the surtaxes will be correspondingly reduced because of the change in the normal. The higher brackets, which will be substantially reduced, are the incomes between $200,000 and $300,000, those between $300,000 and $500,000, between $500,000 and $1,000,000, and between $1,000,000 and $5,000,000 and over.

"The maximum surtax of 65 per cent compares with the maximum surtax of 63 per cent under existing law (or 67 per cent with the present normal rate of 4 per cent), making the maximum now agreed to 77 per cent, as against 67.

"This plan, as agreed to, will produce substantially the same revenue as under the 10 per cent normal tax plan heretofore planned by the committee. In other words, with a 12 per cent normal flat tax and the surtaxes changed from the rates heretofore tentatively in the bill, the new plan will produce practically the same income as 10 per cent would have with the higher surtaxes.

"The committee struck out the provision under which it was proposed that all corporations having a capital stock of $1,000,000 or more shall pay at least 10 per cent of their net income as an excess-profits tax, even though the net income does not amount to 10 per cent. It was felt that this clause might hit a number of corporations with legitimate capital. Most of those that the 10 per cent clause would have struck will be hit by the excess-profits tax with its 8 per cent deduction."

ORDER PLACES MINES FIRST ON THE POWER PRIORITY LIST

The Fuel Administration issues the following:

Coal comes first under an order of the War Industries Board covering the distribution of power by the West Penn Power Co. in the Pittsburgh district. The order will give coal mines a full supply of power, although other war industries served by the West Penn Company are now working a restricted number of hours.

Under the tremendous increase of war industry in the Pittsburgh district, the West Penn Co. was overloaded. A breakdown in generating machinery added to the shortage. Under a previous plan it was proposed to meet the shortage by dividing the power among all the essential war industries in the district, restricting lesser essential plants to night operation. Under this plan the coal mines, numbering about 150 in the Pittsburgh district, would have been forced to accept their pro rata share of the curtailment.

Rate Reduction on Grain From Buffalo Eastward

Director General of Railroads McAdoo announces that the Division of Traffic of the Railroad Administration authorized publication on one day's notice, effective September 1, to expire October 10, a reduction of 2 cents per 100 pounds in the ex-lake grain rates from Buffalo, N. Y., to eastern seaboard cities from ex-Lake Michigan ports. This adjustment seems necessary to meet emergency of the carriers to attract the maximum amount of grain to the boats by Lake Michigan ports before the movement of the northwestern crop through Lake Superior ports starts. The latter movement will require practically all the lake tonnage available; hence the necessity of making an extra effort to get grain which naturally and logically should move through the Chicago gateway. These reduced rates are to expire on October 10, and the present rates will automatically be restored on October 11. Any grain to get the benefit of the lower rates must move out of the Buffalo elevators prior to October 11.

NATIONAL BANK CHARTERS APPLIED FOR AND GRANTED

The Comptroller of the Currency authorizes the following:

Applications to the Comptroller of the Currency during the week ending Friday, August 30, 1918, for authority to organize national banks and to convert State banks into national banks, charters issued, charters extended and reextended, increases and reductions of capital approved, changes of title approved and national banks placed in voluntary liquidation, were as follows:

APPLICATIONS FOR CHARTER.

	Capital.
For organization of national banks:	
The First National Bank of Pequot, Minn	$25,000

CHARTERS ISSUED.

Original organizations:	
The First National Bank of Reform, Ala	25,000
The First National Bank of Forgan, Okla	25,000
The Liberty National Bank of Oklahoma City, Okla	300,000
The First National Bank of Lingle, Wyo	25,000
Conversion of State banks: First National Bank of Reidsville, N. C. Conversion of The Rockingham Savings Bank & Trust Co., Reidsville, N. C.	100,000
Total	475,000

CHARTER EXTENDED.

The First National Bank of Antigo, Wis., until close of business August 30, 1938.

CHARTER EXTENDED.

The Dillsburg National Bank, Dillsburg, Pa., until close of business August 30, 1938.

INCREASES OF CAPITAL APPROVED.

	Amount.
The First National Bank of Santa Maria, Cal. From $50,000 to $100,000	$50,000
The First National Bank of Montrose, Colo. From $75,000 to $100,000	25,000
The First National Bank of Ranger, Tex. From $25,000 to $100,000	75,000
Total	150,000

VOLUNTARY LIQUIDATIONS.

	Capital.
The Commercial National Bank of Goliad, Tex	$50,000
The First National Bank of Owasso, Okla. Liquidating Agent C. E. Dickson, Owasso. Succeeded by a State bank	25,000
Total	75,000

SUMMARY.

	No. of banks.	Capital.
Applications for charter	1	$25,000
Charters issued	5	475,000
Charters extended	1	-------
Charters reextended	1	-------
Increases of capital approved	3	150,000
Other liquidations	2	75,000

MAJ. PIERCE RELIEVED.

Special Orders, No. 197:

377. By direction of the President, Maj. Junnius Pierce, Quartermaster Corps, is relieved from detail in that corps.

PLACES CERTAIN INDIVIDUALS WITHIN THE TERM "ENEMY"

By the President of the United States of America.

A Proclamation:

Whereas, section 2 of the act of Congress entitled, "An act to define, regulate, and punish trading with the enemy, and for other purposes," approved October 6, 1917, known as the "Trading with the enemy act," provides that the word "enemy" as used therein shall be deemed to mean for the purposes of such trading and of said act;

"Such other individuals, or body or class of individuals, as may be natives, citizens, or subjects of any nation with which the United States is at war, other than citizens of the United States, wherever resident or wherever doing business, as the President, if he shall find the safety of the United States or the successful prosecution of the war shall so require, may, by proclamation, include within the term 'enemy';"

Now, Therefore, I, Woodrow Wilson, President of the United States of America, pursuant to the authority vested in me by said act, and in accordance with the provisions thereof, do find hereby that the following named individuals, and bodies and classes of individuals, are natives, citizens, or subjects of a nation with which the United States is at war, and that the safety of the United States and the successful prosecution of the war require that said individuals, and bodies and classes of individuals, be included within the term "enemy," as used in said act; and therefore I do include hereby within said term "enemy" as used in said act, the following individuals, and bodies and classes of individuals to wit:

(1) Wilhelm Forstner, heretofore one of the members of the partnership of F. Speidel Company, heretofore doing business in Providence, Rhode Island, and elsewhere:

(2) Karl Bunz, heretofore one of the officials of the Hamburg-American Line, and now in the Federal penitentiary at Atlanta, Georgia.

In witness whereof, I have hereunto set my hand and caused the Seal of the United States to be affixed.

Done in the District of Columbia, this 14th day of August in the year of our Lord one thousand nine hundred and eighteen, and of the independence of the United States the one hundred and forty-third.

[SEAL.] WOODROW WILSON.

By the President:
ROBERT LANSING,
Secretary of State.
[No. 1477.]

Casualties in the Navy.

The Navy Department announces the following casualties:

Gustaf Adolph Sunquist, chief special mechanic United States Naval Reserve Force, attached to radio construction headquarters in France, drowned August 25. Wife, Mrs. Matilda Sunquist, 2321 West Thirty-eighth Street, Cleveland, Ohio.

Rhinehart William Kriegel, seaman, United States Navy, attached to the U. S. S. *Rochester*, drowned August 27. Mother, Mrs. Eva Kriegel, Buckley, Wash.

Rules for Export of Picture Film And the Conditions Under Which Individual Licenses May Be Had

The War Trade Board authorizes the following:

On July 8, 1918, the War Trade Board promulgated the following rules and regulations in relation to moving-picture film. In connection therewith are also printed Form X–20 and the agreement therein referred to, as well as instructions for the execution of said form.

WAR TRADE BOARD,
Washington, July 8, 1918.

GENTLEMEN: The War Trade Board, after consultation with the Committee on Public Information and the Treasury Department, has adopted the following rules and regulations governing the exportation of moving-picture film:

(1) Exposed but undeveloped film may not be exported to any destination.

(2) Exposed and developed film may be exported to Canada and Newfoundland until further notice without obtaining an individual export license.

Unexposed Film.

(3) Unexposed film may be exported to Canada and Newfoundland, but it will be necessary to obtain an individual license therefor from the War Trade Board.

(4) Unexposed film may not be exported to any destination, other than Canada and Newfoundland, beyond a limited amount necessary for making foreign-language "titles" to be used in the exhibition of exposed and developed film, the exportation of which has been authorized by the War Trade Board.

(5) Exposed and developed film, and unexposed "title" film to be used therewith, may not be exported to any destination, except Canada and Newfoundland, unless the shipment is approved by the Committee on Public Information and has been censored and passed by the Customs Division of the Treasury Department. Film so approved and passed must be consigned to such individual or organization at the point of destination as the War Trade Board shall designate as their representative for this purpose, and it will not be released to the intended recipient until the latter has executed an agreement with such representative of the War Trade Board in a form prescribed by the War Trade Board, substantially as set forth on the reverse side of Supplemental Sheet X–20, or on sheet annexed thereto, such agreement relating to the terms upon which the said film may be exhibited.

Subject to Regulations.

(6) In addition to the conditions set out above, any application will be subject to the special regulations of the War Trade Board concerning exports to the country to which it is proposed to make the particular shipment.

(7) The procedure to be followed in applying for a license to export such film is as follows:

(8) Persons desiring to export moving-picture film to any country excepting the Dominion of Canada and Newfoundland are advised to familiarize themselves in advance with the terms on which the Committee on Public Information (223 West Twenty-third Street, New York, N. Y.) are prepared to approve the exportation of such film.

(9) Applicants should file their applications for export licenses on War Trade Board Form X, attaching thereto Supplemental Information Form X–20, duly executed, and should then, or subsequently, file with the War Trade Board a certificate from the Committee on Public Information setting out the formal approval by the committee of the proposed shipment.

(10) The War Trade Board will consider the application, and when it is prepared to issue an export license will advise the applicant to that effect, instructing him to present the film to one of the collectors of customs listed below for inspection. Film which passes the inspection of a collector of customs will be sealed and retained by him in customs custody until an export license is presented and the film is actually laden for exportation or for transportation to the collector of customs at the point of exit. If the film passes the censorship of the collector a certificate of approval will be issued by him to the applicant.

Filing of Certificates.

(11) Both the certificate of the Committee on Public Information (in case it has not already been filed) and the certificate of the collector of customs should be forwarded to the War Trade Board (attention X–228), Washington, D. C., where applications for the exportation of such film will be finally considered.

(12) In case an export license is refused by the War Trade Board or in case the applicant abandons his application for a license, he may regain possession of the film by submitting to the collector sufficient evidence of ownership. In such event the collector will destroy the seal of approval placed on the film.

(13) The collectors of customs in the following cities are authorized to inspect and seal film: New York; Chicago; New Orleans; Los Angeles; San Francisco; Seattle; Laredo, Tex.; El Paso, Tex.; San Juan, Porto Rico; Honolulu, Hawaii.

Very truly, yours,

WAR TRADE BOARD,
BUREAU OF EXPORTS.

Additional Soldiers Prisoners in Germany

The War Department authorizes the publication of the following list of American soldiers, who it has been ascertained are now prisoners of war in Germany:

Pvt. Frank Siers. Jink Siers, father, Nebo, W. Va.

Pvt. Lyle O. Tabolt. William Tabolt father, State Street, Lowville, N. Y.

Pvt. (first class) Iver E. Westerberg. Hugo E. Westerberg, brother, 3528 Broadway, West Chicago, Ill.

Save for the country's sake.

Instructions With Respect to Bonds Required to Protect Railroad Interests

The United States Railroad Administration issues the following:

WASHINGTON, D. C., *August 15, 1918.*

P. S. & A. CIRCULAR NO. 24.

In response to inquiries concerning P. S. & A. Circular No. 24, the following information is promulgated with respect to bonds required to protect railroad interests when "order" shipments are delivered without the surrender of bills of lading.

1. Bonds in amount twice the amount of the invoice must be executed when single shipments are delivered. The bond must be prepared in the name of the consignee as principal, with individual or corporate surety. The principal can not act as his own surety.

2. Blanket bonds in satisfactory amounts, by which is meant bonds continuing in effect, for amounts in excess of the aggregate value of all shipments to be released, may, when conditions require it, be accepted from the consignee. These bonds are restricted to shipments arriving at one station on one railroad, except that when a number of terminal stations are under the jurisdiction of one agent in such a way that proper supervision may be exercised over delivery of shipments, the bond may cover all such stations. When shipments approaching in value the amount of the bond have been delivered, additional security shall be required.

3. Blanket bonds, as described in paragraph 2, may be executed by shippers, under the terms of which carriers will accept written or telegraphic orders to deliver "order" shipments. When such bonds are arranged, initial carriers will notify all interested lines, and show reference to such bonds on each waybill.

4. When "Order notify" cars are diverted in transit, and the consignee becomes the shipper, the provisions of the circular relating to the shipper and the initial carrier shall apply to the giver of the reconsigning order and the carrier to which such order is given.

5. The fourth paragraph of P. S. & A. Circular No. 20 has been modified to read as follows:

"Shipments consigned to shipper on 'straight bill of lading—original; not negotiable'—shall be delivered only upon surrender of consignor's written or telegraphic order for such freight to the agent of the delivering carrier and the payment of freight and other charges."

The requirement that bond shall be filed is eliminated.

6. Under proper conditions "Order notify" shipments may be placed in warehouses operated by responsible companies, without bonds, subject to release by the railroad agent, when bill of lading has been surrendered.

7. A form of bond for use of shippers was attached to P. S. & A. Circular No. 20. With slight modifications, this bond may be used by consignees, or the forms heretofore in use on individual railroads, with necessary changes indicating W. G. McAdoo, Director General of Railroads, to be the obligee, may be made available.

8. All bonds must be satisfactory to the Federal treasurer of the carrier, and the provision, "individual or corporate," applies with equal force to all. It is not expected that Federal treasurers will personally act upon each bond, but that agents or others will be authorized to act for them within certain limits, and under specific instructions.

C. A. PROUTY, *Director.*

American Exports in July Increase While Imports Show Slight Decline

The Department of Commerce issues the following:

Exports of American goods increased slightly in July as compared with June, while imports fell off slightly, according to an announcement by the Bureau of Foreign and Domestic Commerce, Department of Commerce.

Exports increased from $485,000,000 in June to $508,000,000 in July. For the seven months ended with July the foreign sales totaled $3,483,000,000 as compared with $3,661,000,000 for the corresponding period of the previous year.

July imports were $241,000,000, whereas in June they reached a total of $260,000,000. For the first seven months of the year the imports were valued at $1,787,000,000, as against $1,779,000,000 for a similar period in 1917.

The gold movement in 1918 has been of much less importance than in 1917. For the first seven months of this year $52,000,000 represents the imports of gold; in 1917 the imports for the seven-months' period was $505,000,000. Exports amounted to $29,000,000 this year, as against $272,000,000 last year.

The silver movement has increased in importance, the total imports being $40,000,000 for the first seven months of this year, as against $22,000,000 last year, and exports reaching a total of $135,000,000 as compared with $44,000,000 for the first seven months of last year.

THE WEEKLY WEATHER FORECAST

The Weather Bureau has issued the following forecast for the period September 2 to 7, inclusive:

North and Middle Atlantic States.—North portion, showers Tuesday or Wednesday and again at the end of the week; temperature above normal. South portion, showers at the end of the week; temperature generally above normal.

South Atlantic and east Gulf States.—Showers about middle of the week; otherwise generally fair, with normal temperature.

West Gulf States.—Scattered showers Monday; generally fair, with normal temperature thereafter, except a shower period at middle of week.

Ohio Valley and Tennessee.—Fair, with about normal temperature, except probably a shower period in the middle of the week.

Region of Great Lakes.—Showers Monday or Tuesday and again at the end of the week; temperature generally above the normal.

Upper Mississippi and lower Missouri Valleys.—Local showers in north portion Monday and probably Thursday; in south portion Tuesday and Saturday.

Northern Rocky Mountain and plateau region.—Local showers Monday and Thursday; temperature above normal most of the week.

Southern Rocky Mountain and plateau region.—Showers in [illegible] Tuesday or Wednesday; generally fair thereafter; temperature above normal.

Pacific States.—Fair; continued warm first of week; probable showers and cooler middle of week in Washington and Oregon; fair, with moderate temperature remainder of week.

RULES GOVERNING ACCOUNTS MADE BY RAILROAD AGENTS

The United States Railroad Administration issues the following:

P. S. & A. CIRCULAR No. 26.

WASHINGTON, D. C.,
August 15, 1918.

Examination of the returns made by accounting officers in response to P. S. & A. Circular No. 18, dated July 15, 1918, indicates that some of them have misconstrued the provisions of General Order No. 17, rules and regulations which shall govern the recording of and accounting for all transactions arising under Federal control, and have carried from the corporate books to the Federal books balances in accounts as of December 31, 1917, other than those authorized in the general order. The authorized accounts are:

"Cash,"
"Demand loans and deposits,"
"Time drafts and deposits,"
covered by paragraph 2 of the order;
"Net balances receivable from agents and conductors,"
covered by paragraph 3; and
"Materials and supplies,"
covered by paragraph 4.

Although paragraph 8 of the order specifically instructs that no assets and liabilities other than those above referred to, and such others as may be authorized in accordance with paragraph 5 of the order, shall be transferred to the Federal books, some of the trial balances received indicate that accounting officers have carried to the Federal books road and equipment accounts, suspense or clearing accounts, and other deferred debit and credit items appearing on the corporate books as of December 31, 1917.

Chief accounting officers should immediately have examined the journal entries made on the Federal books which involve the transfer of balances of December 31, 1917, for the purpose of ascertaining whether they have strictly complied with the requirements of General Order No. 17 and bulletins interpretative thereof. In the event that their books disclose amounts representing balances as of December 31, 1917, the transfer of which was not authorized, they should immediately make the necessary entries in their accounts expunging such unauthorized items from the Federal books.

Should any difficulty be encountered in disposing of items arising out of operations subsequent to December 31, 1917, affecting accounts not transferred, application for the procedure to be observed in disposing of such items should be made to the undersigned.

C. A. PROUTY, *Director.*

Food Administration Grain Corporation Flour Purchasing Plan is Announced

MILLS ASKED TO BID

Grades Wanted and Other Conditions of Sales Are Given in Detail.

The Food Administration Grain Corporation has issued the following:

To all flour mills and other interested sellers of wheat flour:

The Food Administration Grain Corporation will purchase flour for export shipment for the requirements of allied countries, the Army, Navy, Marine Corps, Commission for Relief in Belgium, Red Cross, Y. M. C. A., and similar agencies. Purchases will be made weekly, excepting for shipment to Pacific Coast terminals, where special arrangements prevail. Bids will be received at New York office on Tuesday of each week up to 12 o'clock noon commencing September 3, 1918, for acceptance within 48 hours from time specified subject to the following specifications and conditions:

NOTE.—If legal holiday falls on Tuesday, purchases will be made the following day. Bids received after 12 o'clock may be held over and considered following week if so specified.

Character of flour: One hundred per cent straight, unbleached, milled in accordance with United States Food Administration regulations.

Grades: Spring or hard wheat straight, must contain at least 75 per cent hard wheat; soft wheat straight; blended wheat straight, eastern mills only, may contain not more than 50 per cent of soft wheat; durum wheat straight; hard Pacific Coast straight, must be milled from at least 85 per cent hard wheats; soft Pacific Coast straight.

Quantity: Mills may offer as much flour as can be supplied within time of shipment specified. The Grain Corporation reserves the right to accept all or a part of amounts offered. Offers for less than minimum carload (310 barrels) will not be considered.

Army and Navy requisitions: Right is also reserved to apply flour purchased against Army and Navy requisitions. If special packing and sack specifications necessitate an advance in price, proper adjustment will be made.

Quality basis: Successful bidders will be asked to submit type samples representing flour to be shipped on contracts received, and deliveries against such contracts must be fully up to such samples. Flour shipments will be inspected at seaboard and samples of flour drawn from such shipments by authorized port agents must be accepted by the sellers as basis for adjustment of any quality claims.

Branding: Unless otherwise specified, full mill brand, showing firm name, address, and weight marks, and special letters. Tagged sacks not acceptable.

Sacks: New 140-pound 10½-ounce jute or 140-pound 40-inch 2½-yard cotton sheeting or 140's osnaburgs of 40-inch 8-ounce goods.

NOTE.—See special sack specifications following for Army and Navy flour shipments.

Price: Per barrel in above sacks f. o. b. cars seaboard "for export." Quote price basis for seaport reached at lowest rate.

NOTE.—Mills west of Pittsburgh and Buffalo quoting Atlantic seaboard prices are requested to base quotations on Baltimore rate.

Location of mill: Name location of mill from which shipment will be made if not the same as office address.

Routing: Name railroad or railroads over which you can ship. Also state if "milling in transit" is to be applied.

Terms: Demand draft on Food Administration Grain Corporation.

Shipment: Thirty days from date of acceptance of offer. Shipping directions will be forwarded as soon as possible after acceptance of offer.

Manner of submitting offers: Offers may be submitted by mail or wire. The following form of telegram is suggested:

Grain Corporation, Bausman, New York. Offer ------ barrels. (Brand) (grade) (price) jute (basis) (time shipment) according to your specifications and conditions. (Name of initial carrier.)

NOTE.—May use Robinson code.

Army and Navy Flour Requisitions.

Army expeditionary sack specifications permit the shipment of part of the flour in 140-pound 10½-ounce jute sacks, and part in bags of the following specifications, either double or single. Three choices are given the shipper:

Single Osnaburg bag to carry 100 pounds net of flour from either 7-ounce 30-inch Osnaburg cut 32 by 52, or 8.40-ounce 36-inch Osnaburg cut 36 by 43, or

Single jute bag to carry 100 pounds net of flour from 12-ounce jute (12-ounce to 40-inch) 36-inch goods cut 36 by 44, or

Double bag to carry 100 pounds net of flour. Inner bag to be made from 4-yard cotton sheeting cut to 36 by 43. Outer bag 10-ounce jute (10-ounce to 40-inch) cut 36 by 44.

Navy specifications require that flour be packed in 100-pound double sacks to carry 100 pounds net of flour. Inner bag to be made from 4-yard cotton sheeting cut 36 by 43. Outer bag 10-ounce jute (10-ounce to 40-inch) cut 36 by 44.

Army camps and cantonment sack specifications require that flour be packed in single bag to carry 100 pounds net flour made from 3½-yard cotton sheeting cut 36 by 43.

NOTE.—The above weights of material are minimum weights. No lighter bags are acceptable under these specifications.

If for any reason a mill receiving an Army expeditionary contract calling for double bags is not in a position to supply them, we can undoubtedly arrange for the packing of the flour in single bags and the placing of that proportion of the requisition requiring double bags with some mill in a position to handle the requisition.

FOOD ADMINISTRATION

WAR DEPARTMENT LEASES BIG NEW YORK BUILDING

The War Department authorizes the following statement:

The War Department has leased for the duration of the war the "Printing Crafts Building," at 461 Eighth Avenue, New York City. As far as possible all War Department branch offices in New York will be housed in this building.

Twenty-Three Stories High.

The Printing Crafts Building is 23 stories high and will make available 550,000 square feet of office space. It is now principally occupied by printers and allied interests. Consent of the tenants to relinquish their space was given by a committee representing them in the negotiation. They have agreed to place their space at the disposal of the department with the least possible delay.

The amount of the lease will be determined by the War Department Board of Appraisers, who will also determine the damages to be allowed the tenants because of giving up their leaseholds.

Saving to Government.

It is estimated by the real estate section of the General Staff that at least $47,000 will be saved in the first year of the Government's occupany of the building over the amount now paid for floor space by the departments to be moved into the Printing Crafts Building. After the first year the annual saving to the Government is estimated at $237,000.

The Printing Crafts Building is centrally located at Eighth Avenue and Thirty-fourth Street, being within a short distance of the Grand Central Station and the Pennsylvania Station and near the Seventh Avenue subway and the Ninth Avenue elevated line. It is owned by the 461-Eighth Avenue Co. (Inc.), the principal stockholders being John and Edward Larkin.

Negotiations Quickly Completed.

The negotiations for taking over the building were completed within 20 days from the time the company was first approached by Government representatives. The General Staff had the active cooperation not only of the owners of the building, but of hundreds of tenants.

FURNITURE RATES BETWEEN POINTS WITHIN OKLAHOMA

The United States Railroad Administration issues the following:

Director General McAdoo has authorized publication of rates on furniture, carloads, between points within the State of Oklahoma on basis of the rates established by the Interstate Commerce Commission in the Shreveport case between Louisana and Texas, and which now apply also between points in the State of Texas.

The only rates on furniture in carloads now applying between points in the State of Oklahoma are the class rates, and these new rates will reduce rates in Oklahoma to the level of the rates applying in the adjoining States.

When you buy war-savings stamps you do not give—you receive.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

SECTION NO. 2, AUGUST 30, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	49
Missing in action	13
Wounded severely	34
Died from accident and other causes	1
Died of disease	1
Wounded (degree undetermined)	8
Died from wounds	7
Total	113

Killed in Action.

CAPTAINS.

James Cook. Mrs. Leone Mae Cook, 2504 North Fifteenth Street, Waco, Tex.

Richard Frederick Smith. Mrs. Catherine Bridget Smith, 110 Francis Court, Jackson, Mich.

LIEUTENANT.

Louis Seif. Fred Seif, sr., Neillsville, Wis.

SERGEANT.

Carlton F. Jewell. Mrs. Della Jewell, 591 Lycaste Avenue, Detroit, Mich.

CORPORALS.

Alfred Besnet. Mrs. Lillian Dolsen, 101 Longton Street, Bay City, Mich.

Thomas W. Brittain. Thomas J. Brittain, Island Falls, Me.

Harry T. Curwen. Thomas Curwen, St. Croix Falls, Wis.

Fred R. Dunn. Mrs. Charles Dunn, Charleston, Ill.

Hoyt Milton Hollonshed. Mrs. Frances Hollonshed, 613 East Farming Street, Marion, Ohio.

Audie John Johnson. Victor Johnson, Box 164, East Tawas, Mich.

John F. Johnston. John B. Johnston, Saltsburg, Pa.

Robert F. Spencer. Mrs. Anna Gutcher, 7 South Barnesdale Avenue, Hamilton, Ontario, Canada.

MECHANIC.

Harlo Menzie. Will W. Menzie, Larwill, Ind.

PRIVATES.

Harry Bennetts. Mrs. Emily Bennetts, 8 Duke Street, St. Austell, Cornwall, England.

Bert Budd. Clark Budd, R. F. D. No. 1, Justus, Ohio.

Edd Carrico. Mrs. Emily Carrico, Davis City, Iowa.

Jack Castelloe. Mrs. Jessie Castelloe, Prescott, Wis.

Soloman Cohen. Mrs. Sarah Cohen, 23 Adams Street, New Bedford, Mass.

Jesus M. Cordova. Jose Ramon Cordova, Cortez, Colo.

One-half dozen volley balls, good quality.
One-half dozen indoor baseballs, good quality.
4 tennis rackets, medium quality, 13-ounce weight.
2 whistles.
Bidders will specify in their catalogues articles on which they bid.
Sizes will be furnished the successful bidder.

Important Notice to U. S. Purchasing Agents

Purchasing agents for the various Government departments and the special United States war administrations are earnestly reminded to send to the Official U. S. Bulletin at the earliest possible moment all copy for bids to be advertised and purchase awards, in order that these may be promptly and correctly printed in the Bulletin in accordance with the orders of the Secretary of War and other heads of departments.

The task of preparing this copy for publication, with a view to absolute correctness and continuity, is a considerable one, but, with the cooperation of the purchasing agencies, should result in a great help, not only to the departments themselves, but to bidders throughout the country, all of whom, through the medium of the Official Bulletin, are desirous of keeping informed of the Government's needs.

Press Feeders Wanted

We wish seven press feeders and would like to have returned soldiers; pay $3 per day.

Department of the Interior.

LIST OF CASUALTIES OVERSEAS

RED CROSS HOME SERVICE

Information for Soldiers' and Sailors' Families, Issued by Department of Civilian Relief.

Liberty Bonds subscribed for by a soldier; refund in case of discharge.

If the soldier was discharged from the service before completing his Liberty bond payments he or anyone on his behalf should write as follows to the Deposits and Allotments Branch, Central Disbursing Division, Office of the Quartermaster General, to secure a refund:

Pvt. John Howard Smith, Serial No. 85634, formerly of Company L, 125th Field Artillery, age 26 years. Entered service July 20, 1917.

DEPOSITS AND ALLOTMENTS BRANCH, CENTRAL DISBURSING DIVISION, OFFICE OF THE QUARTERMASTER GENERAL, UNITED STATES ARMY,
Washington, D. C.

GENTLEMEN: On October 12, 1917, at Camp Meade, Md., I, the above-named enlisted man, subscribed for two bonds of $50 each of the second Liberty loan, through the Federal Reserve Bank of New York City, each to be paid for in 10 instalments of $5, to be deducted monthly from my pay. I was then a private in Company E, 122d Field Artillery. I was discharged from the service on April 12, 1918, before completing the payments on these bonds. I hereby request that the allotments deducted from my pay for the payment of these bonds be refunded to me.

Very truly, yours,
JOHN HOWARD SMITH,
132 Willow Street, Rockford, Ill.

Liberty Bonds subscribed for by member of Navy and not delivered.

If a member of the Navy, including the Marine Corps or Coast Guard, subscribed for Liberty Bonds through the Navy Department, and their delivery is unreasonably delayed, he or anyone on his behalf should write to the Navy Liberty Loan officer. Most members of the Navy who subscribed for the first and second Liberty Loans did so through some local bank. Hence all matters regarding delayed deliveries, refunds on account of death or discharge, etc., should be taken up with such institution or with the person through whom the subscription was made, instead of through the Navy Liberty Loan officer, as in the case of bonds of the third or subsequent loans subscribed for through the Navy Department. The letter to the Navy Liberty Loan officer should be as follows:

[Seaman (second class) John Howard Smith, U. S. S. *Winslow*. Age 26 years. Entered service October 20, 1917.]

NAVY LIBERTY LOAN OFFICER,
NAVY DEPARTMENT,
Washington, D. C.

DEAR SIR: On April 30, 1918, at Mare Island, Cal., the above-named enlisted man subscribed for two bonds of $50 each of the Third Liberty Loan, through the Federal Reserve Bank of New York City, each to be paid for in 10 installments of $5, to be deducted monthly from his pay. He designated me, his sister, Kate Higgins Smith, of 132 Willow Street, Rockford, Ill., as the person to whom such bonds should be sent. These bonds have not been received, although it is now 10 weeks since the payment of the last installment thereon. Please inform me when they will be delivered to me.

Very truly, yours,
KATE HIGGINS SMITH,
132 Willow Street, Rockford, Ill.

Liberty Bonds subscribed for by member of Navy; refund in case of death.

If a member of the Navy died before completing payments on Liberty bonds for which he had subscribed through the Navy Department, his next of kin (if he died intestate) or the appropriate legatee (if he left a will) should write the following letter to the Navy Liberty Loan officer, Navy Department, for a refund of these payments:

[Second Class Seaman John Howard Smith, formerly of U. S. S. *Winslow*. Age, 26 years. Entered service July 30, 1917.]

NAVY LIBERTY LOAN OFFICER,
NAVY DEPARTMENT,
Washington, D. C.

DEAR SIR: On April 30, 1918, at Mare Island, Cal., the above-named enlisted man subscribed for two bonds of $50 each of the third Liberty loan, through the Federal Reserve Bank of New York City, each to be paid for in 10 installments of $5, to be deducted monthly from his pay. He died on or about August 8, 1918, before completing the payments on his bonds. I am his sister. He was unmarried and his father and mother are dead and he had no other sisters or brothers. I am informed that he left no will. As his nearest of kin, I request that the allotments deducted from his pay for the payment of the bonds be refunded to me.

Very truly, yours,
KATE HIGGINS SMITH,
132 Willow Street, Rockford, Ill.

Liberty Bonds subscribed for by soldier; refund in case of death.

If a soldier subscribed for a Liberty bond and died before completing the payments thereon, his next of kin (if he died intestate) or the appopriate legatee (if he left a will) should write the following letter to the Auditor for the War Department to obtain a refund of these payments:

[Pvt. John Howard Smith, Serial No. 85634, formerly of Company L, 125th Infantry, American Expeditionary Forces. Age, 26 years. Entered service July 30, 1917.]

AUDITOR FOR THE WAR DEPARTMENT,
Washington, D. C.

DEAR SIR: On October 12, 1917, at Camp Meade, Md., the above-named enlisted man subscribed for two bonds of $50 each of the second Liberty loan, through the Federal reserve bank of New York City, each to be paid for in 10 installments of $5, to be deducted monthly from his pay. He died on or about April 8, 1918, before completing the payments on his bonds. I am his sister. He was unmarried, and his father and mother are dead, and he had no other sisters or brothers. I am informed that he left no will. As his nearest of kin I request that the allotments deducted from his pay for the payment of the bonds be refunded to me.

Very truly, yours,
KATE HIGGINS SMITH,
132 Willow Street, Rockford, Ill.

The relatives will not be permitted to complete the payments and obtain the bonds, but the payments which have been made will be refunded. These directions apply only to the customary subscriptions recorded through the Federal reserve bank of New York City. If the soldier subscribed through some local bank, the relative should take the matter up with that institution.

Arrears of pay, etc.; in case of death.

If an enlisted man dies and his family wishes to collect the arrears of pay due him and also the proceeds from the sale of his personal effects, his next of kin (if he died intestate) or the appropriate legatee (if he left a will) should write the following letter to the Auditor for the War Department, if the man was in the Army, or to the Auditor for the Navy Department, if the man was in the Navy, Marine Corps, or Coast Guard:

[Private John Howard Smith, Serial No. 85.634, Company L. One hundred and twenty-fifth Infantry, American Expeditionary Force, age 26 years. Entered service October 20, 1917.]

AUDITOR FOR THE WAR DEPARTMENT,[1]
Washington, D. C.

DEAR SIR: The above enlisted man died on or about June 12, 1918. I desire to apply for all arrears of pay and allowances due him from the United States. My relationship to him is that of widow (if mother or father; state whether the other parent is living). I am his next of kin and I am informed that he left no will. Please send me the necessary application blank.

Very truly, yours,
ELIZABETH BROWN SMITH
(MRS. JOHN HOWARD SMITH),
132 Willow Street, Rockford, Ill.

[1] For address and description, if man is in the Navy, see next paragraph.

Arrears of pay, etc.; in case of discharge.

The Auditor for the War or Navy Department may also be addressed by any such enlisted man who has been discharged from the service who has arrears of pay due him. Ordinarily he will be paid in full upon discharge. He should not write to the auditor unless he has good reason to believe he has been underpaid. His letter should state all the necessary facts, as there is no prescribed

(Continued on page 16.)

Health Conditions at Army Camps Within the United States as Reported to the Surgeon General for Week Ending August 31

The War Department authorizes the following:

Herewith is a detailed report on the health conditions of troops in the United States, including Porto Rico, for the week ending August 23. The report of the division of sanitation to the Surgeon General of the Army for that week is as follows:

1. General.—The admission rate shows a considerable decrease from last week, while the noneffective rate remains practically the same. The death rate from disease (2.96) continues low, but is slightly higher than last week (2.71). One-half the annual death rate from disease (1.35) is due to pneumonia.

There is a slight increase in the number of new cases of measles and pneumonia reported, and a decrease in the number of new cases of malaria. There were 6,063 cases of venereal diseases reported this week as compared with 7,230 last week. Eighty-one and eight-tenths per cent of the venereal diseases this week is reported to have been contracted before arrival of the men at the camp. There were 352 cases of pneumonia reported this week as compared with 335 last week, an annual rate per 1,000 of 11.60 this week against 10.8 last week. There were 1,746 cases of pneumonia treated during the week with 41 deaths, a mortality of 2.34% among those under treatment. The last report from the American Expeditionary Force, dated August 15, shows there were 683 cases of pneumonia treated during the week with only 8 deaths, a mortality of 1.17 per cent among those under treatment. The annual death rate from disease for the American Expeditionary Force for the week ending August 15, was 0.49, and for the week ending August 8, was 0.38. These rates are considered remarkably low.

2. Divisional camps.—The death rate from disease from camps of this group continues low (2.53), but is higher than last week (1.61). Camp Cody continues to show the lowest sick rates of camps of this group—admission, 435.7; noneffective, 16.9. There were 136 new cases of measles reported from all camps of this group as compared with 115 last week. Camp Sheridan leads with 29 new cases, with Camps Shelby 27, Greenleaf 25, Sevier 20, and McClellan 14, the only other camps reporting more than 8 cases. There was a considerable increase in the number of new cases of pneumonia reported from camps of this group, 142 against 45. Camp Wheeler reports 51 new cases this week against 5 last week. Camp MacArthur reports 18, Shelby 13, Sheridan 11, Beauregard and Cody each 10 new cases. No other camp reports more than 8 new cases. There were 65 new cases of malaria reported this week as compared with 54 last week; Camps MacArthur and Shelby reporting 18. No other camp reported more than 6 new cases.

3. Cantonments.—Camps Grant and Funston, each with a command of 50,000, continue to show the lowest sick rates of camps of this group, Camp Grant having an admission rate of 290.9 and a noneffective rate of 12.3, and Camp Funston an admission rate of 556.9 and a noneffective rate of 11.1. Camp Dodge has the highest sick rates of all camps of this group. There was a decrease in the number of new cases of pneumonia reported from camps of this group—173 this week, against 251 last week. Camp Gordon continues to report the largest number of new cases—47 this week as compared with 77 last week. Camp Travis reports 19 new cases this week, Pike 17, Devens 16, Taylor 15, Dodge 10, and Funston 8. No other camp reports more than 6 new cases. There was a slight increase in the number of new cases of measles reported from camps of this group—511 this week as compared with 495 last week. Camp Pike reports the largest number of new cases—126 this week, against 120 last week. Camp Taylor reports 66 new cases: Gordon 62, Lee 56, Las Casas 43, and Johnston 26. No other camp reports more than 21 new cases. There is a decrease in the number of new cases of malaria reported from camps of this group—46 this week as compared with 83 last week.

4 Departmental and other troops.—The sick rates from stations of this group continue low. While there is a slight increase in the number of new cases of measles reported, there is a slight decrease in the number of new cases of pneumonia and malaria. There is no unusual prevalence of disease at any of these stations.

[1] First figure in this column for each camp gives the total number of new cases during the week; the figure in parenthesis is the number of those cases which were contracted during the week by men in that camp's command at the time of contracting the disease—the difference, therefore, is the number of cases first reported during the week which were either (a) cases brought from civilian life by recruits, or (b) cases brought by men transferred from other camps to the camp under which the case is reported, or (c) old cases which have previously evaded detection. An interrogation point signifies that the report from that camp did not segregate cases contracted at the camp from other cases.

NOTE.—One new case of typhoid fever also reported from Camp Stuart, 2 from Wadsworth, 1 from Devens, 1 from Johnston, 3 from Las Casas, 1 from Travis, and 2 from Southeastern Department.

CAUSES OF DEATHS, BY CAMPS.

Camp or department.	Number of deaths.	Causes.

PURCHASES AND CONTRACTS TO BE MADE BY THE HARDWARE AND METALS DIVISION OF U. S. ARMY QUARTERMASTER CORPS

The following is a list of purchases and contracts to be made by the hardware and metal division of the office of the Quartermaster General of the Army, 1800 Virginia Avenue NW. The executive officers are:

Wm. A. Graham, chief.

Maj. H. J. Arnold, assistant to chief on outside relations (liaison officer).

Maj. H. P. Hill, assistant to chief on inside relations.

Procurement branch No. 1 (metals and heavy hardware), George E. Welles, chief.

Procurement branch No. 2 (small tools and chests), Wm. F. Fusting, chief.

Procurement branch No. 3 (camp and kitchen equipment), Maj. W. J. Peck, chief.

Procurement branch No. 4 (office equipment and sundries), G. H. Richards, chief.

Contract and purchase branch, Maj. Earl A. Darr, chief.

Production and inspection branch, Capt. Joseph Odlin, chief.

Administrative branch, T. M. Lynch, chief.

Unless otherwise stipulated, formal contract will be made.

Quotations to be submitted on or before dates specified below. Sealed bids not required unless so stipulated.

PROCUREMENT BRANCH NO. 2, SECTION 2-A.

Buyer, Mr. J. D. Rennick, Room 106. August 31, 1918.

Rules, steel, 3-foot folding, similar Starrett, No. 160	5,000
Scrapers, curved, bearing 3 in set, similar Kraeufer's No. 1202 ---sets	5,000
Oilstones, carborundum, 6 by 2 by 1 inch	5,000

PROCUREMENT BRANCH NO. 2, SECTION 2-A.

Buyer Mr. J. D. Rennick, Room 106. September 3, 1918.

Vises, hand, 5-inch	2,640

PROCUREMENT BRANCH NO. 2, SECTION 2-A.

Buyer, Mr. J. D. Rennick, Room 106. September 5, 1918.

Calipers, inside micrometer, with case, similar Starrett No. 128, 6-inch	300
Calipers, inside micrometer, handle, with case, similar Starrett No. 124, Set ---sets	300
Files, second cut, 12-inch	17,886
Calipers, inside:	
3 to 5 inch	2,110
6 to 7 inch	2,110
8 to 9 inch	2,110
Calipers, outside:	
3 to 5 inch	2,110
6 to 7 inch	2,110
8 to 9 inch	2,110
10-inch	2,110

PROCUREMENT BRANCH NO. 2, SECTION 2-B.

Buyer, Capt. Chas. B. Price, Room 428. September 5, 1918.

Machines, riveting, including stock of rivets (each)	2,110

PROCUREMENT BRANCH NO. 3, SECTION 3-B.

Buyer, Capt. J. G. Williams, Room 114. September 6, 1918.

blank in this case. He should be particular to state in detail the reasons which indicate that he has been underpaid. Write as follows:

[Second Class Seaman John Howard Smith, formerly of naval training station, Newport, R. I. Age, 26 years. Entered service Oct. 20, 1917.]

AUDITOR FOR THE NAVY DEPARTMENT,
Washington, D. C.

DEAR SIR: On April 15, 1918, I was discharged from the service. I believe that there are arrears of pay or allowance due me for the following reasons (give reasons in detail and describe what the pay and allowance are for, and for what period). I, therefore, hereby make application for such moneys due me from the United States.

Very truly, yours,
JOHN HOWARD SMITH,
132 Willow Street, Rockford, Ill.

Official U. S. Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, TUESDAY, SEPTEMBER 3, 1918. No. 402

The President's Proclamation Appointing Sept. 12 as the Day for Registration of All Male Citizens Between the Ages of 18 and 45

GOVERNMENT PLANS LAID TO ROUND UP "SLACKERS" WHO ATTEMPT TO EVADE THEIR DUTY TO REGISTER

USING MANY AGENCIES

Those Who Would Disobey the President's Proclamation Will Find It Next to Impossible to Escape Penalties — Delinquents of Former Drafts Pursued Even to Foreign Lands.

The War Department authorizes the following from the office of the Provost Marshal General:

Increased facilities are being organized by the Government to round up the slackers who fail to register under the act extending the age limits of the selective draft. By registration day there will be agencies in every part of the country to point the finger of accusation at every man of draft age who attempts to evade registration.

Under the terms of the act "any person who shall wilfully fail or refuse to present himself for registration or to submit thereto as herein provided shall be guilty of a misdemeanor and shall, upon conviction in a district court of the United States having jurisdiction thereof, be punished by imprisonment for not more than one year and shall thereupon be duly registered."

Law Hard to Evade.

Already, with the various and innumerable factors now at the disposal of the Government, the ways of the slacker under the original draft law have become increasingly hard. It is estimated that between 20,000 and 25,000 have been rounded up since June 5, 1917. The names of others not yet apprehended, because of absence from the country, are in possession of the

CZECHO-SLOVAKS RECOGNIZED BY UNITED STATES GOVERNMENT AS IN WAR ON CENTRAL POWERS

ANNOUNCEMENT BY MR. LANSING

Czecho-Slovak National Council Recognized as De Facto Government Clothed With Proper Authority To Direct People's Affairs.

The Secretary of State makes the following announcement:

The Czecho-Slovak peoples having taken up arms against the German and Austro-Hungarian Empires, and having placed organized armies in the field which are waging war against those empires under officers of their own nationality and in accordance with the rules and practices of civilized nations; and

The Czecho-Slovaks having, in prosecution of their independent purposes in the present war, confided supreme political authority to the Czecho-Slovak National Council,

The Government of the United States recognizes that a state of belligerency exists between the Czecho-Slovaks thus organized and the German and Austro-Hungarian Empires.

It also recognizes the Czecho-Slovak National Council as a de facto belligerent government, clothed with proper authority to direct the military and political affairs of the Czecho-Slovaks.

The Government of the United States further declares that it is prepared to enter formally into relations with the de facto government thus recognized for the purpose of prosecuting the war against the common enemy, the empires of Germany and Austria-Hungary.

FOUR MINUTE MEN DIRECTORS.

Three new territorial directors of Four Minute Men have recently been appointed through the cooperation of the operations division of the Navy Department. They are as follows: Commander John M. Poyer, governor of American Samoa, naval station, Tutuila, Samoa; Capt. Roy C. Smith, governor of Guam, Guam, M. I.; Carson Taylor, Manila Daily Bulletin, Manila, Philippine Islands.

GOVERNORS OF STATES CALLED ON TO PERFORM DUTIES UNDER THE LAW

LOCAL BOARDS NOTIFIED

Mayors of Cities, County Clerks, and Other Officials Required to Have Due Notices Posted — List of Exemptions Cited — Only a Portion of Those Registering to Bear Arms.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

Whereas Congress has enacted and the President has, on the thirty-first day of August, one thousand nine hundred and eighteen, approved an act amending the act approved May eighteenth, one thousand nine hundred and seventeen;

And whereas said act, as amended, contains the following provisions:

"SEC. 5. That all male persons between the ages of eighteen and forty-five, both inclusive, shall be subject to registration in accordance with regulations to be prescribed by the President, and upon proclamation by the President or other public notice given by him or by his direction stating the time or times and place or places of any such registration, it shall be the duty of all persons of the designated ages, except officers and enlisted men of the Regular Army; officers and enlisted men of the National Guard while in the service of the United States; officers of the Officers' Reserve Corps and enlisted men in the enlisted Reserve Corps while in the service of the United States; officers and enlisted men of the Navy and Marine Corps; officers and enlisted and enrolled men of the Naval Reserve Force and Marine Corps Reserve while in the service of the United States; officers commissioned in the Army of the

President's Registration Day Proclamation

United States under the provisions of this act; persons who, prior to any day set for registration by the President hereunder, have registered under the terms of this act or under the terms of the resolution entitled "Joint resolution providing for the registration for military service of male persons citizens of the United States and all male persons residing in the United States who have, since the fifth day of June nineteen hundred and seventeen, and on or before the day set for the registration by proclamation by the President attained the age of twenty-one years, in accordance with such rules and regulations as the President may prescribe under the terms of the act approved May [illegible] nineteen hundred and seventeen, entitled "An act to authorize the President to increase temporarily the Military Establishment of the United States," approved May [illegible], nineteen hundred and eighteen, whether called for service or not, and diplomatic representatives, technical attaches of foreign embassies and legations, consuls general, consuls, vice consuls, and consular agents of foreign countries, residing in the United States, who are not citizens of the United States, to present themselves for and submit to registration under the provisions of this act; and every such person shall be deemed to have notice of the requirements of this act upon the publication of any such proclamation or any such other public notice as aforesaid given by the President or by his direction; and any person who shall willfully fail or refuse to present himself for registration or to submit thereto as herein provided shall be guilty of a misdemeanor and shall, upon conviction in a district court of the United States having jurisdiction thereof, be punished by imprisonment for not more than one year and shall thereupon be duly registered: *Provided*, That in the call of the docket precedence shall be given, in courts trying the same, to the trial of criminal proceedings under this act: *Provided further*, That persons shall be subject to registration as herein provided who shall have attained their eighteenth birthday and who shall not have attained their forty-sixth birthday on or before the day set for the registration in any such proclamation by the President or any such other public notice given by him or by his direction, and all persons so registered shall be and remain subject to draft into the forces hereby authorized unless exempted or excused therefrom as in this act provided: *Provided further*, That the President may at such intervals as he may desire from time to time require all male persons who have attained the age of eighteen years since the last preceding date of registration and on or before the next date set for registration by proclamation by the President, except such persons as are exempt from registration hereunder, to register in the same manner and subject to the same requirements and liabilities as those previously registered under the terms hereof: *And provided further*, That in the case of temporary absence from actual place of legal residence of any person liable to registration as provided herein, such registration may be made by mail under regulations to be prescribed by the President. * * *

"SEC. 6. That the President is hereby authorized to utilize the service of any or all departments and any or all officers or agents of the United States and of the several States, Territories, and the District of Columbia, and subdivisions thereof, in the execution of this act, and all officers and agents of the United States and of the several States, Territories, and subdivisions thereof, and of the District of Columbia, and all persons designated or appointed under regulations prescribed by the President, whether such appointments are made by the President himself or by the governor or other officer of any State or Territory, to perform any duty in the execution of this act are hereby required to perform such duty as the President shall order or direct, and all such officers and agents and persons so designated or appointed shall hereby have full authority for all acts done by them in the execution of this act by the direction of the President. Correspondence in the execution of this act may be carried in penalty envelopes bearing the frank of the War Department. Any person charged as herein provided with the duty of carrying into effect any of the provisions of this act or the regulations made or directions given thereunder who shall fail or neglect to perform such duty, and any person charged with such duty or having and exercising any authority under said act, regulations, or directions who shall knowingly make or be a party to the making of any false or incorrect registration, physical examination, exemption, enlistment, enrollment, or muster; and any person who shall make or be a party to the making of any false statement or certificate as to the fitness or liability of himself or any other person for service under the provisions of this act, or regulations made by the President thereunder, or otherwise evades or aids another to evade the requirements of this act or of said regulations, or who, in any manner, shall fail or neglect fully to perform any duty required of him in the execution of this act, shall, if not subject to military law, be guilty of a misdemeanor, and upon conviction in the district court of the United States having jurisdiction thereof, be punished by imprisonment for not more than one year, or, if subject to military law, shall be tried by court-martial and suffer such punishment as a court-martial may direct."

Now, therefore, I, Woodrow Wilson, President of the United States, do call upon the governor of each of the several States and Territories, the Board of Commissioners of the District of Columbia, and all members of local boards and agents thereof appointed under the provisions of said act of Congress approved May eighteenth, one thousand nine hundred and seventeen, and all officers and agents of the several States and Territories, of the District of Columbia, and of the counties and municipalities therein, to perform certain duties in the execution of the foregoing law, which duties will be communicated to them directly in regulations of even date herewith.

And I do further proclaim and give notice to every person subject to registration in the several States and in the District of Columbia, in accordance with the above law, that the time and place of such registration shall be between seven a. m. and nine p. m. on Thursday, the twelfth day of September, one thousand nine hundred and eighteen, at a registration place in the precinct wherein he then has his permanent home, or at such other place as shall be designated by public notice by the local board having jurisdiction of the area wherein he then has his permanent home. All male persons in the United States who shall have attained their eighteenth birthday and who shall not have attained their forty-sixth birthday on or before Thursday, the twelfth day of September, one thousand nine hundred and eighteen, the day therein named for registration, are required to register: *Provided, however*, That the following persons are hereby exempted from registration to wit: Persons who, prior to the day herein set for registration, have registered under the terms of the act approved May 18, 1917, or under the terms of the public resolution of Congress approved May 20, 1918, whether called for service or not; officers and enlisted men of the Regular Army; officers commissioned in the Army of the United States, and men of the forces drafted, under the provisions of the act approved May 18, 1917; officers and enlisted men of the National Guard while in the service of the United States; officers of the Officers' Reserve Corps and enlisted men in the Enlisted Reserve Corps while in the service of the United States; officers and enlisted men of the Navy and Marine Corps; officers and enlisted and enrolled men of the Naval Reserve Force and Marine Corps Reserve while in the service of the

RAILROAD OFFICERS AND MEN WARNED BY DIRECTOR GENERAL TO KEEP AWAY FROM POLITICS

MUST AVOID PARTISAN ACTIVITY

"Definite Policy" of the Administration Is Announced in General Circular—Counts on the Loyal Cooperation of All.

The United States Railroad Administration issues the following:

AUGUST 31, 1918.

To all officers and employees in the railroad service of the United States:

The approaching Federal and State elections, including the primary contests connected therewith, make it both timely and necessary that the attitude of the Director General toward political activity on the part of officers and employees in the railroad service should be clearly stated.

Former Incentive Gone.

It was a matter of common report that railroads under private control were frequently used for partisan political purposes; that railroad corporations were frequently adjuncts of political machines, and that even sovereign States had been at times dominated by them. Contributions to campaign funds and the skillful and effective coercion of employees were some of the means by which it was believed that many railroads exerted their power and influence in politics. Scandals resulted from such practices, the public interest was prejudiced, and hostility to railroad managements was engendered.

Now that the Government controls and operates the railroads there is no selfish or private interest to serve, and the incentive to political activity on the part of the railroads no longer exists.

Under Government control there is no inducement to officers and employees to engage in politics. On the contrary, they owe a high duty to the public scrupulously to abstain therefrom.

Definite Policy Announced.

It is, therefore, announced as a definite policy of the United States Railroad Administration that no officer, attorney, or employee shall—

1. Hold a position as a member or officer of any political committee or organization that solicits funds for political purposes.

2. Be a delegate to or chairman or officer of any political convention.

3. Solicit or receive funds for any political purpose or contribute to any political fund collected by an official or employee of any railroad or any official or employee of the United States or of any State.

4. Assume the conduct of any political campaign.

5. Attempt to coerce or intimidate another officer or employee in the exercise of his right of suffrage. Violation of this will result in immediate dismissal from the service.

6. Become a candidate for any political office. Membership on a local school or park board will not be construed as a political office. Those desiring to run for political office or to manage a political campaign must immediately sever their connection with the United States Railroad Service.

Loyal Cooperation Expected.

I am sure that I can count on the loyal cooperation of all officers, attorneys, and employees engaged in the operation of the railroads under Federal control to carry out in letter and spirit the policy here announced. This policy is intended to secure to all of them freedom of action in the exercise of their individual political rights, and, at the same time, to prevent any form of hurtful or pernicious political activity.

Let us demonstrate to the American people that under Federal control railroad officers, attorneys, and employees can not be made a part of any political machine nor be used for any organized partisan or selfish purpose.

Let us set such a high standard of public duty and service that it will be worthy of general emulation.

W. G. McADOO.

Notice Given British Subjects of Draft Age As to Time Limits on Voluntary Enlistment

The War Department authorizes the following from the office of the Provost Marshal General:

The Provost Marshal General is requested by the British Embassy to give notice of the fact that British subjects, including declarants, who had registered before July 30, 1918, may enlist voluntarily in the British or Canadian Army up to and including September 28, 1918. Those who registered on August 24, 1918, may so enlist up to and including September 23, 1918. Those who registered on September 12, 1918, may so enlist up to and including October 12, 1918.

During the period so allowed for voluntary enlistment, British subjects may apply for exemption to the British Ambassador.

At the end of the period allowed for voluntary enlistment, British subjects, in each of these classes, may no longer enlist in the British or Canadian Army; but, unless exempted by the British Ambassador, they become liable to military service and may claim exemption under the United States selective service law.

TRAIN OBTAINED TO CONVEY U. S. CITIZENS FROM MOSCOW

Telegrams from Consul Poole Tell of Difficulties — To Stay at Post Himself.

The American charge d'affaires at Stockholm has telegraphed the Department of State that he has received three telegrams from Mr. Poole, consul general at Moscow. The first telegram is an inquiry to the charge d'affaires asking if a request had been made for free passage of Americans through Finland, and if not, that it be done.

The second telegram was dated August 17. Mr. Poole stated that he was endeavoring in every possible way to leave Moscow either to the north or east in order that the consulate general would remain on Russian territory. Owing to the insistence of the Bolshevik government, however, departure through Petrograd and thence to Stockholm seemed to be the only possibility. Up to that time American private citizens had not been molested, and Mr. Poole reported that he was endeavoring to arrange for their departure. He was having difficulty, and asked the charge d'affaires to arrange matters with the British authorities.

Train Finally Secured.

Under date of August 26 Mr. Poole telegraphed that owing to the efforts of the Swedish consul general a train was obtained that evening which would go to Petrograd. American officials and citizens would go except Mr. Poole, who would remain to give moral support to his French and English colleagues, who were detained by the Soviet. Mr. Poole added that the Finnish Government had not yet granted and guaranteed free passage to Americans, Japanese, Italians, and Belgians. He stated that the situation was becoming more and more difficult.

In addition to the above the Swedish Government received a telegram from its consul general on August 27, which stated that a special train left on the evening of the 26th for Petrograd with the Italian military mission, consisting of 71 persons, the personnel of the American consulate general, except Mr. Poole, the Belgian consul, all the personnel of the Y. W. C. A. and Y. M. C. A., representatives of the American bank, and private citizens, comprising a total of 95 Americans. Other Italians were leaving on that day. American interests had been turned over to the Swedish Legation.

Viséed to Leave Russia.

The Swedish consul general also reports that passports of those who had left Moscow had been visaed to leave Russia. Permission from the Finnish Government to pass through Finland would be awaited at Petrograd.

U. S. BEET SUGAR OUTLOOK.

Need for additional sugar conservation in the United States is reflected by estimates of our domestic beet-sugar crop this year. After securing and averaging estimates from the three most trustworthy sources available the Food Administration finds a probable decrease in domestic beet-sugar production of 5.2 per cent compared with last year. This represents about 38,174 tons of sugar less than in 1917.

Official U. S. Bulletin

The following is authorized by the War Department:

American Official Communique No. 109.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
August 31.

Section A.—North of the Aisne our troops took Juvigny by assault and captured 150 prisoners. In the Woevre and in the Vosges the enemy was again repulsed in attempts to raid our lines. In Alsace a successful raiding party penetrated the enemy's trenches and inflicted losses.

Section B.—There is nothing to report in this section.

The following is authorized by the War Department:

American Official Communique No. 110.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
September 1, 1918.

Section A.—North of the Aisne our troops have made further progress east of Juvigny. There is nothing else if importance to report.

LIGHTHOUSE PROPOSALS.

Sealed proposals will be opened by the Superintendent of Lighthouses, Tompkinsville, N. Y., at 2 o'clock p. m. September 11, 1918, for docking and repairing Ram Island Reef light vessel. Information upon application to the above office.

President Calls on Labor to Help With All Its Concentrated Power To Win "The War of All Wars"

MY FELLOW CITIZENS: Labor Day, 1918, is not like any Labor Day that we have known. Labor Day was always deeply significant with us. Now it is supremely significant. Keenly as we were aware a year ago of the enterprise of life and death upon which the Nation had embarked, we did not perceive its meaning as clearly as we do now. We knew that we were all partners and must stand and strive together, but we did not realize as we do now that we are all enlisted men, members of a single army, of many parts and many tasks but commanded by a single obligation, our faces set toward a single object. We now know that every tool in every essential industry is a weapon, and a weapon wielded for the same purpose that an Army rifle is wielded—a weapon which if we were to lay down no rifle would be of any use.

And a weapon for what? What is the war for? Why are we enlisted? Why should we be ashamed if we were not enlisted? At first it seemed hardly more than a war of defense against the military aggression of Germany. Belgium had been violated, France invaded, and Germany was afield again, as in 1870 and 1866, to work out her ambitions in Europe; and it was necessary to meet her force with force. But it is clear now that it is much more than a war to alter the balance of power in Europe. Germany, it is now plain, was striking at what free men everywhere desire and must have—the right to determine their own fortunes, to insist upon justice, and to oblige governments to act for them and not for the private and selfish interest of a governing class. It is a war to make the nations and peoples of the world secure against every such power as the German autocracy represents. It is a war of emancipation. Not until it is won can men anywhere live free from constant fear or breathe freely while they go about their daily tasks and know that governments are their servants, not their masters.

This is, therefore, the war of all wars which labor should support and support with all its concentrated power. The world can not be safe, men's lives can not be secure, no man's rights can be confidently and successfully asserted against the rule and mastery of arbitrary groups and special interests, so long as governments like that which, after long premeditation, drew Austria and Germany into this war are permitted to control the destinies and the daily fortunes of men and nations, plotting while honest men work, laying the fires of which innocent men, women, and children are to be the fuel.

You know the nature of this war. It is a war which industry must sustain. The army of laborers at home is as important, as essential, as the army of fighting men in the far fields of actual battle. And the laborer is not only needed as much as the soldier. It is his war. The soldier is his champion and representative. To fail to win would be to imperil everything that the laborer has striven for and held dear since freedom first had its dawn and his struggle for justice began. The soldiers at the front know this. It steels their muscles to think of it. They are crusaders. They are fighting for no selfish advantage for their own Nation. They would despise anyone who fought for the selfish advantage of any nation. They are giving their lives that homes everywhere, as well as the homes they love in America, may be kept sacred and safe, and men everywhere be free as they insist upon being free. They are fighting for the ideals of their own land—great ideals immortal ideals, ideals which shall light the way for all men to the places where justice is done and men live with lifted heads and emancipated spirits. That is the reason they fight with solemn joy and are invincible.

Let us make this, therefore, a day of fresh comprehension not only of what we are about, and of renewed and clear-eyed resolution, but a day of consecration also, in which we devote ourselves without pause or limit to the great task of setting our own country and the whole world free to render justice to all and of making it impossible for small groups of political rulers anywhere to disturb our peace or the peace of the world or in any way to make tools and puppets of those upon whose consent and upon whose power their own authority and their own very existence depend.

We may count upon each other. The Nation is of a single mind. It is taking counsel with no special class. It is serving no private or single interest. Its own mind has been cleared and fortified by these days which burn the dross away. The light of a new conviction has penetrated to every class amongst us. We realize as we never realized before that we are comrades, dependent on one another, irresistible when united, powerless when divided. And so we join hands to lead the world to a new and better day.

WOODROW WILSON.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

The Committee on Military Affairs Saturday and yesterday had under way its inquiry into the letting of contracts amounting to $10,000,000 for the construction of warehouses at New Orleans for the Quartermaster Corps. The awarding of the contract to the George A. Fuller Co. was attacked by witnesses from New Orleans, who denied statements that there were no concerns in Louisiana able to finance such a large contract. P. J. O'Leary, president of the Jefferson Construction Co., of New Orleans, told the committee there are a number of local companies that could have handled the work had they been given an opportunity.

A bill has been introduced in the Senate and House at the request of the War Department that would permit the sale of by-products from the kitchens of military organizations as an inducement to practice economy and save. The bill provides that the refuse and garbage from military kitchens may be disposed of under the direction of the commanding officer of any organization unit or detachment, and that the proceeds be divided among or allotted to the organizations and that the Government may be the purchaser.

Senator Newlands Eulogized.

The session of the Senate yesterday afternoon was devoted to eulogies on the life and services of the late Senator Newlands, of Nevada.

Financial relief for farmers in the drought-stricken sections of the country is provided for in an amendment to the agricultural extension bill proposed by Senator Gore, who gave notice that he would move to suspend the rules to make it in order. The amendment would appropriate $150,000,000 to be set aside to be loaned to such farmers at a reasonable rate of interest as a temporary relief for those who are raising foodstuffs.

The House resolution continuing the appropriations of the last fiscal year for the support of the Department of Agriculture was passed by the Senate. Owing to the fact that the regular appropriation bill has not been repassed since it was vetoed because of the increase in the guaranteed price of wheat, the Agricultural Department has been operating since June 30 under similar resolutions.

HOUSE.

The Ways and Means Committee yesterday afternoon went carefully over the last revise of the $8,000,000,000 war-revenue bill and gave its final approval to the entire measure. Chairman Kitchin reported the bill to the House to-day. It will be taken up for consideration the latter part of the week, either Thursday or Friday, and the leaders plan to have it put upon its final passage not later than Saturday of next week. It is the general belief that it will be before the Senate committee two or three weeks after the measure is received by the Senate. For that reason there was a renewal of talk yesterday of an adjournment of Congress while the Senate committee is considering the measure, which would give members an opportunity to return to their homes until after the congressional elections.

The committee estimates that the war-revenue bill will raise $8,012,792,000, as against the $3,941,633,000 under the existing law. The chief items and revenue raised therefrom are estimated by the committee as follows: Excess and war profits, $3,100,000,000; income taxes from individuals, $1,482,186,000 and from corporations, $828,000,000; transportation of all kinds, $164,000,000; telephone and telegraph, $16,000,000; insurance, $12,000,000; theaters, etc., on admissions, $100,000,000; club dues, $9,000,000.

Excise taxes.—Automobiles, $123,750,000; jewelry, sporting goods, etc., $80,000,000; taxes on luxuries at 10 per cent, $88,760,000; other taxes on luxuries at 20 per cent, $181,095,000; gasoline, $40,000,000; yachts and pleasure boats, $1,000,000; liquor and soft drinks, $1,137,600,000; stamp taxes, $32,000,000; cigars, $61,364,000; cigarettes, $165,240,000; tobacco, $104,000,000; snuff, $9,100,000; papers and tubes, $1,500,000.

Special taxes—Capital stock, $70,000,000; brokers, $1,765,000; theaters, etc., $2,143,000; mail order sales, $5,000,000; bowling alleys, billiard and pool rooms, etc., $2,200,000; shooting galleries, $400,000; riding academies, $50,000; business license taxes, $10,000,000; manufacturers of tobacco, $69,000; manufacturers of cigars, $850,000; manufacturers of cigarettes, $240,000; use of automobiles and motorcycles, $72,920,000.

A bill was passed yesterday forbidding the payment of any pension to any person convicted of disloyalty. Representative Miller, of Minnesota, introduced a bill to continue during captivity, the pay of Army and Navy nurses who fall into the hands of the enemy.

Answers Critics of President.

In a speech delivered yesterday afternoon Representative Ferris, of Oklahoma, reviewed the achievements of the administration and discussed at length what the President has done in the conduct of the war. Referring to statements that have been made in criticism of the President for his exercise of power Mr. Ferris asserted that as Commander in Chief of the Army and Navy the President would be remiss in his duties if he did not exercise all the powers vested in his office for the protection of the country. He declared that none but "enemies of the Republic" have referred to the President as a "dictator."

A favorable report has been ordered by the Committee on Public Buildings and Grounds on the bill granting to the President the power to take over buildings for housing purposes where excessive rent is attempted to be charged by the owner, and also to commandeer real estate when necessary to carry out the housing or building plans of the Government.

Representative Dyer, of Missouri, introduced a bill to increase by $500 a year the pay of all commissioned officers of the Army from the grade of second lieutenant to colonel. Mr. Dyer in presenting the bill asserted that no increase in pay has been granted since 1908, although the cost of living has increased in the Army as well as in civil life.

PRIVILEGE OF CONVERTING FOUR PER CENT BONDS OF THE THIRD LIBERTY LOAN EXPIRES NOV 9

BANKS ASKED TO ASSIST HOLDERS

Should Not Wait Until Last Moment To Exercise Privilege—Owners Strongly Advised to Request Registered Bonds.

Secretary McAdoo has issued the following statement to holders of 4 per cent bonds of the first Liberty loan converted and 4 per cent bonds of the second Liberty loan:

The privilege of conversion which arose in consequence of the issue of 4 per cent bonds of the third Liberty loan will expire on November 9 and under existing law can not be extended or renewed. Holders of these 4 per cent bonds lose nothing by exercising the privilege of conversion and gain one-fourth of 1 per cent interest per annum. Holders of 4 per cent bonds should not wait until the last moment to exercise the privilege of conversion, but proceed to do so promptly. Delay will result in overburdening the banking institutions of the country and the Treasury Department by making it necessary to handle all conversions at the last moment, and may result in the loss of the privilege of conversion altogether.

Should Get Registered Bonds.

Holders of coupon bonds are strongly advised to request issue of registered bonds in order to protect themselves against the risk of loss, theft, and destruction of their bonds.

Official Department Circular No. 111, with forms of application, has been distributed to Federal Reserve banks and banks and trust companies throughout the United States. These institutions are asked, as a matter of patriotic service, to assist bond holders in exchanging 4 per cent bonds for 4¼ per cent bonds and in registering their bonds.

22 SURVIVORS OF THE CUDAHY BROUGHT TO AN ATLANTIC PORT

The Navy Department is informed that the 22 members of the armed guard of the U. S. cargo steamship *Joseph Cudahy*, who were reported as missing, have been picked up by two English steamers and arrived at an Atlantic port Saturday afternoon. The *Joseph Cudahy* was torpedoed at sea on August 17 about 700 miles from the English coast.

Sixteen members of the merchant crew have also been brought to another American port by an English steamer.

ARSENIC UNDER EMBARGO.

At the request of the United States Food Administration the War Trade Board has placed an embargo on the exportation of white arsenic. The chief purpose of this order is to protect American farmers and gardeners against a shortage of arsenic insecticides.

President's Registration Day Proclamation

(Continued from page 2.)

United States; and diplomatic representatives, technical attaches of foreign embassies and legations, consuls general, consuls, vice consuls, and consular agents of foreign countries, residing in the United States, who are not citizens of the United States.

A day or days for registration in the Territories of Alaska, Hawaii, and Porto Rico will be named in later proclamations.

As required by the regulations, every local board having jurisdiction in a city of 30,000 population or over will promptly cause the mayor thereof to be notified of the place or places designated for registration; every local board having jurisdiction in a county, parish, or similar unit will promptly cause the clerk thereof to be notified of the place or places designated for registration, and every local board having jurisdiction in a State or Territory the area of which is divided into divisions for the administration of the act approved May 18, 1917, will promptly cause the clerks of the townships within its division to be notified of the place or places designated for registration.

And I do call upon every mayor, county clerk, or township clerk receiving such notification to have a list of said places of registration posted, and do charge him with the duty of having all persons making inquiry informed of the place or places at which they may register.

Any person who, on account of sickness, will be unable to present himself for registration may apply on or before the day of registration at the office of any local board for instructions as to how he may register by agent.

Any person who expects to be absent on the day designated for registration from the jurisdiction of the board in which he then permanently resides may register by mail, but his registration card must reach the local board having jurisdiction of the area wherein he then permanently resides by the day herein named for registration. Any such person should apply as soon as practicable at the office of a local board for instructions as to how he may register by mail.

Any person who has no permanent residence must register at the place designated for registration by the local board having jurisdiction of the area wherein he may be on the day herein named for registration.

Any person who, on account of absence at sea, or on account of absence without the territorial limits of the United States, may be unable to comply with the regulations pertaining to absentees, shall, within five days after reaching the United States, register with his proper local board or as provided in the regulations for other absentees.

Fifteen months ago the men of the country from twenty-one to thirty years of age were registered. Three months ago, and again this month, those who have just reached the age of twenty-one were added. It now remains to include all men between the ages of eighteen and forty-five.

This is not a new policy. A century and a quarter ago it was deliberately ordained by those who were then responsible for the safety and defense of the Nation that the duty of military service should rest upon all able-bodied men between the ages of eighteen and forty-five. We now accept and fulfill the obligation which they established, an obligation expressed in our national statutes from that time until now. We solemnly purpose a decisive victory of arms and deliberately to devote the larger part of the military man power of the Nation to the accomplishment of that purpose.

The younger men have from the first been ready to go. They have furnished voluntary enlistments out of all proportion to their numbers. Our military authorities regard them as having the highest combatant qualities. Their youthful enthusiasm, their virile eagerness, their gallant spirit of daring make them the admiration of all who see them in action. They covet not only the distinction of serving in this great war but also the inspiring memories which hundreds of thousands of them will cherish through the years to come, of a great duty and a great service for their country and for mankind.

By the men of the older group now called upon, the opportunity now opened to them will be accepted with the calm resolution of those who realize to the full the deep and solemn significance of what they do. Having made a place for themselves in their respective communities, having assumed at home the graver responsibilities of life in many spheres, looking back upon honorable records in civil and industrial life, they will realize as perhaps no others could how entirely their own fortunes and the fortunes of all whom they love are put at stake in this war for right, and will know that the very records they have made render this new duty the commanding duty of their lives. They know how surely this is the Nation's war, how imperatively it demands the mobilization and massing of all our resources of every kind. They will regard this call as the supreme call of their day and will answer it accordingly.

Only a portion of those who register will be called upon to bear arms. Those who are not physically fit will be excused; those exempted by alien allegiance; those who should not be relieved of their present responsibilities; above all, those who can not be spared from the civil and industrial tasks at home upon which the success of our armies depends as much as upon the fighting at the front. But all must be registered in order that the selection for military service may be made intelligently and with full information. This will be our final demonstration of loyalty, democracy, and the will to win, our solemn notice to all the world that we stand absolutely together in a common resolution and purpose. It is the call to duty to which every true man in the country will respond with pride and with the consciousness that in doing so he plays his part in vindication of a great cause at whose summons every true heart offers its supreme service.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the District of Columbia this 31st day of August, in the year of our Lord one thousand nine hundred and eighteen and of the independence of the United States of America the one hundred and forty-third.

WOODROW WILSON.

By the President:
[SEAL] ROBERT LANSING,
Secretary of State.

MR. BARUCH CONFIRMS REPORT ABOUT NEW SCHOOL BUILDING

Bernard M. Baruch, chairman of the War Industries Board, authorizes the following:

The statement made in newspapers on Thursday that the War Industries Board had been unable to approve the new school building project in New York City and other points because of shortage in materials involved was accurate as printed. The telegram printed Saturday morning in some of the New York papers as coming from the board to the effect that "report in papers is premature" referred to the fact that the official ruling has not yet been formulated, although the board has reached a decision.

This, as published, is that for the present no nonwar building enterprises can be given a priority rating except for replacement or emergency cases. The need for conservation to the point of sacrifice is so great that the board can consistently take no other course. It expects that one building will be made to do the work of two during the period of pressure.

Four Oil Storage Tanks For U. S. Army in France

The Fuel and Forage Division of the Quartermaster Corps has procured four oil tanks of 55,000 barrel capacity each, which will be shipped to France and erected there for the use of the American Expeditionary Forces. These tanks will give storage for 11,000,000 gallons of oil or gasoline, an amount approximating the requirements for a period of two months.

PRESIDENT EXPLAINS PLANS TO INSURE FAIR WHEAT PRICE FOR CROPS GROWN IN 1919

BASIS OF GOVERNMENT GUARANTY

Commission to be Appointed Next Spring to Report on all Factors Now or That May Then Exist To Guide Him in Decisions.

MEMORANDUM.

SEPTEMBER 2, 1918.

In issuing to-day the Government's guaranty of the same price for the 1919 wheat crop that was guaranteed for the 1918 crop I wish it to be understood that in the spring of 1919 I will appoint a disinterested commission, who will secure for me the facts by that time disclosed as to the increased cost of farm labor and supplies, using the three-year prewar average prices of wheat, of labor, and of supply costs as a basis, and that from this information I shall determine whether there should be an increase in price above the present level, and, if so, what advance, in order to maintain for the farmer a good return. Should it then appear that an increase is deserved over the present guaranty, however, it will be applied only to those who have by next harvest already marketed their 1918 wheat.

It is the desire and intention of all departments of the administration to give to the wheat grower a fair and stimulative return in order that the present acreage in wheat may be maintained.

I find a great conflict of opinion among various sections of the country as to the price that should be named as a minimum guaranty. It must be obvious to all, however, that the factors which will make for increased or decreased cost of production of next year's harvest can not be determined until the near approach to the harvest.

In giving a guaranteed price for wheat one year in advance (the only industry guaranteed by the Government) there is involved a considerable national risk. If there should be peace or increased shipping available before the middle of 1920, Europe will naturally supply itself from the large stores of much cheaper wheat now in the Southern Hemisphere; and therefore the Government is undertaking a risk which might in such an event result in a national loss of as much as $500,000,000 through an unsalable surplus; or, in any event, in maintaining a high level of price to our own people for a long period subsequent to freedom in the world's markets.

Despite this, the desirability of assuring a supply to the world of prime breadstuffs by insuring the farmer against the fluctuations in prices that would result from the uncertainties of the present situation and from the speculation those uncertainties entail, seems to me to make the continuation of the guarantee for another year desirable. On the other hand, it is clear that before increasing this liability by large sums with the risks set forth above, and before increasing the burden of the consumer, the matter should be subjected to searching inquiry at the appropriate time—the time when the pertinent facts will be known.

I feel confident that with this preliminary fixed guarantee, and with the assurance that justice will in any event be done to the grower, he will continue the fine patriotic effort by which he has served the country hitherto; that the Government will have acted prudently; and that the consumer will be satisfied that his interests are not unduly sacrificed, but just and exhaustive consideration given to every element of the matter at the proper time.

WOODROW WILSON.

Proclamation Guaranteeing Price For the Wheat Crop Grown in 1919 Is Issued by President Wilson

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

Whereas, under and by virtue of an act of Congress entitled "An act to provide further for the national security and defense by encouraging the production, conserving the supply, and controlling the distribution of food products and fuel," approved by the President on the 10th day of August, one thousand nine hundred and seventeen, it is provided among other things as follows:

"SEC. 14. That whenever the President shall find that an emergency exists requiring stimulation of the production of wheat and that it is essential that the producers of wheat, produced within the United States, shall have the benefits of the guaranty provided for in this section, he is authorized, from time to time, seasonably and as far in advance of seeding time as practicable, to determine and fix and to give public notice of what, under specified conditions, is a reasonable guaranteed price for wheat, in order to assure such producers a reasonable profit. The President shall thereupon fix such guaranteed price for each of the official grain standards for wheat as established under the United States Grain Standards Act approved August eleventh, nineteen hundred and sixteen. The President shall from time to time establish and promulgate such regulations as he shall deem wise in connection with such guaranteed prices, and in particular governing conditions of delivery and payment; and differences in price for the several standard grades in the principal primary markets of the United States adopting number one northern spring or its equivalent at the principal interior primary markets as the basis. Thereupon, the Government of the United States hereby guarantees every producer of wheat produced within the United States that, upon compliance by him with the regulations prescribed, he shall receive for any wheat produced in reliance upon this guarantee within the period, not exceeding eighteen months, prescribed in the notice, a price not less than the guaranteed price therefor as fixed pursuant to this section. In such regulations the President shall prescribe the terms and conditions upon which any such producer shall be entitled to the benefits of such guaranty."

Now, therefore, I, Woodrow Wilson, President of the United States, by virtue of the powers conferred upon me by said act of Congress, and especially by section 14 thereof, do hereby find that an emergency exists requiring stimulation of the production of wheat, and that it is essential that the producers of wheat produced within the United States shall have the benefits of the guarantee provided for in said section; and, in order to make effective the guarantee by Congress for the crop of nineteen hundred and nineteen and to assure such producers a reasonable profit, I do hereby determine and fix, and give public notice of reasonable guaranteed prices for No. 1 northern spring wheat and its equivalents at the respective principal primary markets as follows, to wit:

New York, New York, two dollars and thirty-nine and a half cents ($2.39½) per bushel.

Philadelphia, Pennsylvania, two dollars and thirty-nine cents ($2.39) per bushel.

Baltimore, Maryland, two dollars and thirty-eight and three-quarter cents ($2.38¾) per bushel.

Newport News, Virginia, two dollars and thirty-eight and three-quarter cents ($2.38¾) per bushel.

Duluth, Minnesota, two dollars and twenty-two and one-half cents ($2.22½) per bushel.

Minneapolis, Minnesota, two dollars and twenty-one and one-half cents ($2.21½) per bushel.

Chicago, Illinois, two dollars and twenty-six cents ($2.26) per bushel.

St. Louis, Missouri, two dollars and twenty-four cents ($2.24) per bushel.

Kansas City, Missouri, two dollars and eighteen cents ($2.18) per bushel.

Omaha, Nebraska, two dollars and eighteen cents ($2.18) per bushel.

New Orleans, Louisiana, two dollars and twenty-eight cents ($2.28) per bushel.

Galveston, Texas, two dollars and twenty-eight cents ($2.28) per bushel.

Tacoma, Washington, two dollars and twenty cents ($2.20) per bushel.

Seattle, Washington, two dollars and twenty cents ($2.20) per bushel.

Portland, Oregon, two dollars and twenty cents ($2.20) per bushel.

Astoria, Oregon, two dollars and twenty cents ($2.20) per bushel.

San Francisco, California, two dollars and twenty cents ($2.20) per bushel.

Los Angeles, California, two dollars and twenty cents ($2.20) per bushel.

Salt Lake City, Utah, two dollars ($2) per bushel.

Great Falls, Montana, two dollars ($2) per bushel.

Pocatello, Idaho, two dollars ($2) per bushel.

Spokane, Washington, two dollars ($2) per bushel.

and that the guaranteed price for the other grades established under the United States grain standards act, approved August 11, 1916, based on said price for No. 1 northern spring wheat at the respective principal primary markets

(Continued on page 8.)

DECISION MADE TO REGULATE SURFACE TYPE CONDENSERS

The War Industries Board authorizes the following:

Following a conference of the brass manufacturers with B. M. Baruch, chairman of the War Industries Board, and [illegible] officials of the board, and representatives of the Navy and the Emergency Fleet Corporation, and a later conference of the board with the war service committee of the surface type condenser industry, it was decided, in order to conserve brass, to regulate distribution of these condensers, which are essential to ships.

Affects 45 Manufacturers.

There are about 45 manufacturers affected by the decision of the War Industries Board. They are being notified to take no further orders and enter into no new contracts for sale or to sell or deliver to any purchaser, Government or civilian, except on a permit issued by the War Industries Board. To get such a permit the proposed purchaser must show his need to the satisfaction of the board, and this need will be considered in connection with the needs of the Government in the conduct of the war.

The manufacturers will be permitted to fill, where possible, existing orders with nonferrous condenser tubes on contracts for shipment prior to January 1, 1919. On contracts after January 1, 1919, the manufacturers are urged to put steel tubes on condensers for land uses, and are directed to send immediately estimates for steel required for this purpose.

Navy and Emergency Fleet Exempt.

The Navy and the Emergency Fleet Corporation are exempt from these orders and regulations of the War Industries Board as to condensers for ship usage, but not as to condensers for land stations.

Some months ago the Government took over control of and distribution of the turbine engine industry because of the shortage in the supply and their essential need in the Navy and Emergency Fleet war program. The nonferrous condenser is an essential integral part of the turbine, and shortage in its production caused the Navy and Emergency Fleet Corporation officials to appeal for Government regulations of production and distribution.

Effect Carefully Considered.

The effect of the taking over by the Government of the surface type condenser tube industry was considered carefully by the brass manufacturers with Mr. Baruch; Everett Morss, chief of the nonferrous tubing section; and Walter Robbins, chief of the electrical and power equipment section. It is the purpose of the Government to stimulate production to meet war needs first and supply civilian needs, if possible.

Award for Installing Refrigerator Machine

The Department of Agriculture has made the award for installing one refrigerating machine at Arlington Farm, near Rosslyn, Va., to the United Iron Works Co., Springfield, Mo., for $3,350.

Addresses of U. S. Soldiers Cited in Communique 106 for Heroism

The War Department authorizes publication of the following emergency addresses of soldiers cited in American Official Communique No. 106:

First Sergt. Hans P. Christianson, 28th Inf., Co. A.: Miss Alice Wixey, 1462 Almond Avenue, St. Paul, Minn. (Niece.)

Pvt. First Class Tixie Downham, 28th Inf., Co. B.: Mrs. Jessie Walsh, North B Street, Elwood, Ind. (Sister.)

Corpl. Abe. T. Allen, 28th Inf., Co. B.: John Allen, Leesville, La. (Father.)

Corpl. Lewis Kopaski, Infantry. (Not in file.)

Second Lieut. John H. Church, 28th Inf., Co. D.: Louis Crispin, 448 Broadway, Flushing, N. Y. (Uncle.)

Pvt. Fred L. Gunn, Med. Dept., 28th Inf.: Charles L. Gunn, 3916 Seventh Street, Meridian, Mass. (Brother.)

Pvt. John B. When, Med. Dept., Inf. (Not in file.)

Pvt. Frank J. Reynolds, Med Dept., Inf. (Not in file.)

First Lieut. Thomas M. Barber, M. R. D., Inf. [Medical Dept., unassigned]: Mrs. T. L. Barber, 915 Crescent Road, Charleston, W. Va.

First Lieut. S. C. Sorenson, Inf., U. S. R.: No emergency address. Brit. 5th Army Sch., Tonten, Court.

Sergt. Maj. Jackson D. Burke, Inf. (gives 28th Inf., Co. D): Tobias B. Burke, Maloneton, Ky. (Father.)

Pvt. C. E. Whittington, 28th Inf., Co. I: Mr. P. J. Noland, Great Cacapon, W. Va. (Uncle.)

First Lieut. Walter B. Cristensen, Inf. (Not in file.)

Pvt. David O. Clapp, 28th Inf., Co. B: David Clapp, 600 West Twenty-ninth Street, Ada, Okla. (Father.)

First Lieut. W. Ross Fahring, Inf. (Not in file.)

Pvt. Henry Quinn, 137th Inf., Co. I: John Quinn, 910 Bluemont Avenue, Manhattan, Kans. (Father.)

Second Lieut. Vinton A. Dearing, Inf., 2d B., 28th Inf.: Mrs. J. L. Dearing, 1 Waterhouse Street, Cambridge, Mass. (Mother.)

Pvt. William Howe, Inf., Camp Devan's Apr. Repl. Dft.: Mrs. Jennie Howe, 45 Remsen Street, Cohoes, N. Y. (Mother.)

Pvt. Edgar Thinker, Inf. (Not in file.)

Corpl. Newel B. Davis, 28th Inf., Co. I: Elias V. Davis, 59 North Main Street, Harnell, N. Y. (Brother.)

First Sergt. Maniphe Stonecipher, 28th Inf., Co. M: Mrs. Maniphe Stonecipher, Quaka, Ill. (Wife.)

WHEAT PRICE PROCLAMATION

(Continued from page 7.)

of the United States above mentioned, will assure the producers of wheat produced within the United States a reasonable profit; the guaranteed prices in the principal primary markets above mentioned being fixed by adopting No. 1 northern spring wheat or its equivalents at the principal interior markets as the basis.

For the purposes of such guaranty only I hereby fix the guaranteed prices at the respective principal primary markets above mentioned for the following grades of wheat, to wit: No. 1 northern spring, No. 1 hard winter, No. 1 red winter, No. 1 durum, No. 1 hard white. The guaranteed prices at the respective principal primary markets aforesaid of all other grades of wheat established under the United States grain standards act approved August 11, 1916, shall be based on the above-guaranteed prices and bear just relation thereto.

The sums thus determined and fixed are guaranteed by the Government of the United States at the respective principal primary markets of the United States above mentioned, to every producer of wheat of any grade so established under the United States grain standards act, upon the condition that said wheat is harvested in the United States during the year 1919, and offered for sale before the 1st day of June, 1920, to such agent or employee of the United States, or other person, as may be hereafter designated, at any one of the above-mentioned cities, which are hereby declared to be the principal primary markets of the United States, and provided that such producer complies with all regulations which may be hereafter promulgated in regard to said guaranty by the President of the United States.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the District of Columbia this second day of September, in the year of our Lord one thousand nine hundred and eighteen, and of the independence of the United States of America the one hundred and forty-third.

[SEAL.] WOODROW WILSON.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

Corpl. Benton Anderson. Mrs. Elizabeth Bradley, R. F. D. No. 2, Worthington, W. Va.

Corpl. William Duncan Briggs. Mrs. H. H. Briggs, Mount Leonard, Mo.

Keep Bulletin Posted In All U. S. Post Offices

Reports having been made that at some post offices THE OFFICIAL (United States) BULLETIN is not being posted regularly for public reading in accordance with Postmaster General Burleson's orders, postmasters are again reminded of this important duty. It should be remembered that THE BULLETIN is the only publication available to all sections of the country that prints daily the complete and correct casualty lists from our armies oversea exactly as they are issued by the War Department. Many newspapers print only the lists having local interest in their own territory. THE BULLETIN prints every name and address, thus making it a certain means of informing friends and relatives, wherever they may be, of the fate of a soldier or sailor, no matter where his home town or city.

Postmasters are urged, aside from their duty as officials, to make it their patriotic and personal duty to see that the public has the fullest benefit of this privilege.

The Postmaster General's order follows:

All postmasters are directed to post THE OFFICIAL BULLETIN *daily in a conspicuous place in the lobby or other portion of their respective post-office buildings where the public can read it; and, without expense to the Government, each and every postmaster is earnestly urged to see that this* BULLETIN *is made available to as many people as possible in the manner suggested.*

A. S. BURLESON,
Postmaster General.

John T. Stinson. Mrs. Elizabeth Stinson, 2132 Winter Street, Philadelphia, Pa.

How the Bulletin Goes to Its Mail Subscribers

Frequent letters from subscribers to the Official U. S. Bulletin complain that copies of the Bulletin are received late at their destination. Numerous investigations of these individual instances have been made by the Government Printing Office and the Post Office Department, and while some irregularities in transmission have been found and corrected, the interval between the date of publication and that of delivery, as a rule, did not disclose neglect of service. The Post Office Department is giving it letter-mail attention, so far as it is practicable to do so in this time of stress and unusual burden of official mail matter.

The Official U. S. Bulletin is editorially compiled in the day and evening of the date of publication and the mechanical work of the Government Printing Office has still to follow. Thus, it reaches the mails late at night or early the next morning, which, upon receipt immediately, would make it seem 24 hours behind. A simple remedy would be to date it ahead, which is the usual way in the publishing world, but this method is not deemed necessary at this time.

MARINE CORPS

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	3
Died of wounds received in action	1
Died of disease	1
Wounded in action (severely)	8
Wounded in action (degree undetermined)	10
In hands of enemy	1
Total	24

Killed in Action.

Sergt. Orrie F. Kline. Norma A. Kline, 408 East Twenty-eighth Street, Tacoma, Wash.

LANGENSALZA, GERMANY.

Pvt. Joseph Juliano. Mrs. Rosa Juliano, mother, 2132 Toronto Street, Philadelphia, Pa.

Corpl. Bert R. Irvine. Homer Irvine, father, 5934 North Twelfth Street, Philadelphia, Pa.

Corpl. Lawrence F. Glaab. Mrs. Mary Glaab, wife, 1308 Allegheny Street, New Brighton, Pa.

Pvt. Frederick McConnell. Fred R. McConnell, father, 1014 Park Avenue, Omaha, Nebr.

Corpl. Elmer Shafer. Mrs. Clara Sansenbach, mother, Pocono Pines, Pa.

Corpl Paul Richard Bisbing. Mrs. Elizabeth Bisbing, mother, 104 North Sixty-third Street, Philadelphia, Pa.

Sergt. Fred James Russell. Mrs. Anna Russell, mother, 1530 Fulton Street, Harrisburg, Pa.

Pvt. Joseph Ihyona. Mrs. Frances F. Ihyona, mother, 640 Fernon Street, Philadelphia, Pa.

Sergt. Bruce William Idell. Helen Idell, sister, 6110 Belfield Avenue, Philadelphia, Pa.

Sergt. Henry Clayton Hunsicker. Mrs. Letitia Hunsicker, mother, 2426 North Clarion Street, Philadelphia, Pa.

Corpl. William R. Leckemby. Mrs. Alice Leckemby, mother, Meyersdale, Pa.

Pvt. Joseph H. Brisk. Mrs. Theresa Brisk, mother, 45 Washington Street, Miner Mills, Pa.

Pvt. George W. Corry. Mrs. Mary Corry, wife, 61 East Phil-Ellena Street, Philadelphia, Pa.

Pvt. Leslie H. Crabtree. James A. Crabtree, father, 3703 Baring Street, Philadelphia, Pa.

Pvt. Howard Muller. Herman C. Muller, father, 942 Vine Street, Williamsport, Pa.

Pvt. First Class Leroy Webb. Mrs. Mary Haywood, aunt, 738 St. Marks Avenue, Brooklyn, N. Y.

Pvt. Henry Simons. Samuel Simons, father, 2212 West Harold Street, Philadelphia, Pa.

Corpl. Clyde L. Bittner. Edward A. Bittner, father, Garrett, Pa.

Corpl. Samuel H. Hayden. Mrs. Dora Hayden, mother, Greensburg, Pa.

Corpl. Paul V. J. Dwyer. Mrs. Bridget Dwyer, mother, 940 Dakota Street, Philadelphia, Pa.

Pvt. First Class Henry (Harry) Brody, Mrs. Ester Brody, mother, 525 Fairmont Avenue, Philadelphia, Pa.

Corpl. Joseph Zulic. Mrs. Mary Barrett, sister, 1940 South Twelfth Street, Philadelphia, Pa.

Pvt. Harry Snyder. Nathan Snyder, father, 128 Durfor Street, Philadelphia, Pa.

Pvt. Dan M. McGuire. Frank A. McGuire, father, 4008 West Street, Forest Hill, Richmond, Va.

Pvt. Carl C. Enderlin. Mrs. Emily Enderlin, mother, 121 Fremont Street, Mount Oliver, Pittsburgh, Pa.

Mechanic Joseph S. Brant. George M. Brant, father, Somerset, Pa.

Corpl. Harry Wallrath. Mrs. Annie Wallrath, wife, 1222 Cadwaller Street, Philadelphia, Pa.

Corpl. Russell M. Alexander. Mrs. Ida Alexander, mother, Ligonier, Pa.

Corpl. Clifford W. Saylor. Mahlon Snyder, father, Rockwood, Pa.

Pvt. Joseph M. Lavin. Michael J. Lavin, father, 407 Susquehanna Street, Olyphant, Pa.

Pvt. Gust Kane. Mrs. Kate Kane, mother, 532 West Washington Street, Slatington, Pa.

Sergt. Harry T. Doerr. Mrs. Florence Wurster, sister, 623 Luray Street, Philadelphia, Pa.

Sergt. Kenneth M. Brant. Charles I. Brant, father, Meyersdale, Pa.

Sergt. Roy Huston. Mrs. Eliza Huston, mother, Somerset, Pa.

Corpl. John Ducoing Walker. Ducoing Walker, sr., father, 550 North Eleventh Street, Philadelphia, Pa.

Sergt. Ernest Friend Haag. Mrs. Jennie [illegible], mother, South Sterling, Wayne County, Pa.

Pvt. Andrew Koch. Stephen Koch, brother, Shaw, Pa.

Pvt. (first class) William F. Heckert, jr. William F. Heckert, sr., father, 1445 Snyder Avenue, Philadelphia, Pa.

Corpl. Robert F. Owens. Mrs. Laura Owens, mother, Allen, Ky.

Pvt. (first class) Frederick G. Lockwood. Mrs. M. G. Lockwood, 845 Boylston Street, Boston, Mass.

Musician Ben A. Fetters. Mrs. Sophie Fetters, mother, 205 Eighth Street, Mishawaka, Ind.

First Sergt. Martin L. Markel. Mrs. ——— Markel, mother, Somerset, Pa.

Pvt. (first class) Alva Dean Watson. Mrs. Shellie Hayes, mother, 30 North William Street, Newark, Ohio.

Pvt. Antonie Barber. Michele Barber, father, Villa Petto, Province Di Teramo, Italy.

Pvt. John Sobel. Mrs. Lean Sobel, mother, 1043 Emily Street, Philadelphia, Pa.

Pvt. (first class) Frank E. Beatty, Mrs. Laure E. Beatty, mother, Morgantown Street, Fairchance, Pa.

Pvt. First Class Paul Hummel. Mrs. Mary Hummel. mother, Espy, Pa.

Pvt. Raymond Gilmer. Mrs. Alice Gilmer, mother, Erwinna, Bucks County, Pa.

Pvt. Joseph A. Davis. Joseph W. Davis, father, 316 South Juniper Street, Philadelphia, Pa.

Pvt. First Class Dan C. Murphy. Mrs. Clara Murphy, 406 Keokuk Street, Lincoln, Ill.

Corpl. Lambert Anderson. Mrs. Charles A. Anderson, mother, 375 Park Street, Hartford, Conn.

Pvt. Kenneth R. Moore. Mrs. Clara R. Moore, mother, Third and Hill Streets, Los Angeles, Cal.

Pvt. Luther Streng. Mrs. Carrie Streng, mother, 609 High Street, Meyersdale, Pa.

Cook Joseph Markinovich. Pete Zoroby, friend, Shenandoah, Pa.

Pvt. Robert B. Reed. Mrs. Elizabeth Christner, mother, Willard, Colo.

Pvt. First Class Michael J. McCarthy. Michael J. McCarthy, father, 3444 Penn Avenue, Pittsburgh, Pa.

Pvt. Warrie Ward. John Harvey Ward, brother, R. F. D. No. 1, Saluda, S. C.

Pvt. Walter J. Overby. M. D. Overby, father, Greenwood, Miss.

Pvt. First Class Frank E. Duffield. Sylvester L. Duffield, father, New Alexandria, Pa.

Pvt. Marylan Choyenski. Miss Sanistaqa Choyenski, sister, Orange, N. J.

Corpl. Fred N. Gartside. Mrs. Caroline E. Gartside, mother, 1037 West King Street, York, Pa.

Pvt. Samuel Tanner. Joseph Friedburg, friend, 225 South Third Street, Philadelphia, Pa.

Pvt. First Class Frank E. Freeman. George W. Freeman, father, 304 South Eighth Street, Connelsville, Pa.

Corpl. Michael F. McCarthy. Mrs. Dennis McCarthy, mother, 38 Sixth Street, Waterbury, Conn.

Corpl. Carl R. Scott. Mrs. Alice Scott, mother, 13 Hill Street, Waterbury, Conn.

Pvt. Clyde F. Shaffer. David F. Shaffer, father, Crescent, Okla.

Pvt. First Class Herman Paul Rips. Samuel I. Rips, father, 120 East One hundred and twenty-ninth Street, New York, N. Y.

(Continued on page 19.)

DIRECTOR M'ADOO ISSUES STATEMENT ON MONEYS ADVANCED TO RAILROADS AND OF THE SOURCE WHERE OBTAINED

A LIST OF THE ROADS WITH THEIR CREDITS

Total Amount Advanced From April 1 to Sept. 1 Was $241,851,420, Divided Between 64 Lines or Systems—Most of This Was Taken From the Revolving Fund -$39,553,760 From Surplus Earnings—Total Disbursed Now Between $800,000,000 and $900,000,000.

Director General of Railroads McAdoo authorizes the following statement:

The total amount of money which the United States Railroad Administration has advanced since April 1, 1918, to all railroad companies (exclusive of the current earnings of the roads, applied directly by the individual roads to their current expenses and corporate needs) was $241,851,420, to 64 different roads or systems, of which the amount advanced during the month of August was $38,137,370.

Source of Funds Advanced.

Of the total amount advanced from April 1 to September 1, $202,297,660 was taken from the $500,000,000 revolving fund and $39,553,760 was taken from the surplus earnings turned over to the Director General by the limited number of roads whose receipts for the period exceeded their needs.

The total amount of money turned over to the Director General April 1 to September 1 by roads reporting surplus earnings was $62,845,699, but of the amount thus turned over $29,200,699 was returned to roads temporarily making the deposits, these same roads having subsequently called upon the Director General to advance to them considerable sums in addition to the return of the deposits which they had temporarily made with the Railroad Administration.

Roads Not Asking Returns.

The only railroads or systems which have deposited funds with the Director General and have not asked for the return of any portion of the funds thus deposited were the following:

Atlantic Coast Line and Louisville & Nashville	$8,450,000
Atchison, Topeka & Santa Fe	3,300,000
Northern Pacific	2,500,000
Duluth, Missabe & Northern	2,400,000
Union Pacific System	2,100,000
Norfolk & Western Ry	1,500,000
Bessemer & Lake Erie	1,500,000
Chicago & North Western	1,500,000
Elkin, Joliet & Eastern	1,500,000
Duluth & Iron Range	900,000
Fort Worth & Denver City	700,000
Pere Marquette	500,000
El Paso & Southwestern	500,000
Chicago & Eastern Illinois	300,000
Spokane, Portland & Seattle	300,000
Richmond, Fredericksburg & Potomac	300,000
Lehigh & New England	200,000
International & Great Northern	150,000
Grand Rapids & Indiana	100,000

Refunds to Certain Lines.

Among the other railroads depositing funds with the Director General, which have not already gotten back sums as great or greater than those thus deposited, were:

Southern Pacific lines	$2,600,000
Chicago, Burlington & Quincy	400,000
St. Louis San Francisco	382,000
Colorado & Southern	1,100,000
Hudson & Manhattan	100,000
Vicksburg, Shreveport & Pacific	364,000
Alabama & Vicksburg Ry	490,000

During the month of August the Director General made the following advances to the railroads named over and above their current earnings:

Pennsylvania railroad lines	$9,500,000
Baltimore & Ohio R. R.	4,500,000
Illinois Central R. R.	2,700,000
Seaboard Air Line Ry	2,000,000
Buffalo, Rochester & Pittsburgh Ry	1,800,000
Missouri Pacific Ry	1,750,000
Chicago, Burlington & Quincy Ry.	1,600,000
Philadelphia & Reading Ry	1,400,000
Southern Pacific Ry	1,300,000
Chicago, St. Paul, Minneapolis & Omaha Ry	1,200,000
Chicago, Milwaukee & St. Paul Ry	1,000,000
Chesapeake & Ohio Ry.	1,000,000
Erie R. R.	900,000
Wheeling & Lake Erie Ry	700,000
Grand Trunk Western Lines	621,000
Wabash Ry	575,000
Chicago Great Western Ry	507,660
Florida East Coast Ry	500,000
Indiana Harbor Belt Ry	500,000
Kansas City Southern Ry	500,000
Minneapolis & St. Louis Ry	500,000
New York, Ontario & Western Ry.	460,000
St. Louis-San Francisco Lines	308,000
Cincinnati Northern Ry	300,000
Central New England Ry	300,000
Southern Railway Lines	245,000
Chicago, Terre Haute & Southeastern Ry	229,201
Missouri, Kansas & Texas Railway of Texas	225,000
Gulf Mobile & Northern R. R.	200,000
Kansas City, Mexico & Orient Ry	180,000
Western Maryland Ry	169,509
Vicksburg, Shreveport & Pacific Ry	136,000
Pittsburgh & Shawmut R. R.	110,000
Old Dominion Steamship Co.	95,000
Ann Arbor R. R.	55,000
San Antonio Uvalde & Gulf R. R.	45,000
Colorado & Southern Ry.	41,000
Franklin & Pittsylvania Ry	35,000
Alabama & Vicksburg Ry.	10,000

Advances April 1 to September 1.

The total amount advanced by the Director General to all railroad companies from April 1 to September 1, 1918 (exclusive of the current earnings immediately applied by the respective companies), was $241,851,420. The advances were made to the following roads:

New York, New Haven & Hartford R. R.	$46,964,000
New York Central Lines	40,300,000
Pennsylvania R. R. Lines	40,000,000
Chicago, Milwaukee & St. Paul Ry	15,725,000
Baltimore & Ohio R. R.	13,500,000
Illinois Central R. R.	12,450,000
Erie R. R.	8,400,000
Chicago, Rock Island & Pacific Ry	6,000,000
Seaboard Air Line Ry.	4,350,000
Denver & Rio Grande R. R.	4,100,000
Southern Ry. Lines	3,940,000
Lehigh Valley R. R.	3,500,000
Wabash R. R.	2,225,000
Chicago, Burlington & Quincy R. R.	3,100,000
Missouri Pacific Ry.	2,750,000
Missouri, Kansas & [illegible]	
Buffalo, Rochester & [illegible] Ry	2,600,000
Delaware & Hudson Co.	2,000,000
Philadelphia & Reading Ry.	1,400,000
Minneapolis & St. Louis R. R.	1,350,000
Chicago, Indianapolis & Louisville Ry	1,325,000
Chicago, St. Paul, Minneapolis & Omaha Ry	
St. Louis San Francisco Lines	1,118,000
Hudson & Manhattan R. R.	1,000,000
Central of Georgia Ry.	750,000
Indiana Harbor Belt R. R.	720,000
Wheeling & Lake Erie Ry.	698,000
Grand Trunk Western Lines	621,000
Chicago & Alton R. R.	600,000
Norfolk Southern R. R.	540,000
Texas [illegible]	
St. Louis [illegible]	525,000
Colorado Grand W[illegible] R. R.	507,000
Hocking Valley Ry.	500,000
Idaho [illegible]	500,000
Kansas [illegible] Ry	500,000
St. Louis [illegible] Ry	500,000
New York, Ontario & Western R. R.	460,000
Ann Arbor R. R.	350,000
Central New England Ry.	308,000
Kansas City, Mexico & Orient Ry.	300,000
Cincinnati Northern Ry.	285,000
Detroit, Toledo & Ironton R. R.	238,775
Chicago, Terre Haute & Southeastern Ry.	229,201
Texas, Mexico & Northern R. R.	200,000
New Orleans, Texas & Mexico R. R.	200,000
Elgin, Joliet & Eastern R. R.	200,000
Wabash, Pittsburgh Terminal Ry.	189,600
Western Maryland Ry.	169,509
Illinois Southern Ry.	160,000
Belt Railway of Chicago	155,000
Duluth, South Shore & Atlantic Ry.	150,000
Vicksburg, Shreveport & Pacific Ry.	136,000
New York, Chicago & St. Louis R. R.	132,275
New Orleans Great Northern R. R.	120,000
Chicago & Western Indiana Ry.	115,000
Pittsburgh & Shawmut R. R.	110,000
Old Dominion Steamship Co.	95,000
Texas, Mexico, Brandywine & Point Isabel R. R.	50,000
San Antonio, Uvalde & Gulf R. R.	45,000
Colorado & Southern Ry.	41,000
Franklin & Pittsylvania Ry.	35,000
Alabama & Vicksburg Ry.	10,000

Of the sums advanced to date over 52 per cent went to the three systems, the New Haven, the New York Central, and the Pennsylvania.

Statement Regarding Rentals.

The Director General desires to correct an impression which prevails in some quarters to the effect that the United States Railroad Administration is withholding, or has been withholding, the standard rentals due to the various railroads under Government control, pending the execution of the contracts between the railroads and the Government, and that the omission of any railroad corporations to settle their debts or claims is due to any omission by the Railroad Administration to pay the accrued rentals.

The fact is that the equivalent of the standard rentals, which for the first eight months of the current year amounted to approximately $650,000,000, has already very largely been paid to every railroad company in the United States under Government control, and in many cases the Director General, in addition to paying these roads an amount equal to 90 per cent of their standard rental (which payments in advance of the execution of contracts are permissive and not compulsory under the railroad act), has advanced large additional sums of money to these railroad corporations to enable them to meet maturing bond issues which they and their

(Continued on page 18.)

Rules Governing Exports to Norway Announced By War Trade Board

The War Industries Board authorizes the following:

The War Trade Board announces in a new ruling (W. T. B. R. 211) the adoption of the following regulations governing the procedure with respect to the issuance of licenses for the exportation of commodities to Norway. Previous rulings with respect to such regulations (W. T. B. R. 103, May 10, 1918; W. T. B. R. 126, June 3, 1918) are hereby withdrawn.

1. Applications for licenses to export commodities which are not controlled by a Norwegian import association will not be considered unless the prospective importer has given a guarantee certified by the Norwegian Finance Department and further certified by an American consul in Norway, who will furnish the importer an identification number. The ruling requiring this identification number to be accompanied by a code word has now been withdrawn, and this certificate will hereafter bear only an identification number. This identification number should be forward by the importer to the prospective exporter in the United States and specified on supplemental information sheet X-106, which should be attached to the application for an export license.

2. Applications for licenses to export commodities which are controlled by a Norwegian import association will not be considered unless the prospective importer in Norway has secured a certificate covering the proposed shipment from the appropriate Norwegian import association. This certificate must be either issued or confirmed subsequently to May 10, 1918. The identification number of the certificate should be forwarded by the importer in Norway to the prospective exporter in the United States and specified on supplemental information sheet X-106, which should be duly executed and annexed to the application for export license.

In filing an application for a license to ship commodities controlled by an import association the shipment must be consigned to the association which has issued the certificate, and the exporter is required to state on the application the name of the person or firm in whose favor the import certificate was issued; as, for example—

Consignee: Oil and Color Merchants' Association, Christiania, Norway.

Purchaser abroad: (Here state person or firm to whom certificate was issued.) Address of such person or firm.

3. The War Trade Board are advised that the following import associations in Christiania will accept, on behalf of the Norwegian importer actually interested, consignments of the articles mentioned below.

The Oil and Color Merchants' Association:
- Paraffin wax (including stearine, stearic acid, palmetic acid).
- Turpentine (including vegetable and mineral turpentine and white spirit).
- Varnishes (alcoholic and nonalcoholic siccative oils and polishes—politur).
- Linseed oil, raw.
- Linseed oil, boiled.
- Rapeseed oil.
- Ceresine and carnauba wax.
- Rosin.

The Oil and Color Merchants' Association—Continued.
- All animal and vegetable oils and fats and fatty acids whatever (including Chinese wood oil).
- Materials in small quantities in general use in the ordinary course of business of the members of the association, such as starch, chalk, tar composition, sulphate of iron ore, copper, borax, saltpeter (common), soda (calcined, caustic, and bicorbonate), bleaching powder, sulphuric acid, silicate of soda, etc.

The Norwegian Soap Maker's Association:
- Oils (vegetable and fish).
- Tallow and animal fats of all kinds.
- Caustic soda.
- Solway soda.
- Rosin.

Norwegian Wholesale Grocers' Association:
- Sugar.
- Coffee.
- Sirup.
- Rice (of all kinds except bran).
- Tea.
- Honey (including artificial honey).
- Sago (and similar articles).
- Starch (of all kinds).
- Starch gum.
- Farina.
- Potato meal and flour.
- Desiccated coacoanut paste.
- Dried fruits (of all kinds).
- Dried potatoes.
- All other similar commodities.

Norwegian National Association of Grain and Flour Importers and/or Norwegian Millers' Association:
- Grain.
- Flour.
- Meal of all kinds (including oat and excepting potato).
- Beans.
- Peas.
- Lentils.
- Maize and other feeding stuffs, etc.).

Norwegian Chocolate Manufacturers' Association:
- Cocoa.
- Cocoa butter.

Norwegian Cottonmills Association.
- Cotton.
- Cotton yarn.
- Cotton waste.

Norwegian Margarine Manufacturers' Association.
- All materials used in the manufacture of margarine.

The Norwegian Paper Makers' Association.
- Rosin.
- Alum (including aluminous compounds of all sorts).
- Cotton felts.
- Woolen felts.
- China clay.
- Sulphur.
- Hoop iron.
- Baling wire.
- Bleaching powder.
- Leather machine belting.
- Lead.
- Soda, calcined (Solway soda).
- Soda, caustic.
- Soda, sulphate (salt cake).

Norwegian Wholesale Provision Merchants' Association.
- Meat of all kinds.
- Casings.
- Compound lard.

Royal Norwegian Automobile Club.
- Automobile tires and tubes.
- Motorcycle tires and tubes.

Norwegian Cycle Tire Importers' Association.
- Bicycle tires.

Lubricating Oil Merchants' Association.
- Lubricating oils.
- Lubricating greases.

Norwegian Tanners' Association.
- Skins.
- Hides.
- Tanning materials.

Cork Manufacturers' Import Association.
- Cork wood.
- Cork stoppers.
- Other manufactured articles consisting wholly or principally of cork, not including linoleum and similar materials.

Norwegian Drapers' Import Association.
- All cotton goods excepting raw cotton, cotton yarns, and fishing nets.
- All woolen goods excepting raw wool, woolen yarns, and paper-making felts.
- All piece goods and other manufactures of jute, hemp, flax, and tow, not including yarns and ropes.
- All silk goods.

Norwegian Woolen Mills Association.
- Raw wool.
- Woolen yarns.

Norwegian Fruit Importers' Association.
- Fresh fruit.

Norwegian Wine Importers' Association.
- Wines.

APPOINTMENTS ARE ANNOUNCED REGARDING HOUSING PROJECTS

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation announces the following appointments in connection with projected housing developments:

Bureau of Standards, Washington, D. C.: Architect, Donn & Deming, 808 Seventeenth Street NW., Washington, D. C.

Dayton, Ohio: Architect, Schenck & Williams, 908 Mutual Home Building, Dayton, Ohio; town planner, F. Vitaley, 527 Fifth Avenue, New York City.

Eddystone, Pa.: Architect, Rankin, Kellogg & Crane, 1012 Walnut Street, Philadelphia, Pa.; town planner, John Nolen, Harvard Square, Cambridge, Mass.; engineer, Charles F. Mebus, 907 Land Title Building, Philadelphia, Pa.

Elizabeth, N. J.: Architect, Charles W. Oakley & Hugh Roberts, Associated, 1259 Clinton Place, Elizabeth, N. J.; town planner, A. F. Brinkerhoff, 527 Fifth Avenue, New York City; engineer, C. D. Pollock, Park Row Building, New York City.

Pensacola, Fla.: Architect, Favrot & Livaudais, Title Guaranty Building, New Orleans, La.; town planner, Favrot & Livaudais, Title Guaranty Building, New Orleans, La.; engineer, Arthur Pew, Forsyth Building, Atlanta, Ga.

New Orleans, La.: Architect, Favrot & Livaudais, Title Guaranty Building, New Orleans, La.; town planner, Favrot & Livaudais, Title Guaranty Building, New Orleans, La.; engineer, J. W. Billingsley, Interstate Bank Building, New Orleans, La.

Watervliet (Troy), N. Y.: Architect, Stanton P. Lee, 55 Third Street, Troy, N. Y.; engineer, P. E. Green, engineering staff.

LIST OF LOANS TO RAILROADS

(Continued from page 17.)

financial agents were unable, under existing conditions, to provide for, and to pay large sums for new equipment and additions and betterments.

The total amount of money, therefore, which the Director General has disbursed, over and above all current expenses of operation, out of earnings of the railroad properties since January 1, and from current balances taken over on January 1, 1918, and from the Treasury's revolving fund up to September 1, 1918, is estimated at between $800,000,000 and $900,000,000.

In addition to the large sums which have been advanced directly to railroads, either on account of compensation or as loans, the Director General has advanced on account of orders placed by him for locomotives and cars now under construction, and which are being put in service as rapidly as completed, the further sum of $11,727,870.

GOVERNMENT PREPARING TO ROUND UP "SLACKERS" WHO FAIL TO REGISTER

(Continued from page 1.)

Government, and prosecution faces any one of them who, having fled the country to escape the draft, attempts to return. Under the terms of the law police officials in all the States, counties, and cities throughout the country are required to cooperate with the Department of Justice and other Federal agencies in enforcing the provisions of the act. Besides these agencies, however, are scores upon scores of private organizations, national or local in scope, that have been set up by patriotic citizens to ferret out the men who would shirk the call of their country. Among the larger of these are the American Protective League and the secret service branch of the Council of National Defense. And there is hardly a community of size anywhere in the country where there are not local organizations, many of them secret in character, that are constantly on the alert for information that will aid the Government in rounding up slackers.

Pursued to Foreign Lands.

For the man who has failed to register and for the man who has refused to obey or has ignored the orders of local boards, life is becoming increasingly miserable. The Department of Justice has on file the names of 3,000 slackers who fled to Mexico before June 5, 1917, to escape registration. Against each one of them a complete case has been prepared, so that immediate prosecution can be undertaken the moment the man attempts to recross the border, whether the attempt is made during the war or afterwards. Expatriation is the least of the penalties awaiting him. The present whereabouts of these slackers in Mexico is equally well known to the department, and close watch is kept on the individual movements of all of them.

Despite the fact that the majority of these men are from wealthy families in the United States who keep them supplied more or less liberally with funds, their lot is one of constant harassment. In Mexico City, for example, where the more wealthy ones have established a sort of colony, they are ostracized completely, not only by other Americans resident in the city who are above draft age, but by the natives as well. They are constantly subjected to insults and taunts as they pass through the streets.

Refused Work Abroad.

The status of those less well equipped with funds is in many instances deperate. Native and foreign business houses alike refuse them employment. At Guanajuato, for example, not only was a crowd of these slackers, applying for work at the mines, refused employment in spite of a labor shortage, but a committee of Americans living there is reported to have waited on them with a demand that they leave the town within a specified number of hours. Numbers of these slackers have sought peace in camps in isolated sections among mountains, others have been compelled to accept the lowest kind of menial labor on ranches, despised even by the peons with whom they work.

Just as the Government has the names of these men, so it has the names of those who fled to Canada to escape registration. With the going into effect of the British-American reciprocal draft treaty these men must either face conscription into the Canadian Army, or return to the United States to face imprisonment and ultimate induction into the service.

"Slacker" Raids Effective.

"Slacker raids" launched in various States from time to time by Federal agencies have been most effective in rounding up not only those who failed to register under the old law, but those who, having registered, failed to return questionnaires or to obey other orders of their boards. For example, in Chicago, July 11, 1918, one such raid hauled in 300 actual deserters, who were turned over to the military authorities, and 4,000 delinquents who had failed to file questionnaires. This raid was conducted by 5,000 agents of the American Protective League and all available police officers, who rounded up all men of draft age at ball parks, theaters, moving-picture houses, barrooms, poolrooms, restaurants, railway stations, parks, steamboat docks, and other places where young men were apt to be congregated, and demanded that they produce their final classification notices and registration cards. Those failing to do so were taken into custody. In Ohio on one day there were 1,000 such arrests.

The Arkansas Killing.

On Sunday, July 7, 1918, a deputy sheriff was killed near Pearson, Cleburne County, Ark., as a result of efforts of the county authorities to arrest certain deserters, resisters, and sympathizers to the number of 40, who had intrenched themselves in the mountains, armed with high-powered rifles. It was impossible for the local authorities to dislodge them, whereupon Gov. Brough, on being notified, ordered out three companies of Home Guards from adjacent counties with a machine gun company of the Fourth Arkansas Infantry and two machine guns. At the end of five days the armed resistance was broken up and 13 deserters surrendered.

Court authorities are manifesting small sympathy for those who are convicted under the law of aiding men to evade registration and service. At Los Angeles on June 29, 1918, for example, Mrs. Idell Kennedy and Dr. Frank T. Howenstine were each fined $5,000 and sentenced, respectively, to 11 and 10 years in the Federal penitentiary for conspiracy to aid a registrant fraudulently to claim exemption on the grounds of physical disability.

Women Helping Government.

Women in all communities, particularly those having relatives who have gone to the front, have been particularly helpful to the Government in ferreting out young men who failed to register. Tips from such women have time and again resulted in round-ups of slackers.

Demand Registration Cards.

Employers in various sections of the country are beginning to make it a requirement for all applicants for positions who are of draft age to present their registration cards and classification cards before giving them employment. Under the auspices of the Niagara Frontier Defense League, made up of manufacturers in the Buffalo district, for example, concerns employing in the aggregate 40,000 men and women have adopted a uniform application blank, which they require all male applicants for employment to fill out. Among other things this blank calls for information concerning the age, date, and place of birth of the applicant; whether he is a citizen; a description of his height, weight, hair, and eyes; whether he is married or single; his serial and order number in the draft; the town and precinct where he registered; and various other particulars called for by approximately 75 separate questions.

The registrant's protection is to have with him at all times his registration card until he has been classified, and thereafter his final classification card. Failure to carry these credentials will render him liable to arrest at any time.

RULING ON THE EXPORTATION OF DRIED FRUITS TO CANADA

The War Trade Board, after consultation with the United States Food Administration and the Canada food board, announces, in a new ruling (W. T. B. R. 213), that applications for licenses to export dried peaches and prunes to Canada will now be considered [illegible] as follows:

Every application for an export license must have attached thereto an import permit, issued by the Canada food board, Ottawa, to the consignee, for the importation of the quantity mentioned in the application for an export license.

Exporters, therefore, should obtain such Canadian import permits from their Canadian customers before making application to the United States War Trade Board for an export license.

ABSENCE FROM HOME NO EXCUSE FOR MEN FAILING TO REGISTER

The War Department authorizes the following from the office of the Provost Marshal General:

All men required to register under the new man-power law who expect to be absent on Registration Day from the jurisdiction of their local draft board should bear these facts in mind:

The obligation rests on you, and you alone, to see that your registration card, properly made out, is in the hands of your local board on or before Registration Day.

Arranged for Convenience.

It is for your convenience, however, and to avoid the necessity of your going [illegible] to register, that the following arrangements have been provided by this office for the registration of absentees:

(a) There is a supply of registration blanks at the office of every local board in the United States.

(b) A clerk of any board or a member thereof is authorized to record the answers of persons absent from the jurisdiction of their respective local boards and to certify to their registration cards.

(c) Upon application by you, your card will be made out by a clerk or member of the board to which you apply, turned over to you, and by you it must be mailed in time to reach the local board having jurisdiction of the area within which you permanently reside by the day set for registration.

Prompt Action Necessary.

(d) Therefore, as soon as practicable, go to the office of a local board and have your registration card filled and certified, as prescribed by the regulations (sec. 37), then mail the same to the local board having jurisdiction of the area within which you permanently reside.

If you do not know the designation and address of the local board, address the card to the mayor, in case your home is in a city of 30,000 population or over; to the clerk of your county, parish, or similar unit, in case your home is not in a city of 30,000 population or over; to the clerk of the county to which your county pertains for judicial purposes, in case it has no administrative organization; or to the clerk of your township, in case the area of your State or Territory is subdivided into divisions for the purpose of the administration of the selective-service law.

Note on Envelope.

Write also on the envelope which you have so addressed—

Registration card of _____
Street and number, or R. F. D. No.____
City, town, or post office_____

The mayor, county clerk, or township clerk, as the case may be, will forward the card to the proper local board.

Inclose a self-addressed, stamped envelope with your registration card for [illegible] registration certificate. Failure to get this certificate may cause you serious inconvenience.

Persons not exempted from registration by the President's proclamation and absent from their homes at training camps, and persons at schools, colleges, and other similar institutions, will be treated as absentees and should register as prescribed for absentees.

However, for their convenience, the local board having jurisdiction of the area within which any such institution is situated is authorized to deputize a competent person to certify to the registration cards of nonresidents in such institution (but not to furnish registration certificates or to register such persons) and to furnish a sufficient supply of cards to do so. It must be borne in mind that such registration must be made a sufficient length of time before the date set by the President for registration to enable such persons to mail the cards to the local boards having jurisdiction over the area in which they permanently reside. Failure to do this may cause serious complications for such persons.

ESTIMATES MADE BY PROVOST MARSHAL OF PROBABLE REGISTRANTS BY STATES

Figures Are Based on The Ratio Which Total Registration June 5, 1917, is Expected to Bear to Total Under New Act

The War Department authorizes the following from the office of the Provost Marshal General:

Estimates have been made by this office of the proportionate shares which the several States should contribute toward the total number of men to be registered under the recent act of Congress extending the age limits of the selective draft. These estimates are based on the ratio which the total registration of June 5, 1917, is expected to bear to the total registration under the new act.

Total Estimated at 13,190,000.

At the time that preparations were first being made for the registration under the law extending the ages to 18 and 45, both inclusive, the calculations of the Provost Marshal General, based on data furnished by the Census Bureau and by insurance actuaries, placed the total male population of the new ages to be included at 13,000,000 in round numbers. More accurately stated, the number was 13,190,000. But, although this is the estimated number of males of those ages, the law does not require persons in active military or naval service to register, such registration being obviously impracticable for these men. It can not be stated with certainty just what is the number of men of these ages in the Army and Navy. But all of the inductions under the selective-service law have been between the ages of 21 and 30; therefore all men between the ages of 18 and 20 and 32 and 45 now in active service in the Army and Navy must have come in by enlistment.

Army and Navy Enlistments.

The total number of enlistments in the Army, Navy, and Marine Corps to date is estimated at nearly 1,400,000. Of this number it is estimated that those under the age of 21 (which includes a small number under the age of 18) total about 245,000; and that the number between the ages of 32 to 45 is about 165,000; or an estimated total of 410,000 men in active military and naval service between the ages of 18 to 20 and 32 to 45. These 410,000 are, under the law, not obliged to register, and must, therefore, be deducted from the 13,190,000 in making estimates as to the number who are actually due to register. This deduction will leave about 12,780,000 as the approximate number of registrants to be expected if the maximum number is attained.

To ascertain the estimated shares of those registrants to be expected in the several States, the above figure of 12,780,000 has been distributed in the same ratio shown by the registration of ages 21 to 30 on June 5, 1917. This ratio, of course, will not be exactly fulfilled in the coming registration, owing to the shifting of the industrial population; the different distribution of ages in the different States, and certain other minor considerations, but it is the nearest ratio that is attainable.

Estimates By States.

The results are the following estimates for the respective States:

REGISTRATION.

State.	June 5, 1917.	Estimated, Sept., 1918.
Alabama	182,499	243,271
Arizona	37,355	49,794

Total	9,586,508	12,778,758

PURCHASES AND CONTRACTS TO BE MADE BY THE HARDWARE AND METALS DIVISION OF U. S. ARMY QUARTERMASTER CORPS

The following is a list of purchases and contracts to be made by the hardware and metal division of the office of the Quartermaster General of the Army, 1800 Virginia Avenue NW. The executive officers are:

Wm. A. Graham, chief.

Maj. H. J. Arnold, assistant to chief on outside relations (liaison officer).

Maj. H. P. Hill, assistant to chief on inside relations.

Procurement branch No. 1 (metals and heavy hardware), George E. Welles, chief.

Procurement branch No. 2 (small tools and chests), Wm. F. Fusting, chief.

Procurement branch No. 3 (camp and kitchen equipment), Maj. W. J. Peck, chief.

Procurement branch No. 4 (office equipment and sundries), G. H. Richards, chief.

Contract and purchase branch, Maj. Earl A. Darr, chief.

Production and inspection branch, Capt. Joseph Odlin, chief.

Administrative branch, T. M. Lynch, chief.

Unless otherwise stipulated, formal contract will be made.

Quotations to be submitted on or before dates specified below. Sealed bids not required unless so stipulated.

PROCUREMENT BRANCH NO. 2, SECTION 2–A.

Buyer, Mr. J. D. Rennick, Room 106. September 12, 1918.

Bits, gimlet:		
2/32-inch	gross	7
3/32-inch	do	14
4/32-inch	do	34
5/32-inch	do	45
6/32-inch	do	54
7/32-inch	do	45
8/32-inch	do	40
9/32-inch	do	27
10/32-inch	do	14
11/32-inch	do	7
12/32-inch	do	7
Bits, center:

SIX MEN IN THE U. S. NAVY COMMENDED FOR GALLANTRY

The Committee on Public Information issues the following:

Secretary Daniels has commended Alonzo Edward Seright, pharmacist's mate, third class, United States Navy, for his heroism in rescuing from drowning Pvt. H. H. Smith, United States Marine Corps, who fell overboard while petrolizing mosquito-breeding areas near Scott's Island. Seright swam 50 feet and dived repeatedly before he succeeded in locating Smith in 15 feet of water, partially embedded in the mud. After much exertion he brought Smith to the surface, apparently dead, but by prompt application of first-aid measures resuscitated him. Seright enlisted in Butte, Mont. Mother, Mrs. Louisa Seright, 1014 Orville Avenue, Kansas City, Kans.

Others are Commended.

Others commended by Secretary Daniels for acts of heroism are: Adam J. Bettinger, boatswain's mate, first class, and Ernest L. Pemberton, seaman, second class, both of the United States Naval Reserve Force, for gallant attempt to rescue a member of the crew of a British ship, who was struggling to make headway against the tide. Bettinger enlisted at New York. Father, Adam J. Bettinger, sr., 14 Judge Street, Brooklyn, N. Y. Pemberton enlisted at New Haven, Conn. Father, William M. Pemberton, 188 Whitney Avenue, New Haven, Conn.

Otto A. Valfer, yeoman, third class, United States Navy, for rescuing a woman bather at Howard Beach, Long Island, N. Y. Valfer enlisted at New York. Mother, Mrs. Hanna Valfer, 333 East Seventy-ninth Street, New York.

Louis Friedman, seaman, second class, United States Navy, for jumping overboard with all his clothes on and rescuing a man who was unable to save himself in the strong tide that was running. Friedman enlisted in San Francisco. Father, Louis Hoffman, Twenty-ninth and Montana Avenue, San Francisco, Cal.

Frederick L. Cook, electrician, second class, United States Navy, for his devotion to duty when the American schooner Madrugada was sunk by an enemy submarine on August 15. The reports show that he stayed at his post under fire after all hands had left, sending out S O S calls and finally was forced to jump overboard to reach one of the small boats. Cook enlisted at New Orleans. Father, Frederick William Cook, 1928 Gravier Street, New Orleans, La.

MAIL FOR CAMP LEWIS.

OFFICE OF FIRST ASS'T P. M. GEN.,
Washington, August 29, 1918.

Postmasters are requested to inform patrons that mail for soldiers at Camp Lewis, Washington, should be addressed as follows:

Private ----------
Company ----------
---------- Regiment,
Camp Lewis, Washington.

Such mail is not delivered through either the Tacoma, Wash., or the Lewis, Wash., post office, and the name of either office should not be included in the address.

Postal employees will dispatch mail for Camp Lewis directly to the camp and not to the Tacoma or Lewis post office, except in cases where the address may include a box number, street and house number, or hotel address in Tacoma.

J. C. KOONS,
First Asst. Postmaster General.

Motor Transport Corps Created to Take Over Complete Control of All Motor Vehicles in Army

The War Department authorizes the following statement:

In preparation for the more rapid movement of troops and supplies of the American Expeditionary Forces, the War Department, in orders just made public, has made a sweeping change in organization by creating a Motor Transport Corps, to take over complete control of all motor vehicles in the Army, from bicycles to motor trucks. This service, which has heretofore been a part of the Quartermaster Corps, has grown to such proportions that it has been found necessary to establish it as a separate corps, and its further rapid expansion is planned.

Adopted by British and French.

The French and British Armies long ago adopted the plan of putting their entire motor equipment under a single head, and experience in handling our forces in France has demonstrated the necessity of similar action on the part of the United States. All equipment and personnel in the various corps, with the exception of tanks and caterpillar tractors, is transferred to the new corps, which is being organized by Col. Charles B. Drake, a graduate of West Point, class of '96, and an officer experienced in motor transport work. Eventually his command will consist of approximately 5,000 officers and 200,000 men.

Among the many advantages sought by the creation of the Motor Transport Corps is the more perfect standardization of equipment, resulting in greater efficiency and economy of operation and permitting a more fluent interchange of drivers and parts. The problems of supplying parts and making repairs will be greatly simplified.

Present Service in France.

The present motor establishment in France includes many repair stations, some of them operated by from 500 to 1,500 mechanics and other skilled men each, but the program of the Motor Transport Corps provides for greatly increased facilities along these lines. Repair work is carried on in garages, parks, depots, and reconstruction shops. A service park is a mobile garage which can be moved rapidly to any point where it is needed. An overhaul park is a large station where heavy repairs can be made, and a reconstruction park is equipped to completely rebuild broken-down or shell-shattered machines. Under the new organization the work of salvaging damaged machines, already highly developed, is to be given increased attention. All this work is necessarily in the hands of skilled men, and the personnel must be greatly increased to provide the transport service that will be needed next year.

Truck Most Important Vehicle.

While the Motor Transport Corps handles many kinds of motor-propelled vehicles, the Army truck is the most important, and the demand for men especially qualified to drive and handle the trucks is great. Men qualified for this work by their experiences in civil life have offered themselves in numbers, but it has been found necessary to establish several motor transport schools in addition to the one at Jacksonville, Fla. In these schools candidates will learn, under competent instructors, the intricate mechanism of gas engines, so that they will be qualified to keep their trucks running under the trying conditions existing along the front lines, where their principal work will be done.

Men sent to these camps will be carefully chosen, as the work requires initiative and ability. Among those who have already enrolled are many who occupied positions of responsibility in civil life. At Jacksonville now are bankers, high-salaried executives, engineers, and men of many professions who have been attracted to the corps by its opportunities for active service oversea after a comparatively short course of training. With the increasing use of motor transport in moving troops from point to point on the battle line, the life of the motor driver is becoming progressively more adventurous and exciting.

Vital in Each Big Battle.

Motor trucks are taking a more vital part in each successive big battle. In the recent counteroffensive of the French and Americans at Chateau-Thierry motor trucks carried several regiments of troops to critical points in the line and supplied them with heavy and light guns, ammunition, horses, mules, and even wagons for supply train use over terrain that was not feasible for motor vehicles.

Motor trucks made it possible for the French to concentrate troops, ammunition, and supplies sufficient to stop the Germans at Verdun. When German aviators destroyed the railroad facilities, Gen. Joffre called motor trucks into service to replace the wrecked trains, which they did with entire success. In attacking along the Marne recently the American units were supported by machine guns mounted on trucks and even passenger cars, which swept the enemy lines with a storm of fire. Trucks were also used extensively to bring up reserves to points of the line where they were badly needed. Much of the work of the corps must be done at night, and it is well known that much-used roads near the front are regularly searched by the enemy artillery, so that the Motor Transport Service, while technically noncombatant, is really quite as active and dangerous as many fighting branches.

Importation of Fish from Newfoundland and Canada

The War Trade Board announces that under a new ruling (W. T. B. R., 212), the privilege of importing fresh fish, including fresh shellfish, from Newfoundland and Canada under general license PBF 17, rule No. 216, has been extended to include cured or preserved fish and shellfish, when said fish are products of the fishing industries of Newfoundland and Canada.

REORGANIZATION OF OPERATION OF GENERAL STAFF IS EFFECTED

The War Department authorizes the following statement:

A reorganization of the operation of the General Staff is effected by General Order No. 80, which has just been issued. The changes made are principally for the redistribution of functions. One division is abolished while another is created. No change in personnel is affected by the new arrangement.

Executive Division Abolished.

The Executive Division, which was under the direction of the executive assistant to the Chief of Staff, is abolished. One of its principal duties, that of military intelligence, is taken over by the newly created Military Intelligence Division, which was the military intelligence branch. The personnel branch is transferred to the Operations Division. There will operate under the direction of the Director of the Operations Division a motor transportation branch, which will supervise the functions of the newly created Motor Transportation Corps. This branch of the staff is made necessary to prevent duplication and to correlate the motor activities of the various bureaus whose motor vehicles will operate under the Motor Transport Corps.

The executive assistant, under the direction of the Chief of Staff, will handle general administration and control coordination as well as statistics of troops and supplies.

PLANNING WINTER EQUIPMENT FOR U. S. TROOPS IN SIBERIA

The War Department authorizes the following:

The winter equipment for the American troops in the Siberian Expeditionary Forces has been decided upon, and the Quartermaster Corps is now getting ready the various items of the equipment so that our soldiers in Siberia will be comfortable during the cold months.

The Quartermaster Corps has already had considerable experience in furnishing equipment for northern countries since the American troops stationed at the various posts in Alaska have required special equipment. The quartermaster specifications for winter equipment for the Siberian expedition are practically the same as those for our troops in Alaska.

The various special items, in addition to the regular overseas equipment which is furnished to all troops, are fur caps, fur mittens, moosehide moccasins, fur overcoats, fur parkas, and mucklucks. The parka is a fur coat coming to about the knees and having a fur hood attached. Mucklucks are winter boots which are used in Alaska and other northern countries.

ASSIGNED TO NEW DUTY.

Special Orders, No. 196:

502. Maj. H. Stuart Hotchkiss, Aviation Section, Signal Corps, is relieved from further duty under the director of Military Aeronautics and assigned to duty under the director Bureau of Aircraft Production.

THE DIRECTOR OF MUNITIONS APPOINTS TWO ASSISTANTS

The following is authorized by the War Department:

Mr. Crowell, the Director of Munitions, announces that he has selected Thomas Nelson Perkins and G. H. Dorr to act as assistant directors of munitions.

Mr. Perkins was appointed counsel to the War Industries Board in October, 1917. In that capacity he accompanied Col. House on his trip to England and France last autumn. On his return, after serving about six weeks as a member of the priorities committee of the War Industries Board, he became assistant to Mr. Stettinius when he was appointed Surveyor General of Supplies and has been associated with Mr. Stettinius until this time.

Mr. Dorr was connected with the War Trade Board from August to December, 1917. Since that time he has served in the War Department as an assistant to Mr. Crowell. He was formerly assistant United States attorney for the southern district of New York.

HARDWARE AND METAL PROPOSALS

(Continued from page 21.)

PROCUREMENT BRANCH NO. 3, SECTION 3–B.

Buyer, Capt. J. G. Williams, Room 114. September 15, 1918.

Naphtaline	pounds	107,580
Boiler, 10-horsepower		1
Scales, Sawyer		5,000
Packing, sheet	pounds	25
Packing, hydraulic	boxes	13
Gaskets, rubber		1,000
Valves, rubber, pump		250
Valves, iron, globe		100
Tanks, hand pump		1,200
Pails, fire		4,000
Filters, charcoal		48
Balers, power, electric		19
Acid, muriatic	pounds	15,210
Mats, rubber, cuspidors		500
Benzine	gallons	2,575

PROCUREMENT BRANCH NO. 2, SECTION 2–F.

Buyer, Mr. E. A. Moye, Room 432. September 12, 1918.

Punches, blacksmith's hand, each ⅜ inch by ½ inch, ⅜ inch by 7/16 inch, ⅝ inch by ½ inch, 1 inch by ¾ inch	7,730

PROCUREMENT BRANCH NO. 4, SECTION 4–B.

Buyer, Mr. H. D. Ainge, Room 542. September 10, 1918.

Field desks, large	40,000
Field desks, small	10,500

PROCUREMENT BRANCH NO. 4, SECTION 4–D.

Buyer, Mr. G. H. Grebe, Room 538. September 12, 1918.

Ribbons, adding machine, Burroughs, 1⅞-inch wide	23,478

PROCUREMENT BRANCH NO. 4, SECTION 4–D.

Buyer, Lt. W. S. Lefebre, Room 536, September 10, 1918.

Trench mirrors, brass-nickeled, 20-gauge, in cases, snap-fastener case	1,000,000

MILLION EMERGENCY RATIONS FOR OUR MEN IN FRONT LINES

The War Department authorizes the following:

Orders have been given for the supply of 1,000,000 emergency rations by the subsistence division of the Quartermaster Corps. The emergency ration corresponds to the iron ration of the British troops. It is carried in an air-tight, gas-proof container and is sufficient to maintain a man for one day, sustaining his full strength and vigor. It is strapped in the pack of the soldier going over the top, and may be used only according to the instructions given when the emergency ration is issued.

Ground Meat and Wheat.

The emergency ration is composed of ground meat and wheat compressed into a cake. There is also a block of sweet chocolate. The bread-and-wheat component may be eaten dry or, if possible, stirred into cold water. The cake, when boiled for 5 minutes in three pints of water, results in a very palatable soup, or, when boiled in one pint of water for 5 minutes, it makes a porridge which may be eaten hot or cold. When cold it may be sliced and fried, if bacon or other fat is available. The chocolate component of the emergency ration may be eaten dry or made into hot chocolate.

Sealed Bids Wanted

General Engineer Depot, United States Army, 1438 U Street, Washington, D. C.—Sealed bids are wanted until dates indicated under circular proposals as follows for furnishing miscellaneous supplies for the General Engineer Depot. Additional information may be had upon application to the purchasing officer as above:

Proposal No. 1093, opening of September 10, 1918.—144 Cordeau slitters, as per specifications.

Proposal No. 1094, opening of September 13, 1918.—6 steam-driven nontraction drilling machines, with equipment for each.

Proposal No. 1095, opening of September 10, 1918.—256,620 pounds of machine bolts, as per specifications; 61,000 pounds of hot-pressed hexagon nuts, as per specifications; 23,000 pounds standard wrought washers, as per specifications; 515 kegs button-head rivets, as per specifications.

Proposal No. 1097, opening of September 6, 1918.—853 jacks, as per specifications.

LIGHTHOUSE PROPOSALS.

Sealed proposals will be opened by the Superintendent of Lighthouses, Charleston, S. C., 2 o'clock p. m. September 20, 1918, for 47,000 feet board measure cypress lumber, to be delivered to ship's tackle at Charleston, S. C.; Georgetown, S. C.; Savannah, Ga.; Brunswick, Ga.; Jacksonville, Fla.; Fernandina, Fla.; or Palatka, Fla. Information upon application to the above office.

RECLAMATION SERVICE PROPOSALS.

The United States Reclamation Service, Interior Department, will receive proposals at its office at Denver, Colo., until 2 o'clock p. m. September 13 for radial gates and hoists for the Rio Grande project, and until 2 o'clock p. m. September 18, 1918, for cast-iron gates, gate stands, and manholes for the North Platte project.

AMENDS ORDER TO PROVIDE WAR TRADE BOARD MEMBER

EXECUTIVE ORDER

AMENDING THE EXECUTIVE ORDER OF OCTOBER 12, 1917, TO PROVIDE FOR A REPRESENTATIVE OF THE WAR INDUSTRIES BOARD ON THE WAR TRADE BOARD.

By virtue of the authority vested in me by "An act to define, regulate, and punish trading with the enemy and for other purposes," approved October 6, 1917, and by Title VII of the act approved June 15, 1917, entitled "An act to punish acts of interference with the foreign relations, the neutrality, and the foreign commerce of the United States, to punish espionage, and better to enforce the criminal laws of the United States and for other purposes," I do hereby amend the order of October 12, 1917, vesting power and authority in designated officers and establishing the War Trade Board, composed of representatives, respectively, of the Secretary of State, of the Secretary of the Treasury, of the Secretary of Agriculture, of the Secretary of Commerce, of the Food Administrator, and of the United States Shipping Board, by changing paragraph I of said order to read as follows:

"I. I hereby establish a War Trade Board to be composed of representatives, respectively, of the Secretary of State, of the Secretary of the Treasury, of the Secretary of Agriculture, of the Secretary of Commerce, of the Food Administrator, of the United States Shipping Board, and of the War Industries Board."

The order of October 12, 1917, as so amended is hereby confirmed and continued, and all orders and proclamations heretofore issued vesting power and authority in the War Trade Board are hereby confirmed and made applicable to the War Trade Board constituted in accordance with this order.

WOODROW WILSON.

THE WHITE HOUSE,
August 20, 1918.

ACCOUNTANTS AND COST CLERKS NEEDED IN AIRCRAFT SERVICE

The Bureau of Aircraft Production has been authorized to make a limited number of voluntary inductions of men registered under the present draft. An urgent need exists for accountants and manufacturing cost clerks, who have had either office or factory experience. Induction is open only to men in class 1–A, who are classified for limited service or who are in the remediable group, and to men placed in deferred classes on account of dependency. The work to which applicants will be assigned will be not only of great service to the Government in the production of aeroplanes, but it will prove of benefit as well to the individual in the training which he will receive. Applicants should communicate with personnel officer, finance division, Bureau of Aircraft Production, 119 D Street NE., Washington, D. C.

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

INSTRUCTIONS ON AUDITING TO RAILROAD TREASURERS

The United States Railroad Administration issues the following:

P. S. & A. CIRCULAR NO. 23.

WASHINGTON, D. C., *August 15, 1918.*

The accounts of Federal treasurers and paymasters, charged with the responsibility of handling moneys, shall be audited at least once every six months during Federal control. The first audit of those accounts shall take place within three months of the date hereof.

The audit of such accounts shall be under the direction of the chief accounting officer of the carrier or such of his assistants as he may delegate to conduct the work.

The cash balance on deposit at the various depositories shall be verified by appropriate forms of certificates of balances obtained from each depository, and the Federal treasurer's cash balance with each depository shall be reconciled therewith.

The original report of such audits shall be retained in the appropriate files of the accounting department. A copy of such report shall be submitted to the Federal manager and to the undersigned, which shall include a statement of the amounts on deposit and the names of the depositories in which the funds are held.

Shortages, other than those of a petty nature, or any other unusal condition in the Federal treasurer's cash accounts or records, disclosed by the audit, shall be promptly reported by telegram to Mr. J. S. Williams, Director of Finance, Washington, D. C., and a copy thereof forwarded by mail to the undersigned.

Any complete audit of the Federal treasurer's cash account conducted under the jurisdiction of the chief accounting officer of the carrier in connection with the opening of the new accounts prescribed in General Order No. 37, may be accepted as a compliance with this circular for the first audit of the year ending December 31, 1918, provided that a copy of the report of the audit is filed with the undersigned and the accounts are again audited before the close of the year.

C. A. PROUTY *Director.*

Women's Service Section For Federal Railroads

The United States Railroad Administration, Division of Labor, issues the following:

WASHINGTON, *August 28, 1918.*

CIRCULAR No. 2.

Effective August 29, the Women's Service Section of the Division of Labor is hereby created, and Miss Pauline Goldmark is appointed manager, with office at Washington, D. C.

The manager of the Women's Service Section will give consideration to conditions of employment of women on railroads under Federal control.

W. S. CARTER,
Director, Division of Labor.

Approved:
W. G. MCADOO,
Director General of Railroads.

NEW ITALIAN REGULATIONS CONCERNING COTTON IMPORTS

The War Trade Board authorizes the following statement:

To all shippers:

For your convenience and guidance the War Trade Board directs your attention to the following regulations which have been adopted by Italy concerning the regulations of cotton imports:

(1) The Italian Royal Minister of Industries, Commerce, and Labor has instituted a special office in order to supervise all purchases of raw cotton and to regulate the execution of contracts between Italian cotton merchants and American firms.

(2) The title of the new office is Ufficio Cotoni Ministero Industria Commercio, Rome, Italy.

(3) American firms are advised that new purchases of cotton or the execution of contracts already consummated are subject to the approval of the aforementioned cotton office. This approval must be communicated by the importer in Italy to the prospective exporter in the United States, and should be indicated in the application for export license.

(4) In connection with its duties the Ufficio Cotoni Ministero Industria Commercio will, among other things, consider the available tonnage and the financial, military, and industrial requirements.

(5) The attention of exporters of raw cotton to Italy is directed to the fact that in the future ocean bills of lading need not include the clause. "Notify Ufficio Cotoni Ministero Industria Commercio, Rome."

CHANGES IN RULE FOR CONTROL OF PAPER USED IN PERIODICALS

The War Industries Board authorizes the following:

The pulp and paper section of the War Industries Board announces this change in its regulations for the control of paper used in the production of periodicals, issued August 23, applying to suggestions made for discontinuance of certain practices considered wasteful and unbusinesslike under war conditions.

"Since issuing the above rulings the Post Office Department has called attention to the fact that Suggestion 9 is not in accordance with the department's rules."

Substitute the following for Suggestion 9:

(9) Selling premiums with periodicals unless a price is put upon the premium for sale separately and the combined price is at least the full price of the premium and 75 per cent of the published subscription price of the periodical.

The original Suggestion 9, now amended, was:

(9) Selling premiums with periodicals unless a price is put upon the premium for sale separately, and the combined price is at least 75 per cent of the sum of the individual prices.

Luxuries as usual means a victorious Germany. Save and buy war-savings stamps.

CARE IN PLACING U. S. CONTRACTS WHERE HOUSING IS INADEQUATE ADVISED BY THE GENERAL STAFF

TOWNS AND CITIES OVERCROWDED

Supply Bureaus of War Department To Consider Local Conditions for Workmen Before Letting Awards For Manufacture of Munitions.

The War Department authorizes the following:

Housing and transportation conditions have become so congested in some 60 towns and cities where war supplies are being manufactured that it has become necessary for the General Staff to advise all of the supply bureaus of the War Department to give careful consideration to local conditions before placing contracts.

In each of the 60 towns it has been found necessary for the Bureau of Industrial Housing of the Labor Department to make provision to expend Federal appropriations in order to relieve shortage of housing and transportation. The Bureau of Industrial Housing has a large amount of data which indicate great expansion in industries in the cities and towns mentioned.

Exceeding High Labor Turnover.

At the present time it is found that the extreme congestion of living conditions is so great that the use of beds three shifts a day have become imperative. This condition has created an exceedingly high labor turnover, which has made for increased cost and delay in the completion of work.

It is appreciated that War Department contracts may have to be expanded at these points, in spite of the known congestion, but the bureaus are advised that it should be done only after the most careful consideration. The bureaus are warned that the funds at the disposal of the Labor Department for providing housing to meet the increased demands are limited, and it is desired to avoid such expenditures wherever possible.

The General Staff will see to it that the placing of contracts in these towns is reduced to the minimum, and has especially instructed the Quartermaster Corps to avoid these points because of the relative flexibility of their contracts.

Regulation of Orders.

It is not the object to cut off new orders in the districts mentioned, but to regulate them. Where it is a question of new plants requiring additional power, additional labor, or the building of new structures, or the need of largely increased facilities, the disposition of the General

(Continued on page 3.)

INVENTORY OF ALL STEEL STOCKS IN THE COUNTRY BEING TAKEN

War Industries Board Moves to Divert Entire Supply to Government Needs.

A country-wide inventory of stocks of steel on hand is being made by the War Industries Board at the instance of its chairman, Bernard M. Baruch, in cooperation with the Census Bureau of the Department of Commerce. The ascertainment of the supply of steel is of first importance in view of the deficiency of production of steel for direct and indirect war needs.

Present Estimated Production.

The present estimated total production of steel in sight is 17,000,000 tons, and war demands total over 23,000,000 tons, with the demand constantly rising. In a recent interview with the Washington newspaper correspondents, Mr. Baruch announced he could not approve requests for an ounce of steel for domestic uses, because of the imperative need of meeting the war demands.

The Census Bureau through its equipped census-taking organization, is sending questionnaires to more than 40,000 manufacturers in this country asking complete reports of stocks of steel on hand down to the smallest holdings. It is sought to reach every manufacturer who uses steel in any way and in any amount in his industry. Cheerful compliance with the Government's plan to inventory the stocks on hand is expected confidently by the War Industries Board, because of the win-the-war need that prompts the step, and because of the general character of the inquiry.

A number of industries—such as the automobile industry—have been called upon to report stocks of steel on hand that the War Industries Board may be guided in making an intelligent administration of the steel stocks. Mr. Baruch decided, however, it was necessary to gather complete information from all steel-using industries and the War Industries Board determined on a general inventory from all manufacturers.

ORDNANCE BRANCH OFFICE OPENED

St. Louis District Headquarters Located in Equitable Building.

The War Department authorizes the following from the Army Ordnance Department:

The Army Ordnance Department announces that the St. Louis District Ordnance Office, headquarters for the recently established St. Louis district, has been opened. The office is on the tenth floor of the Equitable Building, St. Louis. Mr. M. E. Singleton is district ordnance chief for the St. Louis district.

ACTING SECRETARY OF WAR IN AN AUTHORIZED INTERVIEW TELLS OF MUNITION OUTPUT

BIG NEVILLE ISLAND GUN PLANT

To Cost $150,000,000 and Produce Only the Largest Cannon—Supplies of Small Arms, Powder, Motor Equipment, Etc.

Official report of newspaper interview with the Acting Secretary of War:

I will give you the facts about the big gun plant we are constructing at Neville Island. We signed a contract with the United States Steel Corporation to build and operate without profit this plant for guns of the larger calibers. This is the biggest plant of this kind ever conceived, and will build guns of not less than 14-inch. The site is just below Pittsburgh and covers about 1,000 acres. The housing will be on the hills south of the island. The amount of money involved is $150,000,000. This plant will handle a tremendous amount of material.

Questions and Answers.

Q. Regarding the $150,000,000. Will it cost the Steel Corporation that much?

A. No; the United States.

Q. Then they are building it with our money?

A. Yes; without profit.

Q. Will this plant be available for other uses after the war?

A. The plant will always be able to make steel and heavy forgings. A great deal of the machinery is special for large-gun manufacture.

Q. Will the plant be available after the war for naval guns?

A. The Government will retain it after the war.

MUNITIONS.

The Artillery program I can not say much about.

Q. Are any other old-established plants besides Bethlehem engaged in this work?

A. The only old plant is the Bethlehem. They have speeded up and are going as fast as they can. All the other plants are new. Sometime these plants will show results.

ARTILLERY AMMUNITION.

This is in about the same condition as Artillery. Mortars and grenades are in same condition. We have shipped 250 155-mm. howitzers to France. We are shipping what we can, but production has not yet begun.

MACHINE GUNS.

We are producing between 25,000 and 30,000 guns per month. Of the Browning

MORE THAN 250,000 AMERICANS LANDED IN FRANCE IN AUGUST, GENERAL MARCH ANNOUNCES

REVIEW OF WEEK'S OPERATIONS

Chief of Staff in Press Interview Gives Locations of Several U. S. Divisions—Gen. Graves Arrives at Vladivostok With New Force.

Press interview by Gen. March, September 4:

The last time I talked to you, on last Wednesday, the British and French were fighting along a 60-mile front from the Scarpe to the Oise. The British, during this fighting, met with the principal resistance, but fought their way through the lines, while with the French the action of the enemy in front of the French line was more or less of a retirement forced by the British successes farther north.

The French advanced south of the Somme so quickly on a 25-mile front that they gained from 5 to 6 miles in one day—last Wednesday. At that point along the Canal Du Nord the Germans tried to hold the French without complete success. The French crossed the canal at several places and near Noyon have advanced more than a mile beyond it.

The Somme River has been crossed by the British, resulting in the capture of Peronne, and considerable gains north of it. In the sector east of Arras, Canadian troops have driven straight forward across the Hindenburg line across the so-called Drocourt-Queant switch, on an 8-mile front, and have reached a point where they are 7½ miles from Cambrai, which is their objective.

On the front north of the Somme the British have advanced 14 miles since the drive began August 21.

Enemy Retreat in Flanders.

In Flanders the enemy has withdrawn without being under special pressure, falling back directly toward the Hindenburg line, and to-day the Flanders salient has practically straightened out. The American division which took part in that withdrawal has been identified as the 30th, which is composed of troops from Tennessee, North Carolina, and South Carolina. This division was taken across the ocean by Gen. Reed, who was at that time the commanding general. Since Gen. Reed has been given a corps, the senior brigadier general of the division will be in command until a major general is assigned to it. This officer has not as yet been identified.

North of Soissons the Americans and French have been fighting steadily and advancing against strong German resistance against some of their best divisions at this point. The captures of Juvigny and Tergny-Sorny were made by our 32d Division. This division was raised largely from Michigan and Wisconsin troops and commanded by Gen. Haan. The nearest point to the old Hindenburg line reached by the French in this advance is now less than 3 miles.

We have received cable information of the arrival of Maj. Gen. William S. Graves in Vladivostok to assume command of the American forces there. He carried out with him on the ship 43 officers and 1,888 men to supplement those already there.

By the 31st of August the number of American troops embarked for all fronts, including Siberia, Italy, England, and France, is past the 1,600,000 mark.

Questions and Answers.

Q. Where are the 108th Infantry, 106th Field Artillery, 102d Trench Mortar Battery, and 102d Engineers?

A. These elements belong to the 27th Division. That division is still with the British in Flanders.

Q. Have these elements been in action there?

A. We have no report to indicate it. The American division in action with the British turns out to be the 30th.

Q. What American division was in the Mount Kimmel fighting?

A. The 30th Division.

Q. Can you give us the number of men of the 102d Infantry who have been returned to this country?

A. Our returns show that the total number of casualties returned from that outfit has been 74. For the month of August, 27 came back.

Q. Press reports state that 260,000 American troops landed in France in the month of August. Can that be verified here?

Troops Landed in August.

A. I give out statements indicating the embarkations, and, of course, they are the only figures that I can vouch for myself. A ship gets out on the high seas and it may be submarined, and we have then to verify the losses and subtract them from the number embarked to get the number landed. Then we have men landed in British ports that pass through England. Some of these may become sick and their organizations be landed in France without them, so that the number of men that land in France will not be the same as the number of men embarked from the United States, until a certain time has elapsed and those casuals rejoin their organizations. The fact of the matter is that as far as we can estimate it the number of 250,000 is short. We have actually landed in France more than that.

Q. What is the largest number of men heretofore landed for any month?

A. We do not get an exact number of the men landing in France, so anything I say would be an estimate, but as far as we can estimate we have gone as high as 285,000 men.

The Eighteenth Division.

Q. Has the commander been named for the 18th Division? If so, whom?

A. This is one of the new divisions which is being organized in the United States, and a permanent major general has not as yet been assigned to it. The senior brigadier general is Gen. Estes, one of the recent appointees who has been assigned to this division.

Q. Has the 39th Division reached France? Has the 36th Division reached France?

A. The 39th Division is now in process of landing, part of it is now ashore and part on shipboard. The 36th Division is entirely landed.

Q. Where is the Missouri Guard located?

A. It is with the 35th Division, and is located in the Vosges.

FEDERAL RESERVE BOARD'S WEEKLY BANK STATEMENT

Increases of about 34.5 millions in the banks' holdings of discounted bills and of 11.7 millions in their total cash reserves, accompanied by an increase of about 60 millions in their Federal reserve note circulation, are indicated by the board's weekly bank statement issued as at close of business August 30, 1918.

Investments.—Holdings of war paper, i. e., member banks' notes and customers' paper secured by Liberty bonds and Treasury certificates show an increase for the week of 43.7 millions and now aggregate 896.2 millions, all the banks except those at Chicago and Kansas City reporting substantial increases in the amounts of this class of paper on hand. Of the total discounted bills held, the percentage of war paper was 62.8 per cent, as against 61.2 the week before. Acceptances on hand show net liquidation of about 4 millions, the larger decreases being reported for the New York and San Francisco banks. Additional issues of 2 millions of one-year 2 per cent Treasury certificates to secure Federal reserve bank notes account for a like increase in United States Government short-term securities. Total earning assets show an increase for the week of 32.5 millions.

Deposits and Withdrawals.

Deposits.—Net withdrawals of 68.3 millions of Government funds from the banks in the interior are noted, all the banks except New York and Minneapolis reporting substantial reductions in Government deposits held. Members' reserve deposits increased 19.2 millions, while net deposits declined 93.2 millions.

Reserves.—A further gain of 10.7 millions in gold reserves is shown, besides considerable transfers of credits in the gold settlement fund from New York and San Francisco to other banks. The banks' reserve percentage declined during the week from 56.7 to 56.4 per cent.

Note circulation.—Federal reserve agents report a net addition of 55.1 millions to outstanding Federal reserve notes. The banks show a total increase in Federal reserve note circulation of 59.9 millions, besides an increase of 3.8 millions in their aggregate liabilities on Federal reserve bank notes in circulation.

Capital.—A gain of $418,000 in paid-in capital is due largely to payment for Federal reserve bank stock by newly admitted members, considerable increases in capital account being shown for the New York, Chicago, Philadelphia, and Cleveland banks.

Condition of Member Banks.

Substantial liquidation of loans and investments, including United States war obligations, also large withdrawals of Government funds from depositary institutions, are indicated in the August 23 report of condition of 735 member banks in leading cities.

United States bonds, other than circulation bonds, on hand indicate an aggregate decrease of 27.6 millions, of which 14.9 millions represents the decrease at the central reserve city banks. Treasury certificates on hand fell off 19.7 millions, of which about 17 millions represents the decrease at the member banks in the three central reserve cities.

HOW SICK PERSONS SHOULD BE REGISTERED EXPLAINED IN NEW INSTRUCTIONS TO LOCAL BOARDS

NOT EXEMPT BECAUSE OF ILLNESS

Those Unable to Appear May Cause Other Competent Persons to Get Cards—Latter Will Be Deputized To Fill Out Certificate and Report.

The War Department authorizes the following from the office of the Provost Marshal General:

The new man-power act does not exempt sick persons from registering on Registration Day, if they come within the extension of the age limits. But for the convenience of such persons, and in order that they will not have to appear personally before their local boards for enrollment, the following arrangement has been made in the instructions sent out to draft officials by this office:

Any person who, on account of sickness, is unable to present himself for registration on the day set by the President will cause some competent person to apply to a local board for a copy of the card and for authority to fill it out (including the registrar's report on the back thereof). If satisfied that the case is bona fide, the member of the board to whom the request is made will deputize the person applying for the card to make out the card and the registrar's report, first carefully explaining the card.

Beneath the space provided for the "date of registration" shall be stamped or written the designation of the local board so deputizing the person applying for the card, and below the designation shall be written the word "sick."

When made out, the card will be mailed by the sick person, or delivered by his agent to the local board having jurisdiction of the area in which the sick person permanently resides.

TWO NAVY MEN AT SEA IN OPEN BOAT 6 DAYS BEFORE RESCUED

The Navy Department is informed that the two members of the naval armed guard of the United States cargo steamship *Joseph Cudahy*, who were picked up 65 miles off the Spanish coast, had been afloat in an open boat for 6 days before they were rescued. The *Cudahy* was sunk August 17, about 700 miles from the British coast, and the nearest point on the Spanish coast was more than 300 miles distant. The two men were William Joseph Hermann, seaman, second class; mother, Mrs. Elizabeth Hermann, 160 Arlington Street, San Francisco, Cal.; and Henry Beckmann, seaman, United States Naval Reserve Force; sister, Minnie Heinz, 2849 Steiner Street, San Francisco, Cal.

The other members of the armed guard were rescued by other steamers and brought to an Atlantic port.

GAITER AND CANVAS SHOE FABRIC COLORS LIMITED IN WAR INDUSTRIES BOARD ORDER

Manufacturers, However, Will Be Permitted to Dispose of Finished Stocks on Hand—Text of the Letter Sent Out by the Board.

The War Industries Board authorizes the following:

Following action by the War Industries Board restricting colors of leathers and fabrics for shoes to black and two shades of tan, an additional order has been put out by the hide, leather, and tanning materials section, of which C. F. C. Stout is the head, limiting gaiter fabrics to pigeon gray and dust tan and duck fabrics for canvas shoes to olive brown and ecru colors, as represented on the Standard Color Card of America.

Manufacturers will be permitted to dispose of finished stocks of fabrics and shoes on hand in the ordinary course of business, but fabric manufacturers for the gaiter and canvas shoe industry are advised against further productions in colors other than those authorized.

Shoe manufacturers were notified June 29 by Mr. Stout that shades in tan leather and fabrics would be limited after October 1 to medium brown and dark brown, known to the trade as chestnut and Arizona, respectively. Stocks of fabrics for shoes in other colors in the hands of either the fabric or shoe manufacturer may be disposed of in the ordinary course of business until such stocks are exhausted, but permission is not given to cut after October 1 fabrics in colors other than tan as specified.

Text of Letter.

The letter to the manufacturers follows:

To the shoe manufacturers of the United States and allied industries:

Following up the recommendations as to the colors of leathers and fabrics to be cut for shoes, as set out in the schedule dated June 29, addressed to the shoe manufacturers, this section has decided the following are to be the medium brown or tan and the dark brown or tan colors for shoe fabrics effective October 1, 1918. These colors are represented on the Standard Color Card as follows:

Chestnut, 3925, cable No. 32, which represents the dark brown or tan;

Arizona, 3084 (shown on spring color card 1917), which represents the medium brown or tan.

On and after this date fabric manufacturers are to confine their production of fabrics for shoes to the colors herein recommended.

All stocks of fabrics in colors of tan which do not conform to the recommended colors, which are either in the fabric manufacturer's hands or in the hands of the shoe manufacturer, may be disposed of in the ordinary course of business until such stock is exhausted. However, this is not to be construed as permission to cut on and after October 1, 1918, fabrics on hand in colors other than tan, such as gray, pearl, smoke, etc.

This board has decided that the colors of fabrics to be cut for gaiters are as follows, which are also represented on the standard color card and are shown on spring, 1919, card:

Gray-pigeon, 0–8117, cable No. 373.

Tan-dust, 0–4054, cable No. 394.

All finished stocks of gaiter fabrics in the hands of the fabric manufacturers or the gaiter manufacturers may be disposed of in the ordinary course of business. But on and after this date fabric manufacturers should only produce fabrics for gaiters of the colors herein recommended.

This board has decided that the colors of duck fabrics to be cut for canvas shoes are the following, which are also shown on the standard color card as follows:

Olive-brown, S–4856, cable No. 107, which represents the dark brown or tan.

Ecru, S–3183, cable No. 29, which represents the medium brown or tan.

All finished stocks of duck fabrics in the hands of fabric manufacturers and shoe manufacturers may be disposed of in the ordinary course of business. But on and after this date fabric manufacturers should only produce duck fabrics for canvas shoes of the colors recommended.

CARE IN PLACING U. S. CONTRACTS ADVISED BY THE GENERAL STAFF

(Continued from page 1.)

Staff is to discourage such increases and to develop such new industries outside of the districts mentioned. This is in keeping with the program of the War Industries Board, the plan being to continue using present facilities and labor supply to the maximum.

List of Cities and Towns.

The congested districts where the housing shortage is so serious as to require Federal expenditures for new housing are reported in the following cities and towns:

Aberdeen, Md.; Alliance, Ohio; Alton, Ill.; Bath, Me.; Bayonne, N. J.; Bethlehem, Pa.; Bridgeport, Conn.; Butler, Pa.; Camden, N. J.; Charleston, S. C.; Charleston, W. Va.; Chester, Pa.; Davenport, Iowa; Dayton, Ohio; Derby, Conn.; Easton, Pa.; Eddystone, Pa.; Elizabeth, N. J.; Erie, Pa.; Florence, Ala.; Hammond, Ind.; Indiana Harbor, Ind.; Jersey City, N. J.; Gary, Ill.; East Chicago, Ill.; Lowell, Mass.; Middletown, Ohio; Milton, Pa.; Moline, Ill.; Newark, N. J.; New Brunswick, N. J.; New Castle, Del.; New London, Conn.; New Orleans, La.; Newport, R. I.; Newport News, Va.; Niagara Falls, N. Y.; Niles, Ohio; Norfolk, Va.; Pensacola, Fla.; Perth Amboy, N. J.; South Amboy, N. J.; Philadelphia, Pa.; Phillipsburg, N. J.; Portsmouth, N. H.; Portsmouth, Va.; Puget Sound, Wash.; Quincy, Mass.; Rock Island, Ill.; Seattle, Wash.; Sharon, Pa.; Sheffield, Ala.; Mariners Harbor, Staten Island, N. Y.; Tacony, Pa.; Troy, N. Y.; Utica, N. Y.; Warren, Ohio; Waterbury, Conn.; Watertown, Mass.; Watertown, N. Y.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communiques

The following is authorized by the War Department:

American Official Communique, No. 111.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
September 2, 1918.

Section A.—North of the Aisne our troops have continued to advance in spite of the strong resistance of the enemy, and have taken the village of Terny-Sorny. In the operations yesterday in this region they captured 572 prisoners, two 105-caliber guns, and 78 machine guns. North of the Vesle two local hostile attacks west of Fismes were repulsed with loss.

American Official Communique No. 112.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
September 3, 1918.

Section A.—Aside from successful patrol encounters along the Vesle and a hostile rail in Lorraine, which was repulsed, there is nothing to report.

PROPOSALS FOR STORING COAL.

Sealed proposals will be received at the Bureau of Mines, Department of the Interior, at room No. 135, until 1 o'clock p. m., Thursday, September 5, 1918, for the storing by hand of coal and wood delivered by the Bureau of Mines Government fuel yards to the bins of the municipal government of the District of Columbia and the Federal departments and independent establishments during the fiscal year ending June 30, 1919. Form of proposal will be supplied on application.

First Casualties in the American Expeditionary Forces Occurred a Year Ago To-day in Raid on Hospital

The War Department authorizes the following statement:

To-day, September 4, is the anniversary of the first casualties in the American Expeditionary Forces. The four men killed and the nine wounded were members of the Medical Department of the Army, noncombatants engaged in merciful work.

On September 4, 1917, a German aeroplane attacked the hospital group at Dannes Camiers, where the members of United States Army Bases No. 5 (Harvard unit, Boston) and No. 12 (Northwestern University, Chicago) were operating British General Hospitals Nos. 11 and 18, respectively. Five bombs fell in or close to the ward barracks, and their explosion resulted in the death or injury of the first members of the American Expeditionary Forces killed in the performance of their duty by the enemy.

The names of the killed and wounded follow:

Killed.

First Lieut. William Fitzsimmons.
Pvt. (first class) Leslie G. Woods.
Pvt. (first class) Rudolph Rubine, jr.
Pvt. (first class) Oscar C. Tugo.

Wounded.

First Lieut. Clarence A. McGuire.
First Lieut. Thaddeus D. Smith.
First Lieut. Rae W. Whidden.
Pvt. (first class) Elmer C. Sloan.
Pvt. (first class) Allen Mason.
Pvt. Aubery S. McLeod.
Pvt. John J. Stanton.
Pvt. Hirman P. Brower.
Pvt. J. D. Ewington.

URGES WOMEN TO ENCOURAGE MEN IN DUTY TO REGISTER

The following appeal to the women of the Nation has been issued by Dr. Anna Howard Shaw, chairman of the woman's committee, Council of National Defense, in regard to the assistance women must render in making registration day a success:

To the State chairmen:

A new and imperative call comes to the women of our land from which at first there may be a spirit of shrinking, but the splendid response which the patriotic women of America have made to every call of their country assures us of a willing and courageous compliance with this the greatest and most importance demand made upon the loyalty of our people since the beginning of the war.

You have tirelessly sold Liberty bonds, thrift and war-savings stamps; you have eagerly and with infinite patience produced and conserved food; you have been unwearying in the service of the Red Cross and relief societies; you have recruited young women by the thousands for our civilian and Army nurses training schools; and in numberless ways you have rendered voluntary service for the material support of the war.

But of what avail is it that we have money, food, ships, munitions, and hospital supplies if we fail to mobilize a sufficiently large army to win the war?

Congress has now called for the registration of the man power of the Nation between the ages of 18 and 45 years, of which there are estimated to be 13,000,000, not all of whom will be called into active service, but from whom the 2,000,000 or more will be selected to complete the army of 5,000,000 men which we have pledged to the allied cause.

These will belong to class 1, made up of men without dependents and in nonessential industries. No family will be disrupted or deprived of proper financial support and the industries of the country will not be unduly disturbed. But every man of the 13,000,000 is in honor bound to register. We women know who these men are, and every woman is equally in honor bound to inspire, encourage, and urge the men of her family to perform their patriotic duty.

What the Government Asks.

This is the service of sacrifice and loyalty which the Government asks of the women of the Nation at the present critical hour; and the woman's committee of the Council of National Defense takes up this duty with spirit and enthusiasm, realizing how much depends upon our attitude toward it.

Provost Marshal General Crowder writes to the chairman of the woman's committee, saying: "I am much impressed with the importance of availing myself of the assistance of the women of the country as represented by your committee. With full knowledge of the situation, it is certain that they will be ready to assist by all appropriate means."

I can not too strongly impress upon you the absolute necessity of getting this message to every unit of your State division as speedily as possible.

To inspire us in our task we have but to remember this: We must win the war. We must win it in the shortest possible time. It can be done only with a sufficiently large army to break the military power of Germany. This army can be secured if we do our duty.

Every consideration of honor, of patriotism, of love, of justice, and hope for the future peace of the world calls us to this sacred service.

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

A resolution prepared by the State Department under which admission to the United States of refugees from war-stricken countries would be permitted was favorably reported yesterday from the Committee on Immigration. The measure will waive temporarily existing immigration regulations during the war and for a period of six months thereafter, but its primary purpose is to permit the bringing in of 1,800 Serbian refugees now in Russia. All refugees brought in under the terms of the resolution would be privileged to return to their native lands after the war if they desired.

The Senate devoted the afternoon of yesterday to the further consideration of the emergency agricultural appropriation bill without reaching a final vote. An amendment intended to strike from the bill an item of $600,000 for the purpose of increasing production of cattle, pork, poultry, and sheep was rejected.

Republicans filled vacancies on important committees caused by the death of Senator Gallinger, of New Hampshire, as follows: Finance, Senator Dillingham, of Vermont; Appropriations, Senator Weeks, of Massachusetts, and Calder, of New York; Rules, Senator Curtis, of Kansas; and Banking and Currency, Senator Frelinghuysen, of New Jersey. An additional vacancy on the Appropriations Committee was caused by the transfer of Mr. Dillingham to Finance. The vacancy on Banking and Currency was caused by the transfer of Mr. Weeks to Appropriations.

The emergency joint resolution, already passed by the House, designed to prevent speculation in homestead rights which may be acquired under a special provision of the man-power act by youths under 21 years of age, who either are drafted or volunteer in the military service was adopted.

Senator Sherman, Republican, of Illinois, delivered a set speech in which he criticized what he characterized as "unofficial and personal government."

HOUSE.

In presenting the war revenue bill to the House yesterday afternoon Chairman Kitchin, of the Ways and Means Committee, announced that he would call it up for consideration next Friday and hoped to have it finally adopted by Saturday of next week. The present plan is not to have any general debate, but to proceed at once to the consideration of the measure in detail. Chairman Simmons, of the Senate Finance Committee, announced that hearings before that committee would begin on Friday of this week and continue for the period during which the bill is under consideration in the House. Should there be further applications for hearings beyond that period, he said, the time probably would be extended.

The House yesterday afternoon continued its consideration of the water-power bill. An amendment was agreed to under which western irrigation projects are specifically exempted from the provisions of the pending measure.

STATE FOOD ADMINISTRATORS CONFER WITH MR. HOOVER

Every State in the Union is represented at a conference to-day and to-morrow of Federal food administrators for the discussion with Mr. Hoover of the new conservation program.

Mr. Hoover will outline the work accomplished on his recent trip to Europe.

The following subjects are being discussed:

New wheat and other cereals program, meat program, sugar distribution, price and distribution of flour, price and distribution of mill feeds, cotton seed and products, and many matters relating to the Food Administration organization throughout the country.

Those in Attendance.

The following were present at the conference. Unless otherwise specified, each is Federal food administrator for his State.

Alabama, Richard M. Hobbie, Prof. Thomas Bragg, executive secretary; Arizona, Timothy A. Riordan; Arkansas, Hamp Williams, E. P. Buchanan, attorney for food administration; California, Ralph P. Merrit; Colorado, Frank L. Woodward, assistant food administrator; Connecticut, Robert Scoville; Delaware, Edmund Mitchell; District of Columbia, Clarence R. Wilson; Florida, Braxton Beacham; Georgia, Dr. Andrew M. Soule, D. F. McClatchey, executive secretary; Idaho, R. F. Bicknell; Illinois, Harry A. Wheeler, Robert Stevenson, jr., assistant food administrator; Indiana, Dr. Harry E. Barnard; Iowa, J. F. Deems; Kansas, Walter P. Innes; Kentucky, Fred M. Sackett; Louisiana, John M. Parker; Maine, Dr. Leon S. Merrill; Maryland, Edwin G. Baetjer, W. H. Maltbie, assistant food administrator; Massachusetts, Henry B. Endicott, James J. Phelan, assistant food administrator; Michigan, George A. Prescott, David E. Heineman, Detroit food administrator; Minnesota, A. D. Wilson; Mississippi, P. M. Harding; Missouri, F. B. Mumford, James Ketner, Kansas City food administrator; W. F. Gephart, St. Louis food administrator; Montana, Prof. Alfred Atkinson; Nebraska, Gurdon W. Wattles, A. C. Lau, assistant food administrator; Nevada, H. A. Lemmon; New Hampshire, H. N. Spaulding; New Jersey, William S. Tyler; New Mexico, Ralph C. Ely, H. G. Bush, assistant food administrator; New York, Charles E. Treman, Arthur Williams, John F. Mitchell, Dr. Albert R. Mann; North Carolina, Henry A. Page, John Paul Lucas, educational director; North Dakota, Dr. Edwin F. Ladd; Ohio, Fred C. Croxton; Oklahoma, Charles B. Ames, Howard Figg, executive secretary; Oregon, W. K. Newell, assistant food administrator; Pennsylvania, Howard Heinz, W. D. George, Pittsburgh food administrator; Jay Cooke, Philadelphia food administrator; J. L. Crutchfield, assistant food administrator; Rhode Island, Alfred M. Coats; South Carolina, William Elliott; South Dakota, C. N. Herreid; Tennessee, Prof. H. A. Morgan; Texas, E. A. Peden; Utah, W. W. Armstrong; Vermont, Frank H. Brooks, John T. Cushing, educational director; Virginia, Hugh B. Sproul; Washington, Charles Hebbard; West Virginia, Earl W. Oglebay; Wisconsin, Magnus Swenson; Wyoming, T. C. Diers,

DRAFT BOARDS MAY INCLUDE BANKERS IN DEFERRED CLASS

Persons in Similar Occupations Within Clause Amending Selective Service Act.

The War Department authorizes the following from the office of the Provost Marshal General:

Bankers and persons engaged in other occupations and employments not heretofore regarded by district boards as warranting deferred classification on the ground of necessary industries, may now claim deferred classification on the ground that their work is necessary to the Nation in the present emergency.

Amendment to New Act.

An amendment in the new man-power legislation recently passed changed the provision: "Persons engaged in industries, including agriculture," so as to make it read: "Persons engaged in industries, occupations, or employments, including agriculture, found to be necessary to the maintenance of the military establishment or the effective operation of the military forces or the maintenance of national interest during the emergency."

The effect of this is to enable necessary persons in occupations or employments to make claims that they are engaged in occupations or employments that the district board may find necessary to the maintenance of the military establishment or to the maintenance of the national interest during the war. Thus, in other words, has been removed the danger of a too narrow construction of the word "industries" which many district boards in the past have construed as excluding bankers, those engaged in commerce, and those engaged in various other occupations.

More Latitude for Boards.

Under the amendment, for example, district boards may find that certain men holding important positions in the Red Cross and kindred activities, or men engaged in public health work, are engaged in occupations or employments necessary to the maintenance of the military establishment or to the maintenance of the national interest and, for that reason, are entitled to deferred classification.

In making claims of the kind the persons concerned may make use of those parts of the questionnaire relating to claims for deferred classification on the ground of being engaged in industries, including agriculture.

$15 Scrip Book on Sale By Railroads September 15

The United States Railroad Administration announces that there will be placed on sale on September 15 at the different ticket offices throughout the country a $15 scrip book to be sold for $16.20, including the war tax. This book is identical in all features, except price, with the $30 book that went on sale on August 20.

7,725 WHITE MEN CALLED TO BE GIVEN TECHNICAL TRAINING

The War Department authorizes the following from the office of the Provost Marshal General:

A call has been issued for 7,725 white men of the selective draft, with grammar-school education, to be sent to various institutions for technical training. The allotment by States, and the institutions to which they will be sent, follow:

Alabama: University of Alabama, Tuscaloosa, Ala	412
Arkansas: Tulane University, New Orleans, La	427
Colorado: Colorado College, Colorado Springs, Colo	50
Illinois:	
Breman School Buildings, 2655 Lime Street, Chicago	155
Loyal Order of Moose, Moosehart, Ill	103
Kansas: Fort Hays Normal School, Fort Hays, Kans	103
Kentucky: University of Kentucky, Lexington, Ky	412
Louisiana: Tulane University, New Orleans, La	500
Massachusetts: Vermont University, Burlington, Vt	300
Michigan: Michigan State Board of Agriculture, Lansing, Mich	540
Minnesota: Bunweedy Institute, Minneapolis, Minn	775
Mississippi: Mississippi Agricultural College, Agricultural College, Miss	318
Missouri: Mississippi Agricultural College, Agricultural College, Miss	300
Montana: University of Colorado, Boulder, Colo	257
Nebraska: Kansas State Agricultural College, Manhattan, Kans	515
New Hampshire: New Hampshire College, Durham, N. H	154
New York: New York University, University Heights, N. Y	144
Ohio:	
Akron University, Akron, Ohio	110
Ohio Mechanical Institute, Cincinnati, Ohio	369
Toledo University, Toledo, Ohio	103
Pennsylvania:	
Lehigh University, South Bethlehem, Pa	257
University of Pittsburgh, Pa	330
Bowman Technical School, Lancaster, Pa	108
South Dakota:	
South Dakota Agricultural and Mechanical College, Brookings, S. Dak	206
University of South Dakota, Vermillion, S. Dak	124
Tennessee: Clemson Agricultural College, Clemson S. C	206
Texas: University of Texas, Austin, Tex	300
Wyoming: Colorado College, Colorado Springs, Colo	156
Total	7,725

The men will entrain September 19.

Merchant Marine Wants 4,000 Volunteers in Month of September

Four thousand volunteers will be accepted in September by the United States Shipping Board for the merchant marine training ships, it was announced to-day by the board, 2,000 for training as firemen, 850 as sailors, and 1,150 as stewards, cooks, or messmen.

These will be taken into the training service, as follows: At the Atlantic training base at Boston, 3,000; at San Francisco, 500; and at Seattle, 500. The merchant marine is the only seagoing service now accepting volunteers. They may enroll at 6,000 special recruiting stations of the Shipping Board, at drug stores in 48 States. Eighteen is the minimum age limit.

FACTS CONCERNING MUNITIONS PRODUCTION ARE GIVEN BY THE ACTING SECRETARY OF WAR

(Continued from page 1.)

heavy we are producing 6,000 to 7,000, and the Browning light automatic rifle from 8,000 to 9,000 per month.

MOTOR EQUIPMENT.

Tractors. We are getting production, but it is not nearly what it should be. We are making about 1,200 per month.

FIRE-CONTROL INSTRUMENTS.

Not much change, as the output is limited by the problem of optical glass. We have always supplied the demand, however, and will continue to.

SMOKELESS POWDER.

We are in good shape in smokeless powder; we are turning out all we need now.

RIFLES.

The production of rifles has been steady, about 200,000 per month.

PISTOLS AND REVOLVERS.

We produce between 50,000 and 60,000 per month. We are expediting this.

CARTRIDGES.

We have been producing pretty steadily for some time.

QUARTERMASTER DEPARTMENT.

There has been no shortage anywhere in the Quartermaster Department, as far as I have been able to find.

ENGINEERS.

Limited by the steel supply and by our supply of shipping.

GAS SERVICE.

I will not say anything about.

Q. You say there is no shortage in the Quartermaster Department? Is it prepared to meet the new draft?

A. We can not tell exactly. We are estimating as to probable future demands.

Q. Can anything be said as to our superiority over Germany in gun power?

Allies Have Gun Superiority.

A. The allies have had gun superiority this year. Germany can not increase production any more than we can. It is necessary to plan two years ahead on guns and their supply can not be any greater than ours.

Q. Will we be far enough ahead on gun production by this time next year?

A. I do not like to predict that; the British did not get started until 20 months after the war, and we expect to do fully as well. Our production should be coming through about the 1st of January.

Q. When do you expect the big guns from Neville Island?

A. That is a long way ahead. I would not want to say.

Q. Can you give us an idea of the capacity of the plant?

A. No.

Q. How about larger guns?

A. To increase the guns to 16-inch will reduce the production.

Q. How large will the guns be?

A. A 14-inch will be the minimum.

Q. Can you tell about the maximum?

A. No.

Q. What plants besides the Bethlehem are now building big ordnance?

A. About 12 finishing and 12 forging plants. This number includes Bethlehem.

Q. Did you say we shipped 250 155 mm. guns to the French?

A. Yes, to France.

Guns from the French.

Q. We had contracts with the French for guns. Are we still getting guns from the French?

A. Yes; we are still getting them on old contracts.

Q. By the time we get 80 divisions will we have all the guns and artillery we want?

A. We have Mr. Stettinius and his assistants working that out now.

Q. The big outflow begins in January of heavy artillery. Will we have the full force supplied by July 1 of next year?

A. I do not know how much they want. We must supply a certain minimum amount for divisional artillery, and after we get the large guns they can use all we can possibly get them.

Q. Any objection to stating the calibers?

A. Yes.

Q. These figures you gave on Browning guns. Are you getting enough for requirements?

A. We are meeting all demands, but we could use more in our training camps.

Q. Have you heard anything of the Brownings in action?

A. In a general way, I have not. I do not mean by that they are experimental.

2,640 Colored Soldiers in 13 Vocational Schools

The War Department authorizes the following:

There are 2,640 colored soldiers in 13 vocational schools receiving special technical work in addition to military instruction under the direction of the War Department Committee on Education and Special Training. They are men of the United States Army Training Detachments, an organization soon to be absorbed by the Students' Army Training Corps in the colleges.

Courses are given for auto mechanics and drivers, blacksmiths, carpenters, electricians, horseshoers, machinists, plumbers, wheelwrights, radio operators, telegraphers, tractor operators, and electricians. The men are graduated every two months.

The schools to which the training detachments are assigned are: Howard University, Washington, D. C.; Atlanta University, Atlanta, Ga.; Florida Agricultural and Mechanical College, Tallahassee, Fla.; Georgia State Industrial School, Savannah, Ga.; Hampton Institute, Hampton, Va.; Negro Agricultural and Technical College, Greensboro, N. C.; Chicago Wendell Phillips School, Chicago, Ill.; Wilberforce University, Xenia, Ohio; Tuskegee Institute, Alabama; Western University, Quindaro, Tex.; Branch Normal School, Pine Bluff, Ark.; Prairie View Normal, Texas; South Carolina State Industrial School, Orangeburg, S. C.

The philosophy of the W. S. S. is save, save, save.

PREVENTION OF ACCIDENTS IN GOVERNMENT NITRO PLANT

The United States Employees' Compensation Commission issues the following:

The remarkably low accident record which has been made during the construction of the United States explosive plant C, at Nitro, W. Va,, which was begun the early part of January, 1918, has proven the value of forethought and careful planning in the elimination of accident hazards through concerted effort in modern safety engineering.

This plant covers approximately 1,600 acres of land, upon which are constructed hundreds of buildings to be used in the manufacture of smokeless powder. In addition to this plant acreage there are about 900 acres of land, upon which are being constructed thousands of homes in which the operators will live.

Surpasses All Records.

No entries in the United States Accident Statistical Record Books, past or present, have been more wonderful than those now shown at this Government powder plant, where, to date, there has been but two-tenths of 1 per cent of the number of working hours lost by injuries resulting from accidents causing absence of employees.

But six fatalities have occurred at this plant during the past eight months of its construction period, where upward of 19,000 employees have been working overtime and Sundays to complete this gigantic project. Only 8 accidents per 10,000 employees per day have occurred, entailing loss of 1 day or more.

Safety Engineer in Charge.

The supervision of this accident-prevention work has been done by a well-organized safety department which, representing the United States Employees' Compensation Commission, at Washington, D. C., has been under the direction of C. B. Hayward, safety engineer in charge. Its activities, coupled with the assistance and cooperation of the officials down to the workmen, have made it possible to create this new mark in accident-prevention work.

Plan to Cut Cross Hauls Of Raw Tanning Material

The War Industries Board authorizes the following:

Plans to reduce cross hauls of raw tanning materials to relieve transportation conditions in Tennessee, North Carolina, and Virginia were discussed at a conference by E. J. Haley, of the tanning materials section, chemical division, of the War Industries Board, with manufacturers of domestic tanning extract. The meeting was the suggestion of the car service section of the Railroad Administration.

It was decided to postpone definite action until tentative plans to be framed by committees representing each of the three States could be presented to a general committee consisting of R. W. Griffith, C. H. Heald, John E. Obern, and William H. Teas. The latter committee will advise with the tanning materials section on final action.

RETIREMENT OF MR. WILLIAMS FROM THE STATE DEPARTMENT

Edward Thomas Williams retired August 31 as Chief of the Division of Far Eastern Affairs of the Department of State. He has accepted the Agassiz professorship of oriental languages and literature of the University of California. He will be succeeded as Chief of the Division of Far Eastern Affairs by Ransford S. Miller, consul general at Seoul. Mr. Williams was born in Columbus, Ohio, August 17, 1854. He attended public schools of Columbus and was graduated from the high school there in 1872. He was also graduated from Bethany College. He entered the ministry and became a missionary in China. For a time he was translator at the Kiangnan Arsenal at Shanghai. On November 25, 1896, he was appointed interpreter to the consulate at Shanghai. From October, 1897, to November, 1898, he was vice consul at Shanghai. On February 23, 1901, he was appointed Chinese secretary to the legation at Peking. He became consul general at Tientsin in March, 1908. On August 31, 1909, he was appointed Assistant Chief, Division of Far Eastern Affairs in the Department of State. On July 6, 1911, he became secretary of legation at Peking, and on February 28, 1912, he was appointed Chinese secretary, from which position he retired on September 11, 1913. He was made Chief of the Division of Far Eastern Affairs, Department of State, December 31, 1913, and has since occupied that position.

Secretary Lansing's Letter.

Following is a letter which the Secretary of State wrote to Mr. Williams:

MY DEAR MR. WILLIAMS: Since to-day is your last day as Chief of the Division of the Far East, I wish to express to you the deep regret which I feel that you are no longer to continue in an office which you have filled so ably and so satisfactorily.

Your severance of official relations with the department is a real loss to the Government on account of your exceptional knowledge of the Far East and your long experience with the difficult and complex questions which have arisen in that quarter of the world.

But beyond the loss of an official on whose judgment and wise counsel I could rely is the end of a personal relationship which has been most agreeable to me. While I recognize that you are fully justified in resigning your present office, and while I have felt that you were entering upon a work which offers great opportunities for usefulness, I have been tempted to ask you to continue in the service. That I have not done so is only because I realized that it would be unfair to attempt to influence you against accepting a position which you are exceptionally qualified to fill.

You may be sure that with you go the best wishes for success in your new field of labor and the profound regret of all with whom you have been associated in the service of the United States that their official relations with you have come to an end.

With very warm regards I am, my dear Mr. Williams,

Very sincerely, yours,

ROBERT LANSING.

Native of Ithaca.

Ransford Stevens Miller was born in Ithaca, N. Y., October 21, 1867. He was graduated from Cornell in 1888. For four years he was secretary of the Young Men's Christian Association in Japan. He became interpreter to the American Legation to Japan in 1895 and Japanese secretary and interpreter to the American Embassy to Japan in July, 1906. In August of 1909 he was appointed Chief of the Division of Far Eastern Affairs, Department of State. He was secretary, with the personal rank of minister plenipotentiary, of the special embassy representing the President and the people of the United States at the funeral of the late Emperor of Japan at Tokyo September 13–15, 1912. He was made consul general at Seoul November 24, 1913, which position he has since held.

AIR MAIL SERVICE IN AUGUST WITHOUT MISHAP OF ANY KIND

The Post Office Department issues the following:

During the month of August the Air Mail Service between Washington, Philadelphia, and New York was conducted without a miss, hitch, or serious delay of any character.

The operations for the month were perhaps the most remarkable in the history of aviation. There were 27 flying days, of which 108 legs of the journey had to be performed, and in that month there were but two forced landings, one with a delay of 7 minutes and the other with a delay of less than 10 minutes. One forced landing was made within 4 miles of Belmont Park at the end of a journey. It was caused by the break of a magneto shaft. The other forced landing was made on a flight where fog and haze obscured the ground, and for the purpose of picking up the course, because the compass failed to work.

Total of 11,957 Miles.

The total possible miles of flight was 11,961, of which 11,957 miles were completed.

During the first 10 days of the month the routes were flown by Lieuts. Edgerton, Kilgore, Bonsal, Webb, Culver, and Miller without a miss, hitch, or forced landing. During the last 20 days of the month the civilian aviators of the Post Office Department operated the routes. The perfect scores were made by Aviators Max Miller and E. V. Gardner. Aviators Maurice Newton and Robert Shank, on the Philadelphia end of the route, each had one forced landing, giving them a score of 99 per cent.

Weight of Mail Carried.

A total of 5,679 pounds of mail was carried on the trips.

A most rigid mechanical maintenance system on all fields was maintained, with the result that the month closed without a single plane of the 15 being laid up in the shop for repairs.

UMPIRE ANNOUNCES DECISION IN BRIDGEPORT LABOR CASE

The National War Labor Board authorizes the following:

Otto M. Eidlitz, umpire chosen by the National War Labor Board to decide the controversy between the managements and approximately 60,000 workers in 66 plants in the munitions and related industries of Bridgeport, Conn., has rendered his decision, and it has been duly made the award of the board, and transmitted as such to the parties at interest at Bridgeport.

Features of the Award.

The decision grants wage increases to all of the workers receiving less than 78 cents an hour, and establishes a minimum wage of 42 cents an hour for all male workers, skilled or unskilled, 21 years of age or over, and a minimum wage of 32 cents an hour for all female workers 18 years of age or over; grants the demand of workers for the application of the basic eight-hour day in all of the manufacturing plants of Bridgeport; establishes the right of workers to bargain collectively and to join trade-unions; and provides that women performing the same work as men shall receive equal pay. On the important question of classification, the umpire decided against changing the method now in operation, on the ground that to suddenly order a complete readjustment of the prevailing working system would be prejudicial to the interest of the Government, which is directly concerned in the output of the Bridgeport industries.

Classification of Workers.

With regard to classification, it was the demand of the workers in the machine shops that in the performance of their respective duties they be classified as toolmakers, machinists, specialists, and machinists' helpers, and that minimum rates of pay be established for each of these classifications. This was a major point of difference in the controversy. The employers contended that the great variety of tasks necessary in the operation of the industries made it impossible to confine the classification within the narrow limitations demanded by the workers or to fix a flat rate of pay for workers performing so many different tasks.

In addition to the selection by the workers of committees to represent them in their dealings with the managements, the decision provided that there shall be established a local board composed of six members, three to be chosen by and to represent the workers of Bridgeport, and three to be chosen by and to represent the employing companies, the function of which shall be to adjust such future differences as can not be settled between employer and employees. The chairman of this committee is to be chosen by and to represent the Secretary of War.

Touching upon the recognition by the War Labor Board of the right of collective bargaining, the decision declares that "we have passed from the day of the individual to the day of the group, and that the will of the group shall have precedence over the will of the individual."

The decision directs the secretary of the board to appoint an examiner to supervise the application of the award.

The Bridgeport case originally was confined to a controversy between the machinists and the managements in a few of the larger plants. The entrance of the War Labor Board into the controversy presented to the other employers an opportunity to bring about the establishment of a uniform system of industrial relations applied to the whole of the community. Advantage was taken of this opportunity when the 34 concerns not parties to the original issue agreed voluntarily to be bound by whatever decision the board reached in the cases of the firms directly involved.

Wage Increases Retroactive.

The wage increases provided for in the award are made retroactive to May 1 in the case of the Remington Arms U. M. C. plant, Liberty Ordnance Co., and American & British Mfg. Co., and 21 contract shops affected in the original controversy before the Ordnance Department board presided over by Maj. Rogers. The increases are made retroactive to June 26 in the case of 6 other plants which submitted to the board's jurisdiction on that date, and to July 1 in the cases of the 34 plants which voluntarily came before the board on that date. All of the companies are given until October 1, 1918, to complete the back payment of wages. The award is effective for the duration of the war, except as either party may reopen the case at periods of six months intervals for such adjustments as changed conditions may render necessary.

Joint Chairman Walsh, in commenting upon the decision, said: "The fact that the umpire did not immediately put a minimum wage into effect with a definite classification for skilled mechanics ought to be acceptable to all sides in view of the fact that provision is made for committees of the employers and employees of Bridgeport, democratically selected, to take up all grievances, including the rates of pay and the classification of the employees with reference to such rates of pay from time to time as such questions may arise, and in case of a disagreement between any employer and any employee or employees, the same may be taken up by the committee of the workers and employers, known as the local board with the right of speedy reference to and decision by the National War Labor Board."

RAILROAD EMPLOYEES' DUTIES AND RESPONSIBILITIES TO THE PUBLIC OUTLINED BY REGIONAL DIRECTOR

Mr. B. F. Bush, director of the southwestern region railroad administration, issues the following:

CIRCULAR No. 77.

To Federal managers, terminal managers, southwestern region:

A feeling exists that many railroad officials and employees do not fully understand their duties and responsibilities to the public under the Railroad Administration.

The public are called on to pay higher rates for a restricted service—particularly in passenger transportation. Many privileges and favors granted under private ownership are not permissible under the changed conditions, as under unified operation everyone must be treated exactly the same, and a privilege granted to one must be accorded to all. Many things have been done in the past that were improper, in that they were not open to everyone and were, therefore, a discrimination.

Purpose of Administration.

It is the purpose of the United States Railroad Administration to see that the public are served in the best possible manner; that the attention given and the sources of information open to them should be as good, if not better, than they were under private ownership.

Now that your organization has been completed, and your men placed, any uncertainty as to their status that may have existed has been removed and their future is in their own hands.

It is the duty of everyone connected with the roads to see that the public have a clear and proper understanding of the purpose of the administration. Complaints of any and all descriptions should go to and be handled by the local officials, investigated, and reported to the proper officers with recommendations, the same as heretofore. Do not let the impression prevail in the minds of the public that they must go beyond their local officers to have their business properly attended to.

How to Receive Complaints.

It is not now, nor was it ever, proper to make promises or commitments on matters that require the approval of some higher authority; but all complaints should be cheerfully received, promptly investigated, and, so far as possible, explained to the complainant.

The responsibilities of employees to the public are precisely the same as they have always been and their duties have not changed except in the elimination of competition. Traffic men, in particular, are expected to keep in touch with the public the same as heretofore, visit and confer with them, find out the exact conditions, and keep their immediate superiors fully posted as to all matters of interest.

Province of Railroad Man.

Setting the administration right with the public is the especial province of the railroad man, and especially of the traffic man, and is one of your most important duties. I suggest that each Federal manager have a meeting of his department officers as promptly as possible and go fully into this subject. In turn the various department heads, particularly traffic, should have similar meetings with their subordinates.

The best evidence the Director General and the Regional Director can have that the purposes of the administration are understood, that the roads are being properly managed, and the public adequately served, will be the lack of complaints sent direct to headquarters. We expect the southwestern region to make an enviable record.

B. F. BUSH,
Regional Director.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

SECTION NO. 1, SEPTEMBER 3, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	65
Missing in Action	96
Wounded severely	159
Died of wounds	19
Died from accident and other causes	4
Wounded, degree undetermined	145
Died of disease	4
Total	492

Killed in Action.

LIEUTENANTS.

Randolph Fitzhugh Mason. Rev. Landon R. Mason, 7 North Second Street, Richmond, Va.

Gilford C. Davidson. Mrs. Mamie Davidson, 1250 Larkin Street, San Francisco, Cal.

William J. Deevy. Jefferson Deevy, 108 West One hundred and twenty-ninth Street, New York, N. Y.

Townsend Young. Cyrus Townsend Young, Ossining, N. Y.

SERGEANTS.

William J. Sargeant. Mrs. Lucy Warren Sargeant, 321 East One hundred and twentieth Street, New York, N. Y.

Frank E. Brown. F. E. Brown, Rufus, Oreg.

Sigmund Smith. Miss Anna Burcki, 122 Genesee Street, Buffalo, N. Y.

Samuel Roberson. Allie O. Roberson, R. F. D. No. 4, Paris, Ky.

CORPORALS.

Sidney Bolan. George P. Beverly, 3 Willard Street, Atlanta, Ga.

Harry Bromberg. Mrs. Gertrude Bromberg, 842 Hewitt Place, New York, N. Y.

William P. Watoka. Frank Watoka, East Kingston, N. Y.

Francis Eugene Dow. Mrs. Mathilda Dow, 377 Putnam Avenue, Detroit, Mich.

George A. Jones. Mrs. Mary Jones, Elliottville, Ky.

Rex Victor Marks. Mrs. Rosie C. Marks, Fennville, Mich.

Alois Schlaikowski. John Schlaikowski, 496 Twenty-first Avenue, Milwaukee, Wis.

Charles Henry Schoor. Mrs. Anna Schoor, 739 Wall Street, Port Huron, Mich.

Gerald William Schwartzburg. William Paul Schwartzburg, North Milwaukee, Wis.

Harry D. Wilkinson. Ed. Wilkinson, Rockford, Mich.

John W. Kelley. John Pearl, Weedon, Iowa.

PRIVATES.

Stanley K. Smierciak. Paul Smierciak, Neu Saez, Galicia, Austria.

Timothy A. Harrington. Mrs. Hannah Harrington, 63 Evergreen Street, Bayonne, N. J.

Marco Pelagalle. Mrs. Domonica Pelagalle, Piedmonti, Di Garano Ciserta, Italy.

Benjamin Robinson. Coll Robinson, Dover, Tenn.

John Krolikowski. Miss Josephine Orochowski, 4 Lake Street, Toledo, Ohio.

Tommy Franks. Miss Ella Franks, Joaquin, Tex.

Frank M. Draper. Mrs. Lizzie Belle Draper, 2716 South Boulevard, Port Huron, Mich.

Ed. P. Lynch. Mrs. Mary Lynch, 454 West Twenty-fifth Street, New York, N. Y.

Ignatz Maliszko. Paul Praic, 769 First Avenue, Milwaukee, Wis.

Karl Muth. Lawrence Muth, 735 Twenty-fifth Avenue South, Seattle, Wash.

Ernest Olsen. Holdar Fred Olsen, R. F. D. No. 2, Box 88, Coral, Mich.

Clarence H. Cummings. Mrs. Clara W. Cummings, 700 North Madison Street, Rome, N. Y.

Walter Czyjka. Stanley Czyjka, 100 Edwin Street, Hamtramck, Mich.

Wayne E. Drake. Fred A. Drake, 512 Third Street, Jackson, Mich.

Frank Holcomb. Mrs. James H. Holcomb, Centerville, S. Dak.

Patrick Hourican. Mrs. Michael McNamee, 301 East Sixty-ninth Street, New York, N. Y.

Floyd Mils Laird. William Laird, Comstock, Wis.

Joseph Henry G. Landon. Mary H. Landon, 407 East Twenty-ninth Street, Brooklyn, N. Y.

John J. McNerney. Mrs. Patrick Smith, 1495 Amsterdam Avenue, New York, N. Y.

Melvin Marvin. Mrs. Ida Marvin, Sioux Falls, S. Dak.

Joseph F. Murphy. Ottila Murphy, Brentwood, N. Y.

Josiah D. Nickerson. Mrs. Athelia Nickerson, 24 Warland Street, Cambridge, Mass.

Wallace A. Parmenter. Mrs. Emma Parmenter, 9 Housman Street, Marlboro, Mass.

Jacob Pincus. Mrs. Yetta Pincus, 336 Christopher Street, Brooklyn, N. Y.

Howard J. Sands. McGregory Sands, 400 Eaton and White Streets, Key West, Fla.

John Schisler. Mike Schisler, Weiner, Ark.

Samuel Seidowitz. Louis Seidowitz, 713 East Fifth Street, New York, N. Y.

Roy E. Simpson. Asa M. Simpson, Mount Union, Pa.

William Stenchever. Mrs. Lillian Stenchever, 1 Hill Street, Maspeth, N. Y.

Keep Bulletin Posted In All U. S. Post Offices

Reports having been made that at some post offices THE OFFICIAL (United States) BULLETIN is not being posted regularly for public reading in accordance with Postmaster General Burleson's orders, postmasters are again reminded of this important duty. It should be remembered that THE BULLETIN is the only publication available to all sections of the country that prints daily the complete and correct casualty lists from our armies oversea exactly as they are issued by the War Department. Many newspapers print only the lists having local interest in their own territory. THE BULLETIN prints every name and address, thus making it a certain means of informing friends and relatives, wherever they may be, of the fate of a soldier or sailor, no matter where his home town or city.

Postmasters are urged, aside from their duty as officials, to make it their patriotic and personal duty to see that the public has the fullest benefit of this privilege.

The Postmaster General's order follows:

All postmasters are directed to post THE OFFICIAL BULLETIN *daily in a conspicuous place in the lobby or other portion of their respective post-office buildings where the public can read it; and, without expense to the Government, each and every postmaster is earnestly urged to see that this* BULLETIN *is made available to as many people as possible in the manner suggested.*

A. S. BURLESON,
Postmaster General.

Albert Vandenberg. Mrs. Priscilla Vandenberg, 269 Vernon Avenue, Brooklyn, N. Y.

Walter Austin Underwood. Mrs. William Underwood, R. F. D. No. 7, Jackson, Mich.

Paul Varga. Rev. Andrew Daniel, 23 Thaddeus Street, Detroit, Mich.

William Clopper Wade. Louis Garret Blunt, 1203 Lincoln Avenue, Port Huron, Mich.

William Edward Welmerink. Mrs. Minnie Welmerink, 856 Watson Street, Grand Rapids, Mich.

George H. Wendel. Mrs. Augustus Wendel, 977 Decatur Street, Brooklyn, N. Y.

Walter Ira Whereatt. Arthur Whereatt, Mayville, Wis.

Harry V. Wilson. Mrs. Sue H. Wilson, 505 Third Street NW., Washington, D. C.

Dan H. Yaple. Mrs. Eva Cooper, 757 Crocker Street, Los Angeles, Cal.

John Zaleski. Anthony Zaleski, Roslyn, N. Y.

William Zeck. Miss Gustie Zeck, Ripon, Wis.

Roland Harrell. Mrs. Margarette Harrell, Aulander, N. C.

Harold N. Keith. Mrs. John F. Keith, Box 4, Greendale Station, Worcester, Mass.

Robert McNabb. Mrs. Mary McNabb, 472 Fairmount Street, Fitchburg, Mass.

William McGonigle. Mrs. Bridget Doyle, 236 Willis Avenue, New York, N. Y.

Harry J. Madsen. Mrs. H. J. Madsen, Drake, N. Dak.

Robert C. Williamson. Mrs. Alice Williamson, 54 Boulevard, Winston-Salem, N. C.

Died of Wounds Received in Action.

Sergt. Andy P. Nuckols. Mrs. Mary Nuckols, Princeton, Ky.

CORPORALS.

Emmit W. Hughes. Clyde Hughes, R. F. D. No. 2, Ravenna, Ohio.

Thomas J. Reaney. Mrs. Catherine Reaney, 53 Van Dam Street, New York, N. Y.

PRIVATES.

J. C. Coker. A. B. Coker, Soper, Okla.

Edward Flaherty. Mrs. M. Foley, 231 East Walnut Street, St. Paul, Minn.

Victor H. Nelson. A. E. Nelson, 1723 Eleventh Avenue, South Minneapolis, Minn.

George Nichols. Mrs. Rachael Nichols, Buffords, Tenn.

William M. Osborne. Mrs. Clara Osborne, 2900 East Seventy-eighth Place, Chicago, Ill.

Peter Bilets. Mrs. Feodonia Bilets, Krenlin, Volynsk, Russia.

Alexander Curley. Joe Curley, Lomoza, Poland, Russia.

Thomas G. Green. Mrs. Ruth Green, Route 1, Duluth, Ga.

Reed B. Greenway. Doyle H. Greenway, 219 Hansil Street, Marietta, Ga.

Frederick C. Guenther. Mrs. Hattie C. Guenther, R. F. D. 2, Stratford, Wis.

Ole Hamilton. Mrs. Maude I. Hamilton, Route No. 3, Viola, Wis.

Albert Handel. Peter Handel, 723 Market Street, Youngstown, Ohio.

Rutherford B. Hinds. Walter Hinds, Rocky Ford, Colo.

Abraham Keen. Bartow Keen, Alamo, Ga.

Moody I. Kern. Richard D. Kern, Ether, N. C.

August Kroll. A. Kroll, 408 Grand Avenue, New Haven, Conn.

John M. Northup. John W. Northup, Newman, Cal.

Michael I. Pawlowski. Mrs. Constance Pawlowski, 3216 West Twenty-third Street, Chicago, Ill.

Galen V. Phelps. A. S. Phelps, Little Hocking, Ohio.

Pietro Pierini. Gitto Piccioni, South City, San Mateo, Cal.

Chester A. Piper. Mrs. Edward E. Piper, 603 Porter Street, Sandusky, Ohio.

John Reetz. Grover Reetz, R. F. D. No. 3, Maysville, Ky.

Clarence Reynolds. Mrs. Elizabeth Reynolds, 1539 Deloss Street, Indianapolis, Ind.

George O. Richards. Joseph W. Richards, Oaktown, Ind.

Edward F. Silva. Mrs. John W. McNiece, 1646 Eighty-sixth Avenue, Oakland, Cal.

Martin G. Smith. D. N. Smith, R. F. D. No. 1, Rock Mart, Ga.

Leon N. Tew. James Tew, R. F. D. No. 2, Oakdale, Wis.

Vanderan Thweatt. Mrs. Malissia Thweatt, Route No. 4, Paducah, Ky.

Thomas Traficant. Thomas Traficant, sr., 1163 Grand Avenue, Chicago, Ill.

Robert B. Tutt. Mrs. Robert B. Tutt, 1022 Queen Street, Middletown, Ohio.

Rocco Venaziano. Mrs. Leo Vanaziano, S. Agata, P. Foggio, Italy.

Daniel Blomgren. Sven Blomgren, General Delivery, Mitchel, Mont.

Alex Blinder. Mrs. Chana Blinder, 24 Krostantenovaky, Kieve, Russia.

Calvin G. Boome. W. H. Boome, Buckett, Miss.

Joseph Campanella. Mrs. Rose Campanella, 1576 Madison Avenue, New York, N. Y.

Peter Castigliani. Tom Castigliani, Michele Moriano, Ducca, Foacana, Italy.

Clem D. Chambliss. W. W. Chambliss, R. F. D. No. 3, Louisville, Miss.

Michael Hanjikoutsos. George Hanjikoutsos, Karpatho, Egeo, Italy.

Melkis Hasbatanian. Mike Talanian, 20 Locust Street, Haverhill, Mass.

Herbert McGraw. Mrs. V. W. Broyles, Oak Hill, W. Va.

Sam Mangos. Theros Mangos, 156 Antoine Street, Detroit, Mich.

Samuel E. Murray. Mrs. Sarah E. Murray, R. F. D. No. 54, Pesotum, Ill.

Luigi Rubino. Cero Rubino, Salemi, Prov. of Trapani, Italy.

Alexander Shemp. Mrs. David Shemp, Keota, Colo.

Edward A. Smeltzer. Mrs. Eurah Smeltzer, 7014 Seaview Terrace, Seattle, Wash.

Lonzo L. Stager. Mrs. J. S. Gossett, R. F. D. No. 1, Silver Creek, Ga.

August Strzelczyk. Thomas Strzelczyk, St. Hedwig, Tex.

Wladyslaw Surgot. Mrs. Mary Surgot, 4812 South Hermitage Street, Chicago, Ill.

James Toomey. Mrs. John Toomey, 18 South Webster Avenue, Scranton, Pa.

James C. Upton. R. L. Upton, R. F. D. No. 4, Rock Mart, Ga.

John Patrick White. John W. White, General Delivery, Monroe City, Mo.

Thomas Lee Wray. Mrs. Susie E. Dennison, 570 Fall Creek Boulevard, Indianapolis, Ind.

John T. Yagen. Miss Helen Yagen, 1445 West Fifty-second Street, Chicago, Ill.

Marino Dello 'Russo. Mrs. Mary Dello 'Russo, 13 London Street, East Boston, Mass.

Jacob Foreman. Mrs. Bertha Foreman, Chesaning, Mich.

Pete Fransko. Mrs. Anna Fransko, Gallatin, Pa.

Hugh Frew. Carey Partch, R. F. D., Gunnison, Colo.

George P. Gaudin. Mrs. Marie E. Gaudin, St. Patrick, La.

Walter Henry Green. Teal Green, Elnora, Ind.

Sylvester F. Hamill. Mrs. Anna Hamill, 2132 Mammouth Street, Philadelphia, Pa.

William H. Harrah. Mrs. Frances Williams, 910 East Ninth Street, Kansas City, Mo.

John C. Henrichs. Chris Henrichs, Atlantic, Iowa.

Arthur J. Higby. Mrs. James S. Higby, Pingree, Idaho.

Max W. Huebner. Theodore Huebner, R. F. D. No. 1, Marquette, Mich.

George W. Lonergan. Mrs. Mary Lonergan, 191 State Street, Portsmouth, N. H.

John M. O'Neill. Mrs. Mary O'Neill, 3223 Lombard Street, Philadelphia, Pa.

Steven Sadawekas. Varonk Wollis, 423 Haverhill Street, Lawrence, Mass.

Andrew Samo. Andrew Samo, 626 Florida Grove Road, Perth Amboy, N. J.

Roy Santola. Mrs. Donato Santola, 432 Burnet Avenue, Syracuse, N. Y.

Isaac C. Savoie. Neophile Savoie, Houma, La

Irvin J. Schooler. Mrs. Mattie J. Schooler, Genesee, Idaho.

William B. Small. Joseph Small, 1204 Center Street, Racine, Wis.

Albert D. Smith. Mrs. Fannie Howe, Canaan, Conn.

Joseph W. Sniveley. Mrs. S. A. Turnell, 1155 Highland Avenue, Bremerton, Wash.

James D. M. Stewart. R. W. Stewart, 472 Norfolk Street, Mattapan, Mass.

James Tiberio. Louis Tiberio, 11 Beecher Place, Newton Center, Mass.

Irving J. Tollotson. Mrs. Jane Tollotson, 296 Union Avenue, Providence, R. I.

Mike Vail. J. W. Vail, Hamberg, La.

Edward J. Vaughan. Charles J. Vaughan, 41 Winslow Street, Cambridge, Mass.

Alcie Vidrine. Edwin Vidrine, Fenton, La.

Walter Weinhold. Mrs. Hattie Weinhold, Adell, Wis.

Albert L. Wernsman. Mrs. Celia Wernsman, Patoka, Ill.

Clarence O. Wright. Mrs. George Wright, 602 North Cascade Street, Montrose, Colo.

Dean E. Anfenson. Mrs. Sophia O. Anfenson, Palisade, Colo.

Baltazar Baca. Macedonia Baca, Villanueva, N. Mex.

Charles Bell. Mrs. Lupe V. Bell, Pleache, N. Mex.

Harry W. Bishop. Charles Leary, 264 Appleton Street, Lowell, Mass.

Samuel T. Blair. Mrs. Margaret Blair, 3047 Coral Street, Philadelphia, Pa.

Duval D Bower. Mrs. Elizabeth V. Bower, North Berwick, Pa.

Thomas Brennen. Mrs. Margarette Brennen, 74 Farragut Street, Rochester, N. Y.

William A Brunaugh. Mrs. William Brunaugh, Socorro, N. Mex.

Harry S. Bunce. Edward J. Bunce, Aberdeen, S. Dak.

George Burrill. Mrs. Jennie N. Burrill, Hoddington Place, Lynn, Mass.

Will Ocvel Carroll. Mrs. Anna Bell Carroll, 928 Hervey Street, Indianapolis Ind.

Walter Whipple. Mrs. Edith Grace Whipple, R. R. No 1, Box 59, Neponset, Ill.

Dee C. Wilden. Mrs. Jettie Wilden, 308 Main Street Sallinsaw, Okla.

Cecil E. Wilhoit. Rufus Wilhoit, Kansas, Ill.

Paul Williams. Mrs. Cornelia Williams, R. R. No. 2, Paris, Ill.

Carl Will. Albert Will, R. F. D. No. 1, Reeseville, Wis

Macolm P. Wollard. B. M. Wollard, Gatesville, Tex.

Virgil H. Wood. Mrs. J. T. Bates, Route No. 1, Rockyface, Ga.

Rollin A. Wright. Mrs. Louisa J. Anderson, Hornbrook, Cal.

Frank Zaloudek. John Plava, 3118 West Twenty-fifth Street, Chicago, Ill.

Emory L. Zimmer. Otto Zimmer, 206 University Place, Beaver Dam, Wis.

Previously Reported Killed in Action, Now Reported Wounded.

Lieut. Franklin A. Herwood. Mrs. Franklin Harwood, 1304 Park Avenue, Richmond, Va.

Previously Reported Missing in Action, Now Reported Wounded.

Sergt. Irving Sydney Clair. Mrs. Samuel Clair, 3230 Berks Street, Philadelphia, Pa.

Corpl Aaron Thomas Liachowitz. Mrs. C. N. Liachowitz, 29 West Centre Street, Mahanoy City, Pa.

PRIVATES.

Julius Becker. William Becker, Sturgis, Mich.

William Derrick. George Manson, 4309 Grifford Avenue, Cleveland, Ohio.

Moe Robins. Miss Mazie Robins, 3821 North Sixteenth Street, Philadelphia, Pa.

We are giving our work, our time, and our money, but "they" are giving their lives.

NOTICE OF PROPOSED PURCHASES FOR THE NAVY.

WASHINGTON, *August 23, 1918.*

The Bureau of Supplies and Accounts of the Navy Department has issued notice of proposed purchases of the following material. Bidders desiring to submit proposals should request the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., to send schedules covering the material which they propose to offer, giving schedule number.

MISCELLANEOUS.

Articles.	Quantity.	Delivery at navy yard.	Schedule.
Ash, white	13,600 feet	San Francisco, Cal	1926
Beeswax	71,850 pounds	Various	1930
Blocks, whis[illegible]	59,800	do	1910
Cases, fiber, uniform	1,000	Philadelphia, Pa	1936
Cases, boat-plan, tin	1,500	Boston, Mass	1936
Charcoal	25,000 pounds	Mare Island, Cal	1935
Clay, fire, red	200,000 pounds	Boston, Mass	1937
Combs, [illegible]	[illegible] sets	Charleston, S. C	1933
Compound, cement, iron or steel	48,800 pounds	Various	1930
Cord, [illegible]	1,16[illegible] hanks	Philadelphia, Pa	1938
Ferrules, rubber	500	Charleston, S. C	1936
Gloves, india-rubber, gauntlet	600 pairs	Boston, Mass	1936
Gloves, leather, gauntlet	1,000 pairs	do	1936
Glue, dry	180,000 pounds	Portsmouth, N. H	1930
Glue, liquid	Miscellaneous	Various	1930
Gold leaf	3,600 packages	do	1930
Hoods, fire, emergency	12	Charleston, S. C	1926
Leather, artificial	Miscellaneous	Various	1932
Leather, harness	2,500 pounds	Norfolk, Va	1932
Leather, hydraulic	Miscellaneous	Various	1932
Leather, rawhide	do	do	1932
Leather, rigging	do	do	1932
Leather, sole	500 pounds	Puget Sound, Wash	1932
Leather, upholstery	20,000 square feet	Various	1932
Leather, suitable for packing leathers	400 pounds	Puget Sound, Wash	1933
Leather, vici kid	1,000 square feet	Norfolk, Va	1933
Lye, concentrated	Miscellaneous	Various	1923
Oil, tar, pine	2,600 gallons	do	1930
Pitch, pine	Miscellaneous	do	1930
Portfolios, plan	1,000	Philadelphia, Pa	1936

Lathes, [illegible]	16	do	1927
Press, [illegible]	2	Newport, R. I	1928
Press, [illegible]	6	Washington, D. C	1927
Screw, [illegible]	4	do	1927

Dates of opening have been assigned the following schedules:

1911 to 1913, inclusive ..... Sept. 3, 1918.
1911 to 1922, inclusive ..... Sept. 10, 1918.
1926 ..... Sept. 3, 1918.

MARINE CORPS CONTRACTS

The following contracts have been placed by the Quartermaster of the United States Marine Corps:

August 16, 1918.

445. Cranska Thread Co., Worcester, Mass., sewing cotton.
445. Thread Agency, New York, N. Y., sewing cotton.
445. Globe Yarn Co., Fall River, Mass., sewing cotton.
456. Watson Manufacturing Co., Jamestown, N. Y., steel file-case units and steel letter-file case.
456. Art Metal Construction Co., Jamestown, N. Y., steel card-index case and steel letter-file case.
504. F. H. Stewart Electric Co., Philadelphia, Pa., electrical supplies.

August 19, 1918.

458. T. A. Snider Preserve Co., Chicago, Ill., catsup.
511. Art Metal Works, Newark, N. J., bronze collar devices.
513. Attleboro Manufacturing Co., Attleboro, Mass., bronze hat letters.
516. William H. Horstmann Co., Philadelphia, Pa., silk flags.
517. Ernest Law & Co., Philadelphia, Pa., buckles.

August 20, 1918.

458. L. H. Parke Co., Philadelphia, Pa., subsistence.
463. Alart & McGuire Co., New York, N. Y., subsistence.
520. American Multigraph Sales Co., Atlanta, Ga., multigraph machine.
559. American Wood Working Machinery Co., Rochester, N. Y., American grindstone swing saw.
518. Singer Sewing Machine Co., Philadelphia, Pa., tackers and banding machines.
476. Currie Lumber Co., Fayetteville, N. C., lumber.
382. Austin, Nichols & Co., Brooklyn, N. Y., subsistence.
382. Reid Murdoch & Co., Chicago, Ill., flour.
522. Wincroft Stove Works, Middletown, Pa., castings.
382. Alfred Lowry & Bro., Philadelphia, Pa., subsistence.
382. Southern Macaroni Manufacturing Co., New Orleans, La., subsistence.
382. Sprague, Warner & Co., Chicago, Ill., subsistence.
382. Quaker Oats Co., Philadelphia, Pa., subsistence.

August 21, 1918.

515. Carolina Portland Cement Co., Charleston, S. C., lumber.
529. Bailey, Banks & Biddle Co., Philadelphia, Pa., service badges and ribbon bars.
531. Joseph N. Susskind & Co. (Inc.), Philadelphia, Pa., field coats.
496. George Wood, Sons & Co., Philadelphia, Pa., Winterfield silesia.
528. City Woodyard, Miami, Fla., wood.
526. Western Electric Co. (Inc.), Atlanta, Ga., copper wire, copper conductor, rigid conduit.

August 22, 1918.

534. Walker-Bros. & Haviland, Philadelphia, Pa., fire brick and clay.
527. Wilson & Co., New York, N. Y., baseball caps.
527. N. W. Greenhut Co., New York, N. Y., baseball suits.
527. Bernhard Ulmann Co. (Inc.), New York, N. Y., flags.
527. International Flag Co., Jamestown, N. Y., flags.
532. Amory, Browne & Co., Boston, Mass., chambray shirting.
536. Aluminum Co. of America, Washington, D. C., aluminum, etc.
525. Cotton States Belting & Supply Co., Atlanta, Ga., scrapers, wire rope, ball-bearing jacks.
525. Standard Supply & Equipment Co., Norfolk, Va., boat-shop supplies.
537. Addressograph Co., Washington, D. C., posting machine, etc.
523. Western Electric Co., Atlanta, Ga., switchboard.
524. Rice & Dame Co., Philadelphia, Pa., window shades.
505. John G. Schuerger, Washington, D. C., subsistence.
505. L. J. Upton & Co. (Inc.), Norfolk, Va., subsistence.
505. Frank Lindsay, Portsmouth, Va., subsistence.

VOL. 2 WASHINGTON, THURSDAY, SEPTEMBER 5, 1918. No. 404

UNITED APPEAL TO BE MADE FOR WAR ACTIVITIES FUNDS IN NAME OF ALL SOCIETIES

SUGGESTED BY PRESIDENT WILSON

One Campaign for Y. M. C. A., The Catholic War Council, and Kindred Organizations to Begin Nov. 11—Call for $170,500,000.

The President has sent the following letter to Raymond B. Fosdick, chairman of the Commission on Training Camp Activities of the War Department:

THE WHITE HOUSE,
Washington, September 3, 1918.

MY DEAR MR. FOSDICK:

May I not call your attention to a matter which has been recently engaging my thought not a little?

The War Department has recognized the Young Men's Christian Association, the Young Women's Christian Association, the National Catholic War Council, the Jewish Welfare Board, the War Camp Community Service, the American Library Association, and the Salvation Army as accepted instrumentalities through which the men in the ranks are to be assisted in many essential matters of recreation and morale.

"One and All of a Kind."

It was evident from the first, and has become increasingly evident, that the services rendered by these agencies to our Army and to our allies are essentially one and all of a kind and must of necessity, if well rendered, be rendered in the closest cooperation. It is my judgment, therefore, that we shall secure the best results in the matter of the support of these agencies, if these seven societies will unite their forthcoming appeals for funds, in order that the spirit of the country in this matter may be expressed without distinction of race or religious opinion in support of what is in reality a common service.

This point of view is sustained by the necessity, which the war has forced upon us, of limiting our appeals for funds in such a way that two or three comprehensive campaigns shall take the place of a series of independent calls upon the generosity of the country.

Combined in Single Campaign.

Will you not, therefore, as chairman of the Commission on Training Camp Activities, be good enough to request the societies in question to combine their approaching appeals for funds in a single campaign preferably during the week of November 11, so that in their solicita-

STATE COUNCILS OF DEFENSE CALLED TO ASSIST WAR INDUSTRIES BOARD IN CONSERVING BUILDING MATERIALS

ASKED TO INVESTIGATE ALL CIVILIAN PROJECTS

"Tightening - Up" Policy Adopted in Carrying Out Determination to Give Government Priority Over Needed Supplies—Request For Cooperation Promptly Accepted—Chairman Baruch's Letter to Secretary of War Baker.

The War Industries Board authorizes the following:

The determination of the War Industries Board and its chairman, Bernard M. Baruch, to meet the demands for war materials from the United States military authorities and the allies, has brought a tightening-up policy as to civilian building plans with a view to the conservation of building materials and to the release of labor to war work.

To assist the board in passing on the need and essentiality of proposed new nonwar construction, Mr. Baruch has called to his assistance the State councils of national defense, which are asked to investigate through their local organizations and report on all proposed new building projects in their respective territories.

Final Decisions by Board.

While the recommendations of these local organizations will not be final, they will be followed to the extent that no application for materials for projects coming within their jurisdiction will be considered by the War Industries Board until the council has reported. Final decision in all cases is reserved by the board.

Judge E. B. Parker, Priorities Commissioner, is preparing a set of instructions for the various State councils for their guidance in making recommendations as to the needs and essentiality of nonwar construction. The duties of the councils will not include undertakings directed by, or under contract with, the War Department, Navy Department, Emergency Fleet Corporation, Bureau of Industrial Housing and Transportation of the Department of Labor, the United

Men Who are 46 Sept. 13 Must Register Sept. 12

The War Department authorizes the following from the office of the Provost Marshal General:

For the purpose of clearing up uncertainty which seems to exist among some of the older men involved in the extension in the draft ages to include men between 18 and 45, both inclusive, the following statement is made:

A man is considered to be included within the new age limits unless on or before Registration Day, September 12, he has reached his forty-sixth birthday. If his age is 45 years and 364 days on September 12, he must register.

The minimum age limit of 18 years, on the other hand, is intended to include any young man who, on or before September 12, shall have reached his eighteenth birthday.

For these reasons it is important that all men who have the slightest doubt as to whether they are included within the new age limits ascertain as soon as possible before Registration Day the date of their birth and their age on their last birthday. The burden is on the man who fails to register to show that he does not come within the new limits.

EXPORT OF BANK NOTES.

Information has been received by cable from Consul General Skinner, London, that a proclamation of August 27 prohibits the exportation of notes of the Bank of France to all destinations except in France and notes of the United States Government and United States bank notes to all destinations except in the United States.—Commerce Reports.

States Housing Corporation, and the following civilian enterprises:

Certain Enterprises Exempted.

Repairs of or extensions to existing buildings involving in the aggregate a cost not exceeding $2,500.

Roadways, buildings, and other structures undertaken by or under contract with the United States Railroad Administration or a railroad operated by such Administration.

Those directly connected with mines producing coal, metals, and ferro-alloy minerals.

Public highway improvements and street pavements when expressly approved in writing by the United States Highways Council.

For building projects not falling within one of the classes mentioned there will be required a special written permit issued by the Chief of Nonwar Construction Section of the Priorities Division of the War Industries Board.

Anyone contemplating a building which he conceives to be in the public interest, or of such essentiality that under existing conditions it should not be deferred, should make a full statement of the facts in writing, under oath, and present it to the local representative of the Council of National Defense for his approval. This representative will report his approval with a statement of reasons, to the Nonwar Construction Section of the War Industries Board for final decision.

Letter to Mr. Baker.

Secretary Baker, acting as secretary of the Council of National Defense and of the Advisory Commission, promptly accepted for the council the request for cooperation and assistance made by the War Industries Board in the following letter from Mr. Baruch:

AUGUST 22, 1918.

The honorable the SECRETARY OF WAR,
Washington, D. C.

MY DEAR MR. SECRETARY: Inspired by the exchange of letters you and the President regarding the activities of the State councils of national defense — those splendid bodies of American business men—the thought comes to me that there may be a possibility of utilizing their services in a highly important connection with the work of the War Industries Board.

I am submitting a brief outline of the plan I have in mind to you as president of the Council of National Defense in the hope that your view may coincide with mine and that I may gain your cooperation in effectuating the system. No one is more familiar than yourself with the necessity of increasing our fighting forces of men and materials, and the consequently heavy drain upon our resources caused by the increment. To meet the needs there must be, as indeed there is, a constantly growing curtailment, elimination, or conversion of nonwar activities.

Value of State Councils.

It is toward the end of curtailment that the State councils can be of immediate value. These bodies are already organized and have a working knowledge of war work and war necessities, and, of equal importance, knowledge of the things essential to the protection and supply of civilian needs. Their coopera-

(Continued on page 7.)

MR. BARUCH SAYS WOMEN LABOR WILL IMMENSELY STIMULATE WAR MATERIALS PRODUCTION

There Will be Sixty-nine Preferred Groups of Industries, Divided into Four Classes, on Forthcoming Priorities List.

The War Industries Board authorizes the following:

Bernard M. Baruch, chairman of the War Industries Board, at his regular conference with the Washington newspaper correspondents yesterday, took up these subjects:

1. Request to the State Councils of National Defense to report on the necessity for all building activities contemplated within their territory.
2. Need and availability of women power in war productions.
3. Priority list of industries engaged in war work.
4. High rents as affecting economical and labor conditions.

Details of work of the State Councils of National Defense in reporting on building operations and the use of materials are given in another story.

Use of Women Power.

That Mr. Baruch has given much thought to the ultimate use of women power in war work to take the place of man power transferred to the military service, was indicated when he stated that he believed that when American women get into war work there will be an immense stimulation of production. He suggested that they could do the work of men in munition plants, in light and fine machine work and in other industries. He said he thought the Labor Department, which recruits labor, would probably handle all women power problems and it was his judgment that the women needed direct encouragement to take up these lines of men's work. It is his opinion the attention of women should be called to this now, because when the new draft law is made its effect on man power will be instantaneous.

Preferred Industries.

The preferred industry groupings, which are being made by the War Industries Board, will be the key to guide the draft boards in making exemptions for war work, Mr. Baruch explained. There will be 69 preferred groups divided into four classes, graded according to their shortage of material. Outside of these grades and not included are 6,500 other separate plants classed as essential only to the extent of their active engagements in war work. Mr. Baruch said he proposed, as the head of the War Industries Board, to make application for the exemption from war duty of the essential men in the War Industries Board.

Mr. Baruch was asked if the War Industries Board would take up the question of the high rents as a matter affecting war industries. He said the Council of National Defense had recommended some time ago an investigation. Like the cost of food and clothing, high rents, he said, were involved in the cost of living, and the latter is being investigated.

Mr. Baruch emphasized again the shortage of steel, when he explained that a census of all steel in the hands of manufacturers throughout the country is now being taken for the information of the War Industries Board. He declined to state what use the board would make of the information. He expressed gratification, however, that heavy steel users, like the automobile industry, were voluntarily turning to war work and abandoning passenger-car construction in order to conserve steel. He gave out this copy of the telegram of appreciation he had sent to the Hudson Car Co., which announced this week its proposed discontinuance of car construction for the war period:

To the president, directors, workers, and distributors of the Hudson Car Co.:

Your advertisement headed "Hudson enlists with Uncle Sam. No sacrifice too great to help win the war," which appears this morning, strikes a note so fine and so true that it deserves special recognition.

I congratulate you on the spirit of service this statement expresses.

It is the spirit of readiness to face whatever may come that enables us to be sure of the final ending.

It speaks a willingness to sacrifice that should and does characterize all of our people, and it shows clearly the part being played by the great automobile industry—the part of courage, of abnegation, and of participation in the common cause—to win the war.

The War Industries Board thanks you for your simple, broad, forceful declaration of principles throughout which the theme of true Americanism runs dominantly.

BERNARD M. BARUCH,
Chairman War Industries Board.

SEPTEMBER 2, 1918.

WAR INDUSTRIES BOARD TO MAKE STUDY OF COTTON SITUATION

Bernard M. Baruch, chairman of the War Industries Board, authorizes the following:

The announcement of another short crop of cotton raises in acute form the problem of satisfying the needs of the nation, as well as those of the allies, and of securing an equitable distribution for the purpose of winning the war.

Involved in the distribution is the problem of bringing about a reasonable stabilization of prices in the interest of both the producer and the consumer. With the approval of the President, the War Industries Board will appoint a committee to study the present situation, the problems of distribution, the marketing of low-grade cottons, and the desirability and feasibility of effecting a stabilization of prices. This committee will begin activities as soon as possible, and will hold conferences at convenient points in the cotton producing States and at such other places as may be found necessary in order to give parties interested an opportunity to present their views.

INMATES OF PENITENTIARIES TO BE REQUIRED TO REGISTER

Persons in Jails and Reformatories Will Be Treated as Absentees, It Is Stated.

The War Department authorizes the following from the office of the Provost Marshal General:

Felons are not going to be drafted into the American Army. Nevertheless, it is necessary that those within the designated age limits of the new man-power act be registered. Inmates of every penitentiary will be registered by the warden thereof on registration day, and the required reports will be rendered to the adjutant general of the State in which the penitentiary is located. The reports will not, however, be included by The Adjutant General in the consolidated State report. The warden himself will keep the registration cards, and they will not be consolidated with the records of the local boards. Copies of the cards will be sent by the warden to the adjutant general. The latter will not consolidate them with the cards of the State, but will keep them in a separate file.

Persons Awaiting Trial.

Persons awaiting trial, and those convicted merely of misdemeanors, however, are not to be regarded as felons. The inmates of jails and reformatories, who are not felons, will be treated as absentees, and their cards must be forwarded to the respective local boards having jurisdiction of the areas within which they permanently reside, just as is provided for other absentees, except that the warden or jailer shall obtain the necessary cards from a near-by local board and certify to the registration and assist prisoners in forwarding them to their respective local boards. In forwarding prisoners' cards to the proper local boards, wardens and jailers may mark the envelopes inclosing the cards "Official business, War Department," and send them, addressed to the proper local boards, without affixing stamps.

Insane Asylum Inmates.

The inmates of insane asylums and similar institutions will be treated as absentees, and their registration cards must be forwarded to the respective local boards having jurisdiction of the areas within which they permanently reside, just as prescribed for ordinary absentees, except that the superintendent or physician in charge of any such institution will obtain the necessary cards from a near-by local board and certify to the registration and forward them to the proper local boards.

FIRST APPEAL FROM RULING.

The first appeal from a final order of the Federal Trade Commission since the commission's organization has been taken under the appeal provision of the commission act. Sears, Roebuck & Co., Chicago, have formally petitioned the United States Circuit Court of Appeals for the seventh circuit to review the commission's recent order requiring them to cease and desist from unfair and misleading advertising. The commission has certified the record in the case to the court.

Two Fatalities In Week At U. S. Aviation Fields

The War Department authorizes the following:

Herewith is a summary of deaths due to aviation accidents in training at flying fields in this country for the week ending August 24, 1918:

Place at which fatality occurred:

Park Field, Millington, Tenn	1
Scott Field, Belleville, Ill	1
Total	2

The two deaths during the week ending August 24 represent one fatality for every 10,047 hours flown, or 803,760 miles air travel. At 25 fields, other than the two named, there were no fatalities.

COMMITTEES NAMED TO HANDLE FREIGHT CAR LOADING QUESTION

Director General McAdoo announces that the following statement has been issued through the Car Service Section of the Railroad Administration:

To Railroads:

1. With a view to securing: (a) increased car efficiency, (b) improved service, (c) decreased transportation expenses, in handling "less car load" freight, committees representing the several regional districts have been formed with the following as chairmen:

Mr. J. R. Kearney, Allegheny Region; Mr. George Morton, Central Western Region; Mr. C. H. Ketcham, Eastern Region; Mr. T. M. Proctor, Northwestern Region; Mr. J. A. Talbott, Pocahontas Region; Mr. W. L. Stanley, Southern Region; Mr F. M. Lucore, Southwestern Region.

2. These committees will, without delay, have a survey made covering L. C. L. freight forwarded for a period of at least 10 days from all stations and transfer points in their respective territories, and will institute "shipping days" and through car loading via one or more designated routes based on the following considerations: (a) volume of traffic, (b) direct routing, (c) car conservation.

3. The committee for each region will determine the routing on cars destined to points within the same region.

4. The chairmen and such members of the regional committees as may be designated by the chairmen will, with the Car Service Section, act as a general committee to determine the routing and adjust necessary matters affecting inter-region cars.

5. Care must be exercised to prevent any undue advantage being given to one city or section as against a near-by competing city or section.

6. The support of shippers, jobbers, and various commercial organizations in each locality should be obtained for the detailed plans as adopted.

7. As arrangements are perfected for each shipping center or distributing point chairmen will furnish to the Regional Director and to the Car Service Section a detailed report showing: (a) Number of additional through cars established, (b) estimated increase in tonnage per car, (c) estimated daily or weekly saving in equipment.

8. The chairmen will advise the Car Service Section of opportunities for improved loading through the back hauling of freight, particularly from far-distant points, as for example freight from Boston, New York, or Philadelphia destined to local points within a radius of 100 miles east of San Francisco, which might be loaded to advantage in through cars to San Francisco, involving but one intermediate handling, as against several such handlings if loaded in cars carded to points east of San Francisco.

Information available as to Officials, Functions, and Location of all Government Departments

VOLUNTARY ENLISTMENTS IN THE U. S. ARMY DISCONTINUED

Only Men Over 46 Hereafter Acceptable and Only for Departmental Service.

The following statement is authorized by the War Department:

Gen. March, Chief of Staff, has directed the discontinuance of voluntary enlistments for the Army, except as authorized by act of Congress in certain cases.

Gen. Harris, the Acting Adjutant General, has issued instructions by telegraph to all recruiting officers in charge of recruiting districts to close up the recruiting stations as soon as practicable, in accordance with detailed instructions previously sent by mail. The enlisted men at the recruiting stations are to be sent to the nearest recruit depot where they are to be physically examined and their qualification records made out, with a view to their assignment to appropriate duty. The six recruit depots, namely, Fort Slocum, N. Y.; Columbus Barracks, Ohio; Fort Thomas, Ky.; Jefferson Barracks, Mo.; Fort Logan, Colo.; and Fort McDowell, Cal., are to be utilized during the continuance of the war as mobilization places for selective service men, whence these men will be distributed to organizations.

The only original voluntary enlistments hereafter authorized will be of men over 46 years and under 56 years. The enlistment of these men is authorized only for staff corps and departments. There are few applications for enlistment from among this class of men, and the enlistment of such as are found qualified can be effected at the mobilization depots enumerated above or any one of the military posts or encampments throughout the country.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communique

The following is authorized by the War Department:

American Official Communique No. 113.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES.
September 4, 1918.

Section A.—Yielding to the continued pressure of the allied forces the enemy is in retreat north of the Vesle. Our troops, in close pursuit, have taken Bazoches, Perles, Fismette, and Baslieux, capturing prisoners and machine guns. They have reached the line Vauxcere-Blanzy-LeGrand Hameau. In the Vosges a hostile raiding party was repulsed, leaving prisoners in our hands.

Yesterday our aviators successfully bombed the railroad yards at Longuyon, Dennmary, Baroncourt, and Conflans.

Nine Officers And Men Prisoners In Germany

The War Department authorizes publication of the following list of members of the American Expeditionary Forces who, it has been ascertained, are prisoners of war in Germany:

Pvt. Willis E. Snowman. Mrs. C. S. Snowman, mother, Blue Hill, Me.

First Lieut. Thomas P. Shea. Mrs. Thomas Shea, mother, 132 Franklin Street, Springfield, Mass.

Corpl. Foster E. Paul. Peter Paul, father, 20 Auburn Street, Springfield, Mass.

First Lieut. Arthur M. Roberts. Mrs. D. Roberts, mother, 4011 Altamont Road, Birmingham, Ala.

Second Lieut. John McArthur. Mrs. Margaret McArthur, mother, 950 North I Street, Fremont, Nebr.

Corpl. Percy Holverson. Harry L. Holverson, father, 202 Third Street, Neenah, Wis.

Pvt. Leonard H. Lungren. Anna L. Lungren, mother, R. F. D. No. 6, Norben, Mo.

Pvt. Peter Sagehorn. Mrs. Anna Sagehorn, mother, 502 Whitten Avenue, Syracuse, N. Y.

Maj. John F. Goodman. Mrs. Zita Mercedes Goodman, wife, 41 Beech Road, Ridgewood, N. J.

The last-named officer (Maj. Goodman) is reported to be at Langensalza, Germany. The places of internment of the other prisoners are as yet unknown to the department.

President's Decision In The Action Of Courts-Martial In Cases Growing Out of Riot By Soldiers at Houston

The War Department authorizes publication of the following statement by the President, filed with The Adjutant General of the Army:

I have affirmed the action of the courts-martial in the so-called Washington and Tillman cases and ordered the commutation of 10 death sentences to life imprisonment; and I file this memorandum with The Adjutant General of the Army in order that the basis of my action may be a matter of record.

On the 23d of August, 1917, the so-called Houston riot took place. A mutinous and riotous group of soldiers participated in the affairs, causing in all the deaths of 15 persons and the serious wounding of 12 others, many of whom were innocent bystanders and all of whom were peaceably disposed civilians of the city of Houston. Very searching and thorough investigations were made into the riot, its causes, and the actions of the persons who participated, with the result that three groups of soldiers were tried by court-martial, the cases being known, respectively, as the Nesbit, the Washington, and the Tillman cases.

Records Carefully Examined.

The records of these trials have been carefully examined by the Judge Advocate General and the Secretary of War, and they disclose that in each instance the court was properly constituted, was composed of officers of experience and sobriety of judgment, and that the rights of the defendants were surrounded at every point by these safeguards which a humane administration of the law accords to those charged with grave offenses. No legal errors, prejudicing the rights of the accused, have been found; indeed, the seriousness of the cases appears to have challenged the attention of the military authorities from the outset and extraordinary precautions were taken to insure the fairness of the trials.

The Nesbit case was first tried. It resulted in the acquittal of five of the defendants and the conviction of the remainder with 4 sentenced to brief terms of imprisonment, 41 sentenced to life imprisonment, and 13 to death. These death sentences were reviewed by the commanding general of the Southern Department and executed.

Sixteen Death Sentences.

Later, the Washington and Tillman cases proceeded to trial, involving altogether 55 persons and resulting in death sentences imposed upon 16 and imprisonment upon the remainder for various terms of years, except as to three in the Tillman case, two of whom were acquitted and as to one of whom the charges were dismissed. The review which I have been called upon to make, therefore, involves death penalties imposed upon 16 persons. Of these I have affirmed six, because the persons involved were found guilty by plain evidence of having deliberately, under circumstances of shocking brutality, murdered designated and peaceably disposed civilians. The remaining 10 death sentences I have commuted to life imprisonment for the reason that, while deeply engaged in this riotous mutiny, the men involved are not shown by the record personally and directly to have caused the death of designated individuals.

Offense of Greatest Gravity.

The offense of which these soldiers were guilty is one of the greatest gravity; the Government relies upon its soldiers for the defense of the liberties of the people, and when soldiers, forgetting their obligations, break over the restraints of discipline and become a riotous and murderous mob, the very foundations of order are shaken. When peaceably disposed and innocent civilians are the victims of this sort of riot a stern redress of their wrongs is the surest protection of society against their recurrence. I, therefore, find that the action taken by the commanding general of the Southern Department was legal and justified by the record, and direct the execution of the sentences in the six cases above referred to. I commute the remaining sentences because I believe the lesson of this lawless riot will have been adequately pointed by the action already taken and that now directed, and also because I desire the clemency here ordered to be a recognition of the splendid loyalty of the race to which these soldiers belong and an inspiration to the people of that race to further zeal and service to the country of which they are citizens, and for the liberties of which so many of them are now bravely bearing arms at the very front of great fields of battle.

WOODROW WILSON.

THE WHITE HOUSE,
August 31, 1918.

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

Another day was spent by the Senate yesterday considering the agricultural extension bill without reaching a final vote. An amendment by Senator Walsh, of Montana, appropriating $20,000,000 to be loaned to farmers in drought-stricken districts for the purchase of seed was rejected. An amendment by Senator Jones, of New Mexico, that would authorize the War Finance Corporation to make loans to banks so that they might give financial aid to farmers in drought-stricken districts was accepted.

Senator Gore offered an amendment under which the Secretary of Agriculture would be authorized to use for other than the objects for which they were appropriated such portions of appropriations as were not needed for the immediate purposes for which they were designed. It was rejected on the ground that it would establish a dangerous precedent. Senator King, of Utah, moved to strike from the bill an item of $721,000 for the prevention and eradication of insects and plant diseases injurious to agriculture, but action on it went over. Senator Bankhead introduced an amendment, which is yet to be considered, under which provision is made for the purchase by the Government of all distilled spirits held in bond July 1, at a price to be fixed by a commission to be appointed by the President. This price must be submitted to and approved by Congress.

Rent Bill as Rider.

By a unanimous vote the Senate attached as an amendment to the agricultural extension bill the Pomerene bill to prevent rent profiteering in the District of Columbia. This is the bill which already has passed the Senate, but which is tied up in conference between the House and Senate. This bill provides for the appointment of an administrator who will pass upon the fairness of rents charged within the District.

Conferees on the oil-leasing bill were in session again yesterday, but failed to reach an agreement.

HOUSE.

The House during consideration of the water-power bill yesterday afternoon, by a vote of 96 to 71, rejected an amendment that would have struck from the bill a provision which would compel full payment of the total "net investment" in any of the power projects before these projects could be taken over by the Government. The vote was taken in committee of the whole and Representative Ferris, of Oklahoma will make an effort to reverse the action of the House when the bill comes up for final action before the House. The "net investment recapture clause" now in the bill provides that as a condition precedent to taking over of any power project by the Government there must be paid the actual, legitimate cost of theproject to the water-power developers. In opposing this proposition Mr. Ferris contended that it meant nothing short of having Congress "fifty years in advance commit the Federal Government to pay, not what the property is actually worth at the time of retaking, but to pay what the water-power developers actually paid for the property at the beginning of the license period, plus the cost of extensions, improvements, etc., regardless of their condition when recaptured by the Government."

Federal Manager Named For Coastwise Ship Lines

Director General McAdoo announces the appointment, effective September 1, of Mr. H. B. Walker as Federal manager of the Coastwise Steamship Lines, with office Southern Pacific Pier 49, North River, New York, reporting to the director, division of operation, and with jurisdiction over all departments of the following coastwise steamship lines now under Federal control:

Old Dominion Steamship Co.
Ocean Steamship Co.
Southern Steamship Co.
Merchants & Miners Transportation Co.
Mallory Steamship Co.
Clyde Steamship Co.
Southern Pacific Co.—Atlantic Steamship Lines.

The Director General expressed his appreciation of the services of the steamship advisory committee, who, with Mr. L. J. Spence as chairman, have been handling the coastwise service under a temporary organization up to this time. Mr. L. J. Spence particularly, who remains with the Southern Pacific Co., has rendered excellent service.

Navy Ensign and Gunner Die in Seaplane Accident

The Navy Department is informed that Ensign Thomas Neil McKinnon, U. S. N. R. F., and Aerial Gunner Mathew E. O'Gorman, U. S. N. R. F., were both killed in a seaplane accident in France, August 30. Ensign McKinnon was from Minneapolis; mother, Mrs. Mark McKinnon, 1104 East Thirty-sixth Street, Minneapolis, Minn. O'Gorman was from Jamaica Plains; mother, Mrs. Margaret M. O'Gorman, 1 Marlou Terrace, Jamaica Plains, Mass.

Hobart Paul LaRue, gunner's mate, second class, U. S. N., was killed by a train at Peekskill, N. Y., August 27. Father, George W. LaRue, Braymer, Mo.

SHIPPING BOARD EXPLANATION.

An official statement from the United States Shipping Board, on shipyard wages and hours of labor, published in THE OFFICIAL U. S. BULLETIN, page 5, of Tuesday, August 20, 1918, concluded as follows:

"The findings of the War Labor Board, of course, supersede the findings of the Shipbuilding Labor Adjustment Board for shipworkers."

The Industrial Relations Group, Information and Promotion Service, of the United States Shipping Board Emergency Fleet Corporation, now authorizes the statement that this sentence should have read as follows:

"The findings of the War Labor Board *do not*, of course, supersede the findings of the Shipbuilding Labor Adjustment Board for shipworkers."

UNITED APPEAL TO BE MADE FOR WAR ACTIVITIES FUNDS

(Continued from page 1.)

tion of funds, as well as in their work in the field, they may act in as complete cooperation and fellowship as possible?

In inviting these organizations to give this new evidence of their patriotic cooperation, I wish it distinctly understood that their compliance with this request will not in any sense imply the surrender on the part of any of them of its distinctive character and autonomy, because I fully recognize the fact that each of them has its own traditions, principles, and relationships which it properly prizes and which, if preserved and strengthened, make possible the largest service.

The Government's Appreciation.

At the same time, I would be obliged if you would convey to them from me a very warm expression of the Government's appreciation of the splendid service they have rendered in ministering to the troops at home and overseas in their leisure time. Through their agencies the moral and spiritual resources of the Nation have been mobilized behind our forces and used in the finest way, and they are contributing directly and effectively to the winning of the war.

It has been gratifying to find such a fine spirit of cooperation among all the leaders of the organizations I have mentioned. This spirit, and the patriotism of all the members and friends of these agencies, give me confidence to believe that the united war work campaign will be crowned with abundant success.

Cordially and sincerely, yours,
WOODROW WILSON.

Mr. RAYMOND B. FOSDICK,
Chairman Commission on Training Camp Activities.

Statement by Mr. Fosdick.

In giving out the President's letter, Mr. Fosdick made the following statement:

"The budgets of the seven authorized societies have been approved by the War Department, through the Commission on Training Camp Activities, for the following amounts:

"Young Men's Christian Association	$[illegible], 000, 000
"Young Women's Christian Association	15, 000, 000
"National Catholic War Council (including the work of the Knights of Columbus and special war activities for women)	30, 000, 000
"Jewish Welfare Board	[illegible], 000
"American Library Association	[illegible], 000
"War Camp Community Service	15, 000, 000
"Salvation Army	[illegible], 000
	170, 500, 000

"This sum, which is probably the largest ever asked for in a single appeal, will be the goal of the drive for the week of November 11. With the entire country behind it I am confident of its success."

ST. ELIZABETHS HOSPITAL PROPOSAL.

Bids will be received at St. Elizabeths Hospital, Washington, D. C., until 4 o'clock p. m., September 6, 1918, for furnishing 390 feet Triplex 0–600 volt saturated paper insulation and 7/64 continuous lead sheath 4/0 B. & S. stranded cable insulated with 5/64 by 2 64 saturated paper.

TORPEDOED MIRLO'S CREW SAVED THROUGH SEA OF FIRE

Secretary Daniels authorizes the following:

Coast Guard headquarters has received from Keeper John A. Midgett, of Station No. 179, located 15 miles north of Cape Hatteras, N. C., the following report of the rescue of the master and 41 officers and men of the torpedoed British steamer *Mirlo:*

"At 4.30 p. m. on August 16 the lookout reported seeing a great mass of water shoot up in the air which seemed to cover the after portion of a steamer that was about 7 miles east by south from the station. A great quantity of smoke was immediately seen to rise from the after part of the ship, which continued on her course for a few minutes when she swung around and headed for the beach. Fire was now seen to shoot up from the stern of the steamer and heavy explosions were heard. The Coast Guard crew immediately launched their power surf boat through the heavy sea on the beach and headed for the burning wreck.

Met Five Miles Out.

"When about 5 miles offshore one of the steamer's boats with the captain and 16 men was met. Upon inquiry it was learned that two other boats were in the vicinity of the fire and that one was capsized and the captain feared that all of the crew of that boat had perished in the burning sea. The Coast Guard keeper directed the captain where and how to go and await his arrival, but not to attempt a landing as the sea was strong and there was great danger of capsizing his boat without assistance.

Headed for Blazing Wreckage.

"The life-boat then headed to the burning mass of wreckage and oil. Upon arrival the sea was found to be covered with blazing gas and oil. There appeared to be great volumes of flame about 100 yards apart, and the ocean for hundreds of yards covered with flame. In between the two large bodies of flame, at times when the smoke would lift, a boat would be seen bottom up with six men clinging to it and a heavy swell washing over the boat. With extreme difficulty the Coast Guard boat ran through the smoke and floating wreckage and rescued the six men from their upturned boat. The rescued men stated that at many times they had been compelled to dive under the water to save themselves from being burner to death. All had burns, but none was in a very serious condition. They also stated they had seen some of their crew sink and disappear in the burning sea. The life-savers continued their search in the vicinity, but no more men could be found.

Third Boat Sighted.

"As one boat was still missing, the lifeboat was headed before the wind and sea, and in a short time the third boat, with 19 men, was sighted, and it was found to be overloaded and so much crowded that the men in it could not row and were drifting helplessly with the wind and sea about nine miles southeast of the station. The lifeboat ran alongside and took the steamer's boat in tow. The first boat was then picked up and also towed to within about two miles south of the station, when the wind from the northeast began to freshen and a heavy sea was running on the beach. It had now become very dark, and it was decided to make a landing. The two ship's boats were anchored about 600 yards off shore, and after great difficulty all passengers were safely landed through the surf in the power lifeboat. As fast as the rescued men were landed they were taken to Coast Guard Station No. 180, where proper medical aid was given them and each survivor furnished with dry clothes, with which all coast guard stations are supplied. The following morning all of the shipwrecked men were taken aboard a patrol vessel and transferred to Norfolk, Va."

President Indorses Zionist Movement

The President has written the following letter to Rabbi Stephen S. Wise, former president of the provisional Zionist committee:

"I have watched with deep and sincere interest the reconstructive work which the Weizmann commission has done in Palestine at the instance of the British Government, and I welcome an opportunity to express the satisfaction I have felt in the progress of the Zionist movement in the United States and in the allied countries since the declaration by Mr. Balfour, on behalf of the British Government, of Great Britain's approval of the establishment in Palestine of a national home for the Jewish people, and his promise that the British Government would use its best endeavors to facilitate the achievement of that object, with the understanding that nothing would be done to prejuaice the civil and religious rights of non-Jewish people in Palestine or the rights and political status enjoyed by Jews in other countries.

"I think that all Americans will be deeply moved by the report that even in this time of stress the Weizmann commission has been able to lay the foundation of the Hebrew University at Jerusalem, with the promise that that bears of spiritual rebirth."

PROPOSALS TO BE RECEIVED FOR COTTON GOODS SUPPLIES

The following notice as to supplies needed have been sent out by the Cotton Goods Branch of the Clothing and Equipage Division, Quartermaster General's Office, New York City:

Sealed proposals for furnishing 8,000,000 yards, 39-inch, 64 by 68, 4-yard sheeting, made with 28 warp and 26 filling, to break 50 pounds in the warp and 50 pounds in the filling, delivery equal monthly October, November, and December, 1918, will be received here until 2 o'clock p. m. September 9, 1918. Information on application. Envelopes containing proposals to be indorsed "Proposals for 39-inch, 64 by 68, 4-yard sheeting," and addressed to the Cotton Goods Branch, Clothing and Equipage Division, 109 East Sixteenth Street, New York City.

CERTIFYING OFFICER NAMED FOR WAR WORK FURLOUGHS

To Pass Upon Requests to Release Men Needed in Essential Industries.

The War Industries Board authorizes the following:

Following announcement last week by Bernard M. Baruch, chairman of the War Industries Board, that there would be cooperation by the War Industries Board and the War Department in determining furloughs from military service of skilled laborers and others engaged in important war work, the War Industries Board has appointed William M. Ritter, of West Virginia, who is assistant to George N. Peek, commissioner of finished products, as certifying officer representing the board in this vital work.

To Pass Upon Requests.

Mr. Ritter will be the point of contact between the War Industries Board and Darragh de Lancy, of the industrial furlough section of The Adjutant General's Office in the War Department, through whom decision will be made as to the essentiality of certain men in war industry and necessity for their furlough from military service although called in the selective draft.

All requests for the furlough of men made by the various departments of the War Industries Board will be made through Mr. Ritter, who will make such investigation in each case as in his judgment the circumstances warrant to determine whether the requests are justified.

Heads of industries in war work who find that the draft is taking from them such of their skilled men as to impair efficiency and seriously reduce production of war material are expected to apply to the War Industries Board for the furlough of these essential skilled men. Commodity section chiefs in the board, handling matters in connection with the industry alleged to be affected by the draft, will make investigations as to the needs and conditions before acting on the requests for furloughs coming to them, and will then report to Mr. Ritter.

Conditions of Furlough.

Men furloughed from military service on the recommendations of Mr. Ritter as certifying officer for the War Industries Board, will be instructed to report to the industry applying for their furlough and that industry will be required to make regular monthly reports to the certifying officer showing the continuance of the furloughed men in their employ. Change of place of employment or of character of work will lead to revocation of the furlough order, and return of such men to or into the military service under regulations of the War Department.

NAVY QUARTERMASTER KILLED.

The Navy Department reports that Walter Paul Talaska, chief quartermaster, United States Naval Reserve Force, was killed in a seaplane accident at New York on September 2. Mother, Mrs. Teufille Talaska, Meddale Way, Rochester, N. Y.

NEW RAILROAD WAGE ORDERS AFFECT NEARLY MILLION MEN

Two Supplements to General Order No. 27 Issued to Stabilize Pay and Remove Inequalities.

Director General of Railroads McAdoo to-day issued Supplements No. 7 and No. 8 to General Order No. 27. The new supplements affect nearly one million employees of railroads under Federal control, and deal with questions of pay and hours of work.

Supplement No. 7 affects all clerks, station employees, stationary enginemen, boiler washers, power transfer and turntable operators, and common laborers in shops, roundhouses, stations, storehouses, and warehouses. It contains general rules for promotion and adjustments of grievances.

Supplement No. 8 affects all maintenance of way department employees working on tracks, bridges, and buildings, and includes painters, mason and concrete workers, water-supply employees, plumbers, etc.

Effect of Two Supplements.

The two supplements stabilize wages and remove inequalities occurring in General Order No. 27. The two supplements were issued by the Director General after recommendations had been made by the Board of Railroad Wages and Working Conditions, based on an exhaustive investigation made by the board.

In the supplements, certain basic wage minimums are established.

Generally speaking, the wage increases contained in the supplements, amount, as compared with the wages paid on January 1, 1918, to $25 per month for employees paid on a monthly basis, and 12 cents per hour for employees paid on an hourly basis. These increases include any increase granted to these employees put into effect under General Order No. 27. General Order No. 27 is canceled in so far as it applies to these employees.

New Rates Effective September 1.

The new rates are effective as of September 1, 1918. Back pay from January 1, 1918, not already paid out, will of course be based on the rate established in General Order No. 27.

Under these supplements, the 8-hour day is established throughout for these employees, with overtime up to 10 hours on a pro rata basis, with time and one-half thereafter.

Because of the situation resulting from General Order No. 27, it is impossible to estimate adequately at this time how much an increase in the operating expenses of the railroads these changes will total.

PROMOTED TO MAJOR.

Special Orders, No. 196:

504. The appointment of Capt. Theodore W. Wrenn, Field Artillery, to the grade of major, Air Service (Aeronautics), United States Army, during the existing emergency, with rank from August 14, 1918, is announced. He will report to Director of Military Aeronautics for duty in balloon section.

"TIGHTENING UP" POLICY AS TO BUILDING PLANS

(Continued from page 2.)

tion would prevent a heavy and unnecessary duplication of those tasks they are organized to handle.

It is very probable that at a later period there can be a widening of their field of usefulness, but for the present I should like to put into execution a plan whereby no application for building materials or commodities employed for repair purposes shall be considered by the War Industries Board, unless it has previously been passed upon and approved by the Council of National Defense in the State in which the application originates.

It is obviously impossible for the State councils to pass the final judgment upon such matters since they do not have a full picture of all of our varying and constantly changing war needs, but I have no doubt that with certain broad principles to guide them the councils could be of great value in eliminating at the point of origin such projects that are not of a necessitous nature.

I am not prepared to say that the War Industries Board would necessarily be committed to a favorable decision because of a State council's approval of any project, but the board would pledge itself to give fullest consideration to such enterprises as are so indorsed and would not receive any without such indorsement.

It needs but slight study of the situation to see the advantage to be gained by the process I have here outlined. The members of the several State councils being directly on the ground will have a more intimate knowledge of the nature of the various demands that are now being pressed upon the attention of the War Industries Board in almost overwhelming number.

Their approval or disapproval will greatly simplify the system of award and will, by reducing the volume, expedite the business of the board and make for greater satisfaction for the applicants.

It is not necessary for me to repeat what is in your mind, as well as mine, that every request should be scrutinized with the utmost care and granted only when the need is imperative.

If you agree with my view of the value of the instrumentality of the State councils, I shall be glad to take the matter up with you or your representative, to the end of devising a definite system of procedure.

I am, my dear Mr. Secretary,
Yours, very truly

B. M. Baruch.

ADJUSTMENT OF DISPUTES OVER RAILWAY WAGE ORDERS

The United States Railroad Administration issues the following:

Washington, D. C., *August 30, 1918.*

Supplement No. 6 to General Order No. 27:

In General Order No. 27 and supplements thereto, and in certain memoranda of understanding creating railway boards of adjustment put in effect by General Orders No. 13 and No. 29, methods have been provided for interpretation of wage orders issued by the Director General upon recommendations of such boards and the Division of Labor, "subject always to review by the Director General." For the purpose of affording prompt interpretations of all wage orders issued by the Director General, the duties and authority of the Board of Railroad Wages and Working Conditions are hereby extended to include investigations and recommendations to the Director General of interpretations of all such wage orders, when requested to do so by the Director of the Division of Labor.

It should be understood by railroad employees that it is impracticable to give interpretation on exparte statements to the thousands who request information as to the manner in which wage orders should be applied in individual cases. Operating officials of the railroads are required to place wage orders in effect fairly and equitably, and should differences of opinion arise necessitating a formal interpretation, the matter will be disposed of in the following manner:

When a wage order is placed in effect in a manner with which an employee, or the employee's committee disagrees, a joint statement quoting the language of the wage order, and including the contentions of employees and the contentions of officials, signed by the representatives of the employees and the officials, will be transmitted to the Director of Labor, who will record and transmit same to the Board of Railroad Wages and Working Conditions, which will promptly investigate and make recommendation to the Director General. Upon the receipt of interpretation from the Director General, the Director of Labor will transmit such interpretation to the Railway Boards of Adjustment for their information and guidance in the application of such interpretation to existing conditions or to questions arising from the incorporation of the order as so interpreted into existing agreements on all railroads under Federal control. As occasion demands, all interpretations will be printed and given general publicity for the purpose of communicating the information to all concerned, and thus avoiding the necessity of duplication of interpretations.

On and after September 1, 1918, any disagreement between the employees and the officials over the application of any wage order will be submitted to the Director of Labor, as outlined above, but in order promptly to dispose of all requests for interpretations previously presented to the Division of Labor, or to the Boards of Adjustment, such requests will be immediately recorded and transmitted to the Board of Railroad Wages and Working Conditions by the Director of Labor.

Nothing herein contained revokes authority granted to the Division of Labor of Railway Boards of Adjustment in determining disputes arising in connection with the application of interpretations of wage orders to existing conditions or in connection with the incorporation of such interpretations into existing agreements.

W. G. McAdoo,
Director General of Railroads.

MORE POWER GIVEN BOARDS TO CLASS POLICE AND FIREMEN

The War Department authorizes the following from the office of the Provost Marshal General:

More latitude will be allowed local boards, hereafter, in granting deferred classification to firemen and policemen. Heretofore, in such cases, the registrant has had to file with the local board an affidavit signed by the head of the fire or police department, as the case may be, showing, among other things, that he has been continuously employed by the city government he is serving for at least three years.

With the questionnaire that will be used in the classification of those who register on September 12, a man claiming deferred classification as a highly trained fireman or policeman need file with his local board merely an affidavit signed by the head of the municipal department employing him stating that the registrant is highly trained, the length of time he has been continuously employed and compensated by the municipality he is now serving, and that he can not be replaced without substantial and material detriment to the public service in the municipality. In addition to this, the registrant, in making out his questionnaire, must state the position and describe the special duties he performs in his department and set forth why he himself believes that he can not be replaced without substantial and material detriment to the public safety in his community.

COPIES OF LETTERS WRITTEN BY MARINES IN FRANCE WANTED

Marine Corps headquarters desires to secure, for its historical records, copies of letters written by marines fighting in France, and to this end issues the following request to relatives of members of the corps:

The Marine Corps is preparing a history of the marines' share in the great war and would appreciate receiving letters which may reach you from your relatives who are serving with the marines in France.

Up to this time no systematic effort has been made to gather these letters. From the few which have reached this office it is apparent that they are productive of a large amount of material which will be of value to Marine Corps historians.

If you do not wish to part with these letters, please so state when forwarding them and they will be copied and returned. You may rest assured that no matters of a confidential nature will be recorded.

Your cooperation in this matter not only will be appreciated, but will assist the Marine Corps in making a comprehensive permanent record of the deeds of the marines who are fighting in France.

The letters should be addressed to: "Adjutant and Inspector, Marine Corps Headquarters, Washington, D. C."

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

CALLS FOR 6,054 LIMITED SERVICE MEN TO AID STATE AND LOCAL DRAFT BOARDS

The War Department authorizes the following from the office of the Provost Marshal General:

In order to provide necessary clerical assistance in State headquarters, local, district, and medical advisory boards, in connection with the registration and classification of registrants under the new man-power law, extending the age limits, calls have been issued to the draft officials of the several States for a total of 6,054 limited service men. These men, comprising only those heretofore registered, and qualified for limited or special military service only, will be entrained September 7, and sent to the various designated military camps and reservations whence they will be assigned to the various boards needing their services. The calls for these men, by States follow:

From—	To—	Number of men called.
Alabama	Camp McClellan, Ala	105
Arizona	Camp Cody, N. Mex	26
New Mexico	Do	54
Arkansas	Camp Pike, Ark	118
California	Presidio, Cal	142
Nevada	Do	24
Colorado	Fort Logan, Colo	97
Utah	Do	40
Connecticut	Fort Slocum, N. Y	65
Delaware	Camp Meade, Md	16
District of Columbia	Do	17
Maryland	Do	66
Florida	Camp Joseph E. Johnston, Fla.	68
Georgia	Camp Gordon, Ga	190
Idaho	Camp Lewis, Wash	56
Washington	Do	93
Illinois	Camp Grant, Ill	271
Wisconsin	Do	133
Indiana	Fort Benj. Harrison, Ind	231
Iowa	Camp Dodge, Iowa	148
Kansas	Fort Riley, Kans	141
Kentucky	Camp Taylor, Ky	159
Louisiana	Camp Beauregard, La	89
Maine	Camp Devens, Mass	52
Massachusetts	Do	186
New Hampshire	Do	38
Rhode Island	Do	30
Vermont	Do	23
Michigan	Camp Custer, Mich	168
Minnesota	Fort Snelling, Minn	182
Mississippi	Camp Shelby, Miss	116
Missouri	Jefferson Barracks, Mo	284
Montana	Fort Wm. Henry Harrison, Mont.	58
Nebraska	Fort Omaha, Nebr	190
New Jersey	Camp Dix, N. J	134
New York	Camp Upton, N. Y	413
North Carolina	Camp Greene, N. C	130
North Dakota	Fort Snelling, Minn	68
Ohio	Camp Sherman, Ohio	182
West Virginia	Do	79
Oklahoma	Fort Sill, Okla	131
Oregon	Vancouver Barracks, Washington	76
Pennsylvania	Camp Colt, Gettysburg, Pa.	345
South Carolina	Camp Jackson, S. C	62
South Dakota	Fort Meade, S. Dak	94
Tennessee	Fort Oglethorpe, Ga	138
Texas	Camp Travis, Tex	301
Virginia	Camp Lee, Va	156
Wyoming	Fort D. A. Russell, Wyo	29
Total		6,054

The men will be used at the headquarters of these boards until January 1, 1919. After that date they will be assigned to other military duty. They will be under the command of the Army officer on duty at the State headquarters, and will be on duty from 9 a. m. until 5 p. m., except when required by members of the board to return for additional work.

PLANS TO PROVIDE FARMS FOR RETURNED U. S. SOLDIERS

The Department of the Interior authorizes the following:

Secretary Lane announces that the preparation of a program looking to providing farms for returned soldiers has been given into the hands of A. P. Davis, director and chief engineer of the Reclamation Service, who will have general charge of the work, and with whom will be associated Elwood Mead, H. T. Cory, and Frank W. Hanna.

All Experienced Men.

Mr. Mead was formerly in charge of the land settlement work of the State of California. Mr. Cory is the engineer who had charge of closing the Salton Sea for the Southern Pacific, and Mr. Hanna is one of the most prominent engineers of the West. Mr. Weymouth, chief of construction for the Reclamation Service stationed at Denver, will report on possible irrigation projects, Mr. Cory on the swamp and cut-over lands of the South, and Mr. Hanna on the swamp and cut-over lands of the North.

Secretary Lane's Statement.

"We can have a job at good pay for every soldier who returns from France," said Secretary Lane, "if Congress will give us the financial support needed. And while at work the soldier can be making a home for himself for which he can pay the Government in 40 years' time. This plan has received the indorsement of so large a percentage of Congress and the press of the country that it appears to be a probable program; it certainly is a practicable one. We have but $200,000 now for preliminary surveys and reports, but this will be increased undoubtedly by the incoming Congress. There is enough waste and undeveloped land in this country to give every soldier a farm, but of course no such program is contemplated, because all would not want farms."

Telegraph and Telephone Service Investigation

OFFICE OF THE POSTMASTER GENERAL,
Washington, August 28, 1918.

To Postmasters at First and Second Class Offices:

On August 6 a committee was appointed by me to investigate and determine the extent to which branch telegraph offices should be consolidated or coordinated with branch postal stations; also the extent to which the messenger service of the telegraph companies may be coordinated with that of the special-delivery service of the Postal Service. The committee has been further charged with investigation of the extent to which main telegraph offices should be consolidated or coordinated with the main post offices. Representatives of the telegraph companies, acting for the committee, will call upon you with reference to the subject, and you are requested to cooperate with them fully along lines prescribed in a memorandum dated August 24, a copy of which will reach you in due course.

A. S. BURLESON,
Postmaster General.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

SECTION NO. 1, SEPTEMBER 4, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	57
Missing in action	95
Wounded severely	143
Died of wounds	14
Died from accident and other causes	5
Wounded, degree undetermined	82
Died of disease	8
Died from aeroplane accident	2
Total	406

Killed in Action.

Maj. Samuel Humes Houston. Mrs. Mary E. Houston, 1834 Linden Avenue, Baltimore, Md.

Lieut. Lisle Phillip Ambelang. Mrs. M. Ambelang, Cascade, Wis.

Lieut. David H. Stubbs. D. T. Stubbs, 2425 Forest Drive, Des Moines, Iowa.

Lieut. Ruliff Nevius. Cornelius Nevius, 652 West One hundred and twenty-first Street, Los Angeles, Cal.

Sergt. James H. Graham. Hiram B. Graham, 1962 Railroad Street, Madison, Wis.

Corpl. Edward J. Nolan. Andrew Yaun, 32 Oak Street, Coatsville, Tenn.

Corpl. John Todd Haney. Mrs. Marguerite Lewis, 323 Riverton Street, McKeesport, Pa.

Corpl. Otto Bernard Sells. Mrs. Caroline Sells, 1715 Michigan Street, Oshkosh, Wis.

Corpl. Mike Singer. Joseph Singer, Weyerhauser, Wis.

Corpl. Clarence P. Widdifield. Dealphonse Widdifield, care of Southern Freight Depot, Lynchburg, Va.

Bugler Elsworth Henry Bartlett. Mrs. Margaret Bartlett, 264 North Jackson Avenue, Pontiac, Mich.

PRIVATES.

Minor Edgar Barnard. Mrs. Clara Voss, 8 South Main Street, Fond du Lac, Wis.

Floyd Charles Beardsley. William Beardsley, 1905 East Main Street, Jackson, Mich.

William E. Beck. Joseph B. Beck, Lansing, Iowa.

Robert J. Bennett. Mrs. Emma Bennett, 1035 Geary Street, San Francisco, Cal.

Roderick Blythe. Mrs. Etta Blythe, Robe, Wash.

Vernon Andrew Brabazon. Mrs. Margaret Brabazon, 605 Jefferson Avenue, Oshkosh, Wis.

Paul Burbey. Paul Burbey, R. F. D. No. 1, Lena, Wis.

Carl J. Cook. Mrs. H. J. Cook, Gillette, Wyo.

Walter Stanley Cooper. Joe Cooper, 1816 Third Street, Superior, Wis.

Joseph Robert Cowley. Mrs. Emma Cowley, 107 North Van Dorn Street, Jackson, Mich.

Patrick D'Agostino. Mrs. Anna D'Agostino, 104 Mulberry Street, New York, N. Y.

August G. Gclairtch. Mrs. Victoria Gclairtch, 102 Gardner Avenue, Homestead, N. J.

Efstratis Georgulis. Charles H. Georgulis, Falawurition, Greece.

Ivan Raymond Hamilton. Mrs. Hugh Thayer, 859 Fourth Street, Grand Rapids, Mich.

Harry D. Heimbach. Milton Heimbach, R. F. D. No. 4, Allentown, Pa.

Joseph Hohn. John Hohn, West Morland, Kans.

Luigi Izzo. Gaetano Izzo, 29 Jay Street, Rochester, N. Y.

Antonio La Rocca. Luiga Smabia, 537 East Eleventh Street, New York, N. Y.

Jesse J. Lux. Peter Lux, Encinitas, Cal.

William Steven McGlue. William McGlue, L'Anse, Mich.

Joseph Mikolajozyk. Frank Mikolajozyk, 834 Burnham Street, Milwaukee, Wis.

Orem Grover Miller. Nellie Miller, 425 Michigan Avenue, Detroit, Mich.

Marian Sczepanick. William Sibley, 1023 Second Street, Ashland, Wis.

Frank Spencer. Mrs. Willow Spencer, 575 South Saginaw Street, Pontiac, Mich.

John Richard Stauber. Mike Stauber, 504 Michigan Avenue, Menominee, Mich.

Raymond Tieman. Phil Tieman, 644 Forest Avenue, Hamilton, Ohio.

William C. Voelker. Miss Bertha Voelker, Colfax, Wash.

Ambrose Walsh. Ambrose Walsh, Jamestown, N. Dak.

Clarence George Altenthal. Henry Altenthal, Jackson, Mo.

William G. Erdwein. Gottlieb Erdwein, 4090 North Reese Street, Philadelphia, Pa.

Sylvester Estabrook. Mrs. Carl Seigle, New London, Wis.

Guy W. Fant. George W. Fant, R. F. D. No. 1, Big Sandy, Tex.

Dominick Grego. Ambrose Grego, 716 Brown Street, Sault Ste. Marie, Mich.

William Robert Henning. William Henning, R. F. D. No. 3, Mount Clemons, Mich.

William Kinser. Welsey Kinser, Amanda, Ohio.

Wilford Lehman. Mrs. Mary Lehman, Rib Lake, Wis.

Arthur Lueskow. Mrs. Bertha Lueskow, 809 Martha Avenue, Menominee, Mich.

Willard L. Machamer. Willard L. Machamer, sr., Pine Grove, Pa.

Nikodym Malinowski. Albert Malinowski, 691 Fifty-fifth Avenue, West Allis, Wis.

George W. Moore. Louis Moore, 3219 Fifteenth Avenue South, Minneapolis, Minn.

William D. Oxley. Mrs. John Small, 3350 Unroh Street, Tacony, Philadelphia, Pa.

Bernard Salzberg. Mrs. Anna Bernstecker, 536 Morris Avenue, New York, N. Y.

Daniel J. Sheehan. Mrs. Mary McColl, 309 East Eighty-eighth Street, New York, N. Y.

Kasimer Sinarski. Lewis Sinarski, 941 Russell Street, Detroit, Mich.

Jonathan Tayloe. Mrs. C. W. Alkmson, Windsor, N. C.

Josef van de Putte. Ed. van de Putte, Hibbing, Minn.

Died of Wounds.

Lieut. Lowell T. Wasson. James A. Wasson, R. F. D. No. 2, Ozark, Mo.

Corpl. Peter Arvid Wayrynen. Peter Wayrynen, General Delivery, Troy, S. Dak.

Mechanic Michael Kanner. Gussie Kanner, 740 East Sixth Street, New York, N. Y.

PRIVATES.

Max Belle. Harry Belle, 2607 Atwood Avenue, Cleveland, Ohio.

George C. Buckles. Mrs. Elizabeth Buckles, R. F. D. No. 1, Elizabethtown, Ky.

Fred Smith. Mrs. Sarah Jackson, 114 Harrison Place, Syracuse, N. Y.

Herman E. Stamnitz. Mrs. Edward Stamnitz, Sebewaing, Mich.

Allen G. Brattstrom. Mrs. Karin Brattstrom, 6514 Second Avenue Northeast, Seattle, Wash.

Louis Gabal. George Romanek, 1092 Sixth Avenue, Milwaukee, Wis.

William G. Carroll. Mrs. Anna Carroll, Glenville Road, Greenwich, Conn.

Albert Dalcour. Fred Dalcour, Jefferson Parish, La.

John G. McRee. R. L. McRee, Ozark, Ala.

George Dale Morrison. David F. Morrison, Germfask, Mich.

Anthony A. Walsh. John Curan, 110 Cameron Avenue, Scranton, Pa.

Died of Disease.

Corpl. Charles Mortimer Roy. Calvin Mortimer Roy, Jerome, Mich.

PRIVATES.

Robert Bridger. Arthur B. Bridger, 142 Duane Street, New York, N. Y.

Preston Fields. Robert Fields, 1503 Fifteenth Street, Tampa, Fla.

Acie Grisham. Mrs. Juanita D. Grisham, 1023 North Twenty-ninth Street, Council Bluffs, Iowa.

Theodore C. Koethen. W. L. Koethen, care Title & Trust Co., Los Angeles, Cal.

Raymond M. Miller. Mrs. Tressa Miller, 17 West Broadway, East Plymouth, Pa.

Terrence Christopher Reilly. Mrs. Joseph C. Reilly, 2533 North Spring Avenue, St. Louis, Mo.

Harold Ellwin Rice. Mrs. Alice May Rice, R. F. D. No. 1, Fowler, Mich.

Died from Aeroplane Accident.

Lieut. William G. Carmank. Acheson Smith, 113 Jefferson Avenue, Niagara Falls, N. Y.

Lieut Donald M. Sage. R. H. Sage, Delaware, Wis.

Died from Accident and Other Causes.

Corpl. Wayman Guinn. Mrs. Mary W. Guinn, 1112 Clark Street, Evanston, Ill.

PRIVATES.

Michael Bilza. Mrs. Teresa Loritus, 216 Tasker Street, Philadelphia, Pa.

John P. Dacey. Mrs. Julia Lenane, 111 Sixth Street, Olinhant, Pa.

Thomas C. Day, jr. Thomas C. Day, sr., R. F. D. No. 1, Maxeys, Ga.

William Johnson. Mrs. Irene Johnson, 1511 West Thirty-fifth Street, Los Angeles, Cal.

Wounded Severely.

LIEUTENANTS.

Harry M. Donaldson. Mrs. Ole Donaldson, 1411 Thomas Street, Marinette, Wis.

Otto Oas. John Oas, 866 North Fourteenth Street, Manitowoc, Wis.

Dey Winslow Wilcox. Mrs. D. W. Wilcox, R. F. D., box 200–A, Battle Creek, Mich.

Marion M. Ziombek. Mrs. Anna Ziombek, 722 Eighth Avenue, Milwaukee, Wis.

Keep Bulletin Posted In All U. S. Post Offices

Reports having been made that at some post offices THE OFFICIAL (United States) BULLETIN is not being posted regularly for public reading in accordance with Postmaster General Burleson's orders, postmasters are again reminded of this important duty. It should be remembered that THE BULLETIN is the only publication available to all sections of the country that prints daily the complete and correct casualty lists from our armies oversea exactly as they are issued by the War Department. Many newspapers print only the lists having local interest in their own territory. THE BULLETIN prints every name and address, thus making it a certain means of informing friends and relatives, wherever they may be, of the fate of a soldier or sailor, no matter where his home town or city.

Postmasters are urged, aside from their duty as officials, to make it their patriotic and personal duty to see that the public has the fullest benefit of this privilege.

The Postmaster General's order follows:

All postmasters are directed to post THE OFFICIAL BULLETIN *daily in a conspicuous place in the lobby or other portion of their respective post-office buildings where the public can read it; and, without expense to the Government, each and every postmaster is earnestly urged to see that this* BULLETIN *is made available to as many people as possible in the manner suggested.*

A. S. BURLESON,
Postmaster General.

CASUALTIES REPORTED BY GEN. PERSHING

SERGEANTS.

Warnie M. Craigo. Iom. L. Craigo, Smithers, W. Va.

Ira E. Gillespey. Mrs. Docie Waldron, 229 North Twelfth Street, Mattoon, Ill.

Benjamin Samuel Peck. Frank Peck, Coopersville, Mich.

Ernest John George Plett. Walter F. Plett, 131 Green Street, Grand Rapids, Mich.

Earl D. Seaton. Mrs. Josephine Seaton, 2312 Seventh Street, Peru, Ill.

Leo J. Vaughan. Miss Nellie Vaughan, 507 West Wilson Street, Madison, Wis.

CORPORALS.

John William Arndt. William S. Arndt, R. F. D. No. 3, Morley, Mich.

William M. Boots. Lem Boots, De Soto, Iowa.

PRICES FOR BITUMINOUS COAL AT CERTAIN COLORADO MINES

The United States Fuel Administration issues the following:

WASHINGTON, D. C., *August 13, 1918.*

Applications having been made to the United States Fuel Administrator for further revision of prices as to bituminous coal produced at the following mines in the Trinidad district in the State of Colorado, viz, the Gray Creek mine of the Victor American Fuel Co. and the Empire mine of the Empire Mining Co., the United States Fuel Administrator, after due consideration of such application, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders, and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs, That bituminous coal produced at the Gray Creek mine of the Victor American Fuel Co. and at the Empire mine of the Empire Mining Co., both in the Trinidad district in the State of Colorado, may be sold at prices f. o. b. cars at the mine not to exceed the following per net ton, viz:

Run of mine	$3.00
Prepared sizes	3.15
Slack or screenings	1.55

To the foregoing prices may be added the 45-cent allowance for wage increase, if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

The price for prepared sizes is subject to the following monthly summer reductions: 40 cents for the month of April, 30 cents for the month of May, 20 cents for the month of June, 10 cents for the month of July.

This order to become effective at 7 a. m. August 20, 1918.

H. A. GARFIELD,
United States Fuel Administrator.
By CYRUS GARNSEY, JR.,
Asst. United States Fuel Administrator.

INDIAN AGENCY SUPPLIES

Proposals will be received at the office of the Santa Fe Indian School, N. Mex., until 2 o'clock p. m., September 14, 1918, for one 12-seat, enameled, automatic dump range closet, with stalls, 24-inch seats, complete.

Proposals will be received at the Fort Totten Indian School, N. Dak., until 5 o'clock p. m., September 16, 1918, for 145 cotton felt mattresses and 50 white-enameled iron bedsteads.

Proposals will be received until 2 o'clock p. m., September 7, 1918, at the Pine Ridge Agency, S. Dak., for 60,000 pounds of white corn meal and 60,000 pounds of yellow corn meal.

Proposals will be received at the United States Indian Office, Towaoc, Colo., until 2 o'clock p. m., September 14, 1918, for furnishing the Ute Mountain Indian School with the following material: 5 dining tables, oak, square; bidder to submit description of table he proposes to furnish with bid; 8 bureaus, oak, with glass; 6 washstands; 36 dining-room chairs, oak; 6 1-gallon pitchers and washbowls, white enamel; 5 large-size family ranges, malleable steel, six-hole, for soft coal and wood, to have water reservoir and warming closets.

Proposals will be received at the United States Indian Office, Park Hill, Okla., until 2 o'clock p. m., September 6, 1918, for furnishing 1 portable 15 horsepower firebox boiler for the Cherokee Orphan Training School.

PRICES FOR BITUMINOUS COAL IN CERTAIN TEXAS COUNTIES

The United States Fuel Administration issues the following:

WASHINGTON, D. C., *August 13, 1918.*

Applications having been made to the United States Fuel Administrators for a revision of the prices of bituminous coal mined in the counties of Erath, Palo Pinto, and Young, in the State of Texas, the United States Fuel Administrator, after due consideration of such applications, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917.

Hereby orders and directs, That bituminous coal mined in the counties of Erath, Palo Pinto, and Young, in the State of Texas, may be sold at prices f. o. b. cars at the mine not to exceed the following per net ton: For run of mine, $3.40; for prepared sizes, $4.55; for slack or screenings, $2.25. To the foregoing prices may be added the 45 cent allowance for wage increase, if the producing companies are entitled to add such allowance under the President's order of October 27, 1917. Said prices are subject to the following monthly summer reductions: 75 cents for the month of April, 60 cents for the month of May, 45 cents for the month of June, 30 cents for the month of July, 15 cents for the month of August.

This order to become effective at 7 a. m. August 16, 1918.

SOFT COAL PRICES REVISED AT THE MINES IN MICHIGAN

The United States Fuel Administration issues the following:

WASHINGTON, D. C., *August 13, 1918.*

Applications having been made to the United States Fuel Administrator for a revision of the prices of bituminous coal mined in the State of Michigan, the United States Fuel Administrator, after due consideration of such applications, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs, That bituminous coal mined in Michigan may be sold at prices f. o. b. cars at the mine not to exceed the following per net ton: For run of mine, $3.05; for prepared sizes, $3.50; for slack or screenings, $2.45; provided, however, that the prices aforesaid shall not be applicable to coal mined by the producers, and at the mines hereinafter specified, which last-mentioned coal may be sold at prices f. o. b. cars at the mines not to exceed the prices set opposite the names of the several producers and mines in the following schedule.

Name of producer or mine.	Run of mine.	Prepared sizes.	Slack or screenings.
What Cheer Mining Co.	$3.30	$3.85	$2.50
Banner Coal Co.	3.30	3.85	2.50
Bliss Coal Co.	3.30	3.85	2.50
Robert Gage Coal Co.	3.30	3.85	2.50
Beaver Coal Co.	3.30	3.85	2.50
Consolidated & Wolverine Coal Co.	3.30	3.85	2.50
Handy Bros.	3.60	4.15	2.80
Caledonia Mine (operated by Robert Gage Coal Co.)	4.45	4.95	3.80
Flint Mine (operated by What Cheer Mining Co.)	3.05	5.45	3.80

To the foregoing prices there may be added the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m. August 16, 1918.

ALIEN PROPERTY CUSTODIAN TAKES OVER GERMAN OWNED TRANSATLANTIC SHIP LINES

VESSELS WORTH OVER $7,000,000

Action Taken After American Manager of Concern Admitted that All Money was Supplied by Germans. Directors Named.

The Alien Property Custodian's office issues the following:

A. Mitchell Palmer, alien property custodian, announces that he has taken over the American Transatlantic Co. and the Foreign Transport & Mercantile Corporation on the ground that their stock is owned by the shipping interests of Germany. In compliance with Mr. Palmer's demand, the shares in the American Transatlantic Co. and in the Foreign Transport & Mercantile Corporation have been delivered to him.

Admits Deceiving Officials.

Mr. Palmer took over these concerns after Richard G. Wagner, the moving spirit of the company in this country, had confessed to Francis P. Garvan, director of the bureau of investigation of the Alien Property Custodian's office, that for three years he had deceived various Government departments, the British and French prize courts, and Senators and Congressmen as to the real ownership of the company.

Under a grilling cross-examination by Mr. Garvan, Wagner confessed that the money with which these companies were organized and with which their ships were purchased had been supplied by persons with German affiliations, and that practically no money belonging to an American citizen had ever been invested in the companies.

Valued at Over $7,000,000.

The value of the ships of these two companies can best be judged from the fact that the Hudson Bay Co. had offered to pay $7,500,000 for them. Wagner demanded $8,000,000. The London board of trade, however, objected to the Hudson Bay Co. paying more than $7,500,000. Mr. Wagner refused this offer, although it meant a profit of approximately $5,000,000, the original investment in the ships having been about $2,600,000.

Again in February, 1917, the Campagnie Generale Transatlantique, a well-known steamship line, had a 30 days' option to purchase the ships for $9,300,000.

Born in Milwaukee.

Richard G. Wagner, president of the companies, was born in Milwaukee 56

(Continued on page 14.)

U. S. CARGO SHIP LAKE OWENS SUNK BY GUNFIRE; 5 MISSING

Twelve of Crew and One Man of Armed Guard Wounded—Survivors Landed.

The Navy Department is informed that the steamship *Lake Owens* was sunk by gunfire in foreign waters on the morning of September 3. All the members of the naval armed guard were saved; only one, Chief Boatswain's Mate H. W. Lincoln, being reported in hospital, and his injuries are not regarded as serious. Five of the ship's crew are reported missing. All the other members of the crew have been landed, six seriously wounded and six slightly injured. The names of these were not given in the dispatch.

The *Lake Owens* was an Army cargo ship of 2,308 gross tons.

RAILROAD EMPLOYEES' WAGES NOT SUBJECT TO GARNISHEE

The United States Railroad Administration issues the following:

WASHINGTON, *September 5, 1918.*

GENERAL ORDER No. 43.

Whereas proceedings in garnishment, attachment, or like process by which it is sought to subject or attach money or property under Federal control or derived from the operation of carriers under Federal control under the act of Congress of March 21, 1918, are inconsistent with said act, and with the economical and efficient administration of Federal control thereunder; and

Whereas such proceedings are frequently commenced, particularly for the garnishment or attachment of amounts payable, or claimed to be payable, as wages or salaries of employees, which practice is prejudicial to the interests of the Railroad Administration in the operation of the lines and systems of transportation under Federal control, and is not necessary for the protection of the rights or the just interests of employees or others; and

Whereas if any rules or regulations become necessary to require employees to provide for their just debts, the same will be issued hereafter;

It is therefore ordered, that no moneys or other property under Federal control or derived from the operation of carriers while under Federal control shall be subject to garnishment, attachment, or like process in the hands of such carriers, or any of them, or in the hands of any employee or officer of the United States Railroad Administration.

W. G. McADOO,
Director General of Railroads.

PLANS TO SPEED UP NEW DRAFT WORK BY LOCAL BOARDS GIVEN BY PROVOST MARSHAL GENERAL

NEED FOR HASTE IS IMPERATIVE

Gen. Crowder Hopes to Have Work of Classification Completed by January 1—Must Fill October Requisitions From New Draft.

Statement by Gen. Crowder to newspaper men:

The necessity of filling the October requisitions, either in part or in whole, out of the effectives to be obtained under the new registration, makes it necessary to look forward to a substantial speeding up in the work of the local boards at that stage of the operation, and, indeed, from the very beginning of the task. It is imperative that the work of the boards proceed much faster than a year ago. In every possible way steps will be taken to make it possible for this speed to be attained.

The entry of the serial numbers on the registration cards and the mailing of the lists of these names with their attached numbers to the adjutant generals of the States and the Provost Marshal General is one of the first points at which special efforts for speed can be made. The fixing of the serial numbers can hardly take more than two or three days in the largest boards, but making up a list containing each name with its serial number was a process which in June, 1917, occupied nearly the whole of the month after June 5, the day of registration. It will be impossible to look forward to such a long-drawn-out process in this instance.

Must Have the Lists.

The compilation of this list can not be dispensed with, because the possession of this list in duplicate by the adjutant in the State and by the Provost Marshal General affords the only guarantee against the change of a serial number on a card, after the drawing of the numbers at Washington, which might be made by a local board disposed to favor or endanger an individual registrant in respect to the order of his liability. Therefore, it is impossible to proceed with the drawing at Washington until all these lists have been prepared and have been mailed throughout the Union. It is hoped that all local boards will appreciate the absolute urgency of condensing the preparation of this list in the shortest possible time, and it is hoped that this period will reach not more than 10 days at the most in any board.

The next stage in the speeding-up process will consist in sending out the

GEN. CROWDER TELLS OF PLANS TO SPEED DRAFT

questionnaires to registrants as promptly as possible. By the plan which formerly obtained the questionnaires were sent out by 5 per cent a day. This limitation will no longer apply. The local board will be at liberty to send out the questionnaires in such quantities and at such rates as seems feasible to each board, the general principle being to send them out as speedily as the registrants can utilize them.

To a like extent it is imperative that the preparation of questionnaires by registrants be speeded up as much as possible in order that the work of classification may be proceeded with as promptly as possible after the registration takes place. To that end the newspapers would be aiding us considerably if they would urge local boards to get in touch with the legal advisory boards and have the latter afford every facility in the way of advice and assistance to registrants in the preparation of the questionnaires.

This means also that the registrants should do their part in the speeding up and should fill out and return their questionnaires to the local boards without waiting for the time limit of seven days allowed by the law. The press is asked to urge registrants to do their patriotic duty by not taking any more than the minimum time necessary to fill out the questionnaire and return it promptly.

Will Save 25 or 30 Days.

In the process of 1917 the questionnaires were not sent out until after the drawing had taken place at Washington, the order numbers announced, and the boards had entered the order number on each questionnaire. If this procedure were followed in the present instance the questionnaires could not be sent out until 25 or 30 days after registration day. This period of time can not be lost on this occasion. The questionnaires will be sent with only the serial numbers and without the order numbers. This will enable the registrants to devote themselves to the filing of the questionnaires while the process of drawing the order numbers, preparing the master list, notifying the local boards of the order numbers is proceeding, and thus save the period of 25 or 30 days.

When the questionnaires are returned, the boards will proceed to examine and classify first of all the questionnaires of those age groups which the President may designate. This designation has not been yet made, and will be duly announced to the boards and to the public. This prior examination of the questionnaires of the age groups which are to be first liable to call will enable the boards to be ready promptly with a sufficient number of men to fill the October requisitions. As I have stated on several occasions, the supply of men in class 1, under the old age limits, will have been exhausted, or practically so, by the end of this month. To prevent an interruption in the flow of men to the camps, we must begin inducting men of the new class into the service next month; whether they can do so depends entirely upon the energy of the local boards and the cooperation of all parties concerned. In this the press can be of immense service, and I know that I can rely on you to help us put this job over.

QUESTIONS AND ANSWERS.

In response to questions, Gen. Crowder said:

"We have been more successful in the publicity connected with the forthcoming registration than we were on the occasion of the first enrollment a year ago. You gentlemen are no doubt familiar with the various agencies we have employed, and you know how completely the whole situation has been visualized before the registrant."

Asked concerning the procedure to be followed, Gen. Crowder explained that the registrars are expected to report back to the local boards on the very day of the registration. He added:

"The next morning we hope the local boards will have compiled all the data for their respective jurisdictions concerning the individual registrants and telegraph their reports to State headquarters. The State headquarters, in turn, should compile the returns and telegraph them here, so that by Saturday we might have the compiled returns for the entire Nation. The next step, of course, is giving the serial numbers. In the memorandum that has just been read to you you have as much of an outline of the plan as the public can be expected to assimilate at one time. If we attempt to go any further, we will be dealing with a second stage, and I want the statement given out to-day to be confined to the subject matter contained in that memorandum."

Date of Drawing.

Question. "Can you state when the day of the drawing can be expected?"

Gen. CROWDER. "When I have been notified that each of the 4,557 local boards have mailed their serial-number lists to the State headquarters, I shall be at liberty to hold the national drawing. If the drawing is held before the assigning of serial numbers is out of the hands of the local boards, it will be possible for serial numbers to be juggled in the interest of favored individuals and on the basis of the order in which the numbers are drawn at Washington. How soon after I get the report that all the serial-number lists have been mailed to State headquarters the drawing will be held will depend upon the convenience of certain public officials who heretofore have attended these drawings and who probably will want to attend this more important one. It possibly will be within 5 or 10 days after we get the notice I speak of, and the question as to whether it is held within the 5-day or the 10-day period will, as I say, depend upon the convenience of these officials. It ought not to take longer than 10 days for the board having the largest number of registrants to prepare these serial-number lists and consign them to the mails. This 10-day period would bring it from September 12 to the 22d for the notice to be received that the lists were all made up. Allowing another 10 days interval between that time and the drawing would enable me to hold the drawing by October 2."

October Requistions.

Question. "By that do you mean you expect to start men toward the cantonments by October 15?"

Gen. CROWDER. "Requisitions will come to me from the War Department as to when the department wants men delivered to the cantonments, and I must be prepared for any kind of schedule called for by these requisitions. There will be some men left over from the August 24 registration, which fact will aid me in meeting the initial calls for October."

Question. "Do you know approximately how many men will be called in October?"

Gen. CROWDER. "I have not yet received the requisitions in such form that they can be given out."

Question. "Have you considered the advisability of having the local boards give out the questionnaires to registrants when they register?"

Gen. CROWDER. "I have considered the matter seriously, and have come to the conclusion that it would be inadvisable. It was represented to me by a number of local boards that a great deal of time could be gained in that way. It would, however, involve a serious loss in that we would lose the record we would have by having the questionnaires mailed out. Concerning certain questions that might arise we should be without the evidence of legal notice to the registrant, and this record we must have. It would be hard to keep it on the occasion of the registration by simply handing a copy of the questionnaire to the registrant."

Filling of Cards in Advance.

Question. "Have you considered the suggestion that men be permitted to obtain their registration cards in advance of September 12 and fill them in ahead of time?"

Gen. CROWDER. "We believe that it would be very dangerous to do this. The cards might get lost, and they would be almost certain to come back in a damaged condition. There will be plenty of registrars to insure completion of the work on registration day. The cards are ready, and when the registrant presents himself for registration there will not be a long wait ahead of him."

Continuing, Gen. Crowder said:

"As you gentlemen see, we are up against a new campaign, the size of which demands attention. There is involved the registration in a single day of 13,000,000 men, and then classifying this 13,000,000 within 100 days. That is the task we have set for ourselves."

Question. "Do you expect to have them all classified that quickly—in 100 days?"

Gen. CROWDER. "I am hopeful that the selective-service machinery throughout the Nation will give an exhibition of efficiency that will enable us to complete this classification in 100 days. Let me say in that connection that when we inaugurated what we called our '60-day drive' in December, 1917, for the classification of approximately 9,000,000 registrants, 60 per cent of the boards were through in 60 days. It goes without saying that if all of them had used the same expeditious and efficient methods that the 60 per cent used all of the work could have been completed in that time.

"Now, in the present instance I must contemplate the classification of 4,000,000 more men than we had on that occasion, but I can also contemplate the fact that

(Continued on page 5.)

STUDENT ARMY TRAINING CORPS PLAN EXPLAINED BY OFFICIAL

Colleges Will Not Lose Their Identity, Says Third Assistant Secretary of War.

Press interview by the Third Assistant Secretary of War, September 5, 1918:

I think that the Students' Army Training Corps plan is now going along in good shape. The technical difficulty about the whole thing was that it got jammed for the reason that we could not anticipate action by Congress; but the college business, as I know from experience, is a seasonal business, like a summer boarding house—you have to make your plans before a certain date in order to start by a certain date. We had to do a certain amount of guessing and we had to do a certain amount of keeping the institutions guessing, but now I think the thing is perfectly clear.

The colleges will go on as separate organizations. The college does not turn over its identity to the War Department. It goes on. It has its board of trustees, it has its funds—everything else. The department makes a contract with the college to train a number of men who are soldiers primarily and students merely because they are ordered to be students.

In order to get going by October 1, those people who will be normally at every college, the boys over 18 who are in physical health who would be there anyway at that time, will be retained; but a boy who is in college on that basis isn't going to have a prescriptive right to stay on there under the old happy-go-lucky college conditions, and if he doesn't come through he will find himself in a training camp like any other drafted man.

Testing Students Out.

I think there is no impropriety in saying that in this way we are simply testing those fellows out, and it is the intention of the committee to draw constantly on the enlisted men in the camps who are showing promise, who show that they would be a better investment; for instance, if you were in a camp and Dougherty was in a college and Dougherty was not thought to be standing high enough in his work and you were showing promise, you might find yourselves exchanged.

Each college has its entrance requirements, which are normally four years of high school, and while, of course, any college can change its requirements, I do not think that they are planning to do so. As you know, machinery similar to that above outlined has been worked out for enabling a boy who has not had a high-school education to go to a technical institution for work which will prepare him to be a technician of some sort.

We will take as many men as the colleges can provide for. We will not, of course, approve of a college that can not bed and board the men as we want them to.

We propose to draw from the camps the very kind of boy you have in mind if he has promise, and preliminary education, and is making good in camp. If we can do better for the Government by sending him to a college, and using the college equipment, we will send him to college. We can take him out at any time. The period from October 1 to December 31 will probably be one of adjustment. The classification machinery is very complete, and we will know from it the men in the camps who have the necessary preliminary education.

This plan, of course, will only be carried out at colleges which have a military officer. Our construction program is going to be pressed to make provision for all the men who have to be trained under the new legislation, and as a matter of fact, it is cheaper to send a boy to college and train him there, than it is to send a boy to a cantonment and give him the course of training there.

As I say, this is a seasonal trade, and we have got to get started, and the plan, as I understand it, is to make a tentative contract now, based on what the colleges think they can do, and what we think we can do, to be superseded by a permanent contract which will be practically uniform. Of course, it can not be exactly so. A college in Vermont will have a coal bill that they will have to consider that a college in Texas will not. We have tried to study the matter out, and our belief is, owing to the fact that a college has its buildings, etc., and is a going concern, that we can make a contract that really costs the Government less than to give the corresponding training in a cantonment.

Not Class Segregation.

As to teachers, in some cases we can enlist the instructors to hold on to them; but what you men are now trying to do is to get a detailed plan in advance of something that we will have to feel our way to.

In discussing it, the most important thing is to make it clear to the people of the country that this is not intended to be in any way a class segregation. It isn't the nice boy who is going to get off easily. The need of the Government is to test its men out for leadership as quickly as possible, and we simply want to use existing institutions of the country for that purpose. It is part of the mobilizing of the entire organization of the country to meet the given need; the boy who is inducted belongs to the Army; it can do anything it pleases with him, but it is a better plan to put a boy who has had a high-school education where we can train him for responsibilities.

Four Things May Happen.

There are four things which may happen to the man who has been or will be picked out to attend the colleges. (1) He may be sent to a central officers' training camp; (2) he may be told to continue his college training, because he is promising enough, but he isn't quite mature enough for an officers' camp; (3) some few of these boys may be held on at the colleges for some special subject where we need specialized training, like chemistry. The total number of these is not going to be serious. It is more likely that fellows with a certain dexterity will be assigned to special schools as draftsmen, or something of that kind, not, of course, because they are engineers and have completed the preliminary mathematical training for engineering, but fellows who can do engineering jobs, or drafting jobs; (4) men who have had their chance and have failed to make good and who go right into a draft camp like any other registered boy of 18.

QUARTERMASTER OFFICERS TO QUALIFY FOR FIELD DUTY

The War Department authorizes the following:

To make available for field service a number of officers of the Quartermaster Corps who are now assigned to the office of the Quartermaster General, an order has been issued by Brig. Gen. R. E. Wood, Acting Quartermaster General, to all division chiefs, directing that 25 per cent of the officers on duty at these places be qualified for field service, be designated for such service, and assigned as they are needed.

The intent of the order is to get all officers into field service who are qualified and available, and to fill their places with those disqualified for the field. It does not limit the action to officers within the draft limits, but extends to all officers of the Quartermaster Corps who are now assigned to the places designated.

The order has already been put into effect and will be carried out quickly. From time to time other officers are to be assigned to the office of the Quartermaster General, but the order will be kept in operation, and practically all officers except those absolutely indispensable on certain work will be ordered to the field.

BOHEMIANS THANK U. S. FOR RECOGNIZING CZECHO-SLOVAKS

The Secretary of State has received the following telegram:

"CHICAGO, *September 3, 1918.*

"Hon. SECRETARY ROBERT LANSING,
Washington, D. C.

"The epoch-making act of the American Government recognizing Czecho-Slovaks as allies and co-belligerents, worthy of independence and the company of free nations has moved us most profoundly and we wish to pour our hearts to you and to the American Government in gratitude, for by that act our brothers were liberated from centuries-long bondage, from indescribable suffering imposed by the awful Austrian and Magyar tyranny, and have instilled in them new hopes. We who have chosen this land for our country will be inspired by this act to greater achievements. We shall be filled with new strength to fulfil the solemn vows given America. The champions of the oppressed, we shall feel new joy in performing our duties towards her, new valor and new motive power; we see to-day the glorious banner of our great free Republic reaching over the oceans and beaming upon the new flowers of liberty where there was but dark desert of despair. Glory be to our own America, the champion of freedom. Glory be to America, the defender of democracy and humanity. We love her passionately and shall strive to be worthy of her. Our eternal gratitude is hers.

"For the Czecho-Slovak people of America.

"BOHEMIAN NATIONAL ALLIANCE."

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

Not Certain Committee Will Fix Cotton Price

Bernard M. Baruch, chairman of the War Industries Board, authorizes the following:

The statement issued by the War Industries Board and printed in the newspapers of Thursday, relative to the appointment of a committee to study the conditions arising from a heavy shortage in the cotton crop, must not be construed as indicating that price fixing will be a certain outcome of their efforts. The committee, whose personnel is now being selected, will investigate the question in all its phases as to the advisability of going into the matter of prices. The committee will report back to the War Industries Board their findings and recommendations, upon which further action will be taken.

CHEWING GUM FOR THE ARMY.

Found Effective in Allaying Thirst of Men on March.

The War Department authorizes the following:

Orders have just been placed by the Quartermaster Corps for 2,300,000 packages of chewing gum for the Army. It has been found that on long marches and where the troops are unable to get sufficient water chewing gum is very effective in relieving thirst.

Recently the commanding officer of a regiment of Field Artillery, when embarking for overseas service, stated that 250 pounds of chewing gum would save hundreds of gallons of water when most needed.

American Official Communique on Operations of U. S. Forces

The following is authorized by the War Department:

American Official Communique No. 113—Continued.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
September 4, 1918.

Section B.—The following list awards of the Distinguished Service Cross constitutes part of Section B of the daily American official communique and is sent forward separately to avoid delay in the transmission of other news:

The commander in chief has awarded the Distinguished Service Cross to the following officers and men for acts of gallantry as set forth after their names:

Maj. BENJAMIN S. BERRY, Marines. "He led his men in a gallant attack across open ground and into the Bois de Belleau, France, northwest of Chauteau Thierry, on the afternoon of June 6, 1918, inspiring them to deeds of valor by his example. When he reached the edge of the woods he fell, severely wounded. Nevertheless, he arose and made a final dash of 30 yards across through a storm of bullets and reached again the first wave of his command, before yielding to exhaustion from his injury."

Second Lieut. CLARENCE R. CHRISTMAN, Machine-Gun Battalion. "By leading one of his machine guns in advance of the Infantry through a wheat field south of Soissons, France, July 22, 1918, he succeeded in obtaining a position of advantage from which he cleaned out an enemy trench and forced out of action a hostile machine gun which had been holding up the advance of our Infantry."

Second Lieut. FREDERICK HAHN, Field Artillery. "Near Cantigny, France, May 28–30, 1918, he unhesitatingly went into heavy shell fire to supervise the repair of telephone lines and to act as runner when the further maintenance of the wires became an impossibility."

Corporal ANTHONY C. BILLS, Field Artillery. "Near Cantigny, France, May 28–31, 1918, he voluntarily and constantly was exposed to shell fire to repair important telephone lines. During the performance of this work he lost an arm and was otherwise seriously injured."

Corpl. LEON HARLOW, Field Artillery. "Near Cantigny, France, May 28–30, 1918, he voluntarily left his shelter and went out into a smothering bombardment to perform exhausting labor in repairing telephone lines. He repaired five breaks in a 50-yard stretch of wire, and when the same small section was again broken in four places he carried a message through heavy shelling to the Regimental Post of Command."

Pvt. ABE KAUFMANN, Field Artillery. "He refused to leave his gun after he had lost a finger during the enemy counterattack on Cantigny, France, May 28, 1918, but continued to perform his duties until so severely wounded as to be unable to assist in serving his piece."

Second Lieut. FRED A. TILLMAN, A. S. S. C. "He aroused the admiration of all the French first-line infantrymen when making an infantry liason west of Rheims, France, June 26, 1918. He flew over the enemy lines at an altitude of only 150 metres in spite of violent machine gun and antiaircraft fire. Shot down between the lines with his plane riddled with bullets and his pilot severely wounded he picked up his pilot in his arms and carried him through heavy fire more than 200 meters to the French first lines after he was himself wounded in the neck."

Maj. GUY I. ROME, Infantry. Fourteen and a half hours on July 15, 1918, he held his battalion in an advanced and exposed position on the Marne, east of Chateau Thierry, France, although violently and persistently attacked on his front and on both flanks by greatly superior enemy forces."

Capt. JESSE W. WOOLDRIDGE, Infantry. "With rare courage and conspicuous gallantry he led a counterattack against an enemy of five times his own numbers on July 15, 1918, east of Chateau Thierry, France. One hundred and eighty-nine men entered this counterattack and fifty-one emerged untouched. More than 1,000 of the enemy were killed, wounded or taken prisoners."

First Lieut. EDGAR G. TOBIN, Aero Pursuit Squadron. "While leading a patrol of three machines in the region of Vieville, France, July 16, 1918, he attacked an enemy formation of six single seaters. He destroyed two himself and forced down a third out of control.

Second Lieut. GEORGE WINFIELD KUEHLMAN, Engineers. "He was sent on the night of August 5–6, 1918, to make a reconnaissance of all possible means of crossing the River Vesle, near Fismes, France. It had been reported that the Germans had all retreated from the south bank of the river, but he found that such was not the case; they were there in force nevertheless; such was his bravery and determination that he crossed into and through the German lines, made a full reconnaissance, and returned with his report."

Second Lieut. JAMES STANLEY COLTON, Engineers. "From August 4–6, 1918, he successfully carried out a reconnaissance for the location of possible bridge sites across the River Vesle, near Fismes, France. He was constantly under

(Continued on page 6.)

PROCEEDINGS OF THE CONGRESS OF THE UNITED STATES BRIEFLY TOLD

SENATE.

Senator Kellogg, of Minnesota, introduced in the Senate yesterday afternoon, and that body adopted without a roll call, a resolution authorizing the President to establish "dry" zones about coal mines, ship yards, munitions plants, and other establishments where war workers are employed. The resolution is identical with an amendment to the war-time prohibition amendment to the agricultural extension bill that has been adopted, but in presenting it Senator Kellogg expressed the fear the extension bill might be delayed, and explained the necessity for immediate authority for the President to act in the matter. The resolution was hastened over to the House, where Mr. Miller, of Minnesota, endeavored to have it acted upon at once. Chairman Dent, of the Military Committee, objected to immediate consideration, and the resolution was referred to the House Military Committee.

The recent "slacker" raids in New York and elsewhere were discussed in the Senate yesterday afternoon. Several Senators, while denouncing "slackers," condemned the raids on the ground that the use of the military forces instead of the civil authorities, and the manner in which the raids were conducted, were without authority of law. Other Senators justified the action on the ground that any method was justifiable to bring slackers to book. Senator Smoot, Republican, of Utah, introduced a resolution directing the Military Committee to investigate the raids and report. Immediate consideration of the resolution was frustrated by an objection by Senator Kirby, of Arkansas.

Text of the Resolution.

The text of the resolution was as follows:

Whereas, the daily papers have reported the seizure or arrest and temporary incarceration of many thousand citizens, particularly in the State of New York; and, whereas, such reports indicate that in the so-called "round-up" sailors and soldiers in the uniform of the United States participated, therefore, be it

Resolved, that the Committee on Military Affairs be directed immediately to investigate and report upon all such alleged occurrences and as to who was or is responsible, if anyone, for the presence of such sailors and soldiers or either, in such so-called "round-up" or arrest, and who, if anyone, issued orders, if any, resulting in the presence of such soldiers and sailors and their participation in the said occurrences, if they were so present and did so participate.

Criticism of Trade Commission.

But little headway was made in consideration of the agricultural extension bill. The day was spent in the discussion of matters foreign to the bill before the Senate. Some time was spent in criticism by a number of Senators upon the Federal Trade Commission and particularly its recent report with regard to the meat-packing industry and the recommendations of the commission that it be taken over by the Government. The debate of yesterday afternoon was precipitated by a reference to the report recently made by the committee of the Chamber of Commerce of the United States in which the work of the commission was strongly criticized and its methods of procedure attacked. Several Senators came to the defense of the commission and resented criticism made as unjustified.

The Senate yesterday afternoon confirmed 2,500 naval nominations and promotions, chiefly in the lower grades, but including thirteen captains to be temporary rear admirals. Confirmations also included about one-half of the 2,000 post office nominations recently sent in. The remainder will be considered at the next executive session.

HOUSE.

After several days of debate, the water-power bill was finally passed yesterday. The second effort of leaders to so amend the bill as to provide in the recapture clause that the Government when taking over properties shall pay only the "fair value" instead of the "net investment" failed.

Chairman Kitchin, of the Ways and Means Committee, to-day called up the war-revenue bill for consideration. It will be kept continuously before the House until it is passed.

The Committee on Military Affairs has ordered a favorable report on a bill introduced by Mr. Treadway, of Massachusetts, which would provide a penalty of two years' imprisonment for any person seeking fees from the relatives of deceased soldiers for collecting back pay and allowances. Mr. Treadway told the committee that lawyers in Washington and other cities have begun a systematic search for relatives of deceased soldiers, with a view to their personal profit for services that are entirely unnecessary in connection with the collection of money due from the Federal Government.

Tells of Plans to Speed Up the Draft

(Continued from page 2.)

the boards have become more efficient through experience, and that I am allowing 40 more days in which to classify the 13,000,000. I realize, of course, that the classification of the men between the ages of 32 and 45, inclusive, will be very much more difficult for the reason that more of these men are integrated with the industrial, agricultural, and occupational life of the country than those of the younger ages, and that about them more facts will have to be ascertained; there will be more claims for deferred classification; more men to be deferred, and properly so, because of their importance in various necessary lines of work. Then, again, there is the marital relation which must be considered."

Question. "On the other hand, will it not be correspondingly easier to classify those between 18 and 20, inclusive?"

Gen. CROWDER. "Very much so. I am not without hope that I may achieve the almost impossible task of having the entire number classified by January 1. I would like to contemplate that."

Question. "In your statement you spoke about the President fixing certain age groups to be called out in an order to be fixed by him. Can you elaborate on that?"

Gen. CROWDER. "I can not. There has been a great deal of discussion about these age groups, and I want the Secretary of War to confirm the original approval he gave me before I give out the age groups."

Question. "When will you make this announcement?"

Gen. CROWDER. "I may be able to make it before the present week closes. I desire merely the opportunity to speak to the Secretary again and see that he entirely approves the plan proposed."

Question. "Is there anything you can say further in the matter of industrial deferments?"

Gen. CROWDER. "I would rather that should come in another statement and not be mixed with this. At this time there is nothing to give out on this subject. I wish to treat these matters in accordance with the different phases involved and present them consecutively. Some of these statements I shall have occasion to give out after registration day, and when I have anything to give out it will be given to all alike."

Industrial Deferment.

Question. "How soon do you expect to be able to give out a statement on the industrial deferment phase?"

Gen. CROWDER. "Not until after the registration has taken place, for the reason that this is a matter which deals with classification, and so I would like to save it until that time. I do not say that I will give it out at that time, but I shall not give it out without notice to all, so that all may have the same knowledge. I want this work covered in a uniform way, and it would be very unfortunate to have any variation in this respect. You must bear in mind that in the inclusion of ages up to 45, inclusive, we are attacking industry, occupations, and agriculture from a new angle, and that there is a real and serious impairment to be looked for were we to take too many. We must give serious consideration to the situations we mean to relieve."

Question. "Do you find, as a rule, that industrial and manufacturing interests are disposed to readjust themselves willingly to the man-power demands of the Government?"

Readjustment Going On.

Gen. CROWDER. "A great deal of readjustment is going on. That has been voluntary and has had its origin in the patriotic attitude of men toward the real point to be gained—the winning of the war. The responses that have been made have been those of ready compliance."

Question. "What is the situation in regard to having 4,000,000 men ready by January 1?"

Gen. CROWDER. "That does not stop with the 1st of January. That projects itself to the 1st of June. If you would know what number of men we shall have by January 1, consider the number of men we have in the service to-day; add to that number the numbers to be called under the program for September, October, November, and December, and you will know precisely how many there will be. On August 1 we had 2,006,442 men inducted into the service."

MEN CITED IN COMMUNIQUE FOR GALLANTRY

(Continued from page 4.)

heavy shell fire and was frequently harassed by fire from hidden machine-gun nests in the town. Nevertheless he passed beyond our farthest lines and secured the desired information. He was wounded before his mission was accomplished, but refused to return to his battalion until he had made his reconnaissance and had been relieved by another detail."

Sergt. WILLIAM A. HARTMAN, Engineers. "He was a member of a patrol sent out from the battalion post of command at midnight August 4, 1918, to reconnoiter the Vesle River front near Fismes, France, for the location of possible sites for pontoon bridges and of material for making such structures. Despite heavy artillery and machine-gun fire that forced the patrol to scatter and separate him from the lieutenant in charge, he continued the work on his own initiative, and, acting entirely without orders, started his detail on the actual construction of rafts for the pontoon bridges. His courage, ability as a leader, and his inflexible determination made the reconnaissance a complete success."

Second Lieut. JOHN J. WILLIAMS, Infantry. "On July 28, 1918, near Villers-sur-Fere, France, when all the other officers of his company had been killed or wounded, he promptly took command, led his men through artillery and machine-gun fire, rushed a machine gun which was blocking his advance, personally killed four members of its crew, gained his objective and held it."

Second Lieut. HUGH F. EDWARDS, Infantry: "Near Vaux on July 1, 1918, he led his platoon against heavy machine-gun fire, silenced several machine guns, established his guns at his objective, repelled a counterattack on his left flank, and personally killed two of the enemy."

Supply Sergt. JAN JANKOWSKI, Infantry. "Near Vaux, July 1, 1918, he entered a dugout, killing two and capturing three of the enemy single-handed."

Pvt. First Class FRANKLIN D. McVICKERS, Infantry. "At Vaux, July 1, 1918, acting as stretcher bearer, although wounded twice, he continued to make trips through an intense barrage to carry back wounded."

Pvt. First Class WALTER A. SHAMINSKI, Infantry. "Vaux, July 1, 1918, having entered a cellar to install his telephone, he was attacked by 11 of the enemy, of whom he killed 2 and took 9 prisoners, single-handed."

Pvt. EDWARD A. BELANGER, Infantry. "At Vaux, July 1, 1918, he bravely attacked eight of the enemy, killing four and capturing four."

Pvt. ALBERT S. HARTWELL, Supply Service Unit. "From March 20–23, 1918, he repeatedly drove his ambulance over a road east of Rheims, France, that was under bombardment of gas and explosive shells. Upon one occasion, while cranking his car, he was knocked several yards by the explosion of a shell, yet he continued his work. Another day his car was hit by a shell and badly damaged and he himself was severely wounded in the head and both legs. In spite of his wounds he carried a wounded man, who was in the ambulance, to a place of safety, made him comfortable, and then crawled to a dressing station for assistance."

Maj. WILLIAM J. DONOVAN, Infantry. "He lead his battalion across the river Ourcq and captured important enemy strongholds near Villers-sur-Fere, France, on July 28–31, 1918. He was in advance of the division for four days, all the while under shell and machine-gun fire from the enemy, who were on three sides of him, and he was repeatedly and persistently counter-attacked, being wounded twice. His coolness, courage, and efficient leadership rendered possible the maintenance of this position."

Capt. THOMAS J. REILLY, Infantry.—"Wounded and ordered to the rear, he nevertheless remained with his men in an exposed and dangerous position, which it was necessary to hold, near Villers-sur-Fere, France, on July 27 to August 1, 1918. His presence and example held his company fast against continuous fire."

Capt. RICHARD J. RYAN, Infantry.—"Three times wounded on July 28, 1918, in the attack across the River Ourcq, near Villers-sur-Fere, France, and up the heights beyond, in which he lead his company forward in the face of extremely heavy fire from machine gun and artillery, which he refused to evacuated and remained with his company until it was withdrawn. They reached their objectives and made their stand because of his fine spirit and unflinching determination."

Capt. VAN SANTVORD MERLESMITH, Infantry.—"He was in command of a company at the crossing of the River Ourcq, near Villers-sur-Fere, France, on July 28, 1918. Despite the loss of all the other officers in his company, and although wounded himself, he continued to direct his men effectively against the enemy. When his major was killed he succeeded to the command of the battalion and led it forward throughout the day with courage and gallantry."

Chaplain FRANCIS P. DUFFY, Infantry.—"Chaplain Duffy devoted himself tirelessly and unceasingly to the care of the wounded and dying in the village of Villers-sur-Fere, France, from July 28 to 31, 1918. Despite a constant and severe bombardment with shells and aerial bombs, he continued to circulate in and about the two aid stations and the hospital, creating an atmosphere of cheerfulness and confidence by his courageous and inspiring example."

First Lieut. JOHN C. CHRISTOPHER, Infantry.—"He led his platoon against the Prussian Guards on hill No. 212, near Sergy, France, on July 28, 1918. So courageous was he and so skillful in directing the attack that 13 of the enemy's best troops were captured at their guns, and six machine guns were taken and turned on the foe."

Second Lieut. WILLIAM H. SPENCER, Infantry. "He led his platoon in an attack which stormed and took the strongly prepared enemy positions on the heights north of the River Ourcq, near Villiers-sur-Fere, France, on July 28, 1918. He maintained this position thus gained under a fire that lasted for seven hours. During this entire time he continually circulated among his men, cheering them, and giving the wounded first aid. In order to reach and administer aid to his wounded captain he passed without cover into an area which was under extremely heavy machine-gun fire, and was himself wounded."

Cook HARRY C. RICKET, Infantry. "He maintained his kitchen at Chateau de la Foret, near Villers-sur-Fere, France, on July 28–29, 1918, during a bombardment so intense as to drive all other kitchens out of the village. When his stove had to be taken to the rear, he improvised a fire in the ground and continued his work until ordered to leave. He carried water from a spring which was repeatedly shelled, when others would not approach it. Unaided, of his own volition, he conducted a first-aid station for wounded and exhausted men at his kitchen. Constantly in extreme personal danger from machine-gun fire from low-flying aeroplanes and bombardment by high-explosive shells, Cook Ricket devoted himself entirely to the needs of others and made possible the care of several hundred wounded, exhausted, and hungry men."

Sergt. FRANK GARDELLO, Jr., Infantry. "When two enemy aeroplanes flew parallel to our Infantry lines north of the River Ourcq, near Villers-sur-Fere, France, July 28, 1918, pouring machine-gun bullets into our positions and driving every one to cover, Sergt. Gardello rushed to his machine gun and took aim at the upper of the two machines. Although he was constantly subject to a storm of bullets from the planes and from enemy snipers on the ground, he nevertheless coolly sighted his gun and riddled the upper plane. It collapsed and fell in flames, striking the lower one as it fell and causing it to crash to the earth also."

Sergt. BYRON W. HAMILTON, Infantry. "When leading a rushing attack on machine guns on hill No. 212, near Sergy, France, July 28, 1918, he found himself ahead of his line so wounded as to be unable to stand on his feet. Attacked by 10

MEN CITED FOR GALLANTRY

Germans of the Prussian Guard, he rose to his knees and shot five of them. The others fled."

Sergt. JAMES B. LEPLEY, Infantry. "Near Souain, to the northeast of Chalons-sur-Marne, France, on the night of July 14 and 15, 1918, Sergt. Lepley left his trench and returned to a woods through a smothering fire of gas, high explosive, and shrapnel, to search for two men from his platoon who were missing. He found them lost in the woods, and guided them back to the platoon. On July 28, 1918, near Sergy, France, he led his platoon forward in the face of a heavy machine gun fire, and captured six machine guns and 13 prisoners from the Prussian Guards."

Sergt. EDWARD M. SHANAHAN, Infantry. "In the face of violent artillery and machine-gun fire, near Sergy and Seringes, France, on July 28, 1918, he selected a squad of men and rushed a machine gun that had been harrassing his company with its fire. He reached and captured the gun and killed the crew, thus forcing a passage for part of his company."

Corpl. JOHN J. McLOUGHLIN, Infantry. "Without assistance, he cleared out a farm house near Villers-sur-Fere, France, on July 28, 1918. He killed four of the enemy, took one a prisoner, and held the position by himself until support arrived. Prior to this he had left shelter to give first aid to a comrade who was lying, severely wounded, in the open."

Corpl. GEORGE R. BOUSTED, Infantry. "Corpl. George Bousted distinguished himself northeast of Chateau-Thierry, France, on July 28, 1918, when, as the leader of a squad of four men, he raided an enemy machine-gun nest held by 12 Germans. As a result of this daring work, 1 of the enemy was killed, the other 11 captured, and their four machine guns turned upon the retreating foe."

Pvt. THOMAS J. GRAY, Infantry. "He distinguished himself northeast of Chateau-Thierry, France, on July 28, 1918, when, with four other men, he raided an enemy machine-gun nest held by 12 Germans. As a result of their daring and presence of mind, 1 of the enemy was killed, the other 11 captured, and their four machine guns turned upon the retreating foe."

Pvt. NICK COSTIANES, Infantry. "He distinguished himself northeast of Chateau-Thierry, France, on July 28, 1918, when, with four other men, he raided an enemy machine-gun nest held by 12 Germans. As a result of their daring and presence of mind, 1 of the enemy was killed, the other 11 captured, and their four machine guns turned upon the retreating foe."

Pvt. MARTIN J. HIGGINS, Infantry. "Near Villers-sur-Fere, on July 30, 1918, Pvt. Higgins twice left shelter and went out into exposed places in front of the firing line, under heavy enemy machine-gun fire and carried in wounded comrades."

Pvt. BURR FRICKE, Infantry. "Near Villers-sur-Fere, France, on July 28, 1918, he saw six Germans about to make a prisoner of his corporal, who had been severely wounded in the ankle. He called a comrade and advanced on the Germans, killed two of them, took the other four prisoners, and returned with his corporal safely to our lines."

Pvt. ALT C. WILKEN, Infantry. "He aided materially in the advance against the Prussian Guards near Sergy, France, July 28, 1918. Despite three wounds he carried on with his automatic rifle until his right hand was shattered."

The commander in chief has awarded the distinguished service cross posthumously to the following men for the acts of gallantry as set forth after their names:

Pvt. PATRICK REYNOLDS, Infantry. "He was killed near Villers-sur-Fere, France, on July 30, 1918, when he went out alone in the face of enemy machine-gun fire in a heroic effort to capture an enemy machine-gun nest."

Pvt. TONY CRAMP, Machine-Gun Battalion. "During the action north of the River Ourcq, near Villers-sur-Fere, France, on July 28, 1918, he showed extraordinary courage and ability as a leader of men in field of battle. When his section sergeant had been killed and his corporal wounded, he assumed command of his gun section and led them forward against the enemy, directing the fire with effect, until killed."

Remember! the men in our Army and Navy do not expect luxuries. Should we at home expect them? Buy necessities and war-savings stamps.

37 Sick and Wounded Landed in U. S. During the Week Ending August 31

The War Department authorizes the following statement from the Office of the Surgeon General:

During the week ending August 31 the number of sick and wounded landed in the United States from the American Expeditionary Forces was 37. For the preceding week the number was 423. These men are sent to the various Army Hospitals where facilities for special reconstruction have been provided.

FALL MOHAIR CLIP RELEASED WITHOUT PRICE BEING FIXED

The War Industries Board [illegible] the following:

Failure of representatives of the mohair growers and producers' associations to reach an agreement with the Government on price for this fall's domestic clip of mohair, resulted in an announcement through Lewis Penwell, chief of the wool section of the War Industries Board, that the price will not now be fixed and the Government releases the fall clip.

It was represented to Mr. Penwell that the cost of production was around $1 per pound. The growers and producers said that a price less than 85 cents per pound would be ruinous. Mr. Penwell explained that while the Government needed the fall domestic clip it could get along without it. The Government did not feel justified in paying the growers the price they were asking, and did not want to do the industry an injustice.

Sales Direct to Manufacturers.

The hope was expressed by Mr. Penwell that the mohair growers could take care of themselves by selling direct, or nearly direct, to the manufacturers, and that speculators would not take advantage of the situation to profiteer and thus force the Government to take other action.

Following is the statement issued by Mr. Penwell after adjournment of the conferences:

"On the 8th day of August, 1918, the wool division of the War Industries Board notified all parties interested that the Government would require the fall clip of mohair and would later on call a meeting to fix the price, which meeting was subsequently fixed as September 4, 1918, at Washington, D. C.

"A meeting was held pursuant to this call and the fact was developed by representatives of growers and the representatives of producers present that the cost of producing mohair was in excess of anything the Government could afford to pay, considering the uses to which it could be put.

Present Needs of Government.

"The needs of the Government are not such at present that it feels justified in taking any arbitrary action in fixing the price below the cost of production. The accredited representatives of the National Mohair Growers' Association, the Texas Goat and Sheep Raisers' Association, and the Arizona Goat Raisers' Association have all stated in the meeting that if a price less than 85 cents per pound were fixed it would be less than the cost of production and would work a great hardship upon the industry.

"For the foregoing reason, and because an agreement could not be reached, it has been decided that the price for the fall domestic clip of mohair will not now be fixed.

"Until further notice the fall domestic clip of mohair is hereby released.

"It is hoped advantage will not be taken of the situation and that profiteering on the part of speculators will not force the Government to take further action."

MAKERS OF VACUUM CLEANERS AGREE TO LIMIT SIZES TO TWO

The War Industries Board authorizes the following:

Representatives of manufacturers of power-driven portable vacuum cleaners have agreed with the Conservation Division of the War Industries Board, in the interest of economy and conservation, to reduce their lines to not more than two models or sizes of such vacuum cleaners; to discontinue the manufacture of less essential attachments, and to discontinue the use of metals where such use is not absolutely essential.

Under the heading of "attachments" which are to be discontinued are included extra tools for cleaning other than floors or floor coverings, such as those for cleaning curtains, tapestries, wall coverings, furniture, and other articles, and the extra suction hose which is catalogued generally with such attachments.

The manufacturers are to discontinue at once the addition of new models or sizes of portable machines and the use of any sort of metal for purely ornamental or other unnecessary purposes. These plans will result in an annual saving of at least 100 tons of steel, 5 tons of brass, 125 tons of aluminum, and 1,000,000 feet of rubber hose.

Letter to Manufacturers.

The Conservation Division has sent out the following letter:

To the manufacturers of power-driven portable vacuum cleaners:

In the present emergency it is of primary importance that the country's resources be used to full advantage and that we husband our supplies of materials, equipment, and capital to aid in carrying on the war. This division is endeavoring, in cooperation with numerous industries, to determine upon plans of economy in order that materials and equipment may be saved and the amount of capital invested in manufacturers' and dealers' stocks reduced.

It is believed that manufacturers of vacuum cleaners can reduce their lines to not more than two models or sizes and that the manufacture of the less essential "attachments" which have been sold heretofore in connection with these machines can be discontinued as a measure of conservation. Every manufacturer should, furthermore, discontinue the use of metal of any sort for any purpose where its use is not absolutely essential. By these means it is believed that materials can be saved and the amount of capital invested in manufacturers' and merchants' stocks reduced.

The inclosed program has been drawn up with the assistance and advice of representatives of the industry. This program will be made effective unless substantial reasons are immediately presented to show that by some modification the needs of the Government can be met more effectually. We shall be glad to receive any suggestions which you may have to submit whereby greater economies can be brought about.

Will you please acknowledge this letter promptly, assuring this division of your cooperation?

CONSERVATION DIVISION,
WAR INDUSTRIES BOARD.

Schedule for Manufacturers.

1. Each manufacturer to discontinue at once the addition of new models or sizes of portable machines.

2. Each manufacturer to reduce his line of portable machines to not more than two models or sizes.

3. The manufacture of "attachments" to be discontinued. Under this heading are included extra tools for cleaning other than floors or floor coverings, such as those for cleaning curtains, tapestries, wall coverings, furniture, and other articles, and the extra suction hose which is generally catalogued with such attachments.

4. Each manufacturer to discontinue at once the use of metal of any sort for purely ornamental or other unnecessary purposes.

Merchants Agree to Restrict Stocks And Limit Trade in Christmas Gifts; Will Employ no Extra Holiday Help

The Council of National Defense authorizes the following:

The Council of National Defense has heretofore emphasized the necessity of restricting Christmas buying during the coming fall for certain specific reasons which it has stated. These reasons are in brief the necessity for saving labor and material in the manufacture and sale of Christmas gifts and of saving the transportation and delivery facilities necessarily involved in the large volume of Christmas purchases.

Manufacture About Completed.

After conference with representatives of leading industries and retail interests concerned, it is found that the manufacture of goods for the coming holiday season has been substantially completed, that the transportation of the goods to the point of sale is also largely done and that much of the material used for Christmas purchases, especially in the manufacture of toys, is the waste material derived from prior processes of manufacture.

The retail interests represented at the conference have agreed not to increase their working force by reason of the holiday business over the average force employed by them throughout the year and not to increase the normal working hours of their force during the Christmas season.

Useful Articles Only.

They also agreed to use their utmost efforts to confine Christmas giving, except for young children, to useful articles and to spread the period for holiday purchases over the months of October, November, and December. In order to relieve the transportation facilities of the country from a congestion in the latter half of December, which would be so hurtful to the interests of the Nation that it can not be permitted, the retail interests represented at this hearing have agreed to cooperate further in the campaign heretofore and now being carried on under the auspices of the War Industries Board to restrict deliveries and to induce customers to carry their own packages wherever possible.

Announcement In Ads.

The retail interests to which reference has been made have further agreed to make an announcement to the above substantial effect in their advertisements commencing in early September and repeating same weekly thereafter. The above suggestions, if faithfully and loyally put into effect throughout the country, will make possible a continuance of the holiday custom without endangering the national interests thereby.

The Council of National Defense will cooperate in carrying out the suggested measures. It looks to organized business bodies of every nature throughout the country actively to join in the movement as providing means whereby that cooperation between the Government and the people can be had which alone will permit the continuance of holiday business in such form, on such scale, and by such methods as are consistent with the national welfare. This announcement is definitely conditioned upon loyal and thorough cooperation in spirit and in letter on the part of sellers and buyers throughout the country.

List of Merchants Appearing.

The merchants appearing before the council were brought together by the Chamber of Commerce of the United States, acting through its general secretary, Elliot Goodwin, and their names are as follows:

N. M. Henderson, the Henderson-Hoyt Co., Oshkosh, Wis., merchant.

A. S. Campbell, Louis Meyer & Son, glove manufacturers, of New York.

Charles Hurd, Jordan-Marsh Co., Boston, Mass., buyer of hosiery.

C. G. Nutting, Marshall Field & Co., Chicago, Ill., buyer of handkerchiefs.

Harry T. Grand, Marshall Field & Co., Chicago, Ill., buyer of toys.

A. C. Gilbert, A. C. Gilbert Co., New Haven, Conn., manufacturer of toys.

Victor W. Sincere, the Bailey Co., Cleveland, Ohio, merchant.

E. L. Howe, secretary and treasurer, National Retail Dry Goods Association, representing 600 dry goods and department stores of the country.

James B. Reynolds, Washington, D. C., attorney for the toy manufacturers.

H. C. Ives, Bridgeport, Conn., toys.

Albert T. Scharps, treasurer, Lionell Manufacturing Co., New York, toys.

Fletcher D. Dodge, secretary, Toy Manufacturers' Association of America.

DETAILED TO HEALTH SERVICE.

Special Orders, No. 197:

181. Lieut. Col. Philip P. S. Doane, Medical Corps, is detailed temporarily for duty with the United States Public Health Service and the United States Shipping Board and will report for duty accordingly.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

SECTION NO. 2, SEPTEMBER 5, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	45
Missing in action	36
Wounded severely	75
Died from accident and other causes	6
Died of disease	4
Wounded, degree undetermined	12
Died of wounds	5
Total	183

Killed in Action.

Lieut. Charles Allen Hammond. Robert Hammond, 2437 Gratiot Avenue, Port Huron, Mich.

Sergt. James T. Gomillion. Lum L. Gomillion, Shreve, Ala.

Corpl. Michael J. O'Connell. Martin O'Connell, 79 Caroline Avenue, Jamaica Plain, Mass.

PRIVATES.

Landrum Allen. Miss Lily Allen, Gaffney, S. C.

Floyd L. Hawkins. Mrs. Susan Hawkins, South Kaukauna, Wis.

Harry C. Leeman. Mrs. Elanora Leeman, R. F. D. No. 1, Arcadia, Ind.

Oscar Merle Patterson. Henry Alexander Patterson, R. F. D. No. 6, Mount Pleasant, Mich.

Svend P. Rasmussen. Chris N. Rasmussen, Hutchinson, Minn.

Clyde W. Scarlett. J. A. Scarlett, 614 Park Avenue, Centerville, Iowa.

Joseph Barber. D. G. Thrash, Pe Ell, Wash.

John Ciack. John Ciack, 61 Penora Street, Depew, N. Y.

John L. Hinkle. Mrs. Melissa Hinkle, 410 Brown Street, Osawatomie, Kans.

Carlo Ludovici. Miss Bianca Ludovici, via 20 Settembre, Rome, Italy.

Otto C. Melang. Mrs. Gust Melang, 513 Wausau Avenue, Wausau, Wis.

John C. Miller. Mrs. B. Miller, 1321 West Thirty-ninth Street, Los Angeles, Cal.

James Munro. Hugh Munro, Cambridge, Wis.

Emil Parila. Halmar Parila, 29 Sun Street, Gardner, Mass.

John Frank Smith. Joseph Stephon Smith, International College, Springfield, Mass.

John H. Synder. John W. Snyder, 303 Walnut Street, Irwin, Pa.

George W. Marshall. George W. Marshall, Time, Pa.

Oskar Mitchell. John L. Mitchell, 57 Main Street, Hull, Mass.

Louis J. Morris. Joseph F. Morris, Vineyard Haven, Mass.

James A. Oliver. James A. Oliver, Vernon Street, Bridgewater, Mass.

Axil Julius Peterson. Mrs. Ida Larson, 854 Raymond Avenue, St. Paul, Minn.

Edward Pomarnky. Mrs. Mary Pomarnky, Midland, Mich.

Stewart Reynolds. Hugh Reynolds, 5216 Fifth Avenue, Chicago, Ill.

John J. Schley. Mrs. Arlene Schley, 205 Darrow Avenue, Solney, N. Y.

Curtis E. Shelton. Mrs. E. F. Shelton, Woodrow, Fla.

Louie E. Siefert. Mrs. Sarah E. Siefert, 37 Locust Street, Warren, Pa.

Everett Francis Smith. Miss Eva Elizabeth Smith, Lagrange, Ky.

Robert L. Sours. Mrs. Mamie Sours, R. F. D. No. 4, Luray, Va.

Ole Swanson. Mrs. Swan Swanson, Box Elder, S. Dak.

Curtis Thackston. Miss Mabel Thackston, Harrisburg, Ill.

Frederick Von Behren. Henry Von Behren, R. F. D. No. 2, Brewster, Minn.

Edmund G. Wagner. Henry E. Wagner, La Crosse, Ind.

James P. Walker. Lee Walker, Ladonia, Tex.

Joseph M. Wallock. Mrs. Maggie Bochinski, 1013 American Avenue, Milwaukee, Wis.

Edward Zachowski. Mrs. Frances Zachowski, 1124 First Street, Milwaukee, Wis.

William E. Zierke. H. E. Santel, South Elgin, Ill.

Joseph F. Andrade. Mrs. Amelia Andrade, 757 Washington Street, Santa Clara, Cal.

Louis E. Berry. Mrs. Maria Berry, 109 Peoria Street, Daly City, Cal.

Andre Burwan. Tony Burwan, Melrose Park, Ill.

Thomas Chimelewjnz. Mrs. Josephine Chimelowjnz, Worms, Poland.

Hugh A. Golden. Miss Mary Golden, 3115 Arthington Street, Chicago, Ill.

Louis Gordon. Abraham Gordon, 409 Wolfe Street, Philadelphia, Pa.

Died of Wounds Received in Action.

Lieut. Harold Clinton Wasgatt. H. P. Wasgatt, 180 Hancock Street, Everett, Mass.

Corpl. Guido D'Agostino. Gaetano D'Agostino, 1418 Oakly Avenue, New York, N. Y.

PRIVATES.

Charles L. Hoomes. A. P. Hoomes, Chapman, Ala.

Elmer M. Ogle. Mrs. Lillie Ogle, 3936 Martin Street, Spokane, Wash.

George O. Smith. H. J. Smith, Seymour, Mo.

Died of Disease.

PRIVATES.

Cassey Dennen. George Dennen, Warwick, Ga.

Albert F. Echardt. Mrs. Carrie Fuller, R. F. D. No. 2, Lafayette, N. Y.

Bernard J. Nanthey. Mrs. Lena Nanthey, 2313 Seventh Street, Sheboygan, Wis.

Lawrence A. Wair. Mrs. Bessie R. Wair, 1322 West Sixth Street, Little Rock, Ark.

Died from Accident and Other Causes.

PRIVATES.

Paul E. Burton. Mrs. Mary M. Burton, 143 West College Street, Oberlin, Ohio.

Earnest P. Esvang. Victor Esvang, Kimballton, Iowa.

Charles Suhocki. Charles Cater, 45 Water Street, Perry, N. Y.

Jesse Vandegrift. Mrs. Mary Vandegrift, 2217 Howarth Street, Philadelphia, Pa.

Maxwell B. Stich. Louis Stich, 135 Goerck Street, New York, N. Y.

Fred M. Weigel. William Weigel, 405 West Main Street, Jefferson City, Mo.

Wounded Severely.

Capt. James Van Dyke Nelson. Mrs. Olie E. Nelson, corner Lake and Berry Avenues, Bellevue, Ky.

LIEUTENANTS.

Otto Carlson. Mrs. Otto Carlson, General Delivery, Albany, Mo.

Jerod William Day. Mrs. Jerod William Day, Ashland, Wis.

Wayne S. Shuttleworth. Mrs. M. Shuttleworth, 801 High Street, Fairmount, W. Va.

Louis Winans Spaulding. Charles Spaulding, 44 Federal Street, Boston, Mass.

Marney B. Willey. Dr. W. B. Willey, Woodburn, Iowa.

Francis M. Long. Mrs. Francis M. Long, Carrollton, Ga.

SERGEANTS.

Fred Lehman. Julius Lehman, R. F. D. No. 6, Tigerton, Wis.

Lawrence I. Linkerheimer. Frank J. Linkerheimer, 1008 Constance Street, Pittsburgh, Pa.

Thomas P. Shepherd. Robert N. Shepherd, R. F. D. No. 1, Piney Flats, Tenn.

CORPORALS.

Gust Beheke. Gustave Beheke, 214 East Second Street, Roundup, Mont.

John Boucek. Rudolf Kupko, 2700 South Ridgeland Avenue, Berwyn, Ill.

Alton C. Britton. Mrs. M. E. Britton, R. F. D. No. 5, Traverse City, Mich.

Arthur P. Dunn. Charles F. Dunn, First National Bank, Habana, Cuba.

David G. Harp. Harry Jacob Harp, R. F. D. No. 7, Bakerstown, Md.

Omer J. Landry. Mrs. E. Landry, 44 First Street, Webster, Mass.

Robert Lilburn Nichols. Mrs. Alice Louise Nichols, 106 Division Street, Coldwater, Mich.

Thomas M. Finley. George S. Finley, Fort Gaines, Ga.

Paul F. Garlington. Mrs. Lucy Garlington, R. F. D. No. 2, Griffin, Ga.

Albert Guay. Mrs. Rosa Guay, 712 Sixth Avenue, West, Kalispell, Mont.

Mike L. Mahoney. Mrs. Mike Mahoney, 661 West Eighty-first Street, Chicago, Ill.

Walter Manguem. Mrs. Mattie Manguem, 61 Congress Street, Pittsburgh, Pa.

Raymond J. Scheetz. Ben Scheetz, St. Joseph, Mo.

James L. Schennigman. Henry Schennigman, R. F. D. No. 1, Defiance, Mo.

James H. Sidel. C. W. Sidel, Dudley, Mo.

John F. Tipps. Mrs. Sofronia A. Tipps, Campbell, Tex.

Fred Turner. Mrs. F. Turner, Elkader, Iowa.

John J. Wesołowski. Mrs. Pauline Wesolowski, 223 West Second Street, Mount Carmel, Pa.

Thomas Woods. Thomas Woods, Export, Pa.

Mechanic Lennie A. Mattingly. Mrs. Annie Mattingly, Fordsville, Ky.

PRIVATES.

William Blank. Charles Blank, R. F. D. No. 4, Portage, Wis.

James Broshears. Mrs. Cora Kelley, 310 East Poplar Street, Booneville, Ind.

George W. Davis. Mrs. Certrude Davis, Box 120, Laramie, Wyo.

James R. Davis. Edward R. Davis, 573 Church Street, Slatington, Pa.

Clarence Dix. Mrs. Anna Dix, R. F. D. No. 2, Cazenovia, Wis.

William Duwe. Alvin Duwe, Sturgeon Bay, Wis.

Elias Kolofolias. Albert Hulmes, 120 Fisher Street, Lowell, Mass.

Clare D. McFarland. John McFarland, 212 North Van Buren Street, Paw Paw, Mich.

George W. McIntosh. Mrs. M. L. McIntosh, Great Plain Avenue, Needham, Mass.

Michael J. Maloney. Mrs. M. Maloney, 250 Melvin Street, Wakefield, Mass.

Ollie L. Mason. N. I. Mason, Arlington, S. C.

Harold W. Munson. Mrs. M. E. Munson, 1725 North Howard Street, Spokane, Wash.

Edward F. Netzel. Alex Netzel, Crivitz, Wis.

Patrick J. Trainor. Katie Bardiel, Bayville, N. Y.

Burr Treber. Burr Treber, Bambridge, Ross County, Ohio.

Leslie E. Williams. Jacob T. Williams, Box 577, Billings, Mont.

Widless J. Adams. Villey Adams, Gibson, La.

Albert T. Anderson. Henry A. Anderson, 165 Woodland Avenue, Lexington, Ky.

Charles Bidwell. George Bolester, Bridgeport, Mich.

Herman E. Brown. Isaiah Brown, Sykesville, Md.

Daniel J. Callahan. Mrs. Mary Callahan, 8165 Bay Sixteenth Street, Brooklyn, N. Y.

Vincent Cimino. Frank Cimino, 1814 Addison Street, Chicago, Ill.

John Ellis. Joseph Ellis, 486 Scotland Street, Orange, N. J.

Charles W. Fletcher. Mrs. Ada Fletcher, 4618 Nicolett Avenue, Minneapolis, Minn.

Logan Gabbard. Jacob Gabbard, Cowcreek, Ky.

Jay C. Grummit. Mrs. Emma Stowell, R. F. D. No. 5, Ionia, Mich.

Peter Israel. Paul Israel, 34 Chartiers Street, Washington, Pa.

Henry Kopp. Mrs. Carrie Haas, 121 St. Nichols Avenue, Brooklyn, N. Y.

Thomas Osborne. J. A. Booker, 1100 Thirty-fifth Street, Newport News, Va.

Tony Noack. Peter Neack, 4332 South Hermitage Avenue, Chicago, Ill.

Sophus Olson. Mrs. Louise Senum, 511 K Street, Detroit, Minn.

John W. Paul. James R. Paul, Fairfield, Ill.

Lester G. Ramsey. Mrs. Sarah A. Boone, Sleith, W. Va.

Doy Riddle. Mrs. Addie Mason, R. F. D. No. 2, Petroleum, W. Va.

Jerry J. Riondeau. Ovila Riondeau, 231 River Road, New Bedford, Mass.

Chelan Ross. Mrs. Emma Ross, Akin, Ill.

Paul Rowitzer. Paul Rowitzer, sr., 459 West One hundred and fifty-fifth Street, New York, N. Y.

CASUALTIES REPORTED BY GEN. PERSHING

Forrest Dewey Samson. Ben Whitman, 201 East Vine Street, Kalamazoo, Mich.
William V. Scholz. Leslie Scholz, Winslow, Ariz.
Frank Andrew Trepczynski. Mrs. Minnie Pregandie Trepczynski, 1320 Junction Avenue, Detroit, Mich.
Stanley M. Watson. Mrs. Irene Chambers, 71 East Forty-second Street, Chicago, Ill.
Clyde Walter Wertz. James Wertz, 322 Spencer Avenue, Grand Rapids, Mich.
William Whinnie. Robert Whinnie, 503 South West Street, Linton, Ind.
Eddoe L. Wynigear. W. L. Wynigear, Sulphur Springs, Tex.
Fred William Zimmerman. Fred Zimmerman, 289 River Street, Manistee, Mich.

Wounded in Action (Degree Undetermined).

Lieut. John Atkinson. Mrs. John Atkinson, care of Carlisle Indian School, Carlisle, Pa.
Sergt. Antonio Louis. Mrs. Angelina Louis, 518 Lincoln Avenue, Blue Island, Ill.

PRIVATES.

Joseph M. Cowen. Charles Cowen, 466 New Jersey Avenue, Brooklyn, N. Y.
Reinhart A. Dahms. Mrs. Paulina Dahms, Morgan, Minn.
Walter B. Gunning. F. J. Gunning, Hotel Burleigh, Ticonderoga, N. Y.
Herman Kerber. Ludwig Kerber, R. F. D. No. 1, Rice Lake, Wis.
Philip Mollicone. Pasquale Mollicone, Isola, Italy.
John Novokuski. Alex Golbar, 304 East Eleventh Street, Michawaka, Ind.
Carter Andrew Roberts. Carter Roberts, Creedmoor, N. C.
Atelio J. Scolatti. Alex Scolatti, 507 Quinnesec Street, Iron Mountain, Mich.
Alex Tafure. Mrs. Rose Tafure, Casorta Teano Por Fontmalle, Italy.
Pete Wvieder. Walter Wvieder, 139 Warton Street, Philadelphia, Pa.

Missing in Action.

SERGEANTS.

Frederick G. Knatz. Mrs. Katherine Knatz, 301 East Twentieth Street, New York, N. Y.
Elmer J. McCune. Mrs. Rena Holmes, 343 East Carr Avenue, Cripple Creek, Colo.

CORPORALS.

COTTONSEED PRICE AGREEMENT AT CONFERENCE IN WASHINGTON

At a meeting of the State food administrators, held in Washington Wednesday, it was decided to accept the recommendation of the organized cottonseed producers as expressed by the commissioners of agriculture and markets and officials of the farmers' unions and other organizations in the several cotton States to stabilize the price of cotton seed at the average price of last year, the fundamental basis being on a yield of 41 gallons of oil f. o. b. cars.

The Food Administration has also consulted with the representatives of the crushers, refiners, and lard substitute manufacturers as to the formulation of regulations and voluntary agreements, so as to give effect to the producers' recommendations for a stabilized price throughout the year.

Prices of Seed Vary.

The price of seed on the basis recommended by the producers will vary from $64 to $72 in carload lots f. o. b. cars, depending upon the yield in oil, which varies from zone to zone. Using this basic price, the Food Administration has settled with the refiners to purchase oil at 17½ cents f. o. b. mills, and the Food Administration will assist the refiners to hold this price throughout the year.

Differentials have been fixed for crushing seed in consultation with the crushers' association on the basis of last year's costs and regulated profit of last year, plus the increased cost imposed by change in labor, transportation, and supplies.

Increase of $3 Per Ton.

The result is that the price of meal will vary from $50 to $57, in bags, depending upon the protein content or, roughly, $3 per ton higher than last year.

The Food Administration has strongly recommended to the War Industries Board that the price of linters should be increased so as to bear its proper share of the burden and increased cost of manufacture, and any change in this direction will be applied to a reduction in the price of meal.

The proposal of the cottonseed producers to accept the average price of cotton seed for last year, despite the lower yield of cotton and the increased cost of production, is a concession on their part to the cattle-feeding and dairy interests in this country.

The Food Administration would have been glad to have arrived at a result that would have made the price of meal exactly the same as last year to the feeding industry, but it is impossible to maintain the price of oil if it were increased above the present figure, owing to the relatively lower basis for vegetable oils.

All Interests Protected.

The Food Administration feels satisfied that the stabilization of this industry by the voluntary agreements of all elements of the industry will greatly eliminate speculation that would otherwise take place, and that all interests will have been protected in so doing.

The details of the seed prices assessed to local zones and yields will be issued by the State food administrators in each State.

CHANGES IN THE ENEMY TRADING LIST ANNOUNCED BY THE WAR TRADE BOARD

The War Trade Board issues the following:

The following changes in the enemy trading list are made as of date September 6, 1918:

ADDITIONS.

ARGENTINA.

Abdala Yabo y Hermano, Buenos Aires.
Balet, J. Roger (or Jorge), Buenos Aires.
Barbieri, Alberto, Ayacucho.
Cohen, Mauss, Levy & Co., Buenos Aires.
Dreher, Julio, Buenos Aires.
Duek & Cohen, Calle Azcuenaga 645, Buenos Aires.
Duec, Simon, Buenos Aires.
Gomez, Boglietti & Company, Buenos Aires.
Guilbert (or Guibert), David, & Co., Buenos Aires.
Herber, Gustav, Buenos Aires.
Hugel, Walter, Concordia.
Jacobi & Marx, Buenos Aires.
Jacobi Sigismundo (of Jacobi & Marx), Buenos Aires.
Marx, Mauricio (of Jacobi & Marx), Buenos Aires. To be distinguished from Mauricio Emilio Marx of the Molineros Harineros y Elevadores de Granos.
Mussi, Francisco, Buenos Aires.
Mutz, Santiago, Buenos Aires.
Pernas Hermanos, Santa Cruz.
La Refinadora de Buenos Aires.
Schopflocher & Sichel, Buenos Aires.
Van Hulsteyn, Vocke & Co., Buenos Aires.
Vendrell, Delfin, Buenos Aires.
Zeitune (or Seitune) & Asbani, Buenos Aires.

BOLIVIA.

Compania Boliviana de Wolfram, La Paz.
Montano, Venancio, Cochabamba.
Monterde, Manuel, Sucre.
Pastor, Juan Manuel, La Paz.
Rabdil, Alejandro, Oruro.
Schuett & Co., La Paz.
Schultz, G., La Paz.
Schultz, Heinrich (La Estrella), La Paz.
Vasquez, Juan, Potosi.
Voss, Juan, San Ignacio, Velasco.

BRAZIL.

Alves, J. B., Rio de Janeiro.
Estabelecimento Industrial Montana (E. Spiller jr.) Rio de Janeiro.
Loeser, Carlos, Aracaju.
Samuel, Mauricio, Manaos.
Schaitza, Oscar, & Company, Porto Alegre.
Stuck, Otto, Sao Paulo.
Tavares, M., & Arruda, Corumba.

CUBA.

Quintana & Company, 24 St. Isidro Street, Habana.

ECUADOR.

Riera, Martin, Guayaquil.
Sierra, Jose, Guayaquil.

GUATEMALA.

"Esmeraldas" Plantacion (Finca "Esmeraldas"), Enrique Hermann, Costa Cuca.
Frank, Victor, & Company, Champerico.

HONDURAS.

Abarca R., Justo, Amapala.

MEXICO.

Astrain, Valerio, & Company, Pachuca.
Berens, Alfredo, Puebla.
Boletin de Guerra, Mexico City.
Boletin de Informacion, Guadalajara.
Botica del Zocalo (Rafael Diaz & Company), Orizaba.
Brun, E., & Company, Colima.
Caamano, Nicolas (La Prensa del Dia), Orizaba.
Candado de Oro, El (Richard Hermanos), Orizaba.
Casam & Primo, Vera Cruz.
Collignon, Eduardo, Guadalajara.
Conti, Diaz, Mexico City (of Gugenheim & Bolaresque).
Degener, Adolfo, Vera Cruz.
Diaz Conti, Mexico City (of Gugenheim & Bolaresque).
Diez (or Diaz), Rafael, & Company (Botica del Zocalo), Orizaba.
Giron, Miguel, Tapachula.
Goebel, Andres, Mexico City.
Hambergo-Bremense of Hamburg, Mexico City.
Ilustracion, La (Restoy, Andres), Tampico.
Iwerson, Emilio, Mexico City.
Keller, Emil, Chihuahua.
Kuhlmann, Gustavo, Colima.
Meenen, Gerard, Mexico City.
Mendez, Augustin, Guadalajara.
Cia Mercantil Occidental, S. A., Guadalajara.
National Prussian of Stettin, Mexico City.
Las Novedades de Francia (Menendez y Hnos), Orizaba.
Peterson y Witte, Guadalajara.
Prensa del Dia, La (Caamano, Nicholas), Orizaba
Restoy, Andres (La Illustracion), Tampico.
Richard Hermanos (El Candado de Oro), Orizaba.
Ritter, Fernando, Mexico City.
Ruelas, Frederico, Manzanilla.
Ruelas, Ricardo Manzanilla.
Schrempel, Juan, Mexico City.
Schweikhardt, Carlos, Guadalajara.
Sieber, Clemente, Saltillo.
Volvre, Emilio, Mexico City.
Zawadski, Conrado, Mexico City.

MOROCCO.

Suarez de Lorenzana, Alberto, Melilla. (March 15, 1918.)

PANAMA.

Leer, Albert, Bocas del Toro.

PARAGUAY.

Boecker, Carl, Asuncion.
Reverchon, Carlos, Villarico.

SALVADOR.

Meyer, Marcello, San Miguel.

SPAIN.

Sociedad Navarra de Industrias, Pampeluna.
Azcarate, Cecileo, Lodosa.
Spontjes, Enrique, Lodosa.

VENEZUELA.

Paz, Carlos, Valencia.
Vargas, Eduardo, Maracaibo.

REMOVALS.

BRAZIL.

Nogueira, Candido & Co., Sao Paulo.

COLOMBIA.

Kine Universal, Barranquilla and Cartagena.

HAITI.

Auxila, Paul E., Port au Prince.

PERU.

Talledo, Pedro, Lima.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
September 4, 1918.

RECEIPTS.

Customs receipts	$500,499.10
Internal-revenue receipts:	
Income and excess-profits tax	1,112,658.89
Miscellaneous	6,001,144.56

ORDERED TO WASHINGTON.

Special Orders, No. 202:

542. Maj. Alexander R. Fordyce, jr., Quartermaster Corps, is relieved from his present duties and will proceed to Washington, D. C., and report to the director, war plans division, General Staff, for the purpose of receiving instructions in staff duty.

PROPOSED PURCHASES BY THE CLOTHING AND EQUIPAGE DIVISION, QUARTERMASTER CORPS

The following is a list of proposed purchases, by the branches indicated, for the Clothing and Equipage Division of the Quartermaster Corps, War Department:

By the light goods branch, Louis Heilbroner, buyer:

Coats, white duck	200,000
Trousers, white duck	200,000

By the light goods branch, George P. Waitzfelder, buyer:

Shirts, flannel, O. D.	500,000

By the light goods branch, J. Wiechers, buyer:

Trousers, denim, blue or brown	500,000
Coats (jumpers), denim, blue or brown	500,000

By the cotton goods branch, Mr. Ingraham, buyer:

MA–54. 36-inch, cheese cloth:	
Red, yards	500
Blue, do	500
White, bolt	375
M–12. 38½-inch, 8.20 gauze, 44 by 40, yards	5,000,000
M–15. 36-inch, 13.00 gauze, 32 by 28, yards	3,000,000
M–15. 36-inch, 15.00 gauze, 28 by 24, yards	2,000,000
M–15. 36-inch, 19.00 gauze, 22 by 18, yards	500,000
M–21. 19.00 gauze, 22 by 18, in gray, yards	22,202,000
M–21. 38½-inch, 8.20 gauze, 44 by 40, in gray, yards	68,738,000
M–21. 15.00 gauze, 28 by 24, in gray, yards	10,795,000
M–21. 13.00 gauze, 32 by 28, in gray, yards	3,300,000
M–2. Pillowcases, 45 by 38, number	2,228,000
M–2. Sheets, 72 by 93, number	4,757,000
M7a. Woolnap gray blanketing, 66 inches wide, number	450,000
0470. Sheetings, 36-inch, 14-ounce, in gray, yards	535,512
0370. Sheetings, 76-inch, 14-ounce, yards	678,389
0449. Target-material, 76-inch, yards	896,640
M–18. Meade cloth, 72 by 84, 42 inches wide, gray, yards	500,000
M–21. Sheetings, 64 by 60, 38½ inches wide, gray, yards	4,100,000
083. Sheetings, 52-inch, 14-ounce, gray, yards	314,496
E–15. Airplane fabric, 39-inch, yards	176
E–20. Airplane fabric, 39-inch, yards	52
G.D. 18. Sheetings, 40-inch, 2.55, 44/48, yards	3,700
GD. 10. Blankets, 7 by 4 feet, 26.2, square yard, number	92,500

By the cotton goods branch—Lieut. Hussey, buyer:

0470. 36-inch No. 4 duck, yards	60,219
0524. 43-inch No. 4 duck, do	2,000
M-14. 36-inch No. 8 duck, O. D. or khaki, yards	80,000
0470. 30½-inch No. 8 duck, yards	13,288
0470. 30½-inch No. 8 duck, do	25,000
5140. 36½-inch No. 9 duck, O. D., yards	50,111
5104. 36½-inch No. 9 duck, O. D., yards	80,825
5170. 36½-inch No. 9 duck, O. D., yards	80,825
0470. 36½-inch No. 9 duck, O. D., yards	68,611
0470. 36½-inch No. 9 duck, yards	75,840
0470. 36½-inch No. 9 duck, O. D., yards	2,880
0470. 30½-inch No. 9 duck, yards	2,818
0470. 36½-inch No. 9 duck, O. D., yards	13
0470. 30½-inch No. 9 duck, yards	55,000
0470. 30½-inch No. 9 duck, do	14,575
0470. 36½-inch No. 9 duck, O. D., yards	67,960
0470. 36½-inch No. 9 duck, yards	153,216
0470. 36½-inch No. 9 duck, O. D. yards	153,216
0470. 36½-inch No. 9 duck, O. D., yards	36,410
0470. 36½-inch No. 9 duck, O. D., yards	354,792
0470. 36½-inch No. 9 duck, O. D., yards	86,358
0470. 30½-inch No. 9 duck, yards	332,478
5080. 36½-inch No. 9 duck, do	187,888
5099. 36½-inch No. 9 duck, O. D., yards	819,462
5103. 36-inch No. 9 duck, O. D., yards	139,094
W-27. 72-inch, 8-ounce duck in gray (S. F.), yards	100
MA–54. 8-ounce duck, canvas, yards	675
M–14. 27-inch or 28-inch, 12.4 duck, khaki, yards	855,000
5120. 54-inch duck, enamel, surface black glaze, yards	8,429
D–29. 36-inch 9½-ounce shelter tent, O. D., yards	100,000
5090. 50-inch rubberized drill, O. D., yards	159,840
5128. 36-inch No. 0 duck, white, yards	1,390
5131. 36-inch No. 0 duck, white, yards	278
5133. 36-inch No. 0 duck, white yards	1,112
0470. 18-inch No. 1 duck, olive-drab, yards	12,411
0470. 18-inch No. 1 duck, olive-drab, yards	187,724
0470. 22-inch No. 1 duck, olive-drab, yards	170,659
5120. 18-inch No. 1 duck, olive-drab, yards	92,722
5006. 18-inch No. 1 duck, olive-drab, yards	25,535
5084. 18-inch No. 1 duck, olive-drab, yards	18,360
5120. 22-inch No. 1 duck, olive-drab, do	84,293
0470. 25-inch No. 2 duck, olive-drab, yards	53,789
3555. 48-inch No. 4 duck, gray, yards	32,355
0470. 72-inch No. 4 duck, olive-drab, yards	2,393
0470. 35-inch No. 4 duck, olive-drab, yards	150
0470. 28-inch No. 4 duck, olive-drab, yards	750
0470. 28-inch No. 4 duck, olive-drab, yards	700
0470. 23-inch No. 4 duck, olive-drab, yards	1,093
0470. 30½-inch No. 4 duck, olive-drab, yards	782
0470. 30½-inch No. 4 duck, olive-drab, yards	300
0470. 72-inch No. 4 duck, olive-drab, yards	153

By the cotton goods branch, Mr. Hunter, buyer:

0291. 50-inch olive-drab rubberized drills, yards	159,840
E–61. Towels, heavy bath, 20 by 42-inches	1,920
0796. Linen, soft, free from sizing, yards	200
0470 Osnaburg, 30-inch, 8-ounce yards	370,000

By the cotton goods branch, Mr. Sparks, buyer:

0691. 45-inch burlap, yards	10,000
EM534. Buckram, do	5,600
MPA–2227. Canvas padding, do	1,190,728

By the cotton goods branch, Mr. Tracey, buyer:

M–19. Mattress ticking, either herring-bone or twill weave, yards	500,000
M–11. Twill, 39-inch, 68 by 76, 4.00, gray, yards	680,000
M–9. Twill, 36-inch, plain bleach, yards	1,726,000
BC–1. Twill, 29½-inch, 104 by 48, 2.50, yards	40,000
BC–1. Twill, 29½-inch, 86 by 40, 2.64, yards	200,000
BC–1. Twill, 29½-inch, 88 by 38, 2.50, yards	91,000
BC–1. Twill, 30-inch, 88 by 38, 2.50, yards	20,000
BC–1. Twill, 37-inch, 3.10, do	62,000
BC–1. Twill, 37½-inch, 2.00, do	102,000
BC–1. Twill, 37-inch, 76 by 42, 2.00, yards	240,000

Protect your soldiers with your savings.

TAKES OVER GERMAN OWNED TRANSATLANTIC SHIP LINES

(Continued from page 1.)

years ago. His father was a German, who changed his name from Wagenknecht. He took up the beet-sugar industry and engaged in that business for 14 years. In 1914 he left Wisconsin and went to New York.

On December 29, 1914, five months after the European war opened, Wagner sailed for Rotterdam, ostensibly for the purpose of providing for a supply of sugar-beet seed. He visited Berlin and then Mulheim, the home of Hugo Stinnes, the wealthy German shipowner and coal operator.

Wagner returned to this country by way of Italy, and on March 20, 1915, he organized in Delaware a corporation known as the American Transatlantic Co., with a capitalization of $200,000. His experience in his native State led him to think that 20 per cent of the authorized capital must be paid in cash in order to enable the company to do business, and so, as he supposed, he needed $40,000.

At this point Count von Bernstoff appeared on the scene, and through his intervention by wireless to Berlin the $40,000, which Wagner thought was necessary to organize the American Transatlantic Co., was sent to New York. Wagner represented to American officials that this $40,000 was his own money. He admitted to Mr. Garvan that it had been supplied from abroad.

Altogether ships then worth approximately $2,500,000 were transferred to the American Transatlantic Co., practically no money being paid by Wagner.

For the purpose of covering these transactions, Wagner increased the stock of the American Transatlantic Co. to $2,500,000 and issued practically all of it to himself. He also organized a subsidiary company for each vessel. Another curious coincidence is that this was the same device used by Hugo Stinnes in handling his vessels in Germany. All of the stock in the subsidiary companies was held by the American Transatlantic Co.

Directors Named.

Mr. Palmer has named the following to represent him as directors in each company:

Charles H. Sabin, president Guaranty Trust Co.; Irving T. Bush, of Bush Terminal; Henry L. Doherty, John Quinn, Fred B. Lynch, Joseph S. Qualey, Henry Thompson.

Ex-Judge James A. Delehanty has been named as counsel and William M. Coleman as associate counsel.

RAILROAD APPOINTMENT.

U. S. RAILROAD ADMINISTRATION,
DIVISION OF OPERATION,
Washington, September 1, 1918.

CIRCULAR No. 17.

Effective this date, Mr. Charles A. Morse is appointed assistant director, division of operation, in charge of engineering and maintenance.

C. R. GRAY,
Director, Division of Operation.

Are you "doing your bit" in saving food for our allies and our soldiers and sailors?

NAVY DEPARTMENT CONTRACTS PLACED BY BUREAU OF SUPPLIES AND ACCOUNTS

The Bureau of Supplies and Accounts of the Navy Department has placed contracts as follows:

August 17, 1918.

40760. H. K. Porter Co., Pittsburgh, Pa., saddle mountings.
40761. Stow Mfg. Co., South Milwaukee, Wis., block and parts.
40762. Claus Automatic Gas Cock Co., Milwaukee, Wis., brass boxes.
40763. Pyrene Fire Extinguisher Co., New York City, fire extinguishers.
40764. Matthews Adding Co., agents R. L. Moore Co., of Marion, Ky., Cincinnati, Ohio, fluorspar.
40765. Eureka Co., North East, Pa., scouring [illegible].
40766. George W. Diener Manufacturing Co., Chicago, Ill., pumps, tanks.
40767. Hodgson-Corr Manufacturing Co., New York City, lead lines.
40768. Persons-Arters Machine Co., Worcester, Mass., rotary grinding machines.
40769. Morse Bros. Co., Bath, Me., knees.
40772. A. Gross & Co., New York City, candle.
40773. Taunton-New Bedford Copper Co., Taunton, Mass., naval brass.
40776. Becker Milling Machine Co., Hyde Park Mass., milling machines.
40777. [illegible] Tube Works, Boston, Mass., pipe, brass.
40778. Hammond Lumber Co., San Francisco, Cal., redwood.
40779. J. R. Handy Co., San Francisco, Cal., redwood.
40780. Albion Lumber Co., San Francisco, Cal., redwood.
40781. Navarro Lumber Co., San Francisco, Cal., redwood.
40782. Holmes-Eureka Lumber Co., San Francisco Cal., redwood.
40783. Little River Lumber Co., San Francisco, Cal., redwood.
40784. Pacific Lumber Co., San Francisco, Cal., redwood.
40785. Union Lumber Co., San Francisco, Cal., redwood.
40786. Vulcan Iron Works, Wilkes-Barre, Pa., redwood.
40788. Rogers, Brown Iron Co., Buffalo, N. Y., pig iron.
40789. Wickwire Steel Co., Buffalo, N. Y., pig iron.
40790. Superior Charcoal Iron Co., Grand Rapids, Mich., pig iron.
40791. Mitchell-Diggins Co., Cadillac, Mich., pig iron.

August 19, 1918.

40792. Wright Manufacturing Co., Lisbon, Ohio, hoists.
40793. Chisholm Moore Manufacturing Co., Cleveland, Ohio, hoists.
40800. Blau-Knox Co., Pittsburgh, Pa., single-line bucket.
40801. Camden Coke Co., Newark, N. J., coke.
40802. General Equipment Co., New York City.
40806. Bethlehem Steel Co., South Bethlehem, Pa., pig iron.
40807. Charles Cory & Son, New York City, rudder indicators.
40808. Westinghouse Electric Co., Washington, D. C., motors.
40809. R. P. Andrews Paper Co., Washington, D. C., binders.
40811. Manhattan Electric Supply Co., New York City, dry cells.
40812. Crouse-Hinds Co., New York City, electrical materials.
40813. Bailey Electric Supply Co., New York City, electrical materials.
40814. Hi Po Waterproof Battery Co., South Norwalk, Conn., dry cells.
40815. Bourn Rubber Co., Providence, R. I., electrical insulated wire.
40816. Westinghouse Electric & Manufacturing Co., Washington, D. C., motors, electrical.
40817. Essex Rubber Co., Trenton, N. J., rubber bushings.
40818. W. S. Electric Tool Co., Cincinnati, Ohio, electrical grinders.
40820. Cummings Machine Co., Minster, Ohio, coaling trucks.
40823. Industrial Lumber Co., Elizabeth, La., yellow pine.
40824. Southern Lumber & Timber Co., Hattiesburg, Miss., yellow pine.
40825. Henderson Land & Lumber Co., Tuscaloosa, Ala., yellow pine.
40826. Kelly Lumber Co., Kelly, Miss., yellow pine.
40827. Lamar Lumber Co., Clyde, Miss., yellow pine.
40828. Columbian Hardware Co., Cleveland, Ohio, anvils.
40829. Cleveland Osborn Manufacturing Co., Washington, D. C., steel-wire brooms.
40830. Atlas Portland Cement Co., New York City, N. Y., cement.

August 20, 1918.

40832. Western Wheel Scraper Co., Aurora, Ill., cars.
40833. Republic Motor Truck Co., Alma, Mich., motor trucks.
40834. Atlas Portland Cement Co., New York City, cement.
40835. Ward Leonard Electric Co., Mount Vernon, N. Y., rheostats.
40836. General Electric Co., Schenectady, N. Y., radio materials.
40838. Chase Rolling Mills Co., Waterbury, Conn., copper pipe.
40839. General Ordnance Co., Derby, Conn., brass.
40840. Frolich Glass Co., Detroit, Mich., wire.
40841. Livingston Radiator and Manufacturing Co., New York City, radiators.
40848. Colorado Fuel and Iron Co., Denver, Colo., steel billets.
40849. Columbia Steel and Shafting Co., Pittsburgh, Pa., machinery steel.
40850. National Tube Co., Washington, D. C., pipe.
40851. Cadillac Motor Co., Detroit, Mich., reels.
40857. J. A. Roebling's Sons Co., Trenton, N. J., wire, electric.
40858. Estate of Richard Dudgeon, New York City, pumps.
40859. J. A. Roebling's Sons Co., Trenton, N. J., electric wire.
40860. J. R. Donnelly Co., Brooklyn, N. Y., glass.
40861. Hyatt Roller Bearing Co., New York City, bangers.
40862. Carnegie Steel Co., Washington, D. C., steel.
40863. Oxweld Acetylene Co., Newark, N. J., tanks, acetylene.
40864. Western Electric Co., New York City, cable ships light.
40865. Westinghouse Electric & Manufacturing Co., Washington, D. C., hoists, powder.
40866. International Nickel Co., New York City, monel metal.
40869. Geo. Lawley & Sons, Neponset, Mass., flying boats.

August 21, 1918.

40870. Machine Co. of America, Big Rapids, Mich., radio material.
40871. Wardwell Manufacturing Co., Cleveland, Ohio, wheels.
40872. General Electric Co., Washington, D. C., logs.
40873. Erdle Perforating Co., Rochester, N. Y., mattins.
40876. England Walton & Co., Philadelphia, Pa., leather rugging.
40877. Radio Telegraph & Telephone Co., New York City, radio sets.
40878. Faries Manufacturing Co., Decatur, Ill., safety clips.
40879. Phoenix Woolen Mills, trousers, cloth.
40880. Davis Bournonville Co., Jersey City, N. J., oxyacetylene plant.
40881. Alexander Milburn Co., Baltimore, Md., oxyacetylene plant.
40882. Mr. S. Scott Hogge, Tampico, Va., surveying services.
40883. Chase Metal Works, Waterbury, Conn., copper tubing.
40884. Standard Seamless Tube Co., Cambridge, Pa., stay tubes.
40885. John B. Ransom & Co., Nashville, Tenn., beach, birch, and maple.
40886. Babcock Lumber Co., Pittsburgh, Pa., beach, birch, and maple.
40887. Graham Lumber Co., Graham, Va., beach, birch, and maple.
40888. Imperial Brass Manufacturing Co., Chicago, Ill., oil pumps.
40889. Electric Boat Co., Groton, Mass., batteries.
40893. Groton & Knight Manufacturing Co., Worcester, Mass., belting, leather.
40894. Alexander Bros., Philadelphia, Pa., belting, leather.
40896. McLaughlin Bros. (Ltd.), Arnprior, Ontario, aeroplane spruce.
40897. Gillis Bros. (Ltd.), Bayside, Ontario, aeroplane spruce.
40898. Pembroke Lumber Co., Pembroke, Ontario, aeroplane spruce.
40899. W. C. Edwards Co., Rockland, Ontario, aeroplane spruce.
40902. J. & W. Duncan Lumber Co., East Montreal, Quebec, aeroplane spruce.
40903. Jas. MacLaren Co. (Ltd.), Buckingham, Quebec, aeroplane spruce.
40905. St. Maurice Pulp & Paper Co., Montreal, Quebec, aeroplane spruce.
40906. Argentile Lumber Co., Mourin Harbour, Quebec, aeroplane spruce.
40907. Kingston Lumber Co., Annapolis Royal, Nova Scotia, aeroplane spruce.
40908. Murray & Gregory, St. John, N. B., aeroplane spruce.
40909. Pratt & Whitney Co., Hartford, Conn., aeroplane engines.
40910. Pratt & Whitney Co., Hartford, Conn., taps.
40911. Gisholt Machine Co., Rochester, N. Y., lathes.
40912. Pratt & Whitney Co., Hartford, Conn., taps.
40913. Terracute Machine Co., Brighton, N. J., power presses.
40915. Swinehart Tire & Rubber Co., Akron, Ohio, tires and tubes.
40916. Lehigh Portland Cement Co., Allentown, Pa., cement.
40917. B. F. Goodrich Rubber Co., Akron, Ohio, packing.
40918. Peck, Stowe & Wilcox Co., Southington, Conn., machines.
40919. Alexandria Aircraft Co., Alexandria, Va., wing beams.
40920. Universal Portland Cement Co., Chicago, Ill., cement.

August 22, 1918.

40924. W. H. Booth, Sioux Falls, S. Dak., chronometers.
40925. Lidgerwood Manufacturing Co., New York City, davit blocks.
40931. Victor P. Browning & Co., Cleveland, Ohio, locomotive crane.
40932. Russell, Burdsall & Ward Bolt & Nut Co., New York City, bolts and nuts.
40933. Shevlin-Carpenter Lumber Co., Chicago, Ill., portable garages.
40934. Long Bell Lumber Co., Kansas City, Mo., yellow pine.
40935. Finkbine Lumber Co., Wiggins, Miss., yellow pine.
40936. Great Southern Lumber Co., Bogalusa, La., yellow pine.
40937. Eastman Gardiner & Co., Laurel, Miss., yellow pine.
40938. Sabine Brick & Lumber Co., Slidell, La., yellow pine.
40939. Lyon Lumber Co., Garyville, La., yellow pine.
40940. J. J. White Lumber Co., Columbia, Miss., yellow pine.
40941. Nausau Southern Lumber Co., Laurel, Miss., yellow pine.
40942. Brown Lumber Co., Hinsman, Miss., yellow pine.
40943. Enochs Bros., Fernwood, Miss., yellow pine.
40944. Gilchrist Fordney, Laurel, Miss., yellow pine.
40945. Woods Huddart & Gum, San Francisco, silica sand.
40946. Glidden Co., Cleveland, Ohio, varnish.
40947. Lake Erie Iron Co., Cleveland, Ohio, bolts and nuts.
40948. Rogers, Brown Iron Co., Buffalo, N. Y., foundry iron.
40949. Consolidated Safety Valve Co., New York City, safety valves.
40950. J. E. Higgins Lumber Co., San Francisco, Cal., iron bark.
40951. American Trading Co., New York City, sugar pine.
40952. Van Arsdale Harnes Lumber Co., San Francisco, Cal., sugar pine.

August 23, 1918.

41053. Frid. Engineering Co., Philadelphia, Pa., refrigerating machines.
41054. Hayward Co., New York City, hoisting machinery.
41055. Crown Hoisting Machinery Co., Cleveland, Ohio, electric hoisting cranes.
41056. Curtiss Exhibition Co., Miami, Fla., flying field equipment.

AWARDS BY THE HARDWARE AND METALS DIVISION, QUARTERMASTER DEPARTMENT

The following is a list of purchase orders and contracts of the hardware and metals division of the office of the Quartermaster General of the Army:

August 17, 1918.

PURCHASE ORDERS.

The Wire Goods Co., Worcester, Mass., coffee strainers.
U. S. Needle Concern, Chicago, Ill., needles, glover's.
Singer Sewing Machine Co., Singer Building, New York, N. Y., sewing machines (2).
Oliver Iron & Steel Co., Pittsburgh, Pa., nuts.
Kelly Handle Co., Memphis, Tenn., handles.
Nagle Engine & Boiler Works, Erie, Pa., steam boiler.
Joseph Dixon Crucible Co., Jersey City, N. J., stove polish.
Republic Wares Co., Buffalo, N. Y., teakettles.
Baker Stove Works, Belleville, Ill., hot-blast heaters.
Garrison Brass & Machine Works, New York, N. Y., furnaces.
Republic Stamping & Enameling Co., 50 Union Square, New York, N. Y., sauce pots.
A. H. Leathers Handle Co., Dickson, Tenn., ax helves.
The Edwin H. Fitler Co., Philadelphia, Pa., manila rope.

CONTRACTS.

The Compound Merchandise Co., 143 West Twenty-fourth Street, New York, N. Y., harness menders.
Budke Mfg. Co., Parkersburg, W. Va., elbows.
C. S. Osborne & Co., Newark, N. J., saddler's knives.
James Smith & Son, 40 Franklin Street, Brooklyn, N. Y., sewing palms.
Tucker & Dorsey Mfg. Co., Indianapolis, Ind., spatulas.
Chantrell Hardware & Tool Co., Reading, Pa., door bolts.

August 19, 1918.

The Peck, Stow & Wilcox Co., Southington, Conn., chisels.
C. J. Tagliabue Co., Brooklyn, N. Y., thermometers.
John A. Roebling's Sons Co., Trenton, N. J., rope.
The Edwin H. Fitler Co., Philadelphia, Pa., ratline rope.
Joseph Dixon Crucible Co., Jersey City, N. J., stove polish.
Republic Metal Wares Co., Buffalo, N. Y., teakettles.
Fox Furnace Co., Elyria, Ohio, hot-blast heaters.
Lander, Frary & Clark, New Britain, Conn., shears.
Cole Manufacturing Co., Chicago, Ill., hot-blast heaters.
S. Blickman, 199 Lafayette Street, New York, N. Y., boilers.
National Enameling & Stamping Co., Milwaukee, Wis., ironware.
Chicago Flexible Shaft Co., Chicago, Ill., clipping machines.
Royal Typewriter Co., 1420 New York Avenue, Washington, D. C., typewriter.

August 20, 1918.

PURCHASE ORDERS.

Lyon Iron Works, Greene, N. Y., mauls.
Plymouth Cordage Co., North Plymouth, Mass., rope.
Garrison Brass & Machinery Works, New York, N. Y., torches and gasoline.
Baum & Bender, Jersey City, N. J., torches and gasoline.
Parke, Davis & Co., Washington, D. C., animal dip.
Indiana Rolling Mill Co., coal scoops.
American Manufacturing Co., Brooklyn, N. Y., jute.
Greene Tweed Co., New York, N. Y., belt awls.
L. W. Strock & Co., Bethlehem, Pa., shovel handles.
Budke Manufacturing Co., Parkersburg, W. Va., joints.
Reed & Prince Manufacturing Co., Worcester, Mass., rivet screws.

CONTRACTS.

R. Wallace & Sons Manufacturing Co., Wallingford, Conn., spoons.
Tucker & Dorsey Manufacturing Co., Indianapolis, Ind., potato mashers.
United States Whip Co., Westfield, Mass., whip lashes.
H. C. Tack Co., Cleveland, Ohio, tacks.
Cassidy Fairbanks Manufacturing Co., Chicago, Ill., dough scrapers.
Fred M. Hoyt & Bro., Troy, N. Y., military hair brushes.

August 21, 1918.

PURCHASE ORDERS.

Singer Sewing Machine Co., New York, N. Y., sewing machines.
S. Blickman, New York, N. Y., boilers.
E. W. Blatchford Metal Co., New York, N. Y., intertype composing machine metal.
Singer Sewing Machine Co., New York, N. Y., machine needles.
Estate Stove Co., Hamilton, Ohio, repair parts for Army ranges.
Frederick O'Sann Co., New York, N. Y., button sewing machine.

CONTRACTS.

Underwood—Typewriter Co., Washington, D. C., typewriters.
Florence Manufacturing Co., Florence, Mass., military hair brushes.
Ames-Bonner Co., Toledo, Ohio, military hair brushes.
E. I. Du Pont de Nemours & Co. (Inc.), New York, N. Y., military hair brushes.
Grand Rapids Brush Co., Grand Rapids, Mich., military hair brushes.
O. Dennin's Sons (Inc.), Troy, N. Y., military hair brushes.

August 22, 1918.

PURCHASE ORDERS.

Pittsburgh Steel Co., Washington, D. C., fencing.
U. S. Hoffman Machine Co. (Inc.), Syracuse, N. Y., clothes presses.
Westinghouse Electric & Mfg. Co., Washington, D. C., motor.
Oliver Iron & Steel Co., Pittsburgh, Pa., crowbars.
Singer Sewing Machine Co., New York, N. Y., machines (3).
Rochester Stamping Co., Rochester, N. Y., pails.
Stanley Rule & Level Co., New Britain, Conn., box scrapers.
Champion Tool Co., Meadville, Pa., pincers.
National Enameling & Stamping Co., Milwaukee, Wis., coffee boilers.
The Schatz Mfg. Co., Poughkeepsie, N. Y., casters.
Singer Sewing Machine Co., New York, N. Y., machines.

CONTRACTS.

American Handle Co., Jonesboro, Ark., ax helves.
Chicago Flexible Shaft Co., Chicago, Ill., clipper plates.
Simmons Mfg. Co., Kenosha, Wis., steel folding cots.
Monarch Aluminum Ware Co., New York, N. Y., scoops.
Arkell, Safety Bag Co., New York, N. Y., liners.

August 23, 1918.

PURCHASE ORDERS.

National Enameling & Stamping Co., New York, N. Y., rice boilers.
Florence Mfg. Co., Florence, Mass., military hair brushes.
W. S. Willson Corporation, New York, N. Y., handles.
National Enameling & Stamping Co., Milwaukee, Wis., coffee boilers.
William E. Pratt Mfg. Co., Chicago, Ill., pine, picket, line.
Jacobs Bros. Co. (Inc.), New York, N. Y., scales.
Fire Gun Mfg. Co., New York, N. Y., fire extinguishers.
Chicago Flexible Shaft Co., Chicago, Ill., plates.
Barnhart & Spindler, Washington, D. C., cases.
Remington Typewriter Co., Washington, D. C., typewriter.

CONTRACTS.

Monarch Aluminum Ware Co., New York, N. Y., scoops.
H. C. Tack Co., Cleveland, Ohio, tacks.
United Shoe Repairing Machinery Co., Boston, Mass., awl blades.
National Enameling & Stamping Co., New York, N. Y., skimmers, dippers.

August 26, 1918.

PURCHASE ORDERS.

Republic Metal Wares Co., Buffalo, N. Y., tea pots.

CONTRACTS.

Chicago Flexible Shaft Co., Chicago, Ill., clipping machines.
Knuffin & Demarest Co., New York, N. Y., lantern globes.
James Smith & Sons, New York, N. Y., sewing palms.
Henry Disston & Sons (Inc.), Philadelphia, Pa., saddler's knives.
Oliver Iron & Steel Co., Pittsburgh, Pa., crowbars.

MARINE CORPS CONTRACTS

The following contracts have been placed by the Quartermaster of the United States Marine Corps:

August 22, 1918.

505. Cudahy Packing Co., Chicago, Ill., subsistence.
505. Swift & Co., Chicago, Ill., subsistence.
505. Armour & Co., Chicago, Ill., subsistence.
505. Wilson & Co., Chicago, Ill., subsistence.
505. J. L. Christian, Philadelphia, Pa., subsistence.
505. N. K. Fairbank Co., New York, N. Y., subsistence.
505. Amos C. Humphrey, Hingham, Mass., subsistence.
505. Blackstone Supply Co., Boston, Mass., subsistence.
505. New London Bakery & Delicatessen Co., New London, Conn., subsistence.
505. New London Fruit & Produce Co., New London, Conn., subsistence.
505. F. A. Denison, Washington, D. C., subsistence.
505. Morris & Co., Chicago, Ill., subsistence.
505. Austin, Nichols & Co. (Inc.), Brooklyn, N. Y., subsistence.
505. Holland Butterine Co., Jersey City, N. J., subsistence.
505. Greenbaum & Donohue, Wharton, N. J., subsistence.
505. Charles G. Kriee, Baltimore, Md., subsistence.
535. David Isaacs, Brooklyn, N. Y., subsistence.
535. Wilson & Co., Chicago, Ill., subsistence.
505. R. M. Eastwood & Co., Norfolk, Va., subsistence.
505. Ferguson Bakery, Boston, Mass., subsistence.
505. H. H. Ruch, New Orleans, La., subsistence.
505. Frederick W. Schaper, Haverstraw, N. Y., subsistence.
505. Max Klein, Pensacola, Fla., subsistence.
505. Samuel E. Hunter, New York, N. Y., subsistence.
505. J. C. Piper & Son, Portsmouth, N. H., subsistence.
505. James H. Crook, Newburgh, N. Y., subsistence.
505. Joseph Susslin, Algiers, La., subsistence.
505. H. T. Cottam & Co., New Orleans, La., subsistence.
505. D. Pender Grocery Co., Norfolk, Va., subsistence.
505. S. A. Kantziper, Savannah, Ga., subsistence.
505. Tifton Packing Co., Tifton, Ga., subsistence.
505. Arnold Bros. (Inc.), Chicago, Ill., subsistence.
505. L. Lehman & Co. of New Jersey, Dover, N. J., subsistence.
505. Castner & Co., Wharton, N. J., subsistence.
505. C. Recio, Key West, Fla., subsistence.

August 23, 1918.

541. Lindsay Metal Novelty Works, Newark, N. J., buckles.
527. Shebar & Klein, Freeport, Long Island, N. Y., service stripes and chevrons.
544. The Estate Stove Co., Hamilton, Ohio, heaters, grates, and legs.

Official U. S. Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, SATURDAY, SEPTEMBER 7, 1918. No. 406

BREWING OPERATIONS TO STOP DECEMBER 1 AS WAR MEASURE FOOD ADMINISTRATION STATES

PRESIDENT CONSULTED ON ACTION

Food, Fuel, and Railroad Administrations and War Industries Board Agree on the Necessity for Cessation of Malting Processes.

On July 3 brewers were notified by the Fuel Administration that their coal consumption would be reduced by 50 per cent, pending the period of exhaustion of materials that they had in process, and were given preliminary warning that they might not be able to continue their operations at all after such exhaustion. At that time the Food Administration directed the cessation of further purchases of raw materials for malting.

Brewing to Stop December 1.

After conference between the President and representatives of the Fuel, Food, and Railroad Administrations and the War Industries Board it has been determined that the further necessity of war industries for the whole fuel productive capacity of the country, the considerable drought which has materially affected the supply of feeding-stuff for next year, the strain upon transportation to handle necessary industries, the shortage of labor, caused by enlargement of the Army operations, render it necessary that brewing operations of all kinds should cease upon December 1, until further orders, and that no further unmalted grains be purchased for brewing purposes from this date. The Food Administration has been directed to issue the necessary regulations to this end.

In addition to the above, these administrations wish to warn the manufacturers of all beverages and mineral waters that for the same reasons there will be further great curtailment in fuel for the manufacture of glass containers, of tin plate, for caps, of transportation, and of food products in such beverages.

War-Savings Stamp Sales Pass $800,000,000 Mark

Including cash received in the Treasury Department yesterday from the sale of war-savings securities, the total Treasury receipts from this source amounted to $669,566,135.07, this representing the purchase of war-savings stamps to the total maturity value of approximately $804,766,985.

U. S. TRANSPORT IS TORPEDOED BUT IS ABLE TO RETURN TO PORT

The Mount Vernon, Formerly German Ship Cecelie, on Way to America When Struck.

Secretary Daniels announced yesterday that he had received a dispatch stating that the U. S. S. *Mount Vernon* was struck by a torpedo Thursday while on the return voyage about 200 miles from the coast of France, but returned to port under its own steam. There was no mention of any casualties in the dispatch, nor did it state how badly the vessel was damaged, but it is supposed that the damage is not very serious, as the ship made its way back at a speed of 14 knots an hour.

The *Mount Vernon* was formerly the German steamship *Kronprinzessin Cecelie*, which was interned in American waters, and when this country entered the war was taken over by the Government and converted into a troop transport. She has a gross tonnage of 18,372 tons.

The *Mount Vernon* is commanded by Capt. Douglas F. Dismukes. The vessel had landed the troops she carried overseas and was returning when torpedoed.

DRAFT EXECUTIVES ARE ASKED TO REPORT ON HELP REQUIRED

The War Department authorizes the following from the office of the Provost Marshal General:

Draft executives of the various States have been asked by telegraph from this office immediately to survey the situation in their respective States with a view to recommending to the Provost Marshal General in what communities, if any, the membership of local and district boards should be increased to insure expeditious handling of the registration and classification of new registrants under the extension of the draft ages. Prompt replies have been requested in order that all boards may be so organized as to proceed without delay.

United Fruit Steamer Is Sunk in Collision

The Navy Department is informed that the steamship *Almirante* was sunk in collision with the U. S. S. *Hisko*, which, after picking up survivors of the *Almirante*, was reported proceeding to port. The *Almirante* was a United Fruit Company steamer of about 5,000 tons.

ALLIES ONLY TEN MILES FROM HINDENBURG LINE AT THE FARTHEST POINT GENERAL MARCH STATES

TELLS OF CASUALTIES

Gen. Pershing Reports That Up to August 20 There Were 20,000 Casualties He Had Not Reported—Were Listed as Light—More Than 90 Per Cent of U. S. Forces are in the American Sectors.

Press interview by Gen. March, September 7, 1918:

Since last Wednesday the allied line has gone forward on a wide front. The retreat of the enemy has been general along a front of 100 miles, from the Arras-Cambrai sector to Rheims. Additional ground has also been yielded to the allies on the Flanders front. The pressure which forced this retreat came at two points: (1) British front between Arras and Peronne, and (2) Franco-American sector on plateau of Soissons.

The British drive toward Cambrai paused on the line of the La Sensee marshes, northwest of Cambrai and the Canal du Nord, where the enemy apparently organized his defenses. Beyond this canal Cambrai is only 7 miles away. The terrain consists of low hills, with no natural obstacles to a further advance. The British, however, crossed the canal farther south, and also the Somme River, both north and south of Peronne, and advanced rapidly during Thursday and Friday toward the Hindenburg line north of St. Quentin.

Advance of the French.

The advance of the French in the Noyon sector, which began last Wednesday when they captured the greater part of the Autrecourt Plateau, northeast of Noyon, spread on the following days, until it merged with the British advance on the north, and with the French advance in the Soissons region and along the Vesle.

Last night the allies were only 8 miles from St. Quentin, and the Hindenburg line is only 10 miles away at the farthest point.

The Franco-American drive across the

plateau north of Soissons, directed against the flank of the Chemin des Dames, after a week of severe fighting, forced the enemy to fall back without further resistance from the Vesle. Our allied forces crossed the Vesle-Aisne ridge and reached the Aisne River on a 10-mile front last night.

Regain Belgian Soil.

In Flanders, a little more ground, mainly Belgium soil, north of Armentieres, has been reoccupied by the allies.

Our 27th Division, which I was asked about last Wednesday, is reported on the line in Flanders. Our 92nd Division, about which I was asked, is now on the line in the Vosges.

The steady withdrawal of the Germans under pressure of our forces, has now forced them to a point over 60 miles from Paris, as compared with less than 40 miles in July.

In Siberia official reports indicate that conditions with reference to the release of the Czechs are becoming very much more favorable. Czecho-Slovak forces working eastward from Lake Baikal and Cossack forces, supported by Japanese, who have come up from China, working westward from Manchuria, have driven out the enemy force which has long held the middle section of the Siberian Railroad near Chita and cleared the road to Vladivostok.

Three New Divisions.

Referring to our own forces, I have authorized the organization of 3 new American divisions, making 15 in all since July 1. These divisions will be numbered 95th, 96th, and 97th, and will be organized at Camps Sherman, Wadsworth, and Cody, the 95th at Sherman, the 96th at Wadsworth, and the 97th at Cody.

There has been some discussion in the United States about our casualty lists, and the War Department has been trying to get in touch with the exact condition of casualties in France, because we have heard from a number of sources of relatives at home receiving the information direct from their people in France of men being wounded when the War Department had not notified the relatives at home. At an early stage in the reporting of casualty lists, General Pershing asked for authority not to report slight casualties, because the men would be back on the firing line before the report, after investigation, could reach the United States. It was thought then that it would simplify matters and prevent needless worry to relatives if that system were adopted. Of course, it is very well understood that the opinion of a man who has been wounded may differ materially from the opinion of the doctors as to its severity, and undoubtedly a great many men have written home telling about wounds that the doctors had pronounced light, and which Pershing had listed as not being severe, when the letters might indicate to the people at home that they were severe. So I have gotten a report from Gen. Pershing as to the number of those casualties, in addition to those which he has published, so as to be able to give the facts to the American people. I am giving the facts to the people because I know they will face any casualty list with determination and courage, whatever it is.

Gen. Pershing reports that up to August 20 there were 20,000 casualties which he had not reported, which were listed by doctors as light—men who have gone to hospitals and gone back to the line and that sort of thing; but in order to meet what I think to be the just demands of the people at home for information about their relatives in France, I am going to have Gen. Pershing forward by courier to us here the entire hospital records of the American Expeditionary Forces, giving all casualties, no matter if a man is in a hospital only a day, with a medical diagnosis of each case, and then I propose to put in the hands of relatives, after the arrival of the first courier with such records, a statement of the diagnosis. We will then suspend on the part of Gen. Pershing any report of wounded. He will report deaths, missing, and such major casualties, and the War Department will start in with the arrival of the first courier to give out all information about casualties.

Questions and Answers.

Q. Where is the 330th Infantry?

A. The 330th Infantry (of 83d Division) is in France; not on line.

Q. It is reported in Springfield, Mass., that the 104th Infantry is being brought back to the United States. Will you be kind enough to confirm or deny?

A. The report is denied. It is not going to be brought back.

Q. Has the 89th Division been called into action, and if so, can it be stated to what extent it has been engaged and where?

A. The 89th Division is in the line north of Toul since the middle of August, and, of course, there has been daily exchange of artillery fire along that line with the enemy.

Q. The Associated Press carries a story intimating strongly that German prisoners will be brought back to this country. May I be informed if such a thing is contemplated?

A. The question of German prisoners, in toto, is going to be considered by a convention which will meet at Berne, Switzerland, on September 23. At that conference there will be representatives of Germany, and the American delegates have already been selected. The convention will determine upon everything connected with prisoners, and it will be approved by the War Department and announced to the people.

In reply to further question:

In the American sectors in France there are over 90 per cent of the American forces.

Our American troops in Italy have not as yet been put on the firing line.

The custom of training a number of our divisions by brigading them with the British is still going on, but as our men go over there now pretty well instructed, the time they stay in the training camps over there is very much less.

CANE SUGAR PRICE FIXED BY EQUALIZATION BOARD

Nine Cents Made Basis for Next Year, Less 2 Per Cent at Shipping Points.

The Food Administration issues the following:

The Sugar Equalization Board has, upon the approval of the President, fixed the price of cane sugar for next year basis, granulated, 9 cents, less 2 per cent f. o. b. seaboard refining points, effective on Monday morning, September 9.

Wholesalers and retailers will sell upon the old basis until their stocks of the lower-priced sugars are exhausted. No averaging of price will be allowed.

All increase in price of sugar in the hands of refiners or of raw sugar under contract is to be accounted for to the Sugar Equalization Board, so that manufacturers will not benefit by the increased price.

A price for beet pulp, wet and dry, will be fixed by the Food Administration, in the interest of cattle feeders, in the course of a few days.

COCOA MANUFACTURERS AGREE TO USE NO METAL CONTAINERS

Chocolate and cocoa manufacturers have signified their willingness to effect substantial savings in tin and steel by packing their products in containers made of other material, as set forth in resolutions adopted by the Committee of Cocoa Bean Grinders and Consumers, in conference with the Food Administration.

Manufacturers will adopt new containers not made of tin or any other metal as soon as present stocks are used up, which must not exceed a period of five months at most, according to the resolutions. These containers will be square or oblong, instead of round, to save packing space.

Size of Packages Regulated.

It was further recommended that cocoa and chocolate, sweetened or unsweetened, in powdered form, shall be put up in packages not smaller than one half pound, or in packages of 1, 5, 10, 25, 50, or 100 pounds, and barrels and cases. This eliminates certain sizes and will effect a saving of labor and material.

The committee requested that all cocoa and chocolate manufacturers in the country be notified by the Food Administration of its action. The following were at the conference:

H. C. Gallagher, H. D. Love, Walter Baker & Co., Ltd., Dorchester, Mass.; William F. R. Murray, Hershey Chocolate Co., Hershey, Pa.; Louis Runkel, Runkel Bros., Inc., New York City; B. K. Wilbur, H. O. Wilbur & Sons, Inc., Philadelphia; H. W. Hoops, Confectionery Trade Home Manufacturers, New York City.

Improvements to be Made At Sam Houston Hospital

The War Department authorizes the following:

Instructions have been issued to increase the facilities at the base hospital located at Fort Sam Houston, Tex. The estimated cost is $237,420.

The additions are nine two-story ward barracks of the general hospital cantonment type, one nurses' infirmary, one mess hall and kitchen, one mortuary, and one central heating plant. All the buildings authorized are to be fully equipped for summer and winter use.

STATEMENT ON TYPHOID FEVER AMONG ALIEN ENEMY PRISONERS AT HOT SPRINGS, N. C., CAMP

DUE TO LACK OF PROPER WATER

Wells Dug to Augment Supply From City Mains Found to be Polluted—Eighteen Deaths Out of 177 Cases in August.

The War Department authorizes the following:

Due to the lack of proper water facilities, typhoid fever broke out at the alien enemy internment camp at Hot Springs, N. C., early in August. Out of the 177 cases, 18 have died. All the patients have been removed to Army General Hospital No. 12, at Biltmore, N. C. All remaining prisoners have been removed to the internment camp at Fort Oglethorpe.

The Hot Springs camp was turned over to the Army on July 1 for the purpose of transferring all prisoners to the prison camp at Fort Oglethorpe. This camp was instituted by the Department of Labor, and its occupants were mostly seamen removed from interned German ships which were seized at the outbreak of the war.

First Report August 4.

The first report of typhoid at the camp was received in a telegram from the camp surgeon to the Surgeon General's office on August 4. Nine cases and thirty-six suspected cases and one death were reported. Surgeon General Gorgas sent an inspector to the camp and a thorough investigation of the sanitary and water facilities was begun August 7.

The inspector found that the internment station had been divided into two camps, A and B. There were 1,000 prisoners in Camp A and 1,127 in Camp B. All the cases developed from Camp B.

The entire camp received its main water supply from the city of Hot Springs. The source of this supply being mountain springs, the quality of the water is good, but owing to the fact that the camp had been overcrowded, it had been necessary to augment the water supply by the construction of service wells in Camp B. These service wells were intended to care for the toilets and baths in this part of the camp. The prisoners had been instructed not to make use of this water for anything except bathing purposes and flushing toilets. As a further safeguard a chlorine apparatus was installed to purify the water.

Wells Found Contaminated.

The inspector from the Medical Department found these wells to be shallow, and tests proved that the water was contaminated. His investigations showed that the facilities for caring for the sick were "primitive" and he recommended that all the sick be transferred to the Army General Hospital at Biltmore. Pending the removal of the men to the hospital at Biltmore, hospital facilities were borrowed from the General Hospital.

Following the recommendation of the inspector, the prisoners were inoculated against typhoid fever. The camp surgeon was directed to increase the amount of chlorine added to the water from .3 of a part per million to at least 4 parts per million.

Overcrowding of Camp.

The overcrowding of the camp had curtailed the efficiency of the sanitary arrangements originally provided for the health of the prisoners. The old Hot Springs Hotel with a capacity of 500 was used to house a great many of the prisoners in Camp A. Cantonment barracks accommodated the remainder in this section. In Camp B, the barracks were found by the medical inspector to be about 100 per cent overcrowded. He also found that owing to the vast amount of clothing and baggage housed in the cantonments, the ventilation in the barracks was very poor. The general rules of sanitation had been followed.

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

DIVISION OF INLAND WATERWAYS CREATED BY DIRECTOR M'ADOO

Director General McAdoo announces the appointment of G. A. Tomlinson as Director of the Division of Inland Waterways of the United States Railroad Administration. The new division will be on an equal plane with the other principal divisions of the Railroad Administration. Under Mr. Tomlinson's general direction will be the Erie Canal, the Delaware Raritan Canal, the Cape Cod Canal, the Mississippi & Warrior Waterways, and any other inland waterways which may be taken under the control of the Railroad Administration in the future.

Mr. Tomlinson at the present time is Federal manager of New York and New Jersey canals under the Railroad Administration, and also had been a member of the Inland Waterways Committee. The position of Federal manager of New York and New Jersey canals previously held by him will be filled in the near future.

Thanks Waterways Committee.

The Director General called into conference to-day the members of the Inland Waterways Committee, headed by Maj. Gen. W. M. Black, which he appointed on February 16, 1918, and thanked them for their splendid work. He informed the members of the committee that since it had performed the work for which it was created, he had decided to relieve it of its duties and place the administrative supervision of the inland waterways under the control of the Railroad Administration, under the direction of Mr. Tomlinson. The Inland Waterways Committee has investigated a number of projects on which it has reported to the Director General. In a number of instances these recommendations have been adopted by him and are now in effect. The Director General expressed particular appreciation of the conscientious manner in which the members of the committee performed their duties.

TWO MEN INJURED IN AIRPLANE ACCIDENT AT KEY WEST, FLA.

The Navy Department reports that the following-named enrolled men were injured in an airplane accident at Key West, Fla., on September 1:

Harry B. DeKay, machinist's mate, second class, United States Naval Reserve Force; mother, Mrs. Emma DeKay, Hancock, Vt.

Thomas Randolph Symington, chief quartermaster, United States Naval Reserve Force; mother, Mrs. Clare Randolph Symington, 218 Ridgewood Road, Roland Park, Baltimore, Md.

The condition of both men is reported as favorable.

Other Casualties.

Clarence Singles Evans, previously reported as wounded when submarine chaser *209* was fired on by the steamship *Felix Taussig*, died August 29 as a result of his injuries.

Thomas Sumner Finnegan, machinist's mate, first class, United States Naval Reserve Force, died September 2 from severe burns on board the U. S. S. *Solace;* mother, Mrs. Elizabeth Finnegan, 17 Ford Street, South Manchester, Conn.

Howard Lee Jackson, seaman, second class, United States Navy, attached to U. S. S. *Ohio,* drowned while swimming from ship on September 1; father, Benjamin H. Jackson, Eldon, Mo.

Differentials Are Fixed On Cotton Fabric Prices

In accordance with the agreement between the representatives of the cotton fabrics industry and the price fixing committee July 1, the following differentials based on the prices then agreed to have been fixed by the price fixing committee, to remain in effect until October 1, 1918.

Sheeting:

Width—34 inches.
Yards per pound—6.
Sley and pick—40 x 40.
Price basis per yard—11¼ cents net f. o. b. mill.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
September 5, 1918.

RECEIPTS.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communique

The following is authorized by the War Department:

American Official Communique No. 114.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
September 5, 1918.

Section A.—Our troops, continuing their advance in cooperation with the French, have crossed the plateau north of the Vesle and have reached the crest of the slopes leading to the valley of the Aisne. There is nothing of importance to report from the other sectors occupied by our troops.

American Official Communique No. 115.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
September 6, 1918.

Section A.—North of the Vesle our troops have taken the villages of Longkeval, Merval, and Glennes, and have reached the line Vieil-Arcy-Villers en Prayers-Revillon. Our patrols are on the south bank of the Aisne Canal. Elsewhere the day passed without incident.

POST OFFICE SUPPLIES.

Sealed proposals will be received until 2 o'clock p. m., September 16, 1918, at the Post Office Department, for furnishing for the new city post office here one elevating platform type truck, capacity 4,500 pounds, and 25 dozen tapelines, 6 feet in length.

Addresses of Officers and Men Cited in Communique for Bravery

The following is a list of home addresses of officers and men reported as cited for bravery in American official communique No. 113, dated September 5:

Second Lieut. Clarence R. Christman. Jacob Christman, 1524 Amsterdam Avenue, New York, N. Y.

Second Lieut. Frederick Hahn. Mrs. Dorothea Hahn, mother, 1220 East Thirty-first Street, Savannah, Ga.

Corpl. Leon Harlow. Mrs. J. R. Harlow, mother, 1717 Franklin Street, Waco, Tex.

Capt. Jesse W. Wooldridge. Mrs. J. W. Wooldridge, wife, 945 Golden Gate Avenue, San Francisco, Cal.

First Lieut. Edgar G. Tobin. W. Y. Tobin, father, 511 St. Marys Street, San Antonio, Tex.

Second Lieut. George Winfield Kuehlman. William Kuehlman, father, Glidden, Wis.

Second Lieut. James Stanley Colton. W. H. Colton, father, 547 South Madison Avenue, Pasadena, Cal.

Sergt. William A. Hartman. Mrs. W. Hartman, mother, 730 Muskego Avenue, Milwaukee, Wis.

Second Lieut. John J. Williams. Mrs. Loraine Williams, wife, 1300 Wisconsin Street, Berlin, Wis.

Second Lieut. Hugh F. Edwards. Mrs. Annie Edwards, mother, Hamilton, Kans.

Supply Sergt. Jan Jankowski. Walter Kazski, 4524 Fulton Street, Chicago, Ill.

Pvt. Edward A. Belanger. Michael Belanger, father, hose No. 1, fire department, North Adams, Mass.

Maj. William J. Donovan. Mrs. W. J. Donovan, wife, 826 Delevan Avenue, Buffalo, N. Y.

Capt. Richard J. Ryan. L. C. Mitchell, Watertown, N. Y.

Capt. Van Santvord Merle-Smith. Mrs. Van Santvord Merle-Smith, wife, 156 East Seventy-ninth Street, New York, N. Y.

Chaplain Francis P. Duffy. M. L. Bird, brother-in-law, 2065 Crotona Avenue, New York, N. Y.

First Lieut. John C. Christopher. O. H. Christopher, father, Grant, Iowa.

Cook Harry C. Ricket. W. T. Ricket, father, 1345 Hamlet Street, Columbus, Ohio.

Sergt. Frank Gardella, jr. Frank Gardella, father, 10 Roosevelt Street, New York, N. Y.

Sergt. Byron W. Hamilton. Mrs. W. T. Black, mother, R. F. D. No. 2, Fairfield, Iowa.

Sergt. James B. Lepley. Mrs. Hazel Fenton, sister, Red Oak, Iowa.

Corp. John J. McLoughlin. Miss Mary McLoughlin, sister, 140 Meserole Avenue, Brooklyn, N. Y.

Corp. George R. Bousted. Mrs. Mary Bousted, mother, R. F. D. No. 1, Woodbine, Iowa.

Pvt. Thomas J. Gray. Mrs. Polly J. Adams, mother, Ruthilda, Saskatchewan, Canada.

Pvt. Nick Costianes. John Costianes, brother, 24 Rosedale Avenue, Greenville, Pa.

Pvt. Martin J. Higgins. Mrs. Bridget M. Higgins, mother, Batty Cuman, County Kerry, Ireland.

Pvt. Alt C. Wilken. J. O. Wilken, 1009 Walnut Street, Atlantic, Iowa.

Pvt. Patrick Reynolds. Mrs. Mary O'Donnell, 247 West One hundred and sixteenth Street, New York.

Pvt. Tony Cramp. Mrs. Victor Cramp, 146 Berlin Street, Berlin, Wis.

New Poster is Expected To Help in War Work By Cutting Down Mails

A poster printed in appropriate typing and coloring has been prepared in response to numerous requests by Chambers of Commerce, Boards of Trade, libraries, and other public institutions. The purpose of the poster is self-evident. It reads as follows:

Read the

Official U. S. Bulletin

PUBLISHED DAILY UNDER ORDER OF THE PRESIDENT OF THE UNITED STATES

BY COMMITTEE ON PUBLIC INFORMATION GEORGE CREEL CHAIRMAN

WAR Information

Save writing to Washington for what you want to know about

The Army and Navy
The Red Cross
The Selective Draft Laws
The Food Administration
The Fuel Administration
Trading with the enemy
The War Labor Board
The War Industries Board
The Railroad Administration

and all the other permanent or emergency governmental departments, boards, commissions, committees, and administrations at the Capital and elsewhere.

ASK FOR IT HERE

Copies of the poster will be sent to all applicants who are in a position to aid in this public service. It is hoped that its wide publicity will help to lessen the war burden put upon the mails and serve to minimize the work of all government departments at Washington.

Spanish War Veterans Must Register if Within New Draft Age Limits

The War Department authorizes the following from the Provost Marshal General:

Numerous inquiries received at this office indicate that there is a widespread impression that veterans of the Spanish-American War, although within the age limit of 18 to 45, inclusive, will not be required to register on September 12 and are exempt from the draft.

There is no justification for this impression, and men of this class are cautioned that they are requested to register.

New Jersey Land Bought For U. S. Ordnance Depot

The War Department authorizes the following:

The War Department has acquired from 44 owners a tract of about 2,000 acres near Pedricktown, N. J., to be used for the Delaware depot of the Ordnance Department. It is estimated that when requisitioning is completed the total cost of the property will be about $250,000. The tract is located on Oldmans Creek, at its junction with the Delaware River, and is opposite Wilmington, Del.

The tract of land is one which has been under cultivation from colonial times, there being a number of residences on the property which will have to be removed in order to complete the plans for the new ordnance depot.

Easy to buy, convenient to handle, no red tape—Get a WAR-SAVINGS STAMP to-day.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

After many days of debate the Senate late yesterday evening passed the agricultural extension bill, carrying appropriations amounting to $12,000,000 and a war-time prohibition amendment, without a roll call. Before final action a vote was taken on the prohibition amendment and it was retained in the measure by a vote of 45 to 6. The Senators who voted against the prohibition amendment were Brandegee, of Connecticut; Gerry, of Rhode Island; Phelan, of California; Pomerene, of Ohio; Ransdell, of Louisiana; and Underwood, of Alabama. All efforts to amend or modify the prohibition amendment were of no avail. A proposal of Senator Phelan to extend to December 31, 1919, the date when it becomes operative was rejected, as was also an amendment that a commission should be appointed to appraise the value of distilled liquors in bond and have the Government take them over at cost.

Under the measure as adopted the sale of intoxicating liquors of all kinds will be absolutely prohibited after June 30, 1919, for the duration of the war and until the period of demobilization has ended. On and after May 1, 1919, the manufacture of beer and wine will be prohibited. The bill already has passed the House, and it probably will be sent to conference by that body as soon as it is received.

Draft "Raids" Discussed.

The Smoot resolution for an investigation of the "slacker" draft raids, which was called up yesterday afternoon, was the vehicle for extended discussion. At the close of the morning hour the resolution was automatically sent to the calendar. Senator Smoot intimated that he might move to take it up again on Monday, to which day the Senate adjourned.

Another discussion of the recent report of the Federal Trade Commission on the packing industry occupied a considerable part of the session. Senators Borah, of Idaho, and Cummins, of Iowa, defended the report of the commission, while Senator Sherman, of Illinois, resumed his previous attack on the commission. Senator Borah argued that the commission had acted only under such authority as Congress had conferred upon it.

Transfer of War Workers.

Senator Thomas, Democrat, of Colorado, introduced, and the Senate adopted, a resolution requesting the President to transfer as many of the war workers as possible to other cities as a means of relieving the crowded housing conditions in the National Capital.

Declaring the Army and Navy officers were being "robbed" by tailors in the matter of uniforms, Senator Pomerene, of Ohio, introduced an amendment to the war revenue bill exempting all such officers from the income tax provisions so far as their compensation from the Government was concerned.

Protesting against the proposed tax of 1 per cent. on the business of mail order houses, G. H. Eiswald, of New York, argued before the Finance Committee yesterday that such a tax would increase the cost of living to a large number of people living in rural communities. He said the tax was discriminatory against one class of business that makes use of the mails to obtain its orders and admitted that the tax would be passed on to the consumer. John Hinkley, of Baltimore, talking for members of stock exchanges, boards of trade, and chambers of commerce, protested against taxes levied on annual dues and the value of stock exchange seats.

Commissions for Osteopathic Physicians.

A bill was introduced by Senator Dillingham, of Vermont, providing that osteopathic physicians who are properly qualified shall be eligible for commissions in the medical branch of the Army.

Nominations sent to the Senate yesterday included the following: Claude R. Porter, of Iowa, to be assistant attorney general; William S. Edings, of Honolulu, to be associate justice of the supreme court of Hawaii; and John T. De Bolt, of Honolulu, to be second judge of the first Hawaiian Federal circuit court; John F. Short, of Pennsylvania, to be United States marshal for the western district of Pennsylvania.

Consideration of the joint resolution temporarily suspending the immigration laws so as to permit the admission of war refugees was prevented yesterday by objection from both Republicans and Democrats. It was asserted that the resolution was not sufficiently specific.

HOUSE.

The $8,000,000,000 war-revenue bill came before the House to-day for consideration. Chairman Kitchin, of the Ways and Means Committee, which framed the measure, occupied the time and did not conclude his explanation of its features. He devoted practically all of the time yesterday to an explanation of the income-tax sections and to-day went over the excess-profits and war-profits sections.

"This bill," said Mr. Kitchin, "raises twice as much annual revenue as this or any other nation ever attempted to produce. It is more than three times the total of bonds issued and taxes levied by the Federal Government during the Civil War, and $2,500,000,000 more than the total cost of that war. I firmly believe that the bill will raise the full amount needed without ruining business or embarrassing a single individual.

"I want every taxpayer to know that every tax he pays is going into our Treasury to help save the existence of the Government and to preserve his liberty and his business. The man who is not willing to contribute to such a cause is not a patriot. It is not enough to say he is willing to do his bit. The time has come when every man must be willing to do his all."

ST. ELIZABETH HOSPITAL SUPPLIES.

Proposals will be received at St. Elizabeths Hospital until 4 o'clock p. m. September 13, for furnishing the following:

4,500 pounds fresh beef to be delivered September 16; 4,500 pounds September 17; 4,500 pounds September 23; 4,500 pounds September 24.

NATIONAL BANK STATEMENT FOR WEEK ENDING SEPTEMBER 6

Applications to the Comptroller of the Currency during the week ending Friday, September 6, 1918, for authority to organize national banks and to convert State banks into national banks; charters issued; charters extended and reextended; increases and reductions of capital approved; changes of title approved, and national banks placed in voluntary liquidation.

APPLICATIONS FOR CHARTER.

For organization of national banks:	Capital.
The First National Bank of Lake Village, Ark	$50,000
The First National Bank of Salt Springs, Okla	25,000
The First National Bank of Iaeger, W. Va	25,000
The First National Bank of Montebello, Cal. To succeed the commercial department of the Montebello State Bank	25,000
Total	125,000

CHARTERS ISSUED.

Original organizations:	
The Webster National Bank, Webster, Mass	100,000
The First National Bank of Trenton, N. Y. (P. O., Barneveld, N. Y.)	25,000
The First National Bank of Pollock, S. Dak	25,000
The First National Bank of Montgomery City, Mo. Succeeds Union Savings Bank of Montgomery City	75,000
Conversion of State banks:	
The Interstate National Bank of Helena, Ark. Conversion of the Interstate Banking & Trust Co. of Helena	200,000
The Liberty National Bank of Dawson, Tex. Conversion of the First State Bank of Dawson	50,000
Total	475,000

CHARTERS EXTENDED.

The National Bank of Sidney, Iowa, Until close of business September 2, 1938.

The First National Bank of McKees Rocks, Pa. Until close of business September 5, 1938.

INCREASES OF CAPITAL APPROVED.

	Amount.
The Jackson National Bank, Jackson, Minn. From $30,000 to $80,000	$50,000
The First National Bank of Adams, Nebr. From $25,000 to $50,000	25,000
The Third National Bank of Union City, Tenn. From $60,000 to $84,000	24,000
The First National Bank of Thermopolis, Wyo. From $40,000 to $50,000	10,000
The First National Bank of Fond du Lac, Wis. From $125,000 to $400,000	275,000
Total	384,000

CHANGE OF TITLE APPROVED.

The First National Bank of Fond du Lac, Wis., to "First Fond du Lac National Bank."

VOLUNTARY LIQUIDATIONS.

	Capital.
For consolidation with other national bank: The Fond du Lac National Bank, Fond du Lac, Wis. Liquidating committee: T. C. Ebernau, Fond du Lac, and F. A. Foster. Consolidated with the First Fond du Lac National Bank	$200,000

SUMMARY.

	No. of banks.	Capital.
Applications for charter	4	$125,000
Charters issued	6	475,000
Charters extended	2	
Increases of capital approved	5	384,000
Changes of title approved	1	
Voluntary liquidations for consolidation with other national banks	1	200,000

TRIBUTE TO GEN. LAFAYETTE PAID BY VICE ADMIRAL SIMS

The following message from Vice Admiral Sims has been received by the Lafayette-Marne Committee, of New York:

"Today we rejoice in the celebration of two events in our world's history, the birth of Gen. Lafayette, September 6, 1757, and the fourth anniversary of the Battle of the Marne, which was so brilliantly fought September 6, 1914. Those two events are not only co-related as to dates, but more so in the effect upon the happiness of our two great countries. Gen. Lafayette, true gentleman and talented officer, through the ceaseless vigil at Valley Forge and the trying times to come lent his priceless energy and ability without stint, and from these beginnings has sprung our great democracy, whose might, desire and willingness are today directed toward securing for France the return of these same blessings.

"Had not the victorious battle of the Marne been fought, no one can say to what extent we could have succored or aided France, but because it was a victory, because it stopped, then turned back the invading hordes, we today are able to take our part. Let us not forget that debt of gratitude which we owe France nor falter in our determination to assure to her the return of her territory and the outlook of continuous and prosperous peace.

"While the world has France the world will have liberty."

Lafayette Celebration Touches American People Deeply, Says Mr. Crowell

Press interview with Secretary Crowell:

As never before the American people of this generation are conscious of the significance of the anniversary of the birth of Lafayette. To-day's celebration touches them intimately and deeply. They welcome joyfully the new comradeship, and their will is to cement it with complete assistance to a triumphant victory for liberty.

It is interesting to note that as we here in Washington are paying our tribute of respect to France and the spirit of democratic fraternity, the 30th Division of American troops are assisting the soldiers of Great Britain in the reduction of a salient by which a new area of the soil of Belgium is being freed of the invader. This salient is triangular, about 6 miles to a side, and with Mount Kemmel as the center extends from Voormezelle to Locre to Ploegstreet. Meanwhile, further south our forces, in association with gallant veterans of Joffre and Foch, continue steadily to reclaim new ground in overrun France.

FREIGHT TRAFFIC CHAIRMAN.

The United States Railroad Administration issues the following:

August 27, 1918: The following appointment is announced, effective this date:

Robert L. Russell, chairman, freight traffic committee, North Atlantic ports, 141 Broadway, New York City, succeeding Mr. George D. Ogden, now chairman exports control committee.

EDW. CHAMBERS,
Director Division of Traffic.

C. R. GRAY,
Director Division of Operation.

BIDS INVITED FOR MATERIALS FOR INTERIOR DEPARTMENT

Proposals will be received in Room 1010, Department of the Interior, Washington, D. C., until 2 o'clock p. m. September 12, for furnishing the following material:

Two 4-ton Yale triplex hoist chain blocks; one portable electric drill, U. S. or equal, 400 to 700 revolutions per minute, 110 volts A. C., size of drill 0 to ½ inch; one drill, same as above, with drills ½ to 1 inch size; one engine stand, Fig. 2817, of Carey's catalogue, 7th ed.; two portable benches, Fig. 2817b, of Carey's catalogue, 7th ed.; one large size floor crane, Fig. 2106B, of Carey's catalogue, 7th ed.; one Willey electric grinder for 110-volt, alternating current, with motor complete, with starter and two emery wheels, 2 by 12 inches, one medium and one coarse, manufactured by Jas. Clarke, Louisville,; 1 Flather 18-inch motor driven lathe, with 110-volt alternating current, 60-cylinder motor, equal to lathe shown on page 73 of Carey's catalogue, including steady rest and tools; 5 to 6 feet between centers. Submit catalogue of lathe that can be furnished, or equal.

All to be same as above, or equal.

Proposals will be received in Room 1010, Department of the Interior, Washington, D. C., until 2 o'clock p. m., September 12, for furnishing one Greenlee No. 228 (or equal) automatic power feed vertical hollow chisel mortiser, and parts for same, as per specifications.

PROPOSALS FOR SUPPLIES FOR INDIAN AGENCIES

Proposals will be received at the Indian School, Phoenix, Ariz., until 12 o'clock, September 15, for furnishing 1,000 pounds of galvanized shingle nails.

Proposals will be received by the Commissioner of Indian Affairs, Washington, D. C., until September 10, 1918, for furnishing to Haskell Institute, Lawrence, Kans., the following materials: 25,000 pounds beef, net, for three months, beginning October 1, 1918, to be delivered at Haskell Institute as may be required. Or, 50,000 pounds, net, beef for six months, beginning October 1, 1918. 3,000 pounds link sausage, for three months, beginning October 1, 1918, to be delivered as may be required at Haskell Institute. Or, 6,000 pounds link sausage, for six months, beginning October 1, 1918. 900 pounds frankfurters for three months beginning October 1, 1918, to be delivered at Haskell Institute, as may be required. Or, 1,800 pounds frankfurters, for six months, beginning October 1, 1918.

Proposals will be received soon for furnishing to the Western Navajo Indian School, Tuba City, Ariz., approximately 150 square feet corrugated steel roofing, gauged 27 or heavier, sheets 6 feet by 26 inches painted.

Proposals will be received at the Rice Station School, Rice, Ariz., until 3 o'clock p. m., September 10, for furnishing 500 gallons of distillate.

Bids will be received at the Mescalero Agency, New Mexico, until 12 o'clock noon, September 12, for furnishing 1 endless canvas belt, 8 inches wide, containing 150 feet of belting, exclusive of splicing, closely stitched and treated with best waterproofing material.

Proposals will be received at the Mekusukey Academy, Seminole, Okla., until 9 o'clock a. m., September 16, for furnishing one 5-passenger touring car, and until 2 o'clock on the same day proposals for furnishing 700 gallons of kerosene.

COURSE OF STUDY ANNOUNCED FOR STUDENTS' TRAINING CORPS

The War Department authorizes the following:

The course of study for student-soldiers of the Students' Army Training Corps now being organized in the colleges of the country as an active branch of the Army, is announced as follows by the Committee on Education and Special Training of the War Department:

In the curriculum of the Students' Army Training Corps, the average number of hours each week will be as follows: Subjects including practical and theoretical military instruction and physical training, 11 hours a week; allied subjects including lectures, recitations, laboratory instruction and the preparation needed for such work, 42 hours a week.

Refer to Normal Course Period.

These hours are set forth with reference to the normal course period. In the case of students who have had at least one year at an approved institution, during which they have specialized in studies which form part of the preparation program for Chemical Warfare, Medical Corps, Engineer Corps, the Ordnance Corps or other technical branches of the service, the Committee on Education may authorize a reduction in the hours of military training to not less than six hours a week. This is only in the event that additional number of hours be given to the study of technical subjects.

Allied Subjects.

Ordinarily the allied subjects selected for the Students' Army Training Corps will be English, French, German, mathematics, physics, psychology, chemistry, biology, geology, geography, topography and map-making, meteorology, astronomy, hygiene, sanitation, descriptive geometry, law, military law and government. Permission may be given for the recognition of one other subject provided that it requires not more than three hours a week in lectures and recitations.

The presidents of the colleges which have been authorized as units of the S. A. T. C. were advised today that the Collegiate Section is confined to students graduated from standard, four-year, secondary schools or students having the equivalent of such educational qualifications.

HOUSING CONTRACT LET.

Casper Ranger Co. to Build 256 Houses at Quincy, Mass.

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation announces that the Casper Ranger Construction Co., of Holyoke, Mass., has been awarded the contract for the construction of 256 houses providing accommodations for 422 families at Quincy, Mass.

This project is to care for employees of the Fore River Shipbuilding Co., and is expected to materially relieve the congestion which has been occasioned in that community by reason of a shortage of satisfactory housing facilities.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

SECTION NO. 2, SEPTEMBER 6, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	20
Missing in action	69
Wounded severely	143

Keep Bulletin Posted In All U. S. Post Offices

Reports having been made that at some post offices THE OFFICIAL (United States) BULLETIN is not being posted regularly for public reading in accordance with Postmaster General Burleson's orders, postmasters are again reminded of this important duty. It should be remembered that THE BULLETIN is the only publication available to all sections of the country that prints daily the complete and correct casualty lists from our armies oversea exactly as they are issued by the War Department. Many newspapers print only the lists having local interest in their own territory. THE BULLETIN prints every name and address, thus making it a certain means of informing friends and relatives, wherever they may be, of the fate of a soldier or sailor, no matter where his home town or city.

Postmasters are urged, aside from their duty as officials, to make it their patriotic and personal duty to see that the public has the fullest benefit of this privilege.

The Postmaster General's order follows:

All postmasters are directed to post THE OFFICIAL BULLETIN *daily in a conspicuous place in the lobby or other portion of their respective post-office buildings where the public can read it; and, without expense to the Government, each and every postmaster is earnestly urged to see that this* BULLETIN *is made available to as many people as possible in the manner suggested.*

A. S. BURLESON,
Postmaster General.

MARINE CORPS

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	2
Died of wounds received in action	1
Wounded in action (severely)	1
Wounded in action (slightly)	1
Total	5

Killed in Action.

Pvt. Leland M. Reynolds. Joseph C. Reynolds, St. Louis, Mo.

Died of Wounds Received in Action.

Pvt. Clinton E. Denlinger. Tillie Denlinger, Pierson, Iowa.

Wounded in Action (Severely).

Pvt. Jack M. Deckard. Katherine Wagner, 1225 East Eighty-second Street, Cleveland, Ohio.

Wounded in Action (Slightly), Previously Reported Killed in Action.

Sergt. Willie R. Jeffress. Robert Jeffress, Kaufman, Tex.

Killed in Action (Previously Reported Missing in Action).

Pvt. James T. Cotter. Mary Cotter, 1822 Elston Avenue, Chicago, Ill.

Previously Reported Missing in Action, Now Reported Returned to Duty,

PRIVATES.

Sebren L. Arnold. Estella Green, 1339½ Louis Street, Charleston, W. Va.

Wenefred S. Simons. Tona Simmons, 1166 McKinley Street, Akron, Ohio.

Benjamin J. Spang. Clara V. Spang, 714 Shirley Street, Philadelphia, Pa.

THE WEEKLY WEATHER FORECAST

The weather bureau issues the following forecast for the period September 9 to 14, inclusive.

North and Middle Altantic States.—Fair, warmer beginning of week; showers and somewhat cooler by middle of week followed by fair weather and nearly normal temperatures thereafter.

South Atlantic and East Gulf States.—The week will be mostly fair with a return to normal temperature conditions.

West Gulf States.—Fair weather during the week with normal temperatures.

Ohio Valley and Tennessee.—Some slight prospect of showers Monday or Monday night in the Ohio Valley; otherwise generally fair weather indicated; nearly normal temperatures.

Region of Great Lakes.—Showers about Monday in Upper Lakes and Monday night or Tuesday in Lower Lakes followed by fair weather the remainder of the week. Cooler Tuesday in Upper Lakes and Wednesday in Lower Lakes followed by a return to normal temperatures.

Upper Mississippi and Lower Missouri Valleys.—Some prospects of showers Monday; generally fair the remainder of the week. Somewhat cooler Tuesday followed by rising temperature Wednesday and Thursday; nearly normal thereafter.

Northern Rocky Mountain and Plateau Regions.—Generally fair weather during the week. Cooler Monday followed by a return to normal temperatures by Wednesday.

Southern Rocky Mountain and Plateau Regions.—Fair weather will prevail during the week with nearly normal temperatures.

Pacific States.—Fair weather will prevail during the week although showers are probable during first half along the north coast. Temperatures nearly normal.

Health Conditions at Army Camps Within the United States as Reported to the Surgeon General for Week Ending August 30

The War Department authorizes the following:

Herewith is a detailed report on the health conditions of troops in the United States (including Porto Rico) for the week ending August 30. The report of the Division of Sanitation to the Surgeon General of the Army for that week is as follows:

1. General: The admission rate for disease continues to show a decline, while the noneffective rate is slightly higher than last week. Both rates are materially higher in divisional camps than in other groups. The death rate for disease remains low (3.35), though slightly higher than last week (2.96). Pneumonia continues as the cause of the majority of deaths occurring during the week. Pneumonia shows an increase in the number of new cases as compared with last week. Malarial admissions are remarkably few, considering the season of the year. Few new cases of measles are reported as compared with last week. The number of new cases of special diseases as compared with last week follows:

	This week.	Last week.
Measles	764	806
Pneumonia	429	352
Malaria	163	158
Dysentery	30	38
Meningitis	15	6
Venereal	5,010	6,064

2. Divisional camps: There were 180 new cases of measles reported from camps of this group as compared with 136 last week. Of this number Camp Shelby reports 75; McClellan, 24; MacArthur, 20; and scattering cases from several other camps. New cases of pneumonia reported number 167, as compared with 142 last week. Camp Wheeler leads in the number of new cases (71), with Camp Fremont second (30). Thirty-three deaths were reported from all causes from camps of this group, of which 17 are charged to Camps Wheeler and Fremont, where pneumonia is prevailing. Of 55 new cases of malaria reported for the week 22 are charged to Camp Logan, 11 to Shelby, and 5 to Beauregard.

3. Cantonments: Camps Grant, Custer, and Dix report the lowest sick rates for the week of all camps of this group. Camp Grant has the lowest admission rate (345), while Custer has the lowest noneffective (11.9). New cases of measles are reported from all camps of this group with one exception (Travis). Camp Las Casas leads in the number of new cases (72), while Gordon reports 71; Funston, 56; Pike, 54; and smaller numbers from other camps. Two hundred and nine new cases of pneumonia are reported against 173 last week. Camp Devens leads with 61 new cases. Camps Gordon and Lewis report 23 each; Pike, 17; and smaller numbers from other camps. Fifty new cases of malaria are reported from camps of this group against 46 last week. Twenty of these are charged to Camp Pike.

4. Departmental and other troops: Stations of this group continue to show the lowest sick and death rates of all troops in the United States. A few cases of measles and pneumonia have occurred at ports of embarkation and aviation camps, but otherwise there is no disease prevalent at these stations calling for comment.

Summary.

Troops.	Noneffective rate.		Admission rate for disease.		Death rate.			
					All causes.		Disease only.	
	This week.	Last week.	This week.	Last week.	This week.	Last week.	This week.	Last week.
Divisional camps	46.1	41.9	23.0	24.3	5.6	3.1	5.4	2.5

Stuart	23	4	21	95 (9)	12	1		56.97

[1] First figure in this column for each camp gives the total number of new cases during the week; the figure in parenthesis is the number of those cases which were contracted during the week by men in that camp's command at the time of contracting the disease; the difference, therefore, is the number of cases first reported during the week which were either (*a*) cases brought from civilian life by recruits, or (*b*) cases brought by men transferred from other camps to the camp under which the case is reported, or (*c*) old cases which have previously evaded detection. An interrogation point signifies that the report from that camp did not segregate cases contracted at the camp from other cases.

[2] Per 1,000.

Two new cases of typhoid fever also reported from Camp Shelby, 1 from Lee, 1 from Travis, 1 from Eastern Department, 2 from Stuart.

Causes of deaths, by camps.

Camp or department.	No. of deaths.	Causes.
Bowie	1	Nephritis, 1.
Cody	3	Pneumonia, 3.
Greenleaf	1	Cause not reported, 1.

Soldiers Who Died Last Week.

List of names of soldiers (not members of the American Expeditionary Forces) reported to The Adjutant General's Office as having died during the week ending August 30, 1918. Included in this list are the names of soldiers (not members of the American Expeditionary Forces), not previously published, who died prior to the week mentioned and subsequently to March 8, 1918. These names are indicated by an asterisk (*):

Camp Alfred Vail, N. J.—Pvt. Harry Bumfeld, 9 Pinehurst Avenue, New York City, N. Y.

Camp Devens, Mass.—Pvt. Adam H. Bock, 822 East Fourteenth Street, Columbus, Nebr.; Pvt. Harry Butterfield, 1900 Riverside, Minneapolis, Minn.;* Pvt. Charles Edward Oleary, 173 East Water Street, Rockland, Mass.

Camp Dodge, Iowa.—Pvt. John N. Baker, 802 East Jackson Street, Centerville, Iowa;* Pvt. Mose Hamilton, 809 Adams Street, Mobile, Ala.;* Pvt. Chancey LeRoy Kirby, 747 South Water Street, Wichita, Kans.*

Camp Fremont, Cal.—Pvt. Jesse Bewley, Russellville, Tenn.*

Camp Funston, Kans.—Pvt. Henry William Waxler, Vlieta, Kans.*

Camp Gordon, Ga.—Pvt. Emri C. Aaby, R. F. D. No. 2, Ute, Iowa; Pvt. Gent Brinson, R. F. D., Pavo, Ga.;* Pvt. Willie Carter, Cuthbert, Ga.; Pvt. Edward S. Keeler, 680½ East Livingston Avenue, Columbus, Ohio.

Camp Grant, Ill.—Pvt. (first class) Fred W. Benters, 512 Twelfth Avenue, Sterling, Ill.;* Pvt. John H. Carr, R. F. D. No. 1, care of John Avery, Ayden, N. C.; Pvt. John Levi Skoog, 2324 Eleventh Avenue, South Minneapolis, Minn.

Camp Hancock, Ga.—Pvt. Frank Teske, 546 Erin Street, Eau Claire, Eau Claire County, Wis.

Camp Humphreys, Va.—Pvt. Paul O'Brien, 56 Smith Street, Seymour, Conn.;* Pvt. Henry Spears, R. R. No. 1, Wilson, La.

Camp Jackson, S. C.—Pvt. Harrison Wolfe, Branchville, S. C.

Camp Johnston, Fla.—Pvt. Felix O. Adkins, Bruno, Ark.

Camp Las Casas, P. R.—Pvt. Juan Colon, Bo. Simarrones, Bareloneta, P. R.

Camp Lee, Va.—Sergt. Dennis Ryan, Moreland Park, Little Falls, N. Y.

Camp Meade, Md.—Pvt. Samuel Wells, Whick, Ky.

Camp Merritt, N. J.—Pvt. Edward Frye, 1824 Esquire, Louisville, Ky.*

Camp Pike, Ark.—Pvt. Chester Dolf, Plumbyou, Ark.; Pvt. Freeman Graham, St. Charles, Ark.; Pvt. John London, Brinkley, Ark.; Pvt. Charles Edward McKenzie, R. F. D. No. 3, Higginsville, Mo.; Pvt. John Morgan, route No. 2, Preston, Iowa; Pvt. David H. Null, Arden, Ark.; Pvt. James Paige, Pineridge, Miss.; Pvt. Moses D. Scott, R. F. D. No. 1, box 22, Natchez, Miss.; Pvt. Lucian Smith, Wabash, Ark.

Camp Robinson, Wis.—Pvt. Joseph J. Malick, Downers Grove, Ill.

Camp Shelby, Miss.—Pvt. Liston H. Cartledge, Kilmichael, Miss.;* Pvt. William R. Coleman, R. R. No. 1, Parkdale, Ark.; Pvt. Harry Lockhart, Goldfield, Miss.; Rect. Ben F. Maples, Owens Crossroads, Ala.; Pvt. Cassell Motley, rear 72 Looney Avenue, Memphis, Tenn.; Bugler Fred G. Poindexter, 1233 Rosevelt Avenue, Indianapolis, Ind.

Camp Sherman, Ohio.—Sergt. John H. Boynton, 544 Vine Street, Chillicothe, Ohio; First Lieut. Alfred K. Gymer, 106 Cumberland Avenue, Evansville, Ind.

Camp Taylor, Ky.—Pvt. Dealas Johnson, Smyrna, Ga.; Pvt. Carl Thomas Leatherman, 1615 South Garky Street, Muncie, Ind.; Pvt. William Loch, R. F. D. No. 1, Box 13, Eufaula, Ala.

Camp Travis, Tex.—Corpl. Clyde J. Downer, 1009 Wilcox Street, Cadillac, Mich.; Pvt. William A. Ferguson, Moore, Tex.; Pvt. Fred King, 6 Regan Street, Palestine, Tex.; Pvt. William H. Reid, Grapevine, Tex.; Pvt. Roscoe C. Slaughter, St. Jo, Tex.

Camp Upton, N. Y.—Pvt. King Bailey, R. F. D. No. 1, Box 50, Marshbluff, S. C.; Pvt. George Glover, Vance, S. C.; Pvt. Vincent Soucha, 185 Indiana Street, Brooklyn, N. Y.; Recruit John West, 812 Avenue A, Norfolk, Va.*

Camp Wadsworth, S. C.—Pvt. Ora F. Seavey, Paynesville, Minn.; Pvt. Willie Wilds, R. F. D. No. 1, Blenheim, S. C.

Camp Wheeler, Ga.—Recruit Sam Brown, Clopland, Ga.; Pvt. Henry C. Collins, Blundale, Ga.;* Pvt. Robert Crittenden, Sumpter City, Ga.;* Pvt. Will Corss, Route No. 1, Box 6, Byromville, Ga.; Pvt. Joseph Curry, Route No. 1, Dixie, Ga.; Pvt. Clarence Jackson, Route No. 2, Box 44, Waynesboro, Ga.; Pvt. Willie Jones, Nadilia, Ga.; Pvt. Stanislaw Kaczmierczak, Chicago, Ill.;* Pvt. Paul Lahti, Mettakyla Tawalkoski, O. O. Finland; Pvt. George A. McCombs, Route No. 1, Madras, Ga.; Pvt. Rodger McCulliens, Sanford, Ga.; Pvt. Ulus B. Nivins, Route No. 1, Hillsboro, Ga.;* Pvt. Claud Smith, Tifton, Ga.

Fort Bayard, N. Mex.—First Class Pvt. Ralph E. Sailor, Reading, Pa.;* Pvt. Harold S. Schiller, 1524 Palmer Avenue, Sioux City, Iowa.

Fort Bliss, Tex.—Pvt. Charles R. Tullis, Springsboro, Ohio.

Fort D. A. Russell, Wyo.—Pvt. Frederick W. Evans, 1233 Fourth Street NW., Grand Rapids, Mich.

Fort Howard, Md.—Pvt. Peter McDonough, 56 Central Street, Peabody, Mass.

Fort Jay, N. Y.—Mechanic Francisco Rivera, jr., 1 Cruz Street, Rio Grande, P. R.*

Fort Riley, Kans.—Pvt. Allen Le Blanc, Sunset, La.*

Fort Slocum, N. Y.—Recruit Phillip Miosi, Court Street, Buffalo, N. Y.; Recruit Lawrence G. Pike, 5 Kingston Street, Lawrence, Mass.

Fort Westhaven, Conn.—Pvt. Pearson Clapp, 116 Joyces Lane, Pinnero Point, Va.

Jefferson Barracks, Mo.—Recruit John Schanil, Olivia, Minn.; Recruit Frank Shrontz, Holton, Kans.

Schofield Barracks, Hawaii.—Pvt. Julian Daguman, Meak Sifuyar, P. I.; Pvt. Joe Puali, Lihue Kauai, Hawaii.*

Vancouver Barracks, Wash.—Pvt. Chriss F. Bertelsen, Freesoil, Mich.;* Recruit Everett Bookwalter, Soloman, Kans.; Pvt. Lewellyn Boynton, Ripton, Vt.

Carlstrom Field, Fla.—Pvt. John K. Culbertson, Concord, N. C.

Chanute Field, Ill.—Second Lieut. Clifford B. Guthrie, Robinson, Ill.

Love Field, Tex.—Second Lieut. Charles J. Hyde, Norfolk, Nebr.

Scott Field, Ill.—Cadet H. B. Johnson, Port Allegany, Pa.

Alpine, N. J.—Pvt. William J. Strachan, 222 South Ninth Street, Brooklyn, N. Y.*

Cacon, Canal Zone.—Pvt. John Rose, 2122 North Sevitt Street, Chicago, Ill.

Columbus, N. Mex.—Pvt. Simon Allen, Pilot Point, Tex.; Pvt. (first class) John Jones, 9 West Twentieth Street, Chattanooga, Tenn.

Corpus Christi, Tex.—Pvt. Fred B. Dodd, Route No. 7, Glasgow, Ky.*

Delrio, Tex.—Pvt. (first class) Maurice Olmstead, Fergus Falls, Minn.

Deming, N. Mex.—Pvt. Boon Hays, Orlando, Okla., R. F. D. No. 3; Pvt. John W. Wells, Cavalla, Tex.

Hoboken, N. J.—Capt. Edgar H. Annear, 129 Keep Street, Modesto, Cal.; Sergt. Herbert Colwell, Snyder, Tex.;* Pvt. George N. Gilliam, Connaway, Ark.; Pvt. Alvin Sanborn, Owassa, Okla.;* Pvt. Joseph K. Stromain, Torraspoint, La.

Lancaster, Pa.—Pvt. Cleven Parr, 12 Wheat Street, Columbia, S. C.*

Little Rock, Ark.—Pvt. Fred R. Oldfield, 608 South Fejon Street, Colorado Springs, Colo.

Malakoff, Tex.—Pvt. Nathan Johnson, Malakoff, Tex.*

Nogales, Ariz.—Corpl. Barney Lots, 1313 Holman Street, Covington, Ky.

Otisville, N. Y.—Pvt. (first class) Walter S. Milne, 53 Liberty Street, Barre, Vt.

Peoria, Ill.—Pvt. Herman C. Miesner, R. F. D. No. 2, Atlanta, Ill.*

Pittsburgh, Pa.—Pvt. Ralph R. John, Route No. 6, Kittanning, Pa.

Raymond, Wash.—Pvt. George Douglas, Richwood, W. Va.*

Rochedale, Mass.—Pvt. Elmer Chase, R. F. D. No. 1, Hartland, Me.

Rochester, N. Y.—Pvt. Alfred Meng, 491 Church Street, New Britain, Conn.*

Rockland Lake, N. Y.—Corpl. George C. Bickelman, 152 Goodrich Street, Buffalo, N. Y.

Rumford, Me.—Maj. Lucian William Blanchard, 124 Franklin, Rumford, Me.*

Sam Fordyce, Tex.—Pvt. Justin E. McCarthy, 962 Summit Avenue, Jersey City, N. J.

Sam Houston, Tex.—Pvt. Ralph W. Berger, Salina, Kans.

Scottsburg, Ind.—Pvt. Roscoe O. Meadors, Scottsburg, Ind.

Spartanburg, S. C.—Pvt. Oscar W. Harvey, Pacolet, S. C.; Pvt. Lester Schumann, Schumann-Johnson Co., Minneapolis, Minn.

Syracuse, N. Y.—Recruit Otto Siodovnik, 1359 Avenue A, New York City, N. Y.*

Takoma Park, D. C.—Pvt. James B. Berryhill, Waco, Nebr.

Talmadge, Cal.—Pvt. Andrew Jackson Lamb, Molalla, Oreg.*

Waynesville, N. C.—Pvt. William H. Madden, Winthrop Avenue, Westbury, Long Island, N. Y.

Official Bulletin Index

An index for the Official Bulletin for the first six months of 1918 has been prepared and may be had on application to this office. An index for each month hereafter will be printed in an early issue of the Bulletin after the close of that month.

WILL REPORT TO GENERAL STAFF.

Special Orders, No. 202.

475. By direction of the President, the following-named officers of the Quartermaster Corps are relieved from detail in that corps and are detailed under the provisions of the act of Congress approved May 18, 1917, in the Inspector General's Department: Lieut. Col. Eben Swift, jr., and Lieut. Col. William A. Austin.

The officers named will repair to this city and report in person to the director of the war plans division, General Staff, for the purpose of receiving instructions in staff duties.

Director General McAdoo Announces Form of Contract Which Government Is Willing to Make With Railroads Covering Federal Control and Basis of Compensation

Director General of Railroads McAdoo on Thursday issued the following:

I am announcing to-day the form of contract which the Government is willing to make with the railroad companies covering Federal control of the railroads and the compensation therefor.

The formulation of these contract provisions has been in progress since the approval of the Federal control act on March 21 last. The length of time consumed in this work has been due to the difficulties and intricacies of the subject, the absence of precedent for a contract of this nature, the great variety of railroad conditions and practices which had to be carefully considered and discussed before finally adopting a uniform plan, and the necessity of giving to the great number and variety of interests affected the fullest opportunity for hearing and discussion upon every aspect of the many-sided problems.

Assisted By Committee.

In order that no phase of the public interest might be unrepresented, I arranged at the outset for, and have continuously had, the benefit of the advice and assistance in this matter of a committee of the Interstate Commerce Commission, consisting of Messrs. Clark, Hall, Anderson, and Meyer.

The railroad companies and the railroad security holders have been represented by committees as well as by counsel. In addition to the various formal hearings and discussions, there have been repeated interviews at which a great many special problems affecting particular railroad companies have been fully represented.

Outcome of Hearings.

The draft of contract adopted is the outcome of all these hearings, discussions, and considerations, and represents in my judgment a form of contract which conforms to the law, protects the public interest, and accords to railroad companies and their stockholders and bondholders the just protection which was contemplated by the Government when it took possession and control of the railroads.

Features of the Contract.

Aside from recitals, definitions, and description of property, the draft of contract covers only 12 pages. The principal features are as follows:

The railroad company accepts the contract and the compensation therein provided for in full satisfaction of all claims on account of Federal possession and control.

Provision is made for the numerous features of operation and accounting during Federal control, for the allocation of revenues on traffic in transit at midnight December 31, 1917, for the handling of "overlapping" items of expense, etc.

Maintenance of Property.

Provision is made for the maintenance of the property during Federal control, of course at the expense of the Government, on substantially the same basis as during the three-year test period ending June 30, 1917, and for the return of the property at the end of Federal control in substantially as good repair and substantially as complete in equipment as on January 1, 1918; it is provided in effect that if during the test period the maintenance expenses were not sufficient to put the property in condition for safe operation, the additional maintenance necessary for safe operation may be provided at the expense of the company, with the limitation that the cost of maintenance shall not be increased at the expense of the company over the normal standard of maintenance of railroads of like character and business during the test period.

Provision is made for the payment of taxes in accordance with the Federal control act.

Annual Compensation.

Provision is made for the annual compensation (which will be fixed in each case in accordance with the provisions of the Federal control act) to be paid to the company in quarterly installments. This compensation will not be subject to any deductions which would prevent the company from supporting its corporate organization, keeping up its sinking funds, paying taxes and rents, and interest heretofore regularly paid, and interest on loans issued during Federal control. These requirements of the company for corporate expenses and fixed charges being thus provided for, the Government has the right to make deductions from the remaining compensation to satisfy indebtedness which the railroad company may owe to the Government; however, the contract declares the power of deduction to be an emergency power, to be used only when no other reasonable means is provided by the company to reimburse the United States, and not to be used so as to interrupt unnecessarily the regular payment of dividends made by the company during the test period.

Disposition of Claims.

Provision is made for the orderly presentation and disposition of claims on the part of the railroad company for amounts expended by the Railroad Administration for additions to its property which, in the opinion of the railroad company, are not for its advantage and for which it believes it should not be charged.

Provisions are also made for final accounting at the end of Federal control.

In a comparatively few instances, considering the opportunity for differences of opinion, there appear to remain some objections on the part of some of the interests which have been heard, but these objections are in my opinion without foundation.

One of these objections is that the contract ought to leave open for litigation at the end of Federal control the question whether the railroad has been damaged by diversion of its business during Federal control. This claim is not tenable because the railroads have been taken over for war purposes which necessitate diversion of traffic, hence there can be no escape from the view that Congress intended the compensation which it authorized to cover this element. This demand of certain interests is, in effect, for an opportunity to litigate and is a demand which need not be urged if the railroad company, instead of making the contract offered, should instead go to the Court of Claims to get its compensation. In this event the railroad company would get only a single compensation, covering its entire claim, including any damages for alleged diversion, and would not be allowed to litigate at the end of Federal control the question of diversion of business. The contract ought not in this respect to put the railroad company in any better position than it would occupy if it made no contract. This demand is not only unreasonable, but the Director General has no lawful authority to grant it, as I have been advised by the Solicitor General of the United States, to whom I submitted the question and who has considered and approved the legal aspects of the contract.

Improvement of Roads.

Objection has also been made that the contract ought not to require a railroad company to pay out of its compensation such additional amount as may be necessary to bring a railroad, which at the beginning of Federal control was in unsafe condition, up to a condition of safe operation. This objection really means that the Government ought to accept and continue such a property in an unsafe condition (which would be clearly contrary to the public interest and ultimately contrary to the interest of the owners of the property), or should itself repair at its own cost the fault of the owners and put the property in a better condition than the owners kept it, thus giving the owners not only compensation, but besides at the end of Federal control the advantage of having without cost an improved property, while this advantage would be denied to railroad owners who had properly maintained their property. I have not been able to accede to this view. I have felt that railroad owners had no right to make any such demand, nor do I believe that railroad owners generally do make any such demand. Under the contract, however, this right to bring the property up to a condition of safe operation is not to be exercised so as to interfere with the railroad company's payment of its fixed charges, including interest heretofore regularly paid.

Payment of Debts.

Some objection has also been made that no part of a railroad company's compensation should be used to pay its debts to the Government except such part as might remain after the company's payment of its customary dividends. This objection has no bearing where a company has paid dividends on a provident basis and has retained, as it is recognized all well-regulated companies should retain, a substantial surplus of its income to provide a margin of credit and cover unproductive

(Continued on page 14.)

Information for Soldiers' and Sailors' Families, Issued by Department of Civilian Relief.

Liberty Bonds Subscribed for by Member of Navy—Refund in Case of Discharge.

If a member of the Navy was discharged from the service before completing the payments on Liberty bonds for which he had subscribed through the Navy Department, he or anyone on his behalf should write the following letter to the Navy Liberty loan officer, Navy Department, for a refund of these payments:

Seaman (second class) John Howard Smith, formerly of U. S. S. *Winslow*. Age, 26 years. Entered service July 20, 1917.

NAVY LIBERTY LOAN OFFICER,
NAVY DEPARTMENT,
Washington, D. C.

DEAR SIR: On April 30, 1918, at Mare Island, Cal., I, the above-named enlisted man, subscribed for two bonds of $50 each of the third Liberty loan, through the Federal reserve bank of New York City, each to be paid for in 10 installments of $5, to be deducted monthly from my pay. I was discharged from the service on September 10, 1918, before completing the payments on these bonds. I hereby request that the allotments deducted from my pay for the payment of these bonds be refunded to me.

Very truly, yours,
JOHN HOWARD SMITH,
132 Willow Street, Rockford, Ill.

Location of Man in Service.

If a man is known to be in either the military or naval service of the United States, while the organization to which he is attached is unknown, one of his relatives (preferably the emergency address), and, according to a recent ruling of The Adjutant General, no one else, should address the appropriate office in the War or Navy Department and describe the man as follows:

If the man is in the Army:

John Howard Smith. Last known military designation, Tank Corps training camp, Gettysburg, Pa. Age, 26 years. Probable date of entry into service, October 20, 1917. Probable emergency address, Kate Higgins Smith, sister, 132 Willow Street, Rockford, Ill.

THE ADJUTANT GENERAL,
U. S. Army, Washington, D. C.

DEAR SIR:

If the man is in the Navy or Coast Guard:

John Howard Smith. Last known naval designation, U. S. S. *Winslow* (or Station 100, Sea Bright, N. J.). Age, 26 years. Probable date of entry into service, October 20, 1917. Probable emergency address, Kate Higgins Smith, sister, 132 Willow Street, Rockford, Ill.

BUREAU OF NAVIGATION,
Navy Department, Washington, D. C.

GENTLEMEN:

If the man is in the Marine Corps:

John Howard Smith. Last known naval designation, Marine Corps training camp, Quantico, Va. Age, 26 years. Probable date of entry into service, October 20, 1917. Probable emergency address, Kate Higgins Smith, sister, 132 Willow Street, Rockford, Ill.

U. S. MARINE CORPS HEADQUARTERS,
Washington, D. C.

GENTLEMEN:

The body of the letter should read as follows:

Please inform me as to the present location and address of the above-named enlisted man.

Very truly, yours,
KATE HIGGINS SMITH,
132 Willow Street, Rockford, Ill.

Insurance Granted.

If the relative of an enlisted man desires to know whether the latter has taken out Government insurance, the relative should write directly to the Bureau of War Risk Insurance, attention of insurance section, as follows, stating the reason for desiring this information, which purpose will generally be served by indicating the writer's relationship to the enlisted man:

Private John Howard Smith. Serial No. 85634. Co. L, 125th Infantry, American Expeditionary Force. Age, 26 years. Entered service October 20, 1917.

BUREAU OF WAR RISK INSURANCE,
ATTENTION OF INSURANCE SECTION,
TREASURY DEPARTMENT,
Washington, D. C.

GENTLEMEN: Please inform me whether the above-named enlisted man, who is my brother, has taken out Government insurance and in what amount.

Very truly yours,
KATE HIGGINS SMITH,
132 Willow Street, Rockford, Ill.

Failure to Receive Proper Pay.

Do not write to any department in Washington to make inquiry because an enlisted man who is still in the service believes that he has not received his proper pay. The man should take this matter up in person with his commanding officer.

Change of Address of Allottee.

If an enlisted man's relative who has been receiving an allotment and allowance through the Bureau of War Risk Insurance, or an allotment through the War or Navy Department, moves to another address, such relative should promptly notify the allotment office. The introductory portion of such letter should read as follows:

If the allotment and allowance are being received through the Bureau of War Risk Insurance:

Private John Howard Smith. Serial No. 85634. Co. L, 125th Infantry, American Expeditionary Force. Age, 26 years. Entered service October 20, 1917. Allotment No. 343298.

BUREAU OF WAR RISK INSURANCE,
ATTENTION, DIVISION OF AUDIT AND RECORDS,
TREASURY DEPARTMENT,
Washington, D. C.

GENTLEMEN:

If the allotment is being received through the office of the Quartermaster General:

Private John Howard Smith. Co. L, 125th Infantry, American Expeditionary Force. Age, 26 years. Entered service, October 20, 1917.

DEPOSITS AND ALLOTMENTS BRANCH,
CENTRAL DISBURSING DIVISION,
OFFICE OF THE QUARTERMASTER GENERAL,
U. S. ARMY,
Washington, D. C.

GENTLEMEN:

If the allotment is being received through the Navy Department:

Second Class Seaman John Howard Smith, U. S. S. *Winslow*. Age, 26 years. Entered service, October 20, 1917.

NAVY ALLOTMENT OFFICER,
NAVY DEPARTMENT,
Washington, D. C.

DEAR SIR:

If the allotment is being received through the Marine Corps:

Private John Howard Smith. Co. C, 125th Regiment, U. S. Marine Corps, Quantico, Va. Age, 26 years. Entered service, October 20, 1917.

PAYMASTER,
U. S. MARINE CORPS HEADQUARTERS,
Washington, D. C.

DEAR SIR:

If the allotment is being received through the Coast Guard:

Surfman John Howard Smith. Station 100, Seabright, N. J. Age, 26 years. Entered service, October 20, 1917.

CAPTAIN COMMANDANT,
U. S. COAST GUARD,
Washington, D. C.

DEAR SIR:

The body of the letter should read as follows:

As the sister of the above-named enlisted man I am receiving an allotment (and allowance) through your office and have been receiving checks addressed to 132 Willow Street, Rockford, Ill. Please take notice that I have now moved to 84 Pine Street, Rockford, Ill., and checks should now be sent to this latter address.

Very truly, yours,
KATE HIGGINS SMITH,
84 Pine Street, Rockford, Ill.

Change in Spelling of Allottee's Name.

If an enlisted man's relative receives a check for an allotment or allowance on which the name of such allottee is misspelled, or otherwise incorrect, the allot-

(Continued on page 14.)

FORM OF CONTRACT FOR COMPENSATION OF RAILOAD COMPANIES IS ANNOUNCED

(Continued from page 12.)

improvements. In every such case the company can, in accordance with the contract, make other reasonable provision for reimbursing the United States, and there need be no interference with its dividends as regularly paid during the test period. The objection only applies where a railroad company has paid improvident dividends. As to such a case the argument is that the contract should put the company in a far better position than it would occupy if it made no contract, and in a far better position than it would occupy if it continued in private control and enjoyed an income equal to the compensation guaranteed by the Government. Without a contract, the right of deduction in such cases would be clear. Under private management, and with a corresponding income, the company would have to pay the penalty of improvident dividends through the loss of its credit and, ultimately, the breaking down of its property. The proposition is, baldly, that the Government shall protect the company in paying improvident dividends and then lend it money to cover all its indebtedness arising since Federal control, and render it immune from the consequences of its own improvidence. All of these objections are unreasonable. It is not possible to believe that they express the views of the railroad companies generally, or the owners of railroad securities generally. The points are mentioned, however, because they appear to have been made the subject of very considerable publicity.

Conditions Last December.

Frequently the arguments urged in opposition to certain features of the proposed contract have suggested the idea that under any such contract the railroads would be in a much worse position than if they had remained in private management. It may be well, therefore, to look at the situation which confronted the railroads last December and to consider what would probably be their present status if still in private management.

Last December the expenses of the railroads were increasing with great rapidity. They were hedged about in their efforts to obtain increased rates by the numerous and various restrictions imposed by the States, and also by the limitations imposed by the interstate commerce act. They were confronted by imperative demands for greatly increased wages and were without machinery to insure an amicable settlement of those demands. They were finding it almost impossible to borrow money on any terms to make the improvements which were indispensable to enable them to perform their public service. The operating results for the first four months of 1918 indicate that if the railroads had been under private control during that period they would have lost in operating income, as compared with the corresponding period of the preceding year, $136,116,533; and as compared with an average of the corresponding period for the three-year test period, $96,064,356. This takes no account of the wage increase subsequently made, which nevertheless was retroactive to January 1. These adverse conditions, coupled with the extreme difficulty of borrowing money, would probably have resulted in the failure of some of the most important railroad companies in the country to meet their obligations under private management.

Income on Just Basis.

Under Federal control the railroads have the opportunity to contract with the Government for a guaranteed income on a just basis, which relieves them of the formidable anxieties which confronted them in December and which would still be confronting them under private control. They are able to borrow money from the Government on reasonable terms for necessary improvements. These are fundamental things which impress the great body of railroad investors and should make them satisfied with the status as it now exists.

Of course, no railroad company is compelled to accept the form of contract the Government offers. The company is free to reject the contract and go into the Court of Claims to obtain such compensation as the Court of Claims will allow and to work out, under statutory and general legal principles, all the details of the relationship which will arise between the Government and the company on account of Federal control. I am convinced, however, that the contract offered by the Government is just and reasonable. The railroad owners have no right to assume more than that, and if the Government offers less they are fully protected by their right to reject the Government's offer and go into the Court of Claims.

W. G. McAdoo.

PROPOSALS INVITED BY OFFICE OF QUARTERMASTER, NEW YORK

The following announcements are made by the Office of Quartermaster General, 109 East Sixteenth Street, New York:

Sealed proposals in triplicate will be received at the above office until 11 a. m., September 23, 1918, for manufacturing oversea caps and winter caps.

Samples may be seen, and specifications and new proposal blanks obtained at the office of the Depot Quartermaster, or at 109 East Sixteenth Street, New York, N. Y.

Information on application. Envelopes containing proposals to be indorsed "Proposals for 39 inches 80 by 80 4.00 yard sheetings," and addressed to the Cotton Goods Branch, Clothing and Equipage Division, 109 East Sixteenth Street, New York city."

Red Cross Home Service

(Continued from page 13.)

tee should promptly notify the department of the Government from which the check was received. The description of the man and the address to which the letter should be sent are fully indicated above. The body of the letter should read as follows:

Please take notice that I, Kate Higgins Smith, sister of above-named enlisted man, have received from your office check No. 197428, upon which my name is incorrectly spelled as follows: Kate Higins Smyth.

Very truly, yours,
KATE HIGGINS SMITH,
132 Willow Street, Rockford, Ill.

Notice of Death of Allottee.

If (a) a person dies who is receiving allotment or allowance payments through the Bureau of War Risk Insurance or allotment payments from one of the other allotment offices, or if (b) a child or some other person dies on whose behalf such payments are being received, a member of the family or other appropriate person should promptly notify the office from which the checks emanate. The description of the man and the address to which the letter should be sent are fully indicated above. The body of the letter to the Bureau of War Risk Insurance in such a case should be as follows (note that this notice will not secure a reaward to the sister—that must be accomplished by forwarding War Risk Form 11 with supporting evidence through Red Cross channels—nevertheless the following notice should be sent directly and promptly):

On August 31, 1918, Mrs. Elizabeth Brown Smith, wife of the above-named enlisted man, who was receiving allotment and allowance payments under the Bureau of War Risk Insurance, died at her home, 84 Pine Street, Rockford, Ill. She leaves two children, John Howard Smith, jr., age 12, and Elizabeth Smith, age 10, who will hereafter make their home with me, his sister.

Very truly, yours,
KATE HIGGINS SMITH,
132 Willow Street, Rockford, Ill.

The body of the letter to any one of the other offices should be as follows:

On August 31, 1918, Mrs. Elizabeth Brown Smith, wife of the above named enlisted man, who was receiving allotment payments through your office, died at her home, 84 Pine Street, Rockford, Ill.

Very truly, yours,
KATE HIGGINS SMITH,
132 Willow Street, Rockford, Ill.

Form 1001—P. M. G. O.

THIRD EDITION.

QUESTIONNAIRE.

(Stamp of Local Board.)

Registration No.

Serial No.

Order No.

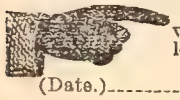
Name of Registrant: Telephone No. .....

(First name.) (Middle name.) (Last name.)

Address: .....

(No.) (Street or R. F. D. No.)

(City or town.) (County.) (State.)



NOTICE TO REGISTRANT.—You are required by law to return this Questionnaire filled out in accordance with instructions contained herein within seven days from date of this notice. Failure to do so is a misdemeanor punishable by fine or imprisonment for one year and may result in the loss of valuable rights and in immediate induction into military service.

(Date.)..... .....

Member of Local Board.

CLAIM FOR EXEMPTION OR DEFERRED CLASSIFICATION.

NOTE TO CLAIMANTS.—This form is to be used for claiming exemption or deferred classification by or in respect of any registrant and for stating the grounds of claim. Place a cross (x) in Column A opposite the division that states the ground of claim. Boards are required to consider only grounds thus indicated by the claimant in Column A.

Column A.	Division.	CLASS I.
.....	A	Single man without dependent relatives.
.....	B	Married man, with or without children, or father of motherless children, who has habitually failed to support his family.
.....	C	Married man dependent on wife for support.
.....	D	Married man, with or without children, or father of motherless children; man not usefully engaged, family supported by income independent of his labor.
.....	E	Unskilled or not a necessary farm laborer.
.....	F	Unskilled or not a necessary industrial laborer.
.....	G	Registrant by or in respect of whom no deferred classification is claimed.
.....	H	Registrant who fails to submit Questionnaire and in respect of whom no deferred classification is claimed.
.....	I	Registrant not deferred and not included in any of above divisions.
.....	X	

DEFERRED CLASSES.

CLASS II.

Column A.	Division.	
.....	A	Married man with children, or father of motherless children, where such wife or children or such motherless children are not mainly dependent upon his labor for support for reason that there are other reasonably certain sources of adequate support (excluding earnings or possible earnings from labor of wife), available, and that the removal of registrant will not deprive such dependents of support.
.....	B	Married man, without children, whose wife, although registrant is engaged in a useful occupation, is not mainly dependent upon his labor for support, for the reason that the wife is skilled in some special class of work which she is physically able to perform and in which she is employed, or in which there is an immediate opening for her under conditions that will enable her to support herself decently and without suffering or hardship.
.....	C	Necessary skilled farm laborer in necessary agricultural enterprise.
.....	D	Necessary skilled industrial laborer in necessary industrial enterprise.
.....	X	

CLASS III.

Column A.	Division.	
.....	A	Man with dependent children (not his own), but toward whom he stands in relation of parent.
.....	B	Man with dependent aged or infirm parents.
.....	C	Man with dependent helpless brothers or sisters.
.....	D	County or municipal officer.
.....	E	Highly trained fireman or policeman in service of municipality.
.....	F	Necessary customhouse clerk.
.....	G	Necessary employee of United States in transmission of the mails.
.....	H	Necessary artificer or workman in United States armory or arsenal.
.....	I	Necessary employee in service of United States.
.....	J	Necessary assistant, associate, or hired manager of necessary agricultural enterprise.
.....	K	Necessary highly specialized technical or mechanical expert of necessary industrial enterprise.
.....	L	Necessary assistant or associate manager of necessary industrial enterprise.

CLASS IV.

Column A.	Division.	
.....	A	Man whose wife or children are mainly dependent on his labor for support.
.....	B	Mariner actually employed in sea service of citizen or merchant in the United States.
.....	C	Necessary sole managing, controlling, or directing head of necessary agricultural enterprise.
.....	D	Necessary sole managing, controlling, or directing head of necessary industrial enterprise.

CLASS V.

Column A.	Division.	
.....	A	Officer—legislative, executive, or judicial of the United States or of State, Territory, or District of Columbia.
.....	B	Regularly or duly ordained minister of religion.
.....	C	Student who on May 18, 1917, or on May 20, 1918, or since May 20, 1918, was preparing for ministry in recognized theological or divinity school, or who on May 20, 1918, or since May 20, 1918, was preparing for practice of medicine and surgery in recognized medical school.
.....	D	Person in military or naval service of United States.
.....	E	Alien enemy.
.....	F	Resident alien (not an enemy) who claims exemption.
.....	G	Person totally and permanently physically or mentally unfit for military service.
.....	H	Person morally unfit to be a soldier of the United States.
.....	I	Licensed pilot actually employed in the pursuit of his vocation.
.....	J	Person discharged from the Army on the ground of alienage or upon diplomatic request.
.....	K	Subject or citizen of cobelligerent country who has enlisted or enrolled in the forces of such country under the terms of a treaty between such country and the United States providing for reciprocal military service of their respective citizens and subjects.
.....	L	Subject or citizen of neutral country who has declared his intention to become a citizen of the United States and has withdrawn such intention under the provisions of act of Congress approved July 9, 1918, and Selective Service Regulations.

.....	Member of well-recognized religious sect or organization, organized and existing on May 18, 1917, whose then existing creed or principles forbid its members to participate in war in any form and whose religious convictions are against war or participation therein.

REGISTRANT OR OTHER INTERESTED PERSON MUST ANSWER THE FOLLOWING QUESTION.

Q. Do you claim exemption or deferred classification in respect of the registrant named above? If so, state the divisions of each class and each class in which you claim that he should be classified.

A. .....; in Division ..... of Class ....., and Division ..... of Class ....., and Division ..... of Class ..... (Date) .....

(Yes or no.)

(Address.)..... (Sign here.).....

WAIVER OF CLAIM FOR EXEMPTION OR DEFERRED CLASSIFICATION.

(To be signed by registrant or other interested person whenever a waiver is used.)

I hereby waive all claim of exemption or deferred classification of the registrant named above.

(Date of signing.) ..... (Sign here.).....

IMPORTANT NOTICE TO REGISTRANTS AND OTHER INTERESTED PERSONS.

TO BE READ BEFORE PROCEEDING FURTHER.

Every registrant shall immediately upon receipt of a Questionnaire proceed as follows: He shall first carefully read, or have read to him, the instructions printed on this page, and the instructions printed with each series of questions. He shall then take up each series of questions, and answer all questions which he is required to answer and sign his name where required by the instructions. He shall make no mark nor answer upon page No. 1 until he has answered the 12 series of questions; but after having done so and before he executes his affidavit on page No. 15, he shall answer the question near the bottom of page No. 1 and sign his name thereto. If he wishes to waive all claim of exemption or deferred classification, he shall sign the waiver at the bottom of page No. 1. He shall then upon the first page place a cross mark (X) in the space opposite the division which describes his ground or basis for deferred classification. The registrant is not limited to making one cross mark (X), but may make a sufficient number of marks to indicate his status in relation to every ground for discharge or exemption which exists in his case. He shall then swear or affirm to the truth of his answers by executing the "Registrant's Affidavit" on page 15.

A registrant making any claim which must be supported by an affidavit must procure the execution of the supporting affidavit by the person or persons indicated in the instructions relating to the particular series which states the claim. Unless he procures such affidavit, the claim will not be considered either by the Local Board or by the District Board.

Additional affidavits may be filed with the Questionnaire when deemed necessary by the registrant or person making claim in his behalf. **(Sec. 95 (*f*) S. S. R.)**

The Questionnaire, answered and sworn to in strict accordance with these instructions, must be filed with the Local Board on or before the seventh day (excluding Sundays and legal holidays) after the date appearing upon the first page of the Questionnaire under the words "Notice to Registrant."

Note.—The initials S. S. R. refer to the regulations prescribed by the President and known as the Selective Service Regulations.

Reasons for and Effect of Classification.

The names of all men liable to selection for military service shall be arranged in five classes in the order in which they can best be spared from the civic, family, industrial, and agricultural institutions of the Nation. The term "deferred classification" includes the second, third, fourth, and fifth classes of the five classes in which registrants shall be placed. All registrants placed in Class V have been exempted or discharged, and all registrants placed in Classes II, III, and IV have been temporarily discharged. The effect of classification in Class I is to render every man so classified presently liable to military service in the order determined by the national drawings. The effect of classification in Class II is to grant a temporary discharge from draft, effective until Class I is exhausted; and similarly Classes III and IV become liable only when Classes II and III, respectively, are exhausted. All classifications are conditioned upon the continuing existence of the status of the registrant which is the basis of his classification. **(See Secs. 1 (*j*) and (*k*) and 70 S. S. R.)**

Every registrant shall, within five days after the happening thereof, report to his Local Board any fact which may change or affect his classification. Failure to report change of status as herein required or making a false report thereof is a misdemeanor, punishable by one year's imprisonment. **(Sec. 116 S. S. R.)**

Notice to Registrants and to all Interested Persons, and Effect of such Notice.

(*a*) The process of examination and selection shall begin by the posting of notice in the offices of the Local Boards and by mailing a Questionnaire to every registrant included in such posted notice **(Sec. 92 S. S. R.)**, and notice of every subsequent action taken by either the Local or District Board in respect of each registrant shall be given by entering a minute or date of such action on the Classification List in the office of the Local Board and in addition to such entries by mailing to the registrant (and in some cases to other claimants) a notice of such action.

(*b*) Whenever a duty is to be performed or a period of time begins to run within which any duty is to be performed by any such registrant, or within which any right or privilege may be claimed or exercised by or in respect of any such registrant, a notice of the day upon which such duty is to be performed or such time begins to run shall be mailed to the registrant, and the date of such mailing of notice shall be entered opposite the name of such registrant on the Classification List, which is always open to inspection by the public at the office of the Local Board.

(*c*) In addition to the mailing of such notice to registrants, notice of the disposition of claims of other persons in respect of registrants shall be mailed to such other persons. Either the mailing of such notice or the entry of such date in the Classification List shall constitute the giving of notice to the registrant and to all concerned, and shall charge the registrant and all concerned with notice of the day upon which such duty is to be performed or the beginning of the time within which such duty must be performed or such right or privilege may be claimed, regardless of whether or not a mailed notice or Questionnaire is actually received by the registrant or other person.

(*d*) Failure by any registrant to perform any duty prescribed by the President under the authority of the act approved May 18, 1917, or subsequent act or acts of Congress at or within the time required, is a misdemeanor punishable by imprisonment for one year, and may result in loss of valuable rights and immediate induction of such registrant into military service.

(*e*) Failure of the registrant or any other person concerned to claim and exercise any right or privilege on the day or within the time allowed shall be considered a waiver of such right or privilege, subject only to the privilege to apply for an extension of time.

(*f*) All registrants and other persons are required to examine from time to time said notice so posted by the Local Board and the Classification List upon which said dates are to be entered; and it is the duty of every registrant concerning whom any notice is posted, but who has not received the Questionnaire or notice, as the case may be, to apply to his Local Board for a copy thereof. Failure to receive notice or Questionnaire will not excuse the registrant from performing any duty within the time limit, nor shall it be in itself ground for extension of time. **(Sec. 7, S. S. R.)**

(*g*) Any registrant, except an alien enemy, who fails to return the Questionnaire on the date required shall be deemed to have waived all claim for deferred classification, and shall stand classified in Class 1 subject, however, to the rights and privileges of other persons to apply to the Local Board for deferred classification of the registrant, and to the right of the registrant or any other person to apply for an extension of time, as provided in Section 99 S. S. R. **(Sec. 129, S. S. R.)**

By Whom Oaths May Be Administered.

Any oath required by these Rules and Regulations (except oaths to persons called before Local or District Boards to give oral testimony) may be administered—

(1) By any Federal or State officer authorized by law to administer oaths generally;
(2) By any member or chief clerk of any Local or District Board having jurisdiction of the registrant;
(3) By any Government Appeal Agent in regard to any case pending before any Local or District Board with which he is connected;
(4) By any person designated to act in the capacity of legal aid or advisor to registrants; and
(5) By any postmaster within the same local jurisdiction as the registrant.

When the oath or oaths are administered by any of the persons named in Classes 2, 3, 4, and 5 hereof, there shall be no fee or charge for the same. **(Sec. 10, S. S. R.)**.

Aid and Advice to Registrants by Legal Advisory Boards.

Legal Advisory Boards, composed of disinterested lawyers and laymen, will be present at all times during which Local Boards are open for the transaction of business, either at the headquarters of Local Boards or at some other convenient place, for the purpose of advising registrants of the true meaning and intent of the Selective Service Law and Regulations and of assisting registrants to make full and truthful answers to the Questionnaire.

Members of Legal Advisory Boards shall enter upon the left-hand margin of front page of Questionnaire the following: "Aid given by me," and sign the name of the member of such board, stating whether "permanent" or "associate" member. **(Sec. 45, S. S. R.)**.

QUESTIONS.

SERIES I. GENERAL QUESTIONS.

INSTRUCTIONS. Every registrant must answer ALL the following questions, and sign his name at the bottom.

Q. 1. State (*a*) your full name, birthplace, and your present age and residence; and (*b*) the name, address, and relationship of your nearest relative (wife may be designated as nearest relative).

A. 1. (*a*) .....
(Name of registrant.) (Age.) (Place of birth.) (Post-office address.)

(*b*) .....
(Name of relative.) (Address of relative.) (Relationship.)

Q. 2. What is your race? Are you white, Negro, or Oriental? A. 2. .....

Q. 3. State (*a*) whether you are single, married, widowed or divorced and (*b*) date of marriage.

A. 3. (*a*) .....; (*b*) .....

Q. 4. If you have a child or children, state the name, age and present residence of each child. A. 4. .....

.....

.....

LOOK AT KEY LIST OF OCCUPATIONS WITH QUESTIONNAIRE BEFORE ANSWERING NEXT QUESTION.

Q. 5.	Occupation.	Special work or job.	Key number and letter on list.	Number of years pursued.	Monthly salary or wages.
(a) What is your present occupation?					
(b) What other work are you qualified to do?					

Q. 6. If you are employed, state (*a*) the name of your employer and (*b*) the place at which you are employed.

A. 6. (*a*) .....
(Name of employer.)

(*b*) .....
(No. (Street or R. F. D. No.) (City or town.) (County.) (State.)

Q. 7. Mention any previous military experience you have had, giving organization, rank, and length of service.

A. 7. .....

Q. 8. Underline branch of Army in which you prefer to serve if selected: Artillery—Aviation—Engineer Corps—Infantry—Medical Department—Ordnance Department—Quartermaster Corps—Signal Corps.

Q. 9. Schooling: Grade reached in school ..... Years in high school ..... Years in college .....

Name of college and subjects of specialization .....

Years in technical school ..... Name of school and course pursued .....

Underline the languages you speak well: English—French—German.

State any other languages you speak .....

Q. 10. Have you ever been convicted of a crime? A. 10. .....
(Yes or no.)

Q. 11. If your preceding answer is "yes," state (*a*) the name of the crime; (*b*) the approximate date of conviction; (*c*) the name and location of the court; (*d*) sentence imposed. A. 11. (*a*) .....

(*b*) ..... (*c*) ..... (*d*) .....

Q. 12. Are you now confined in prison, either (*a*) serving sentence or (*b*) awaiting trial, or (*c*) are you confined in a reformatory or correctional institution? A. 12. .....
(Yes or no, and state which.)

Q. 13. Are you at large on bail under any criminal process? If so, state full details. A. 13. .....

.....

.....
(Signature of registrant.)

IMPORTANT NOTE.—If the registrant is an inmate of an institution mentioned in question 12 and is unable to answer the foregoing questions, the executive head of the institution is requested to communicate the information immediately to the Local Board.

SERIES II. PHYSICAL FITNESS.

INSTRUCTIONS.—Every registrant must answer the first two questions. If he answers the second question "yes," he need not answer the remaining questions. If he answers the second question "no," he must answer ALL the questions. He must sign his name at the end of this series of questions.

Q. 1. State your height and weight stripped. A. 1. Height, _____ (Inches.); Weight, _____ (Pounds.)

Q. 2. Are you in sound health mentally and physically? A. 2. _____ (Yes or no.)

Q. 3. Draw a line under any of the words below that describes any ailment or physical deficiency you may have.

A. 3. 1. Blind.	4. Loss of limb.	7. Insane.
2. Deaf.	5. Epileptic.	8. Withered or deformed limb.
3. Dumb.	6. Paralytic.	9. .....

Q. 4. State in detail the names and addresses of the physicians by whom and the institutions in which you are being treated or have been treated within the last twelve months, with the dates of the treatments.
A. 4. _____

Q. 5. Are you an inmate of an asylum; hospital, or other institution on account of any physical, mental, or nervous disease, disorder, or injury? A. 5. _____ (Yes or no.)

Q. 6. If you answer "yes," state (*a*) the nature of the ailment, and (*b*) name and location of institution.
A. 6. (*a*) _____ (*b*) _____

_____ (Signature of registrant.)

IMPORTANT NOTE.—If the registrant is an inmate of an institution mentioned in question 6 and is unable to answer the foregoing questions, the executive head of the institution is requested to communicate the information immediately to the Local Board.

SERIES III. LEGISLATIVE, EXECUTIVE, AND JUDICIAL OFFICERS.

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "no," he need not answer the remaining questions or sign his name. If he answers "yes," he must answer ALL the questions and sign his name.

Q. 1. Are you a legislative, executive, or judicial officer of the United States or of a State or Territory or of the District of Columbia? A. 1. _____ (Yes or no.)

If your answer is "no," do not answer any other questions and do not sign your name.

Q. 2. State exact designation of your office. A. 2. _____

Q. 3. State (*a*) when you entered upon the duties of said office and (*b*) when your term of office will expire.
A. 3. (*a*) _____; (*b*) _____

NOTE.—See Sec. 79; S. S. R. and Part XIII. _____ (Signature of registrant.)

SERIES IV. MINISTERS OF RELIGION.

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "no," he need not answer the remaining questions nor sign his name. If he answers "yes," he must answer ALL the questions, and must sign his name.

Q. 1. Are you a regular or a duly ordained minister of religion; and if so, of what sect or organization?
A. 1. _____ (Yes or no, and if "yes" add name of sect.)

If your answer is "no," do not answer any other questions and do not sign your name.

Q. 2. State (*a*) the manner by which, (*b*) the date when, and (*c*) the place where you became such minister.
A. 2. (*a*) _____ (*b*) _____ (*c*) _____

Q. 3. State place and nature of your religious labors: (*a*) On January 1, 1918; (*b*) Now.
A. 3. (*a*) _____ (*b*) _____

Q. 4. Have you any additional occupation? If so, what? A. 4. _____

NOTE.—See sec. 79, S. S. R. _____ (Signature of registrant.)

SERIES V. DIVINITY AND MEDICAL STUDENTS.

INSTRUCTIONS.—Every registrant must answer the first three questions. If he answers "no" to all of these questions, he need not answer the remaining questions nor sign his name. If he answers "yes" to question No. 1, No. 2, or No. 3, he must answer all the remaining questions and sign his name, and must also secure the following supporting affidavit of the president, dean, or other executive head of the theological, divinity, or medical school. If such executive head be not available, the executive nearest in rank may make the affidavit, but must state therein why the superior officer is not available.

Q. 1. Were you on May 18, 1917, a student preparing for the ministry in a recognized theological or divinity school? A. 1. _____ (Yes or no.)

Q. 2. Were you on May 20, 1918, a student preparing for the ministry in a recognized theological or divinity school, or were you on May 20, 1918, a student preparing for the practice of medicine and surgery in a recognized medical school? A. 2. _____ (Yes or no, and state which.)

Q. 3. Have you been at any time since May 20, 1918, a student preparing for the ministry in a recognized theological or divinity school, or a student preparing for the practice of medicine and surgery in a recognized medical school? A. 3. _____ (Yes or no, and state which.)

If your answer to all the questions No. 1, No. 2, and No. 3 is "no," do not answer any other questions and do not sign your name.

Q. 4. If your answer to question No. 3 is "yes," state the period (naming the dates) during which you were such a student? A. 4. _____

Q. 5. State whether the school in which you were a student on the date or dates indicated by your answer to question No. 1, No. 2, or No. 3 was a recognized theological or divinity or medical school. A. 5. _____ (Specify which.)

Q. 6. State the name and location of such school in which you were a student on the date or dates you have thus indicated. A. 6. _____

Q. 7. Is the school you have described wholly or partially a correspondence school? A. 7. _____

Q. 8. Have you ceased to be a student preparing for the ministry or a student preparing for the practice of medicine and surgery; and if so, what is your present occupation? A. 8. _____

_____

NOTE.—See Sec. 79, S. S. R., and Public Resolution approved May 20, 1918.

_____ (Signature of registrant.)

SUPPORTING AFFIDAVIT.

STATE OF _____, *County of* _____, *ss:*

I, _____ (Name of affiant.), do solemnly swear—affirm—that I was on the date or dates mentioned in the foregoing answers _____ (Strike out one.) of the school mentioned in the foregoing answer No. 6; that such school was on said date a recognized _____ (Designation of affiant's office in school.) school; and that I know of my own personal knowledge that the answers to the foregoing questions Nos. 1 to 7, inclusive, are true. I further state that _____ (Divinity, theological, medical.) who was _____ (Unavailable superior officer.) of said school on the date or dates mentioned in the foregoing answers is now _____ (Designation of superior officer.)

_____ (State reason why superior officer is not available, if that be the fact.)

_____ (Signature of supporting affiant.)

Subscribed and sworn to before me this _____ day of _____, 191___. _____ (Address.)

_____ (Signature of officer.) _____ (Designation of officer.)

SERIES VI. MILITARY OR NAVAL SERVICE.

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "no," he need not answer the other questions nor sign his name. If he answers "yes," he must answer ALL the other questions FULLY and must sign his name.

Q. 1. Are you in any branch of the military or naval service of the United States? A. 1. _____ (Yes or no.)

If your answer is "no," do not answer any other questions and do not sign your name.

Q. 2. Give your (*a*) rank, (*b*) organization or corps, (*c*) branch of the service, and (*d*) mail address.

A. 2. (*a*) _____ (*b*) _____ (*c*) _____ (*d*) _____

Q. 3. State the (*a*) date, (*b*) place, and (*c*) manner in which you entered the service. A. 3. (*a*) _____ (*b*) _____ (*c*) _____

NOTE.—See Sec. 79, S. S. R.

_____ (Signature of registrant.)

SERIES VII. CITIZENSHIP.

INSTRUCTIONS.—Every registrant must answer all the following questions, except as stated in the interlined instructions, or unless his status makes an answer to any question impossible, and must sign his name at the end of this series of questions.

Q. 1. Are you a citizen of the United States? A. 1. _____ (Yes or no.)

Q. 2. Where and on what date were you born? A. 2. _____ (Place and country.) _____ (Date.)

Q. 3. If you were not born in the United States, state (*a*) at what place; and (*b*) on what date you arrived in this country, and (*c*) whether you came with your father or mother or either of them. A. 3. (*a*) _____; (*b*) _____; (*c*) _____

Q. 4. If you are a citizen of the United States, naturalized upon application by you, state when and where you were so naturalized. A. 4. _____

Q. 5. If you are not a citizen of the United States, either native born or fully naturalized, answer the following: (*a*) Of what country are you a citizen or subject? (*b*) In what place and country did you ordinarily reside before proceeding to the United States? (*c*) Have you ever taken out first papers (that is, declared your intention to become a citizen of the United States)? (*d*) If so, when and where did you take out your first papers?

A. 5. (*a*) _____; (*b*) _____

(*c*) _____; (*d*) _____

Q. 6. If you are not a citizen of the United States and have not declared your intention to become a citizen, do you claim exemption from service in the Army of the United States on that ground? A. 6. _____ (Yes or no.)

If you are an Indian, born in the United States, do not answer questions Nos. 7 to 13, but answer questions Nos. 14 to 16.

Q. 7. If you are not a citizen of the United States and have not declared your intention to become a citizen, are you willing to return to your native country and enter its military service? A. 7. _____
(Yes or no.)

Q. 8. Give the birthplace and present residence of both of your parents. A. 8. _____

Q. 9. If your parents or either of them live in the United States, state how long each has resided in this country. A. 9. _____

Q. 10. If either of your parents has been naturalized in the United States, state (*a*) which parent; (*b*) when and where naturalized. A. 10. (*a*) _____; (*b*) _____

Q. 11. Have you ever voted or registered for voting anywhere in the United States; if so, when and where? A. 11. _____

Questions Nos. 12 and 13 are to be answered only by a citizen or subject of a country neutral in the present war who has declared his intention to become a citizen of the United States.

Q. 12. If you are a citizen or subject of a country neutral in the present war and have declared your intention to become a citizen of the United States, name the neutral country of which you are a citizen or subject. A. 12. _____

NOTE.—Congress has enacted a law providing that a citizen or subject of a country neutral in the present war, who has declared his intention to become a citizen of the United States, shall be relieved from liability to military service upon his making a declaration, in accordance with such regulations as the President may prescribe, withdrawing his intention to become a citizen of the United States, which shall operate and be held to cancel his declaration of intention to become an American citizen and shall forever debar him from becoming a citizen of the United States.

Q. 13. Do you wish to be relieved from liability to military service by withdrawing your intention to become a citizen of the United States upon the conditions named in the foregoing note to Question No. 12? A. 13. _____
(Yes or no.)

NOTE.—If you answer "yes," your Local Board will send you the necessary blank forms and directions for making such claim for relief from liability to military service and renouncing your right to become a citizen of the United States. Before your claim can be passed upon, you must fill in and return such forms to your Local Board. (See sec. 117½ S. S. R.)

If you are an Indian born in the United States and claim you are not a citizen, answer the following questions:

Q. 14. State (*a*) when you were allotted; (*b*) when your father was allotted; (*c*) when your mother was allotted. A. 14. (*a*) _____; (*b*) _____; (*c*) _____

Q. 15. Have you received a patent in fee to your land? A. 15. _____

Q. 16. State (*a*) whether you live separate and apart from any tribe; (*b*) if so, when you intend to return to tribal life; and (*c*) how long you have lived away from tribal life A. 16. (*a*) _____ (*b*) _____; (*c*) _____

NOTE.—See sec. 79 S. S. R.

_____
(Signature of registrant.)

SERIES VIII, PART A. COUNTY AND MUNICIPAL OFFICIALS AND FEDERAL EMPLOYEES.

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "no," he need not answer the remaining questions nor sign his name. If he answers "yes," he must answer ALL the questions and sign his name. If he claims deferred classification on the ground that he is employed by the United States as a customhouse clerk, or in any of the capacities mentioned in question 1, he must also secure and file with the Local Board an affidavit of the official having direct supervision and control of the branch of the Government service in which the registrant is engaged, stating that he is necessary to the adequate and effective operation of such service, and can not be replaced by another person without substantial, material loss and detriment to the adequate and effective operation thereof. In the case of a registrant in departmental service stationed outside of the District of Columbia, the affidavit must be made by the official having direct supervision of the applicant. In all cases such affidavit must be indorsed "approved" by the Secretary of the Department or other certifying official specified in Part XIV, S. S. R. The affidavit to be filed by a necessary agricultural expert, employed by a State Agricultural College receiving Federal funds, is described in Section 77, Note 1, S. S. R.

Q. 1. Are you a county or municipal official, or a customhouse clerk, or are you employed by the United States in the transmission of the mails, or are you an artificer or workman employed in an armory or arsenal of the United States, or are you an employee of the United States designated by the President as eligible for discharge? A. 1. _____
(Yes or no, and state which.)

If you are not in any of the above classes, do not answer any other questions and do not sign your name.

Q. 2. State the designation of your office, position, or occupation. A. 2. _____

Q. 3. If you are a county or municipal official, were you elected by popular vote or appointed? State which. A. 3. _____

Q. 4. If you are a county or municipal official, state (*a*) whether a vacancy in the office which you hold can be filled by appointment and (*b*) when your term of office expires.
A. 4. (*a*) _____ (*b*) _____
(Yes or no.)

Q. 5. State the exact place of the performance of your duties. A. 5. _____

Q. 6. State how long you have held such office or position, or how long you have been so employed. A. 6. _____

Q. 7. State the character and duration of your education, training, and experience for your office, position, or employment. A. 7. _____

Q. 8. Describe the nature of your work. A. 8. _____

NOTE.—See Sec. 77, and Part XIV, S. S. R.

_____
(Signature of registrant.)

SERIES VIII, PART B. PILOTS AND MARINERS.

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "no," he need not answer the remaining questions nor sign his name. If he answers "yes," he must answer ALL the questions and sign his name. If he claims deferred classification as a licensed pilot, he must secure and file with the Local Board an affidavit signed by the Collector or Deputy Collector of the port from which the registrant regularly sails, stating that he is a licensed pilot regularly employed in the pursuit of his vocation. If he claims deferred classification as a mariner, he must submit evidence in support of his claim sufficient to satisfy the Local Board that he is entitled to such classification.

Q. 1. Are you a licensed pilot actually employed in the pursuit of your vocation, or are you a mariner actually employed in the sea service (including service on the Great Lakes) of a citizen or merchant within the United States? A. 1. _____
(Yes or no, and state which.)

If your answer to question 1 is "no," do not answer any other questions and do not sign your name.

Q. 2. State your training and experience as a pilot or mariner (as the case may be) and how long you have been so engaged. A. 2. _____

Q. 3. If you are engaged in any other occupation, describe it, and state what part of your working time you give to such other occupation. A. 3. _____

Q. 4. If you are a pilot, state (*a*) how long you have been licensed and (*b*) from what port you regularly sail. A. 4. (*a*) _____ (*b*) _____

Q. 5. If you are a mariner actually employed in the sea service (including service on the Great Lakes), state (*a*) the name and address of your employer, (*b*) how long you have worked as a mariner for such employer and (*c*) describe your particular work. A. 5. (*a*) _____
(*b*) _____ (*c*) _____

NOTE.—See Secs. 78 and 79 S. S. R.

_____
(Signature of registrant.)

SERIES VIII, PART C. FIREMEN AND POLICEMEN.

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "no," he need not answer the remaining questions nor sign his name. If he answers "yes," he must answer ALL the questions and sign his name. If he claims deferred classification as a highly trained fireman or policeman, he must secure and file with the Local Board an affidavit signed by the official head of the Department of the Municipality by which he is employed, stating that the registrant is highly trained, the length of time he has been continuously employed and compensated by the Municipality he is now serving, and that he can not be replaced without substantial and material detriment to the public safety in the Municipality in which he is serving.

Q. 1. Are you a highly trained fireman or policeman? A. 1. _____
(Yes or no, and state which.)

If your answer to question 1 is "no," do not answer any other questions and do not sign your name.

Q. 2. Give the name of the Municipality which you are now serving. A. 2. _____

Q. 3. How long have you been continuously employed and compensated by the said Municipality as a fireman or policeman, as the case may be? A. 3. _____

Q. 4. What position do you hold or what special duties do you perform in your department? A. 4. _____

Q. 5. If you claim you can not be replaced without substantial and material detriment to the public safety in the Municipality in which you are serving, state the reason for your claim. A. 5. _____

NOTE.—See Sec. 77 (e) S. S. R.

_____
(Signature of registrant.)

SERIES IX. RELIGIOUS CONVICTION AGAINST WAR.

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "no," he need not answer the other questions nor sign his name. If he answers "yes," he must answer ALL the questions and sign his name.

Q. 1. Are you a member of a well-recognized religious sect or organization organized and existing May 18, 1917, whose then existing creed or principles forbid its members to participate in war in any form? If so, state the name of the sect or organization and the location of its governing body or head. A. 1. _____

If your answer is "no," do not answer any other questions and do not sign your name.

Q. 2. By reason of your membership in such sect or organization, do you claim exemption from military service, except in some capacity declared by the President to be noncombatant? A. 2. _____
(Yes or no.)

Q. 3. State number of adherents of such religious sect or organization in the United States. A. 3. _____

Q. 4. When did said religious sect or organization adopt opposition to war as a part of its creed or principles? A. 4. _____

Q. 5. When, where, and how did you become a member of such religious sect or organization? A. 5. _____

Q. 6. Are your religious convictions against war or participation therein in accordance with the creed or principles of such religious sect or organization? A. 6. _____

Q. 7. Give the name, location, and date of organization of the particular local church or congregation of which you are a member. A. 7. _____

NOTE.—See Secs. 79 and 280, S. S. R.

_____
(Signature of registrant.)

SERIES X. DEPENDENCY.

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "no" and does not claim deferred classification on the ground of dependency or family, he need not answer the remaining questions or sign his name. If he answers "yes," or claims deferred classification on the ground of dependency or family, he must answer all the questions and sign his name. If he intends to claim deferred classification on the ground of dependency or family, or if he expects any person to claim deferred classification for him on such ground, he must secure the supporting affidavits annexed hereto of every person over 16 years of age named as dependents or members of his family. He or any other person may also (and if the Local Board requires it, he or they must) file with the Local Board additional affidavits, which must be legibly written or typewritten on one side of white paper of the approximate size and shape of this sheet.

Q. 1. Have you a wife, or child, or aged, infirm, or invalid parent or grandparent, or brother under 16 or sister under 18 years of age, or a helpless brother or sister of whatever age, mainly dependent on your physical or mental labor for support? A. 1. _____
(Yes or no.)

If your answer is "no" and you do not claim deferred classification on account of dependency or family, do not answer any other question and do not sign your name.

Q. 2. State whether you are single, married, widowed, or divorced. A. 2. _____
(Use one of the four terms in answering.)

Q. 3. If you are married, state (*a*) the place, (*b*) date, and (*c*) the person by whom the ceremony was performed. A. 3. (*a*) _____ (*b*) _____ (*c*) _____

Q. 4. Give the following information as to each person now mainly dependent upon your labor for support. A. 4.

Name.	Age.	Relationship.	Address.	When your support began.	Whether wholly dependent on your labor.

Q. 5. State (*a*) with which of your dependents you live and (*b*) how long you have lived with such dependent or dependents. A. 5. (*a*) _____; (*b*) _____

Q. 6. If any persons named in your answers do not live with you, state which of them have lived with you at any time during the past 12 months and for how long a period. A. 6. _____

Q. 7. If any such dependent is a stepchild, an adopted child, or a foster child, state as to each when such relationship to you began. A. 7. _____

Q. 8. State both (*a*) the approximate total and (*b*) the average monthly amount of your support of your wife and children, exclusive of your own expenses, during the last 12 months. A. 8. (*a*) $_____ (*b*) $_____

Q. 9. How much have you contributed to the support of each other dependent during said 12 months? A. 9. _____

Q. 10. State amount per month you consider necessary for support of all your dependents. A. 10. $_____

Q. 11. State (*a*) whether the amount you have contributed during the last 12 months to any dependent other than your wife and children includes any payment for board or lodging for yourself or others. (*b*) If you answer "yes," how much did you pay in this manner for board or lodging and for what persons? A. 11. (*a*) _____; (*b*) _____
(Yes or no.)

Q. 12. If any person on whose account you claim deferred classification (other than your wife or child) has a brother, sister, father, mother, husband, wife, or child, state as to each such relative of such person. A. 12.

Name.	Age.	Address.	Occupation.	To which dependent related.	Relationship to such dependent.

Q. 13. What was your total income from all sources during the last 12 months, whether (a) in cash or (b) in other thing of value? A. 13. (*a*) Cash $_____ (*b*) Other thing of value $_____

Q. 14. How much of this was the fruit of your labor, mental or physical? A. 14. $_____

Q. 15. Give a full statement of all property owned by or held in trust for you, whether income-producing or not; and your net income from same during last 12 months. A. 15. Character of property: Real estate—Principal, $_____; income, $_____ Personal property—Principal, $_____ income, $_____

Q. 16. Do you own the house you live in? A. 16. _____
(Yes or no.)

Q. 17. (*a*) Does any of your family or dependents own it? (*b*) If so, state owner's name. A. 17. (*a*) _____
(Yes or no.)
(*b*) _____

Q. 18. If any of the dependents owns the house he or she lives in, state name of owner. A. 18. _____

Q. 19. Do you rent your house? If so, state the monthly rent and name and address of landlord.

A. 19. _____

Q. 20. Have you paid any taxes during the last year? If so, state separately the amount paid on real estate; on personal property; and income tax, and name the officer to whom paid.

A. 20. Real estate, $_____; paid to _____ (Official designation.)

Personal property, $_____; paid to _____ (Official designation.)

Income tax, $_____; paid to _____ (Official designation.)

Q. 21. If there is any encumbrance on any property you own, state its nature and amount. A. 21. _____

Q. 22. State the value of all property owned by or held in trust for any person named as dependent, and his or her income therefrom.

A. 22. _____ (Name of dependent.) Principal, $_____ Income, $_____

_____ (Name of dependent.) Principal, $_____ Income, $_____

_____ (Name of dependent.) Principal, $_____ Income, $_____

Q. 23. If there is any encumbrance on any property owned by or held in trust for any person named as dependent, state its nature and amount. A. 23. _____

Q. 24. State earnings of each named dependent during preceding 12 months.

Name of dependent.	Period employed.	Earnings.
A. 24. _____	_____	_____
_____	_____	_____
_____	_____	_____

Q. 25. State amount of contributions to each dependent during said 12 months by person other than you, naming such dependents, contributors, and amounts. A. 25_____

Q. 26. Has your wife been employed during any portion of the past 12 months? If so, state period of employment, with dates, nature of her work, and amount of her earnings. A. 26_____

Q. 27. Has your wife ever been employed? If so, in what calling and when? A. 27_____

Q. 28. Is your wife trained or skilled in any calling? If so, in what? A. 28_____

Q. 29. State the condition of health of your wife. A. 29_____

Q. 30. Do you or your wife live with her parents? A. 30_____

Q. 31. Do you or your wife live with your parents? A. 31_____

Q. 32. State any other facts which you consider necessary to present fairly your claim for deferred classification on the ground of having dependents. A. 32_____

NOTE.—See Sections 71 to 76, inclusive, S. S. R.

_____ (Signature of registrant.)

SUPPORTING AFFIDAVITS.

STATE OF _____, *County of* _____, *ss:*

We, the undersigned, do solemnly swear—affirm, (Strike out one.) each for himself and herself individually, that we have read or had read to us the foregoing questions and answers under the heading "Dependency," by _____, registrant; that we understand the same; that we are the persons named in said answers; and that the statements contained therein as to the name, age, residence, relationship, and dependency of each of us toward said registrant, and the statement of his contributions to the support of each of us, and the statements of the financial and material condition of each of us, and of the income of each of us from all sources, are true.

SERIES XI. INDUSTRIAL OCCUPATION.

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "yes," he must answer all the remaining questions, except as stated in the interlined instructions, and must sign his name at the end. If the registrant claims deferred classification on account of engagement in industry, he must secure the two supporting affidavits annexed at the end of Series XII, in conformity with the following rules:

1. If the registrant is an employee, affidavit No. 1 must be made by his immediate superior and affidavit No. 2 by the executive head of the enterprise. If the business extends into more than one State, affidavit No. 2 may be made by the head of the division or plant in which the registrant is actually employed. If the registrant's superior is also executive head of the enterprise, affidavit No. 1 shall be made by such executive, and affidavit No. 2 need not be executed.

2. (a) If the registrant is part owner of the enterprise as a stockholder or partner, affidavit No. 1 must be made by a stockholder or copartner, and affidavit No. 2 by a near neighbor. (b) If he is the sole owner, both affidavits must be made by near neighbors.

ALL AFFIDAVITS AND OTHER PROOF in support of claims for deferred classification on industrial grounds MUST BE FILED WITH THE LOCAL BOARD, except such proof as the District Board may directly require, and all additional affidavits and other written proof must be legibly written or typewritten on one side only of white paper of the approximate size of this sheet.

Q. 1. Are you engaged in an industrial enterprise necessary (*a*) to the maintenance of the Military Establishment, or (*b*) to the effective operation of the military forces, or (*c*) to the maintenance of national interest during the emergency? A. 1. _____
(Yes or no.)

If your answer is "no," do not answer any other questions and do not sign your name.

Q. 2. Do you claim deferred classification on the ground that you are so engaged? A. 2. _____
(Yes or no.)

GROUP A.—DESCRIPTION OF THE ENTERPRISE.

Q. 3. State the name under which the enterprise is conducted, and its exact location (post-office address).

A. 3. _____

Q. 4. When was the enterprise established? A. 4. _____

Q. 5. What is produced or what service is performed by the enterprise? A. 5. _____

Q. 6. In what respect do you claim the enterprise is necessary (*a*) to the maintenance of the Military Establishment, or (*b*) to the effective operation of the military forces, or (*c*) to the maintenance of national interest during the emergency? A. 6. _____

_____

Q. 7. State (*a*) whether the enterprise is now engaged as contractor or subcontractor on work for the United States or a cobelligerent. (*b*) If so engaged, state which Government and the nature and extent of such work. A. 7. (*a*) _____; (*b*) _____
(Yes or no.)

_____

Q. 8. If so engaged as subcontractor, state name and address of principal contractor. A. 8. _____

_____

GROUP B.—RELATION OF REGISTRANT TO THE ENTERPRISE.

Q. 9. Are you (*a*) an employee, (*b*) sole owner, (*c*) part owner, as a stockholder or as a partner? A. 9. _____

_____

Q. 10. What part of your working time do you give to this enterprise? A. 10. _____

Q. 11. If engaged in other work or business, describe it. A. 11. _____

Q. 12. State your education, training, and experience for the work you are now doing. A. 12. _____

_____

Q. 13. When did your connection with the enterprise you have described begin? A. 13. _____

Q. 14. Describe the specific work you perform. A. 14. _____

Q. 15. How long have you been engaged in this particular line of work? A. 15. _____

Q. 16. What pay do you receive by the day, week, or month? A. 16. _____

Q. 17. State (*a*) whether you have charge or supervision of other workers; (*b*) If so, how many?

A. 17. (*a*) _____ (*b*) _____ _____
(Yes or no.)

Q. 18. How many persons are employed in the entire plant or other division of the enterprise in which you work?
A. 18. _____

Q. 19. How many other persons in such plant or division are engaged in the same kind of work you do?
A. 19. _____

Q. 20. Are any of your relatives engaged in the enterprise as executives or owners (for example, as manager, superintendent, treasurer, director, partner, sole owner, or controlling stockholder)? A. 20. _____
(Yes or no.)

Q. 21. If so, state the name, age, relationship to you, and relation to the enterprise of each of such persons.
A. 21. _____, _____, _____, _____
_____, _____, _____, _____
_____, _____, _____, _____

Q. 22. State the reasons why you can not be easily replaced by another person. A. 22. _____
_____

GROUP C.—TO BE ANSWERED ONLY BY A REGISTRANT WHO IS THE SOLE OWNER, A STOCKHOLDER, OR A PARTNER IN THE ABOVE-DESCRIBED ENTERPRISE.

Q. 23. State whether the business is conducted as a corporation, joint-stock company, or partnership.
A. 23. _____

Q. 24. When did you acquire your interest in the enterprise? A. 24. _____

Q. 25. Did you originate or assist in originating the enterprise? A. 25. _____

Q. 26. How many persons are employed in the business? A. 26. _____

Q. 27. What is the total capital invested in it? A. 27. _____

Q. 28. What is the amount of your present investment therein? A. 28. _____

Q. 29. What were the net earnings of the business for the last 12 months? A. 29. _____

Q. 30. Did you acquire your interest from a relative or relatives? A. 30. _____
(Yes or no.)

Q. 31. If so, state the name, age, relationship to you, residence, and present occupation of each of such persons.
A. 31. _____ _____ _____ _____ _____
_____ _____ _____ _____ _____
_____ _____ _____ _____ _____

Q. 32. State the name, age, residence, relationship to you, and occupation of each of your partners; or if not in partnership, give such information as to each of your relatives who is a stockholder.
A. 32. _____ _____ _____ _____ _____
_____ _____ _____ _____ _____
_____ _____ _____ _____ _____

Q. 33. If you have any relatives not already mentioned, who have heretofore been engaged in this enterprise in any capacity, state the name, age, residence, relationship to you, and present occupation of each of such persons and the nature of the interest that they had in the business.
A. 33. _____ _____ _____ _____ _____
_____ _____ _____ _____ _____
_____ _____ _____ _____ _____

Q. 34. If you claim that none of the relatives or other persons mentioned in your replies to the foregoing questions can take your place during your absence, state the reasons.
A. 34. _____

Q. 35. State any other facts which you consider necessary to present fairly the industrial enterprise you have described, or your connection with it, as a ground for deferred classification.
A. 35. _____
_____
_____
_____
(Signature of registrant.)

For supporting affidavits see end of Series XII, page 15 of this Questionnaire.
See also Sections 80, 81, and 86 to 89, inclusive, S. S. R.

SERIES XII. AGRICULTURAL OCCUPATION.

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "yes," he must answer ALL the remaining questions, except as stated in the interlined instructions, and must sign his name. If the registrant claims deferred classification on the ground of engagement in agriculture, he must secure the two affidavits at the end of this series of questions, of two persons, in conformity with the following rules:

1. If the registrant is an employee, affidavit No. 1 must be made by his employer and affidavit No. 2 by a near neighbor.
2. If the registrant is the sole owner of the land, both supporting affidavits shall be made by near neighbors.
3. If the registrant is the owner of the land with another, affidavit No. 1 shall be made by the co-owner and affidavit No. 2 shall be made by a near neighbor.
4. If the registrant is a tenant of the land or a tenant with another, affidavit No. 1 must be made by the owner of the land or the latter's agent, and affidavit No. 2 by a near neighbor.

ALL AFFIDAVITS AND OTHER PROOF in support of claims for deferred classification on agricultural grounds MUST BE FILED WITH THE LOCAL BOARD, except such proof as the District Board may directly require; and all additional affidavits and other written proof must be legibly written or typewritten on one side only of white paper of the approximate size of this sheet.

Q. 1. Are you engaged in an agricultural enterprise? A. 1. ..... (Yes or no.)

If your answer is "no," do not answer any other questions and do not sign your name.

Q. 2. Do you claim deferred classification on the ground that you are so engaged? A. 2. ..... (Yes or no.)

GROUP A—GENERAL INFORMATION AS TO REGISTRANT.

Q. 3. How long have you worked at farming and what special training have you had?

A. 3 .....

Q. 4. State the nature of your present enterprise (such as general farming, fruit raising, cattle ranch).

A. 4. .....

Q. 5. Are you the directing and managing head of this enterprise? A. 5. ..... (Yes or no.)

Q. 6. State whether you are a laborer, overseer, hired manager, share cropper, lessee, or owner of the farm, and if none of these terms indicate your connection with the farm, state what it is. A. 6. .....

.....

Q. 7. (*a*) Do you live on the farm where you work? (*b*) If not, how far away? A. 7. (*a*) ..... (Yes or no.) (*b*).....

Q. 8. What part of your working time do you give to the farm? A. 8. .....

Q. 9. If engaged in other work or business, describe it. A. 9. .....

GROUP B—DESCRIPTION OF ENTERPRISE. (If you are a tenant, describe only the land you rent.)

Q. 10. State (*a*) the total area of farm; (*b*) acres under cultivation. A. 10. (*a*) .....; (*b*) .....

Q. 11. What is the character of the land not cultivated (such as pasture, timber, swamp)? A. 11. .....

Q. 12. What kind of crops are grown and what is the acreage of each?

A. 12. .....

Q. 13. State (*a*) number and kind of live stock usually kept on the farm. (*b*) Who owns it?

A. 13. (*a*) ..... (*b*) .....

Q. 14. State the amount of each crop and the total value of dairy products produced on the farm during the last 12 months. A. 14. .....

.....

Q. 15. State gross receipts from all live stock actually sold off the farm during the last 12 months. A. 15. .....

Q. 16. State value of the buildings on the land. A. 16. .....

Q. 17. State the value of the farm, including all improvements. A. 17. .....

Q. 18. State (*a*) the value of all farming equipment (including live stock kept for work) used on the farm; (*b*) Who owns it? A. 18. (*a*) ..... (*b*) .....

Q. 19. (*a*) How many male persons work on the farm? (*b*) In what capacity do they work (such as laborer, manager, share cropper), and how many of each? A. 19. (*a*) _____; (*b*) _____

_____

Q. 20. (*a*) Are any of these workers sons or sons-in-law of the head of the enterprise? (*b*) If so, how many and age of each. A. 20. (*a*) _____ (Yes or no.); (*b*) _____

GROUP C—CONCERNING REGISTRANT'S FAMILY.

Q. 21. Give the following information as to each of your relatives residing on the farm where you work.

	Name.	Age.	Relationship.	Occupation.	Classification under S. S. R.
A. 21.					

Q. 22. If you have a father, brothers, sisters, half brothers, half sisters, or brothers-in-law not living with you on the farm where you work, state as to each:

	Name.	Age.	Married or single.	Relationship.	Occupation.	Whether owning or leasing a farm.	Living—miles from me.	Classification under S. S. R.
A. 22								

Q. 23. Why can not your father or one or more other relatives mentioned in your replies to questions Nos. 21 and 22 continue the enterprise successfully without you? A. 23. _____

_____

Q. 24. If your father is in poor health, describe his condition and give name and address of his regular physician. A. 24. _____

NOTE.—If you claim that your father or other relative interested with you in the enterprise is incapacitated to manage the farm, attach to your questionnaire an affidavit of a reputable physician stating that he personally knows such relative's physical condition and what that condition is.

GROUP D—TO BE ANSWERED ONLY BY A REGISTRANT WHO IS A LABORER, OVERSEER, OR HIRED MANAGER.

Q. 25. State name, age, relationship to you, and occupation of your employer.

A. 25. _____

Q. 26. Is your employer the owner or tenant of the land? A. 26. _____

Q. 27. How long has he owned or leased it? A. 27. _____

Q. 28. (*a*) Does your employer live on the land? (*b*) If not, how far away? A. 28. (*a*) _____ (Yes or no.); (*b*) _____

Q. 29. How long have you worked on the farm for your present employer? A. 29. _____

Q. 30. What pay do you receive in cash or in produce and do you receive board and lodging?

A. 30. _____

GROUP E—TO BE ANSWERED ONLY BY REGISTRANT WHO IS A LESSEE OR SHARE CROPPER.

Q. 31. State the name, age, relationship to you and occupation of the owner.

A. 31. _____

Q. 32. State (*a*) when you first rented this land and (*b*) when your lease or agreement will end?

A. 32. (*a*) _____ (*b*) _____

Q. 33. What rent do you pay? A. 33. _____

Q. 34. (*a*) Does the owner live on the land you rent? (*b*) If not, how far away? A. 34. (*a*) _____ (Yes or no.); (*b*) _____

Q. 35. If any other person or persons are interested in the renting of the land with you, state the name, age, relationship to you, residence, occupation, and extent of the interest of such person or persons.

A. 35. _____

_____

_____

Q. 36. (*a*) Do you sublet any part of the land you rent. (*b*) If so, how much and to whom?

A. 36. (*a*) _____ (Yes or no.); (*b*) _____

GROUP F—TO BE ANSWERED ONLY BY REGISTRANT WHO IS OWNER OR OWNER WITH ANOTHER.

Q. 37. State when and from whom you acquired the land or interest therein. A. 37. _____

Q. 38. Did you acquire it by deed, will, or inheritance? A. 38. _____

Q. 39. If acquired from a living relative, state his name, age, relationship, residence, and occupation.

A. 39. _____

Q. 40. (*a*) What was the purchase price? (*b*) How much have you paid on the purchase price?

A. 40. (*a*) _____ (*b*) _____

Q. 41. If any part of the purchase price was furnished by a relative, state his name, relationship to you, and amount so furnished. A. 41. _____

Q. 42. If you are not the sole owner, state your interest and the name, age, relationship to you, residence, occupation, and nature of the interest of each co-owner.

A. 42. _____

_____

Q. 43. State fully how you operate your farm (for example, personally, with your father or brother, by tenants, or by a hired manager). A. 43. _____

Q. 44. State any other facts which you consider necessary to present fairly the agricultural enterprise you have described, or your connection with it, as a ground for deferred classification.

A. 44. _____

_____

See Secs. 80-85, inclusive, S. S. R.

_____
(Signature of registrant.)

AFFIDAVITS TO BE USED IN SUPPORT OF EITHER INDUSTRIAL OR AGRICULTURAL CLAIMS.

SUPPORTING AFFIDAVIT No. 1.

STATE OF _____, *County of* _____, *ss:*

I, _____ (Name of affiant.), do solemnly swear—affirm—(Strike out one.) that I reside _____ (State distance.) from _____ (Name of registrant.), the registrant herein named; that my occupation is _____; that I have read the foregoing questions Nos. _____ to _____, inclusive; that I occupy the following position in the enterprise mentioned in said answers, namely, _____ (Insert here either affiant's position in said enterprise or the word "none," as the case may be.) that I occupy the following relationship toward said registrant in said enterprise, namely, _____ (Here state in what respect affiant is registrant's superior, or the word "none," as the case may be.) that I know of my own knowledge that the answers to questions Nos. _____ (Insert here question numbers in figures.) are true; that I am reliably and fully informed and believe that the answers to questions Nos. _____ (Insert here question numbers in figures.) are true; and that my relationship by blood or marriage to said registrant is _____ (Insert here either relationship or "none," as the case may be.)

_____
(Signature of affiant.)

Subscribed and sworn to before me this _____ day of _____, 191 .

_____ (Signature of officer.) _____ (Designation of officer.)

SUPPORTING AFFIDAVIT No. 2.

STATE OF _____, *County of* _____, *ss:*

I, _____ (Name of affiant.), do solemnly swear—affirm—(Strike out one.) that I reside _____ (State distance.) from _____ (Name of registrant.), the registrant herein named; that my occupation is _____ that I have read the foregoing questions Nos. _____ to _____, inclusive; that I occupy the following position in the enterprise mentioned in said answers, namely, _____; (Insert here either affiant's position in said enterprise, or the word "none," as the case may be. that I occupy the following relationship toward said registrant in said enterprise, namely, _____; that I know of my own knowledge that the (Here state in what respect affiant is registrant's superior, or the word "none," as the case may be.) answers to questions Nos. _____ are true; that I am reliably and fully (Insert here question numbers in figures.) informed and believe that the answers to questions Nos. _____ are true; (Insert here question numbers in figures.) and that my relationship by blood or marriage to said registrant is _____ (Insert here either relationship, or "none," as the case may be.)

_____
(Signature of affiant.)

Subscribed and sworn to before me this _____ day of _____, 191 .

_____ (Signature of officer.) _____ (Designation of officer.)

NOTE.—See Sections 10 and 95, S. S. R.

REGISTRANT'S AFFIDAVIT.

IMPORTANT INSTRUCTIONS.—1. If the registrant can not read, the questions and his answers must be read to him by the officer who administers the oath, and if the registrant can not write, his cross-mark signatures must all be witnessed by the same officer.

2. None of the printed matter of the affidavit may be added to, erased, or stricken out, except the word "swear" or "affirm" as the case may be.

OATH.

STATE OF _____, *County of* _____, *ss:*

I, _____, do solemnly swear—affirm—(Strike out one.)—that I am the registrant named and described in the foregoing questions and answers; that I have signed my name to my answers, and that I know the contents of my said answers, and that all and singular the statements of fact in my said answers to said questions, respectively, are true, and that my beliefs and opinions therein stated are my true beliefs and opinions.

_____
(Signature of registrant.)

Subscribed and sworn to before me this _____ day of _____, 191 .

_____ (Signature of officer.) _____ (Designation of officer.)

NOTE.—See Sections 10 and 95 S. S. R.

1. MINUTE OF ACTION BY LOCAL BOARD ON CLAIM FOR DEFERRED CLASSIFICATION.

The Local Board classifies the registrant as shown on the Cover Sheet hereof because it finds that.....

.....

.....

(Date.) (Member.)

2. RECOMMENDATION BY LOCAL TO DISTRICT BOARD ON INDUSTRIAL OR AGRICULTURAL CLAIM.

.....

.....

.....

(Date.) (Member.)

3. CLAIM OF APPEAL TO DISTRICT BOARD.

I hereby claim appeal from classification by the Local Board in Class ..... in Division ..... and Class ..... in Division ..... and Class ..... in Division ..... and .....

.....

(Date.) (Signature of claimant.)

4. MINUTE OF ACTION BY DISTRICT BOARD ON {1. Appeal from Local Board. 2. Classification by District Board.}

The District Board { reclassifies / classifies } the registrant as shown on the Cover Sheet hereof because it finds that .....

.....

.....

(Date.) (Member.)

5. MINUTE OF REASONS OF {District / Local} **BOARD FOR** {1. Extending time. 2. Refusing to extend time.}

The application of the registrant to have the time for filing claim and proof extended is { granted / refused } for the reason that .....

.....

.....

(Date.) (Member.)

6. CLAIM OF APPEAL TO PRESIDENT.

I hereby claim appeal to the President from classification by the District Board in Class ..... in Division ..... and Class ..... in Division ..... Certificates and recommendations required by section one-hundred eleven, S. S. R., are attached.

(Date.) (Signature of claimant.)

P. M. G. O. Form 1001-d

KEY LIST OF OCCUPATIONS.

DIRECTIONS.—Look carefully through this list. The main occupations are printed in black-letter type; then, in smaller type, the most important kinds of job or special work within each occupation. Each job or special work has a key number and letter printed after it. (In a few instances there is a number only.) When you have found your occupation and job on the list, turn to the Questionnaire, page 3, question 5, and fill out the blanks with the names of your occupation and your job and the key number and letter. Do NOT forget to enter the key number and letter.

Always in line (a) enter the occupation in which you are at present engaged. If you are qualified to do other work, fill out line (b) of question 5.

If you do not find your occupation, simply fill out the answer to question 5, without entering any key number, BUT look very carefully before you decide that your occupation is not named in the key list.

Accountant:
- Certified public accountant ... 37–ac
- Cost accountant ... 37–co
- General ... 37–g

Airplane mechanic:
- Airplane cloth worker ... 76–ai
- Assembler ... 61–a
- Engine ... 61–e
- Propeller maker (tester) ... 61–p
- Rigger ... 61–r

Architect ... 64–s

Artist (camouflage):
- Landscape architect. 64–l
- Moving-picture scene builder ... 62–m
- Plaster, clay molder. 62–p
- Scene painter ... 62–sc
- Staff worker ... 62–st

Auditor ... 37–au

Auto driver (see chauffeur).

Auto mechanic:
- Assembler ... 24–a
- Battery ... 24–b
- Carburetor ... 24–c
- Chassis and body (also truck) ... 24–ch
- Electric starting and lighting ... 24–el
- Engine ... 24–e
- Engine tester ... 24–et
- General repairman ... 24–g
- Inspector ... 24–i
- Magneto and ignition ... 24–m
- Motor cycle repairman ... 24–mo
- Radiator ... 24–r

Bacteriologist ... 74

Baker ... 40–b

Barber ... 45

Blacksmith:
- Angle smith ... 19–sh
- Drop forger ... 7–d
- Forge-shop heater ... 7–f
- Forging-machine operator ... 7–fm
- General blacksmith. 7–g
- Hammersmith ... 7–ha
- Horseshoer ... 7–h
- Locomotive ... 7–l
- Ship and boat ... 7–s
- Spring maker and fitter ... 7–sp
- Tool dresser ... 7–to
- Tractor trackman ... 7–tr
- Machine-tool dresser. 7–t
- Wagoner ... 7–wa
- Wheelwright ... 7–w

Boilermaker:
- Caulker ... 63–c
- Flanger ... 63–f
- Flange turner ... 63–ft
- Flue welder ... 63–fw
- Locomotive ... 63–l
- Locomotive-flue setter ... 63–lf
- Plate and tank worker ... 63–p
- Riveter, hand ... 63–rh
- Riverter, pneumatic 63–rp
- General ... 63–g

Brick or stone mason:
- Bricklayer ... 26–g
- Stonecutter ... 26–sc
- Stone setter ... 26–s

Butcher:
- Butcher ... 41–b
- Killer ... 41–k

Canvas worker:
- Awning or tent maker ... 76–a
- Circus-tent man ... 76–c
- Inspector ... 49–ca
- Sailmaker ... 76–s

Carpenter:
- Boat ... 8–b
- Bridge (timber) ... 8–br
- Cabinetmaker ... 8–cb
- Carriage (wagon) ... 8–c
- Concrete forms ... 8–co
- Dock ... 8–d
- General ... 8–g
- House ... 8–h
- Packer, instrument ... 8–i
- Pattern maker, wood 8–p
- Railroad car ... 8–rr
- Ship ... 8–s
- Wood worker (hand) 8–wh
- Wood worker (machine) ... 8–wm

Caterer or Restaurateur ... 40–ca

Caulker:
- Boiler or structural steel ... 63–c
- Wooden ship or boat 36–c

Chauffeur or Auto driver:
- Pleasure car or light truck ... 22–a
- Heavy truck ... 23–t
- Motor cycle ... 22–m
- Tractor (gasoline) ... 23–tr
- Truckmaster ... 23–tm

Chemical engineer ... 67–ce

Chemist or Chemical worker:
- Acids and dyes ... 67–a
- Explosives ... 67–e
- Fireworks ... 67–f

Chemist or Chemical worker—Contd.
- Food analyst ... 67–fo
- General ... 67–g
- Inorganic ... 67–i
- Metallurgical ... 67–m
- Organic ... 67–o
- Poisonous gases ... 69–p

Civil engineer (see surveyor):
- Bridge ... 105–br
- Buildings ... 105–b
- Concrete ... 105–c
- Highways or streets ... 105–h
- Hydraulic ... 105–hy
- Irrigation ... 105–i
- Railroad ... 105–rr
- Water supply and drainage ... 105–w

Clerical worker (not store clerk):
- Bank ... 38–ba
- Bookkeeper ... 38–b
- Computing machine operator ... 38–co
- General ... 38–g
- Postal ... 38–po
- Railroad ... 38–rr
- Ship, boat, or dock ... 38–s
- Shipping clerk ... 18–s

Clothing cleaner ... 75–d

Compressor operator, air or gas ... 77

Concrete or cement workers ... 9

Confectioner ... 40–co

Construction foreman:
- Bridge ... 50–br
- Buildings ... 50–b
- Caisson ... 50–ca
- Concrete ... 50–c
- Earthwork ... 50–ea
- General ... 50–g
- Highways (streets) ... 50–h
- Railroad track ... 50–rr
- Water supply and drainage ... 50–w

Cook ... 40–c

Cooper ... 80

Crane operator, Pile driver, etc.:
- Ditcher operator ... 70–d
- Dredge operator ... 70–sh
- Electric crane or hoist ... 70–e
- Gantry crane operator ... 70–ga
- Gasoline crane or hoist ... 70–gs
- Pile driver ... 70–p
- Shovel operator ... 70–sh

Crane operator, Pile driver, etc.—Con.
- Steam crane or hoist. 70–s
- Well driller ... 70–we
- Wrecking crane engineman ... 70–w

Detective or policeman ... 82

Dog trainer ... 83

Draftsman:
- Architectural ... 29–a
- Bridge ... 29–br
- Cartographer ... 29–tp
- Machine designer ... 29–mc
- Map maker ... 29–mp
- Mechanical ... 29–m
- Railway shop ... 29–rr
- Ship and boat ... 29–s
- Structural ... 29–st
- Surveying ... 29–su
- Tool designer ... 29–to
- Topographical ... 29–tp

Electrical engineer ... 10–ee

Electrician (see lineman):
- Armature winder ... 10–ar
- Electrical shop repairman ... 10–es
- General ... 10–g
- Generator tender (dynamo) ... 10–gt
- Motion-picture operator ... 34–mo
- Searchlight ... 10–se
- Storage battery ... 10–st
- Switchboard ... 10–sw
- Wireman ... 10–w.

Employment manager ... 85–e

Engineman:
- Compressor ... 17c
- Gasoline ... 25–s
- Locomotive ... 17–l
- Marine and boat ... 17–m
- Pump man ... 95–pu
- Road roller ... 17–r
- Stationary ... 17–s
- Tractor (steam) ... 17–tr

Engraver, stencil and die ... 86

Farmer or farm laborer:
- Stock ... 2–s
- General or other ... 2f

Farrier or veterinarian ... 28

Fire department man ... 63

Fireman:
- Locomotive ... 17–l
- Stationary ... 17–s

- **Foundry man:**
  - Core maker — 20-c
  - Cupola tender (melter) — 20-cu
  - Furnace and ladle man — 20f
  - Molder — 20-m
- **Gas maker:**
  - Acetylene — 69-a
  - Hydrogen, oxygen — 69-h
  - Illuminating gas — 69-i
  - Poisonous gas — 69-p
- **Gunsmith** — 11
- **Horseman** (see teamster):
  - Hostler, stableman — 27-h
  - Trainer — 27-tr
- **Inspector:**
  - Air brake — 15a
  - Auto mechanic — 24-i
  - Canvas — 49-ca
  - Cartridge and shell — 49-c
  - Cloth and clothing — 49-cl
  - Food — 49-fo
  - Forage — 49-fr
  - Leather and harness — 49-l
  - Locomotive — 49-lo
  - Sanitary — 49-s
  - Shoes — 49-sh
- **Instrument maker** or **repairer:**
  - Camera repair man — 72-c
  - Electrical — 72-e
  - Engineering — 72-en
  - General — 72-g
  - Jewelry repair man — 72-j
  - Lens grinder — 72-l
  - Mechanical — 72-m
  - Nautical — 72-n
  - Optical — 72-o
  - Surgical — 72-s
  - Typewriter repair man — 72-t
  - Watch and clock repair man — 72-w
- **Interpreter:**
  - French — 52
  - German — 53
  - General — 54
- **Laborer** — 3
- **Laundryman:**
  - Laundry foreman — 75-lf
  - Laundry worker — 75-l
- **Leather worker:**
  - Beltman — 47-b
  - Cobbler, shoemaker — 47-c
  - Harness maker — 47-h
  - Machine sewer — 47-m
  - Saddler — 47-s
- **Lineman:**
  - Cable man, submarine — 32-s
  - Cable splicer — 32-tc
  - High tension — 32-h
  - Line patrolman — 32-l
  - Power — 32-p
  - Telegraph and telephone lineman — 32-t
- **Lumberman:**
  - Axman — 35-a
  - Sawyer — 35-s
  - Scaler — 35-sc
- **Machinist** or **mechanic** (see auto mechanic and airplane mechanic):
  - Assembler — 6-a
  - Bench hand — 6-b
  - Die sinker — 6-di
- **Machinist** or **mechanic**—Contd.
  - Machine tool hand — 6-mt
  - Machinist, general — 6-g
  - Master mechanic, construction — 6-mm
  - Mechanic, general — 6-mc
  - Miller — 6-ml
  - Planer — 6-pl
  - Railroad car repairer — 6-rr
  - Railroad shop mechanic — 6-rs
  - Toolmaker — 6-to
- **Mariner** or **boatman:**
  - Diver — 36-d
  - Mariner, or boatman — 36-m
  - Master — 36-ma
- **Masseur** — 43-n

  - Woodworker (machine) — 8-wm

Official U. S. Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, MONDAY, SEPTEMBER 9, 1918. No. 407

Preference List of Industries and Plants Classified According to Their Importance As Related to the Prosecution of the War

THIRTY-FIVE MEN ARE KILLED ON THE U. S. SHIP MT. VERNON WHEN STRUCK BY A TORPEDO

SENATOR LEWIS WAS A PASSENGER

Vessel Put Back to French Port Under Her Own Steam—List of the Dead and Home Addresses of the Next of Kin.

The Navy Department has received a dispatch from Vice Admiral Sims stating that 35 men were killed by the explosion when the U. S. S. *Mount Vernon* was struck by a torpedo. The *Mount Vernon* has reached port and all the other members of the crew are reported saved. Sen. James Hamilton Lewis, of Illinois, was on the ship, returning from Europe, and was among those reported safely landed.

The *Mount Vernon* was torpedoed last Thursday about 200 miles from the French coast, but put back to port under her own steam. The dispatch states that the torpedo struck the ship on the starboard side, flooding No. 4 fireroom, but the extent of the damage is not stated.

Names of the Men Killed.

Following are the names and next of kin of the men killed by the explosion on the Mount Vernon:

Adelbert Elmer Armitage, fireman, second class. Mother, Mrs. Josephine Armitage, Montrose, Colo.

Homer Roy Beauchamp, fireman, second class. Father, Ferdinand Beauchamp, 750 Chicopee Street, Willimansett, Mass.

Peter Joseph Bergemann, fireman, second class. Father, William Bergemann, 119 North Lake Street, Madison, Wis.

Max Felix Gustav Buder, fireman, second class. Father, Max Buder, 10 Days Lane, Webster, Mass.

Ralph Hutchinson Burke, fireman, second class. Mother, Mrs. Lizzie Sylvester, 83 Western Avenue, Auburn, Me.

Maurice Frederick Burns, fireman, third class. Father, Henry J. Burns, 129 Eutah Street, East Boston, Mass.

Robert Orville Carver, engineman, second class. Father, Randolph Orville Carver, Poplarville, Miss.

James E. Crabtree, fireman, second class. Father, Bertie Alma Crabtree, Beaver, Ohio.

Paul Homer Crockett, fireman, second class. Father, John J. Crockett, Raven, Va.

George H. Dukes, fireman, third class, Mother, Mrs. Alice Elizabeth Dukes, Hendersonville, N. C.

MASTER KEY GOVERNING ALL PRIORITIES

Schedule Issued by the War Industries Board Basis for Draft Exemption and a Factor in the Distribution of Labor, Capital, and Materials — Supersedes All Previous Lists — Grouped in Four Major Classes.

Bernard M. Baruch, chairman of the War Industries Board, authorizes the following:

The preference list of industries and plants, compiled by the priorities division of the War Industries Board, is herewith presented. This list is the master-key governing the flow of basic industrial elements to the industries essential to the war program. It supersedes all previous listing.

It is the basis for industrial exemption from the draft, and may be regarded as the governing factor in the distribution of labor, capital, facilities, material, transportation, and fuel.

Major Industries Grouped.

The priorities division has grouped major industries according to their relative importance into four great classes, consideration being given in this grouping to these factors: (1) Intrinsic importance of the product for use during the war and the urgency; (2) necessity for maintaining or stimulating and increasing the total quantity of production; (3) proportion of the capacity of the industry or plant devoted to the production of essential products. Each industry or plant is given a class number.

Judge E. B. Parker, chairman of the priorities division, states the determination of the relative importance of all industries and plants for both production and delivery by a single agency, the War Industries Board, renders it possible to maintain a well-balanced program with respect to the several factors entering into production, which includes, among other things, plant facilities, fuel supply, or electrical energy, labor, and transportation, without all of which production is impossible.

Secretary Baker Praises Conduct of Officers and Men on Mount Vernon

Secretary Daniels has received the following cablegram from Secretary of War Baker, who is now in France:

"I have just visited and viewed the Mt. Vernon. The high spirited morale of its men and the masterful seamanship of its captain and officers make such a stirring story of heroism that I wish all the nations might know the splendid way in which that huge transport met and foiled the attempt to destroy it at sea. The traditions of your service are enriched by the conduct in this emergency."

Captain Douglas E. Dismukes, U. S. N., is commander of the Mount Vernon.

SECRETARY OF WAR BAKER AND PARTY ARRIVE SAFELY IN FRANCE

Voyage Made Aboard Transport Laden with Usual Quota of U. S. Troops.

The War Department authorizes the following statement:

The Secretary of War has arrived in France on official business. News of the safe arrival of Mr. Baker and an official party was received at the War Department yesterday. The voyage was made aboard a transport which carried the usual quota of United States troops. The Secretary was accompanied by Mr. John D. Ryan, Second Assistant Secretary of War; Maj. Gen. W. C. Gorgas, Surgeon General of the Army; Brig. Gen. Frank T. Hines, chief of the Embarkation Service, and Lieut. Col. George H. Baird, military aide to the Secretary of War.

CHANCE FOR QUALIFIED MEN TO HELP LABOR DEPARTMENT

Managers Needed in Communities for the Bureau of Industrial Housing and Transportation.

The Department of Labor authorizes the following:

One of the most important duties devolving upon the Bureau of Industrial Housing and Transportation of the Department of Labor is the selection of managers for its various communities which are being developed throughout the United States. Men of special qualifications, training, and temperament will be needed to fill these positions, and it is hoped that volunteers from different parts of the country will offer their services, so that the Government will get the assistance of the best men in the country in this important branch of its war work.

Importance of the Work.

The making of munitions is just as important for the winning of the war as sending men to France. Men without guns or munitions will be useless, and the Government in providing houses in connection with munition plants is taking an integral part in the manufacture of the munitions. Not only is it necessary that additional accommodations be provided in order that the men needed to make munitions may be accommodated, but the various communities must be so managed and conducted that the workmen living therein will give their best efforts to the Government. England has found that the furnishing of housing accommodations, while necessary, was not all that was necessary. In fact unless the workmen are housed in a contented manner the effort put forward in erecting the houses goes for nothing.

The management of the Government communities will involve not only the collection of rents, the supervision of repairs, and maintenance of the buildings, but it will comprise duties analogous to those of a mayor, including oversight and responsibility for sanitation, cleanliness, fire and police protection, and the general health and welfare of the inhabitants.

It is, therefore, of the utmost importance that the right kind of men offer themselves for the position of manager. Such a man should have organizing and executive ability, business experience, the habit of doing things he starts to do, a disposition to deal fairly with labor—a man who will make a success of anything he undertakes, which means a leader of men, is the type of man the officials of the Housing Corporation are looking for.

It has been decided, as a matter of policy, that communities are not to be managed by local managers. One of the reasons for the adoption of this policy is that the transfer of managers from one community to another will result in the creation of a corps of trained experts in this line of work.

All men desiring to offer their services to the Government in this capacity are urged to communicate with the operating division of the Bureau of Industrial Housing and Transportation of the Department of Labor, 613 G Street NW., Washington, D. C.

RADIO FLASH SENT TO U. S. NAVY MEN NOT TO FORGET FOURTH LIBERTY LOAN

Secretary Daniels has flashed a message to every ship and station in the Navy, asking the men of the service to prepare for the Fourth Liberty Loan campaign, which opens September 28. The message is as follows:

To the Navy:

On Saturday, September 28th, this country will launch its Fourth Liberty Loan campaign.

To the first three calls the Navy responded in a manner that thrilled the Nation. In the third campaign alone, our subscription was more than eighteen and a half million dollars. The Navy again has an opportunity to demonstrate its thrift and to proclaim once more its readiness to serve to the utmost.

The present call comes at a time when the eyes of the world are fixed more than ever before on the American Navy. To achieve another triumph in this battle against Germany, the Navy will, I am sure, be glad to exhibit the same steadfastness, energy, and sacrifice which make for victory on the high seas.

JOSEPHUS DANIELS.

STATEMENT BY MR. M'ADOO AS TO CHICAGO & WESTERN INDIANA ROAD'S EFFORTS TO RENEW LOAN

Director General McAdoo authorizes the following statement:

Commenting upon the failure of the Chicago & Western Indiana Railroad Co. to meet at maturity, September 1, $15,000,000 one year collateral 6 per cent trust notes, a New York newspaper stated that the Federal Railroad Administration was to blame because it had declined to advance the necssary funds and had refused the company permission to borrow at a rate higher than 6 per cent. Those statements are misleading.

The facts are that some weeks ago officers of that company asked aid of the Director General regarding this maturing note issue and stated that negotiations for its renewal were pending with the company's bankers. The company was advised to pursue negotiations with its bankers and if unable to renew with them to try elsewhere. On August 23 the company advised the Railroad Administration that its bankers had made no progress toward the renewal of the loan. Telegraphic inquiry was then addressed to the bankers, Messrs. J. P. Morgan & Co., as to the prospect of renewal.

Position of Morgan & Co.
